☞ Cash paid for Raw Human Hair. je17ly

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

How d'ye like It?

REPUBLICAN GAIN 203!

THE MUNICIPAL ELECTION

Passed off quietly on Tuesday, resulting in an overwhelming Republican victory. The stay-at-homes in the Republican ranks exercised their peculiar privilege in the 2d and 3d wards to their hearts' content. Not so however in the 1st ward. At an early hour the Democracy rallied, but found the vigilant Republicans on the ground. The doubtful voters were brought in early, and the tide set irresistibly towards a Republican victory. The "five hundred gain" promised the Democracy seemed afar off, and they abandoned all attempts to carry the ward. The Republicans secured two-thirds of the doubtful voters, and then the phalanx that never fails came marching in, running the entire ticket beyond the danger of defeat. Mr. Walker led the advance, as usual, far ahead of his brethren, and when the polls closed he had a clean majority of 203, a Republican gain of 133 over last March. In the 2d ward, the polls closed about 7 o'clock in the evening, 178 majority being recorded for Mr. Walker, a gain of 57. The veterans of the 3d ward decreased the Democratic majority 18, reducing it to 48. The total gain in the city is 203 — just the majority given for Mr. Walker in the 1st ward. His majority in the city is 328 over all.

The Aldermanic Board will consist of six Republicans and two Democrats; the Council will be composed of eight Republicans and three Democrats—the same as last year. The present Aldermen are all re-elected, except Mr. Fernald of the 1st ward, who has served two years and is succeeded by Mr. Isaiah Wilson. Alderman Marvin of the 2d ward is chosen for a third successive term, leading his associates on the ticket. The Republicans of Portsmouth are elated at their great triumph, and send greetings to their brethren throughout the State—"Go thou and do likewise!"

Vote for Mayor, Nov., 1870.

A Treat.

At the Dramatic Entertainment to be given at the Temple next Saturday evening, under the auspices of the Young Peoples' Christian Union, the Warren farce entitled "Poor Pillicoddy," and the piece of theatrical absurdity called the "Widow's Victim" will be presented. The latter play was given here two years ago by our amateurs, but since that time has undergone a complete revision, having been rewritten for the occasion. As "Jerry Clip," Mr. R. B. Palfrey will give imitations of some of the most popular actors of the day; he has given careful study to the peculiarities of these actors, and his imitations have been pronounced by competent judges as very close to the originals. Mr. J. A. Sanborn will in this play again give us a specimen of his dancing qualities. Look out for Stuart Robson and Morlacchi. A grand Ollio performance will be given between the farces, consisting of entirely new and amusing features.

The Firemen's Ball,

Given by Sagamore S. F. E. Co., No. 2, takes place in Congress Hall this (Wednesday) evening, or rather tonight, for though the dancing, is to commence at 8 o'clock this evening it will not finish till next morning. This is the twelfth annual ball given by No. 2's company, and is expected to eclipse any of their previous ones. Good music, good order, and a good time may be confidently looked for by those who attend. See advertisements.

Prompt and Courteous,

As in years past, the efficient Clerks of the different Wards furnished us with the election returns at the earliest moment after the closing of the polls,—for which favor we again return our thanks.

Leslies' Comedy Company

Give an entertainment at the Temple Thanksgiving Evening. See adv't.

Cold.

A foretaste of winter was shown on Tuesday, the mercury going down to nine degrees in this city.

Portsmouth Musical Society.

Meeting at Mr. Tilton's Room on Market Street, this (Wednesday) evening, at half-past 7 o clock.

The Marine Band

Have afternoon rehearsals in their Hall in Bell Tavern Block, and are producing very fine music, their selections being mostly from the popular airs of the day.

Poultry

Was cheap in the market, Tuesday. The best of turkeys were selling for 20 and 24 cents per lb., and we hear of one hotel landlord who secured his gobblers for 15 cents per lb. Chickens sold as low as 12 cents per lb.

Hon. William Parsons

Delivered a lecture on Michael Angelo, Monday evening, which entranced the audience. The honorable gentleman was eloquent and eulogistic and every person in the church listened with rapt attention. It was a rare literary feast, such as a Portsmouth audience has not sat at for many a year. Angelo's toils and troubles were pictured to the audience faithfully by the orator, whose soulful utterances showed how greatly he was engrossed in his admirable subject. The lecturer alluded to the earliest indications of genius in the great artist, progressing surely as rivals led him forward to greater success. His triumphs as an artist, a sculptor and an engineer were dwelt upon, and the crowning triumph of his life, the construction of St. Peters Church in Rome, was depicted with thrilling interest. At the age of 80, Angelo was ready to lay down his life among the scenes of his early youth, when the Pope summoned him to his greatest and most wonderful work. The man of genius commenced learning his new profession, at the age of four score years, having already mastered three professions previously. The speaker presented the difficulties attending it, contrasting the work of the artists and builders of those times with that of artists and builders to-day, modern artists blaming the sun for defects in photography, and builders copying from Angelo's productions. Ten years elapsed ere he achieved his grandest triumph and then he had transferred the greatest evidence of high art in painting the arch on a new system entirely different from necessity to that adopted in painting flat surfaces—had hung in air the Pantheon and left a monument that no man has since dared rival. The pleasantly colloquial manner in which Mr. Parsons proceeded, and the glowing descriptions that fell from his lips captivated every hearer.

The subject was a grand one. Among the list of famous mortals, the name of Michael Angelo is prominent. The lecturer had every inducement to make his words of eulogy instructive—and so thoroughly did he seem to be absorbed in his subject, that we were reminded of the most natural of actors, who forget themselve in the characters they assume. Possessed of such great gifts, such pleasing manners and such noble capacities,—even the accent of the speaker was noticeably an aid to his oratory—no one attending the lecture could have failed to be more than satisfied, and as the lecture ended we heard the opinion repeatedly expressed that we had listened to the utterances of a great man, and there was a general desire to hear him again.

The Lyceum Committee announce the fifth lecture for Friday evening next, by Rev. S. H. McCollester. Subject—and Athens Greece.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

Morning Chronicle.

Concluded from first page.

did so, 'Here, Walter, these are yours.' And then he went out. When I had finished my work I opened the papers. The first was a sort of inventory of what Osgood had owned in the business, and footed up, in square numbers, forty-nine thousand eight hundred and seventy-five dollars. The next paper was a deed conveying the whole vast property to me, and making me a partner in the concern upon equal footing with the other two."

"Well," said the old man, thumping his foot upon the carpet and keeping time with his hands, "I don't see anything very bad in that."

"But I do," replied Walter. "It is cruel to trifle with me thus."

There was something in Noah's eye again; but he managed to get it out, and he spoke thus:—

"Walter Adams, when young men used to hover about my child, I believed they were only after my gold, and I know in most cases I was correct. I believed the same of you. I knew nothing but the love of money that could underlie human action. My heart had become hardened by it, and my soul darkened. But it was for my sweet child to put warmth and light into my body. It was for her to keep before me the image of the gentle wife whom I had loved and lost, but alas! who occupied a place in my heart second to my gold. It was for my child to open gradually, but surely, the fount of feeling which had been for a lifetime closed up. I heard her pray for me—pray that she might have help from God to love me; and that was after I had refused to let her be your wife. I saw her grow pale and sorrowful, and I knew I had done it—and she loved me still. Still she prayed to God to help her—help her what? Help her to love her father! I was killing her and she tried to smile upon me. One evening I heard you both conversing in the old hut. My child chose misery and duty to her father, rather than break that duty in union with a man she loved. You uttered a prayer. You prayed that I might be penniless—stop! hear me through! You would then show your disinterestedness. I walked away and pondered. Could it be that I had found a man who would love an old wreck like myself with no money. If it was so then that would break the layer of dust from my soul. I determined to test you. I had gained a glimmering of light—my heart had begun to grow warm—and I prayed fervently that I might not be disappointed.

"I went to the bank and drew out fifty thousand dollars in bills. That night my miserable old hut was set on—or—caught fire.

"I shall always think 'twas my candle did it. But the old shell burnt down, and room was made for a better building. I came out with the wrong trunk, and the other trunk was burnt up. But the money wasn't in it. No, no. I had that safely stuffed into my bosom and deep pockets, and all buttoned up, and the next day I carried it all to the bank, and had it put in, with a few thousand more which I had not disturbed. And so my experiment commenced, and I found the full sunshine at last. Aye, Walter, I found you the noble true man I had prayed for. You took me into your home, and loved me when you thought me penniless, and you took my child to your bosom for just what God had made her. And now, my boy, I have been doing a bit of work in the dark. I've paid Mr. Osgood fifty thousand dollars for his share in the business, and it is all yours. And let me tell you one thing, my boy. If your two partners can raise $50,000 more to invest, just tell them you can raise five and twenty thousand more at twelve hours' notice. Tell 'em old Noah ain't quite shabore yet. Tell 'em he's found a heart, my boy! Come here, Agnes—come here, Walter! God bless you as you have blessed me!"

Nobody pretended that they had motes in their eyes now, for the occasion of weeping was too palpable.

—The students of Hartford have a queer idea of fun, and their efforts to produce it are singularly idiotic as well as decidedly wicked. With an ambition to be original, and without any great stock of originality on which to draw, they have abandoned all the old stereotyped college pranks and taken to the amusement of blowing up buildings in which unsuspecting people are sleeping. Their exploits in this direction last year were more destructive than brilliant, and their attempt recently made to blow up the New Holyoke House with nitro-glycerine, has resulted in the arrest of a hopeful under-graduate by the name of Browne, who, on his own confession, has been held in the sum of $1,000 to answer a criminal charge. He may fall behind in the classics during his probable termin the penitentiary, but he will at any rate learn a lesson as wholesome as any provided for in the college curriculum.—*Hearth and Home.*

—It has been proposed to present Mr. Nast with a silver service as a token of appreciation of his invaluable service in breaking up the Ring; which it would be a handsome thing to do. His genius is unquestionable, and it has been devoted to the service of honesty at great personal risk.

—A saloon keeper, having started business in a building where trunks had been made, asked a friend what he had better do with the old sign, "Trunk Factory." "Oh," said the friend, "just change the T. to a D, and it will suit you exactly."

—The horse of Governor Stamford of California trotted three miles on the Union course, in San Francisco, in 2:18 1-2, 2:19 and 2:19 1-4.

FURNISHED ROOMS WANTED.

WANTED, a furnished house, for the winter, or for one year. Apply at this office. n16tf

OFFICE OF

FISK & HATCH,

BANKERS & FINANCIAL AGENTS

OF THE

Chesapeake and Ohio Railroad Company,

No. 5 Nassau Street, New York.

The rails are being laid on the Western Division of 100 miles of the Extension of this

GREAT EAST AND WEST TRUNK LINE,

which in a short time will be ready for general travel and traffic, and for the transportation of Kanawha coal to the Ohio River for the Western markets.

The earnings of the Eastern Division of 227 miles as a local road, awaiting the completion of the Middle Division of 100 miles, will reach, this year, nearly $900,000.

The total cost of the entire road, and the large equipment required for its minerals and through traffic, will be fully $30,000,000.

The total amount of the FIRST MORTGAGE BONDS, which we are now selling, is FIFTEEN MILLION DOLLARS, of which only about FOUR MILLIONS remain unsold, **the proceeds of which, with the Cash on hand, will be ample for the Completion of the Entire Line.**

The inducements they offer to investors are:

A perfect security.

Great popularity and a high price when the road is finished.

The same rate of interest as Five-twenties.

Principal and interest both payable in United States gold coin in New York City.

Their present low price (93 and accrued interest from Nov. 1,) which is about 20 per cent. less than Five-twenties, with equal certainty of payment of interest and principal.

We recommend them to our friends and customers with the same confidence with which we have always recommended the UNITED STATES GOVERNMENT and the CENTRAL PACIFIC BONDS.

We continue to buy and sell CENTRAL PACIFIC BONDS at the market price, and fully expect they will, in time, reach the price of Five-twenty Bonds. They are dealt in at all the principal money-centres of the world; the Company have none left, and can issue no more, on their Main Line, as the amount was fixed by act of Congress at $25,885,000; the property pledged to secure the bondholders is

WORTH FULLY ONE HUNDRED MILLIONS;

the net receipts of the road for the year will be nearly three times the interest payments thereon.

THE CHESAPEAKE AND OHIO BONDS are issued in $100, $500, $1000; either coupon or registered; interest, six per cent., gold, payable May and November.

THE CENTRAL PACIFIC BONDS are all for $1000 each; interest, six per cent., gold, payable January and July, in New York City.

We buy and sell FIVE-TWENTIES, TEN-FORTIES, EIGHTY-ONES, and CENTRAL OR WESTERN PACIFICS, or receive them in payment for CHESAPEAKE AND OHIO BONDS at their current market price.

Orders for Chesapeake and Ohio Bonds, accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

Deposits from all of banks, bankers and others received, on *which we allow interest at the rate of four per cent. per annum.* Checks drawn on us on demand, at sight, without notice, the same as at a National Bank.

Certificates of Deposit, bearing interest at special rates to be agreed upon, will be issued to Savings Banks, Institutions, Trustees of Schools and others having sums of money awaiting investment.

Orders for Investment Stocks and Bonds executed at the Stock Exchange. Government Securities bought and sold, as usual, at current market rates.

FISK & HATCH.

HARVEY FISK. n7eod2m A. S. HATCH.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, No. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the places of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with Paint, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. M. SOMSON, only Agent for selling the

AVERILL CHEMICAL PAINTS,

in the City. Also Dealer in

We publish the above figures to show the uninitiated and those who contemplate purchasing, what machine is the public favorite.

The above list includes all of what are commonly called the first class machines, but the

NEW FAMILY SINGER SEWING MACHINE

Has proved itself *the best* for all classes and kinds of operators and work.

All that persons need to do to satisfy themselves of this is to enquire of those who have used them the most.

They Hem, Braid, Tuck, Quilt, Cord, Embroider, Fringes, Ruffle, Fell, Puff, Gather, Fagot, Trim, Bind.

☞ They are light running, easy to learn and keep in order and for durability unrivalled.

☞ They will stitch equally well the heaviest beaver or the thinnest muslin, in fact they will do every useful work that mechanical skill has yet perfected in the Sewing art.

☞ These celebrated Machines are Sold for Cash or on the instalment principle, as best suits convenience of the purchaser, at the Regular Agency for Portsmouth, Kittery, York, Eliot, Newcastle, Rye, Hampton, North Hampton, Hampton Falls, Greenland and Seabrook.

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever received so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. lyrdawfeb15

ODE FOR THANKSGIVING DAY,

NOVEMBER 30th, 1871.

By C.C. Haven. AIR—*Star Spangled Banner.*

Oh, let Joy unalloyed and Devotion sincere,
With praise and Thanksgiving, early greet this glad morning;
The bless rite which, when houseless, our fathers did cheer
Is our birthright bequeathed us at Freedom's first dawning.
In our homes now all free,
Which unite sea to sea,
Let this festive memorial here still honored be.
Let the sons of Columbia triumphantly sing,
And their anthems of joy o'er the Continent ring.

But while boasting a country by God's bounties cursed'd,
Where are millions of exiles from less favored nations;
With our garners o'erflowing and our people still bless'd,
We must mourn war's disasters, and dread conflagrations;
But with kindness and zeal,
All our wounds will soon heal,
As the world's generous offerings Christian friendship reveal.
Still our anthems of praise let us gratefully sing,
And rely on His care from whom all blessings spring.

While all empires are ruled by the Omnipotent hand,
It is our favored lot as a pioneer nation,
With triumphant success known in no other land,
To uphold Freedom's cause in its glorious probation.
'Twas our forefathers' pride;
For it their sons have died,
And with us and our children it shall ever abide.
Whilst the sons of Columbia exultingly sing,
And their anthems of joy o'er the Continent ring.

In this fast, reckless age of corruption and crimes
Let us pray that our nation escape from its dangers,
And with liberty moor'd 'gainst the drift of the times,
May its peace be secure and homes free for all strangers.
With our laws just and wise,
Let us guard our emprise,
That its Phœnix-like life o'er all perils may rise.
For the sons of Columbia exultingly sing,
And their anthems of Joy o'er the Continent ring.

Now let Mirth have her sway, hearty, joyous and free,
Bright daughter of Temperance with Wisdom once banded;
For pure, innocent joy more inspiring will be
Than was Jove's fabled nectar by fair Hebe handed.
Then unite in full glee,
And let all the world see
How a peace-loving people great and happy can be.
Now, once more shout the chorus with a hearty encore!
And sing God save our Union evermore, evermore.

Trenton, N. J. November, 1871.

NEW ENTRANCE TO BOSTON.—The question of a new entrance to Boston by the Eastern Railroad, to save distance and avoid dangerous crossings, is again under discussion.

When the change of route is made, which is not altogether improbable, the road will probably leave the Chelsea side of Mystic river on a new bridge some distance below the public bridge between Charlestown and Malden, and enter Charlestown at some point in the vicinity of Elm street, and then proceed nearly direct to a new bridge across Charles river. In running across Charlestown the grade would be quite easy for most of the distance, but it would be necessary to build overhead bridges and tunnel through the lower end of Breed's Hill, contiguous to the Navy Yard, for a distance of perhaps 1200 feet. The land through which it would necessarily run is not of great value, and the buildings upon it are not generally of a costly description.

It seems most feasible to the minds of some interested to cross into Boston between Beverly street and the gas works, and enter a new depot, to be located on the triangular piece of land bounded by Beverly, Charlestown and Causeway streets, where but few first-class buildings are in the way. The present depot could then be abandoned for the use of other roads in order to meet the requirements which are pressing upon them.

These statements are not official. It is simply talked of, and this plan now seems most likely to be adopted. All crossings in this vicinity, except that of the Grand Junction road, would then be avoided by this corporation, with their dangers, and the incident wear and tear of unnecessary stoppings, and some two miles of distance and some fifteen minutes of time saved. It is objected by some that travel would be interrupted considerably by the opening of a bridge so near the mouth of Charles river; but this a matter which time may serve to settle the advantage of the railroad traffic and the public travel across this river. — *Gloucester Telegraph.*

—"What are you about, dear?" said a grandmother to a little boy, who was idling about the room and casting furtive glances at a gentleman who was paying a visit. "I am trying, grandma, to steal papa's hat out of the room without letting the gentleman see it, for papa wants him to think he's out."

—A lady sitting in the same box of an opera house with a French physician, happened to gape. "Excuse me, ma'am," said the doctor, "I am glad you did not swallow me." "Give yourself no uneasiness," said the lady, "I am a Jewess, and never eat pork."

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES. — Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Disease, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

HELMBOLD'S GENUINE PREPARATION. Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

594 Broadway, N. Y., and 104 South Tenth St., Philadelphia, Pa.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give rest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

Describe symptoms in all communications.

STEAM SAFES

—AGAIN—

TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.

AM. STEAM SAFE CO.,

COLE & LAMBERT, *Managers,* 300 Broadway, N. Y.

Gentlemen:—"The Binghamton Planing Mill and Sash and Blind Factory," together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 7) made by you, and purchased one year ago from Messrs. Paige & Chaffee, Agents, in this city, was in the Planing Mill, and went through the severest part of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild. Very truly yours,

(Signed,) A. L. HARDING,

Late Proprietor Canal St. Planing Mill, Binghamton.

All Styles of Mercantile and House Safes ON HAND AND MADE TO ORDER.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs,* NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON, After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of greatest ent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.,

Boston, Jan. 1 1871.—1 yr.

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, NOVEMBER 30, 1871.

The "Crushing Machine."

Our Democratic brethren evidently dislike to take their own medicine. The original discoverers of the fact that the appointing power vested in the President could be employed as a tremendous "crushing machine" upon their political opponents, and having used it for that purpose without mercy or remorse whenever they had the power, they now cry aloud for civil service reform and tell us that such reform can only be secured by a Democratic victory. While we believe that a large proportion of the people would gladly hail the adoption of any practicable measure of civil service reform, we much doubt their looking for it at the hands of the party which first, last and always sang "To the Victors belong the Spoils."

Political.

The relative party strength of the present Congress is stated as follows: Senate, 56 republicans and 17 democrats; House, 140 republicans and 103 democrats.

The message of Governor Scott of South Carolina has been presented to the general assembly. He says that the State debt is $11,994,980, and is confident that it will be paid. The depression of the credit of the State he charges to threats of repudiation made by individuals and the press for political purposes.

The Sunday Times, of Kansas city, publishes eleven columns of letters from prominent men in Missouri, indorsing a passive democratic policy. The writers are senators, representatives, generals, judges and citizens. They evidently think suicide by laudanum an easier way for the party to die than being killed in battle.

Alderman Stewart of Brooklyn, N. Y., was shot by a man named Kelley during a bar-room quarrel on Tuesday.

In the case of Forbes against ex-Mayor Wood of New York, to recover $5000 spent for political purposes in Mozart Hall, for democratic interests, the jury gave a verdict for Wood.

The bill for the repeal of female suffrage in Wyoming passed the Cheyenne council, five yeas to four nays.

TAMMANY'S SORROWS. — The grand jury in New York are working in earnest in order to bring the city swindlers to justice. The grand jury have asked an extension of their term to enable them to investigate more fully.

A motion to admit Baulch and Haggerty, the alleged voucher thieves, to bail, has been denied.

Ex-Controller Connolly is still confined to his quarters at the New York Hotel, his efforts to procure bail having proved futile. Henry Hart, his first bondsman, has withdrawn, not being willing to trust his money to the chances of "Slippery Dick" remaining to stand trial, and the friends who are willing to trust his honor, lack $250,000 of making up the required amount.

WHITE SAVAGES—NOT APACHES.—The Boston Advetiser prints an extract from a private letter, written by a member of Lieut. Wheeler's party to a friend in Cambridge, Mass., regarding the recent massacre in Arizonia, in which Mr. Fred D. Loring of Boston was murdered. The evidence of this letter is that, whatever other crimes the Apaches may have been guilty of, they were not guilty of this one. "There is no doubt about it," the writer says, "they were not Indians nor Mexicans, the shooting was too good. White men did it—'road agents,' as they are called here." Two of the victims were shot in the eye, two in the forehead, and one in the back of the head. There has been too great a hurry, even here, where we can afford time to think, to take the worst for granted, and, on the strength of this unexplained tragedy, to condemn outright a system which has saved us from one Indian war already, and may put an end to them forever.

AN UNFOUNDED CHARGE.—The Postmaster-General, who for some days has been engaged in investigating the charge that Hon. William F. Prosser received pay while a member of Congress, for prosecuting a claim against the government, has dismissed the charge as entirely unfounded.

ONE STEP FORWARD.—Mr. Horton D. Walker, in securing the Radical nomination for Mayor of Portsmouth, which is the same thing as the election, has taken one step forward in the race for the gubernatorial nomination, which is really his great objective point, and quite an important step at that.—*Concord People.*

—A match game—Incendiarism.

COMMUNISTS SHOT.—Rossel, Ferre and Bourgeois, three leaders of the Paris commune, were executed Nov. 28, at the camp of Satorly, in the presence of three thousand troops of the line. At six o'clock the prisoners were taken from their cells to Satorly, and escorted by a large force to the place fixed upon for their execution. On arriving there a hollow square was formed by the troops, at one end of which the prisoners were placed. The behavior of the three men was most courageous. When the soldiers approached to blindfold them, Ferre refused to allow the bandage to be placed over his eyes, declaring that he should look his executioners in the face. When all the preparations were completed, the company which was detailed for the duty advanced, and, levelling their muskets at the word of command fired. Rossel fell at the first discharge, instantly killed. The others were not so fortunate; the bullets did not take immediate effect, and as they were writhing on the ground some of the soldiers of the firing party, in obedience to instructions, came up with pistols and gave the coup de grace to put them out of agony. The bodies were then placed in plain coffins and immediately removed. The execution took place in presence of three thousand troops of the line. A profound sensation was produced throughout Paris by the details of the execution.

HOW THE MONEY GOES.—At an indignation meeting of the depositors of the Stuyvesant (N. Y.) Bank, Mr. Collamore, ex-president of the bank, believed it solvent, but admitted that $368,000 was loaned to Mr. Hartman, the security to meet which was $38,000.

In spite of Controller Green's protest, the sinking fund commissioners decided to pay Bleeker's bill of $15,000 for his valuation of the city property, really worth $3000.

It is stated that a deficit of between two and three hundred thousand was discovered in the accounts of the Bowling Green Savings Bank, but that it was made good by the ring officials.

The investigations into the Harlem court-house expenses show that a quarter of a million of dollars have been expended for what could have been done for $46,000, and 200,000 have been stolen. The evidence implicates Harry Genet in the frauds.

CUBA.—Eight of the medical students who outraged the grave of Gonzalo Castanoo, in Havana, Nov. 26, were executed two days later by order of a court-martial, which also sentenced others to four and six years' imprisonment. The volunteers forced the execution. The U. S. Monitor Terror has been sent to Havana for the protection of Americans there, and the Nipsic and Kansas will follow. There are no new complications between the United States and Spanish governments, but the gunboats have been dispatched to Cuban waters on account of information received at the State department that the Spanish authorities are unable to preserve order in the face of demonstrations by the volunteers in Havana, and that American residents require protection.

A PURE PRESS.—During the war on Tammany by the Republican press, from its commencement until very recently, the coppery papers were filled with extracts from the Washington Patriot, denouncing the Administration and shovelling charges of corruption and fraud in all directions. The Republican papers almost universally paid no attention to these charges, believing (and saying) that they were made merely to distract public attention from Tammany; and whether that view of the case was correct or not, we notice that since that fact that Boss Tweed was a large owner in the immaculate Patriot came out, our Democratic cotemporaries have pretty much given up citing its charges of theft as proof positive of dishonesty in those denounced.

MEXICO.—The condition of affairs in Mexico is as bad as ever, which is saying a great deal; and the people are excited with fears of American intervention.

SENATOR SCHURZ does not seem to be successful in carrying the German vote in his pocket. In Wisconsin, he made special efforts to defeat Mr. Washburn, the Republican candidate for Governor. The Cincinnati Commercial says:—

"Upon the principle that the proof of the pudding is in the eating, it is concluded that either the reform Senator's influence with his fellow-countrymen is feebler than was supposed, or they are less dissatisfied with the administration than has been represented. In either case it is not flattering for the prospect of carrying off the German vote to the camp of the opposition."

—The fate of flowers—To be blowed.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

BUSINESS NOTICES.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay in small monthly installments if desirable. Second-hand Goods almost *given* away. Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

FOUR EVILS.—Whoever habitually uses any alcoholic preparations as an "appetizer" will be likely to suffer from four evils, viz: an overplus of food in the stomach, impaired ability to digest it, the pangs of dyspepsia, and a doctor's bill. DR. WALKER'S VEGETABLE VINEGAR BITTERS, the great Teetotal Restorative of the age, without over stimulating the palate or irritating the stomach, imparts a healthful appetite, promotes digestion, regulates the liver and bowels, purifies the blood, and thus, instead of entailing four evils, confers four inestimable benefits.

An Irishman called at a drug store to get a bottle of *Johnson's Anodyne Liniment* for the Rheumatism; the druggist asked him in what part of the body it troubled him most, "Be me soul," said he, "I have it in ivery haul and corner av me."

For loss of coal, horn ail, red water in cows, loss of appetite, rot, or murrain in sheep; thick wind, broken wind, roaring and for all obstructions of the kidneys in horses, use *Sheridan's Cavalry Condition Powders.*

SPECIAL NOTICES.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior Dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

The True Ground of Confidence.

Whence comes that firm reliance, that absolute, undoubting faith in the efficacy of HOSTETTER'S STOMACH BITTERS as a remedy for indigestion, bilious disorders, intermittent and remittent fevers, which notoriously prevail in all parts of the United States? This confidence has been growing for twenty years, and it is still extending. It is not the result of credulity; it has not been engendered by any human device, but is the spontaneous and natural consequence of experience. What people see daily going on under their own eyes they cannot question. When families in unhealthy districts, who resort to this wholesome vegetable tonic as a preventive, escape periodical fevers, and their immediate neighbors, who neglect that precaution, are prostrated by the disease, how is it possible that the phenomenon should be without its lesson? In like manner when it is seen that obstinate cases of dyspepsia, of liver complaint, of constipation, of nervous weakness, and of general debility, yield to the operation of the famous remedy, how can even incredulity itself withhold its endorsement? Eyewitnesses of the salutary effects of the bitters, are to be found in every civilized settlement on this continent. The thousands upon thousands who owe their restoration to health and strength, or their preservation from sickness to its extraordinary medicinal properties, are enthusiastic in its praise. The multitudes who recommend it in a neighborly way to their friends and acquaintances, as well as those who make public their estimate of its virtues, are always ready to state their reasons for the faith that is in them. They have all either felt or witnessed its beneficent operations.

—A little boy at Athens, N. Y., lately put a rope around his neck in the barn and then slid off the hay to frighten his sister. He succeeded admirably, and will never scare any body again.

—"Correct likeness of yourself sent and your fortune told." Young Green, in answer to the above advertisement, received a looking-glass, and was informed that he could tell his fortune by counting his money.

—A cooper of some note said that he had received the most difficult order he ever had. A neighbor brought him a bung-hole and ordered a barrel made to it. This neighbor got an idea from having seen a river bank full of swallow holes come away, leaving the holes sticking out some ten feet.

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the glose and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

AYER'S

SARSAPARILLA,

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

LOCAL AFFAIRS.

Thanksgiving Day.

No Chronicle to-morrow.

There will be divine service in St. John's Church to-day, with a discourse and collection in behalf of the Orphans' Home.

Rev. Carlos Martyn will deliver a discourse this morning in the North Church.

The Post Office will be open from 8 o'clock, A. M., to noon, and from 5 to 6 o'clock P. M., for the delivery of mail matter.

This evening Miss Emma Reignolds, Mr. Thos. H. Burns and Leslie's Comedy Company, give an entertainment at the Temple,—advertised in another column. The performers are too well known here, as always giving a good show, to need any further announcement to secure a full house.

The Estate

Corner of Fleet and State Streets, owned by heirs of the late J. M. Mathes, was sold to Dr. J. F. Hall for $6505 on Wednesday, by Maj. Hackett.

Art Triumphs over Nature.

Mrs. M. E. Johnson, on Congress Street, furnishes "Hair Work" done in silk and linen,—a good deal better than real hair and only costing about half as much. So says an acquaintance of ours.

The Passing Generation.

While the business interests of Portsmouth are rapidly centering in the hands of young men, there may be noticed on the streets daily, scores of citizens who have passed the most active portion of their lives, and who in the evening of their declining years, ripening for that great change which comes to all sooner or later, are yet seen about our thoroughfares. They attract the attention of strangers more readily than neighbors. No city in the country is more noted than Portsmouth for the longevity of its sturdy members of old families. Noble countenances they possess, and every lineament shows the possession of character. With silver gray locks, a pronounced presence in every movement, and a dignity that can scarcely be cultivated, they belong to a generation which will soon be obliterated. There are noble ladies too, possessing the same characteristics, who have passed through the busy strife of well spent lives, manifesting their nobility of character by works of charity, whose labors shall live after them. Wonderingly we have mused in boyhood at the hidden processes that have developed these fine faces to a softened and refined beauty, missing from the ranks of these citizen fathers and mothers one and then another, until grown to manhood we find the ranks still full—still the same generous hearts, fulfilling the duties of those who have passed on, to be relieved in their turn by earnest men and women now young and we hope with like impulses to be content in doing good.

Workmen's Aid for Chicago.

The following correspondence carries its own explanation with it:—

Naval Constructor's Office,
U. S. Navy Yard, Kittery, Me.,
November 1st, 1871.

To Hon. R. B. Mason, Mayor of Chicago, Ill.

DEAR SIR:—I have respectfully to inform you in behalf of the workmen, (i. e.,) shipwrights, joiners, boat builders, spar makers, iron platers, smiths, coopers, fasteners and laborers) employed in the U. S. Navy Yard, Kittery, Me., under the cognizance of the Bureau of Construction and Repair, that we have this day deposited in the National Mechanics & Traders Bank, Portsmouth, N. H., (subject to your order) the sum of eight hundred and ninety-six dollars, ($896) to be applied under your direction, for the relief of the distressed and suffering inhabitants (by the late great fire) of your most unfortunate and deeply afflicted city.

Very Respectfully,
Your Obedient Servant,
THOS. E. WEBB.

Chicago Relief & Aid Society,
Standard Hall,
Cor. Michigan Ave. and 13th St.,
CHICAGO, Nov. 22d, 1871.

THOS. E. WEBB, ESQ.

U. S. Navy Yard, Kittery, Me.

Dear Sir:—Referring to your favor of November 16th, I beg leave to inform you that on the 5th inst., I drew on the National Mechanics & Traders' Bank, Portsmouth, N. H., in favor of George M. Pullman, Treasurer of the Chicago Relief & Aid Society. The draft was made on receipt of your letter of Nov. 1st and I supposed duly advised to you and its generous donation suitably acknowledged to the kind hearted contributors for the relief of our suffering. In the press and haste of work, it seems the recognition of this very liberal gift was omitted, which I very much regret, and I beg of you to convey to the benevolent donors the heartfelt thanks of our distressed people. Will you kindly express to the workmen, our appreciation and gratitude for their timely and generous help.

(Signed) R. B. MASON, Mayor.

Wanted,

At this office, to complete files, copies of the NEW HAMPSHIRE GAZETTE, of date November 18.

$25 Reward.

We are constantly annoyed at complaints from many of our patrons that the CHRONICLE is stolen from their premises. The thieves who abstract these papers from the doorways of their neighbors, if detected, will be made to suffer, and we offer a reward of $25 for such evidence as will result in the conviction of any person guilty of such theft.

Mixed Information.

Our local Democratic cotemporary gives two items of information. One is that this city is Democratic in reality, but that the Democracy are squelched by the Navy Yard,—anybody may believe that who chooses. The other item—and we are determined to believe this one, for it's good news—is that there is a good prospect of the old fire-trap on Pleasant Street being removed. So mote it be.

Winter

Was with us on Wednesday,—we don't care what the almanacs may say on the subject. Our fingers and nose are much better indicators of when we are being frost-bitten than all the thermometers that ever were built; and the tingling of fingers and nose, Wednesday evening, satisfied us that they were uncomfortably cold. We rarely find a mid-winter day so much out of its reckoning as that one was. We are informed that "the North Millpond furnished amusement for a large company of enthusiastic skaters on Wednesday," from which we infer that it was frozen over firmly enough to bear them. If our inference is correct and the wind does not blow too cold to-day, many persons will enjoy the unusual pastime of Thanksgiving skating.

A Card.

The dramatic entertainment under the auspices of the Young Peoples' Christian Union will be postponed from Thanksgiving evening, Nov. 30th, to Saturday evening, Dec. 2d. In apology for the above change, the committee in charge would say that unavoidably a mistake arose as to the condition under which the Temple could be had on Thanksgiving evening, and at the time they felt warranted in giving out that this entertainment would take place on that evening. At a late date they were informed that the Temple was engaged previously to other parties; hence the unavoidable change. The committee trust to the liberal patronage of the people of Portsmouth and ticket holders at their entertainment on Saturday evening.

COMMITTEE ON DRAMATICS,
Y. P. C. U.

Kittery.

Rev. Alfred Day of Canton, N. Y., has received and accepted a call to the pastorate of the Universalist Society in Kittery at a salary of $1000, and will enter upon his duties in that relation on the 1st of July next. The accession of citizens of Mr. Day's reputation must be regarded by the people as an indication of their future prosperity. Pending the installation of Mr. Day, the society will be regularly supplied by clergymen in the Universalist denomination.

A course of lectures is being given under the auspices of the Kittery High School for the purpose of purchasing an organ for the same. Rev. Mr. Hutchinson opened the course Monday evening, Nov. 27, by an interesting lecture, choosing for his subject "Our Teachers," whom he defined as those who had won for themselves the admiration of their fellow men for their high religious, moral and intellectual attainments; he quoted many sentiments from their literary productions to show their worthiness to be styled the teachers of the age, and paid a high tribute of praise to the character of Luther, Washington, Franklin and others. The lectures are held in the High School room, which has recently been enlarged and affords very good accommodations for such enterprises. It is understood that Messrs. C. L. Hayes and M. A. Safford of the Board of Superintending School Committee will lecture in the course.

TERHUNE & BERRY will have their store open this morning, and will be pleased to show their customers a full line of hats, caps, furs and gents's furnishing goods which will be offered at very low prices, and to each purchaser will be given a ticket entitling the holder to a share in the beautiful sleigh in their store window.

CHICAGO AID.—The Chicago Relief and Aid Society has received $2,508,000 in cash, for the benefit of the sufferers by the fire. Contributions came from forty States and Territories.

—An exchange says the grapes on Long Island are so large that their skins are used to cover umbrella frames. We don't believe it.

—The report that Mr. Sumner is coquetting with the Democrats for a nomination as a candidate for President, has not enough probability about it to be worth contradicting. There are two very important parties that will not agree to such an arrangement; the first is Mr. Sumner, the second is the democracy.—*Kennebec Journal.*

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, SLANES, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

MARRIAGES.

In Kittery, at the residence of the bride's father, Nov. 21, Mr. CHARLES H. JUNKINS (of the firm of S. W. Junkins & Co.,) of York, and Miss IDA WENTWORTH, daughter of Mr. Pepperell Wentworth of Kittery.

In York, Nov. 26, by Rev. Geo. M. Payne, at the residence of the late Daniel Norton, (father of the bride,) Mr. WM. B. BASTON of North Berwick, and Miss ALMIRA NORTON.—Also at the same time and place, Mr. GEO. GOODALE of Wells, and Miss ISABELLA NORTON.

DEATHS.

In York, Nov. 25, of consumption, Mrs. THEODOCIA MOULTON, wife of Mr. Charles Moulton of York, aged 41 years, 3 mos. She leaves five small children, the youngest 1½ years old.

In Gosport, Isle of Shoals, Nov. 28th, ALBERT ROBINSON, son of Mr. William Robinson, aged 17 years.

Morning Chronicle.

THE BEAUTIFUL SNOW.—"Why in ——did it snow last night?" we almost said aloud, the other morning, as we found two or three feet of snow against the door. It is hardly necessary to say that individually we did not need snow; and this singular freak of the clerk of the weather did not please us, and we came as near making unsanctified remarks as one ever should. Carpenters cannot do outside work well in a foot of snow; and tin-knockers "stop dat knocking" even if you can get them at all (which we cannot;) and painters, "mighty onertin," in the best weather, are wholly unreliable in a snowstorm. All these things made us think profanely—and we waded towards the barn in no very amiable mood. "Chickadeedee, chickadeedee!" sang a little snow sparrow, in the old birch over our head, with as happy a voice as if a foot of snow was a perfect god-send. We stopped thinking profanely, and we marvelled at the little fellow on the bough. How much more had we to sing for than he. We had a good roof over our head and warm clothes; and butcher's carts climbed even our hill to bring us meat; and men gladly drove up with flour and corn, and we—well, to say the least, we grumbled—while this blessed little bird, without a cover to his head, with not a morsel to eat, was actually singing under the lee of our chimney, as happy, nay, happier than a king. Ashamed, rebuked, and repentant, we returned to the house and came back a happier man, with our hands full of crumbs for little Junco. Can we wonder that not even a sparrow falls to the ground without His notice. And had we not good authority therefore, we would scarcely claim that "we are of more worth than many sparrows." Is there in all the Creator's children a more ungrateful one than man?—or, are we more ungrateful than our kind in general?—*Gardiner Home Journal.*

NO MORE CRYING.—The Philadelphia Post says: The Doylestown papers mention, with mingled joy and sympathy, the fact that Mr. J. D. James, who for half a century has been the crier of the Bucks County Court, has resigned his office, so that in future he will cry no more. We sincerely hope that the remnant of days that may be vouchsafed to the venerable Mr. James may be days of gladness, and that smiles, not tears, may benignly brighten his visage. The crier is an officer who has been attached to the courts of England from the earliest times. The very name is Norman, "to proclaim."

Judge Sharswood, in his speech delivered at the bar dinner several years ago, said that the crier is, generally, the only happy man in court. While suitors are troubled, and lawyers are bickering, and judges are perplexed, the crier is generally found to be asleep, in happy oblivion of the worldly cares that surround him. But he is not exempt from mortal griefs—and we have a case reported in the books, older than black-letter law itself, dating back to the time when the English reports were printed in Norman French. But we will let Judge Sharswood report it in his very felicitous speech to which we have referred. He cites the case as follows:

"The only happy man in the court is the man who is appointed to cry. That, sir, is a very old joke, which there is very good authority for saying, is to be found in the year books—liber assisarum, it may be—where a dialogue is recorded with all that dramatic vivacity which makes the year books such delightful reading, as follows: 'Beaumont, Ou le diable est ce cequin—le crier, Thomas Thompkiug, pour faire proclamation, secundrum legem?' However, sir, if you please, I will drop the low French and give it in plain English: 'Beaumont, where the devil is that blackguard, the crier, Thomas Thompkins, to make proclamation according to law?' 'Polexfen, Thompkins says he cannot cry to-day, because his wife died last night.'"

A CURE FOR LOCKJAW.—Dr. Demarquay has discovered a new method of treating that species of lockjaw which is caused by wounds. It possesses this advantage over all methods that have been tried, that while they have invariably failed, it has been successful in two cases. It appears that the persons attacked by lockjaw are peculiarly sensitive to cold, which aggravates all their symptoms and greatly increases their sufferings.

Accordingly Dr. Demarquay placed his two patients, one of whom had received a deep wound in the calf of his leg, while in the other case the lockjaw seizure had followed upon the amputation of a limb, in a room heated at from 64 to 75 degrees Fahrenheit, where they could perspire freely without fear of draughts. The spasms and muscular contractions which form the chief features in lockjaw were relieved by an extra-muscular injection of morphine, the places selected for the injections being those where the muscular contractions were most painful. The result of this treatment was that the patients were soon able to open their mouths and assuage their terrible thirst, which is one of the concomitants of lockjaw, and ultimately recovered.

—The man who invented a peach-preserver wishes to be known by his fruits.

—Swinging is said by the doctors to be very good exercise for a person's health, but many a poor wretch has come to his death by it.

—The governor of Nevada thinks that it would be a good idea to hang the escaped convicts as fast as captured, and then pardon those who refused to leave on the ground of insanity.

NEW ADVERTISEMENTS.

AYER'S

CHERRYPECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded. If the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this reason a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

Parties who will Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

CAUTION.—Beware of all pretended agents or of those who pretend to sell all kinds, as no other person has an agency for the above named city and towns from the Singer Manufacturing Company. n9 J. J. FESSENDEN.

OFFICE OF

FISK & HATCH,

BANKERS & FINANCIAL AGENTS

OF THE

Chesapeake and Ohio Railroad Company,

No. 5 Nassau Street, New York.

The rails are being laid on the Western Division of 100 miles of the Extension of this

GREAT EAST AND WEST TRUNK LINE,

which in a short time will be ready for general travel and traffic, and for the transportation of Kanawha coal to the Ohio River for the Western markets.

The earnings of the Eastern Division of 227 miles as a local road, awaiting the completion of the Middle Division of 100 miles, will reach, this year, nearly $800,000.

The total cost of the entire road, and the large equipment required for its minerals and through traffic, will be fully $30,000,000.

The total amount of the FIRST MORTGAGE BONDS, which we are now selling, is FIFTEEN MILLION DOLLARS, of which only about FOUR MILLIONS remain unsold, and the price at which, **with the Cash on hand, will be ample for the Completion of the Entire Line.**

The inducements they offer to investors are:

A perfect security.

Great popularity and a high price when the road is finished.

The same rate of interest as Five-twenties.

Principal and interest both payable in United States gold coin in New York City.

Their present low price (93 and accrued interest from Nov. 1,) which is about 20 per cent. less than Five-twenties, with equal certainty of payment of interest and principal.

We recommend them to our friends and customers with the same confidence with which we have always recommended the UNITED STATES GOVERNMENT and the CENTRAL PACIFIC BONDS.

We continue to buy and sell CENTRAL PACIFIC BONDS at the market price, and fully expect they will, in time, reach the price of Five-twenty Bonds. They are dealt in at all the principal money centres of the world; the Company have none left, and can issue no more, on their Main Line, as the amount was fixed by act of Congress at $25,000 per mile, the property pledged to secure the bondholders is

WORTH FULLY ONE HUNDRED MILLIONS;

the net receipts of the road for the year will be nearly three times the interest payments thereon.

The CHESAPEAKE AND OHIO BONDS are issued in $100, $500, $1,000; either coupon or registered; interest, six per cent., gold, payable May and November.

The CENTRAL PACIFIC BONDS are all for $1000 each; interest, six per cent., gold, fully expect they will, in time, reach the price of Five-twenty Bonds. They are dealt in at all the principal money centres of the world; the Company have none left, and can issue no more, on their Main Line, as the amount was fixed by act of Congress at $25,000 per mile;

HONESTY REWARDED.—Henry Dillon, an ex-Union soldier, residing in Newark, New Jersey, a few days since received a check for $500 from the daughter of the late General Stegman, of the Confederate army. During the war Dillon served in the Second New Jersey Cavalry, and while on a scouting expedition during Grierson's raid through Mississippi encountered General Stegman and one of his staff officers. Shots were exchanged, and the rebel General fell from his saddle, mortally wounded. The staff officer fled, but was overtaken and captured by a comrade of Dillon's. In his dying moments, General Stegman requested his slayer to take from one of his side pockets his will, bequeathing all his property to his wife and daughter, and a life insurance policy for $40,000. He asked Dillon to keep them and send them to his family. After the war Mr. Dillon advertised in vain for the owners, and resolved to retain possession of the papers until some inquiries should be made for them. Recently an advertisement appeared in the Alabama papers offering $500 reward for the missing will. Dillon answered it, and Gen. Stegman's daughter came North as the guest of Roger A. Pryor. She related the particulars of the long search for the will, the difficulties that had been encountered, the production of a forged will by her father's relatives, and their double lawsuits. She expressed deep gratitude to Mr. Dillon for the recovery of the will, and said that through it her mother and herself would be enabled to regain possession of their extensive Alabama and Georgia estates. The estates are valued at $300,000.

PETROLEUM V. NASBY thus describes how he conceived the character which has since made him famous: In 1861 I was in Hancock County, Ohio. I had determined upon a series of letters the year previous. It was in the Spring of 1861 that I wrote my first letter. The subject was secession, and I wrote up a mock article about the secession of Crawford County, Ohio. It was in type when the first battle of Bull Run occurred. I didn't think it advisable then, the whole country being in mourning, to publish it, and held the letter till Fall. About that time my second letter was written. All the border States Democracy were howling about the great influx of negroes which the war would cause. They said they wouldn't work and must go to the poor house or jails and thus be a burden to the community. There was one fellow named Flenner who lived in the town of Findley. He didn't work himself and his family were supported by the township; and yet he howled the loudest of them all. I met him one day with a petition against the negroes which he was getting signed, and made it the basis of a letter, in which I published Mr. Flenner's name. I produced this in the Hancock Jeffersonian, which I was running at the time. It had a sudden and a great popularity all over the country, and it was in this gradual manner that Mr. Nasby was born. Poor Flenner, I think he died in 100 days' service, from inducing gangrene by scratching a sore foot with a nail, in order to avoid duty.

WOMAN'S VIRTUE.—It is a prevailing vice among men—of doubting the virtue of women. To us it looks like not only an outrage to good taste, but also betokens a want of intellect.—Besides this, it betokens a besotted nature, and passions that would disgrace a beast. The idea of dragging women down to man's level, in point of virtue, is so repugnant to the feelings, so utterly at variance with the truth, that the utterer ought not to have a place in civilized society.

We would wish to impress upon those who cast this slur upon the character of the woman of our land, that if what they charge were true, this fair world of ours would be a perfect hell. The women of our land are as far above those who make these assertions as the heavens are above the earth. Our women are the highest types of purity and virtue; and any craven who would drive them from this high estate, deserves the execrations of all good men.

—Motto for grocers—Honest tea is the best policy.

—The women who are clamoring to be taught anatomy had far better learn how to carve.—*Punch.*

—The highest rate of interest that we pay is for borrowed trouble. Things that are always a-going to happen, never do happen.

—Wendell Phillips says he has given thirty years of his life to the redemption of a race, and if he is spared another ten years he hopes to be permitted to give them to the redemption of every man who works with his hands.

—On the road between Meriden and Hartford there is a saloon where decoctions of benzine are passed over a rickety bar, at the small price of five cents. Directly opposite is a country graveyard where the people for a few miles around bury their dead. The hostess of the saloon has an unfeeling signal on the side of her door as follows: "Key to the cemetery gate within."—*Danbury News.*

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following ing symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION. Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appear. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With wofal measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

Dr. Wells' Extract of Jurubeba

is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments. 4w n28

JOHN Q. KELLOGG, 18 Platt St., N. Y., Sole Agent for the United States.

Price One Dollar per bottle. Send for Circular.

STEAM SAFES

—AGAIN—

TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.

AM. STEAM SAFE CO.,
COLE & LAMBERT, *Managers,*
300 Broadway, N. Y.

Gentlemen:—"The Binghamton Planing Mill and Sash and Blind Factory," together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 1) made by you, and purchased one year ago from Messrs. Paige & Chaffee, Agents, in this city, was in the Planing Mill, and went through the severest pare of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild. Very truly yours,

(Signed,) A. L. HARDING,
Late Proprietor Canal St. Planing Mill, Binghamton.

All Styles of Mercantile and House Safes

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the patent law. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, DECEMBER 2, 1871.

Political.

John Quincy Adams has written a letter to the St. Louis Republican upon national politics, in which he strongly endorses the "passive policy" for the Democracy, as the only hope of defeating President Grant. He thinks the Democratic party is "without hope of carrying the next election," which is doubtless true, and closes by saying "we must subdue the pride of the party, and break the bonds of party discipline." We don't see how the pride of the party can be subdued, if the events of the last ten years have failed to do it.

AFTER THE ROGUES.—Judgment has been entered in the sequestration case against ex-City Treasurer Marcer of Philadelphia for $478,000, the amount of the defalcation.

Tammany is fast crumbling. Connolly, the late controller, who was arrested a few days ago, has been committed to the Ludlow Street jail in default of bail, and an order was issued on Wednesday for the arrest of Mayor Hall.

Investigations show that $179,000 of the money furnished to the Brooklyn water board, the past year, has not been accounted for. The Brooklyn reform committee ask personal and financial aid from the citizens in bringing to justice defrauders of the treasury.

WATER FAMINE IN BOSTON.—Boston had a panic on Friday, caused by the failure of the water supply, the outlet of Chestnut Hill reservoir being blocked with ice. The inconvenience was soon remedied.

THE ALEXIS BALL took place at the New York Academy of Music Wednesday night, and was all that exclusiveness, bunting, flowers, music and the caterer's art could make it.

GEN. SAMUEL E. CHAMBERLAIN has been appointed Warden of the Massachusetts State Prison to succeed Warden Haynes. Gen. Chamberlain immediately qualified.

New Publications.

Blackwood's Edinburg Magazine (Am. reprint) for November: the contents are: Fair to See, A Century of Great Poets from 1750 Downwards, Nine Idylls of Bion, Notes on Fortresses, by a historian, More Robi Di Roma,—Part III., French Home Life, The Maid of Sker,—Part IV. Price $4 per year. Leonard Scott Publishing Co., 140 Fulton Street, New York.

—It is related that a professor in the divinity school connected with one of our Eastern colleges was wont to criticise very sharply the prayers which the students were required to write periodically. One morning one of the students, being proficient in shorthand, was moved to take down the professor's own opening prayer *verbatim*, and, having written it out, he handed it in for criticism. The professor came down on his own work like the wolf on the fold, buffeted it, entreated it shamefully, ridiculed its false rhetoric, inveighed against its poor syntax, severely censured its general incongruity, and wound up by declaring, substantially, that the author thereof couldn't pray worth a cent. Of course the student informed him that he had been mangling his own offspring, and since that day a less Saturday-Review-ish style of criticism has obtained in that particular college.

—When disasters come, breaking through all efforts to resist them, we human beings have a rooted propensity to think that we suffer from too little, not too much, of the kind of resistance offered that the calamity has occurred. We have great difficulty in convincing ourselves, even in suspecting, that we are in wrong grooves. If a little persecution fails to make people orthodox, give them more of it. If much restraining and scolding has not made people virtuous, restrain the harder and scold the louder. If the whip and the dungeon fail in reducing crime, try a good deal of the gallows.—*Blackwood's Magazine.*

—John Shay, 18 years of age, employed at the Potomska Mills, New Bedford, was instantly killed by a falling piece of timber. He was standing by the boiler of the elevating engine, warming himself, when a southern pine stanchion 4 feet long and 6 inches square fell from the roof through the scuttles, a distance of 60 feet, coming down endwise, and striking him squarely on the top of the head, crushing in his skull.

—Thomas Ducey, of Lowell, recently became a happy father for the 34th time. He is 90 years old, and is living with his third wife. He came to this country 27 years ago, bringing one wife and eleven children, leaving two in the old country and one having died. The first wife died soon after his arrival. By a second he had seventeen children, and by the present wife three.

—"G. D. Alexis" is what he wrote on Brady's register when he had his Imperial photograph taken.

New Hampshire Items.

The Manchester Mirror says that Walter Lawson, who was reported to have drowned himself near Martin's Ferry, on the 22d of August, by one Isaac Anderson, is not dead; that he did not even wet his sandals in the waters of the Merrimack, but is to-day alive, and as well as such a sinner can expect to be. We are not aware of his present "local habitation," but have the assurance that he is above the earth, and has not been fed upon by worms and fishes. An investigation made by agents of the Insurance Company in which he had a life policy has proved the fact that he lives. The whole affair was a scheme in which Anderson was a party, to cheat the company out of the insurance. The real arrangement is not made public. Anderson, who is wanted as a witness in the case, and has been at work in Amoskeag, is now missing.—*Concord Monitor.*

—The New York Herald says that "among other results of the Ku-Klux investigations will be, it is understood, the introduction into the House of Representatives soon after Congress assembles of the resolutions charging membership in the 'Invisible Empire' on one or two Georgia representatives and asking for a committee of inquiry. It is intended to demand their expulsion if the charges are sustained. The representatives named in this relation are Messrs. DuBose and P. M. Young, both of whom were generals in the Confederate army, and the former of whom is a son-in-law of Toombs. The principal suspicion rests on DuBose. Reports of a similar character are in circulation as to two or three other representatives from Southern States."

THE STORY OF A HOTEL BILL.—We find this amusing story in the New York correspondence of the Boston Herald: We are all familiar with the frequent extortions practiced by hotel keepers in this country upon those of their patrons who, it is supposed, will endure anything. Not long ago, a young lady who had come here from New England with her mother, with the view of taking lessons in music, went to one of the up town houses to stay for a week or two, until she could board in a private family.

The morning that she was to leave she sent for the bill for herself and mother.—a lady of nearly sixty, who occupied a room, No. 45, adjoining that of her daughter. Miss —— was amused to find that her bill amounted to $175, because she new it ought not to be more than $60 or $70 at the outside. As no items were given she returned the account to the office with the request that the items should be inserted. The bill went back with two or three specifications, and "sundries" set down at $70.

Once more she returned the bill, demanding to know what the "sundries" might be. The clerk explained through the servant that "sundries" was the polite term for "drinks," which so enraged the young lady that she demanded to see the extraordinary accountant in person.

He made himself visible in due season, and the delicate, spiritual looking girl confronted him by asking if he suppose she had drank in eight or nine days $70 worth of liquor. As may be imagined he was somewhat abashed, and said with confusion: "I beg pardon, Miss; it's a mere clerical error. This is 44; the drinks should have been charged to 45—the next door, you see—a room occupied by an old fellow who drinks like a fish." "Permit me to introduce to you the old fellow," replied Miss——, pushing open the door, standing ajar, and revealing to his confounded gaze one of the gentlest and saintliest-looking old ladies he had ever beheld. The clerk said nothing, but dashed down the stairs, and in a minute a receipted bill was once more returned, with the "sundries" omitted.

A TEMPERANCE LECTURE.—The Newark Daily Advertiser says: "Rev. Father Hennessy, pastor of St. Patrick's Church, Bergen City, delivered a terrible and bitter sermon on Sunday last, levelling his thunderbolts against the gin mill keepers, and the lukewarm indifferent Catholics of his mission. During his discourse he said, "I am going to get a list of all grog shops and gin place proprietors, and if they don't close their houses every Saturday night at 12 o'clock, and not open them till Monday, I will not allow themselves nor their wives to come near this alter. They must give up their unholy work. Let them be content selling groceries. It is better to make fifty cents a day honesty and justly, with the blessing of God upon it, than ten dollars a day with the curse of God upon it. Remember that the money gained in this dirty work will not profit you long. It will vanish like the froth on the river. You are carrying souls to destruction and ruin; you are robbing the widow and the orphan, the poor and needy. Cease, cease your work then, and resolve to get an honest and decent living."

—Little girl (inquiringly) Mamma, who are you making all these nice little clothes for? Mamma (feelingly)—I am making them for a poor little baby, who hasn't a rag to its name. Little girl (sympathetically)—Mamma, was it burned out in Chicago?

—The N. Y. Mail says of Capoul in a recent performance of "Somnambula:" "He agitated himself all over when he came to the affecting parts, like a sympathetic soprano in a fashionable church choir."

—"He suddenly doubled himself up as though he had been kicked in the stomach by a steam jackass, and his ponderous jaws swung open." That's the way a Cincinnatian laughed.

—An Indiana girl knocked her mother down with a rolling pin, for which her father choked her. The mother, reviving, ran the old man out of the house with a table fork.

BUSINESS NOTICES.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost given away. Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

FOUR EVILS.—Whoever habitually uses any alcoholic preparations as an "appetizer" will be likely to suffer from four evils, viz: an overplus of food in the stomach, impaired ability to digest it, the pangs of dyspepsia, and a doctor's bill. DR. WALKER'S VEGETABLE VINEGAR BITTERS, the great Teetotal Restorative of the age, without over stimulating the palate or irritating the stomach, imparts a healthful appetite, promotes digestion, regulates the liver and bowels, purifies the blood, and thus, instead of entailing four evils, confers four inestimable benefits.

THE LARGE NUMBER of rooms *en suite* recently added to the AMERICAN HOUSE, Boston, have been in great demand by families travelling. They have closets, baths, &c., and may be secured by mail or telegraph. The veteran Lewis Rice still exercises his supervision over the conduct of this hotel.

A gentleman from Bethel Hill, Me., says that Messrs. Allen Bros., Proprietors of Philip Allen's Print Works, R. I., were down to Bryant's Pond, recently, trouting, when one of them was attacked with sciatic rheumatism so suddenly, that he had to be carried from the pond to his hotel; a bottle of *Johnson's Anodyne Liniment* was resorted to, and he was out next day.

How are you to-day? I'm not feeling well, bilious and sick headache, have been looking around for a box of *Parsons' Purgative Pills*, but our traders are all sold out.—*Country Paper.*

SPECIAL NOTICES.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

1d30 Sold by Dealers Everywhere.

HALFORD

LEICESTERSHIRE

TABLE SAUCE,

The Best Sauce And Relish

Made in any part of the World

FOR FAMILY USE.

TO BE HAD OF ALL FIRST CLASS GROCERS

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Crisfadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

The True Ground of Confidence.

Whence comes that firm reliance, that absolute, undoubting faith in the efficacy of HOSTETTER'S STOMACH BITTERS as a remedy for indigestion, bilious disorders, intermittent and remittent fevers, which notoriously prevail in all parts of the United States? This confidence has been growing for twenty years, and it is still extending. It is not the result of credulity; it has not been engendered by any human device, but is the spontaneous and natural consequence of experience. What people see daily going on under their own eyes they cannot question. When families in unhealthy districts, who resort to this wholesome vegetable tonic as a preventive, escape periodical fevers, and their immediate neighbors, who neglect that precaution, are prostrated by the disease, how is it possible that the phenomenon should be without its lesson? In like manner when it is seen that the chronic ailments of dyspepsia, or liver complaint, of constipation, of nervous weakness, and of general debility, yield to the operation of the famous remedy, how can even incredulity itself withhold its endorsement? Eyewitnesses of the salutary effects of the bitters, are to be found in every civilized settlement on this continent. The thousands upon thousands who owe their restoration to health and strength, or their preservation from sickness to its extraordinary medicinal properties, are enthusiastic in its praise. The multitudes who recommend it in a neighborly way to their friends and acquaintances, as well as those who make public their estimate of its virtues, are always ready to state their reasons for the faith that is in them. They have all either felt or witnessed its beneficent operations.

—The Chicago post-office cat has a rival in a mouse which ran out of the vault of the Elgin Watch Company when it was opened three days after the fire. A common dining chair has been exhumed from the ruins of the post-office, none the worse for the fire, excepting a slight scorching on one side.

—"When a distinguished American dies," said a shrewd and sarcastic observer, not long ago, "his admiring friends and countrymen immediately resolve to build him a magnificent monument, and then they don't build it."

—A five-year old, hearing his mother remark in company that "She usually found her first impressions of people to be correct ones," called out at the top of his voice: "Mama, what were your 'pressions when you first seen me?"

—The Japanese make a strong string of paper, and we have seen a very good cord of wood.

CAUTION! CAUTION!! CAUTION!!!—Unprincipled men are endeavoring in different parts of the country, to palm off upon the unwary an imitation of Dr. Sage's Catarrh Remedy, under a similar sounding yet not *identical* name. Remember the *genuine* is called "Dr. Sage's Catarrh REMEDY" and not "Dr. Sage's Catarrh Cure," "Dr. Sage's Catarrh Reliever," or some other similar sounding name. Also bear in mind that the genuine has the words "R. V. Pierce, M. D., Sole Proprietor, Buffalo, N. Y.," printed upon the outside wrapper, and has Dr. Pierce's portrait, name and address on the Government Revenue Stamp upon it, which is *a positive guarantee of genuineness.* It is therefore an easy matter to distinguish the genuine from the spurious. 566

NEW ADVERTISEMENTS.

A CARD OF THANKS.

WE, the undersigned, Members of KEARSARGE S. F. E. CO., NO. 3, desire to return our sincere thanks to Officers and Members of RICHARD IN VINE S. F. E. CO., NO. 1, EBEN SIMPSON S. F. E CO., NO. 2, and to the Citizens generally of Biddeford, Me., for the kind and courteous manner in which we were received and entertained while in that city on the 30th day of November, 1871; and to Mr. C. H. BADD, for the bountiful supply of provisions for the inner man, which were all first-class.

Brothers, if you should ever happen to come to this city, you will find us as happy to receive you as we were to see you at Biddeford.

We remain your Brother Firemen,

BENJ. ATWELL, JOHN BRIDGE,
CHAS. COLEMAN, FRED. FOLSOM,

THIS EVENING.

ENTERTAINMENT

FOR THE BENEFIT OF THE

YOUNG PEOPLE'S

CHRISTIAN UNION,

AT THE TEMPLE.

On Saturday evening, Dec. 2.

A series of dramatic performances will be given, the characters in each to be assumed by some of our most promising amateur talent, with aid from abroad.

The programme will include

1st. Poor Pillicoddy!

Which will be fully cast. During the intermission an exhibition will be given of

2d. Mrs. Jarley's Waxwork!

In this some "new features" are to be introduced with original "effects."

First appearance here of the

3d. Cabinet of Mummies!

A new, curious and novel exhibition, which it will be necessary to "rise to explain."

The whole to conclude with the Farce

4th. The Widow's Victim.

A full Orchestra will furnish the Music.

In presenting this entertainment, the members of the Y. P. C. Union appeal to a generous public to aid them in the good work which they have sought to accomplish among the youth of our city since their organization.

Tickets 35 cents to all parts of the Hall.

Doors open at 7 o'clock, entertainment to commence at 7½. Tickets for sale at PRESTON'S, THACHER'S, STAVER'S, and FOSTER'S. n28

Notice—Mrs. S. O. Jewell.

The Amateur Dramatics

At the Temple, this (Saturday) evening, will doubtless draw a full house, for the object is to aid the Young Peoples' Christian Union in prosecuting the good work so well begun among the youth of our city, and aside from the worthy object the entertainment will be first-rate, several well known and popular amateurs proposing to appear in two capital farces. See adv't.

S. J. Court.

In the S. J. Court, on Wednesday, after eight days trial, the jury returned a verdict of $550 in the action of Henry Saltmarsh *vs.* the town of Candia, for damages from a defective highway. This case was tried in November, 1870, and a verdict was rendered for the plaintiff for $1600. Exception was taken that the action could not be maintained for the reason that the plaintiff's wife was joined in the suit, and she had died since the commencement of the suit and no administrator had been appointed; and on this ground the verdict was set aside. Since then the husband has been appointed administrator, and now prosecuted this suit. The defence was that the road was a private and not a public way and was in fair condition.

Thanksgiving Day

In this vicinity passed off very quietly and soberly, so far as humanity is concerned, but was rude and thankless enough if the weather is considered, for a more blustering, uncomfortable day we are rarely favored with. The thermometer was down to zero, early in the morning, and the whole day was very cold; and the intense cold, joined to the high wind, which kept the dust and gravel flying about in clouds, made most of those who had good fires sit by the same, kept the skaters from the frozen ponds and postponed many friendly calls. The forenoon congregations in the churches were small, pedestrians and riders-out were scarce in the streets during the day, and the comedy company at the Temple gave a good entertainment to a small audience in the evening.

A Hard Time.

Schooner Willie Seavey, Capt. Elias Tarlton, with a crew of ten men, started from near Boon Island at about 4 o'clock on Wednesday afternoon, Nov. 29, expecting to make port at Newcastle early the same evening. The intense cold caused ice to form so rapidly about the hull of the schooner that her sailing was sensibly dulled, and the rudder could scarcely be worked, and lost much of its power from the accumulation of ice around the stern post. As the vessel was nearly unmanageable and the crew suffering terribly, Capt. Tarlton endeavored to make a harbor at the Shoals, failing in which a new departure was taken for the original destination, Newcastle, and the schooner beat across with a fair tide in about ten hours. The crew were chilled almost to death when they reached the wharf, and were unable to walk without assistance; but their friends were anxiously watching for their return, and soon conveyed them to places of shelter and safety. Without help, some if not all the crew would probably have perished before they could have crawled to the nearest houses. The schooner had on board 8000 lbs. fresh fish, which had been caught on Wednesday.

What Was It?

Shortly after four o'clock, Thursday afternoon, many of the good people of this city and vicinity were startled out of the happy state of quiet satisfaction which eating their Thanksgiving dinners had induced, by a strange noise which some supposed to be caused by the blowing down of the chimney top, and others took to be the banging of window shutters or roof scuttles or the dropping of some heavy article on the floor of an upper room. The noise was very generally heard and noticed in this city and Newcastle; and most of those we have conversed with on the subject seem to have favored the chimney-tumbling theory at first, though a few supposed it to be the distant report of a very heavy gun,—all agreeing that the sound appeared to be as high or higher up than themselves. Some people suggest an earthquake as its cause, but we never heard of an earthquake being so eccentric as to take place in the air; so we suppose we shall have to fall back upon what is the last resort of most people when they are hard pushed for an explanation of some subject concerning which they are entirely ignorant, and say that it was electricity. If this explanation is unsatisfactory to any, they can have an earthquake if they want to.

Sagamores' Ball.

The Ball given by Sagamore S. F. E. Co., No. 2, on Thanksgiving Eve, was a decided success in the number and respectability of the attendance, in the manner in which it was conducted, the entire absence of unpleasant incidents or objectionable characters, and in the good time enjoyed by all present. All the fire companies in this city, and Suffolk Hook & Ladder of Chelsea, Mass., were represented on the floor; and a large number of citizens participated in the pleasures of the evening. Dancing commenced promptly at 8 o'clock and was kept up with spirit until 3 next morning, winding up with a Virginia Reel as an extra.

Another Route.

Boston papers assert that the Portland, Saco & Portsmouth Railroad Co. will ask the next Legislature of Maine for authority to build a railroad from their depot in Kittery to some other point on the line, either in Kennebunkport or Biddeford. This new road will pass through the towns of Kittery, York, Wells, Kennebunk, Kennebunkport and Biddeford, several miles nearer the coast than the present line, and will be about 27 miles in length. It follows the course of an old survey made more than 30 years ago. It is not the intention to abandon the present line, but to continue to operate it in connection with this new and shorter one, which, while touching several important points, also gives a saving of time over the old route.

Silver Wedding.

Mr. and Mrs. James W. Nutter of this city celebrated the twenty-fifth anniversary of their wedding on Thanksgiving Eve. Their friends to the number of one hundred or more assembled at their home, bringing with them many substantial tokens of friendship and esteem. The guests of the occasion had joined in contributing to the purchase of a beautiful set of silver-ware, and Messrs. Lane & Hartshorn, with whom Mr. Nutter has long been associated in the provision business, made him a present of a costly silver-headed ebony cane, with a suitable inscription engraved thereon. Rev. Mr. Dinsmore offered prayer and made a good-humored speech of congratulation. After an hour spent in social greetings, the company sat down to an elegant repast, to which ample justice was done. Shortly after midnight the company broke up and returned to their several homes, heartily expressing the wish that they might all be able to attend the Golden Wedding of the couple who had so agreeably entertained them.

Police Court.

On Friday, Frank C. Wendell was brought before Justice Page, on complaint of Capt. Robert Shillaber, pound-keeper, who charged Wendell with committing two aggravated and outrageous assaults upon him while in discharge of his duty,—using violent and abusive language, striking him and threatening his life. Wendell acknowledged assuming a threatening attitude, but denied making the threats or striking a blow; but after hearing the case (which was ably presented on the part of plaintiff by Hon. W. H. Y. Hackett, and of defendant by Moses N. Jenkins, Esq.,) Judge Page fined Wendell $10 and costs $6.96, but declined to bind him over to keep the peace, as desired by Shillaber and his counsel. It appeared in evidence, that Wendell's cow was impounded on complaint and by request of Mr. Thompson, Agent of the Kearsarge Mills, on account of repeated and long continued trespass on his premises; and instead of paying the trifling pound fees, Wendell grossly insulted and abused the old pound-keeper; and even after Capt. Shillaber forgave him once, and actually drove the cow home to him, on his promise of payment, Wendell refused to pay, and again assaulted, and threatened to kill Shillaber.

TERRIBLE PRIZE FIGHT.—Mace and Coburn had a prize fight Nov. 30, in Mississippi. Neither was much hurt, and the referee declared the fight a draw.

RACE.—Kingston and mate beat Honest Allen and mate in a $2000 match, Nov. 30; time, 2:25, 2:21 1-4, 2:23 1-4, 2:25.

THE PUBLIC DEBT was reduced during last month, $3,462,000.

MARRIAGES.

In this city, on Thanksgiving Day, at the residence of Hon. Frank Jones, by Rev. W. H. Alden, Mr. WILLIAM H. ALLEN and Miss ELIZA J. JONES.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

Sch H. B. Gibson, Hurst, from Bangor, arr at Boston, Nov. 29th.

Sch Sarah Wooster, Leland, from Elizabethport for this port, arr at Vineyard Haven, Nov. 29th.

Wanted,

At this office, to complete files, copies of the NEW HAMPSHIRE GAZETTE, of date November 18.

$25 Reward.

We are constantly annoyed at complaints from many of our patrons that the CHRONICLE is stolen from their premises. The thieves who abstract these papers from the doorways of their neighbors, if detected, will be made to suffer, and we offer a reward of $25 for such evidence as will result in the conviction of any person guilty of such theft.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, MANUALS, CIRCULARS, ORDERS OF DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

KID GLOVES!
THE BEST you ever saw, for 39 cents, at MASON'S POPULAR STORE.

Morning Chronicle.

CONTRIBUTIONS TO CHICAGO.—A day or two before leaving Peoria, we heard a good one on Mr. Ed. Hudson, Superintendant of the Peoria Railroad, and a gentleman well known to railroad men. Upon hearing of the burning of Chicago, his first act was to telegraph to all agents to transport free all provision for Chicago, and to receive such articles to the exclusion of freight. He then purchased a number of good hams and sent them home, with a request to his wife to cook them as soon as possible, so they might be sent to Chicago. He then ordered the baker to put up fifty loaves of bread. He was kept busy during the day until five o'clock. Just as he was starting for home the baker informed him the hundred leaves of bread were ready. "But I only ordered fifty," said Ed. "Mrs. Hudson also ordered fifty," said the baker. "All right," said Ed, and he inwardly blessed his wife for the generous deed.

Arriving at home he found his little boy, dressed in a fine cloth suit, carrying in wood. He told him that would not do; he must change his clothes. "But mother sent all my clothes to Chicago," replied the boy. Entering the house he found his wife, clad in a fine silk dress, superintending the cooking. A remark in regard to the matter elicited the information that she had sent her other dresses to Chicago. The matter was getting serious. He sat down to a supper without butter, because all that could be purchased had been sent to Chicago. There were no pickles—the poor souls in Chicago would relish them so much.

A little "put out," but not a bit angry or disgusted, Ed. went to the wardrobe to get his overcoat, but it was not there. An interrogatory revealed the fact that it fitted in the box real well, and he needed a new overcoat anyway, although he had paid $50 for the one in question only a few days before. An examination revealed the fact that all the rest of his clothes fitted the box real nicely, for not a "dud" did he possess except those he had on. While he admitted the generosity of his wife, he thought the matter was getting entirely too personal, and turned to her with the characteristic inquiry: "Do you think we can stand an encore on that Chicago fire?" — *Macopin (Ill.) Enquirer.*

THE DOWNFALL OF TAMMANY. — A New York paper describes an array of American Club badges in the windows of Mrs. Lynch, the well-known diamond broker, thus: The badges were of all shapes and sizes. One was a solid gold tiger's head in a belt of blue enamel. The eyes of the tiger were rubies, and above his head were set three diamonds of enormous size. The reporter looked at this badge, and thought he recognized it. It looked like one that Hon. Eugene Durain used to wear. Another was a large solid gold badge, with a tiger's head in papier-mache under rock crystal. It was surrounded with diamonds set in American belt. Above the badge was a pin with a huge stone and two smaller ones on each side of it. This badge was worth at least $2000. The reporter thought it looked like the one presented to Hon. Anthony Hartman last summer, on the eve of his departure for Hoboken. Another badge was one with the tiger's head in frosted gold, with diamond eyes. It was a small badge, and looked for all the world like the one Alderman Mitchell wore on the Blossom trip to California.

While the crowd were gazing at the valuables the reporter entered the store. He saw a stout lady with a diamond cross on her neck worth $3000. She had a pair of solitaries in her ears that must have weighed a quarter of a pound apiece, more or less. This was Mrs. Lynch. It is said that she is the best judge of a diamond in New York. She can tell the difference between a diamond and a cat's eye at any time of night or day with her eyes shut. Politicians say that she can tell the weight of a stone within the one-hundredth part of a carat by looking at it from across the street, and that she can see a speck no bigger than a pin's point in the dark. A wonderful woman is this Mrs. Lynch if all said about her is true.

"Diamonds, sir!" she said, as the reporter leaned on a show case that looked like a bed of dandelions wet with sparkling dew. "No, Mrs. Lynch, I only drooped in to look at your pretty things. Those badges there are pretty. What are they?" Mrs. Lynch—"Oh, American Club badges. Some of the poor fellows are getting a little hard up, you know,"—and here the good Mrs. Lynch smiled mysteriously. Reporter—"Are you getting many of them?" Mrs. Lynch—Oh, yes; they're comin' in pretty lively now. We'll get more of 'em if expect after the cold weather sets in. The boys all want new overcoats, you know." Reporter—"Are they a profitable investment for you?" Mrs. Lynch—"Generally not. When I buy 'em out and out I have to break 'em up to do anything with 'em. Nobody buys 'em any more. After the first of January I suppose I'll get more than I'll know what to do with." Reporter—"Why then?" Mrs. Lynch—"Oh, the legislature will throw the boys out, and they will come to me, I know." Reporter (pointing to the $2000 badge)—"Who did that belong to?" Mrs. Lynch—"Oh, excuse me; I can't tell you that. Fine one, is'nt it?"

—Joseph Bauer and son resisted an officer in an attempt to arrest the latter, in Philadelphia, on Tuesday night. The officer emptied seven barrels of his revolver into them. Both are expected to die. Young Bauer was a fugitive from justice.

—Mr. Moffat, of Ohio, tried to melt an obstinate bullet out of his gun. It came out kind of sadden, and perforated his daughter.

AYER'S
CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Cough, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and try it timely use.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface to years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

AVERILL CHEMICAL PAINTS,

in the City. Also Dealer in

GROCERIES AND PROVISIONS,

No. 16 & 18 Cabot Street,

CAUTION.—Beware of all pretended agents or of those who pretend to sell all kinds, as no other person has an agency for the above named city and towns from the Singer Manufacturing Company. n9 J. J. FESSENDEN.

OFFICE OF
FISK & HATCH,
BANKERS & FINANCIAL AGENTS
OF THE
Chesapeake and Ohio Railroad Company,

No. 5 Nassau Street, New York.

The rails are being laid on the Western Division of 100 miles of the Extension of this

GREAT EAST AND WEST TRUNK LINE,

which in a short time will be ready for general travel and traffic, and for the transportation of Kanawha coal to the Ohio River for the Western markets.

The earnings of the Eastern Division of 227 miles are now sufficient for the completion of the Middle Division of 100 miles, will reach, this year, nearly $800,000.

The total cost of the entire road, and the large equipment required for its minerals and through traffic, will be fully $30,000,000.

The total amount of the FIRST MORTGAGE BONDS, which we are now selling, is FIFTEEN MILLION DOLLARS, of which only about FOUR MILLIONS remain unsold, **the proceeds of which, with the Cash on hand, will be ample for the Completion of the Entire Line.**

The inducements they offer to investors are:

A perfect security.

Great popularity and a high price when the road is finished.

The same rate of interest as Five-twenties.

Principal and interest both payable in United States gold coin in New York City.

Their present low price (93 and accrued interest from Nov. 1,) which is about 20 per cent. less than Five-twenties, with equal certainty of payment of interest and principal.

We recommend them to our friends and customers with the same confidence with which we have always recommended the UNITED STATES GOVERNMENT and the CENTRAL PACIFIC BONDS.

We continue to buy and sell CENTRAL PACIFIC BONDS at the market price, and fully expect they will, in time, reach the price of Five-twenty Bonds. They are dealt in at all the principal money-centres of the world; the Company have done left, and can issue no more, on their Main Line, as the amount was fixed by act of Congress at $25,885,000; the property pledged to secure the bondholders is

WORTH FULLY ONE HUNDRED MILLIONS;

the net receipts of the road for the year will be nearly three times the interest payment thereon.

The CHESAPEAKE AND OHIO BONDS are issued in $100, $500, $1000; either coupon or registered; interest, six per cent., gold, payable May and November.

The CENTRAL PACIFIC BONDS are all for $1000 each; interest, six per cent., gold, payable January and July, in New York City.

We buy and sell FIVE-TWENTIES, TEN-FORTIES, EIGHTY-ONES, and CENTRAL or WESTERN PACIFICS, or receive them in payment for CHESAPEAKE AND OHIO BONDS at their current market price.

Orders for Chesapeake and Ohio Bonds, accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

Deposit accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.* Checks drawn on us are payable on presentation, without notice, the same as at a National Bank.

Certificates of Deposit, bearing interest at special rates to be agreed upon, will be issued to Savings Banks, Institutions, Trustees of Estates, and others having sums of money awaiting investment.

Orders for Investment Stocks and Bonds executed at the Stock Exchange. Government Securities bought and sold, as usual, at current market rates.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfeb18

J. WALKER, Prop., R. H. McDONALD & CO. Druggists & General Agents, San Francisco, Cal., and 32 & 34 Commerce Street, New York.

The Chronicle.

ROSES.—There is an old legend which says that Eve brought the *Rose* out of Eden with her. It has always been a favorite flower with the Jews, and Solomon likens Christ to the Rose of Sharon. In later times the Rose of Jericho has usurped the place of affection so long held by that of Sharon. This rose is a native of Arabia Petrea, and opens only in fine weather. It also possesses in a remarkable degree a reviving power, and can recover its life when to all appearance dead; hence the Jews use it as a symbol of the Resurrection. A Mexican plant possessing the same wonderful tenacity of life, is constantly for sale on the streets of New York; so that many must have become familiar with this phenomenon. The white rose has always been sacred to the Virgin Mary, and mingled with the cross it was the device of Luther and also of the Rosicrucians *(sub rosa cruz)*. The red rose is the emblem of love and also of silence, because Cupid gave it to Harpocrates, the god of silence, in order to bribe him not to reveal any of the indiscretions of his mother; hence it was often placed over the doors of guest rooms, to signify that perfect freedom of conversation might be indulged "under the rose," for nothing so said was to be repeated. And as strategem delights in silence as well as love, the Romans placed it on their shields.

Over Greek, Roman and Chinese graves it is a frequent emblem, and the Turks will not suffer a red one to lie on the ground since the days it was colored by the blood of Mohammed. The Arabians have a legend of a garden of roses planted by King Shadded and now buried in the desert, which is analogous in many respects to the Garden of Eden. Throughout southern and Central Europe it is used in spells and divination. One common German superstition is to name rose leaves and then throw them into a basin of clean water. The leaf which sinks last is to be the husband or wife of the inquirer. Another superstition is to throw rose leaves on to hot coals; the burning fragrance is thought to attract good fortune. White roses blooming at an unexpected time are believed in England to denote a death in the family of the owner, and red ones a marriage. As the lily is the emblem of France, so the rose is of England, where it assumes more of an historical than sacred character.

THE RUSSIAN PRINCE.—The personal appearance of the Grand Duke Alexis is thus described:

He is six feet two inches in height and well proportioned, with great, broad shoulders and a breast of remarkable size. His features are regular and not noticeably prominent in any given particular, but bear a striking resemblance to those of his imperial grandfather, the Emperor Nicholas. He has a high, intelligent forehead, and his face is open and frank as that of an innocent schoolboy. His hair is blonde, of a darkish hue. He wears short silte whiskers and a neat moustache of the same hue. He has grayish blue eyes, which look straight ahead. His teeth are white and sound. He has, withal, an air of careless grace and perfect *sang froid* which becomes him exceedingly well. Altogether he is one a person can hardly help admiring, because in the full sense of the term he is a prince without an air of superiority or arrogance about him. As this totally destroys the popular idea of princes it is worth mentioning.

HOMŒOPATHY ON TRIAL.—We have already published details of the initiation of proceedings by the Massachusetts Medical Society against many of its members who practice homœopathy. The formal trial was begun Tuesday in Boston, and though reporters were rigidly excluded, the details of the day's proceedings are fully known. The seven members in Suffolk county against whom they were Tuesday directed, after vainly endeavoring to elicit some more specific charges than were contained in the circular letter, entered a formal protest against the trial, and a denial that the system adopted was at variance with the principles of the society. These documents were refused consideration by the prosecuting committee, and the deputy sheriff of the county then entered and served an injunction which forbade the Society to expel any member on account of homœopathic practice. This, however, it was decided, did not prevent the continued examination of the case, and on the renewal of the charges for more definite charges, it was finally determined to prepare them; and the meeting adjourned to December 5th.—*Boston Journal*

—An exchange tells that "at twenty years of age Leland Stanford arrived in California with only one shirt to his back. Since then, by close attention to business, he has accumulated over ten millions." What the deuce can a man want with ten million shirts?

—A rural editor has lost all faith in the luck of horse shoes. He nailed one over his door recently, and that morning there came by mail three duns and seven "stops," and a man called with a revolver to ask "who wrote that article."

—Levi Swift of Sandwich, who has been absent from home twenty-three years, made his appearance a few weeks since. During all this time he has never written home, and his relatives supposed him to be dead.

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Disease, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION. Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

594 Broadway, N. Y., and 104 South Tenth St., Philadelphia, Pa.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deteriorous materials, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, for it is intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF THE SPLEEN, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ASSCITES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR OTHER CONSOMPTIVE DISEASES.

Dr. Wells' Extract of Jurubeba

is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all the vital forces, and invigorates and fortifies all weak and lymphatic temperaments. 4w n28

STEAM SAFES
—AGAIN—
TRIUMPHANT!

BINGHAMTON, N. Y., Oct. 7th, 1871.
AM. STEAM SAFE CO.,
COLE & LAMBERT, *Managers*,
300 Broadway, N. Y.

Gentlemen:—The Binghamton Planing Mill and Sash and Blind Factory, together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 1) made by you, and purchased one year ago from Mosers. Paige & Chaffee, Agents, in this city, was in the Planing Mill, and went through the severest part of the fire it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild. Very truly yours,

(Signed,) A. L. HARDING,
Late Proprietor Canal St. Planing Mill, Binghamton.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in sincerely believe that they cannot employ a more competent and *trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

The Daily Chronicle.

Portsmouth, N. H.

MONDAY, DECEMBER 4, 1871.

Political.

Charles O'Conor declines to accept the position of counsel for the Ku-Klux. The leading Democrats of South Carolina are lending all their energies in defence of the arrested Ku-Klux. Wade Hampton has given notice to the faithful that they have been "assessed" by counties for money to defray the expenses of the defence.

The rebel General Rosser, Jubal Early's best lieutenant in the Shenandoah, has shown himself thoroughly "reconstructed." When the war ended, instead of remaining in the South and nursing his hate, he struck northward and begun, for want of better work, to chop wood on the Lake Superior Railroad, and by modesty and industry has become chief engineer of a division of the line.

The total vote at the recent election in New York was 76,331. The Republican majority in the State averages 20,000.

Hon. George H. Parker, a prominent Democrat of Iowa, publishes a card, in which he says the Democratic party as an organization is dead, and if the Democrats expect to resurrect its principles and succeed in 1872, they must abandon the old organization and become an integral portion of a new party.

CUBA.—The Spanish government, it is said, has resolved to remove Captain-General Valmaseda from the government of Cuba, and thirty thousand fresh troops will be despatched to the island. It is asserted by a gentleman prominently connected with the administration that we have no quarrel with the Spanish authorities, and that the return of the North Atlantic squadron to Cuban waters was from prudential considerations only. The government will hereafter and until there is a better condition of things in Cuba keep a strong naval armament in Cuban waters. While this will have no hostile significance, it is designed to be an intimation to Spain that if that power is so weak as to be unable to secure peace and good order on that island, and in case of an insurrection or other grave public disturbances, the fleet will be used for the protection of American citizens and their interests, if need be, to the full extent of the power of the government.

ANOTHER ONE.—Cremieux, one of the four communist leaders condemned to death by the court-martial at Versailles, has been executed. He was taken from prison at an early hour in the morning, conveyed a short distance outside the walls and shot. He died bravely, refusing to be blind-folded; and his last words were—"Vive la republique." The last words of General Rossel to a republican friend were: "If you have not before long crushed the army, it will crush you. It has always been pretorian, and has always formed a distinct party; whereas it should be national. Danger is pressing. Republicans have abandoned insurrection. You did not like the men of the 18th of March. I did not like them; but it was necessary to join in order to restrain them."

THE COLD WEATHER of the past few days has closed navigation, wholly or in part, on the Hudson, Connecticut and Penobscot rivers. A large number of boats are ice-bound in the Erie Canal, and the Delaware and Hudson Canal is completely closed. At Quebec the river was filled with floating ice, and vessels were floating up and down the harbor with it. News from below the city reported several vessels ashore, and Government steamers were sent to their assistance. The barque Chrysels sank at Port Joli and several of the crew were lost, and some of the survivors will die. Eight bodies from another sunken vessel were picked up on the ice.

BELGIUM.—Thursday was one of the fete days of the communists at Brussels, and the political disturbances were renewed. In one instance a military company when ordered to charge upon the people refused to obey. The selection of a new cabinet has been intrusted to M. de Threux, and the chambers stand adjourned until a new ministry is formed. The city is now quiet.

THE LOAN.—The entire amount of that part of the United States loan intended for Europe has been taken, and American securities in the English money market are firmer than ever before.

—"What would make a good leading article for me to-morrow?" asked a wicked editor of a wit. "A halter," was the sententious reply.

ERIE VIRTUE.—Now that the Tammany thieves no longer own all the courts of New York there is a bare possibility that the Erie thieves may be hunted down—in time. An adverse verdict has just been given by a jury, against the "Black Friday" gold gamblers; and after the jury had been polled the foreman arose and said that it seemed to them that tampering with the jury and the attempt to corrupt it were high treason against the people of the State. The jury had been insulted as perhaps no jury had ever been before. Three of its members had been approached with offers of thousands of dollars by the hirelings of the Erie Railway. They thought it a proper matter for his honor to lay before a grand jury. Justice McCunn said he should certainly do all in his power in the matter. He advised them to reduce their statement to writing in the shape of affidavits, and present them to him through their foreman, and he would see that it should go before the grand jury. Jay Gould has addressed a letter to the N. Y. papers, refering to the statement that bribes have been offered to jurors by the agents of the Erie Railway Company. Gould indignantly denies that the Erie Company, either directly or indirectly, approached or authorized any one to approach any juror. He challenges the fullest investigation, and states that he will pursue the matter himself if other parties do not. Fisk is in Boston or he would join in the card.

BREAKING UP.—The Tribune states that Controller Connolly has prepared a full confession of all the transactions of the ring, and that three of Tweed's bondsmen, including Hugh Hastings of the Commercial Advertiser, have signified their intention to withdraw. Connolly is stated to have cried like a child when taken to jail. He has private apartments there. He lacks $100,000 of his bail. Three of Tweed's bondsmen have signified their intention to withdraw their names from their bonds. If others are not secured he will share the fate of Connolly.

Wanted,

At this office, to complete files, copies of the NEW HAMPSHIRE GAZETTE, of date November 18.

$25 Reward.

We are constantly annoyed at complaints from many of our patrons that the CHRONICLE is stolen from their premises. The thieves who abstract these papers from the doorways of their neighbors, if detected, will be made to suffer, and we offer a reward of $25 for such evidence as will result in the conviction of any person guilty of such theft.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c., and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, LABOR BILLS, CONSTITUTIONS, BY LAWS, MEMORANDUMS, MANDRILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, AUDIENCE AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, AS SATISFACTORY PROOFS. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S considerable skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The compounds are bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on other heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore his youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

PREPARED BY

DR. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

daw AND SOLD ALL ROUND THE WORLD. cow

—While a committee of the citizens of Houston, Texas, were bathing a horse thief in the river, their hands accidentally slipped and he sank to the bottom. The sad event is deeply regretted by the community.

BUSINESS NOTICES.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost *given away.* Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

FOUR EVILS.—Whoever habitually uses any alcoholic preparations as an "appetizer" will be likely to suffer from four evils, viz: an overplus of food in the stomach, impaired ability to digest it, the pangs of dyspepsia, and a doctor's bill. DR. WALKER'S VINEGAR BITTERS, the great Vegetable Stomachic and Tonic, without stimulating the palate or irritating the stomach, imparts a healthful appetite, promotes digestion, regulates the liver and bowels, purifies the blood, and thus, instead of entailing four evils, confers four inestimable benefits.

A gentleman from Bethel Hill, Me., says that Messrs. Allen Bros., Proprietors of Phillip Allen's Print Works, R. I., were down to Bryant's Pond, recently, trouting, when one of them was attacked with sciatic rheumatism so suddenly, that he had to be carried from the pond to his hotel; a bottle of *Johnson's Anodyne Liniment* was resorted to, and he was out next day.

How are you to-day? I'm not feeling well, bilious and sick headache, have been looking around for a box of *Parsons' Purgative Pills*, but our traders are all sold out.—*Country Paper.*

SPECIAL NOTICES.

HALFORD

LEICESTERSHIRE

TABLE SAUCE,

The Best Sauce And Relish

Made in any part of the World

FOR FAMILY USE.

TO BE HAD OF ALL FIRST CLASS GROCERS

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

The True Ground of Confidence.

Whence comes that firm reliance, that absolute, undoubting faith in the efficacy of HOSTETTER'S STOMACH BITTERS as a remedy for indigestion, bilious disorders, intermittent and remittent fevers, which notoriously prevail in all parts of the United States? This confidence has been growing for twenty years, and it is still extending. It is not the result of credulity; it has not been engendered by any human device, but is the spontaneous and natural consequence of experience. Whilst people see daily going on under their own eyes they cannot question. When families in unhealthy districts, who resort to this wholesome vegetable tonic as a preventive, escape periodical fevers, and their immediate neighbors, who neglect that precaution, are prostrated by the disease, how is it possible that the phenomenon should be without its lesson? In like manner when it is seen that obstinate cases of dyspepsia, of liver complaint, of constipation, of nervous weakness, and of general debility, yield to the operation of the famous remedy, how can even incredulity itself withhold its endorsement? Eyewitnesses of the salutary effects of the bitters, are to be found in every civilized settlement on this continent. The thousands upon thousands who owe their restoration to health and strength, or their preservation from sickness to its extraordinary medicinal properties, are enthusiastic in its praise. The multitudes who recommend it in a neighborly way to their friends and acquaintances, as well as those who make public their estimate of its virtues, are always ready to state their reasons for the faith that is in them. They have all either felt or witnessed its beneficent operations.

NEW ADVERTISEMENTS.

TEMPERANCE CAUCUS.

ALL PERSONS who believe no benefits result from Grog Shops, are requested to meet at SONS OF TEMPERANCE HALL, corner of Market and Load Streets, this (Monday) Evening, Dec. 4th, at 7 o'clock precisely, for the purpose of choosing delegates to attend the State Temperance Convention, to be holden in Concord, December 6th.

AYER'S

SARSAPARILLA,

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disease. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the detamination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

Coming.

Dollie Bidwell, Charlie and Lillie Wilkinson and Wallace Britton, supported by Bidwell & Wilkinson's Dramatic Company of twenty performers, are to play at the Temple on Saturday and Monday evenings next, Dec. 9 and 11. Full houses will doubtless greet the return of these old favorites of the Portsmouth theatre-goers.

Police Court.

We don't often attend the matinees of Judge Page, but on Saturday morning we looked in on the scene of his labors while a very mixed case was being presented for his decision. Patrick Buckley was on trial, charged by Mrs. Catharine Reagan with having violently and maliciously assaulted and battered and in divers other ways ill-treated and abused her. She had about ten cents' worth of court plaster on her head and much dried blood on her face, and just then was not very handsome to look at. Mrs. Mary Kane and her daughter, Mrs. Margaret Crowley, were witnesses for somebody,—who, we have not the slightest idea; but their own statements convicted themselves of having been engaged in some kind of a row, and they were fined—the mother $8 and the young woman $5, each to bear one half the costs, $6.38. Mrs. Kane's son and a younger daughter testified, as also Miss Mary Crowley, (a daughter of Mrs. Reagan,) who gave her evidence in a clear, straight-forward manner, and from her decent appearance seemed as though she must be very much out of place in a street brawl. It appeared that she was engaged in this one only as a peacemaker. Buckley was discharged, and the two women paid their fines. Then Mrs. Reagan was fined $5, with costs placed at $11.46 and in default of payment went to the House of Correction.

We are not a candidate for the position of Police Judge. Had we ever thought of aspiring to that office our experience on Saturday morning would have cured us. Were we a police justice and often compelled to listen to such a mass of irrelevant talk, indulged in by excited women who would not be stopped till their breath gave out, as we heard on that occasion, probably an assault by the bench on the criminals, witnesses, officers and spectators would be the ending of our judicial career,—and it would be a clear case of justifiable insanity. We hope Judge Pages' good temper and fortitude will stand by him whenever he is obliged to wade through such a mass of contradictory statements to get at the truth, and that he will never give way to any possible temptation to "clean out" the whole concern.

We were informed that on some days business is encouragingly lively in the court. Nov. 20th, James Clark and James Hanna paid $8.76 each, for being drunk, (from which it appears that the price of drunks has been raised, the records showing that $6.86 was formerly all that was asked,) and Henry Griffin, for non-payment of a fine for brawl and tumult, was "sent up." On the 22d, Michael Garrett was married at the Police Station, the police acting as committee of arrangements; the relative virtue of the city was increased by the enforced departure of Miss Annie Cummins; Edwin Goodwin was charged $24.18 for an assault, and Thomas Lowry $8.76 for a drunk, (assaults ruling higher than drunks,) which both paid; and Pat Quinlan, who couldn't pay $29.22 for two assaults, was sent to jail. On the 28th, Andrew Wilson and Mike McClement, deserters from the Reform School, were sent back; and the December trade opened very well with the affair of Mesdames Reagan, Kane and Crowley.

A drunken vagabond was brought to the Police Station on Thanksgiving Day by a farmer residing in the outskirts of the city, having been found in his barn. The farmer's house had been entered during the previous night by some one who smashed a window, sash and all, to get in, and who had then found his way to the pantry, drank a pan of milk, sampled the pies and things there stored in readiness for next day's dinner, made a terrible mess in parlor and kitchen and then cleared out. Finding a half-drunken tramp in his barn, the farmer handed him over to the police on suspicion; but as nothing was found on his person to connect him with the burglary and the evidence was too weak to convict him, he was discharged and escorted from the city, which he was very glad to leave.

New Cars.

The Eastern Railroad Company placed two more new cars from their own shop on the iron last week, making four new ones from there the past month. Two more new ones from Taunton came last week. At their own shop the master car-builder, Mr. J. P. Somerby, has repaired six, in addition to finishing the four new ones. Another set are fast approaching completion.

The Investigation

Before the Board of Engineers, Saturday evening, was conducted by City Solicitor Howard. The City Marshal and four night watchmen were examined. Two of the latter, who travel in company, testified that they had seen a light in the Catholic church at late hours of the night, repeatedly, the light seeming to be in the back part of the church. They spoke of it to various members of the church and were told that it was customary to leave a light burning during the night. The investigation was adjourned to the call of the Chief Engineer.

New Catholic Church.

The Catholics having leased the Temple for the winter for the purpose of holding their Sabbath Services, turned out in large numbers on Sunday morning. Canon Walsh, after complimenting and publicly thanking the numerous Protestant citizens, who aided in saving a portion of his property on the occasion of the recent fire, and alluding to the generous and timely offers of pecuniary assistance which he is daily receiving, announced that he proposed building a new brick church at a cost of from forty to fifty thousand dollars. At a meeting of the Parish in the afternoon a subscription list was opened, and a large amount contributed, the subscriptions to be paid—one-half on the completion of the granite foundation, and the balance after the roof is covered. The proposed edifice will probably excel in architectural beauty and finish anything of the kind in this diocese. Father Walsh gives one thousand dollars, and he stated in connection with the announcement of proposed contributions, that in order to remove from himself all grounds for suspicion in reference to the management of the financial portion of the business, he should appoint a Treasurer to receive and pay over all monies contributed, so that he (the priest) would have the handling of none of the funds, that all might see that everything connected with the matter of the erection of the church would be done fairly and free from distrust.

The Entertainment

Given in aid of the Young People's Christain Union by the amateur actors, at the Temple on Saturday evening, attracted a rousing audience, who had the double satisfaction of contributing to a most deserving enterprise and of witnessing some capitol acting,—much better than is presented by many professional troupes.

Mr. J. Albert Sanborn made a decided "hit" in his characters of "Pillicoddy" and "Podge;" the versatility of Mr. Robert B. Palfrey was again made manifest, in his wonderful imitations as "Jerry Clip" and as the exhibitor of "Egyptian Mummies;" and Mr. Daniel J. Vaughan's assumption of the character of "Twitters" was perfection itself, his acting being true to nature.

The lady who represented the character of "Mrs. Jarley" succeeded finely, the part being generally tedious and liable to spoiling. She made it however very pleasing, with such a touch of gentility and naturalness that she won the encomiums of the audience, while the "wax figgers" showed wonderful facial control in their trying positions.

The ladies in the farces all did finely, and the accompaniment by Messrs. Tilton and Harlow was very creditable. The gem of a song by Miss Flora M. Fitts was exquisitely rendered and the vivacity of this lady made her an able second to "Jerry Clip." Mrs. Clara Akerman and Mrs. May Locke were particularly pleasing and showed the possession of great talent, while Miss Lilzie D. Tripp seemed adapted for the parts assigned her, both being entirely different characters. The company for the evening would not have been complete without her presence. Sanborn's dancing was so amusing that an *encore* was insisted on.

The entertainment was quite free from the "hitches" usually attendant on the performances of amateurs, and although it was extended until nearly eleven o'clock, every one present declared themselves delighted and remained to the close. There is a general desire for a repetition of the performance, which we trust will be complied with. We would like to see the comical Palfrey once more in "Brother Bill & Me."

Another Eminent Citizen Gone.

Again we are called on to announce the decease of one of the most prominent citizens of Portsmouth, Mr. STEPHEN H. SIMES, who died on Sunday, shortly after 2 o'clock, P. M., at the age of 72 years, having completed his seventy second year on the day previous to his death. Mr. Simes had been an active business man, one of the gentlemen of the old school, respected by old and young—for whom he had always a kindly word as they called at his place of business on Market Street, where he spent the greater part of his life. He remained in the dry goods business for fifty years, relinquishing it in October, 1870. He was a true representative of the class of elder citizens to whom we referred in our issue of Friday as passing away. His noble countenance will be missed from the multitude who have so long honored and respected him, and those who have known him intimately will regret to learn of the decease of a man who was always a true friend in time of need.

Mr. Simes had been ill for several weeks, his last sickness exhausting his recuperative powers beyond recovery. He was a member of the Independent Order of Odd Fellows, and had been a Mason, withdrawing from active participation with the latter organization several years since.

Man Frozen in Seabrook.

David G. Dow of Seabrook, more generally called "Crockett" Dow, died at about 12 o'clock Friday night, Dec. 1, from being frozen while in a state of intoxication. He lived alone in a house near the Seabrook depot, but for some time past has been employed by Elizah Knox of South Seabrook; and the latter being an intemperate man and a liquor seller, his place was not the safest one for Dow. The two men have been on a spree lately, and Knox discharged his employee, who was seen to enter his own habitation on the evening of Thanksgiving Day, and was found next morning by the neighbors, who not seeing him around burst open the door, lying upon the floor insensible, with both legs and one arm frozen, and one side of his head frost-bitten. He was removed and every effort made to resuscitate him, without avail, as he only rallied sufficiently to speak a few words before he died. He leaves a wife and three children in Pittsfield, from whom he has been for some time separated, as is alleged for faithlessness; he was a man of fair education and well brought up, his father being an elder in a Quaker church and of a good family. A few weeks ago Mr. Dow was told that the course of life he was leading would bring him to the grave,—that he would be run over by the cars or frozen to death; to which he replied that as long as he was full of rum he would not freeze.

Our informant states that though Mr. Dow is the seventh man who has died while drunk or from the direct effects of drink within five years, in the town of Seabrook, yet there were at least forty-four persons, a large proportion of whom are heads of families, "on the spree" last week in the village of South Seabrook alone.

Owen P. Sargent, a married man with a wife and three children to support, commenced his Thanksgiving by taking lunar observations "through a glass, darkly." That made him "luny," and he then proceeded to disturb a concert that evening held in the Congregational vestry. Next morning he was brought up before Justice Wm. A. Rand, fined $5 and costs and put under $50 bonds to keep the peace for six months. Owen appealed.

The Body

Of a well formed male infant was discovered in a creek of the South Mill Pond near Richards Avenue, Sunday afternoon, and the police conveyed it to the Station. The body was wrapped in a piece of a woman's dress, and had evidently been in the water several days. It may have lived a week or two after its birth.

—An illiterate Gentile, after wrestling with the word "polygamy" for a while, pronounced it "polywogamy."

MARRIAGES.

FORECLOSURE OF MORTGAGE.

NOTICE is hereby given that on the thirty-first day of May, A. D. 1871, I peaceably entered upon and took possession of a tract of land situated in Rye, in the County of Rockingham and State of New Hampshire, which was formerly occupied by JOHN and MARY LOCKE, and conveyed by said John and Mary Locke to Timothy C. Knowlton by deed of mortgage, dated September 2, A. D. 1868, and recorded in Rockingham Records, lib. 379, vol. 470, for condition broken and for the purpose of foreclosing the right in equity to redeem of the representatives of John and Mary Locke.

LAURA A. KNOWLTON,
Administratrix on the Estate of Timothy C. Knowlton, and owner of said Mortgage.

SEWING MACHINE!
ONE SECOND HAND WHEELER & WILSON, (Cabinet,) in good running order, for $35. A bargain for somebody, at
J. Henderson's Boston Cheap Store.

Morning Chronicle.

—ON FOR WOULD-BE SUICIDES.—

A LESSO... of the middle age, There is a gentleman ... witness who might be summoned as a ... for a walk of half a block, who assures us that there is never any sense in self-destruction. He declares that when he was a very young man he was madly in love. His love was returned; and there was every prospect of happy result. Of a sudden, however, an event came to pass which put marriage out of the question. So what did this young gentleman—(we mean this middle-aged gentleman, who was, at the time indicated, a young gentleman)—what did this infatuated young gentleman do?

This is what he did. He went and purchased him two horse pistols; he dressed himself in his handsomest suit of clothes; and he called at the farm-house which sheltered the object of his heart's desire. It was a moonlight summer night. So what did this infatuated young man ask the young lady to do? He asked her to take a walk. The young lady assented, of course, and they strolled "far from the haunts of men, and out of the reach of any voice or eye." They sat down upon a log, and this young gentleman very plainly told this young lady that they could never be man and wife, and all the whys and wherefores, which were indeed conclusive.

The young lady, like an affectionate, dear girl as she was, began to cry; whereupon our hero produced his two horse-pistols, loaded down to the muzzle with buckshot. "Susan," says he, and there was solemnity in his voice and terrible earnestness in his eye. "Susan," says he. Susan looked up frightened to behold the murderous weapons gleaming in the moonlight. "What are you going to do?" says she. "I am going to get over this in thirty minutes," he says sternly, taking out his watch, "and you shall do the same thing, or I'll kill you first and then kill myself. I mean it, Susan. Don't doubt." She did not. She sat and mused, and he sat and meditated, and time ran along with the moonbeams that trotted round the watch-dial.

At the end of twenty-nine minutes he said: "Time's up. I believe that I had rather live without you, Susan, than die with you. What do you say?" "Them's my sentiments," says Susan. "Good," says this infatuated young man, replacing his watch in his vest pocket and firing off the two horse-pistols in the air; "let's go home and say no more about it." They went home. Susan was married to another gentleman inside a year. Our hero is still a bachelor—a jolly bachelor—with plenty of money and friends and health; and he says now and then, referring to this episode in his young career, "Now, wouldn't I have been a fool if I had let the 30 minutes run out? Why, sir, Susan is old and fat and ugly, and has nine children; and as for me—why, I feel as young as a gal with ribbons."

Certainly the gentlemen does, and is moved beside by the sweet conciousness of having saved not only his own life but the life of an innocent young woman and the lives of nine children, by an act of severe but practical wisdom and virtue; the which is commended to all seekers of suicide.—*Louisville Courier Journal.*

The above list includes all of what are commonly called the first class machines, but not all.

NEW FAMILY SINGER SEWING MACHINE

Has proved itself *the best* for all classes and kinds of operators and work.

All that persons need to do to satisfy themselves of this is to enquire of those who have used them the most.

They Hem, Braid, Tuck, Quilt, Cord, Embroider, Fringes, Ruffle, Fell, Puff, Gather, Fagot, Trim, Bind.

They are light running, easy to learn and keep in order and for durability unrivalled.

They will stitch equally well the heaviest beaver or the thinnest muslin, in fact they will do every useful work that mechanical skill has yet perfected in the sewing art.

These celebrated Machines are Sold for Cash or on the installment principle, as best suits convenience of the purchaser, at the Regular Agency for Portsmouth, Kittery, York, Eliot, Newcastle, Rye, Hampton, North Hampton, Hampton Falls, Greenland and Seabrook.

No. 2 Chestnut St., Portsmouth,

J. J. FESSENDEN, Agent.

CAUTION.—Beware of all pretended agents or of those who pretend to sell all kinds, as no other person has an agency for the above named city and towns from the Singer Manufacturing Company. n9 J. J. FESSENDEN.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawf&w16

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were used in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mildew proof, easy of application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints and Materials on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing the experience of workmen by the day at very low wages. B. NORTON, only Agent for selling the

AVERILL CHEMICAL PAINTS,

in the City. Also Dealer in

GROCERIES AND PROVISIONS,

PACIFIC MAIL STEAMSHIP CO.'S

THROUGH LINE TO CALIFORNIA, CHINA AND JAPAN,

Touching at Mexican Ports and carrying U.S. Mail

FARES GREATLY REDUCED.

One of the large and splendid Steamships of this line will leave Pier No. 42, North River, foot of Canal St., New York, at 12 o'clock M., on the 15th and 30th of every month, (except when those dates fall on Sunday, and then on the preceding Saturday,) for ASPINWALL, connecting via Panama Railway with one of the Company's Steamships from Panama for SAN FRANCISCO, touching at MANZANILLO.

All departures connect at PANAMA with Steamers for SOUTH PACIFIC and CENTRAL AMERICAN ports. Departure of 15th, touches at Kingston, Jamaica.

For Japan and China, Steamer leaves San Francisco first of every month, except when it falls on Sunday, then on the day preceding.

One Hundred Pounds of Baggage allowed each adult. Baggage masters accompany baggage through, and attend to ladies and children without male protectors. Baggage received on the dock the day before sailing, from steamboats, railroads and passengers who prefer to send down early. An experienced surgeon on board. Medicine and attendance free.

For freight or Passage Tickets or further information apply at the Company's ticket office, on the Wharf, FOOT OF CANAL ST., NORTH RIVER-NEW YORK, to F. R. BABY, Agent; or to the

Agents for New England, C. L. BARTLETT & CO., 16 Broad street, BOSTON,

The Chronicle.

SHAVING.—During the siege of Paris the priests were almost compelled to dispense with the razor, and on the restoration of peace many of them had become so well satisfied with the full beard that they were unwilling to cut it off. Consequently a grave dispute has arisen among the Parisian clergy on the subject of beards. In this debate the German professor Oertel has taken part, and in a long historical article he shows that the custom of shaving is a modern innovation—that none of the partriarchs of the Jewish church nor the early fathers of the Christian church practiced it; that "Abraham, Isaac, and Jacob, Moses and the prophets wore long beards, which they carefully cultivated with olive oil and ointments, as abundantly appears from the Psalms and other sources;" and that no painter with any knowledge of antiquity would think of representing Christ or the twelve apostles with shaven faces." If Father Oertel does not say, he might have said that the priests on the Continent of Europe wore their beards up to the separation of the Greek and Latin churches, in the eighth century; when Leo III., to distinguish himself from the Patriarch of Constantinople, shaved his face, and called upon his clergy to imitate his example. Thirty years after, Gregory IV. issued a bull denouncing penalties upon every bearded priest. Three hundred years later the same requirement was laid upon the laity, and even upon royalty itself. No kings shriven unless shaven, was the ultimatum of the priests, and Frederick Barbarossa and Henry V. of England were among the monarchs who were compelled by ecclesiastical pressure to seek the services of the barbers. When the fact comes to be known that shaving is a relic of Popery and of the dark ages, we expect to see a great increase of beards among a certain portion of our clergy. We cannot commend their motive, but we can most heartily applaud the result to which it will lead. Let us have a generation of ministers who are not ashamed of their manhood.—*Independent.*

—A Cincinnatian married the divorced wife of his own son.

—Dr. Hess—Chicago—domestic infelicities—pistol—will recover.

—A South Bend orator gesticulated with such violence as to knock down a bystander.

—The Chicago Post calls Walt Whitman a poetical volcano, because he is a verse-a-fire.

—What if ladies at Saratoga do take punch occasionally, provided they take it in a ladle-like way?

—There is a young chap in a Danbury school, who being asked who was called "The Father of his Country?" shirilly shouted: "Brigham Young."

—A New Albany bride "skedaddled" from the church when the groom was about to lead her to the altar, and vanished down the street. No cards.

—The New York Times says A. T. Stewart has bought Tweed's "villa" on Washington Hights for something under $200,000—doubtless a good bargain.

—William, who used to brag that he never owed a dollar in his life and never would, in less than a year after his marriage had a little Bill to take up every day.

—A pretty, rich young widow was regarding herself lately at a mirror in her chamber, while for the first time trying on her widow's cap. "Behold," she exclaimed, "the real cap of liberty."

—An English gentleman has inserted the following advertisement in a provincial paper: "Mr. H. R. Willis presents his compliments to those gentlemen whose love of fruit is greater than their respect for the Eighth Commandment, and begs to inform that the apples still remaining upon his trees have been treated with carbolic acid in solution. Carbolic acid is a powerful mineral poison."

THE KING OF FOX KILLERS will send you a copy right Pamphlet, of full instructions in the secret art of poisoning Foxes, for only 50 cents. A sure thing. Write this address down—J. T. MOXLEY, Owosso, Mich.

PERKINS & HOUSE'S Patent Non-Explosive Kerosene Lamp is an absolute Safety Lamp that will not explode, that will not give off bad odor, that will not break, that will give a light equal to two other Lamps. Lamps for the Kitchen, Parlor, Study, for Churches, Public Halls, Factories, &c., &c., for sale to the Trade and the Public, by ALLEN FOLGER, Agent for the Manufacturers, Durgin's Block, next door west of Post Office, Concord, N. H. Canvassers wanted in every town in the United States. Address as above.

$10 from 10 cts. For particulars, send stamp and name of County. P. MICHAEL, Owosso, Mich.

AVOID QUACKS.—A victim of early indiscretion, causing nervous debility, premature decay, etc., having tried in vain every advertised remedy, has discovered a simple means of self-cure, which he will send to his fellow-sufferers. Address J. H. REEVES, 78 Nassau St., N.Y.

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION.
Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

594 Broadway, N. Y., and 104 South Tenth St., Philadelphia, Pa.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.
Dr. Wells' Extract of Jurubeba
is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints
JURUBEBA
is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments. 4w n28

STEAM SAFES
—AGAIN—
TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.
AM. STEAM SAFE CO.,
COLE & LAMBERT, *Managers,*
300 Broadway, N. Y.

Gentlemen:—"The Binghamton Planing Mill and Sash and Blind Factory," together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 7) made by you, and purchased one year ago from Messrs. Falge & Chaffee, Agents, in this city, was in the Planing Mill, and went through the severest part of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild. Very truly yours,
(Signed,) A. L. HARDING,
Late Proprietor Canal St. Planing Mill, Binghamton.

All Styles of Mercantile and House Safes

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents or inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency is the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent and the usual great delay thereon, we have saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.
"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such name is takable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.,
Boston, Jan. 1 1871.—1 yr.

The Daily Chronicle.

Portsmouth, N. H.

TUESDAY, DECEMBER 5, 1871.

The Gubernatorial Nomination.

The Nashua Telegraph says of our recent municipal election:—

There is a significance about the result in Portsmouth which will have an important bearing on the choice of a candidate at the coming Republican State Convention. Mr. Walker is well understood to be a candidate for the nomination, though we hope his friends will let the people do all the wire pulling. He is a man of high business qualifications and the purest character, and should the choice of the convention fall upon him the Republicans will have a candidate who will unquestionably prove to be as popular in the State as he is at home.

To which Mr. Walker's friends respond that they have demonstrated his popularity at home, and that is the chief wire-pulling they propose—being content to leave the result to reflecting Republicans throughout the State. The compliment tendered Mr. Walker by the Telegraph is well deserved, so well deserved in fact, that in no contingency do his friends desire or intend to force his nomination. No Republican in the State has more real desire to see first of all a grand triumph of Republican principles than Mr. Walker, and if a more popular candidate than he be found it will be the duty of Republicans to select him. A more willing supporter of the nominee, than Horton D. Walker, should the choice of the convention not fall on him, will not be found. "Principles, not men," should be the motive which shall actuate Republicans, and then the redemption of the State will be assured. We doubt if a man will be found who can poll a larger vote than Mr. Walker, but the result of the balloting for a candidate for Governor will be satisfactory to the friends of the gentleman whom Portsmouth Republicans present—in either contingency.

CONGRESS met on Monday, there being a quorum present in both Houses. The President's message was read. In the House, speaker Blaine announced the committees. The following are the names of the chairmen of the most important committees. Ways and Means—Mr. Dawes of Massachusetts. Appropriations—Garfield of Ohio. Banking and Currency—Hooper of Massachusetts. Military Affairs—Coburn, of Indiana. Judicary—Bingham, of Ohio. with Butler as second on the committee. Indian Affairs—Mr. Shanks, of Indiana. Commerce — Shillabarger, of Ohio. Post-offices and Post Roads — Farnsworth. Navy affairs — Schofield of Pennsylvania. Foreign affairs—Banks of Massachusetts.

THE SECRETARY OF WAR'S REPORT shows the army on July 1 to have been reduced to 30,000. The expenditures for the year were about forty millions, including nearly four millions for river and harbor improvements. The estimate for military purposes for the fiscal year ending June 30, 1873, is $32,415,472. The Treasury has realized thus far the present fiscal year $21,766,403 from the sale of arms and other sources. An estimate of three millions is made for the settlement of claims yet due the States for calling troops into the service. The Secretary recommends that extra lieutenants, authorized to serve as regimental quartermasters, be discontinued, as vacancies occur in those grades, effecting the ultimate reduction of eighty lieutenants, and that the grade of quartermaster-general be abolished; also those of company artificer and wagoner, which will save 11,165 men to the service, at a yearly cost of $412,740. The proceeds of the sales of clothing since June 30, 1870, to date, are $1,875,728. The cost of transportation for the year is about $1,500,000. Half the southern railroads still owe the department $4,724,350. The Secretary alludes to the existence of the armed rebellion of a regular organization and its great strength in parts of the southern States, and the necessity of using the armed force of the nation to put it down and bring the leaders to speedy justice. He closes with a renewed recommendation for fire-proof buildings for the War department, and expresses a hope that a reform will be effected in all the departments of the government by the labors of the civil service commission.

THE FISHING SCHOONER E. A. Horton, recently seized by her owners from the Dominion authorities and afterwards seized by the collector of customs at Gloucester, will have new papers by the authority of the Secretary of the Treasury. A full investigation, it is said, showed that there was no reason to deprive her owners of them.

THE NAVY ESTIMATES for the fiscal year ending June 30, 1873, amount to about $20,000,000—over $1,200,000 less than for the current year, and over half a million less than the appropriations made by Congress. The Secretary recommends that the grade of commodore be dispensed with, and, after this grade has lapsed by the death, retirement or promotion of the present incumbents, promotions be made to the grade of rear-admiral, as vacancies occur, from the list of captains, and that a further decrease be made in officers by increasing the cadetship term from four years to six.

DAVID CUMMINGS & Co., of South Berwick, are building a brick mill, four stories high, and 200 feet in length. It is to be run by steam, and will give employment when completed to four hundred workmen. Fifteen or twenty tenement houses for there use are being built close by. Their is talk of having an aqueduct, 2600 feet long, from Butler's Hill to supply the town with water. Several new streets are being made, and the place, altogether, is taking on a new air of enterprise and thrift.

SEVERE WEATHER.—An Omaha dispatch of the 3d says the snow in the valley of the Republican is two feet deep. A large number of people have been frozen. One party found seven men frozen to death.

New Hampshire Items.

There are 1600 places in the State where liquors are sold.

The earthquake on Thursday afternoon was distinctly felt in several sections of the State.

The fourth winter meeting by the State Board of Agriculture, in connection with the Fourth Annual Farmers' Gathering under the patronage of the N. H. State Agricultural Society, will be held at the city hall, Manchester, on the 12th, 13th, 14th and 15th insts. At the same time and place will be held a free exhibition of corn and other cereals, potatoes, dairy products, implements, samples of fertilizers, and other articles of interest to the farmer.

THE ANNUAL REPORT OF THE REFORM SCHOOL has the following facts and figures:

The number of inmates received during the year was 39, which, added to the 93 previously committed, made a total of 132; discharged within the year for various reasons, 44, leaving 88 in the institution April 30, 1871.

The whole number ever sent to the school is put down at 615, of which 3 were sent by the United States Court, 93 by the Supreme Judicial Court, and the remainder by Police Courts and Justices of the the Peace. The terms of commitment have varied from 6 months to that of ten years, or during minority, which is often more than ten years.

The offences for which they have been punished are numerous, such as stealing, 264; house-breaking, 65; vagrancy, 78; truancy, 38; assault, 13; for stubbornness, 117. There seems to be too large a proportion committed under the charge of stubbornness or disobedience, where in many cases the parent is most guilty.

The youngest committed were but 7 years old, at which age 2 are recorded; the oldest was 19. At the age of 14 years, 108 have been sent to the institution.

The parentage of those on the rolls for the past year are; Americans, 58; Irish, 61; French, 5; African, 4; English, 3; German, 1.

Of the whole number, 212 have fathers, 131 have lost mothers, 55 have lost both; 203 have had intemperate fathers, and 91 have had intemperate mothers; 153 had fathers who pursued no regular business; 340 were generally idle boys before coming to the school; 349 were profane; 473 did not attend church; 225 were accustomed to sleep in barns and sheds; 217 had used tobacco; 178 had been accustomed to drink.

The whole number of boys instructed in common school studies the past year, 113; girls, 19.

No inmates have died during the year, and none been severely ill. The physician commends the matron for her care in preventing illness.

An inventory of the property belonging to the institution is given, showing that the value in the office and library, including books $150, and safe $100, is only $390; in reception room and guest chamber, $139; officers' rooms and hospital, $383; school rooms, including seats, settees, cabinet organ, $853; work shops, $382; children's cook room and hall, $144; sleeping halls, $410; family cook room, &c., $135; bathing room and laundry, $100; sewing room, and clothing, $356; the whole amounting to only about $3,300, which for an average of more than 100 inmates, and the necessary attendants for instruction and government, is a small amount.

The value of the live stock at the time of making up the report is put down at $2,780; farming utensils at $928. Products of the farm last year are 6 tons corn fodder; 40 tons hay; 250 bushels of corn; 228 bushels of potatoes; 226 of carrots; 3,000 heads of cabbage; 4 bushels of beets, amounting in value to $1,347.80. Besides, the pork made was 4,500 lbs.; beef, 4,100 lbs.; milk, 8,768 quarts.

The Treasurer's Report—the Superintendent is Treasurer—shows that the receipts for the year were $25,569.77.

A FLORIDA RAILROAD.—A Northampton lady who recently went to St. Augustine, Florida, writes back that the hardest part of her journey was the last 15 miles before reaching St. Augustine. They cut the wood as they went through the woods and watered the engine by dipping up the water in buckets on the road side; when they got up steam enough to get off, the same hands ran on before to sprinkle sand on the wooden rails, in order to travel the distance of 15 miles in 4 1-2 hours. She says she was thoroughly provoked, as the road was built by a Connecticut Yankee and run by him.

BUSINESS NOTICES.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost given away. Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

FOUR EVILS.—Whoever habitually uses any alcoholic preparations as an "appetizer" will be likely to suffer from four evils, viz: an overplus of food in the stomach, impaired ability to digest it, the pangs of dyspepsia, and a doctor's bill. DR. WALKER'S VEGETABLE VINEGAR BITTERS, the great Teetotal Restorative of the age, without over stimulating the palate or irritating the stomach, imparts a healthful appetite, promotes digestion, regulates the liver and bowels, purifies the blood, and thus, instead of entailing four evils, confers four inestimable benefits.

A gentleman from Bethel Hill, Me., says that Messrs. Allen Bros., Proprietors of Phillip Allen's Print Works, R. I., were down to Bryant's Pond, recently, trouting, when one of them was attacked with sciatic rheumatism so suddenly, that he had to be carried from the pond to his hotel; a bottle of *Johnson's Anodyne Liniment* was resorted to, and he was out next day.

How are you to-day? I'm not feeling well, bilious and sick headache, have been looking around for a box of *Parsons' Purgative Pills*, but our traders are all sold out.—*Country Paper.*

SPECIAL NOTICES.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER — Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

Winter Wisdom.

Warm clothing alone will not protect the body against the consequences of the sudden depression of temperature which is concomitant of early winter. Flannel next the skin preserves the animal heat, but it does not impart animal vigor. That property is the special prerogative of HOSTETTER'S STOMACH BITTERS, which is therefore a specific protection against a majority of the complaints which are most common at this season. For example, a course of the great vegetable invigorant, commenced now, will be almost sure to preclude chills and fever, bilious colic, disorders of the stomach, constipation, and many other complaints which are often the direct or indirect effect of an atmosphere surcharged with cold, unwholesome vapor. Moreover, the system toned and regulated by this means is much more likely to resist pulmonary disease than it would otherwise be; for the influence of searching medicines pervades all the organs, and every fibre and tissue of the frame. Persons whose vital powers are weak, especially invalid ladies and the aged, are earnestly recommended not to face the winter's rigor without having recourse to this safe and sufficient means of re-enforcing enfeebled nature. Much suffering may be escaped, much danger averted by following this council. Better late than never, is a good proverb, but it is better to be early than late.

—The Pilot says that in the city of Boston alone there are nearly 60 priests and over 100,000 Catholics. There are in the diocese, which instead of comprising all New England, is now only half of Massachusetts, 160 priests and nearly 300,000 Roman Catholics. In the whole of Massachusetts there are now over 200 priests and 400,000 Catholics. In the original diocese of Boston (all New England) there are over 300 priests, and probably over 600,000 Roman Catholics.

—What are the average ages of dogs? Saus-ages.

—Jacob successfully watered Laban's stock.

NEW ADVERTISEMENTS.

THE SATURDAY EVENING POST.

HALF A CENTURY OLD!

ENTIRELY NEUTRAL IN POLITICS.

A NEW DEPARTURE!

The size of THE POST has recently been enlarged fully ONE-THIRD, (containing 48 long columns,) and it is now both the

THE LARGEST AND THE CHEAPEST OF THE FAMILY PAPERS.

It will contain Novelets, Illustrated Stories, Sketches, Poetry, Answers to Correspondents, etc., etc., by the

ABLEST WRITERS

that can be procured—including Mrs. Henry Wood, author of "East Lynne," Mrs. Margaret Hosmer, Amanda M. Douglas, Burr Thornbury, Ella Wheeler, August Bell, Clio Stanley, Captain Cuthes, Lillie Devereux Blake, "Zig," Mrs. Fanny R. Feudge, Mrs. M. L. S. Burke, Eben E. Rexford, etc., etc., etc. ☞ It will be entirely NEUTRAL in politics.

AYER'S

SARSAPARILLA,

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the apparent cure the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

Trafton's Bal Masque this evening will be a gay affair.

Communicated.

Temple vs. Globe.

"Shall we go and see Charlotte Cushman?" was the pertinent interrogatory of my better half, as she read in the paper that the manager of the Globe had effected an engagement with the "greatest of living dramatic artists." Never having seen the impersonation of Meg Merriles, we concluded that with but one life to live, it were better to see the lady before either of us in our advancing years should "have shuffled off this mortal coil," and at once telegraphed for rooms and tickets. The bits of pasteboard which were quite in demand by the time our turn had arrived, allowed us to sit in what are termed Orchestra Stalls, at double prices. Why they are denominated Stalls, I know not, except upon observation of the surrounding play-goers, I found that the manager had

"Let me have men about me that are fat;
Sleek-headed men, and such as sleep o' nights."

The "Orchestra Stall" seats are not much raised above those in front, and to sit behind two light headed women with great quantities of what sailors would call "top hamper" is not very conducive to a sight of the stage. But by dint of opera glasses moved every few seconds as our file leaders moved, we saw Charlotte, and a great artist 'is she. She was fearfully and wonderfully made, and her great conception of the genius of the author of Guy Mannering, seemed in vast contrast with the stock company, more than half of whom seemed to have no idea of the characters they assumed. It is a severe trial to wait an hour and a quarter and witness the indifferent acting of the lesser lights, as they one after another fail to come up to our ideal of Sir Walter's characters, before the star of the evening is seen, but when she appears, one is brought to think of the enormous nightly salary of the lady and how faithfully she earns it, in the repulsive character she so ably sustains, and in the portrayal of which perhaps no other artist will ever succeed. People do not go to see Meg Merriles often, as in the case with Jefferson's Rip Van Winkle, —once generally suffices. But not to have seen her is to have lived in vain, and every one near Boston seems of this belief.

So much is anticipated of Miss Cushman, and she is so long in making her appearance, that the audience gives but little attention to the earlier part of the play, which in itself of course is not up to the story upon which it is founded. Indeed the Boston Museum appears to be the only place in Modern Athens where every part of a play is well performed. The next night at the dramatic entertainment at the Temple, in our own city, there was a much better conception of the parts sustained. Those who saw Mr. William Warren play Mr. Pillicoddy on the same boards a few years since, were forcibly reminded of his style by Mr. Sanborn's admirable acting on Saturday evening. It is rarely that one sees, particularly in a company of amateurs, (who though heartily entering into the work sometimes fail to personify their characters) such faithful delineation of characters. Who has seen a better lady's maid than the young lady in the Widow's Victim, who so admirably sustained her part in every detail, and who looked, dressed and acted the part beyond cavil! All the ladies who appeared deserve our thanks, not only for their generous aid to the worthy object for which they spent time, &c., but that having talents to confer so much happiness on an audience of the character of that gathered on Saturday night they at the same time possess such genuine good sense and liberal ideas as not to deprive us of the pleasures of the occasion. The perfection in which the parts were given, the self-possession of the different ladies and their keen appreciation of the fact that however much they enjoyed it, the first object was to amuse others, by the careful rendering of the parts they assumed, and the fortunate selection of pieces all contributed to the perfect success of the entertainment.

It would seem a work of supererogation to say that Mr. Sanborn performed his various parts well, that he has the happiest faculty for bringing out the comic side of everything, and that Mr. Palfrey, whose versatility of talent displayed in such various ways and appearing to us at times, "in such a questionable shape," was a success, or that the gallant son of Mars, with his battle scars, to whom a generous applause was given as he appeared, and who always is modest with "his blushing honors thick upon him" charmed us with his natural style and ease of manner on the boards. The whole affair was a great success, creditable alike to the generous hearts of those who labored long and patiently in its preparation, and to the sentiment of our city which sees in this a mode of doing a good work, a recreation of which the more the better.

J. H.

Masonic.

At the annual communication of St. Andrew's Lodge, No. 56, F. & A. M., on Monday evening, Dec. 4, the following officers were elected for the ensuing year:—Philip S. Mizener, Master; S. C. Whittier, Senior Warden; James L. Parker, Junior Warden; Gershom F. Melcher, Treasurer; D. Webster Barnabee, Secretary; Charles W. Gardner, Representative to M. W. G. L.; William P. Walker, Joseph Berry, Standing Committee.

CO-OPERATIVE BOOT AND SHOE COMPANIES. — The creditable position the Rockingham Co-operative Boot and Shoe Company of Portsmouth, N. H., has taken in the retail trade of Boston, (fine machine sewed work,) since it started about two years ago, and its good prospects for the future, have led the writer to enquire as to the extent of co-operative movements. Co-operative stores are no new institutions, and their general success in the different States is too well known to enlarge upon.

But co-operative boot and shoe companies have been in operation only two or three years, and owing to internal dissensions or opposition from without, quite a number of them have proved failures. The first and most successful one in this State, (organized in June, 1870,) is that at North Adams, where about forty men are employed. The work there is women's, misses' and children's pegged goods. A similar company in Lynn do machine sewed work, while a Weymouth company make a specialty of boots, and one at Mendon heavy boots. The towns of Lee, Milford and North Bridgewater also have similar organizations.

Maine has one at or near Bucksport. In New Hampshire, in addition to the one above-mentioned, may be added that at Pittsfield. Connecticut has three or four, and Vermont one at Bennington.

The co-operative movement flourishes in New York City, where there are eight associations — the largest being the N. Y. Co., which pays from $1200 to $1600 weekly in wages, besides large dividends. Among the other places in New York where work is done on this principle are Albany, Troy, Rochester and Elmira. There are also a dozen or more in the Western States. In New Jersey there are two, the same number in Philadelphia, one in Harrisburg, one at Washington, one in Baltimore, (with a capital of $15,000,) one each in Louisville, Ky., Nashville, Tenn., Atlanta, Ga., and Galveston, Texas. There are probably some not included in this list.

These companies employ from six to sixty men each, and some of them are on the "industrial partnership" plan, manufacturers employing the men and yet allowing them also a share in the profits.—*Boston Traveller.*

—About a year ago Jim Grady was executed in Washington for a felonious and brutal assault upon an old woman who died from the effects thereof. In a short time after Grady's execution his mother died of a broken heart from grief over her son's disgraceful end. Thomas Grady, the father, was buried Sunday—he, like his wife, dying from a broken heart and grief.

—The disbursements from the Treasury department during November, exclusive of the amount paid on account of the public debt, were as follows: Civil and miscellaneous, $4,513,085; War department, $2,944,745; Navy department, $3,164,205; Interior department, pensions and Indians, $4,942,776; total, $15,564,812.

—An unprecedented case of somnambulism occurred a few nights ago in New Haven, the subject being a little child about three years old, who went out in a rain storm twice in a single evening to meet its parents, and was brought back each time and put to bed without being awakened.

—Miss Eliza Lyman of East Greenboro,' Vt., has contracted to furnish the lumber for the water tank and depot buildings that are soon to be constructed on the "great bend" of the Lamoille Valley Railroad near that place.

—The Boston Courier says that Mr. M. M. Ballou will soon start a new illustrated weekly, similar in design and aims to the Pictorial, which was so popular several years ago.

Wanted,

At this office, to complete files, copies of the NEW HAMPSHIRE GAZETTE, of date November 18.

$25 Reward.

We are constantly annoyed at complaints from many of our patrons that the CHRONICLE is stolen from their premises. The thieves who abstract these papers from the doorways of their neighbors, if detected, will be made to suffer, and we offer a reward of $25 for such evidence as will result in the conviction of any person guilty of such theft.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

—A cook in Grantville, Mass., had a leg broken by the explosion of a range, caused by the freezing of the pipes, which prevented the boiler from being filled.

—It cost the city of Boston $10,000 for the part it took in laying the cornerstone of the post-office, the entertainment of President Grant and other guests on the occasion.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c. —and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DAYE SHEETS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

HARVEY FISK. A. S. HATCH.
FISK & HATCH,
BANKERS
and Dealers in Government Securities,
No. 5 Nassau Street,
New York, Nov. 20, 1871.
The successful and rapid negotiation of nearly three-fourths of the FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for future sales of the Bonds, as explained in the following letter of MR. HUNTINGTON, President of the Company:
OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 15, 1871.
Messrs. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:
The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonary on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.
In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.
Very respectfully yours,
C. P. HUNTINGTON, *President.*
In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.
The security of, and demand for, really
Desirable six per cent. Gold Bonds,
for solid and permanent investments, is evinced by the facts that
Five-Twenty Bonds of 1867 are selling at...115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at...94
These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.
The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.
The reason why we think CENTRAL PACIFIC BONDS will in time advance to the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.
The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.
The Chesapeake & Ohio Bonds are issued either coupon or registered—the denominations are as follows:
$100, which cost to day.....$94.13
$500 " " " 471.56
$1000, " " " 943.12
Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.
We buy and sell Government and Central Pacific Bonds, and receive them in exchange for Chesapeake and Ohio Bonds.
Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*
FISK & HATCH.

Morning Chronicle.

OLD TIME CHRONICLES, No. 42.

BY GEORGE FOGERTY.

Edward Gove of Hampton, and His Treason.—There has been but one case of trial and condemnation for treason since New Hampshire was settled. It was formerly held as a capital offence and the punishment was death. The offender was Edward Gove of Hampton, who lived in that part now called Seabrook, which was incorporated in 1763. For some years previous to 1680 New Hampshire was connected with Massachusetts. The separation was not pleasing to the people, but they got along pretty well under the first provincial governors, Mr. Cutts of Portsmouth and Mr. Waldron of Dover, the latter of whom as President of the Council, was acting governor a few months. But in 1682 Edward Cranfield came over with a commission as governor. He was unprincipled, arbitrary and withal so greedy and grasping for wealth that he was only desirous of filling his own coffers while the public good was mostly out of sight. The people hated and yet feared him, as they knew that on his side there was power. If he was opposed the English throne might sustain him. There were mutterings of wrath, but no threats of open opposition till Mr. Gove, a resolute, excitable, hot-headed man, went to Exeter, Dover and other towns laying the grievances before the people,—found that a number would support him, and at once flew to arms. Gove mounted a horse, had a drawn sword in his hand, a trumpeter rode before, and a few bold spirits fell in armed with swords, pistols and guns. The call was for volunteers and the avowed object was to overturn the arbitrary government of Cranfield. Gove did not find so many openly to join him as he expected. He was in Exeter early in January, 1683, and about a dozen, mostly of that town, rode with him armed through the streets. At Hampton there were about the same number.

Gove was soon arrested, with a number of his party, and imprisoned on Great Island, now Newcastle; and to make sure of the captives a guard was placed around the prison. A special court to try the accused was held at Great Island, Feb. 15, 1683. Major Richard Waldron of Dover, afterwards killed by the Indians, was judge, with Thomas Daniel and William Vaughn, associates. Two weeks before the trial Gove wrote a letter in prison to the judges. It was somewhat ably written, with a mixture of a tone of defiance, prayer that the judges might have wisdom, and complaints of his treatment,—and said: "If ever there was need of a Solomon, or David, or Moses, Caleb or Joshua, it is now."

For the trial forty-nine jurymen were warned, as it was then called; fourteen were from Portsmouth and six from Great Island. The others were from Hampton, Exeter and Dover. These were all the towns in the province at that date. Gove pleaded not guilty; but after the principal part of the evidence was in he owned the matter of fact, but justified himself in taking up arms against the governor as his commission was signed in Scotland and he was only a pretended governor. He urged some other matters. The other prisoners had but little to say, only that they were drawn in by Gove. The jury deliberated some time and brought in a verdict against Gove—guilty of high treason. They found his accomplices guilty of the same. These were ten in number, mostly from Exeter, but one was John Gove of Hampton, son of Edward the leader. The solemnities of the sentence on Gove, who had excited the result, followed. It was the most horrible ever pronounced on a criminal in New Hampshire. Major Waldron, the judge, was a stout-hearted man, but yet had the fine feelings of humanity, and it is said he shed tears as he sentenced Gove. We copy the more important part: "That he should be carried back to the place from whence he came, and from thence be drawn to the place of execution, and be there hanged by the neck and cut down alive, and that his entrails be taken out and burnt before his face, and his head cut off, and his body divided into four quarters, and his head and quarters disposed of at the king's pleasure."

It is gratifying to say that his execution in this savage form was not effected,—nor was he executed at all. He was carried to England and confined in the Tower of London some years, then pardoned and allowed to return home. He died not long after. His descendants by the name of Gove are still found in Seabrook and vicinity and in other parts of the State.

The minister of Hampton at the time of Gove's active career, as related, was Rev. Seaborn Cotton. Gove says nothing of him, but while in prison at Great Island wrote of Rev. Joshua Moody, first pastor of the North Church in Portsmouth, calling him "Mister Moody," and requesting his prayers.

—The New York Evening Post is impertinent to say this: Of course Miss Alcott's "Morning Glories" are very different from her "Little Women," because morning glories occasionally shut up, while—[Yes, Dorabella, dear, coming!]

—Secretary Belknap, in reply to an interviewer who wanted to know what would become of the army during General Sherman's absence, said he thought the newspaper men could manage it with a little help from him.

—A young lady recently tried to do up her back hair with a honey-comb to make it look "sweet."

51,593 more than the Grover & Baker S. M. Co.
41,781 more than the Howe S. M. Co.
7,915 more than the Wheeler & Wilson S. M. Co.

We publish the above figures to show the uninitiated and those who contemplate purchasing, what machine is the public favorite.

The above list includes all of what are commonly called the first class machines, but the

NEW FAMILY SINGER SEWING MACHINE

Has proved itself *the best* for all classes and kinds of operators and work.

All that persons need to do to satisfy themselves of this is to enquire of those who have used them the most.

They Hem, Braid, Tuck, Quilt, Cord, Embroider, Fringes, Ruffle, Fell, Puff, Gather, Fagot, Trim, Bind.

They are light running, easy to learn and keep in order and for durability unrivalled.

They will stitch equally well the heaviest beaver or the thinnest muslin, in fact they will do every useful work that mechanical skill has yet perfected in the Sewing art.

Those celebrated Machines are Sold for Cash or on the installment principle, as best suits convenience of the purchaser, at the Regular Agency for Portsmouth, Kittery, York, Eliot, Newcastle, Rye, Hampton, North Hampton, Hampton Falls, Greenland and Seabrook.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfeb16

A Y E R ' S
CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the **AVERILL CHEMICAL PAINTS,** in the City. Also Dealer in

COW WITHHOLDING HER MILK.—A cow will sometimes withhold her milk when her calf is taken away, but usually only for a short time. The remedy in such cases is gentle treatment, and a persistent effort to draw the milk and bathing the udder with cold water. The milking should be attempted at short intervals—at least three or four times a day. If the cow is treated kindly, and a continued effort be made to draw the milk from time to time, she usually yields the point, and in a few days will forget her calf and give down her milk regularly. If harsh treatment is resorted to, and the milking neglected, inflammation of the udder and garget may set in, causing serious trouble and perhaps loss of milk entirely, if not other and permanent injury to the cow. It is not advisable to puncture the teat under such circumstances—at least, not until continued and thorough efforts have been made to draw the milk by hand in the usual way.

In case of obstructions in the milk duct, on account of coagulated milk or from some imperfection of the parts, a properly formed milk tube may sometimes be used with advantage. These tubes are constructed of silver, with a smooth, round point, pierced with holes, through which the milk may pass into the tube, and so arranged as not to injure the milk duct when introducing or withdrawing it from the teat. When pointed wires, straws, or goose quills are used for the purpose, they are liable to wound the parts and get up an inflammation in the teat, which may extend to the udder and spoil the cow for milk, at least for the season, if not permanently. This would be very likely to be the case if the weather be warm and the cow secrete a large quantity of milk.

We have seen wires, straws and quills used in numerous instances, and in nearly all bad results followed. In some cases the inflammation was so rapid as to make the cow in a few days almost unmanageable, and the final result was a broken udder and consequent loss of the cow.—*Rural New Yorker.*

REMARKABLE CASE OF TATTOOING. A correspondent of the Boston Medical and Surgical Journal gives a description of the appearance of a Greek pirate, who having been caught while on a marauding expedition into Chinese Tartary, was tattoed all over as a punishment. He says:

The skin presented a very handsome appearance, far more beautiful, I believe, than any leopard's skin can be, and having an effect like the elegant tracery of an exceedingly rich cashmere shawl; only that the coloring was done with indigo principally, with red inserted here and there to give it effect. His whole body, as it presented itself to view, was "a work of art;" and when one pauses to consider the immense amount of labor and the severe torture he must have undergone while this was performing, it will be easy to credit the statement that it was not a voluntary submission on his part, that made him the subject of the artist's skill. * * * I do not think that it would be possible to find a square even one-quarter of an inch in size upon the surface of his body free from coloring. And on his head, conjecture said there must have been something more fearful still, as he kept the whole of his scalp covered with a black, Malay-looking swipe, which no persuasion could prevail upon him to remove.

The different designs were not, each, more than a few inches in size, and they were representations of elephants, lions, tigers, birds of all kinds, with letters worked in between, referring, I presume, to his wickedness, each design being in itself a work of art, and the effect of the whole (with its thin outlines of the natural skin, tinted here and there with red, and winding its tortuous course all over the body) being very beautiful. No part of his body was spared; and when he extended his arm, the symmetry of design and the same elegance of execution showed in the axilla, as in the more noticeable and exposed parts of his body. A couple of dragons ornamented, and glared at each other across his forehead. His cheeks had received their allowance of pigment, and his rough, wiry beard half-concealed and half-disclosed the labor that had been expended on the ornamentation of that part of his person. Altogether, he was a wonder to look upon.

—A Pennsylvania paper says: "Chicago was probably the most populous city in the world, previous to the conflagration. Some fourteen millions of her destitute citizens have passed through this city in the past three weeks. You can't throw a cat in any direction without hitting a 'sufferer.' The dodge is becoming threadbare."

—Bismark is reported recently to have expressed more desire to meet and talk with Gen. Sherman than with any American alive. He considers Sherman more than any other of our soldiers a man of great military genius and inexhaustible resources.

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION.
Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

594 Broadway, N. Y., and 104 South Tenth St., Philadelphia, Pa.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give rest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more destructive to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Recourse has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

STEAM SAFES
—AGAIN—
TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.
AM. STEAM SAFE CO.,
COLE & LAMBERT, *Managers,*
300 Broadway, N. Y.

Gentlemen:—"The Binghamton Planing Mill and Sash and Blind Factory," together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 7) made by you, and purchased one year ago from Messrs. Paige & Chaffee, Agents, in this city, was in the Planing Mill, and went through the severest part of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild.

Very truly yours,
[Signed,] A. L. HARDING,
Late Proprietor Canal St. Planing Mill, Binghamton.

All Styles of Mercantile and House Safes

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents and Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay thereby, has here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

Boston, Jan. 1 1871.—1 yr.

Portsmouth, N. H.

WEDNESDAY, DECEMBER 6, 1871.

The Doctors Disagree.

The Democratic party, which long ago contracted a variety of serious diseases, among them the State Supremacy and slave-holder-worshipping complaints, is now, when looking wildly around for help in the last agonies of its dissolution, offered such a variety of remedies as would destroy even a healthy organization. The New York World says:

It is to be hoped that the Democratic National Convention will have sense and discretion enough not to drive the dissatisfied anti-Grant Republicans back into the bosom of the party, as we so insanely did in 1868. No more greenback heresies! no more denunciations of negro suffrage! no further vain attempts to roll back the earth on its axis and put everything where it stood in the administration of President Buchanan! no more selection of candidates foredoomed to defeat from the moment of their nomination! no more placing a bull on the track to butt the coming locomotive.

That is what the World thinks must *not* be done; what *must* be done is to "depart." It says that Grant's administration can easily be swept from power, and adds:

At least one-fifth of the Republican party would gladly contribute to this result, if we will let them. They will stand immovably by negro suffrage; they will insist on paying the public debt in gold; they will recant no part of their war record; but if we concede this much we may be certain of their co-operation.

That representative Democratic paper, the Manchester Public Forum, dislikes the World's doctrine and says that "if it is accepted there is no further use for the Democratic party"—with which we agree, and will add that the only use for the Democratic party for many years has been to keep the Republican party progressing. The Forum further says:

What does this pandering for Radical votes, by accepting any of their principles, amount to? It only makes us the ridiculous laughing stock of all honest, sensible men. Who ever knew of a real advantage gained by yielding to an enemy. Was anybody ever converted from wrong by admitting at the outset that he was right? We are throughly vexed and disgusted with this senseless, idiotic clamor of such papers as the World, playing 'Possum to catch Radical votes. If Democratic principles are right—and who can dispute it—let us stick to them like honest, sensible and patriotic men. Otherwise the end of our party and the end of our American system of government draweth nigh.

Who shall decide when the doctors disagree? But it makes no difference, for the end of the Democratic party cannot be postponed beyond 1872, and the end of the Democratic system of national government drew so nigh that it happily got here long ago. It is none of our funeral, however, and we don't care which doctor administers the finishing dose to the moribund party.

Congress.

On Monday, in the Senate, Mr. Sumner presented petitions for the passage of his civil-rights bill.

Mr. Edmunds introduced a bill for reform in the civil service.

Mr. Sumner introduced a bill to authorize compound-interest notes as a substitute for legal-tender notes.

In the House, Speaker Blaine announced the standing committees. The committee on naval affairs consist of Messrs. Scofield of Pennsylvania, Starkweather of Connecticut, Ketcham of Kentucky, Hayes of Alabama, Platt of Virginia, Coghlan of California, Archer of Maryland, Sutherland of Michigan and Whitthorne of Tennessee.

Mr. Lynch of Maine introduced a bill for the revival of navigation and commercial interests, providing for the admission of all ship-building materials, ship stores and coal free of duty, and for the resumption of specie payment.

A motion was made by Mr. Dawes of Massachusetts that the laborers, etc., employed by the government between the 25th of June, 1868, and the 19th of May, 1869, be allowed a full day's pay for eight hours' work.

MASSACHUSETTS MUNICIPAL ELECTIONS.—Somerville chose Geo. O. Brastow, Mayor, unanimously. H. O. Houghton is elected Mayor of Cambridge by 363 majority. Mayor John W. Fletcher is re-elected in Chelsea by 987 majority. Samuel B. Spooner, Republican, has 1244 majority for Mayor of Springfield. The Republicans have elected S. W. B. Stevens, Mayor of Lawrence, by 125 majority. They have the entire Board of Aldermen and eleven of the twelve Councilmen. Samuel M. Brown, Republican, has 793 majority for Mayor of Fall River.

MAYOR HALL of New York declines to swear in the newly-elected aldermen and assistant aldermen, and refers them to legal tribunals.

The President's Message

Is a concise and eminently practical document. President Grant refers with justifiable pride to the financial record of the past year; recommends a modification of the tariff and internal tax laws; that all taxes from the internal service be abolished, except those collected from spirituous, vinous, and malt liquors in various forms, and from stamps. There are many articles not produced at home, but which enter largely into general consumption, through articles which are manufactured at home, such as medicines compounded, etc., etc., from which very little revenue is derived, but which enter into general use. All such articles he recommends to be placed on the free list. If a further reduction should prove advisable he recommends that it be made upon these articles which can best bear it without disturbing home production or reducing the wages of American labor.

The national debt has been reduced to the extent of $86,057,128.80 during the year, and by the negotiations of national bonds at a lower rate of interest, the interest on the public debt has been so far diminished that now the sum to be raised for the interest account is nearly $17,000,000 less than on the first of March, 1869. It was highly desirable that this rapid diminution should take place both to strengthen the credit of the country and to convince its citizens of their entire ability to meet every dollar of the liability without bankrupting them. But in view of the accomplishments of these desirable ends, of the rapid development of the resources of the country, its increasing ability to meet the large demands, and the amount already paid, it is not desirable that the present resource of the country should continue to be taxed in order to continue this rapid payment.

More than six years having elapsed since the hostile gun was fired between the armies then arrayed against each other, one for the perpetuation and the other for the destruction of the Union, it may well be considered whether it is not now time that the disabilities imposed by the 14th amendment should be removed. That amendment does not exclude the ballot but only imposes the disability to hold office upon certain classes. When the purity of the ballot is secure, the majorities are sure to elect officers reflecting the views of the majority. He sees no advantage or propriety in excluding men from office merely because they were before the rebellion of a character insufficient to be elected to a position, requiring them to take oaths to support the constitution and admitting to eligibility those entertaining precisely the same views, but of less standing in their communities. It may be said that the former violated an oath while the latter did not. The latter did not have it in their power to do so. If they had taken this oath it cannot be doubted they would have broken it, as did the former class. If there are any great criminals distinguished above all others for the part they took in opposition to the Government, they might, in the judgment of Congress, be excluded from an amnesty. This subject is submitted for careful consideration. The condition of the Southern States is not unhappily, such as all true patriotic citizens would like to see. Social ostracism, for opinion's sake, personal violence or threats towards persons entertaining political views opposed to those entertained by the majority of the old citizens, prevent immigration and the flow of much needed capital to the States lately in rebellion. It will be a happy condition of the country when the old citizens of the States will take an interest in public affairs, promulgate ideas honestly entertained, vote for men representing their views, and so create the same freedom of expression and ballot in those entertaining different political convictions.

He says our naval commanders in Cuban waters have been instructed, in case it should become necessary, to spare no effort to protect the lives and property of bona fide American citizens, and to maintain the dignity of the flag.

In his brief statement of the Mormon difficulty he has left on record a saying which will, we think, become memorable. We do not know how the whole matter could be stated more concisely than this:—

"Neither polygamy nor any other violation of existing statutes will be permitted within the territory of the United States. It is not with the religion of the self-styled saints that we are now dealing, but with their practices. They will be protected in the worship of God according to the dictates of their conscience, but they will not be permitted to violate the laws under the cloak of religion."

He says "it was impossible, with self-respect or with a just regard to the dignity of the country, to permit Mr. Cataczay to continue to hold intercourse with this government after his personal abuse of government officials, and during his persistent interference through various means with the relations between the United States and other powers. In accordance with my wishes this government has been relieved of further intercourse with Mr. Cataczay, and the management of the affairs of the Imperial Legation has passed into the hands of a gentleman entirely unobjectionable."

He also recommends "liberal appropriations to carry out the Indian peace policy, not only because it is humane, Christianlike and economical, but because it is right. I recommend to your favorable consideration, also, the policy of granting a territorial government to the Indians in the Indian Territory, west of Arkansas and Missouri, and south of Kansas. In doing so, every right guaranteed to the Indians by treaty should be secured. Such a course might in time be the means of collecting most of the Indians between the Missouri and the Pacific, and south of the British Possessions, into one Territory or State."

—Stephen Pearl Andrews suggests that "the absolutoid elementismus of being echoes or reappears by analogy within the relatoid and concretoid elaborismus." This should be generally known.

BUSINESS NOTICES.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost *given away*. Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

FOUR EVILS.—Whoever habitually uses any alcoholic preparations as an "appetizer" will be likely to suffer from four evils, viz: an overplus of food in the stomach, impaired ability to digest it, the pangs of dyspepsia, and a doctor's bill. Dr. WALKER'S VEGETABLE VINEGAR BITTERS, the great Tectotal Restorative of the age, without over stimulating the palate or irritating the stomach, imparts a healthful appetite, promotes digestion, regulates the liver and bowels, purifies the blood, and thus, instead of entailing four evils, confers four inestimable benefits.

Soups of all kinds are much improved by the addition of a dessert spoonful of the famous Halford Table Sauce. If you try this recipe you will no more go without the Halford than without the soup.

How are you to-day? I'm not feeling well, bilious and sick headache, have been looking around for a box of *Parsons' Purgative Pills*, but our traders are all sold out.—*Country Paper.*

SPECIAL NOTICES.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER — Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

To insure the demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

td30 **Sold by Dealers Everywhere.**

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

Winter Wisdom.

Warm clothing alone will not protect the body against the consequences of the sudden depression of temperature which is concomitant of early winter. Flannel next the skin preserves the animal heat, but it does not impart animal vigor. That property is the special prerogative of HOSTETTER'S STOMACH BITTERS, which is therefore a specific protection against a majority of the complaints which are most common at this season. For example, a course of the great vegetable invigorant, commenced now, will be almost sure to preclude chills and fever, bilious colic, disorders of the stomach, constipation, and many other complaints which are often the direct or indirect effect of an atmosphere surcharged with cold, unwholesome vapor. Moreover, the system toned and regulated by this means is much more likely to resist pulmonary disease than it would otherwise be; for the influence of searching medicines pervades all the organs, and every fibre and tissue of the frame. Persons whose vital powers are weak, especially invalid ladies and the aged, are earnestly recommended not to face the winter's rigor without having recourse to this safe and sufficient means of re-enforcing enfeebled nature. Much suffering may be escaped, much danger averted by following this council. Better late than never, is a good proverb, but it is better to be early than late.

NEW ADVERTISEMENTS.

LYCEUM.

THE SIXTH LECTURE in the Course will be given at the

UNIVERSALIST CHURCH,

—BY—

Rev. Wm. R. Nicholson, D.D.,

Thursday Evening, Dec. 7th.

SUBJECT: "Civilization and Poverty."

Tickets for the remainder of the Course are placed at $1.00. Single Admission, 35 cents.

Doors open at 7½ o'clock, Lecture to commence at 8 o'clock. d6 PER ORDER.

PIANOS, PICTURES, &c.

IT IS TRULY SAID that "Music hath charms," and that "A thing of beauty is a joy forever." Please remember that the most elegant present for

Christmas or New Year

is a PIANO FORTE, ORGAN, or MELODEON, and next in order is a beautiful CHROMO, ENGRAVING, LITHOGRAPH, or PHOTOGRAPH, appropriately frame. They make home pleasant, cheerful, and attractive. Can you ask any more.

The largest assortment of the above goods in Rockingham County, can be found at

MONTGOMERY'S MUSIC & PICTURE STORE, No. 10 1-2 Daniel Street.

All of which, with many other articles suitable for presents, will be sold at the LOWEST LIVING PRICES. Call early and leave your orders. d6 tf

A Card of Thanks.

THE Y. P. C. UNION desire to return their heartiest thanks to the members of the amateur company, for their valuable services in carrying out so successfully the dramatic performances at the late entertainment; to the ladies and gentlemen who kindly proffered their aid in producing the Waxwork; to Mr. John W. Stavers for his liberality; to the Press for favors so abundantly bestowed; and to many friends who have aided in the extension of the good work among the youth of our city, the Union feel especially indebted. The benefits throughout were generous, and receive the warmest gratitude.

SAMUEL DODGE,
President Young Peoples' Christian Union.

Gentlemen who wish SPRING and SUMMER SUITS should call and see his stock of "Diagonals" and "Basket" figured goods. He has a large variety. 1ydap28

AYER'S

SARSAPARILLA,

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the interruptions of the same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

LOCAL AFFAIRS.

New Advertisements to-day.

The Great English Quarterly.
Pianos, Pictures, &c.—D. H. Montgomery.
Card of Thanks—Y. P. C. U.
Lyceum—Sixth Lecture.

Portsmouth Music Society.

Rehearsal this (Wednesday) evening, at Mr. Tilton's Music Room, Market Street, at half past 7.

Laconics.

Kearsarge Engine Co. No. 3, will give their first annual Ball, at Congress Hall, Monday evening, Jan. 1, 1872.

The heavy November winds from the north-west do not seem to have exhausted the stock of Boreas. Tuesday blew itself all to pieces, and our hat stayed aloft so long that we feared it would be a total loss. The manner of bringing November into December is a direct fraud, and we shall ask Judge Page for an injunction if it continues.

A friend from Manchester, who has been travelling in the interior of the State, informs us that Hon. Horton D. Walker is more prominently mentioned for Governor than any other man in the Republican ranks.

John Wyeth & Brother, the eminent druggists of Philadelphia, say, "we regard Marvin's Cod Liver Oil as superior to any other in the market."

Mr. Jos. R. Curtis has opened a Store at No 34 Washington Street, and keeps on hand a well assorted stock of family groceries. His friends will do well to give him a call.

The Secretary of the Navy asks for an appropriation of $199,200 for permanent improvements and repairs at this Navy Yard.

A son of Portsmouth, Mr. Jeremy B. Dennett, has been elected an Alderman in Taunton, Mass.

The Alexis Ball.

By the announcement in our advertising columns it will be seen that Boston citizens are to "lay themselves out" in honor of the Russian Prince Alexis, who visits "the Hub" this week. It is finally announced that the Grand Duke will not come to Portsmouth; and the grief-stricken ladies and gentlemen who were to do him honor may find the only opportunity to do so by attending the grand ball which is to take place next Friday evening at the Boston Theatre. The sale of tickets commenced on Tuesday and they are being rapidly disposed of. The expense of the ball is estimated at $17,000. Mr. C. W. Roeth is to decorate the theatre in his best style, Mr. J. B. Smith will provide supper in the ante-rooms at all hours. A private supper will be served for the Duke and his suite in one of the smaller rooms. Hon. George S. Hillard is chairman of the committee on invitations and receptions. The sale of tickets will be confined to J. R. Osgood & Co.'s and Ditson & Co.'s—the prices being $10 for each gentleman and $5 for each lady.

New Hampshire Items.

Scarlet fever and canker rash prevail in Enfield.

Mr. C. Fisk of Amherst, having lost a twelve-pound turkey, set a trap and caught an owl close upon seven feet in spread, when it came for a Thanksgiving dinner.

A couple were married in Concord on the 29th ult. and then struck for South Weare. Before reaching that place their horse humorously backed them off a bridge into the water. Nobody hurt.

The steamer Lady of the Lake concluded her trips on the 2d.

M. C. Burleigh's foundry at Salmon Falls employs thirty men.

Somersworth shipped fifteen tons of poultry to aid Boston in giving thanks.

The large barn of Mr. John Goffen in Bedford was burned on Saturday night. About 100 bushels of corn, ten tons of hay and a lot of other fodder were consumed. Six cows, a yoke of oxen, a bull and a horse perished. The origin of the fire is not known. There was an insurance on the barn in the New Hampshire Insurance Company of Concord for $500. The loss was about $2000.

The Catholic Church in Laconia was set on fire Monday night, but the flames were discovered in season to prevent much damage. Pitch pine kindlings were placed inside a window blind and set on fire.

The Concord Railroad is using every effort to improve the means for the comfort and safety of its patrons, and it finds its return in a largely-increasing business. It has just purchased the right to use Miller's patent platform, and will put it on its cars at once. Contracts have been closed for two elegant passenger cars to be placed on the road next May, to be in every respect equal to the Springfield car put on last spring; and a hundred new freight cars are to be built in the Concord shops this winter, to be added to the present rolling stock. Propositions have been made by the Concord road, to connecting roads north, for the building of a new and elegant union passenger station, suited in all particulars to the growing wants of their business.

Mr. Hiram B. Wood, Superintendent of the Nashua Public Schools, attempted suicide Mondaynight by cutting his throat, after which he leaped from the window of his boarding house on Auburn street, breaking his leg and hip. He lies in a critical condition. Mr. Wood has been suffering an aberration of mind for several days past, and has appeared strange at times for the last five years, probably the result of a too close application to his studies.

The saw mill, machinery and about forty thousand feet of lumber, owned by E. B. Parker & Co., at Franconia, and the blacksmith shop, owned by the Franconia Iron Company, and occupied by Blake & Belknap, were burned Tuesday morning. Loss $6000.

There are twelve starch mills within a radius of ten miles of Colebrook, each of which uses, upon an average, 18,000 bushels of potatoes yearly.

THE SECRETARY OF THE NAVY, in his annual report, says:—

Of the 179 ships remaining on the navy list, 29 are sailing ships, and the remainder side-wheel steamers, or sailing vessels with auxiliary screws; 53 of them, armed with 601 guns, are in service, attached to the various fleets and stations as regular cruisers, despatch boats, hospital, store, receiving and practice ships; these, with the tugs and small vessels in use at the various navy yards and stations, make the force in commission for all the purposes of naval service. Of the remainder, 6 are nearly ready for sea, and will join the various squadrons as soon as their crews can be enlisted and organized; 52 are monitors, only one of which is now in commission, the balance being laid up at the various stations, but principally at League Island, where, in the fresh water of the Delaware, their iron bottoms deteriorate with far less rapidity than in the salt water of the other stations; 17 are under repair at the various yards: 13 are on the stocks, never having been completed and launched; and the balance of those whose names are on the list are laid up in ordinary. Of these last a very large proportion, including, as a general proposition, almost all those built of unseasoned white oak, are unfit for use, and cannot be repaired with advantage. Built with great rapidity, of the only material available during the pressing emergencies of the war, and many of them designed for special purposes, the necessity of which has passed away, the cost of repairing them would be entirely out of proportion to the results to be obtained, either of service or endurance. Their usefulness has passed or is passing away. They make a part of the necessary expenditure of the great war, and the nation must accept the loss, and from its abundant resources must supply the deficiency which is thus occasioned. Unless something is done in this direction, our cruising navy, now by no means powerful, indeed scarcely respectable for a nation of our rank and responsibilities, will soon almost wholly pass out of existence as an arm of our national power.

The Secretary enforces the considerations presented in previous reports, favoring a maintenance of a respectable naval establishment for the protection of the rights of our citizens in foreign countries, and for preserving the national prestige.

The limits and duties assigned to the various cruising stations have not been changed since my last report, and naval force given to each has not been materially changed. The vessels actually in commission on some of the stations are less in number than formerly; but this decrease is rather apparent than real, for in almost all there has been a real increase of force. This has been done by putting out of commission the unwieldy iron-clads, which could only lie inactive in harbor or were towed slowly and at a great expense from port to port, and substituting for them, as far as the department has been able, small and active cruisers, by which means we are enabled to occupy continually a larger extent of cruising ground and visit more frequently the reports assigned to each station, and generally to render more effective service in every department of public affairs where the presence and aid of the navy is necessary, without greater expense of men and money.

A GOOD ONE.—Alderman Henry L. Pierce of Boston gave $30,000 which had been bequeathed him, to Hon. Edward L. Pierce, his brother, as a Thanksgiving present. Would there were more such whole souled men in the world.

—The Kentucky court of appeals has under consideration the case of the Covington and Lexington Railroad Company vs. James Winslow, trustee, R. B. Bowler's heirs et al., which involves the title and profits since 1859 of the railroad company, amounting to about $4,000,000.

—The condition of the Prince of Wales is not much changed.

DEATHS.

☞ The funeral of the late Mr. STEPHEN H. SIMES, will take place from Unitarian Church, this (Wednesday) forenoon, at 11 o'clock. Friends and relatives are invited without further notice.

In Deerfield, Widow SALLY HILL, aged 97 years; the oldest person, at the time of her death, in town.——Oct. 7, Mr. DANIEL MERRILL, aged 64 years, 11 months.——Dec. 2, Mr. FREDERICK WILLEY, aged 63 years.——Dec. 3, Mr. JOSIAH BROWN, aged 65 years.

$25 Reward.

We are constantly annoyed at complaints from many of our patrons that the CHRONICLE is stolen from their premises. The thieves who abstract these papers from the doorways of their neighbors, if detected, will be made to suffer, and we offer a reward of $25 for such evidence as will result in the conviction of any person guilty of such theft.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

BANKERS

and Dealers in Government Securities,

No. 5 Nassau Street,

New York, Nov. 20, 1871.

The successful and rapid negotiation of nearly three-fourths of the FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:

OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.

MESSRS. FISH & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:

The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonary on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.

In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.

Very respectfully yours,
C. P. HUNTINGTON, *President.*

In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.

The scarcity of, and demand for, really

Desirable six per cent. Gold Bonds,

for solid and permanent investments, is evinced by the facts that

Five-Twenty Bonds of 1867 are selling at...115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at..94

These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.

The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.

The reason why we think CENTRAL PACIFIC BONDS will in time advance to the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.

The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.

The **Chesapeake & Ohio Bonds** are issued either coupon or registered—the denominations are as follows:

$100, which cost to day.....$94.13
$500 " " " 471.56
$1000, " " " 943.12

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

We buy and sell Government and Central Pacific Bonds and receive them in exchange for Chesapeake and Ohio Bonds.

Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*

FISK & HATCH.

Morning Chronicle.

THE HUNTER'S POINT BIBLE WAR. Our New York exchanges furnish a fuller and clearer explanation of the causes which have led to the school disturbances at Hunter's Point than has been given in the telegraphic accounts. It appears that while these school disturbances are but a part of the general quarrel in this country concerning the reading of the Bible in the public schools, there are some points of special interest about them. The municipality of Long Island City, of which Hunter's Point is the First Ward, is a group of villages widely separated from each other, and each with interests of its own. The villages are known as Hunter's Point, Dutch Kills, Blissville, Astoria, and Ravenswood. The people of Astoria, which constitutes the Fourth Ward, are wealthy and refined, the greater part of them being New York merchants and lawyers, who, desiring a quiet home, feel no interest in building up a business community; but, on the contrary, do all in their power to discourage manufacturing and business enterprises there.

Hunter's Point, in the First Ward, is inhabited by a very different class of people, with very different aims and ideas. "The Point" is crowded with manufacturing establishments, oil refineries, machine shops, cabinet manufactories, and various other kinds of industrial works, and the population is largely Irish.

When the above named villages were united under one municipality a department of education was formed, with five commissioners, three Protestants and two Catholics. They adopted the by-laws of the New York Department of Education, which require Bible reading. Two out of the three trustees of Hunter's Point school were illiterate men. Trouble arose between the commissioners and these trustees with regard to the appropriation of the school fund and the employment of teachers. The new board insisted that the teachers employed should be examined. The Hunter's Point teachers, instigated, it is understood, by Father Cummins, the Catholic priest, and the trustees, refused to be examined, and were dismissed in a body. Since then there has been an uninterrupted fight to secure the reinstatement of the old teachers, and one of the means resorted to to break up the present arrangement was to excite the sectarian antipathies of the scholars, as has already been fully detailed in the dispatches. The nefarious attempt is not likely to succeed.

—Henry Ward Beecher recently encountered in Brooklyn a bright-eyed little miss, some eight or nine years old, who held an open blank-book, with a pencil, in her hand, who rolled off the following formula, without an inflection or a comma: "Please-sir-could-you-spare-me-a-few-cents-to-send-the-gospel-to-the-heathen-far-away-who-know-not-the-true-God-and-never-heard-the-name-of-Jesus-Christ." He could at first hardly account for the sudden disposition that started up in him, not so much to succor the foreign heathen, as to attack some domestic Christian, who had been at pains to set in motion this detestable agency. The aggressive tendency was promptly subdued, but the feeling of indignation did not so quickly subside. He says: "The truth is, that over-zealous (let us rather say unwisely zealous) Sunday-school men, temperance men, reformers of every hue, are constantly undoing in such ways the good they do, and counteracting that which others might do—like unskilled oarsmen who, with all their puffing and spattering, create about as much back water as forward impetus."

MOLD ON PRESERVES.—Miss Lydia Becker gave a valuable hint during a recent discussion of the British Association upon the "Germ Theory," in which she showed its bearing upon the making of preserves, and keeping mold from settling on the jam. According to the old practice of leaving the pots uncovered for several days, time was allowed for the germs in the atmosphere to descend and settle on the jam, which was a capital soil, and the result was a plentiful crop of mold. She therefore advised the ladies, when making preserves, to cover up the pots while the sweet-meats were in a heated condition.

—Mr. F. F. Patterson has retired from the editorship of the Newark Evening Courier, and Mr. Potter, heretofore connected with the paper as an assistant, has assumed chief control of the editorial department, and Mr. T. C. Smith the management of its business affairs. *N. J. Star of the Cape.*

Isn't that rather rough on the "paper?"

—A Missourian, treed by a bear, caused the beast to desist from chewing his left leg off by sprinkling salt in his eyes.

—Hon. Thomas L. Smith, first auditor of the United States Treasury, died in Washington recently, aged 83 years.

—Olive Logan is going to intrust her happiness to one of the despised male sex Christmas.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA
VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequaled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health or the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfeb16

J. WALKER, Prop., R. H. McDONALD & CO. Druggists & General Agents, San Francisco, Cal., and 32 & 34 Commerce Street, New York.

AYER'S
CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in the closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot soap without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

AVERILL CHEMICAL PAINTS,

in the City. Also Dealer in

RICHARDSON'S NEW METHOD
FOR THE PIANO-FORTE.

This well-proved Method has been 12 years before the public. Carefully prepared, and highly recommended at the outset, it has steadily increased in public favor, until, some years since, it fairly reached *the highest* position, and seems likely to retain it for a long time.

Annual Sale,.....25,000 Copies.

Commencing to take lessons, now-a-days, and purchasing a "Richardson's" are very apt to be contemporaneous events.

Price, $3.75. Sent, post-paid, for the retail price.

The Chronicle.

HOW A PUBLISHER WAS NOT TAKEN IN.—Mr. Fields, the Boston publisher, has a wonderful memory, and his knowledge of English literature is so available that when a friend wishes to know where any particular passage may be found, he steers at once for the corner and consults the man who is likely to give the desirable information. A pompous, would-be wit, not long ago thinking to puzzle him, and make sport for a company at dinner, informed them, prior to Mr. Fields' arrival, that he had himself written some poetry, and intended to submit it to Mr. Fields as Southey's, and inquire in which of his poems the lines occurred.

At the proper moment, therefore, after the guests were seated, he began: "Friend Fields, I have been a good deal exercised of late trying to find in Southey's poems his well-know lines, running thus: ———; can you tell us about what time he wrote them?"

"I do not remember to have met with them before," replied Mr. Fields, "and there were only two periods in Southey's life when such lines could possibly have been written by him."

"When were those?" gracefully asked the witty questioner.

"Somewhere," said Mr. Fields, "about that early period of his existence when he was having the measles and cutting his first teeth; or, near the close of his life, when his brain had softened and he had fallen into idiocy. The versification belongs to the measles period, but the expression clearly betrays the idiotic one!"

The funny questioner smiled faintly, but the company roared.

—In soliciting subscriptions for Chicago four ladies of Galesburg, Ill., called on a farmer of "copperhead" principles, who, like many of his kind, didn't take a paper and couldn't read one if he did. He hadn't heard of the Chicago fire and didn't believe a word of it. Indeed, the last time he heard from the United States the war was still going on. No, he wouldn't give a darned thing for the wounded; it was nothing but a nigger war, and they could suffer and be darned. The ladies explained that many poor people had been made homeless and penniless by the Chicago fire; but he would not be convinced. He said they might have fired the other way. Finally one of the ladies produced a copy of a newspaper and read its account of the catastrophe. The old man still thought there was a Republican trick in it, but told the finely-dressed ladies, with a cunning grin, that he had a lot of potatoes there in the ground, and if they "were a mind to dig 'em they could have all they wanted." The grin disappeared, however, and the farmer stood aghast as the quartette brought up a wagon and went into the patch, spade in hand; nor did they quit until not a potato was left in the ground, and over fifty bushels were on the way to Chicago.

MYSTERIES OF A HAIR BRUSH.—A writer in the American Journal of Microscopy has been exploring the forests of bristles in a hair brush surreptitiously purloined from a lady's toilet stand, and though it contained nothing which we are accustomed to regard with unqualified horror, the results of his investigations prove that there are mysteries ordinarily undreamed of in this simple appliance of the toilet.

There are concealed in the damp lint of hair brushes, unless kept clean by the use of bicarbonate of potassa or carbonate soda, many living things, too small for detection by the naked eye, some of which we are told are of more than suspicious character, being known as the originators of scald-head and other diseases of the scalp. The author concludes his article by a caution against wetting the head, recommending dry brushing instead. He also recommends the use of a weak solution of carbolic acid, or sulphite of soda, as a cleaning material for hair brushes.

—"I say, old Chatter," says one of the burntouters irreverently to this deponent, "don't I feel good to-day, eh?" "Why, how's that? I thought you had been looking uncommonly blue since the fire." "So I have. Thought I'd lost a cool hundred thousand. Had policies to that amount. But what d'ye think? Submitted my proofs of loss to the adjusters, today. Reg'lar eye-openers, them chaps. They allowed my proofs, but showed that the debris in my cellar, if shipped to England, would sell for $20,000 more'n the original stock, and hence that I'm indebted to the company for that amount. Gave 'em my check on the spot, and am on my way to dig out the relics. D'ye see? Congratulate me, old Chatter!" and away he went, chuckling over his new fortune. Those adjusters are sharp figurers — so it occurs to this steady going recorder.—*Chicago Post.*

AT CROSS PURPOSES.—Two citizens of Everett, after election, were comparing notes. One, a Republican, opposed to female suffrage, had for that reason scratched Washburn's name off his ticket, and wrote on that of Pitman.—The other struck Pitman's name off his ticket for exactly the same reason, and put on Washburn's.—*Boston News.*

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous Deposits and all Dropsical Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following ing symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION.
Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

594 Broadway, N. Y., and 104 South Tenth St., Philadelphia, Pa.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," *etc.* They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful effect as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD, and is a Sure and Perfect Remedy for all Diseases of the LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

Dr. Wells' Extract of Jurubeba

is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all the vital forces, and eminates and fortifies all weak and lymphatic temperaments. 4w n28

STEAM SAFES
—AGAIN—
TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.
AM. STEAM SAFE CO.,
COLE & LAMBERT, *Managers,*
300 Broadway, N. Y.

Gentlemen:—"The Binghamton Planing Mill and Sash and Blind Factory," together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 7) made by you, and purchased one year ago from Messrs. Paige & Chaffee, Agents, in this city, was in the Planing Mill, and went through the severest part of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild.

Very truly yours,
(Signed) A. L. HARDING,
Late Proprietor Canal St. Planing Mill, Binghamton.

All Styles of Mercantile and House Safes

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal advice given and rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents,"

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

Boston, Jan. 1 1871.—1 yr.

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, DECEMBER 7, 1871.

Congress.

Senate.—On the 5th, the bill from the House, declaring the meaning of the eight hour law, was taken up, and Mr. Trumbull offered an amendment abolishing it.

House.—A bill was introduced authorizing the issue of penny correspondence cards.

The postal telegraph scheme was referred to the committee on appropriations.

Political.

The Prohibitory convention met in Concord Dec. 6. Rev. D. C. Babcock of Nashua was chosen President. The vote for candidate for governor resulted as follows: Whole number of votes cast, 49. Dr. John Blackmer, of Sandwich, had 42; scattering, 7. The nomination of Blackmer was made unanimous. Asa S. Kendall of West Swanzy was nominated for Railroad Commissioner by acclamation.

Ex-Senator Abbott of North Carolina, formerly of Manchester, believes that his claim to a seat in the U. S. Senate is good, owing to the ineligibility of Gov. Vance. The matter will be decided soon.

The territorial legislature at Santa Fe organized by choice of republican officers.

Gov. Campbell of Wyoming has vetoed the bill repealing woman suffrage.

Congressman John Lynch of Maine seems to have found his political level at last; his colleague, Speaker Blaine, having placed him on the least important committees in the House of Representatives. Let the setting sun!

We gladly miss the name of Hon. Eugene Hale of Maine from the House Naval Committee. Mr. Hale is an able young man, but he was an enemy of the staff officers of the Navy, and a pet of Porter—and may find more worthy labor in another field.

Hon. Jas. Pike's Letter.

To the Republicans of New Hampshire:

As you are about to select delegates to the Republican State Convention, to be held in Concord on the 3d of January, I do not wish longer to apprise you that the date for the office of Governor of New Hampshire, and that on no account could I consent to accept the nomination to that office, were it proffered me.

Trusting that harmony and wise counsel may govern the action of your Convention, believe me sincerely,

JAMES PIKE.

South Newmarket, Dec. 5, 1871.

New Hampshire Items.

On Sunday, 2d inst., while the sexton was ringing the bell of the Congregational meeting-house, in Pittsfield village, for the afternoon service, some part of the hanging gave way, and the bell fell from the belfry, a distance of twelve feet, upon the roof, making quite a breach therein, and doing a trifling damage to the frescoing below; then rebounded a foot and fell with a horizontal inclination a distance of some thirty feet, upon the frozen ground, near Tuttle's Block, breaking the yoke and collar into several pieces, while the bell received no injury. Fortunately no person, horse or carriage happened to occupy the ground, as is usual on Sabbath noon. The young sexton, hearing the crash upon the roof, became frightened, and bounded for the street. At the same moment the watchman in the Times' office witnessing the apparent course of the bell towards his window, beat a hasty retreat.

The principal owners of water-power in the village of Hinsdale are erecting a substantial stone dam on Mount Pisgah, by which means they will flow from three hundred to four hundred acres at an average depth of some fifteen feet, creating an important reservoir as an auxiliary in keeping twenty-five different water-wheels trundling.

A two-hundred pound seal was caught near the Swamscot River at Exeter a few days since.

DOWN IT COMES.—Gold fell to 109 3-4 on the morning of Dec. 6. This is the lowest point reached since July, 1862, specie payments having been suspended in January of that year. The highest price paid for gold was in July, 1864, when it brought 285. The depression of gold does not look much as though the country was on the verge of ruin, though the copperhead press all say it is.

IMPORTANT DECISION.—In the recent suit at London of the United States against the Blakely Arms Company, a decision has been rendered ordering all the proceeds of the sale of war material belonging to the rebel to be paid to the American Consul for the United States Government.

—One of our citizens went to the cars to see his daughter off. Securing her a seat, he passed out of the car and went around to her window to say a parting word, as is frequently done on such occasions. While he was passing out the daughter left the seat to speak to a friend, and at the same time, a prim looking lady who occupied the seat with her, moved up to the window. Unaware of the important changes inside, our venerable friend hastily put his face up to the window and hurriedly exclaimed: "One kiss, sweet pet." In another minute the point of a blue cotton umbrella caught his seductive lips, followed by the passionate injunction: "Seat, you gray headed wretch!" and he scatted.—*Danbury News*

GREAT DESTRUCTION OF LIFE.—The London Times thinks that no fewer than 50,000 Communists fell into the power of their adversaries, at the capture of Paris. Of these it is computed that 15,000 perished either in the fighting or in the executions which immediately followed, so that from 30,000 to 35,000 remained as prisoners. Of these, again, at least 10,000 have been liberated, but it is supposed that 20,000 may be in prison still. Such losses were never before suffered by the revolutionists—not even in the battles of 1848 or the razzias of 1861.

WITNESS AND JUDGE.—The treatment of witnesses by courts and council is something which calls for more especial attention than anything I have yet mentioned, and which is becoming more cruel and infamous every day. I refer to the manner in which members of the bar examine witnesses, asking questions that among *gentlemen* would be considered infamous. (Laughter.) There is not a man in this house—not one—but who would be glad to welcome to his house as a guest a member of the Suffolk bar; but at the same time there is not one who could, under any circumstances, allow his wife and children to be subject to an examination by one of those same men in open court. I remember once hearing a counsel ask a clergyman who was on the witness stand, where he had sent his (witness') wife? "I have sent her to Providence," replied the clergyman. "What did you send her there for?" was the next question, which was answered by: "To keep her out of your reach." And he did right; for I don't believe there is a single man before me who would not give $500 in gold rather than have his wife undergo a cross-examination in open court from those men who are called gentlemen. What is it that changes these gentlemen of the parlor into—well, I don't know what name to call them by. (Laughter.) I remember a case in this very town, where a young frail girl was unfortunately witness to the payment of a note. After giving straightforward evidence as to that fact the young gentleman, a graduate of Harvard, and one of the first families in Massachusetts; a gentleman whom every lady was glad to welcome to her house—saw his case was being wrecked by the direct, simple story of this girl, and began to question her in such a manner with regard to her mode of life and previous character that she became deeply affected and was carried out of the court room in a dead faint. All this without a rebuke from the presiding judge. But that young lawyer has met with the fate he deserved—he died a drunkard's death in a neighboring State, and the young girl whom he so cruelly questioned is still affected by the event, although it happened many years ago. The Court of King's Bench in London, the highest Court in England, found this practice of lawyers abusing witnesses so prevalent that it became necessary to pass a law prohibiting any inquiry into a witness' private life. That is a very fine law; but look at it, a law required to make them speak and act like gentlemen. And it took a century and a half to grind out this right for the witnesses!

I have spoken of the client, the witness and the jury, now I want to come to the judge. We have a great idea of a judge; that he is totally emptied out of all passion; that he sees nothing before him but the unimpeded view of a claimant of justice. Well, I think, that in a certain sense, that great compliment is due to some of the courts of the Continent of Europe, especially of England, but it is lamentably not due to the courts of the Northern States. I wouldn't place Massachusetts as low as the late James T. Brady placed the judges of New York, when rather than bring his cases before certain judges, in order to advance the interests of his clients, he would turn them over to counsel who were favorites of those judges. But there is in the Courts of Massachusetts, and especially of Boston, an aristocratic leaning to favoritism which would disgrace any bar in Christendom, and I have known a worthy member of the Suffolk bar, not standing high in social life, who was obliged to rebuke a Chief Justice of the commonwealth to his face because he could never get a proper hearing, when brought into competition with the more fashionable and popular members of the bar; and that same chief justice, meeting him on the pavement afterward, acknowledged that he deserved the rebuke. Why, we have in this county of Suffolk a Law Club made up of the fashion and wealth of the bar. No man enters it merely on the ground that he is learned in the law or successful; he must be stamped with a sort of social seal and must come out of a certain hot house—otherwise he is not a member. And every critic of the court knows that the judge, when he takes his seat in the morning after a night of banqueting with the club, to listen to a motion, allows a close approach and personal entreaty to the companion of the last evening, while he leaves the other lawyer at a proper distance to speak aloud and urge his claim like a common claimant. I have seen this again and again; and a greater evil of it is that the jury take their cue more or less from the conduct of the judge. I assert, from an experience which gives me the right to do so, and without fear of contradiction, that in this wholesale regard for the state and this less of fastidious respect for the individual in every single stage of our courts, the atmosphere is poisoned, from the client that enters to the judge that decrees the final sentence. It won't alarm you in the least; it will hardly interest you the least. I am aware that you will view it as the utmost trifle, but it is trifles that make perfection.

In regard to individual safety and comfort, in immunity of personal rights, Paris and London are half a century ahead of Boston and New York. We never should have had the infamous, the shameless history that now and then, half a dozen times for thirty odd years, Boston has exhibited, if men had been instructed in the rights of the minority. I don't care for the government that protects Stewart and Vanderbilt and Abbott Lawrence. They can protect themselves. (Applause.) The only government that recommends itself to the approbation of the earnest men is the government that would take the most friendless and hated and unpopular man and spread over him the safeguard of the same law that it would over the millionaire and the banks of State Street.—*Wendell Phillips' Lecture.*

BUSINESS NOTICES.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost *given away.* Don't delay, for he is determined that his entire stock shall be closed out as soon as possible.

FOUR EVILS.—Whoever habitually uses any alcoholic preparations as an "appetizer" will be likely to suffer from four evils, viz: an overplus of food in the stomach, impaired ability to digest it, the pangs of dyspepsia, and a doctor's bill. DR. WALKER'S VEGETABLE VINEGAR BITTERS, the great Vegetabl Restorative of the age, without over stimulating the palate or irritating the stomach, imparts a healthful appetite, promotes digestion, regulates the liver and bowels, purifies the blood, and thus, instead of entailing four evils, confers four inestimable benefits.

A gentleman from Bethel Hill, Me., says that Messrs. Allen Bros., Proprietors of Phillip Allen's Print Works, R. I., were down to Bryant's Pond, recently, trouting, when one of them was attacked with sciatic rheumatism so suddenly, that he had to be carried from the pond to his hotel; a bottle of *Johnson's Anodyne Liniment* was resorted to, and he was out next day.

How are you to-day? I'm not feeling well, suppose you send around for a box of *Parsons' Purgative Pills*, but our traders are all sold out.—*Country Paper.*

SPECIAL NOTICES.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER.—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

d639 **Sold by Dealers Everywhere.**

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

Winter Wisdom.

Warm clothing alone will not protect the body against the consequences of the sudden depression of temperature which is concomitant of early winter. Flannel next the skin preserves the animal heat, but it does not impart animal vigor. That property is the special prerogative of HOSTETTER'S STOMACH BITTERS, which is therefore a specific protection against a majority of the complaints which are most common at this season. For example, a course of the great vegetable invigorant, commenced now, will be almost sure to preclude chills and fever, bilious colic, disorders of the stomach, constipation, and many other complaints which are often the direct or indirect effect of an atmosphere surcharged with cold, unwholesome vapor. Moreover, the system toned and regulated by this means is much more likely to resist pulmonary disease than it would otherwise be; for the influence of searching medicines pervades all the organs, and every fibre and tissue of the frame. Persons whose vital powers are weak, especially invalid ladies and the aged, are earnestly recommended not to face the winter's rigor without having recourse to this safe and sufficient means of re-enforcing enfeebled nature. Much suffering may be escaped, much danger averted by following this council. Better late than never, is a good proverb, but it is better to be early than late.

Protection from Fires.

On our fourth page will be found an extract from a letter to the Boston Advertiser, concerning a subject of vital importance to the city as well as to Boston,—the prompt extinguishing of small fires, before they have time to become great ones. We believe the suggestions offered are founded in sound sense and on a careful study of the practical working of fire departments, and that they are worthy the earnest consideration of our city authorities. The value of a small subduing force promptly applied to a small fire has been shown on more than one occasion by Mr. T. S. Nowell,—as for instance, at the fire which caught in the brick building corner of Pleasant and State Streets and the one which scorched Miss Pickering's wood shed, a year or two ago, both of which were kept under until the engines arrived by an extinguisher. There are plenty of responsible citizens, householders and heads of families, who would willingly take charge of such little machines as the Advertiser's correspondent refers to, keep them constantly in readiness for use, and use them to the best effect when occasion required. A man on the roof of a house, with one of these little pumps, would be able to do more towards extinguishing the fires which so readily kindle on dry shingles than three men with buckets, as he could apply the water exactly where it was needed. As auxiliary to the large engines, say in the hands of the Hook & Ladder company, a few of the small ones would be of great service in preventing damage to buildings adjoining burning ones; and a knowledge that the 6-gallon-engine brigade was looking out that distant roofs and contiguous window blinds did not catch from the main conflagration would enable the engineers and large engines to concentrate all their energies to the subduing of the latter. One of the heaviest tax-payers in the city called our attention to the article we have quoted from, and expressed the opinion that our city authorities should at once place the means of extinguishing little fires in the hands of a large number of citizens; and that the idea deserves a full consideration we think no one will dispute.

Communicated.

Messrs. Editors:—The remarkably severe weather of late, together with the high winds accompanying it, has suggested to me the great danger that is imminent in case of fire in our midst. Probably no thoughtful individual residing in the thickly settled portion of the city has retired to rest on any of those very windy nights of the week past, without making some preparation for the exigency of being suddenly turned out by the startling cry of "fire!" And even taking every precautionary measure to guard against the emergency of a conflagration, of what avail would it have been on such a fearful night as that which preceded Thanksgiving Day? The fire department would have been utterly powerless in staying the ravages of the flames, even had there been plenty of water and every other resource on hand. Suppose the Catholic Church fire had occurred on the night to which we have alluded! It makes me shudder to think of the result.

Now if anything can be done to prevent such a calamity as might ensue under the circumstances which I have mentioned, it behooves every citizen who has anything at stake to stand prepared to do it. I think if we had about fifty or more volunteer watchman to patrol our city on these very windy nights, that no fire would ever break out for the reason that with such a force of interested men properly distributed about the city it would be discovered early enough to prevent it. There are plenty of reliable men who would gladly proffer their services should a movement be made in the direction which I have briefly suggested. I trust some steps will be taken at once to adopt the above or some better scheme, that we may be spared such an affliction as that which has been the scourge of many other cities. VOLUNTEER.

Laconics.

There is said to be a gentleman in this city who declines to venture into matrimony until he can find a wife who will comb his hair; which leads us to remark that he may get his hair too much combed for being too particular, in case the coming woman appears.

The letter from Col. Pike, which we publish elsewhere, is that of a sensible man, who has the best interests of the Republican party at heart. The nomination for Governor tendered him last March was unsolicited on his part, and his defeat by stay-at-home Republicans was no disgrace to the nominee.

Fifteen laborers, three painters and two joiners have been discharged from the department of Yards and Docks at the Navy Yard. The remaining force of laborers are working on half time.

There is excellent skating on the North Mill Pond, and, as is usually the case, the eel fishers have been cutting holes in the ice, endangering the lives of men, women and children for the pleasure (?) of jabbing for water snakes. May they be the only sufferers by their folly.

A promising young married gentleman of this city, who is so good that he runs the home washer and thereby relieves his wife of all that kind of trouble on washing day, informs us, after a few week's practice, that in his opinion "women don't know enough of machinery to turn a grindstone." The same individual was heard complaining to a friend that "the baby" kept him awake o'nights, said baby having not experienced two sunrises at the time.

Most people suppose that the Roman Catholic "organ" was destroyed when the church on Mason's Hill was burned; but they are evidently mistaken, as it is issued every week-day afternoon—price two cents.

The sixth lecture in the Lyceum course will be delivered this (Thursday) evening, by Rev. Wm. R. Nicholson, D. D.; subject, "Civilization and Poverty."

WALLS' OPERA HOUSE, at Washington, was burned Dec. 6.

—Fifteen hundred sheep have been burned to death in the tule lands in the delta of the San Joaquin River.

—A prisoner froze to death in a cell of the police station at Jefferson Market, New York, on Monday night.

—The famous Warwick Castle, on the banks of the Avon River, England, has been nearly destroyed by fire.

—A San Francisco girl recently undertook the arsenic treatment for procuring a pure and beautiful complexion. She looked white enough in her coffin.

—In Ohio they don't excuse a man for murder on account of moral insanity. The sheriffs' fees for hanging consequently amount to more than they do in New York.

—A man in Anoka, Minn., effectually disposes of his enemies by deftly fixing spring guns in the way they travel. A Mr. Widmark was lately shot in this way, 22 balls entering his body. The neighbors are now laying a countertrap to check this miscellaneous gunner.

MARRIAGES.

In this city, Dec. 3, by Rev. C. P. Smith, Mr. CHARLES A. SMITH and Miss SUSIE S. HARVEY, both of Portsmouth.

In Deerfield, Nov. 30, by Rev. J. Chapman, Mr. ANDREW J. SILVER of Epsom, and Miss JULIET E. JAMES, daughter of Jas. G. James of Deerfield.

In North Hampton, Nov. 29th, by Rev. T. V. Haines, Mr. WILLIAM J. BEEDE of Lynn, Mass., and Miss LYDIA A. FROST of North Hampton.

—Dec. 3, Mr. EMERY C. JENNESS and Miss ELLEN A. BAND, both of Rye.

DEATHS.

In Deerfield, Sept. 26, Mr. EBENEZER KENNISON, aged 70 years.

In Brentwood, Oct. 25, Mr. GEO. B. RADCLIFFE, aged about 47 years. Deceased was a former resident of this city, and engaged in business on Market Street. He served with distinction in the late war, and at its close was a member of the 2d N. H. Regiment.

ST. CLOUD HOTEL, NEW YORK, by RAND BROTHERS, Broadway, Cor. of 42nd Street.

Wanted,
At this office, to complete files, copies of the NEW HAMPSHIRE GAZETTE, of date November 18.

$25 Reward.
We are constantly annoyed at complaints from many of our patrons that the CHRONICLE is stolen from their premises. The thieves who abstract these papers from the doorways of their neighbors, if detected, will be made to suffer, and we offer a reward of $25 for such evidence as will result in the conviction of any person guilty of such theft.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE BILLS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be promptly filled.

HARVEY FISK. A. S. HATCH.
FISK & HATCH,
BANKERS
and Dealers in government securities,
No. 5 Nassau Street,
New York, Nov. 20, 1871.
The successful and rapid negotiation of nearly three-fourths of the **FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY,** and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:
OFFICE CHESAPEAKE & OHIO RAIROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.
Messrs. FISK & HATCH:
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:
The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonary on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that tracklaying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.
In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.
Very respectfully yours,
C. P. HUNTINGTON, *President.*
In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.
The scarcity of, and demand for, really
Desirable six per cent. Gold Bonds,
for solid and permanent investments, is evinced by the fact that
Five-Twenty Bonds of 1867 are selling at.....115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at..94
These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.
The reason why FIVE-TWENTY BONDS are so much in demand is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.
The reason why we think CENTRAL PACIFIC Bonds will in time advance to the price of Five-Twenties, is because no more can be issued, while the operation of their Sinking Fund will soon commence to decrease the amount.
The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY AND CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.
The **Chesapeake & Ohio Bonds** are issued either coupon or registered—the denominations are as follows:
$100, which cost to day.....$94.13
$500 " " " 471.56
$1000, " " " 943.12
Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.
We buy and sell Government and Central Pacific Bonds and receive them in exchange for Chesapeake and Ohio Bonds.
Accounts of banks, bankers and others received, on which we allow interest at the rate of four per cent. per annum.
FISK & HATCH,
dec2 *Financial Agents.*

Morning Chronicle.

PROTECTION FROM FIRE.—If there is any one thing more settled in the minds of thinking people than another, it is that the present fire-preventive system of this country is wholly inadequate for the protection of life and property from destruction by fire. In ordinary times and fires the flames often traveltover a building before the engines can get to work. The result is told in every paper we read, with losses of hundreds, thousands or millions of dollars, while such awful conflagrations as those of Portland and of Chicago ring in thunder tones, that every city, town and village, in a gale of wind, may be destroyed in spite of the efforts of the present fire-preventive system. Let us see why those fires became great conflagrations. The fire of the first burning building borne by the gale fell upon and set on fire numbers of other buildings, at a distance of from several rods to a mile from the first fire. There were soon, therefore, not one only, but a dozen or more fires at once, all burning into one horrid tornado of fire. Those little fires when first catching upon the buildings were within the control of the smallest engines which were ever used, but alas! in this country we use no such machines, and the large steam fire engines could not move so fast as the fire. But are there such engines in use anywhere?

Mr. Shaw, who was chosen superintendent of the London fire brigade on the death of the lamented Mr. Braidwood, came to this country in 1869, and in his report of what he saw he writes as follows: "The Americans, in their admiration of steam fire engines, had forgotten or ignored the use of hand-working engines altogether, thus absolutely depriving themselves of the means of instantly extinguishing fires at their own doors, and so leaving themselves in this particular far behind the most backward nations of Europe." The engines spoken of force six gallons of water about thirty feet by the power of one man. They were introduced into the London fire department in 1848, since which time no large engine has been to a fire without one of them attached to it. When the engine reaches the fire the men use either the large or small engine, as is most proper, and we have the highest London authority for saying that three out of four fires are put out by the little engines. Mr. Braidwood purchased one in 1848 and always carried it with him to fires.

I now propose a method for preventing fires, which I claim will dash out three out of four ordinary fires with but small loss, and which will almost entirely prevent such fires as those at Portland, Chicago, &c. As an illustration let us take the city of Boston. To the present department, with its earnest men, steam fire-engines, fire-telegraph, add two thousand of the small engines, to be placed in the care of that number of respectable men, who if any one should extinguish a fire before a steam fire-engine got water upon it, would receive five dollars. This would be a force of twelve thousand gallons of water per minute. The whole present department is a force of but ten thousand gallons per minute. The chance of getting water on the fire first would be two hundred to one in favor of the small engines. Fires extinguished by the small engines would cause much less damage to property by water than when put out by the steam fire-engines. If the small engines did not succeed, the large ones would be there all the quicker for them, as we all know that "opposition is the life of business." But at fires in a gale of wind, when the great engines were at work with a will, the little ones would be everywhere in the line on which sparks would fall, and the little fires which would in a few moments become great ones would be put out in a minute, which would allow the others to devote their whole force to crushing out the original fire. A union of the batteries and the infantry would be at least twenty times as effective as either alone. The rate of insurance could not fail to fall as such a system got well at work. Think of two thousand expert men, each in charge of a fire-engine which could be put to work in a minute, and which would put out as much fire, whether wood, tar, rosin, oil or any other combustible, as an "Extinguisher." And now a few words about the expense. The two thousand engines, the best which can be found on trial (the writer has none to sell), with an officer to teach the men and keep the engines in order, and all other expense, would not be the first year more than $30,000,—not half as much as the cost of land, house, engine, and the working of one steam-engine. After the first year the cost would not be one-half that of working one steam fire-engine.

I have now only to say that if in the past years a system of large and small engines had been adopted, the great fires of Fort Hill, the Gerrish Market, the Mechanical Bakery, the Winthrop House, the bonded warehouse on Broad and Purchase streets, the Grant & Daniel's warehouse, the great fires of East Boston, and hundreds of others, would never have been heard of, or would have been put out with no loss of life and of but a few dollars each.—*Cor. Boston Advertiser.*

—In consequence of the continued frequent commission of murderous assaults on German soldiers in France, all provinces still occupied by armed forces of Germany are declared in a state of siege. The perpetrators of such crimes will hereafter be tried by German court-martials on the spot.

THE BLOODY PLAINS OF MANASSAS. The Chinn farm, a portion of the plateau on which the battles of Manassas were fought, has been sold for eight dollars per acre.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Rootand Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. lyrdawfw&b6

AYER'S
CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, one of the firm of the

AVERILL CHEMICAL PAINTS,

in the City. Also Dealer in GROCERIES AND PROVISIONS, *No. 16 & 18 Cabot Street,*

The cheapest place to buy Meats and Groceries in the city. mh7

THE HAVANA MASSACRE.—The Havana correspondent of a New York paper gives the following details of the recent murder of students in Havana by the irregular authorities:—

On Thursday last, there being no lecture to the first class of the medical students, mostly young men under eighteen years of age, some of them went to the cemetery and, in a frolic, foolish of course and highly reprehensible, broke the glass of the niche of Gonzalo Castanon's grave. The fact got to the ears of the Volunteers, their enemies, and a number at once went to verify the fact. On ascertaining that the report that the glass had been broken was correct, the rage of the Volunteers, or their apparent rage, was fearful. They ran to their armories, got possession of their guns and roamed about the city like beasts. Most of the houses were shut, and the city appeared deserted by all except the Volunteers.

On Saturday, acting Captain General Crespo, after a visit to the Medical College, and after having failed to discover the perpetrators of the glass breaking enormity, arrested the whole class, composed of 46 young men. On Sunday a review of the Home Guard, the volunteers, took place. Some 5600 troops were on the ground, and as soon as they were dismissed they broke into shouts and yells, demanding the heads of the desecrators of Castanon's grave. As the tumult increased in the evening Gen. Crespo, who probably intended to have the offenders tried by a civil court, seeing the serious and alarming turn the matter had taken, bowed to the will of the Volunteers, and consented to have the whole class tried by drumhead court martials. This concession was in reality a delivery of the whole class, which numbers among its members some of the best families in the place, to their deaths. I say advisedly the whole class, for although eight only have so far been executed, the thirty-two others are condemned to the chain gang for periods varying from two to ten years, and in their positions it will be impossible for these young men to survive the fatigue and tortures to which they will be submitted. The eight victims are in reality by far the most merritter are Alonzo Alvarez De La Campa, Jose M. Mera, Carlos Augusta Latorre, Eladio Gonzales Toledo, Pascual Rodriquez, Anastasio Bermudez, Angel Laborde and Carlos Verdug. The fathers of some of the above are Spaniards and bitter enemies of the Cubans. The mothers are all Cubans, and all eight victims were born on the island. The papers of this city were absolutely so afraid of the ill will of these brutal volunteers, that they united in a manifesto demanding the blood of the young men.

As a sample of the treatment that the thirty-six students may expect who were not condemned to death, and whose only offences seems to be that they belonged to the same class, for very many of them did not even go to the cemetery, they were yesterday escorted, together with the eight condemned to death, to the place of execution, and there, in the garb of convicts, with their hair cropped and with balls and chains on their feet, were forced to witness the massacre of their classmates.

It is almost impossible for your readers to picture to themselves the actual condition of this city, but if they will imagine New York in the hands of the worst class of the worst wards in the city; if they will figure to themselves those low scum of foreign birth, organized into regiments, with arms in their hands; a police composed of the same element; every civil court closed, and no other tribunals but drum-head court martials, composed of members of their own regiments, as judges, men who know that not only their favor but their very safety depends upon sentencing to death every Cuban brought before them, they will have some vague idea of the reign of terror and mob law in which we live. How long the civilized nations of the world will permit so important a city as this commercially to be given up as a prey of these wild beasts, remains to be seen.

—It is seldom that the influence of tobacco penetrates to the mysteries of a lady's toilet, but this season the modiste has laid the soothing weed under contribution, and the most fashionable color for costumes is now a rich, delicate, golden brown, termed the "Maryland tint." If the manufacturers of the charming new shade could render the dye suitable for coloring the veritable leaf, its introduction into tobacco factories would be very welcome.

—A man who was told by a physician that his wife had a cancer, borrowed a book, in order to read upon the subject himself; after which he remarked to the physician that he did not think his wife had cancer; "her symptoms were more those of diagnosis, and if she had that, it would kill her!"

—A sensible lady of mature years says that it does not look well for a young lawyer to put his arm around a girl at a circus and comb her hair with his fingers.

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Waters or Calcareous depositions and all Unnatural Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION. Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

594 Broadway, N. Y., and 104 South Tenth St., Philadelphia, Pa.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more destructive of manly vigor than a nervous debility, and the purpose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

STEAM SAFES

—AGAIN—

TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.
AM. STEAM SAFE CO.,
COLE & LAMBERT, *Managers*,
300 Broadway, N. Y.

Gentlemen:—"The Binghamton Planing Mill and Sash and Blind Factory," together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 7) made by you, and purchased one year ago from Messrs. Falge & Chafee, Agents, in this city, was in the Planing Mill, and went through the severest part of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild. Very truly yours,

(Signed,) A. L. HARDING,
Late Proprietor Canal St. Planing Mill, Binghamton.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful practitioners* with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man more *competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.,

Boston, Jan. 1 1871.—1 yr.

The Daily Chronicle.

Portsmouth, N. H.

FRIDAY, DECEMBER 8, 1871.

Congress.

Senate.—On the 6th, Senator Anthony introduced a bill to prevent corrupt practices in the election of presidential electors.

The Fish-Catacazy correspondence was sent in by the President and laid before the Senate in executive session.

House.—The railway committee was directed to enquire into the expediency of connecting Lake Michigan and the Mississippi River by a ship canal.

The House adopted resolutions calling on the President for the instructions of naval commanders in Cuban waters for the protection of American life and property and the maintenance of the dignity of the flag, and for information of the recent executions in Havana.

The Representative apportionment bill was considered. It reduces the number of Representatives from New Hampshire to two.

Political.

The regular republican central committee of New York has resolved that no more propositions of affiliation be made to the Greeley wing.

The Nashua Telegraph is out in favor of Grant and Horace Greeley. Greeley would be an ornament as President of the Senate wouldn't he? Think of his telling Frank Blair he lied, three or four times a day!

The Republicans of Newburyport have nominated Captain Robert Couch for Mayor.

The official count in Mississippi shows a Republican majority of 28,000 on the popular vote, and Republican majority in the Legislature, on joint ballot, of twenty-eight.

It appears that Governor Campbell's veto of the bill to abolish woman suffrage in Wyoming Territory will have the effect of continuing the law giving women the suffrage, as the Legislature has not a Constitutional number of votes to overcome the veto.

The Labor Reformers met at Concord on Thursday. For a candidate for Governor Leonel P. Cooper had 180, James A. Weston 4. Levi B. Tucker of Pittsfield was nominated for Railroad Commissioner. [illegible] committees. Ben's revenge will be deadly, and, as far as Blaine is concerned,

"Of all the sad words of tongue or pen,
The saddest are these, 'It might have been.'"

The Democratic passivites are now called "thumb-suckers."

Personal.

George C. Washington, one of the few surviving descendants of General George Washington, died Monday afternoon at his residence at Georgetown, of consumption. He was a son of the late Bushrod Washington, of Fairfax county, Va.

Poor Carlotta is as crazy as ever. Her latest mania is to imagine herself surrounded again by the court of Mexico. This lady of her suite is made Grand Mistress of the Palace; that gentleman a Minister of the State, and so on. Often, when alone, she places the chairs around her in order, hangs dresses upon them and asks questions and gives answers to these strange ladies of honor.

New Hampshire Items.

The Prohibitory Press Association, consisting of about twenty members, was formed at Concord on Tuesday, Rev. O. H. Jasper of Dover being chosen president. It was voted to remove the Prohibition Herald, which has recently been published at Lancaster by Emerson Hartsham & Co., to Dover, to secure a better location.

Peterson's Magazine for January has "I Wonder if I Could Dance?" for the principal steel plate. Another plate is "The New Governess," illustrating a tale. Two powerfully-written novelettes are begun in this number; "The Island of Diamonds," by Harry Danforth, and "Bought with a Price," by Mrs. Ann S. Stephens. Two dollars a year, with great deductions to clubs; and splendid premiums are offered to the persons getting up clubs. Specimens are sent gratis. Chas. J. Peterson, 306 Chestnut Street, Philadelphia.

—Celia Burleigh, in a letter of advice to women, says: "Beware of elaborate tea-drinkings. 'Plain living and high thinking' be your motto; make no overloaded table look as unfashionable as it is offensive to good taste. Keep your brain clear with temperate living, your hearts warm with Christian charity, your hands busy with good works."

—Drunkenness is so common in New York that the N. Y. News wants horse cars run for the special accommodation of drunken men.

Correspondence.

BALTIMORE, MD., Dec. 3d.

Baltimore "dialect," like the ways that are dark and tricks that are vain of the Heathen Chinee, is "peculiar." If a person wishes to ascertain the whereabouts of another person, he does it by asking the question in this manner; "Where's he at?" Or if it is an object of any kind that light may be thrown on it, "Where's it at?" is sure to be the invariable form of inquiry. One friend meeting another says "How you was?"—which mode of inquiry after one's health seems very funny to those who have been accustomed to say "How do you do?" When one is asked if he has seen a certain individual with, in a week or so, he says, "I haven't saw him since Tuesday was two weeks," or "I didn't *saw* him yesterday;" while if the opposite is the case, and the person was met the day previous, it will be, "I seen him yesterday." Enquire if a man did such a thing and you will get for an answer "I don't reckon he did."

They call things by different names from what Yankees are accustomed to. Let a Yankee woman go into a store and inquire for cotton cloth, and the clerks would gape upon her with astonishment; and unless she had a friend with her, to explain that it was "muslin" she wanted, she would probably leave the store disgusted, and wonder what kind of a place she had got into where such an universal article of every day wear was not to be obtained. If you feel like purchasing a pint of peanuts and go into a store and ask for them, they look at you in perfect amazement, and have not the least idea what you want until you point to them, and then with a sigh of relief and a look of pity at your ignorance they say, "Oh, its ground-nuts you wish for."

One of the first things that meets the eyes of a stranger is a row of stones sticking up endways right across the streets, some of them 16 or 20 inches high. These are stepping stones, placed there for people to walk across the street when there is a flood, or an unusual amount of "slops" turned into the street, so that there is quite a river formed therein. What is called surface drainage is the plan adopted and in operation here, and so all the waste water from households is emptied into the back yard, from whence it runs into the streets and then down the streets into streets there is almost always a running brook. In one street in the heart of the city the water runs directly through its middle, and in case of a heavy rain it is almost impassable for foot passengers even with the aid of stepping stones. It is claimed that this surface system of drainage is conducive to health, and that it is for this reason that Baltimore is the healthiest city in the world. One thing is sure, this plan saves the city a great expense as regards cleaning the streets, for when it rains it not merely cleans them, but in many cases gives them a thorough washing out. As a general thing the business streets and the sidewalks are anything but clean; still on those streets occupied by residences everything is as neat as in a parlor. The steps and sidewalks are scrubbed off every morning, and all the rubbish and dirt lying in front of the house, is swept into the street.

The first snow storm of the season occurred to-day, but it melts as fast as it falls. R.

AN AGED NATIVE OF BERWICK.—A correspondent of the Gospel Banner furnishes a very interesting sketch of the life of Mr. Samuel Goodrich of Canaan, in Maine the oldest man in New England.

This aged man was born in the town of Berwick, June 9th, 1767, nine years before the Declaration of Independence and is now in his 105th year. He was married in 1789 and moved to his present residence in 1812.

At the age of 98 he planted, hoed and mowed, besides cultivating an acre of corn, near his house. At 99 he performed his last labor, and at 103 accounts was somewhat indisposed in consequence of a cold.

His father lived to see his 97th birth day, and his mother died a year or two younger. One of his brothers died at the same age—97. His wife, the mother of eleven children, also lived to the age of 97.

His oldest daughter is 81 years old and has 10 children, all healthy, wealthy and respectable citizens.

Of his progeny 8 children are yet living, 68 grand-children and 108 great-grand-children; also several great-great-grand-children. But what is most extraordinary, one of Mr. Goodriche's grand-daughters, to cheer her grandpa's declining years, presented him with four great grand-children at one birth.

—Married men in Illinois amuse themselves by standing near the railroad in hopes that the whistling of the engine may make them deaf.

—The whole number of deaths from yellow fever in New Orleans this season was 23. The heavy frosts have exterminated the disease.

BUSINESS NOTICES.

FOUR EVILS.—Whoever habitually uses any alcoholic preparations as an "appetizer" will be likely to suffer from four evils, viz: an overplus of food in the stomach, impaired ability to digest it, the pangs of dyspepsia, and a doctor's bill. DR. WALKER'S VEGETABLE VINEGAR BITTERS, the great Teetotal Restorative of the age, without over stimulating the palate or irritating the stomach, imparts a healthful appetite, promotes digestion, regulates the liver and bowels, purifies the blood, and thus, instead of entailing four evils, confers four inestimable benefits.

A gentleman from Bethel Hill, Me., says that Messrs. Allen Bros., Proprietors of Phillip Allen's Print Works, R. I., were down to Bryant's Pond, recently, trouting, when one of them was attacked with sciatic rheumatism so suddenly, that he had to be carried from the pond to his hotel; a bottle of *Johnson's Anodyne Liniment* was resorted to, and he was out next day.

How are you to-day? I'm not feeling well, bilious and sick headache, have been looking around for a box of *Parsons' Purgative Pills*, but our traders are all sold out.—*Country Paper.*

SPECIAL NOTICES.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not less, owing to sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

1230 Sold by Dealers Everywhere.

A MILLION IN THE FIELD!

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

Winter Wisdom.

Warm clothing alone will not protect the body against the consequences of the sudden depression of temperature which is concomitant of early winter. Flannel next the skin preserves the animal heat, but it does not impart animal vigor. That property is the special prerogative of HOSTETTER'S STOMACH BITTERS, which is therefore a specific protection against a majority of the complaints which are most common at this season. For example, a course of the great vegetable invigorant, commenced now, will be almost sure to preclude chills and fever, bilious colic, disorders of the stomach, constipation, and many other complaints which are often the direct or indirect effect of an atmosphere surcharged with cold, unwholesome vapor. Moreover, the system toned and regulated by this means is much more likely to resist pulmonary disease than it would otherwise be; for the influence of searching medicines pervades all the organs, and every fibre and tissue of the frame. Persons whose vital powers are weak, especially invalid ladies and the aged, are earnestly recommended not to face the winter without availing themselves of this safe and sufficient means of re-enforcing enfeebled nature. Much suffering may be escaped, much danger averted by following this council. Better late than never, is a good proverb, but it is better to be early than late.

AYER'S

SARSAPARILLA,

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs; Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhea arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

What Troubles Him?

The editor of the local Democratic organ, who is also ex-officio bugler for the Church of Rome, after four days' consideration of the outrageous action of certain city officials in daring to hold an inquest into the causes which led to the destruction of St. Mary's church, has apparently concluded to crush the said city officials for holding the investigation and the CHRONICLE for reporting it. To effect this much desired end he has recourse to old-line Democratic tactics—his "prominent Republicans" seeming to have run short lately—and commences with a show of the traditional fish-wife's ability at "calling names," backing that part of his assault up with a falsehood which he knew to be such when he wrote it. Why he waited from Saturday evening to Wednesday before opening with his light battery we cannot tell, unless it was because "the church" did not order him to do so sooner. He makes a characteristic attack upon the officials for attempting to discover the cause of the fire; yet in his first issue after the fire he said it "was undoubtedly the work of an incendiary, and those who first saw the flames are of the opinion that the fiend must have poured kerosene on and about the altar inside, as the whole seemed to be one mass of flame." We consider a statement like that, affecting the character of the whole city, and publicly made, a sufficient reason for holding an inquest; and the man who made it, if he had the least reason for believing it true, should have appeared before the officials whom he says met with "pomp and parade," and made such reason known.

He says that the committee of investigation, having concluded their labors, "gravely announced that the cause of the fire was unknown." Now, being the option of the editor, we quote from the CHRONICLE of Saturday, the day after the committee reported, the following paragraph, which we think, if not a deliberate falsehood on his part, at least in so far as the committee reported to us. What the committee *did* say, and what we reported, was that they had learned that a light had been repeatedly seen burning late at night in the church, and that the watchmen had been informed that it was customary to keep a light burning before the altar (near which the fire was burning when first seen) during the night; a statement which the Democratic editor (or some one for him) confirms.

As to the fire having been "undoubtedly the work of an incendiary," we heard no hint of anything of the kind until we saw it in the Democratic sheet. We did hear that the buildings were insured for much more than their value; but we declined to give currency in our columns to any such rumor, being satisfied that the church alone must have cost more than the twelve or thirteen thousand dollars to which the entire insurance amounted;—not to mention the priest's house or the organ, which latter we understood to be but a few years old. But our cotemporary, inspired doubtless by that ardent zeal for the good name of the city which has so often compelled him to "denounce" the CHRONICLE, hastened to endorse a rumor as injurious as it is apparently unsupported—which looks to us as though he was bowing very low indeed to Rome for the sake of the Irish vote. We have not yet heard any reasonable cause for suspicion of incendiarism in the case brought forward; but if such reasons can be adduced we hope they will be, and the guilty parties ferreted out and punished; and we do not imagine that intelligent Roman Catholics will thank their editorial champion for his indignant shrieks at the first step taken in the investigation, for intelligent, honest Roman Catholics will court the most searching enquiry.

As he has so very graciously made known so much which is incorrect concerning the investigation, perhaps he will now be willing to give the true statement of facts,—that the committee did *not* "conclude their labors" but adjourned over for a time on account of the proposed absence of the city solicitor from the city, and that the enquiry was instituted at the express request of a number of our most prominent citizens.

—The New Orleans Republican denies that the late Lieut.-Governor Dunn was ever a slave, as has been stated, and also denies the statement that he died rich.

S. J. Court.

The Court is engaged in the case of E. W. Hovey & Co. vs. Shuff, an action brought to recover a sum of money which is alleged to have been fraudulently obtained by defendant, by an order for a lot of liquors of plff., which the deft. knew he could never pay for. Mr. Richardson of Boston will make the closing plea this morning.

Masonic.

At the annual communication of St. John's Lodge, No. 1, on Wednesday evening, Dec. 6, the following officers were elected for the ensuing year:—Wm. B. Grogan, W. M.; John W. Dame, S. W.; Waterman K. Pryor, J. W.; Isaac Dow, Treasurer; Geo. P. Edny, Secretary; John H. Chesver, Rep. to M. W. G. L.; Members Standing Committee, John R. Holbrook, Oliver G. Fernald.

Laconics.

The employees of the Eastern Railroad subscribed the sum of $600 for the benefit of Mr. Jeff. C. Rowe, the heroic brakeman who lost an arm by the Revere accident, and deposited it in one of our city banks, surprising Mr. Rowe by presenting him with the bank book subject to his order. The gift reflects honor upon the generous donors, who show due appreciation of their old associate.

At the recent Temperance State Convention at Concord, our friend of hair dressing fame, Mr. Augustus Fletcher, was the only Portsmouth delegate. Mr. Fletcher is an enthusiastic worker in the temperance organization here, and in his remarks at the convention, spoke of the "rum cursed city of Portsmouth" and stated that he wanted a red hot radical temperance man nominated for Governor. When the convention balloted for a candidate, 49 votes were cast, and Mr. Fletcher came within 24 votes of being the nominee. Dr. John Blackmer, of Sandwich, was nominated and made a speech of acceptance.

For the first stages of Croup in children, administer Marvin's Cod Liver Oil. "It works like a charm." And to fortify and strengthen the system against this terrible disease, administer the Oil daily.

EVERYTHING is relatively Old or New, but "Old and New" is fast becoming an old incening of its fifth column. Besides being the option cards, to day, shows some of the attractions offered by this excellent magazine for the ensuing year. The "CHRISTMAS LOCKET" will be most interesting, while the new serial entitled, "Six of One by Half a Dozen of the other," the first chapter of which appears in the December number, will be quite a literary curiosity, being written *jointly* by Mrs. Stowe, Mr. Loring, Miss Hale, Mr. Perkins, Mrs. Whitney, and Mr. Hale. One of these writers furnishes the part which appears in the December number; another takes up the thread of the story and furnishes the chapter for the January issue, and so on through the February, March, April and May numbers for 1872.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost *given away*. Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

JUDGE LYNCH ON THE PLAINS.—California emigrants have a summary way of disposing of murderers. A party of five hundred were encamped near Council Bluffs recently, when one of their number murdered a young herder. When the news reached the camp search was made for the murderer. It was found that he had been arrested and taken before a magistrate. An emigrant tersely describes what followed:

"We, the five hundred emigrants, quietly marched to the Justice's court and demanded the prisoner. They refused to give him up. We, the five hundred emigrants, took him, tried him, condemned him, and hung him on the same tree he had murdered his victim under." "Farewell, vain world," were his last words, as the mule walked away and left him there. We, the five hundred emigrants, followed the mule."

— As two young men named Grant and Bennett were playing in a boat on last Sunday evening, it got beyond their control and was carried over the dam of the Portsmouth Manufacturing Company at South Berwick, a fall of twenty feet, upon the rough and jagged rocks below. The boat was dashed in pieces and their escape from instant death or drowning was miraculous. As it was, they escaped with some bruises.

MARRIAGES.

In this city, Dec. 3, by Rev. C. P. Smith, Mr. CHARLES A. SMART and Miss SUSIE S. HARVEY, both of Portsmouth.

At South Seabrook, Dec. 2, Mr. FREDERICK A. EATON and Miss ELIZA JANE FOWLER.

Wanted,

At this office, to complete files, copies of the NEW HAMPSHIRE GAZETTE, of date November 18.

$25 Reward.

We are constantly annoyed at complaints from many of our patrons that the CHRONICLE is stolen from their premises. The thieves who abstract these papers from the doorways of their neighbors, if detected, will be made to suffer, and we offer a reward of $25 for such evidence as will result in the conviction of any person guilty of such theft.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of last week's DAILY. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled*.

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

BANKERS

and Dealers in Government Securities,

No. 5 Nassau Street,

New York, Nov. 20, 1871.

The successful and rapid negotiation of nearly three-fourths of the FIFTY MILLION GOLD LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:

OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY,
54 William Street, New York,
NOVEMBER 18, 1871.

Messrs. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:

The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the business coal and other business that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and ironing on eleven miles of the 103 miles, from the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.

In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.

Very respectfully yours,
C. P. HUNTINGTON, *President.*

In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.

The scarcity of, and demand for, really

Desirable six per cent. Gold Bonds,

for safe and permanent investments, is evinced by the facts that

Five-Twenty Bonds of 1867 are selling at....113
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at 94

These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.

The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenue.

The reason why we think CENTRAL PACIFIC BONDS will in time advance to the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.

The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.

The Chesapeake & Ohio Bonds are issued either coupon or registered—the denominations are as follows:

$100, which cost to day.....$94.13
$500 " " " 471.56
$1000, " " " 943.12

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank (or Banker) by accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

We buy and sell Government and Central Pacific Bonds and receive them in exchange for Chesapeake and Ohio Bonds.

Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*

FISK & HATCH,
dec2 *Financial Agents*

DAMAGED HANDKERCHIEFS,

VERY CHEAP, at MASON'S POPULAR STORE. d1

"LET US HAVE WAR."—Deftly sandwiched in between a couple of pacific paragraphs, there is the following passage in the President's Message of yesterday:—

"I renew the recommendation for an appropriation for determining the true position of the forty-ninth parallel of latitude, where it forms the boundary between the United States and the British North American possessions, between the Lake of the Woods and the summit of the Rocky Mountains. The early action of Congress on this recommendation named would put it in the power of the War Department to place a military force in the field during the next summer."

We hear from private sources that the enterprising agent of the British press has been hoaxed into drawing the special attention of the English journals to this startling menace, which has in some inexplicable manner altogether escaped the keen eyes of American editors. But perhaps "hoaxed" is scarcely the word. The language is really very alarming. "Place a force in the field"—what else can that fairly mean than preparations for active hostilities, and a revival of the old contest of twenty years ago over the Oregon boundary line?

It will be quite amusing if our London contemporaries have accepted these simple words in simple earnest. Perhaps, indeed, even now the entire English people are floundering in the agonies of one of those occasional "scares" which at pretty regular intervals they improvise for the amusement of the civilized world. Before Louis Napoleon was hurled away to the limbo of used-up big bugs, he used to convulse the London money market every now and then by a few sentences of mysterious buncombe. Of late, however, America and Germany have become the quarters from which imaginary dangers are looked for, and the editors of the Thunderbolt and Daily Gusher (in plain English, the London Times and Telegraph) hang upon the words of Bismarck and Grant with painful attention. It will, however, be very flattering to our vanity if the President has now stirred them up into a state of patriotic excitement.

In serious earnest, however, what does "Mr." Grant, as we saw him styled the other day in an English review, mean? Possibly the only force he alludes to is one composed of engineers and theodolites, and boys to hold the surveying lines. If so, why on earth did not he say so? It is simply cruel to prick poor old John Bull in the ribs with such vague suggestions of blood and thunder as we have quoted.—*N. Y. Telegram.*

OCEAN STORM AND RELIEF SHIP.—Mr. A. Watson, who was a prominent supporter of the Storm Signal Bureau before its establishment, now advocates the extension of the system seaward.—

The destructive Southeast gale of the 16th Nov., along our whole northern coast, is another instance among many, demonstrating the necessity of an Ocean Storm Ship, to be permanently anchored two or three hundred miles off the coast, on one of the present lines of ocean telegraph, or on a line laid expressly for the purpose; by which means notice of nearly all easterly gales could be telegraphed and signaled at seaports and at capes, several hours or a whole day in advance of their arrival, thus warning scores and even hundreds of vessels about to put to sea, to remain, and vessels sailing in sight of the coast to run into harbor, until the storm had spent its fury, thereby saving numerous vessels and many lives. The following, published from the officers of the Russian ship Svetlana, bearing the Grand Duke Alexis, is directly in point.

"After parting with the Bogatire we met with heavy gales from the southeast. From the 14th to the 17th we were unable to take observations, and were obliged to beat about under double-reefed top-sails, not knowing where we were, until last Friday, when we took an observation in the latitude of Cape May, and then we found we were only 140 miles from shore."

This gale from the *southeast* that struck the Svetlana, probably about 300 miles off the coast, on the 14th, reached the coast from Cape May to Portland, late on the 15th, driving scores of vessels on shore, and doing great damage generally. With the plan as proposed, this, like nearly all easterly gales, might have been telegraphed one entire day in advance to all of our northern seaports. This plan of an Ocean Storm Ship was first published by me in 1867. Of its practicability there is now scarcely a doubt. An invention was made by a Capt. Moody of England, and a cut published in the Illustrated London News, and copied into Frank Leslie's Illustrated Newspaper of Oct. 1st, 1870, giving a plan of a *Relief Ship* to be permanently anchored in mid-ocean, connected with a line of telegraph. The fact that a ship can be permanently anchored in the ocean connected with a submarine telegraph, has therefore been proposed and is fully believed on both sides of the Atlantic. By combining the two purposes as described, the utility would be largely increased, and the cost relatively decreased. To make it of the greatest utility, the Storm and Relief Ship should be a screw-steamer, of suitable size, furnished with extra stores, life-boats, lights, and with steam pumps to keep sinking vessels afloat while towing them into port.

If this one experiment should prove practicable, one or two more lines of submarine telegraph could be laid, and ships anchored at their ends, by which the *entire* coast could be guarded from all easterly gales, as well as to furnish additional relief to distressed mariners. Of course if this plan is practicable off our coast, it is equally practicable off the cost of Europe, to give warning of gales coming from the west.

NEW ADVERTISEMENTS.

CUNDURANGO.

BLISS, KEENE & CO'S Fluid Extract, the wonderful remedy for Cancer, Syphilis, Scrofula, Ulcers, Pulmonary Complaints, Salt Rheum, and all Chronic Blood Diseases, is prepared from the Genuine Cundurango Bark, from Loja, Ecuador, secured by the assistance of the authorities of that country. A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfsb16

AYER'S
CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and with a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one week.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

WSAHINGTON'S WEDDING.

It is now some years since I visited a venerable edifice intimately connected with the life of a great man—old St. Peter's Chuch, in New Kent county, Virginia, where Washington was married.

Let us leave, for a moment, the bustle, turmoil, and "rush" of the Iron Age, and go back to the last century, when life was more deliberate, solid and picturesque. The old church, of which I speak, takes you easily back as you gaze at it; and there is the added interest of its association with the nuptials of Washington.

Old St. Peter's was built as far back as the year 1703, and is a long, low building, of "sun-dried bricks," brought over from England, as was then the habit, with a steep roof, and walls embrowned with age. A square tower rises above the vestibule, on a level with the ground, and in this tower is the vestry room, to which you ascend by a lofty flight of ancient and creaky steps. Crowning the tower is a sort of steeple, surmounted by crossed rods, bearing the letters "N. S. E. W.," and on the summit of all is a small portion of the old weather-cock, which probably veered in the winds of the last century.

The surroundings of the time-honored edifice are as antique as the building, which stands on its wooded knoll with the sturdy air of a veteran, careless of "time and tide." On the bricks are carved names and dates, by hands that have long crumbled. One of the dates is 1739. On a great tombstone beneath the oriel window, walled up, for some reason, is a coat-of-arms, raised in bas-relief—a shield with a "lone star" upon it; above a knight's vizard, with the coronet—of a duke or marquis apparently—encircling it, and surmounting all, the grinning head of a wolf. On this stone, dark and durable, as was the marble of that epoch, is cut the date "1716." Not a tracery has grown dim—not a letter or figure is indistinct. The wolf's tongue lolls out fiercely, his eyes glare, his teeth snarl. The rain and snow and sunshine have fallen for a century and a half on the knightly helmet and the head of the wolf—and neither rain, snow, or sunshine has affected the iron surface.

These objects take you back to a remote period, very unlike the present, when buildings, tombstones and all other things seem constructed of transient materials. Another memorial of old times is the grove of great oaks around the church. What picturesque scenes these must have witnessed! Beneath their spreading boughs, for generations, rolled the chariots of old-time Virginians, drawn by their four horses, and containing the squire, his wife, maidens and children attending church. To these boughs were tethered the bridles of thorough-bred horses, ridden by gallant youths. Yonder the chariots discharged their burdens—the pompous old lord of the manor, the good dame, his wife, and the little beauty, their daughter, in her great hooped dress, square bodice, powdered hair, red-heeled shoes, which she displays as she raises her silk dress and scarlet "petticoat," as they called it then. You may see her still, in imagination, as she smiles and nods, slaying with her bright eyes the youths with embroidered coats, long waistcoats and ruffles, who hasten to assist her, and contend for the touch of the small hand.

All that has passed away; the youths and maidens are long dead. The parson no more sweeps down the vestry stairs, or thunders or drones in his high, tub shaped pulpit above the listeners in the lofty pews. Squire and dame, and parson, and gallant lover, and little beauty live alone in the memory of the great oaks, which waved above them, wave still, and will probably rustle their leaves in the winds of another century.

Such is and was old St. Peter's Church—an interesting relic to-day of a time that is long dead; interesting, more than all, as I have said, as having been the scene of Washington's wedding.

The incident which led to that event is worth narrating, and something of a comedy. I hope, in relating it, I shall not be charged with "irreverence" to the memory of the famous bridegroom. He was a man of lofty pride, august dignity—a very grand type of god, and "fell in love" at least twice in his life, like the humblest of his species. This was his second love, and something of romance was connected with the origin of the affair.

It was in the spring of 1758. Mr. Custis, a planter, residing at his estate called the "White House," was riding out one morning when he met coming from the northward a young gentleman of military appearance, excellently mounted, and accompanied by a gaunt old servant, or sargeant, who rode respectfully a few paces behind his master. The new comer was Colonel George Washington, on his way from Winchester to Williamsburg, and his attendant, Bishop, formerly Braddock's body servant, now his own.

Washington was twenty-five at that time, and a young man of great sedateness and dignity. He was in chief command on the frontier, and saw or

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is locked for fa vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this and result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With wofal measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Bachu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

HELMBOLD'S GENUINE PREPARATIONS. Established upward of twenty years. Prepared by

STEAM SAFES

—AGAIN—

TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.

AM. STEAM SAFE CO.,
COLE & LAMBERT, *Managers*,
300 Broadway, N. Y.

Gentlemen:—"The Binghamton Planing Mill and Sash and Blind Factory," together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 7) made by you, and purchased one year ago from Messrs. Paige & Chaffee, Agents, in this city, was in the Planing Mill, and went through the severest part of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild. Very truly yours,

(Signed,) A. L. HARDING.
Late Proprietor Canal St. Planing Mill, Binghamton.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with despatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend all persons to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.,

Portsmouth, N. H.

SATURDAY, DECEMBER 9, 1871.

Congress.

Senate.—On the 7th, but little more was done than to appoint the committees. Bills for uniting the postal and telegraph services, and for regulating the pay of officers in the navy and executive departments, were introduced, and Mr. Sumner gave notice of a bill reducing taxation and abolishing the office of internal revenue commissioner. Senator Sumner is chairman of the committee on elections, Cameron on foreign relations, Sherman on finance, Cole on appropriations, Wilson on military affairs, Cragin on naval affairs, and Patterson on the Dist. of Columbia. The Senate adjourned till Monday, the 11th.

House.—The bill consolidating the postal laws came up, but before the reading of the bill was concluded the morning hour expired, when the House adjourned to Monday.

Political.

A Washington special to the New York Tribune says Gen. Butler announced the other day while traveling on a Sound steamer, that he favored Speaker Blaine for the Republican nomination for the Vice Presidency, and meant to do all he could to help him. The report of his sudden change from hostility to affection, on the part of the late candidate for Governor of Massachusetts, toward his old enemy, the Speaker, causes much astonishment among the politicians there. It was related in a circle of New England Congressman, and the only explanation suggested for Butler's unexpected anxiety for Mr. Blaine's advancement was that the General wants to pay off Senator Wilson for his interference in the Massachusetts canvass. Senator Wilson wants to be Vice President—at least, Butler supposes so—and the General believes that the best way to nip his aspirations in the bud is to set up Blaine as a rival New England candidate.

SENATOR SUMNER'S plan for the resumption of specie payments is to issue every month ten million of interest-bearing legal tender notes, similar to those that were issued in 1863 and 1864, and to cancel a like amount of greenbacks, the process to go on till all the greenbacks have been thus replaced. The new notes, he proposes, shall bear 5 per cent interest, and shall be paid in coin at the end of three years, or converted into 5 per cent. bonds at the option of the Government. By this means, Mr. Sumner thinks, resumption could be reached without a shock to business, or serious disturbance of prices. The new notes would follow the course of the similar notes issued during the war. They would first pass as currency for two or three months, until a sufficient amount of interest had accumulated on them to make it an object for the people to hoard them. They would then disappear from circulation. The constant retirement of the interest notes would steadily lessen the volume of currency remaining in circulation, and bring it nearer and nearer to gold value, until it would finally reach par. Resumption would then take place, and all the hoards of gold and silver in the country would become a part of the circulating medium, preventing any injurious contraction, resulting from the completion of the process of withdrawing the greenbacks, which, in about three years, would all be converted into interest notes and bonds.

TAMMANY.—There is much feeling in Roman Catholic circles, owing to a rumor that over $90,000 belonging to the Catholic Foundling Institution were deposited in the Bowling Green Savings Bank, which suspended.

At a private meeting of some of the members of the Tammany society it was determined to compel Tweed, the grand sachem, to withdraw, and a meeting was called for an early day for the purpose of expelling him from the society.

The New York police force is to be reorganized in such a manner as to purge it from all Tammany taint. The lists of officers are to be scoured of such as have been appointed on the recommendation of Tammany politicians. The office of police superintendent is said to have been offered to United States Commissioner Davenport, by whom it was declined.

In the trial of James Irving, a witness on cross examination stated that he had worked in the controller's office at $1500 a year, but when asked what he did for the money, answered that he did nothing—a common case in time past with many men on the city pay-rolls.

PROBABLE RETALIATION.—At a meeting of the New York chamber of commerce, a letter from Oliphant & Co., tea merchants in Canton, China, directed attention to the recent outrages on Chinamen in Los Angelos, California, and the probability that they would lead to retaliations on Americans in China. A memorial will be presented to the government, asking that steps be taken for mediation with the Chinese government. As the Chinese are ignorant and degraded heathens, it is quite possible that the wanton murders and robberies perpetrated on their countrymen by civilized "white Christians" in California, and the disgraceful tolerance and protection of such outrages by the laws of that State, may lead to another "unprovoked massacre" of Christians in China. How strange a thing it is that the Chinese are so slow in accepting Christianity, when they see so much of what they suppose to be its practical workings.

MAINE ITEMS.—Mr. Cyrus Woodman of Cambridge, Mass., and James W. Thornton of Boston, in company with several members of the York Institute, recently went to the Saco "Pool" in search of the remains of Fort Mary. Fort Hill is the spot that once knew this erection. The fort was built in 1704, and was in a position to protect the settlers from attacks by land and sea. The remains of the walls are now visible, showing the fort to have been about sixty feet square. Near this locality is the oldest house in Biddeford. It was built about 208 years ago by Thistram Jordon, and is now occupied by Tristram Goldthwaite. An attempt was made to find the locality of the old court-house, which was situated near "the head of the Pool," but the "searching" wind and setting sun drove the party home. General court was holden in the province of Maine, in Saco in 1640, and probably somewhere at the Pool, as the first settlement was in that locality.

In the supreme court at Agusta, W. Scott Harvey, who was indicted for the murder of Everett Savage, retracted his plea of not guilty and pleaded guilty of manslaughter. The charge of murder was withdrawn, and Harvey received his sentence of three months in the county jail and $100 fine.

THIEVES. — Mercer, the defaulting city treasurer of Philadelphia, has been convicted on five counts.

Marden, the defaulting U. S. Treasury clerk, was appointed in 1861, from Boston, on the recommendation of Representative Gooch, and until recently has held a high position for ability and integrity. His personal deficit is only $12,000, but the entire defalcation will exceed $50,000. For this entire amount General Spinner is personally responsible to the government, and to pay it will more than consume his entire property.

BONDS.—Secretary Boutwell has given notice that on and after the 7th of March, 1872, the principal and accrued interest on five-twenty coupons and registered bonds known as the second series of the act of Febuary 25, 1862, will be paid at the Treasury department. The amount of these bonds not converted and thus called in is twenty millions.

THE PRINCE OF WALES is reported to be more seriously ill than at any previous date, and his condition creates great uneasiness in England.

EMPHATIC MESSAGE.—A gentleman of a slightly irritable temper, calling out loudly for some hot water from his bedroom, was unanswered. Seizing a small bureau, he shoved it before him to the head of the stairs, and sent it whirling, end over end, to the hall below. The crash was loud enough to bring out mother, daughter and all the servants. The head of the family was seated at the top of the stairs, elbows on knees, chin resting on hands. "Oh, father! what is the matter?" asked the frightened daughter. "Matter!" said the old man, "why, here I have been a callin' and callin' yer nigh on half an hour, and now I've telegraphed for yer, that's all."

HEALTHFUL SUBSTITUTE FOR TEA.—As a healthful drink, in place of tea, Dr. Thompson, in a late work, recommends the use of the dried leaves of the Red Raspberry. They cleanse the system of canker, and thus act beneficially to the health. The leaves should be gathered on a warm day, and may be spread in a good airy chamber, on clean boards or papers to dry. When sufficiently dry, they may be kept in sacks. A small handful is sufficient for several persons. This tea does not require the addition of milk or sugar, and is quite as pleasant as other tea, and much cheaper and healthier.—*Home and Health.*

—A Portuguese accused of shooting and killing a Chinaman at Hawkinsville, California, was discharged because the only witnesses were Chinamen, whose testimony was not permitted against the Caucasian race under the State laws.

Wanted,

At this office, to complete files, copies of the NEW HAMPSHIRE GAZETTE, of date November 18.

$25 Reward.

We are constantly annoyed at complaints from many of our patrons that the CHRONICLE is stolen from their premises. The thieves who abstract these papers from the doorways of their neighbors, if detected, will be made to suffer, and we offer a reward of $25 for such evidence as will result in the conviction of any person guilty of such theft.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c. and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

SPECIAL NOTICES.

Shocks to the System.

The first shock of winter tells tremendously upon enfeebled systems. Every one knows that in passing from a warm region to a cold one, or *vice versa*, the body requires as a protection against epidemics, an acclimating medicine. All travellers and voyagers admit this. It is equally necessary to acclimate the system in passing the confines of one season and entering upon another. Autumn is gone and winter is here. Prepare the frame and the constitution to meet the change by a course of HOSTETTER'S STOMACH BITTERS. This instimable vegetable tonic increases the stamina strength of those who take it, and renders them proof to a great extent against the devitalizing power of cold and damp. These two agents are as prolific of disease as tropical heat, and animal vigor—such vigor as this healthful and pure tonic diffuses through the whole organization—is a repellant which they cannot master. A large proportion of the colds, catarrhs, and pulmonary complaints which prevail in winter, might be avoided, by strengthening and regulating the system in advance with this invigorant and alterative. Not that it is recommended as a specific for those complaints, but as a preventive of their causes. On the other hand, it is not only a preventive of, but a specific for the indigestion, intestinal irregularities, malarious fevers, bilious attacks, and nervous affection, superinduced by a chilly and damp atmosphere.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

t&30 **Sold by Dealers Everywhere.**

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost *given away.* Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

SYMPTOMS OF LIVER COMPLAINT, and of some of the Diseases produced by it. A sallow or yellow color of skin, or yellowish brown spots on the face and other parts of the body; dullness and drowsiness with frequent headache; dizziness, bitter or bad taste in mouth, dryness of throat and internal heat; palpitation, in many cases a dry teasing cough, with sore throat, unsteady appetite, raising of food, choking sensation in throat; distress, heaviness, or bloated or full feeling about the stomach and sides, pain in the sides, back or breast, and about the shoulders; colic pain and soreness through the bowels, with hard; constipation, alternating with frequent attacks of diarrhœa; piles, flatulence, nervousness, coldness of extremities; rush of blood to the head, with symptoms of apoplexy, numbness of limbs, especially at night; cold chills alternating with hot flashes, kidney and urinary difficulties; female weakness, dullness, low spirits, unsociability and gloomy forebodings. Only few of above symptoms likely to be present in any case at one time. All who use Dr. Pierce's Alt. Ext., or Golden Medical Discovery for Liver Complaint and its Complications, are loud in its praise. Sold by all first-class Druggists. 567

BUSINESS NOTICES.

EXCELLENCE is not always found combined with magnitude. The AMERICAN HOUSE, Boston, possesses this happy blending, being one of the best hotels in the country, as well as the largest in New England.

FOUR EVILS.—Whoever habitually uses any alcoholic preparations as an "appetizer" will be likely to suffer from four evils, viz: an overplus of food in the stomach, impaired ability to digest it, the pangs of dyspepsia, and a doctor's bill. DR. WALKER'S VEGETABLE VINEGAR BITTERS, the great Teetotal Restorative of the age, without over stimulating the palate or irritating the stomach, imparts a healthful appetite, promotes digestion, regulates the liver and bowels, purifies the blood, and thus, instead of entailing four evils, confers four inestimable benefits.

We have often wondered whether there is a person in all New England, who does not know and appreciate the value of *Johnson's Anodyne Liniment* as a family medicine? It is adapted to most all purposes, and is the best pain killer that can be used.

Farmers and stock raisers have frequently told us that they have seen very good results from giving *Sheridan's Cavalry Condition Powders* to cows and swine before and after they drop their young. The powders put them in good condition and give them strength to care and provide for the sucklings.

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

BANKERS

and Dealers in Government Securities,

No. 5 Nassau Street,

New York, Nov. 20, 1871.

The successful and rapid negotiation of nearly three-fourths of the **FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY,** and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to offer for sale the price for future sales of the Bonds, as explained in the following letter of MR. HUNTINGTON, President of the Company:

OFFICE CHESAPEAKE & OHIO RAIROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.

Messrs. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R.Co.:
Gentlemen:

The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonry on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.

In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 96 and accrued interest, at which price you will continue to sell until further orders.

Very respectfully yours,
C. P. HUNTINGTON, *President.*

In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.

The scarcity of, and demand for, really

Desirable six per cent. Gold Bonds,

for solid and permanent investments, is evinced by the facts that,

Five-Twenty Bonds of 1867 are selling at...115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at..94

These bonds all pay both principal and interest in New York City in U. S. gold coin, and are equally safe for investment.

The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.

The reason why we think CENTRAL PACIFIC Bonds will in time advance to the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.

The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with Five-Twenty and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.

The **Chesapeake & Ohio Bonds** are issued either coupon or registered—the denominations are as follows:

$100, which cost to day.....$94.13
$500, " " " 471.56
$1000, " " " 943.12

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

We buy and sell Government and Centrall Pacific Bonds, and receive them in exchange for Chesapeake and Ohio Bonds.

Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*

FISK & HATCH.

LOCAL AFFAIRS.

New Advertisements to-day.

Half Column from Dauchy & Co.
Christmas Goods—Lafayette Leighton.
Situation Wanted.

S. J. Court.

The case of E. W. Hovey & Co. vs. Grant was closed on Friday. Verdict for plaintiffs, $2640.58.

Laconics.

By a reference to our report of the doings of the City Council it will be seen that the Aldermen on Thursday evening granted the use of the Ward Room on State Street to Canon Walsh, for religious purposes. When Mr. Wm. Plaisted some time ago petitioned for the use of a Ward Room—we believe this same one on State Street—for religious purposes, the petitioner received "leave to withdraw."

Several old favorites of the Portsmouth theatre-goers appear at the Temple this evening and on Monday. Dollie Bidwell, Lillie and Charley Wilkinson, with Wallace Britton and a large dramatic company, will give two of the choice entertainments which have made them so popular here in times past—an announcement sufficient to fill the house. See adv't.

Good Porkers.

Hon. Daniel H. Spinney of this city is as hard to beat in the porcine line as in fruit. He has this week killed a hog of the White Chester breed, aged nineteen months, which girthed alive seven feet and an inch, and dressed nine hundred and four (904) pounds! Is not this the heaviest hog ever raised in the State, or New England? Mr. Spinney prefers, he says, to buy White Chester pigs, rather than have any other breed given him. He always grows large pork, and each year improves on the weight—thus, in 1867 he raised one weighing 672, the next year 698, then 742, last year 743, and now over nine hundred! After this, what?

Mr. James Critcherson of Greenland has also raised a good pig—which at 8 months and 11 days old weighed 420 pounds.

City Council.

In Board of Aldermen, Thursday evening, Dec. 7:—Petition of Benjamin Norton and others for alarm bell on Cabot Street school house, was referred to Committee on School-houses, to report cost of bell, tower, &c., at the next meeting.

Petition of Catherine Reagan for remission of part of fine, was referred to City Solicitor.

A communication was received from the Chief Engineer, asking for 1000 feet of canvas hose, and referring to other matters. Voted, That the hose asked for be purchased at once and the rest of the communication be referred to Committee on Fire Department.

A communication from H. C. Richards, state liquor agent, asking for information relative to local agent for sale of liquors, was referred to Aldermen Hatch and Fernald, to ascertain the law, and report what action is necessary to be taken.

The use of Ward Room on State Street was granted to Canon Walsh, on Saturday evenings, for confessional service.

Met Common Council in Convention to count votes for Mayor, and on resuming, adjourned.

Common Council.—A quorum met, and in convention with the Board of Mayor and Aldermen passed a resolution declaring Hon. Horton D. Walker the Mayor elect for the next municipal year; and the City Clerk was instructed to officially inform Mr. Walker of his election.

TOO WELL UNDERSTOOD.—On taking the chair at the recent convention of Assistant Democrats *alias* Labor Reformers, Mr. Gove said he "was firmly convinced that if the people of New Hampshire could thoroughly understand the aims and platforms of the Reformers, the success of the party at the polls next March would be assured. We have but to be understood by the people to be successful." The people of New Hampshire do thoroughly understand the aims of the Reformers, and just how much their lofty professions of integrity are worth. They succeeded in their aims—to sell out at a high price—in the Legislature last spring, and their past acts give plenty of light for their present professions to be read by and properly "understood." If they could only get loose in the Treasury, just for once!

GRAND DUKE ALEXIS and his suite of nine persons arrived in Boston at ten o'clock Thursday night, having had public receptions at Bridgeport and Springfield. Friday he visited Charlestown and Cambridge and attended the grand ball in the evening.

New Hampshire Items.

The eighth annual reunion of Dartmouth College occurred Dec. 7. Among the prominent persons were Attorney-General Akerman, President Smith of Dartmouth, and professors of the college. Speeches were made by Richard B. Kimball, president of the alumni association, General Muzzey, Judge Noyes, Attorney-General Akerman and Professors Bailey and Hubbard.

On the 7th, three buildings in Bristol were destroyed by an accidental fire. Loss $25,000, insured to about one-half that amount.

Miss Stuart, an operative in the Amoskeag corporation at Manchester, attempted suicide on Tuesday night, Dec. 5, and will not recover from her wounds. Her age is about 30 years.

A new paper mill is being erected at Bristol.

The Monadnock Railroad, which now runs from Winchendon, Mass., to Peterborough, is to be extended 18 miles to Hillsborough Bridge, next spring and summer, making the distance from Winchendon and Keene by rail 29 miles less to Concord than at present. The delinquent stockholders who refused to pay their subscriptions and were beaten in the late trial, expect to gain their point at the law term, as they claim the subscriptions were made on the condition that a certain amount of stock should be taken in New Hampshire, whereas it was in fact taken by Massachusetts men. The distance from Keene to Concord by turnpike is 40 miles; by rail, via Groton Junction, Mass., and Nashua, about 111 miles; via Winchendon, 82 miles.

Messrs. Robertson & Sons are enlarging their paper-mill at Hinsdale.

A large tannery is being built at Keene which will be ready to operate early next spring.

TOO BAD.—An old lady as far down the decline of life as seventy-nine, like people generally about her age, was constantly worrying about something or other. She lost her spectacles on one occasion. These were replaced by a new pair, out of which one of the glasses soon followed the former missing pair. While the latter were being repaired the other pair were found. Finally both pair came home, and her indulgent son on the same day presented her with a pair of gold bows. On receiving the whole three pairs of specs in good-looking order the old lady in a subdued voice exclaimed, with a long drawn sigh: "Oh, dear, what have I got to worry about now?"

—It is related that four murderers in Russia were recently placed, by way of experiment, in four beds in which cholera patients had lain. They did not know the character of the beds, and did not take the disease. They were then compelled to sleep in new and clean beds, which they were led to believe had been occupied by persons who had died of cholera, when three of them died within four hours.

—The Buffalo Commercial takes up the cudgels for cundurango. It asserts on the authority of a distinguished physician of that city, that a member of his family, afflicted with cancer for many years, has been cured by the new drug, after vainly resorting to several operations. The Commercial is rather severe on the medical journals which have so decidedly pronounced it a humbug.

—The Detroit Post, in recording the following item, asks "Why should she not vote?" "A Harrison county girl recently knocked her mother down with a rolling-pin, and in return was chocked by her father until her tongue hung out of her mouth. In a short time mother and daughter recovered, and pitched into the old gentleman with rolling-pin and table forks, nearly ruining his arm with the latter. The daughter then threw all of the dishes out of the window."

—It would not answer to introduce the Koran in this country; it gives the women such an easy way of divorce. Under the Mohammedan law an aggrieved woman has only to place her slipper upside down before the Cadi, and a divorce is granted without further inquiry, as it is taken for granted that she would not seek such redress without the most pressing cause. In America, alas! what an array of reversed slippers would greet our learned "cadis" every court day.

—The Luzerne Union records another terrible accident resulting from the too common practice of blowing down a lamp chimney to extinguish the light. The casualty occurred in Cleveland, Pa., a few nights since. Mrs. Elizabeth Stark disrobed to retire about ten o'clock. She attempted to extinguish her coal oil lamp in a very common manner, by blowing down the chimny. The lamp exploded, throwing over her the blazing liquid and in an instant she was enveloped in flames and terribly burned.

MARINE CHRONICLE.

Morning Chronicle.

Concluded from first page.

thought little of the fair sex. But, on this spring morning of 1758, his "time had come."

Mr. Custis greeted him, and invited him to stop at the White House. He would do so with pleasure, but it would be for half an hour only. His business was pressing, he must hasten on to see his excellency at Williamsburg. And conversing, they rode back and reached the White House. Here Washington dismounted, and delivered his horse to Bishop, with orders to wait him there; he would continue his journey in half an hour. Bishop saluted gravely, with hand raised to his hat, his master entered the house, and the half hour passed—the old servant waiting patiently.

His master did not, however, make his appearance. The event was unheard of. Col. Washington was the soul of punctuality; he was on pressing public business; what could be the meaning of this strange and unwonted delay?

An hour passed—two hours—passed. Col. Washington did not re-appear. But a servant came out and delivered an order from him to the motionless old body-guard. He would conduct the horses to the stables; his master would dine, and possibly spend the night with Mr. Curtis. Bishop obeyed—the world was clearly coming to an end!—Col. Washington was the guest of the owner of the White House.

On the next morning, Bishop in obedience to orders to that effect, saddled the horses and waited before the door for the Colonel, who designed setting out, he said, immediately. Two hours afterward, there was still no signs of him. Then the servants came again, and directed the horses to be led back; Colonel Washington would remain to dinner and then continue his journey.

The day was far spent when the young soldier made his appearance, and vaulted into the saddle. Tall, vigorous, graceful, and with a certain loftiness of port, even then distinguishable, he was a gallant looking cavalier—one whom any woman might admire.

One was gazing at him through the window—a young lady of about his own age, with rosy cheeks, bright eyes, hair carried back from the forehead and a neck resembling snow, above the square cut bodice. The young colonel reined his high spirited horse, nearly throwing him upon his haunches, made a courteous salute with his right hand, (it was nearly the attitude of a bronze statue of him afterwards,) and galloped away, thinking probably of the bright eyes and lips.

"Colonel George Washington, of Mount Vernon," had seen for the first time Mrs. Martha Curtis, the beautiful young widow, who, a year after, was to become his wife.

Tradition relates that the ceremony took place in old St. Peter's Church, which we have referred to in the beginning of this sketch. The scene was a brilliant one, time 1759. The Rev. Dr. Mosson, parson of the parish, attended in full canonicals, and the pair advanced, followed by a bevy of beauties and groomsmen. Washington was clad in a suit of blue and silver, lined with red silk; his waistcoat was embroidered; his knee and shoe buckles were of gold; his hair was powdered; and he wore a dress-sword. The bride was dressed in white satin, with rich pointed lace ruffles; pearl ornaments in her hair; pearl necklace, ear rings, and bracelets; white satin shoes, with high heels and diamond buckles; and was followed, as has been said, by an array of beautiful and richly dressed girls, leaning upon the arms of groomsmen, in costume as imposing. The vice-regal Governor of Virginia, in a suit of scarlet, embroidered with gold, with huge bag-wig and dress-sword, was seen in the midst of a number of officers of the English army and navy; and a great crowd of what were then called "the gentry"—friends and relations of the bride and groom—filled the church, all intent upon the "interesting ceremony." One personage has been forgotten—Bishop, the old body-servant. He, too, was present. With folded arms, and much emotion on his aged face, he gazed at the ceremony with the rest.

It was soon ended, and the brilliant crowd flowed forth from the old church. Tradition relates that the bride, and as many of her fair attendants as could do so, entered the great chariot, which rolled off, drawn by its six spirited horses; while the bridegroom, fonder of horseback, mounted the splendid English charger bequeathed to him by Braddock, and cantered after the coach, attended by a number of gallant youths.

Such was that picturesque scene in the life of the "Father of his country." We see so much of the great soldier, statesman, and ruler, that it is pleasant to catch a glimse of the lover and bridegroom. Why not? One phase of the individual—the public and official phase—presents only the profile; to obtain the full view, the other phase must be delineated, too. The unreasonable theory has been to regard George Washington as an abstraction of patriotism and virtue, when he was a man like other men, with strong passions and human sympathies and infirmities. The result has been that he has failed in a measure to impress *the heart*. Men admire, but are chilled by him—by that grand bronze statue under which a heart never beat. Such an idea is a fallacy. Few human beings have ever felt more deeply than Washington. He loved warmly, and, if he did not hate bitterly, it was because his moral nature revolted from hatred, the sister of injustice, and his immense self-control enabled him to rule himself.

But this moral discourse is apart from the aim of the little sketch here presented. It that sketch be without "historic importance," it may claim, perhaps, the merit of being characteristic. The contrast at least is something. Few men are left of that man's mould, and our weddings to-day are prosaic. Blue and silver coat, with red silk lining, are not the fashion. Six-horse chariots have disappeared. All that brilliant life of the past has faded into the unpicturesque nineteenth century, and the poetry, splendor and romance have all turned to prose.

But the great oaks and old church, lost in the wilds of New Kent, are still there.—Beneath the trees flashed that brilliant *cortege* of old days—in that building George Washington placed the ring on the finger of his bride. All has passed away now; the stately and beautiful figures have long lain down in their tombs, but the stubborn trunks with their ancient inscriptions, remain to recall the life of the past.—*Appleton's Journal.*

—Wallie was recently presented a toy trumpet to which he became greatly attached. One night when he was about to be put in his "little bed" and was ready to say his prayers, he handed the trumpet to his grandmother, saying, "Here, gran'ma, you blow while I pray!"

NEW FAMILY SINGER SEWING MACHINE
Has proved itself *the best* for all classes and kinds of operators and work.
All that persons need to do to satisfy themselves of this is to enquire of those who have used them the most.
They Hem, Braid, Tuck, Quilt, Cord, Embroider, Fringes, Ruffle, Fell, Puff, Gather, Fagot, Trim, Bind.
They are light running, easy to learn and keep in order and for durability unrivalled.
They will stitch equally well the heaviest beaver or the thinnest muslin, in fact they will do every useful work that mechanical skill has yet perfected in the Sewing art.
These celebrated Machines are Sold for Cash or on the Installment principle, as best suits convenience of the purchaser, at the Regular Agency for Portsmouth, Kittery, York, Eliot, Newcastle, Rye, Hampton, North Hampton, Hampton Falls, Greenland and Seabrook.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!
THEY ARE NOT A VILE FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, free from all Alcoholic Stimulants.
They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.
They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfb16
J. WALKER, Prop., R. H. McDONALD & CO. Druggists & General Agents, San Francisco, Cal., and 32 & 34 Commerce Street, New York.

AYER'S
CHERRY PECTORAL
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.
The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

ARE YOU GOING TO PAINT?
—IF SO, USE THE—
AVERILL CHEMICAL PAINT.
It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is ready for application, and it is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot soap without injuring it. It is excellent for walls inside, in the place of paper.
I shall keep this season a large stock of Chemical Paints of all shades on hand, to be ready to customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.
I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the
AVERILL CHEMICAL PAINTS,
in the City. Also Dealer in
GROCERIES AND PROVISIONS,

The Chronicle.

SAFETY ON STEAMERS.—Captain R. B. Forbes has again earned the thanks of the community for his efforts in the cause of humanity. Whenever I make a passage in one of those Long Island Sound tinder-boxes, I am conscious of its fearful risk. I sincerely trust that his letter may have the attention it deserves. Elegant saloons, frescoed ceilings and bands of music cannot be set off against insecurity of life. In general there is a total lack of discipline on board those steamers. The Irish deckhands know as little of seamanship as the negro waiters, and the officers are mostly "longshoremen" who have never snuffed the air of the broad ocean. All the boats are stowed snugly away inboard. Not even a yawl is ever seen hanging at the davits. Two winters ago, in passing down the Sound, we ran into a brig, killed the man at the wheel and knocked her captain overboard. Fortunately he got hold of a plank which fell from the brig. In just twenty-five minutes from the time of the accident, a boat from the steamer was got into the water by the aid of the passengers, and the man was saved. He should have been picked up in five minutes. On arrival at New York I called on the president of the company, who was too busy to see me. I then wrote him a note stating the circumstances. He did not reply, nor was there any report of the collision in the newspapers.

These boats are on fire frequently without the fact being generally known. I speak knowingly, having myself once been in command of an old wooden rattrap which was on fire six times. Only on one occasion did the passengers know anything about it. I believe that good sea-going iron steamers with comfortable accommodations would be vastly safer than "luxurious floating palaces," and that a crew of sailors would take better care of them then a gang of land-lubbers.—*Cor. Boston Adv.*

—Nearly 10,000 German immigrants arrived in New York in November.

—Two churches, several houses, barns and the telegraph line on Prince Edward's Island were destroyed by the late gale.

—A boarding-house keeper mixed some patent medicine in his hash because it was advertised as a cure for consumption.

—The number of feet of lumber cut on the upper Mississippi last season was 127,000,000, mostly in Minneapolis and St. Anthony.

—Parents are warned against allowing their children to approach too near the Grand Duke's party. They may catch the Hoopenkoff and Popoff.

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. Dr. Ayer's consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

(From Dispensatory of the United States.)

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 25 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Disease, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Also! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

Dr. Wells' Extract of Jurubeba

is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all the vital powers, and animates and fortifies all weak and lymphatic temperaments. 4w n28

STEAM SAFES

—AGAIN—

TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.

AM. STEAM SAFE CO.,

COLE & LAMBERT, *Managers*,
300 Broadway, N. Y.

Gentlemen:—"The Binghamton Planing Mill and Sash and Blind Factory," together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 7) made by you, and purchased one year ago from Messrs. Paige & Chaffee, Agents, in this city, was in the Planing Mill, and went through the severest part of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild. Very truly yours,

(Signed,) A. L. HARDING,
Late Proprietor Canal St. Planing Mill, Binghamton.

All Styles of Mercantile and House Safes ON HAND AND MADE TO ORDER.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All models of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part induces me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

The Daily Chronicle.

Portsmouth, N. H.

MONDAY, DECEMBER 11, 1871.

SENATOR SUMNER has his bill for the reduction of taxation and the abolition of the office of internal revenue fully prepared. Its chief objects are to simplify and render uniform the tax and the method of its collection. It provides that instead of the present complex tax upon spiritnous liquors there shall be but one, that a stamp-tax of seventy-five cents per gallon. This rate is established as the equivalent of both license and stamp taxes at present collected, though it is in fact a little higher. The act also regulates the sale of stamps, provides a new set of officials for this duty, and places in their hands the whole business of the collection of the tax. The existing system of taxation is to terminate July 1, 1872, and the office of commissioner of internal revenue on September 1, following, just ten years from the first establishment of the office and the assumption of its duties by Secretary Boutwell. All unfinished business of the internal revenue bureau at the date of its expiration, including lawsuits, uncollected taxes, pending claims, etc., will be transferred to the Secretary of the Treasury, together with the entire machinery of the secret service and all superfluities.

RINGS AND LOBBYISTS.—Governor Hawley's lecture on rings and lobbyists attracted a large and fashionable audience to the Bedford Avenue Church in Brooklyn. He spoke in an easy, conversational style, occasionally referring to his notes for facts. The absence of American gentlemen in politics, the lecturer said, was one of the great sources of the wide-spread political corruption that existed all over the country, and as long as men of fine mental culture continued to withhold themselves from politics, so long would that corruption exist. Governor Hawley described in detail the different methods by which the politicians swindle the community. The modern political ring he described as a combination of selfish, bad men formed for their own pecuniary advancement. Sometimes they last from session to session of the legislature; each member of the ring has his part assigned—some to find out who among the legislators are venal and at what price they can be bought. Some of these legislators are so debauched that they are purchased regularly, session after session, at a fixed price. Governor Hawley stated that he knew of his own knowledge that a gentleman, at present a member of the United States Senate, paid $75,000 for his position. The statement that at least 70 per cent. of the Penn. legislature was venal, the lecturer said, he had on the best authority, and this deplorable state of things he attributed to "log-rolling" of large railroad bills. One bill passed at the last session of the Pennsylvania legislature cost $700,000.

Indeed the great railroad kings declared openly that they had given up trying to have their friends elected, as it was easier and shorter to buy the legislature after it had been elected. Governor Hawley concluded by predicting that we were coming to a future of great combinations—a future in which railroad corporations would exercise a greater influence on the destinies of this country than do the aristocracy in England.

THE GRAND BALL tendered the Russian Duke Alexis came off at the Boston Theatre, Friday evening, and was attended by nearly 2000 people. The Theatre was decorated with excellent taste, the flags of Russia and the United States being intertwined. There was a profusion of beautiful flowers at the entrance, which gave forth a fragrance which scented the building. A private box for the Prince was erected at the centre of the balcony and was ornamented in regal magnificence. The arrangements for the supper and for the disposal of clothing were admirable, the only drawback being a neglect to keep persons off the floor who were not dancing. Thus it was that when the first dance was announced, but one set was formed (with the Prince and Mrs. Mayor Gaston at the head,) and that was surrounded by a circle of ladies and gentlemen, all bent on seeing the Russian Prince dance. He was thus placed in a very awkward position, being the cynosure of all eyes and entirely unacquainted with the changes. The balconies were well filled, the ladies being dressed magnificently. Two bands furnished the music for the occasion, one composed of brass and reed instruments, forty pieces, led by P. S. Gilmore, and occupying the south balcony; the other consisting of fifty-five orchestral pieces and led by Carl Zerrahn. The former furnished the dancing music and the latter played between the dances, occupying the north balcony.

The Prince awakened a sentiment in the hearts of all who met him, which partakes of the warmth of personal liking and esteem. He wins his way by the strong simplicity, the earnest manliness and the perfectly quiet and unaffected refinement of his character. To these qualities his face, his bearing and his manners offer abundant testimony. He carries himself like a youth of noble nature as well as name, who has fitted himself for a high career by teaching himself the primal duty of self-restraint. His evident good-nature, not unmixed with a youthful freshness and directness of nature, also commend him; and it was plain to see in the looks and conversation of the guests at the ball that a genial and generous sense of regard for the handsome, straight-forward and kindly young nobleman was the uppermost feeling of the occasion, and lent to it unwonted light, cheerfulness and ease.

Minister Catacazy was in attendance on the grand Duke and attracted general attention, while Mrs. Catacazy, who was not present, was the subject of much conversation, there being a feeling of disappointment at her absence. The press are under obligations to Hon. Geo. B. Upton and Treasurer Wheatland for courtesies extended.

New Hampshire Items.

At the late trial term in Merrimac county, upon an indictment for the sale of liquor, a witness who was the purchaser refused to testify, on the ground that he might thereby criminate himself as procurer of the sale. The case was carried to the full bench on this question, and at the law term now in session the question has been decided, Judge Smith delivering the opinion of the court. It is held that it must have been the intention of the legislature to protect the purchaser in such cases, and to exempt him from punishment for producing or inducing the sale to himself, and that the witness is not, therefore, exempt from testifying. All the judges concurred in the decision.

—The czar of Russia does not intend to furnish an enemy with any offensive weapons if possible. The French railways during the war came back to plague their owners, and were of as much service to the enemy as to the French, as Prussia ran her own cars and locomotives to the very walls of Paris. To prevent this, in the extensive system of railways which the Russian emperor is now building, he uses a different gauge from that of any adjoining country.

—A Bridgeport lady mistook the character of a surprise-party and deposited the refreshments brought by her callers to her pantry. After waiting until 3 A. M. for the customary spread, the party broke up hungry, not quite realizing that it is more blessed to give than to receive.

—A young German of Sheboygan, Michigan, was struck dumb by a frightful dream, induced by reading incidents of Indian life and warfare, just before going to bed.

—Ten thousand dollars have been collected in Peru for the sufferers by the Chicago fire,

—It isn't strange that a man's course should be mazy after indulging in corn whiskey.

$25 Reward.

We are constantly annoyed at complaints from many of our patrons that the CHRONICLE is stolen from their premises. The thieves who abstract these papers from the doorways of their neighbors, if detected, will be made to suffer, and we offer a reward of $25 for such evidence as will result in the conviction of any person guilty of such theft.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

PERSONAL.—We were pleased to receive a call, during the past week, from DR. AYER's traveller, who was in our town devoting his time and attention to the preparations of the great medicine man. This call has become a pleasant annual to us from the able and reliable business character of the accomplished gentlemen whom this firm send out to transact their business. No house is better known or valued by the press for its promptness in settlement than the well established and popular J. C. AYER & Co., Lowell, Mass., whose medicines have become a household necessity, and won the confidence and praise of all. Our own acquaintance with them has extended over a series of years, and we have invariably found them, their travellers and their medicines worthy of the commendations they everywhere receive. — *Jacksonville (Tenn.) Tribune.*

DEATHS.

In Newcastle, Dec. 9, Capt. BENJAMIN AMAZEEN, aged 67 years.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c. —and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, HALF SHEETS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS OF DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

BUSINESS NOTICES.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost *given away.* Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and vim of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

We have often wondered whether there is a person in all New England, who does not know and appreciate the value of *Johnson's Anodyne Liniment* as a family medicine? It is adapted to most all purposes, and is the best pain killer that can be used.

Farmers and stock raisers have frequently told us that they have seen very good results from giving *Sheridan's Cavalry Condition Powders* to cows and swine before and after they drop their young. The powders put them in good condition, and give them strength to care and provide for the sucklings.

SPECIAL NOTICES.

Shocks to the System.

The first shock of winter tells tremendously upon enfeebled systems. Every one knows that in passing from a warm region to a cold one, or vice versa, the body requires as a protection against epidemics, an acclimating medicine. All travellers and voyagers admit this. It is equally necessary to acclimate the system in passing the confines of one season and entering upon another. Autumn is gone and winter is here. Prepare the frame and the constitution to meet the change by a course of HOSTETTER'S STOMACH BITTERS. This inestimable vegetable tonic increases the stamina strength of those who take it, and renders them proof to a great extent against the devitalizing power of cold and damp. These two agents are as prolific of disease as tropical heat and animal vigor—such vigor as this healthful and pure tonic diffuses through the whole organization—is a repellant which they cannot master. A large proportion of the colds, catarrhs, and pulmonary complaints which prevail in winter, might be avoided, by strengthening and regulating the system in advance with this invigorant and alterative. Not that it is recommended as a specific for these complaints, but as a preventive of their causes. On the other hand, it is not only a preventive of, but a specific for the indigestion, intestinal irregularities, malarious fevers, bilious attacks, and nervous affection, superinduced by a chilly and damp atmosphere.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the STAMP.

TABLE SAUCE,

The Best Sauce And Relish

Made in any part of the World

FOR FAMILY USE.

TO BE HAD OF ALL FIRST CLASS GROCERS

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

NEW ADVERTISEMENTS.

MUSIC BOXES! MUSIC BOXES!

Not only the tinkling, sweet-toned little Music Boxes, but larger and larger ones, up to immense instruments that produce sounds as powerful as those of a Pianoforte, and fill a house with melody. Call soon at 33 COURT STREET and select one from the large stock, so that it may

Ayer's Cathartic Pills,

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

Chilled To Death.

Capt. Benjamin Amazeen of Newcastle came to this city to do some marketing on Saturday and while rowing his boat back to Newcastle, about noon, saw a piece of wood floating off "the cape." He reached over the side of the boat to secure it, and losing his balance fell overboard. The wind blew the boat away from him but he sustained himself by an oar until some of his townsmen, three in number, went to rescue. On account of the smallness of their boat they were unable to lift him aboard and were obliged to tow him ashore. Dr. Wm. H. Smart did everything possible to save his life, but Capt. Amazeen was so thoroughly chilled he could not rally and lived only twenty minutes. He was a prominent citizen, very active and strong for a man of his age, (67 years,) and was held in high esteem by his neighbors. He was the father of a large family of children who are among the most respected citizens of Newcastle.

Laconics.

The winter arrangement for the trips of steamer Emerald to and from the Navy Yard has gone into effect. The steamer will leave the Yard for this city at 8, 8:30, 10, A. M., 1:15, 2, 3:30, 4:35, P. M., returning at 8:15, 9, 11:10, A. M., 1:30, 3, 4, 6, P. M. On Saturdays, an extra trip will be made from the Yard at 7.30, returning at 9 P. M. On Sundays, trips will be made from the Yard at 9:40, 10, 12:30; returning at 9:50, 12:15, 12:45.

It may save the trouble of asking one question many times, for our citizens to bear in mind that two mails arrive from Boston every morning—at 10 and 10:30. If one were a post office clerk one would understand that it is rather monotonous to answer the the same question thousands of times.

Charles E. Shedd & Co. are again in the field for the purpose of furnishing "understandings" for the public. Friend Shedd has just put in a new stock of boots and shoes, and offers no shop-worn goods to his customers. Just read the advertisement and give him a call. If he don't suit his patrons it will not be for want of a good stock or lack of attention. His geniality is known of all men and the ladies always declare that they "like to trade with Mr. Shedd." "Quick sales and small profits" is the aim of the firm, as they believe in "turning" their money often.

There are scores of Portsmouth ladies who would have been belles of the grand Alexis ball at Boston. Handsome ladies were there, elegantly clad and charming in conversation, yet they did not come up to the average beauty of our own fair daughters of Portsmouth—which isn't at all disheartening to the Boston belles, and is none too complimentary to our own. We cannot speak so complimentarily of Portsmouth men, however, for the Bostonian masculines are far ahead of them in good looks.

A pitiful sight was the public appearance of two young, drunken women on Congress Street, Saturday,—one being able to propel herself to the Station House in silly glee, while the other, a married woman, was unable to walk, and was half carried between two policemen. We know of no more mournful sight than a woman, drunken and disgraced, carelesss of herself and friends, though her appearance shock even the most hardened wretches of a community.

Our wide-awake young friend, Mr. Plumer D. Norton, has been very ill for several weeks from chills and fever, which he captured in Ohio, during the summer. We are glad to learn that he is convalescent, and hope 'twill be long ere he "shakes" again. We do not know of anything that will discourage a man any quicker than the ague, and quinine, whiskey and chologogue are too distasteful to make regular "meals" of.

Bidwell & Wilkinson's theatrical company played "Nobody's Daughter" to a good audience, Saturday evening, and will bring out "Leah, the Forsaken," with the old favorite, Dollie Bidwell, in the part, this evening. We regret to learn of the decease of Mrs. Thompson, who was a valuable member of the company formerly, taking the "old women" characters. Her place is well filled, however, by Miss Jane Parker, who is a capital actress in that line. Mr. Wallace Britten is a decided acquisition to the company, playing leading parts with great discrimination and tact. Messrs. Bidwell and Wilkinson in again uniting their forces have shown a disposition to put a large array of talent on the stage and bid high for success. We are pleased to learn that Mr. Bidwell has in a great measure recovered from a bronchial attack that at one time threatened his life. Long may be and the genial Wilkinson successfully cater to the public.

Mr. Charles H. Joy is in the business field again, having bought the Grocery stock of Mr. James R. Yenton. Success to him.

Somebody's four wheeled night soil cart lost a wheel at the corner of Pleasant and State Streets, Saturday, and confusion resigned for a time. The neighbors did not relish its proximity and were relieved when it departed. It didn't go all at once, however.

Another change is anounced in the running time of the Concord & Portsmouth Railroad trains. The morning train now leaves this city at five minutes before 8 o'clock, arriving in Manchester at 9.46 and at Concord at 10.35. The evening train leaves here at 15 minutes before 6 o'clock, and arrives at Manchester at 7.40 and Concord at 8.30. The morning train from Concord leaves that city at 7.30, Manchester at 8.15 and is due here at 10.10. The evening down train leaves Concord at 3.35, Manchester at 4.18, and arrives here at ten minutes before 7 o'clock.

Satan Rebuking Sin.

The local Democratic organ recently made a statement which (if true) showed that vote-selling was about the "strongest hold" of the Portsmouth Democracy. We did not feel called upon to deny the statement, supposing that the Democratic editor must know of what kind of stuff his party was composed better than we did; but the Manchester Public Forum of last week contains the following "rebuke"—which we do not copy from any personal interest in the question, for like the woman whose husband was fighting a bear, we "don't care which of 'em licks:"—

"By a careful and accurate canvass it is shown that the actual number of voters in this city is about 1950. Of these nearly 1025 would vote the Democratic ticket if they were not bought by the money of the navy department."

The above is from a local paper in Portsmouth, and the last half of it refers to the Democrats of that city. Our attention has been called to it by a letter from a leading Democrat of Portsmouth, who requests us to "rebuke the slander." The charge amounts to this, that one-third of the Democratic party of Portsmouth are not men of principle and honor, but marketable commodities to be exchanged for "filthy lucre," like sheep and hogs in the shambles. Now we do not accuse the author of this charge of maliciously making it against a third of the Portsmouth Democrats, but we impute it to two causes: First, ignorance of the import and meaning of language, and second, to inexperience, and lack of judgment in editing a newspaper. That there may be a very few men, naturally Democratic, who sell themselves in that city, is probable, but they do not number over a couple dozen all told. The charge that a third of the whole party do this disreputable thing is altogether too steep, and we "rebuke the slander."

The Forum also thinks that Hon. Horton D. Walker's victory in the late election was less due to his popularity than to "the unpopularity and unfitness of the candidate nominated by a very small number of Democrats." [The Forum evidently did not see our local cotemporary's account of the "large and enthusiastic meeting of citizens" by which a candidate was nominated—"whole number of votes, 134."] A man who did not oppose the war for the preservation of the Union won't do for the Portsmouth Democracy. The Forum thinks mud-flinging not always a success, and says:—

But again, it is by no means sure that any Democrat could have been elected after the gross personal attack made by a local paper upon the Radical candidate, caricaturing him with a cut of a grinning, thick-lipped, wooly-headed African nigger. We believe in an open, square, stand up fight, with all the weapons which may be decently and properly brought to bear against an opponent, but not that kind which kill at the breech instead of the muzzle.

"Last of all, Satan came also."

Police Court.

For some weeks past various storekeepers have found that the goods hung at their store doors disappeared in a very mysterious manner. A dead turkey walked off from before the store of J. E. Rider & Son, on Thanksgiving eve, clothes-brooms departed from Geo. H. Hill & Co.'s drug store, and other articles at other places took unto themselves wings and flew away. The police set to work to solve the mystery, and on Saturday two young men, named Charles O. Spinney and George Tighe, were taken into custody by the City Marshal and Assistant Marshal Entwistle. On the way to the station one of the prisoners made a rush for liberty, and a brief but brilliant foot-race between him and Mr. Entwistle resulted, the latter winning. The young culprits were brought before Judge Page in the afternoon, and a variety of charges made against them, as follows:—

The first charge was that they pulled up the river in a boat on the night of Nov. 22, and stole six ducks and two hens, together valued at $7, from Miss Nancy Drew of Newington. The ducks were sold to Mr. George Leach, and the hens were eaten by the thieves,—who were required to find bonds in $500 each to answer at a higher court.

For stealing about a dozen clothes-brooms they were sentenced to pay $9.02 each, fine and costs.

For "unlawfully, by force of arms," etc., removing yarn, comforters and blankets from Mr. Wm. W. Henderson's store on Daniel Street, they were ordered to pay $8.45 each, fine and costs.

A piece of frocking-cloth, "purchased when the owner wasn't there," the owner being Mr. Geo. B. French and the value $10.50, brought down another sentence of $8.45 each on the irregular dealers in poultry and dry goods.

Mr. Charles E. Shedd was patronized by them on the evening of Nov. 25, and forgetting to pay at the time for the woolen shirt they bought from him, they were directed to hand over $7.88 each,—a striking example of the evils of the credit system and of the rapid accumulation of interest.

Another indictment, charging Tighe and Spinney with stealing a turkey on the night of Dec. 29, 1871, was quashed, Judge Page deciding that it did not come within his jurisdiction to try them for an offence alleged to have been committed at a date not yet arrived. It was stated that there were other charges against the irregular dealers, but the foregoing were all that were pressed. The goods recovered were found in Spinney's residence, in drinking saloons where they had been sold, and in other places.

Mrs. Rachel Kehoe was arraigned for drunkenness, and pleaded guilty in a tone which seemed to indicate that she had no doubts on the subject. Sentence, $8.76, fine and costs.

Mrs. Maria Hampshire was charged with being a common drunkard, and pleaded guilty, which plea she was allowed to retract; but the evidence offered satisfied the magistrate that the first plea was correct, and Mrs. Hampshire was sent to the House of Correction for thirty days and to stand committed until the costs, amounting to $9.18, be paid.

THE PORTSMOUTH AND DOVER RAILROAD.—The *Local Record* published at the latter place says:

Through the treachery of its professed friends the Dover & Portsmouth R. R. received its death blow at our City Election. At least four and perhaps five of the Aldermen elected are opposed to loaning the credit of the city to aid in its construction. We regret this the more, that there appeared to be an evident desire on the part of our public spirited citizens of both parties to do whatever laid in their power to forward this much needed work, but the demands of the Boston & Maine proved too much for our weak-kneed advocates of the road, and down they went at the demand of capital and free passes.

Ten days before election we would have wagered our last pleasure that two-thirds of the Board of Aldermen and Common Council who would be elected would favor the Dover and Portsmouth road, but we reckoned with too high an estimate of man's integrity."

—The lady selected to be the wife of Alexis is the Princes Thyra of Denmark. She is an excellent linguist, being able to see her future husband's four languages and go two better.

BOSTON.

LADIES or Gentlemen about to visit Boston,

For Shopping or Trade,

Will find the following list most convenient to cut out for reference. Aside from furnishing a list of leading firms, well known as first-class in their various branches of trade, it gives an index of most of the stores where our patrons will find a familiar or home face, ready and willing to supply their wants at the lowest rates and in the most expeditious manner.

THE CLAIM OF SUPERIORITY
Is often made for
ARTICLES OF GENERAL USE,
But the claimants often find it easier to assert such superiority than to readily prove it by practical tests.

After a long and thorough test of
BOOTS AND SHOES
FASTENED WITH
CABLE SCREW WIRE,
These goods were pronounced by the patentee to be
THE BEST
In the market for Pliability, Durability, and Economy. This claim has received
Full Endorsement
From Manufacturers!
From Dealers!
From Consumers!
Testimonials as to the superiority of this mode of fastening, over either Sewed or Pegged work, have been published by scores in Boston dailies, from leading makers and dealers throughout the country.
Cable Screw Wire goods are peculiarly adapted for our inclement winters, on account of their Waterproof qualities.
Every grade, from the heaviest FISHING, HUNTING, DRIVING, or WALKING BOOT, to a DRESS BOOT or LADIES' SLIPPER, is best made with this most excellent of all fastening.
WARRANTED NOT TO RIP.
EVERY ONE BEARS THE PATENT STAMP.
Sold by all Leading Dealers.

Morning Chronicle.

FRED DOUGLASS ON SAN DOMINGO.—Mr. Douglass, having accompanied the Commissioners who went out to San Domingo, in an unofficial capacity, is making his report to the people, instead of the Government, in the form of a Lyceum Lecture, in which he "puts aside the eloquent opposition of one of the nation's wisest and ablest statesmen on the one hand, and the opinion of the honest, straightforward and trusted President on the other," and considers the subject of annexation geographically, commercially and historically, from a higher and broader plane, and as illustrative of broader social relations and wisdom for its people. Mr. Douglass states that he went to San Domingo without any bias relative to annexation, and he adds his testimony to the entire truthfulness of the report of the Commissioners. His conclusions are, that Latin civilization in the island has been a wretched and utter failure and has reduced a beautiful country to waste; that there is nothing in the climate or soil that makes free labor or free government an impossibility; that while the people were orderly and quiet they had a few rival chieftains who were constantly starting revolutions, and there was no inducement to acquire property. The large majority of the people are in favor of annexation and regard it as their only salvation. Mr. Douglass declares himself also to be heartily in favor of annexation. Because the people had not flourished under Latin civilization is no reason that they would not under the Anglo Saxon, and he thinks the black man would be elevated rather than degraded by sinking this little nationality. Small and weak nationalities, he says, are plainly out of joint with our times, and like a soft-shelled egg rolled among cannon balls, they have no chance.—*Journal.*

INTERNAL REVENUE COMMISSIONER'S REPORT.—The report of the Commissioner of Internal Revenue, just issued, shows that the receipts from all sources for 1871, exclusive of the direct tax upon lands and deposits of National Banks, were $144,011,176. It is estimated that the receipts for the current year, under the present laws, will be $125,000,000. The number of distilleries registered is 8192, including 7149 fruit distilleries, producing 54,576,446 taxable gallons. The receipts from spirits for the year ending June 30, 1871, were $46,281,848. The amount of tax received on fermented liquors at one dollar per barrel was $7,159,740, an increase over the previous year, which is due to the increased attention of the assessors. The receipts from tobacco were $53,578,097, an increase of over two and a quarter millions, which is owing to the effectiveness of the new law requiring stamping before removal from the place of manufacture. He believes a uniform rate of taxation would effectually stop all frauds in the tobacco trade, and recommends taxing tobacco peddlers. He also recommends a special tax of five hundred dollars on all persons selling raw or leaf tobacco to other than manufacturers, or regular dealers, in quantities less than twenty-five pounds. He also recommends the abolition of tobacco-bonded ware-houses. He commends the present style of stamps used, believing them not easily counterfeited. The total amount received from compromised revenue cases during the year was $65,497, and the total value of seizures $915,240. He recommends the abolition of stamps on canned meats, fruits, etc., and requests a Congressional authorization for stamping the large amounts of forfeited tobacco held by the Government in order that it may be sold. Owing to a Congressional omission to authorize the remission of taxes on shipbuilders, he has ordered such taxes to be collected. He recommends the same modifications of Law relative to the collections of taxes, the impositions of fines, etc. The report concludes by stating that 230 accounts of ex-collectors of revenues are still open, 115 of which have been placed in the hands of attorneys for suits against the bondsmen of the delinquents.

—Professor H—— of Yale College was passing out of the recitation room on his crutches, when an ambitious freshman dropped slyly into his cap a piece of paper, on which he had written legibly the word "monkey." Tickled with his joke, he told his success to all his student friends. But a speedy retribution befel him. At the next recitation the bland professor addressed his division thus, in his sweetest tones: "Gentlemen, as I was passing out of the room yesterday, one of your number did me the very high honor of leaving with me his card."

MEAT & PROVISIONS.

THE SUBSCRIBER having purchased the interest of Mr. B. F. MUGRIDGE in the late firm of GRANT & MUGRIDGE, will continue the Meat and Provision Business at the old stand in the Brick Market. Thankful for past favors, would solicit a continuance of the same. JOHN H. GRANT.

Portsmouth, Oct. 23, 1871. o24

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfeb16

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

BANKERS

and Dealers in Government Securities,

No. 5 Nassau Street.

New York, Nov. 20, 1871.

The successful and rapid negotiation of nearly three-fourths of the FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are induced to advance the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:

OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.

Messrs. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:

The Western Division of the Chesapeake and Ohio Railroad, comprising 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the business of local and other business that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonry on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.

In view of these facts, you are hereby directed to make no further sales of the Bonds at said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.

Very respectfully yours,
C. P. HUNTINGTON, *President.*

In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.

The scarcity of, and demand for, really

Desirable six per cent. Gold Bonds,

for solid and permanent investments, is evinced by the facts that

Five-Twenty Bonds of 1867 are selling at...115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at..94

These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.

The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.

The reason why we think CENTRAL PACIFIC BONDS will advance from the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.

The reasons why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.

The Chesapeake & Ohio Bonds are issued either coupon or registered—the denominations are as follows:

$100,	which cost to day.....	$94.13
$500	" " "	471.56
$1000,	" " "	943.12

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or Coupons may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

We buy and sell Government and Central Pacific Bonds, and receive them in exchange for Chesapeake and Ohio Bonds.

Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*

FISK & HATCH,
dec2 *Financial Agents*

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about thirty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most efficient cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

KILLING A TIGER SINGLE-HANDED.—Another instance of the pitcher going once too often to the well has occurred in India. Captain Doig, an infantry officer, had become renowned as a tiger hunter, and the fame of his exploits had even reached Europe. He was supposed to be invincible, had performed almost fabulous feats, and was held by the natives to bear a charmed life. The poor gentleman was, notwithstanding, killed by a tiger early in September. He went out one day and had a brilliant success, slaying a fine tiger single-handed. Four or five days after, news came that another tiger was lurking in the same place, and about six miles from the cantonment. The new arrival at once began to distinguish himself by slaughtering bullocks, and Captain Doig resolved to bring his sport to an end. Unaccompanied, save by his own "shikaries," the hunter repaired to the spot. The savage beast was soon found, and Captain Doig got rather a long shot at him, and felt sure he had hit him in the head. His impression however, was that the tiger had got off into the jungle not much hurt, and that he must beat again for him in a fresh quarter. While preparing to do this, Captain Doig being at the moment alone, the enraged animal suddenly leaped from cover, and in an instant seized his foe and bore him to the earth. Captain Doig afterward said that the onset was so swift that he never even saw the beast until he himself was on the ground, and being, as he expressed it, "calmly eaten." A horrible struggle ensued; the "Shikaries" sprang to the rescue, and the intrepid hunter actually fought himself out of the tiger's clutches, and not only that, but managed to destroy him. The encounter was, neverless, fatal. Captain Doig had the pluck to ride back to the cantonment, being lifted to the saddle for that purpose. But he never recovered from the shock and the frightful laceration he received, and five days after breathed his last. For men who get celebrated for this kind of achievement its pursuit seems to have irresistible fascination, and the sad case of Captain Doig has many precedents.

CURE FOR A FELON.—Is be a thief, hang him! if a sore finger, an exchange says it is a sure cure to put some coals into a pot, throw on these coals a handful each of hops, rye-flour, and brown sugar, and hold the affected part for fifteen minutes in the steam, and repeat it several times. A more certain cure is to bore a hole in the pot lid, stick the finger through, and let it stay there until the finger is burnt off, and that finger will never have a felon more! We warn our readers against paying attention to any newspaper paragraphs in reference to health and disease, unless the name of the writer is attached.

There is a scientific cure for a felon always safe, always efficacious, and relieving instantaneously and always: get a physician to plunge his lancet down to the bone. A natural felon is a born thief; a physiological felon is a boil between the bone and the sinew, or "fascia" as doctors love to talk. When a boil is under the skin only, is it painful enough until it "breaks," that is until the skin divides or bursts and lets out the yellow matter; but when is it remembered that the sinew is as much tougher than the skin as a beef hide is tougher than paper, it is easy to see that the pain of a boil, under the sinew, is more terrible than one under the thin skin, and that it must take longer to make its way through the facia than through the skin; hence, instead of passing many sleepless nights and agonizing days in waiting for the matter to be absorbed, or make its way through the tough tendon, the educated surgeon advises the use of the lancet as above; for the cure is just as certain, and the relief from the agonizing pain is just as instantaneous, as in the case of the extraction of an aching tooth. The cause of a felon is usually a bruise of the finger heavy enough to reach down to the bone and to inflame it.—*Hall's Jour. Health.*

—Rev. Mr. Purchas, the Brighton Ritualist, who was some time ago condemned for having stood or knelt, or done something contrary to the acts of Parliament for the regulation of divine worship, has been cited to pay the costs, which amount to the modest sum of $10,000.

—The Catholic Family Almanac for 1872 estimates the Catholic population in the United States at 5,500,000, with 4800 priests, worshipping in 4250 churches and 1700 chapels and stations.

—The dogs of Algiers, not the place where the soldier of the legion lay dying, but the town on the Mississippi opposite New Orleans, are being rapidly thinned out by a voracious panther.

—It is estimated that the population of Nebraska has been increased 40,000 during the past six months.

—A judgement for $500 was obtained against Ole Bull by Mr. Severini, for breach of contract.

—A billiard cue was used as a weapon by one Nebraska City-zen to kill another.

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION. Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

594 Broadway, N. Y., and 104 South Tenth St., Philadelphia, Pa.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this bad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appear. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE UNEQUALLED PURIFIER OF THE BLOOD and as a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

Dr. Wells' Extract of Jurubeba

is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments. 4w n28

STEAM SAFES

—AGAIN—

TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.

AM. STEAM SAFE CO.:

COLE & LAMBERT, *Managers,*

300 Broadway, N. Y.

Gentlemen:—"The Binghamton Planing Mill and Sash and Blind Factory," together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 7) made by you, and purchased one year ago from Hessre. Paige & Chaffee, Agents, in this city, was in the Planing Mill, and went through the severest part of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds or other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild. Very truly yours,

(Signed,) A. L. HARDING.

Late Proprietor Canal St. Planing Mill, Binghamton.

All Styles of Mercantile and House Safes

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in advising inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability in his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

The Daily Chronicle.

Portsmouth, N. H.

TUESDAY, DECEMBER 12, 1871.

Political.

The New York Herald says, "The spoils involved of twenty or thirty State officers, each equal to four or five hundred dollars a year, are the great thing with these political labor reformers in New Hampshire, and unless the democrats come down to these first principles there will be no trade."

"Nothing remains for the Democracy," remarks the Albany Evening Journal, "but petty and captious warfare upon mere personal grounds, kept up to preserve the semblance of life while going through the process of lingering death."

The Governor-Mayor.

For the past six months our city has had but little of the attention of Mayor Weston. He was elected Governor in June, and since has had his time chiefly engrossed with the affairs of the State, with attending meetings of his Council, exhibitions of schools and academies, agricultural fairs, and public entertainments generally, in different parts of the State, to accommodate his staff, it being so large that it is impossible to get it in one place, without great burden to the railroads!

It was never supposed that he would hold both offices together, but he is a striking illustration of the power of the love of office, and the remark made in reference to office-holders, "*Some die, none resign.*" As a matter of courtesy the Republicans have kept still about it, feeling, as the Democrats have felt, that it was hardly in good taste for Mr. Weston to be so greedy for power. Whether our view be right or not, one thing is very certain, city affairs have suffered immensely the past year in comparison with the other years that Mr. Weston has held the office.—*Manchester Mirror.*

New Hampshire Items.

Among the appropriation recommended to Congress we notice $35,000 for the improvement of navigation in the Cocheco river.

A company has been formed at Littleton, known as the New Hampshire Scythe Company, and a large factory building, 133x45, has been erected. Water-power is to be used.

The residence and out-buildings of Mr. H. M. Elwell, in Langdon, were burned a few evenings since. Loss about $4000.

Mr. Dascomb of Wilton set a trap for rats and in the morning when he opened the trap found he had caged ten. This extraordinary haul of the file-tailed gentry happened in this wise. A lady and gentleman rat were caught during the night; while in the trap Mrs. R. presented Mr. R. with eight little ones. Mother and children are doing well.

Mr. Alonzo Gove of Franklin made a vow when the Republicans came into power, sixteen years ago, that he would not keep Thanksgiving again till appointed by a Democratic Governor. He celebrated this year with sixteen turkeys and sixteen chickens.

On the 5th, in Manchester, James Callahan was standing in a door in the third story of one of the Amoskeag Mills, when the violent wind of that day slammed the door, pitching Callahan to the ground, breaking both ankles, one arm and hurting his back.

A Washington dispatch mentions the names of Hon. J. H. Ela and Hon. Thos. L. Tullock for the office of Fifth Auditor of the Treasury.

TREMENDOUS EXCITEMENT prevailed in Spain on the receipt of President Grant's Message, relating to the Cuban difficulties. The Government has resolved to maintain a firm attitude, and reinforcements of 4000 men, two additional generals, and four ironclads will be immediately dispatched to Cuba. The result of the full Cabinet and Council of Spain, at Madrid, on Cuban affairs has been the sending of an attache to Washington with dispatches to the Spanish Minister. These dispatches contain instructions respecting the attitude of the United States toward Spain in Cuba and are said to refer to the course of the American Government as likely to affect the Alabama Claims in the Geneva Conference by furnishing precedents in favor of the British Government in the cases of the Hornet and Florida. Several interviews were held between the Spanish Foreign Minister and the British Minister at Madrid. Dispatches on the subject also passed between the Cabinets of Madrid, Florence and Berlin, the Spanish Government evidently being engaged in securing the neutrality of the United States in Cuban affairs.

—A negro on trial for murder in Kentucky, sharing the general belief that he would be hung, sold his body to some medical students, who waxed very wroth when their fondly anticipated subject was sentenced to six years imprisonment.

New Publications.

The long expected Christmas number of *The Aldine* has arrived, and right loyally have the publishers kept faith with their subscribers. A volume of itself, there are few holiday books of any price that can compete with the sumptuous elegance of this issue of that remarkable periodical. Of pictures this number contains, some of the very choicest are of the smaller size, while there are nine full page plates.

The gem of the holidays is the *Lady's Almanac* for 1872. It is beautifully printed on tinted paper, and illustrated with fine engravings. It is replete with elevated sentiment in Poetry, Prose and Household Notes. A novel feature of its pages in a "Visit Record," printed in fancy style, for keeping a complete record of all calls and visits made or received during the year. Its blank Memoranda pages will prove of great convenience to the ladies. The work is elegantly bound in cloth, with gilt edged leaves, and is indispensable to every lady's work table. It is sold by book and new-dealers, at 50 cents, and will be mailed, postpaid, by the publisher, George A. Coolidge, office of "Old and New," 143 Washington Street, Boston.

—An explanation is offered of the "shooting flames" and "balls of fire," supposed by some to be disconnected with ordinary ignition, that may deserve consideration. When trees or other green woods are burning, gases are distilled or evolved through the action of the heat. Most of the gas is likely to be carburetted hydrogen, such as is used in streets and houses. This is thrown up until it meets the oxygen of the atmosphere, when it is consumed in the shape of flame. In an ordinary fire, the air has free access to the gas as fast as made, and the gas is consumed at once without rising. But when acres of trees or houses are burning, the air cannot always get into the centre of the mass. In other words, the oxygen of the air is consumed about the edges of the conflagration, or before it has penetrated far into the interior. Hence quantities of carburetted hydrogen escape unconsumed but heated to a very high temperature, and, being wafted by the winds ahead of the fire, may be rods in advance of its bulk, when finally touched off by stray spits of flame or flying fragments. The result is a flash much like that of gunpowder. Frequently during a conflagration, most frequently in a great one, flames are seen flashing high in the air, to appearance quite disconnected with the flames below. This is said to be simply the sudden ignition of a mass of inflammable gas, as it reaches a more abundant supply of oxygen. The explanation is plausible, and at all events looks less visionary than the mysterious electrical hypotheses hazarded by writers in the London Times and Spectator.—*New York Times.*

A CURIOUS CASE.—Mr. Eli Hempsted died a short time since in New Haven from a most singular cause. Some years ago he was attacked with insanity and was sent to the insane retreat in Hartford. While there he pushed a watch key up his nose, and after his recovery informed his physician what he had done. An effort was made to get it out, without success. He left the retreat, and nothing further was done to remove the article, though he occasionally spoke of feeling it. In a year or two he was attacked with a sharp pain at the lower part of the right lung. He suffered from it for some time, when it passed away, and for two years he enjoyed good health. A few weeks ago he went to New Haven with an invoice of produce, and while engaged in lifting barrels was again attacked with pain and bleeding from the lungs. He was taken to his father's house, where in a few days he died. His case was so singular that the physicians made a *post-mortem* examination, when they found the key embedded in the lower part of the lung and surrounded by a lump in a state of mortification. The key had dropped out of the nose through the windpipe into the lung, and had remained there over four years.

HOUSEKEEPING ON A SMALL SCALE.—Within a mile of the city of Concord, on the free-bridge road leading to the "dark plains," is a newly-built miniature house, the dimensions of which are only about ten feet long, eight feet wide, and seven feet high. It has two small windows and a door on the front side, and a stovepipe through the roof is substituted for a chimney. In this diminutive dwelling reside a man and wife, with four children, from six months to six years of age, all of decent appearance, and of at least ordinary intelligence. Probably there is not another instance of such compact housekeeping among Americans out of large cities. The house is situated near a public watering-trough at a turn in a road. The eldest of the children mentioned (a bright little boy) seems to make a business of standing on the top of the trough, and unchecking the horses that come up, thus often receiving a reward of a few cents for his ingenious enterprise.

A VICTIM OF THE REVERE RAILROAD COLLISION.—Mr. S. O. Thayer of Newton after months of intense suffering, during which time his life hung suspended in the balance, has recovered sufficiently to be out once more, with the loss of some of the bones of his hands, the sight of one eye, and a general injury to the system, from which he will probably never recover. Under such circumstances the railroad company will be obliged to pay heavy damages.—*Newton Journal.*

THE BILL introduced in the Senate by Senator Cragin provides stringent means for the execution of the law against polygamy and incestuous cohabitation in Utah; for a reorganization of the Territorial militia, and the suppression of the so-called legislature of Deseret.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY-LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

BUSINESS NOTICES.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost *given away.* Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and vim of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

We have often wondered whether there is a person in all New England, who does not know and appreciate the value of *Johnson's Anodyne Liniment* as a family medicine? It is adapted to most all purposes, and is the best pain killer that can be used.

Farmers and stock raisers have frequently told us that they have seen very good results from giving *Sheridan's Cavalry Condition Powders* to cows and swine before and after they drop their young. The powders put them in good condition, and give them strength to care and provide for the suckling.

SPECIAL NOTICES.

Shocks to the System.

The first shock of winter tells tremendously upon enfeebled systems. Every one knows that in passing from a warm region to a cold one, or *vice versa*, the body requires as a protection against epidemics, an acclimating medicine. All travelers and voyagers admit this. It is equally necessary to acclimate the system in passing the confines of one season and entering upon another. Autumn is gone and winter is here. Prepare the frame and the constitution to meet the change by a course of HOSTETTER'S STOMACH BITTERS. This inestimable vegetable tonic increases the staminal strength of those who take it, and renders them proof to a great extent against the devitalizing power of cold and damp. These two agents are as prolific of disease as tropical heat, and animal vigor—such vigor as this healthful and pure tonic diffuses through the whole organization—is a repellant which they cannot master. A large proportion of the colds, catarrhs, and pulmonary complaints which prevail in winter, might be avoided, by strengthening and regulating the system in advance with this invigorant and alterative. Not that it is recommended as a specific for those complaints, but as a preventive of their causes. On the other hand, it is not only a preventive of, but a specific for indigestion, intestinal irregularities, malarious fevers, bilious attacks, and nervous affection, superinduced by a chilly and damp atmosphere.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 15 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater; they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

HALFORD

LEICESTERSHIRE

TABLE SAUCE,

The Best Sauce And Relish

Made in any part of the World

FOR FAMILY USE.

TO BE HAD OF ALL FIRST CLASS GROCERS

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

AN IMPORTANT CHANGE in the French government is announced to take place immediately. M. Thiers, it is said, will relinquish the presidency in favor of the Duc d'Aumale, on account of the immense pressure against him on the part of the members of the right, and his fear of the imperialists in the army.

NEW ADVERTISEMENTS.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or points—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the, good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHING

IN THE MARKET,

All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.

Laconics.

The second dance in the subscription course of assemblies comes off this evening, and subscribers are notified to be in Congress Hall at an early hour if they intend to join the Grand March, which will commence promptly at 8 o'clock.

The publishers of the "Congress Gazette" doubtless mean well in publishing an account of imaginary conversations with people about town, for advertising purposes, but if they have due regard for the feelings of others they should hesitate ere they print matter that may tend to ridicule their friends, some of whom may not relish the cheap notoriety thus gained.

The Middle Street Church was well filled Sunday evening to listen to a repetition of the Thanksgiving sermon of the pastor. The Unitarian congregation was also large in numbers, the lecture of Rev. Mr. DeNormandie being a plea for the banishment of melancholy among professed Christians and for triumphant victory over one's own self. The singing and organ playing were very fine and were listened to with pleasure.

Our local Democratic cotemporary is enlarged to six columns per page. It is the best printed and meanest edited paper in New Hampshire, and we hope for the jolly Guppy a future of prosperity and success and to his partner confusion pecuniarily and—mentally, we were near adding, but mental confusion has evertaken him already.

Mr. Henry Goddard, who died in Portland last week, at the age of 86 years, was born in this city, Nov. 23, 1785, being the second son of John and Susanna Goddard. His father was a surgeon, and was twice captured on board an armed vessel, and upon being released settled in Portsmouth. Henry Goddard was a hardware merchant in Portsmouth, and moved to Portland in 1820, continuing in business there until 1867. He never would accept any public office. He married in April, 1810, Elizabeth, the daughter of John Atkane Payson, postmaster of Portsmouth. She died February 15, 1864. They had four children—the late Col. John Goddard, the widely known lumber merchant; Elizabeth, wife of Hon. W. W. Thomas; Mary, unmarried; Henry Warren, now at China, Maine, and Hon. Charles W., the recent Judge of the Superior Court, and now Postmaster of Portland. For fifty years Mr. Goddard was a member of the North Church of this city.

Smelt fishing on Great Bay has commenced with good success. It is reported that on Saturday last one person caught 200 pounds, the largest catch on record. They are sent to the Boston market and on the first of the season a handsome income is realized. Large quantities are seined from the Kennebec and soon glut the market, bringing the price down so low that our fishermen hardly get a living from their arduous efforts. There is no doubt the large numbers which are sometimes wastefully seined from the Kennebec affect the fishing on Great Bay, as during some winters the fishing there is very light.

Mr. Samuel F. Cobb, formerly of this city, who removed to Portland shortly after the great fire there, has removed his stock of musical and fancy goods to Bangor, the opening of the North American & European Railway offering additional advantages to traders.

An encouraging feature of the times is the prevailing interest and study given to the manner of dress; to protect the body against the sudden changes of our variable climate, and insure comfort as well as better health. In connection with the use of flannel, a comparatively new article of underwear has been adopted, made of chamois skins, and perforated to allow the moisture of the body to escape. These garments are very extensively manufactured, and merit the attention of those who would protect themselves against colds, rheumatism, neuralgia, and kindred diseases. They are light, warm, pleasant to wear, and very durable. Worn over flannel, and next to the outer clothing, they enable the wearer to dispense with cumbersome, heavy garments; and at the same time afford complete protection against chilling winds, besides keeping the body in a uniform temperature. They can be worn throughout the season without cleansing, and being sold at moderate prices, they meet with ready sale throughout the country. Wm. P. Walker has them for sale.

The course of assemblies under the management of Mr. J. G. Anthoine closes this evening with a dance in Irving Hall, having been entirely successful all through. The company will be large and they will have a good time.

The local Democratic organ, referring to the Manchester Public Forum's "rebuke," says: "Knaves and fools often agree in hating and abusing those who receive the applause of the public." We are quite willing to accept our local cotemporary as an authority in the matter,—he should know, if any one should; and we never heard that he and the individual who now edits the Public Forum disagreed on the question of hating and abusing anybody, during their long connection as editors of the Portsmouth copperhead organ. But doesn't William take a very roundabout method of calling his former associate, with whom he always seemed to "agree" so well, a knave?

Capt. E. G. Adams comes to the rescue of the juveniles with a tempting array of holiday gifts at his news depot in Congress Block, and children of a larger growth will find choice articles for friendly remembrance at the same place.

Mr. Thomas S. Gay of this city has been appointed sailmaker at the Charlestown Navy Yard.

—We *smile* and pass on.—*Local Democratic Organ.*

True for once. But wouldn't the barkeeper prefer cash?

Shocking Accident.

Mr. Brackett Hayes of Newmarket, who has been at work as a laborer for the Eastern Railroad corporation at Hale's Point, was run over and instantly killed Monday morning at 10 o'clock by the down train from Boston. He had been at work shoveling dirt, and as the train crossed Creek bridge was walking down the track just above the Rockingham Mills, eating an apple and apparently in deep meditation. The engine was detached as usual from the train and thundered by him at increased speed. Mr. Hayes kept on for a few feet and then stepped on the track just as the train was close upon him, probably not hearing its approach. The baggage-master, standing on the car platform saw his extreme danger and shouted to him. The unfortunate man turned about and seeing the baggage car so near endeavored to jump from the track, but it was too late. The car struck him, rolled him along several feet and then went over him, killing him instantly. Every part of his body was sadly mutilated, it being twisted out of shape and reduced to a mass of broken bones and flesh, the head alone remaining comparatively uninjured. One leg was completely severed, the other nearly so, and both arms were broken in several places.

It was deemed unnecessary to hold an inquest, no blame being attached to the railroad employees. We hear it stated that Mr. Hayes leaves a wife and one child in Newmarket and has a brother and sister in this city. He was about 46 years of age.

$25 Reward.

We are constantly annoyed at complaints from many of our patrons that the CHRONICLE is stolen from their premises. The thieves who abstract these papers from the doorways of their neighbors, if detected, will be made to suffer, and we offer a reward of $25 for such evidence as will result in the conviction of any person guilty of such theft.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

MARRIAGES.

At Boston Highlands, Nov. 30th, by Rev. C. C. Carpenter, Mr. CHARLES F. BARKER of Salem and Miss AMY H. BATCHELDER of Boston Highlands.

ARE YOU GOING TO PAINT?
—IF SO, USE THE—
AVERILL CHEMICAL PAINT.
It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years. Also, Averill's Roofing, hot suds without injuring it. It is excellent for walls inside, in the place of paper.
I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.
I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the
AVERILL CHEMICAL PAINTS,
in the City. Also Dealer in

Ayer's Cathartic Pills,
For all the purposes of a Family Physic,
CURING
Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,
Are the most congenial purgative yet perfected. These effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure and relieve the very dangerous complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and the best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

AYER'S HAIR VIGOR.
FOR RESTORING GRAY HAIR
TO ITS NATURAL VITALITY AND COLOR.
Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER's consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the glossy and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.
As an elegant dressing for beautifying the Hair, it has no superior.
PREPARED BY

VERY CHEAP, at MASON'S POPULAR STORE. d4

Morning Chronicle.

INSANE ASYLUMS.—Now I come to insanity, and I am ashamed to express the disgust I feel for the insane code of Massachusetts; and we are ahead of all other States in the Union! Said a Belgian doctor to a committee of the Massachusetts legislature, "When a man differs from us in opinion we call him odd; in your country you call him mad;" and if any of you ever expect to express any strange opinions, you had better look to the insane code and see that you are not thrown into jail. There is not a hospital in Massachusetts; they are all jails; you can commit anybody there without a reference. You cannot take that poor Irish washwoman out of her room without an oath. She cannot be imprisoned without the privilege of obtaining bail, and she must be brought before a judge; but you can take any of your friends, and especially if she be your wife, and you can select your own doctors and place her in any asylum you choose without coming within a hundred miles of a court-room.

A man in this State was sued for a divorce. Within a week his wife was taken away from her home and incarcerated in an insane asylum. Her mother was refused admittance to her. Her sister and her brother could not have any communication with her; so she remained shut up for nine months. Then she succeeded in making known her situation by writing on leaves torn from books, and thrown out from the carriage when riding or from the window. Then she was removed from the asylum, and instituted a suit against her husband, and for four long years never saw a judge. A man may murder another on State street, and he is arrested. He cannot be denied counsel even for twenty-four hours, and he must be brought before a judge. But the courts are the laziest institutions in the United States, and the lawyers who pretend to be the busiest are the laziest men. We all know what the departments at Washington are, and compared with courts they are furiously active. Once enter that interminable mill, and you may never see a judge. That woman heard that her child, a girl of eleven years, was dying, and offered to withdraw all proceedings against him if only she might see her child which was in his power. He refused, and the child died and was buried, and she never saw it. No sooner was one case ready for trial than it was dropped, and a new one instituted, and to this day she has never seen a judge.

In England the doctrine is that no insane person can be arrested unless dangerous. No man can be imprisoned unless the head of the asylum summons the royal commissioner within twenty-four hours, an unbiased man, to see if he is really mad. In Massachusetts how different! A lady came to me and said: "I am my husband's second wife; his daughters do not like me. When his daughters wish to pay him a visit I am sent to the insane asylum. When their visit is finished I return and assume my former position as head of the family." A man imprisoned his wife in an Illinois asylum. After eleven months the twelve trustees really found out that she was not insane, and the husband brought her to Massachusetts where she was placed in an asylum.

What a paradise for troubled husbands are the insane asylums of Massachusetts! What a paradise for troubled fathers and mothers that have sons who are not to be seen in the streets! There is no magistrate to reach you, no law to baulk you; you have only to set in motion the idiot laws of your legislature, which no asylum in the State is insane enough to enact. Sydney Smith once said that a joke could be got into a Scotchman's head only by a surgical operation. I don't think an idea could be got into the heads of the doctors of insanity in this State without trepanning.

You talk of the Ku-Klux; why, it sits in your legislature. You talk of the atrocities of the commune; of twenty-five thousand who were tried only five were found to have set fire to a building. Of the score of men over insane asylums in this State nineteen have made mad more than they ever cured; who have ever made themselves the tools of others and machines of relatives.

We must bring our insane asylums within the girth of the nineteenth century. We must make our insane doctors study Blackstone; and until then Massachusetts will never be a decent State to live in. A few years ago, this very community threatened with an insane asylum men who had strange ideas about the right of owning human flesh and blood. General courtesy only saved them from that fate.—*Wendell Phillips' Lecture.*

AMONG the good sayings of Oliver Wendell Holmes in the January Atlantic we find the following:—

"Don't talk, thinking you are going to find out your neighbor, for you won't do it, but talk to find out yourself. There is more of you—and less of you, in spots, very likely than you know."

"The idea of a man's 'interviewing' himself is rather odd, to be sure. But then that is what we are all of us doing every day. I talk half the time to find out my own thoughts, as a school-boy turns his pockets inside out to see what is in them."

"You can't keep a dead level long, if you burn everything down flat to make it. Why, bless your soul, if all the cities of the world were reduced to ashes, you'd have a new set of millionaires in a couple of years or so, out of the trade in potash."

—A railroad conductor says he did not vote for Pitman last month because he was afraid he might prohibit the use of ticket punches. Pitman was the Prohibitory candidate for Governor of Massachusetts.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and garried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. lyrdawf8t6

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

BANKERS

and Dealers in Government Securities,

No. 5 Nassau Street,

New York, Nov. 20, 1871.

The successful and rapid negotiation of nearly three-fourths of the FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:

OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.

MESSRS. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R.Co.:
Gentlemen:

The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting the Company's facilities. Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successfully operated. The grading and masonary on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is completed, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.

In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than the accrued interest, at which price you will continue to sell until further orders.

Very respectfully yours,

C. P. HUNTINGTON, *President.*

In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued Interest.

The capacity of, and demand for, really

Reliable six per cent. Gold Bonds,

for solid and permanent investments, is evinced by the facts that

Five-Twenty Bonds of 1867 are selling at.....115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at..94

These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.

The reason why FIVE-TWENTY BONDS are so high is because they are the largest, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.

The reason why we think CENTRAL PACIFIC BONDS will in time advance to the price of Five-Twenties, is because no more can be issued; while the operations of the Sinking Fund will soon commence to decrease the amount.

The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.

The Chesapeake & Ohio Bonds are issued either coupon or registered—the denominations are as follows:

$100,	which cost to day.....	$94.13
$500	" " " "	471.56
$1000,	" " " "	943.12

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

We buy and sell Government and Central Pacific Bonds, and receive them in exchange for Chesapeake and Ohio Bonds.

Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*

FISK & HATCH,

Financial Agents

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really rolled back these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

PACIFIC MAIL STEAMSHIP CO.'S THROUGH LINE TO CALIFORNIA, CHINA AND JAPAN,

Touching at Mexican Ports and carrying U. S. Mail

FARES GREATLY REDUCED.

One of the large and splendid Steamships of this Line will leave Pier No. 42, North River, foot of Canal St., New York, at 12 o'clock M., on the 15th and 30th of every month, (except when those dates fall on Sunday, and then on the preceding Saturday,) for ASPINWALL, connecting via Panama Railway with one of the Company's Steamships from Panama for SAN FRANCISCO, touching at MAZATLAN.

All departures connect at PANAMA with Steamers for SOUTH PACIFIC and CENTRAL AMERICAN ports. Departure of 15th, touches at Kingston, Jamaica.

For Japan and China, Steamer leaves San Francisco first of every month, except when it falls on Sunday, then on the day preceding.

One Hundred Pounds of Baggage allowed each adult. Baggage masters accompany baggage through, and attend to ladies and children without make protectors. Baggage received on the dock the day before sailing, from steamboats, railroads and passengers who prefer to send down early. An experienced surgeon on board. Medicine and attendance free.

For freight or Passage Tickets or further information apply at the Company's ticket office, on the Wharf, FOOT OF CANAL ST., NORTH RIVER, NEW YORK, or P. R. BABY, Agent; or to the Agents for New England, C. L. BARTLETT & CO., 16 Broad street, BOSTON.

Portsmouth Daily Chronicle.

ESTABLISHED 1863. | MARSTON & FREEMAN, PROPRIETORS. | GEO. W. MARSTON. I. P. MILLER, EDITORS.

$6 per Year, in Advance. | PORTSMOUTH, N. H., WEDNESDAY, DECEMBER 13, 1871. | 5 Cts. Per Copy.

The Chronicle.

EXTRACT OF "JOHN."—Then we stopped for grub, and I can swear that I saw a man sell slices sawed off a policeman's club for Bologna sausage sandwiches, and I was served with a piece of the steak old John Rogers was burned at, and it was burned ten per cent. worse than he was, and tougher than a barbolled pump handle on toast. The proprietor asked me if I had been served? I told him yes, I had been served darned meanly.

When I got into the cars again the Millerite observed, "the pen is mightier than the sword." I told him that wasn't the case with a hog pen. Then we communed among the grass crop. He said he was much troubled with ground hogs. "So am I," said I; "where I board we are annoyed to death with 'em all winter."

"Why," said he "do you have ground hogs in York?"

"Yes," said I, "lots of 'em; we call 'em sassages."

For the space of five minutes he bowed his head and wept."

NEW USE FOR FRESH EGGS.—A gentleman of intelligence and close observation recently made to us some interesting statements in regard to the value of fresh eggs in affording nourishment to weak animals, that are worth remembering by all farmers. He remarked that he had known a young colt which to all appearances was nearly dead, the breath of life being barely perceptible, to be quite instantly revived by giving it one or two fresh eggs. The same results, in several cases to which he was knowing, have followed the administering of eggs to weak calves, and also to feeble and chilled lambs. A remedy so simple, so easy at hand and so effectual in the cases mentioned—which often occur with calves and lambs—should be remembered by all our readers.—*Maine Farmer.*

THEY READ BUT DON'T PAY.—It not unfrequently occurs when persons are asked if they will subscribe for a local newspaper, or if they already take it, that they reply: "No, but neighbor B. takes it, and I have the reading of it every week." They are benefitted every week by the toils, perplexities, and expenditures of those who receive nothing from them in return.—*Exchange.*

—The Kennebeck Journal tells a story of a badgered witness in a Maine court. He was an old gentleman who had suffered more than any one else at the hands of the prisoner, who were on trial for assault and abuse. On cross-examination the counsel for the prisoners asked him as to what the assaulting party said to him as he approached the house, on learning that the peace and quiet of his home had been disturbed. "Hey?" inquired the old man of the attorney for the prisoners. "What was said to you as you approached the house, by the alleged assailants?" "They didn't say nothin' tall to me—never opened their heads—all they done was to tell me, that me, they'd just knock the spots off of me, and trample me under their feet, and kill me! That's all the threats or anything of the kind that I heered!"

—The domestic bliss of Mr. M. R. Bliss of Utah was interrupted by a Mormon missionary, who converted Mrs. Bliss and took advantage of her husband's temporary absence to flee with her toward the abode of the saints. Bliss made chase and overtook the pair, but the Mormon had the best horse and got away. He wanted to interview that Mormon, but as for his wife he merely made her give up a watch and some money which she had taken from his trunk, and then told her to depart in peace. The Mormon would have departed in pieces.

—Our major, says an old Mexican volunteer, had very long feet, and also a horse that threw every one but the major. One evening the major's servant was out on the parade ground with the horse, and, as usual, got thrown off, when one of the boys spoke up and said: "I know why the horse don't throw the major!" "Why?" was asked by a dozen or more. "Well, you see, the major's got such long feet that the horse thinks he is in shafts."—*Mobile Register.*

—When a negro jury in Mississippi went out to deliberate, one juror asked another, "Is dis a hanging case?" "To be sure, nigger," was the answer. "Well," said the first juror, "dis nigger heerd one dem lawyers say dat boy's goss comin' back here and hant us if we hang him. I no go for hanging, and have dat boy's goss follerme! No, sir." Verdict of manslaughter.

—A young Detroit girl had her lover before a police justice the other day on a charge of misbehavior. The official remarked, "You are old enough to know better yourself." "I have heard," replied the damaged damsel, "that where ignorance is bliss 'tis folly to be wise."

—The winter has begun at Paris with an extremely cold spell. Saturday the Seine was frozen over, and the thermometer indicated nearly seven degrees below zero.

—Alexis is very fond of travelling; in fact he is never contented unless he is Roman-off somewhere.

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Disease of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Disease, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION.
Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S
EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The counenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequence.

HELMBOLD'S
Fluid Extract of Buchu.

There is no time like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are miserable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTERNAL ORGANS, DIFFICULTY OF DIGESTION, DYSPEPSIA, DIARRHEA, DYSENTERY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

Dr. Wells' Extract of Jurubeba

is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system: it gives health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments. 4w n28

STEAM SAFES
AGAIN
TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.
AM. STEAM SAFE CO.,
COLE & LAMBERT, Managers,
300 Broadway, N. Y.

Gentlemen:—"The Binghamton Planing Mill and Sash and Blind Factory," together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 7) made by you, and purchased one year ago from Messrs. Falge & Chaffee, Agents, in this city, was in the Planing Mill, and went through the severest part of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild. Very truly yours,

(Signed,) A. L. HARDING,
Late Proprietor Canal St. Planing Mill, Binghamton.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
No. 75 STATE ST., OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay thereby, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable* and *reliable* of the profession I have had official intercourse with." CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a more *skillful* and *trustworthy* and more capable of putting their applications in form to secure for them an early and favorable hearing at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me over THIRTY patents for Permits, having been successful in almost every case. I take this occasion to bear proof of great talent and ability on his part in advise to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

The Daily Chronicle.

Portsmouth, N. H.

WEDNESDAY, DECEMBER 13, 1871.

Congress.

Senate.—On the 11th, the general amnesty bill from the House was reported from the committee, and its passage recommended.

Mr. Ramsay introduced a bill to establish the Territory of Ojibway, and to provide a temporary government there. The proposed Territory lies between the 46th and 49th parallels, extending from Minnesota to Montana.

Mr. Howe introduced a bill for refunding the taxes on dividends, interest and profit, earned or added to the surplus named in section 15 of the act of July 4, 1870, during the last five months of 1870.

House.—The concurrent resolution for the adjournment of Congress from December 21 to January 8 was adopted.

Mr. Banks presented bills to carry out the treaty of Washington, to prohibit Americans owning slaves, and for a colossal statue of Farragut.

Political.

Mayor Kelley was re-elected at Newburyport, Monday, there being no opposition to him. The city government is Democratic.

Mayor Gaston, Democrat, was re-elected in Boston by 3634 plurality. The Board of Aldermen will consist of seven Republicans, five Democrats; the Common Council of 35 Republicans, 29 Democrats.

Hon. Wm. H. Kent is re-elected Mayor of Charlestown, Mass.

Hon. James N. Buffum is elected Mayor of Lynn by 331 majority.

Hon. S. G. Peabody, Republican, has 427 majority for Mayor of Lowell.

Hon. George F. Verry, citizens' candidate, has 2118 majority for Mayor of Springfield.

The Golden Age, speaking of reformatories, says: "The Inebriate Asylum on Wards Island is merely a rendezvous for the demoralized friends of Tammany politicians, and a natural and needed appendage to the American Club."

Citizens Deprived of Suffrage.—There are in the States and Territories 8,433,475 male citizens over twenty-one years of age, of whom 43,329 are deprived of the right of suffrage for causes other than crime or rebellion. The figures in five of the New England States are given in the following table:—

	Male Citizens.	Deprived of suffrage.
Maine,	123,160	510
New Hampshire,	83,361	669
Vermont,	74,267	167
Massachusetts,	312,710	1230
Rhode Island,	43,796	2535

New York has 984,255 voters, and only 469 male citizens deprived of suffrage for the causes specified.

The Trouble about reading the Bible in the public school at Hunter's Point, Long Island, has at last come to an end, and peace is restored by a compromise. The Bible is to be read as usual, but Catholic children are to be allowed to remain in the recitation-rooms so that they may not necessarily listen to the reading. The expelled pupils are to be received back. The pupils who had been arrested were discharged without opposition.

A Hard Case.—The explosion of a coal oil lamp caused a fire in a dwelling in Philadelphia, in which the body of a man who died with the small-pox was consumed. A mother and three children were turned out of the house and the neighbors refused them shelter for fear of infection. They were subsequently conveyed to the station house.

—"Mack," of the Chicago Republican, is jocose under his misfortunes. In pointing out the difference between Theodore Thomas' fugacious fiddlers and Nero, he explains that one fiddled while Rome burned, and the others roamed while the fiddles burned.

—An undertaker in a Connecticut town recently refused the use of his hearse because the coffin for the deceased had been purchased in Hartford instead of him and a note from the selectmen was necessary before he would yield.

—Think of the agony of the Lewiston man who got up before daylight, built a fire and put a new silk hat upon the stove in place of the tea-kettle, and did not find out his mistake until it was burned to a crisp.

—A gentleman on being introduced to a young lady addressed her as follows: "Where do you live when you are at home?" to which she promptly replied, "When I am at home I live there."

—An Oswego brakeman went to sleep in church, and electrified the deacon who took up the collection by remarking, drowsily, "That's all right; I work on this road."—*Exchange.*

—The cholera is raging with great fatality among the natives of Lucknow and vicinity.

New Publications.

The Hoosier School-Master, by Edward Eggleston, now drawing to a close as a serial in that excellent family paper, Hearth & Home, is to be issued immediately by Orange Judd & Co., New York, at $1.25 per copy. The book will be bound in fine cloth and printed on heavy paper, and will contain twelve full-page illustrations on tinted paper and many smaller cuts, designed by Frank Beard. The story has attracted great attention as a serial; the characters are lifelike, the interest in their doings constantly increases, and the chapters are full of quaint humor and vivid descriptions. We predict for the "Hoosier School-Master" a wide popularity,—more especially if "Pete Jones" and "Dr. Small" are hung or sent to the penitentiary for life, as their numerous enemies among the readers of the story hope.

Ballou's Magazine for January is just issued and contains a complete collection of stories, romances, poems, engravings, and useful information; we do not wonder that the magazine is popular. The January number contains: A New Year's Vision, The Charge of the Light Brigade, The Shining Mark, Light and Shade, Miss Bowlesby's Legacy, The Frost Fairies, What the New Year brought for Lucy Campbell, The Old and New Year, The Fugitive Slave, The Rio Topaz and many other articles. $1.50 per year. Thomes & Talbot, publishers, 63 Congress Street, Boston.

The Golden Age, Mr. Theodore Tilton's paper, commences its second volume with the New Year. During the ten months since it was started it has cost us many hours of valuable time, and has more than once made us "get mad"—for a man must be very hard to suit when he can't find something to get mad about in the Golden Age occasionally—and we propose to read it (if we both live) through the coming year. Mr. Tilton always knows what he wishes to say and how to say it in the fewest words, and always *does* say it with a supreme disregard of mere expediency and momentary popularity. Of polished sarcasm, keen wit and genuine humor, the Golden Age uses more in a single issue than the professedly "comic papers" do in a whole year, and if some of our own pet prejudices once in a while come in for a share of the raps, we are enabled to exercise a noble forbearance when we see how much more heavily opponents get rapped from the same quarter. In the last number Mr. Tilton says:

During the past year, we have sent The Golden Age to every editor, without exception, who has dropped us a line asking for it. But there are more than five thousand journals in the United States, and to send The Golden Age to all these would cost us well-nigh ten thousand dollars a year. This expense (since we hold no Tammany or other federal office) we cannot afford. So, for the coming year, we propose to capitulate to our professional brethren in the country only on the following terms:

First, we will send The Golden Age in exchange on receipt of one dollar; or

Second, we will send it free to any Editor who will ask one of his friends to become our subscriber, remitting three dollars; or

Third, we will send it on receipt of a marked copy containing our advertisement, entitled "Second volume of The Golden Age," which appears in this issue; or

Fourth, we will send it in return for a first-rate editorial notice—that last infirmity of newspaper minds; such a notice, we mean, as shall not be (on the one hand) so flattering as to make us proud in our own eyes, nor (on the other) so black-and-blue as to be more than moderately scurrilous and abusive.

If any editor cannot accept either of these four propositions, but thinks they are all unfair, and will state his objections in his own paper, and will honestly say therein that he wants The Golden Age and cannot do without it, he shall have it on his own terms.

All the above conditions we scout. We shall not send Mr. Tilton one dollar, as we intend shortly to purchase a new hat, and want the dollar ourself; we shall not ask our friends to subscribe for the Golden Age, as we presume they all have wit enough to do so without being asked; the advertisement is too long, and we neither feel inclined to flatter or abuse the editor. Our terms of exchange are the same as those of the South Sea islanders, "changee for changes"—the Chronicle for the Golden Age. We are as independent as even Mr. Tilton; and if he won't accede to our terms, but strikes us from his exchange list,—why, let him; he can't prevent us from having his paper, for we'll subscribe.

—The city of Salem has contracted with a Baltimore firm for 50,000 bushels of oyster shells for use in repairing the streets.

—A pleasant fall—to fall heir to a fortune.

—"Breath of elephant" color is suggested.

Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

BUSINESS NOTICES.

Rare Chance.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost *given away*. Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

To Those who are Bowed Down by nervous Debility, and despair of ever recovering the vigor and mien of manhood we earnestly recommend Dr. Walker's California Vinegar Bitters. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

We have often wondered whether there is a person in all New England, who does not know and appreciate the value of *Johnson's Anodyne Liniment* as a family medicine? It is adapted to most all purposes, and is the best pain killer that can be used.

Farmers and stock raisers have frequently told us that they have seen very good results from giving *Sheridan's Cavalry Condition Powders* to cows and swine before and after they drop their young. The powders put them in good condition, and give them strength to care and provide for the sucklings.

SPECIAL NOTICES.

Shocks to the System.

The first shock of winter tells tremendously upon enfeebled systems. Every one knows that in passing from a warm region to a cold one, or *vice versa*, the body requires as a protection against epidemics, an acclimating medicine. All travellers and voyagers admit this. It is equally necessary to acclimate the system in passing the confines of one season and entering upon another. Autumn is gone and winter is here. Prepare the frame and the constitution to meet the change by a course of HOSTETTER'S STOMACH BITTERS. This inestimable vegetable tonic increases the staminal strength of those who take it, and renders them proof to a great extent against the devitalizing power of cold and damp. These two agents are as prolific of disease as tropical heat, and animal vigor—such vigor as this healthful and pure tonic diffuses through the whole organization—is a repellant which they cannot master. A large proportion of the colds, catarrhs, and pulmonary complaints which prevail in winter, might be avoided, by strengthening and regulating the system in advance with this invigorant and alterative. Not that it is recommended as a specific for those complaints, but as a preventive of their causes. On the other hand, it is not only a preventive of, but a specific for the indigestion, intestinal irregularities, malarious fevers, bilious attacks, and nervous affection, superinduced by a chilly and damp atmosphere.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces Immediately a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER.—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER.—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

d130 **Sold by Dealers Everywhere.**

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

—A Texas paper says: "We have been asked why we stopped publishing the list of marriage licenses issued by the clerk. Because a great big stand-up-in-the-mud out there in the sand hills said we published his daughter as married when she weren't, and that he would hit us on the head hard enough to knock our ankles out of joint for it. Is the explanation satisfactory?"

RICHARDSON'S NEW METHOD

FOR THE PIANO-FORTE.

This well-proved Method has been 12 years before the public. Carefully prepared, and highly recommended at the outset, it has steadily increased in public favor, until, some years since, it fairly reached *the highest* position, and seems likely to retain it for a long time.

Annual Sale,.....25,000 *Copies.*

Commencing to take lessons, now-a-days, and purchasing a "Richardson's" are very apt to be cotemporaneous events.

Price, $3.75. Sent, post-paid, for the retail price.

Laconics.

H. B. Buzzell & Co., at No. 14 Pleasant Street, have a famous stock of Christmas gifts for fond parents to bestow on children. The store has a holiday appearance and trinkets of all kinds are abundant. Dolls, carriages, horses, whips, games, jumping jacks, picture books, marbles and all the toys that can be named are gathered under the wing of Santa Claus. Take the little ones in to see the enchanting array and delight them by purchasing some of the nice playthings offered for sale. There is variety enough for all tastes and the bland proprietors will be glad to show the curiosities to their many patrons. Remember the children in these days.

A friend denies the statement which we copied from Hall's Journal of Health, that there is no cure for a felon except the lancet. He says that a citizen of Portsmouth had a felon on a finger and after losing one night's sleep by it was induced to put the finger in a lemon. The following night was a season of sleep and the pain was removed when daylight came. Since then he has had no trouble with the felon. Will Dr. Hall favor us with an explanation of this marvellous cure?

Mr. J. B. Frost is canvassing this city and vicinity for the "Christian Union," of which Henry Ward Beecher is editor. The paper he solicits subscriptions for is to be enlarged to 24 pages in January, is finely printed and comes cut and stitched, ready for binding. As an extra inducement, Mr. Frost offers two charming French oil chromos, "Wide Awake" and "Fast Asleep," to all who subscribe for the "Christian Union," the total cost being but $3.25 for 1872. These chromos are works of rare merit, worth quadruple the price of subscription, and are delivered to subscribers mounted, sized and varnished, ready for framing. The exquisite pictures represent faithfully to life two children, one sleeping and the other awake, and have been selling at retail for $10. Every one who sees them will want them, sure, and if Mr. Frost does not find several thousand subscribers in this county, we are greatly mistaken.

There was an eclipse of the sun on Monday, invisible here.

Betton & Co. announce for Saturday next, a sale of the wreck of a schooner, with a large quantity of slacked lime, valuable for manure; also several horses, sleighs, harnesses, &c.

The Republicans of the 1st Ward are to hold their caucus for the choice of delegates to the various conventions, next Friday evening. See advertisement.

Grand Duke Alexis is expected to visit this city and the Navy Yard, to-day.

Has anybody been taken on at the Manchester Navy Yard lately?

COLD BARNS.—And what showing would the cost of winter feed of his animals make on the account-book, if the farmer keeps one? He would find that a large portion of his feed had become dissipated in the frozen air of the north winds; that a great portion of hay or corn had gone to melt ice or snow and evaporate cold rain-water, and that what was left after these things had been done, had barely sufficed to keep life in his beasts. For in this case philosophy or science, or book-knowledge, call it what you will, is thoroughly corroborated by practice.

If two beasts are fed alike, except that one is kept well stabled and the other out of doors exposed to the cold, the one thus exposed will consume just double the amount that the other will, and will be in worse condition beside. Every man who keeps a cow knows this to some extent, though he may not know the exact figures. Here we give them—they are the result of a careful experiment made by a trustworthy feeder, viz: Two lots of sheep (of five each) were selected, of equal weights and conditions. One lot was kept out of doors and unsheltered, the other kept in a close pen. The lot under shelter ate 1,912 pounds of turnips against 886 pounds of turnips eaten by the other lot. The gain in weight was 13 pounds per head in the first lot and 28 pounds per head in the second. The profit can be figured out by any man who knows what turnips and mutton are worth. Had not the feeding been abundant some of the exposed sheep would have died. And yet sheep will stand more exposure than calves or heifers, or even full-grown cattle. Nothwithstanding all this, every winter's day one may see young calves humped up and stiffened with cold, shaking in the keen breeze, and their owners knowing at the same time that a year's growth is frozen out of them. This comes of not figuring up profit and loss.—*American Agriculturist.*

Manchester Redeemed!

At the municipal election in Manchester, Tuesday, 2703 votes were thrown for Mayor. Person C. Cheney, Republican, had 1676; John Hosley, Democrat, had 1027. Cheney's majority 649. Last March, Weston had 1703 for Governor, and Pike 1670. Republican gain, yesterday, 682. Good enough!

New Hampshire Items.

The residence and stable of Mr. A. S. Parshley in Rochester were burned Monday morning. Mr. Parshley saved but very little of his furniture, and his family barely escaped with their lives. Loss, $4000; insurance $1500.

The building of the Wolfeborough Railroad was let to Messrs. Wilson, Tevant & Co. of Portland, Maine. Work will be begun this week, and will be finished for the summer travel.

The Ninth Annual Session of the New Hampshire State Musical Festival will be held in Eagle Hall, Concord, commencing on Monday evening, January 8, and closing on Friday evening, January 12. Soloists, Mrs. J. Houston West, Miss L. Eaton, Miss Ella E. Pollard, Mr. F. C. Packard, Miss Zilla McQuesten, Miss Ella F. Darling, Miss Ella J. Sargent, Dr. C. A. Guilmette, Mrs. M. D. Shepard, and the Mendelssohn Quintette Club. Conductors, Messrs. Solon Wilder and J. H. Morey. Music to be used, The National Chorus Book; Schumann's "Gipsy Life;" Hodges & Foster's Collection of Psalmody, "The Sacred Crown." Matinees and concerts will commence on Wednesday afternoon, and continue every afternoon and evening during the session. Singers' tickets, admitting to the exercises of the entire session, $1.

Thomas F. Roberts of Lyme was killed a few days since at East Lyme, by a heavy cart-body falling upon him.

The rails on the Portsmouth, Great Falls and Conway Railroads were laid to Conway Corner last week.

The Suncook Mills pay their employees $37,000 monthly, and will soon mount up to half a million a year. Six thousand bales of cotton are made annually into two million pounds of cloth. The China Mill produces two hundred and thirty thousand yards of prints weekly, the Webster a hundred and forty thousand, and the Pembroke seventy thousand. The first mill has seven hundred employees, the second five hundred and the third two hundred.

—On Sunday morning at South Scituate, a boy who was out gathering cranberries found the head of a woman sticking out of the ice, frozen in solid, the ice being about seven inches thick. The selectmen were notified, and the body was cut out and found to be that of Miss Amy Sprague of Hingham, a maiden lady, 65 years of age. She left her home to visit relatives in South Scituate about two weeks ago. It is supposed that she missed her way.

WANTED—AN ANSWER.—Suppose it to be one hundred miles from Boston to Portland, A locomotive starts at 12 o'clock from Boston, going fifty miles the first hour, twenty-five miles the second, twelve and a half miles the third, and so on each hour travelling half the remaining distance, when will it reach the depot at Portland? A reward of $1,000 awaits any person who, by a mathematical calculation, can arrive at the exact hour.—*Boston Times.*

—A Melbourne meat company announces that it can-can kan-garoo now.—*N. Y. Post.*

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

MARRIAGES.

In this city, Dec. 5th by Rev. C. M. Dinsmore, Mr. RICHMOND EDWARDS of Gorham, Me. and Miss MARY E. MILES of Westbrook, Me.

In this city, Dec. 12, by Rev. C. M. Dinsmore, Mr. GEORGE SEAWARD and Miss MARY NEIL, both of Greenland.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.
The Success of the Company is far beyond that o any other similar concern; the
Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.
All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the
SINGER
seems to unite the good qualities of all, and is never found wanting.
THE SINGER
IS THE
OLDEST
SEWING MACHING
IN THE MARKET,
All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.
It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.
N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.
J. J. FESSENDEN,
Agent for Portsmouth, and Vicinity,
No. 12 VAUGHAN ST.
Formerly at No. 2 Chestnut St.

Morning Chronicle.

THE HALL TREADLE.—The physicians of the Suffolk District (Mass.) Medical Society, in November last, after discussing the influence that sewing machines have on the health of females, came to the conclusion that the "Hall Treadle" attached to any sewing machine (easily done) will obviate a very large percentage of injury to the operator, as is well illustrated in the following case of a woman who had used sewing machines for eight years:—

This woman had worked six years with the old crank treadle, and although robust and healthy at the outset, soon began to suffer greatly from fatigue and pains in the limbs and back. Her health gradually failed, till at length she determined to give up all attempts to work longer. At this juncture she was induced to give the Hall treadle a trial. The result of this trial was that, though still very weak, she was enabled to work the following year without interruption, ten hours daily, and without any detrimental effect. She states that the fatigue of the old movement was so excessive that she always had to stop at the end of every hour, and take a few moments' rest. With the new treadle, so little force is required to drive the wheel, and so great a variety of movement is allowed to the feet, that she is scarcely conscious of putting forth any exertion whatever, and can now complete her day's work without suffering any pain, and with comparatively little fatigue, accomplishing in the same time half as much work again as formerly.

The concurrent testimony of all professional operatives is strongly in favor of this ingenious invention, and it would seem, therefore, that this treadle must soon take the place of all others now in use.

THE MASSACHUSETTS DOCTORS have been together by the ears, the Allopathists being determined to cut all connection with and responsibility for that irregular and heterodox system known as "homeopathy," and all the members of their order who have dabbled in infinitesimals, and cured patients with nexious-nothing done up in sugar of milk or mixed in water. Which at the first look seems to be exceedingly small business; unless, indeed, the regulars intended to furnish a new proof and illustration of the homeopathic hypothesis of the potency of infinitesimals. "Warrington" cruelly complains that the quarrel was not conducted in Latin; probably on the ground that only a dead language was proper for physicians. Which is a grave mistake for such a lively writer to be guilty of. It was Dr. Holmes who said, that if the cent re *materia medica* were thrown into the sea, it would be better for the men and worse for the fishes. But the witty Doctor only escaped condign punishment by stacking the homeopathic "quacks" with his keen and polished lance; his Orthodox brethren consenting to forget his strictures on them in consequence of his criticisms on the heretics. Which reminds us of the farmer who forgave his cow for kicking him over because she gored his wife. Doctors spend their days and nights in dealing with diseased and abnormal specimens of human nature, and allowance must be made if they display peculiar symptoms now and then.—*Golden Age.*

ONE CHANCE IN A HUNDRED.—On the 4th, in a part of East Concord, a young man of about nineteen years, named William George, son of the late William George of Hopkinton, was engaged in running a circular cut-off saw in Farmer's mill. Having been out of doors his boots were somewhat icy, and while his left hand was on the timber he was sawing and his right upon the lever to draw the saw towards him, he slipped and fell forward just as the saw had ended its proper work. Before he could release his hold of the lever and allow the spring to carry the saw back to its starting point, the vengeful tool had cut through overalls, pants, shirts, &c., over the left pants pocket, and inflicted a gash about three inches long and some half an inch deep into the abdomen. At this point it slipped an inch and then cut another cut like the first, neither quite to the cavity of the abdomen. The only reason that can be imagined why the instrument failed to reach the skin just where it would have been supposed the deepest portion of the wound would have naturally come, is that a knife or pocket hook came between the log and beds, and pressed the soft parts back. The chances were a hundred to one that his bowels would have been let out, but for this fortunate chance. With a wound like this, he rode three miles to Hookerville for medical aid and even that didn't jolt his entrails out through the weakened tissues. He is lying still as a mouse now his danger has been revealed to him.—*Patriot.*

HARD WORK TO SIN.—Henry Ward Beecher says: "There was a man in the town where I was born who used to steal all his firewood. He would get up on cold nights and go and take it from his neighbors' wood-piles. A computation was made, and it was ascertained that he spent more time and worked harder to get his fuel, than he would have been obliged to if he had earned it in an honest way, and at ordinary wages. And this thief is a type of thousands of men who work a great deal harder to please the devil than they would to please God."

—A Belfast mouse lost his life a few days ago by putting his tongue to a hammer in the barn.

NEW ADVERTISEMENTS.

CUNDURANGO.

Portsmouth, Oct. 23, 1871. o24

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawf&wlp

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

BANKERS

and Dealers in Government Securities,

No. 5 Nassau Street,

New York, Nov. 20, 1871.

The successful and rapid negotiation of nearly three-fourths of the FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial skill and resources of the Company upon such a basis, that we are directed to announce the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:

OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.

MESSRS. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:

The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River, and the 25 miles (to Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting its completion. The Eastern Division, comprising 237 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonry of eleven divisions of the Extension, from the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.

In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell, until further orders.

Very respectfully yours,
C. P. HUNTINGTON, *President.*

In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.

The scarcity of, and demand for, really

Desirable six per cent. Gold Bonds,

for solid and permanent investments, is evinced by the facts that

Five-Twenty Bonds of 1867 are selling at....115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at..94

The latter not only pay both principal and interest in New York City, in U.S. gold coin, and are equally safe for investment.

The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly reduced by purchases by the Government from their surplus revenues.

The reason why we think GENERAL PACIFIC BONDS will in time advance to the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.

The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.

The Chesapeake & Ohio Bonds are issued either coupon or registered—the denominations are as follows:

$100, which cost to day.....$94.13
$500, " " " 471.56
$1000, " " " 943.12

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Currency, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our risk, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

We buy and sell Government and Central Pacific Bonds, at prices then in exchange for Chesapeake and Ohio Bonds.

Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*

FISK & HATCH.
Financial Agents

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most astonishing cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

The Chronicle.

A RIDE FOR LIFE.—There occurred on the Oregon and California Railroad, between this city and Salem, one of the most thrilling railroad incidents we have ever heard of. The following particulars, furnished by an eye-witness, may be relied upon as true:

When the down train came near one of the stations on the road it was running at full speed, in order to make up time, as it was a few minutes behind. The road at this point runs through a cut something more than a mile in length, and in entering it the road makes a curve so that the engineer can not see entirely through it. He had hardly gotten into the cut before he saw a woman riding leisurely through it, and with perfect nonchalance using the centre of the track. She was not more than half way through the cut, and barely a quarter of a mile ahead of him. He immediately whistled 'down brakes,' and then sounded the warning.

The woman, hearing the peculiar death-whistle of the locomotive, looked over her shoulder and saw the train rushing at her. She did not shriek, nor faint, nor give up all hope, but, like a true Webfoot, her courage rose equal to the emergency, and, without a moment's hesitation, she commenced swinging her riding whip from one shoulder of her steed to the other, thereby urging him to exert his utmost speed. The whip, and perhaps the shrieking of the steam whistle, caused the animal ridden by the lady to do his best, and he made about as rapid time as any animal ever seen in Oregon; but each instant the iron-horses gained upon the one composed of blood and muscle.

The shrieking of the locomotive's whistle caused the passengers to look out of the windows, and upon their discovering what was the matter the wildest excitement ensued. Several jumped forward and seized the bell-rope, and commenced pulling it as if they could stop the train by that means. The brakemen were exerting all their strength on the breaks, and the engineer had cut off the connection and was doing all that he knew to stop the train, while the woman was doing her best to make that bit of horse-flesh rise to the speed of a "Helmbold," but all in vain; the locomotive kept gaining on the horse and its rider, and there was hardly a person on the train who did not expect that both the woman and horse would be killed.

There was some thirty feet intervenbetween the cowcatcher and the horse's heels when, fortunately for the woman, she observed a place which was a little wider than usual, and with a steady rein she endeavored to turn him against the wall of the cut in order that the train might pass by without injury. In doing this the woman was encouraged by Mr. Sam Winans, the conductor, who had run forward and got out on the locomotive. A few seconds only passed by when the fiery monster poked its nose past the rump of the horse. At this moment Mr. Winans threw his whole force against the animal, and held him until the train stopped, and then a rousing cheer of gratification and joy at the escape of the woman from a terrible death was given.—*Portland (Oregon) Bulletin.*

—The human scalp is often diseased, and intolerable headaches result from wearing the ordinary hat, which excludes the air altogether, aided by the custom of many, of keeping the hair plastered close down upon the scalp with the various forms of hairoils and pomades, which occasion baldness in multitudes. It is of the utmost importance to the health of the hair that the air should be allowed to have free access to every hair and to every root of it. The Indians wear no hats, and a bald headed Indian is seldom if ever seen.—*Hall's Jour. Health.*

—We are informed upon most reliable authority, that a man recently applied at an undertaker's shop in town for a coffin for his child, and stated that it was for the last of a family of twenty-four children. All were dead, which, together with three who were still-born, rendered himself and wife childless after having had a family of *twenty-seven*. We doubt if there is another similar instance on record. The parents, as we subsequently learned, are not much above fifty years of age.—*Gloucester Advertiser.*

—The entire expense of the ninth census was $3,287,600.

PERKINS & HOUSE'S Patent Non-Explosive Kerosene Lamp is an absolute Safety Lamp that will not explode, that will not give off bad odor, that will not break, that will give a light equal to two other Lamps. Lamps for the Kitchen, Parlor, Study, for Churches, Public Halls, Factories, &c., &c., for sale to the Trade and the Public, by ALLEN FOLSOM, Agent for the Manufacturers, Dunlap's Block, next door west of Post Office, Concord, N. H. Canvassers wanted in every town in the United States. Address as above.

$10 from 10 cts. For particulars, send stamp and name of County. P. MICHAEL, Owosso, Mich.

AVOID QUACKS.—A victim of early indiscretion, causing nervous debility, premature decay, etc., having tried in vain every advertised remedy, has discovered a simple means of self-cure, which he will send to his fellow-sufferers. Address J. H. REEVES, 78 Nassau St., N. Y.

DAMAGED HANDKERCHIEFS, VERY CHEAP, at MASON'S POPULAR STORE. d1

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Chronical Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys; Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Disease, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION. Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

594 Broadway, N. Y., and 104 South Tenth St., Philadelphia, Pa.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, and Great Nervous Irritability, to the extent of being so insufferable as to render Life a Burden to those Who Should Love and Cherish the Object of their Affections, Deprived of Which Life Becomes Indeed a Burden to Be Borne by Any Person, Rendering Marriage Improper, or Entirely Destroying the Happiness of Those Who Should Be Happy in Each other.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients, Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no toxic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are valuable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

STEAM SAFES

AGAIN

TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.

AM. STEAM SAFE CO.,

COLE & LAMBERT, *Managers*,

300 Broadway, N. Y.

Gentlemen:—"The Binghamton Planing Mill and Sash and Blind Factory," together which several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 7) made by you, and purchased one year ago from Messrs. Paige & Chaffee, Agents, in this city, was in the Planing Mill, and went through the severest part of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild. Very truly yours,

(Signed,) A. L. HARDING,

Late Proprietor Canal St. Planing Mill, Binghamton.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

NO. 76 STATE ST., OPPOSITE KIRBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, DECEMBER 14, 1871.

Congress.

Senate.—On the 12th, the resolution adjourning from December 21 to January 8 was adopted.

House.—A bill fixing the first Monday of November, 1872, for the presidential election was reported from the judiciary committee. The bill was postponed.

New Hampshire Items.

Concord is to have a board of Trade.

The people of Hampton Falls, whose ancestors thirty years ago compelled the Eastern Railroad to construct its track over the Hampton marsh, rather than permit it to come near their village, now see it in a new light, and a change of route is projected through the villages of Seabrook and Hampton Falls, avoiding the marsh. The cost of building a double track and the danger of washing away by a severe storm one in a decade, induces the managers of the Eastern Railroad to consider the proposition, which is made with a promise of financial aid from the town.

The report of Judge Nesmith, referee in the case of Adaline Norris against the Grand Trunk Railroad, was brought into the supreme judical court, Judge Sargent presiding, lately sitting at Lancaster. In June 1857, the plaintiff bought a ticket from Portland to North Startford, and stopped over at Norththumberland. On the next train the conductor refused to recognize her check and put her off, obliging her to take another conveyance. On the journey she took a cold that has ever since held to her. On the ticket was "Good only for this train and the day received. Not good to stop over." Award $600 and costs.

In the cemetery at Epping a grave stone can be seen with the following curious inscription: "Quintus Plummer, born the 5th day of the 5th month of the 5th year of the 5th century, and breathed vital air only five times five days."

The Democrats nominated Governor Weston for re-election, on Wednesday.

THE U. S. SENATE has confirmed the following nominations: — John W. Douglass, as commissioner of internal internal revenue of the first district of Maine; Chester A. Arthur, as collector of customs at New York; George Bancroft, as envoy extraordinary to the German empire; Thomas Biddle, as minister resident at Salvador; Charles C. Beaman, as examiner of claims in the department of State; D. E. Coon, as consul at Rio de Janeiro.

THE B. M. EXTENSION.—The stockholders meeting at South Berwick on Wednesday resulted in the passage of a vote authorizing the increase of the capital stock $2,000,000, to defray the expenses of the extension of the road to Portland; to divide the same into shares at $100 each, the stockholders having the right to subscribe in proportion to the stock they now hold.

O'DONOVAN ROSSA, the Irish patriot, has assumed editorial charge of the New York Era.

FATTENING MILCH COWS.—In a recent conversation with an intelligent farmer, we learned that his practice of managing his cows, especially the farrow ones in winter, was to feed for beef while they were giving milk. In this way he thought he got pay in milk for all it cost to fatten the animals, giving him their increased value for profit. For instance, he takes a farrow cow in the fall or early winter and commences feeding her the same as he would if she was intended only for beef. This he keeps up through the winter, and she not only puts on fat, but gives double the milk that could be obtained on ordinary keeping. Not only does she give a good mess, but it is rich. The milk is considered fully equal in value to the cost of keeping the cow. Now mark the result. Instead of her being thin and of a very small selling value in the spring, she is ready for the butcher at the very time of year when beef generally brings the highest prices.

It occurred to us that this was worth making a note of, which we have accordingly done. Is not the practice of this man a good one to adopt and follow? It certainly seems so. As a great many farmers will be feeding more or less grain the coming winter, would it not be a good plan to try the experiment of feeding the farrow cows, at least, both for milk and beef at the same time.—*Concord People.*

—In case the Grand Duke cannot visit the oil regions, the Titusville Herald proposes to send on a tank of crude oil and sprinkle the contents around him, so that he can get an idea of how those regions smell.

—The Jacksonville (Illinois) Journal reports that a mare belonging to a man living in that vicinity recently gave birth to twin colts, one of which was a horse and the other a mule.

THE HUMORS OF THE FAR WEST.—A correspondent of the Springfield Republican writes from New Mexico;

Like all countries beyond civilization, the low value on human life is at first startling, but one soon gets used to hearing, over his morning coffee, of some horror, with a tranquillity excelled only by the natives; it becomes merely an every day item to know that the Apaches have murdered a few miserable Mexican shepherds, or that somebody had shot his neighbor in the plaza at Las Vegas; the little statement that

"Walker of Murphy's blew a hole through Peters,
For telling him he lied,
Then up and dusted out of South Hornitos
Across the Long Devile,"

is no fiction, and there is occasionally enacted the drama of Bret Harte's other comprehensive lines:

"Did you know Briggs of Tuolumne?
Bushed himself in White Pine,
And blew out his brains down in 'Frisco."

Another curious thing in frontier life is the expressive slang which becomes universal. "I will not fall into these barbarisms of speech," said the proper member of our party, "why will folks speak of a man's living on the 'picket wire' when it is as easy to say Purgatoire, call a creek 'crick,' and speak of everything they possess from diseased lungs to a wagon train, as an 'outfit?'" To which cosmopolitan reprovingly replied, "Always be patient with the weakness of foreign lands like this; ever since the day when the snuff-dipping Arkansas female asked me, across the steamboat table, to pass 'them cheese and them molasses,' I have hesitated at nothing. I would even engage to speak of my fellow man as 'panning out A 1,' or say he is 'well heeled' (armed,) or call whiskey 'red-eye' or 'kill-me-quick,' or settle a man's claim to shiftlessness with 'hadn't no savey,' or talk of a man's 'slinging a gay harness' (well dressed,) you bet!" with which philosophy, ended our attempt to shun the phrases in common use.

A SCHOONER ANCHORED TO A WHALE.—Captain John Evitt, of the fishing schooner Charles H. Price, of Salem, Massachusetts, which arrived home from a cruise recently, reports the following strange story: The schooner was at anchor on Grand Bank ten days ago, with about 200 fathoms of hemp cable out, and about already to start for home, having taken about 15,000 pounds halibut. The cook threw over a line to catch a fish for dinner, and, having caught one, threw the line over again, and found it tended aft at a remarkable rate. Thinking it strange, he called from the cabin the captain, who came on deck, went forward, and found the vessel going ahead at about five knots speed, but could not account for it. He ordered all hands called, and they bove in the cable to about thirty fathoms, when they discovered that their anchor had got hooked to a large whale, which they had before seen at the schooner some little time longer. The crew weather-bitted the cable, and in a short time the whale sounded, broke the anchor and carried away with him a good part of it. The black skin is to be seen on the cable where it chafed on the whale. The ring and a small piece of the anchor were all that was left attached to the cable; the flukes are gone and are supposed to have somehow become attached to the body of the whale.—*Boston Herald, 6th.*

A LAWYER AND A WITNESS.—The tedious session of the Supreme Court at Pittsfield, Mass., was relieved by an incident, one day last week, that drew a little smile. A leading member of the bar, rather noted for his strategy of confusing witnesses by working them into a passion, had under cross-examination a woman who seemed an apt subject for his favorite tactics; having wound her up to the desired pitch, he inquired, "Madam, are you now living with your first or second husband?" "That's none of your business!" sharp and short. With an air of offended dignity, the attorney turned to Chief Justice Brigham, who remarked, with a smile, "I think the witness is about right in that, is she not?" Which reminds the older members of the bar of a similar misadventure that a still more distinguished member of the Berkshire bar once met at the hands of Chief Justice Shaw. "Where did you get the money with which you made the purchase spoken of?" asked the learned brother of a witness under the tortures of cross-examination. "None of your (gentle expletive) business!" thundered the victim. "Now, please your honor, are counsel to be insulted in this manner?" appealed the lawyer. "Witness," said the Chief Justice, compassionately, "do you wish to change your last answer?" "No, sir, I don't!" "Well, I wouldn't if I were in your place!" And the chuckle that shook the bench was audibly echoed.

—A story is told of a man in Connecticut who fell from the roof of a five-story building to the sidewalk; but, as he struck on the thick soles of his rubber shoes, he bounced back within a quarter of an inch of the roof, and so continued to bounce, the distance decreasing by only a quarter of an inch at each journey. He subsisted on hash enclosed in rubber balls, which he managed to catch on the bound, and at the end of a month was stopped and restored to his family.

—The Okaloua (Miss.) News takes this cheerful view of the situation in the section where it is published: "The cotton and corn crops of the country are turning out short—decidedly short—and the meat crop proves to be no crop at all, and up-country meat can be had only for cash, and cash is a scarce commodity. In this state of the case the situation appears to be this: 'Starve, beg, or steal.'"

—A Georgia jury rendered a verdict "Guilty of voluntary manslaughter."

—A receipt which Marshal Sears of Lenox gave last month for a gallon of wonderful roofing compound (which he never got) to a pleasant little man whom he met on the road to Pittsfield, has suddenly elongated into a note of $150, payable at the Pittsfield National Bank. C. M. Deane, who presented it for collection has been arrested as the author of the imposition.

—The New York Evening Post tells us that "old sailors are never so much at sea as when they are on shore." Upon which the Louisville Courier-Journal remarks that "in this they are somewhat like hen-pecked husbands, who are never so much at home as when they are abroad."

—Two Frenchwomen were asked: "If you were compelled to marry Urbain, Assi, or Ferri, which of the communists would you take?" One replied: "The eldest, that I might be the sooner rid of him"; the other,—"The youngest, that I might make him suffer the longest."

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

BUSINESS NOTICES.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost *given away.* Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and mien of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

We have often wondered whether there is a person in all New England, who does not know and appreciate the value of *Johnson's Anodyne Liniment* as a family medicine? It is adapted to most all purposes, and is the best pain killer that can be used.

Farmers and stock raisers have frequently told us that they have seen very good results from giving *Sheridan's Cavalry Condition Powders* to cows and swine before and after they drop their young. The powders put them in good condition and give them strength to care and provide for the sucklings.

SPECIAL NOTICES.

Shocks to the System.

The first shock of winter tells tremendously upon enfeebled systems. Every one knows that in passing from a warm region to a cold one, or *vice versa*, the body requires as a protection against epidemics, an acclimating medicine. All travellers and voyagers admit this. It is equally necessary to acclimate the system in passing the confines of one season and entering upon another. Autumn is gone and winter is here. Prepare the frame and the constitution to meet the change by a course of HOSTETTER'S STOMACH BITTERS. This inestimable vegetable tonic increases the staminal strength of those who take it, and renders them proof to a great extent against the devitalizing power of cold and damp. These two agents are as prolific of disease as tropical heat, and animal vigor—such vigor as this healthful and pure tonic diffuses through the whole organization—is a repellant which they cannot master. A large proportion of the colds, catarrhs, and pulmonary complaints which prevail in winter, might be avoided, by strengthening and regulating the system in advance with this invigorant and alterative. Not that it is recommended as a specific for those complaints, but as a preventive of their causes. On the other hand, it is not only a preventive of, but a specific for the indigestion, intestinal irregularities, malarious fevers, bilious attacks, and nervous affection, superinduced by a chilly and damp atmosphere.

SATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER — Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER.—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

d26 **Sold by Dealers Everywhere.**

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and then tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

$25 Reward.

We are constantly annoyed at complaints from many of our patrons that the CHRONICLE is stolen from their premises. The thieves who abstract these papers from the doorways of their neighbors, if detected, will be made to suffer, and we offer a reward of $25 for such evidence as will result in the conviction of any person guilty of such theft.

—William Ford, a brakeman on the Boston, Hartford and Erie Railroad, was knocked off a freight train and killed by a bridge in Webster, Friday. He belonged in Boston, and was making his last trip over the road.

—An Indiana criminal wept copiously when his term of imprisonment expired and the inhuman jailor thrust him out into the cold world again.

—A vigorous Connecticut preacher actually kicked his pulpit to pieces, and was with difficulty fished out of the ruins.

—The hog crop of Iowa for 1871 is estimated at 1,000,571 hogs—an increase of 40 per cent. over that of 1870.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

AVERILL CHEMICAL PAINTS,

in the City. Also Dealer in

LOCAL AFFAIRS.

Laconics.

Members of the Young People's Christian Union, or those intending to join, who desire thorough instruction in Penmanship, are requested to leave their names with the Secretary, who will be at the rooms every evening of the present week to give necessary information.

Required on the Navy Yard—Russia salve.

Death-struck—the Board of Trade.

"He did his Level Best" is the title of the story-lecture to be given as the seventh of the Lyceum Course, by Rev. E. E. Hale, this evening. It's good.

Several hundred people assembled at the Eastern depot on Wednesday to meet Grand Duke Alexis.

A lady's black kid glove remains at this office unclaimed.

How many votes did the Democracy gain in Manchester, William? The Republicans cast 957 votes for their candidate for Mayor of Manchester last December. This year their vote is 1665.

The G. D. did not come Wednesday, as expected; but there was a great Rush-in' to the depot.

The report that Mr. Brackett Hayes had been drinking liquor previous to the accident on Monday was quite current among those who were first at the scene of horror. The report was, however, without foundation, it is said.

Alex-is'nt coming to Portsmouth.

"Republican gain in Manchester, six."—That is what the man of "startling statistics" says,—and we advise him, by all means, to put this last essay at figures in his museum of curiosities, along with the 390-pounds-of-sole-leather-to-the-pair boots, the $100,000,000,000 of Radical stealings, and the 500,000 native population of the United States.

U. S. S. Fortune arrived at this naval station on Wednesday, from Washington and Charlestown, with supplies.

Mr. James O. Evans, of this city, has accepted an agency for the sale of "Chicago and the Great Conflagration," in this vicinity, and is canvassing the city for subscriptions. The book is written by Messrs. Colbert & Chamberlain, of the Chicago Tribune editorial staff, and will contain about 500 pages and 24 illustrations by Chapin & Gulick, and a general history of Chicago from the earliest dates, as well as of the great fire. C. F. Vent, publisher, Cincinnati and New York; price, $2.50 per copy. Mr. Evans is well known hereabouts as a worthy and reliable man, and we do not doubt he will meet with gratifying success in procuring subscribers to the work, which (judging from the specimen pages) is carefully and ably written.

Eleven days to Christmas. The shortest days are at hand.

In three adjoining dwelling houses on Islington Street, three sudden deaths have occurred within three weeks' time.

Read the proclamations of our holiday advertisers. Santa Claus has numerous agencies hereabouts.

Mr. Thomas S. Gay of this city has been appointed a sailmaker in the Navy.

We regret to learn of the removal of Mr. James R. Yeaton of this city to Brentwood. Mr. Yeaton has been an active merchant, and is one of the enterprising young men who know their own business and mind it well. He is to take charge of the grocery formerly owned by Mr. J. W. Sinclair, and will we trust be prosperous among his new friends.

Dr. J. F. Hall has removed to No. 84 State Street. He is the only physician we ever knew who has had no sign at his residence to indicate to anxious inquirers that one of the best physicians in New Hampshire dwelt within.

Duke-less!

It was a dog-on-ed shame! To think of wasted time, blasted hopes and fond ambition unrealized. Alexis, the sensible, appeared not on Wednesday. It was to be a private reception. The people were not to see him, unless by accident, and the arrangements were so nice that a few were to force themselves on his attention. Aleck hadn't an idea why he should travel 112 miles to see a navy yard and imbibe champagne. He had seen a better and can drink as nice wine at the Revere. He is gracious and benignant; he is bored with invitations; he has no minute to himself; his entertainers have no mercy; he desires quietude and rest; he has the ague in his face; he was to be put away in somebody's little vest pocket, which wouldn't be large enough for his brains even. To be pocketed so quietly, he, the young man of seventy-four inches stature, weighing two hundred pounds, did not relish. To be a Russian Bear is not altogether agreeable abroad, when importuned. And so it was that the Grand Duke with the noble face and sturdy frame did not arrive at 150 minutes past noon, was not received with stirring Russian airs played by the Government band, was not conveyed to the Navy Yard Landing in a close hack, did not cross the Piscataqua in steamer Speedwell, was not received on landing by marines in line of battle, drank no wine in response to numerous toasts, did not return to Boston in the evening train. Great grief was scattered around by the disappointment. And the disappointment was caused by—what? At noon of Wednesday, Alexis awoke and thought him a thought. Thereafter a message boy rushed to a telegraph office and invested a quarter in a dispatch. Which was why it was which. Ague for once was handy to have in the house. The Grand Duke Alexis was indisposed—to come to the Navy Yard. The select wearers of blue and gold sadly marched up the hill and then as sadly marched down again, the band playing "Thou art so near and yet so far." Funeral sermon by Jere. Gunnison; subject—"lubricating fluids."

An Apology.

A friend suggests that we were in error in supposing the total defeat of the Democracy in Manchester was occasioned by the purchase of copperhead voters with jobs on the Manchester navy yard, as the Democrats of that city are not so corrupt and venal as the Portsmouth Democratic organ says the Portsmouth Democrats are. He reminds us that when the Manchester Public Forum was first started, we stated that we considered the new paper equal to a clean Republican gain of six hundred votes in that city and vicinity, and of three thousand in the State; and hopes that professional jealousy will not prompt us to such an unworthy act as the withholding honor from whom it is due, now that an election has proved that we under-rated the value of that earnest and able worker in the Republican interest. We would not willingly wrong any one, and hasten to acknowledge that the Public Forum's success in rolling up a Republican majority has exceeded our most sanguine expectations; and that if the Forum and Nashua Gazette will only keep on as they now go until next March, we shall look for more than three thousand Republican majority for the State ticket. Go ahead, brethren; the Republican party can stand it, and the Democratic party is so near dead that it won't be more than quarter-murder if you do kill it.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

—A small bull-pup and a Newfoundland dog were engaged in a long fight near the Lakeview (N. J.) depot, on the Erie Railway, one day last week. The battle would undoubtedly have ended in a draw had not the little dog pulled his antagonist on the track and held him there until a train came along. The little dog crouched down, and the train went over him without hurting him, while the big dog was ground to sausage meat. Affidavits can be produced to prove this assertion from the Erie Railway agent of that station.

—An editor in Illinois having engaged a new reporter, received the following as his first effort: "We are informed that the gentleman hoo stood on his head under a pile driver for the purpose of having a tight pair of butes druv on, shortly afterwards found himself in China, perfectly naked and without a cent in his pocket."

—That unfortunate Californian, named Ortez, has had to pay Lotta K. Turner $7,500 for merely writing love-letters to her. She sued him for breach of promise and obtained that amount on her own evidence merely, although no promise of marriage was found in his letters.

—Rev. James Powell of the North Church in Newburyport (Congregational) has declined the call of the Congregational Church in San Francisco, with an offer of $3000 in gold and the expenses of his journey.

—A Georgia train ran off the track, and, after breaking one man's leg, jumped back on the rails, and ran on again as if nothing had happened.

—A Michigander sweetly contemplates two tuns of honey which he has marketed the past year.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

Arr Dec. 11th, Sch E. Babson, Eaton, fishing.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.
The Success of the Company is far beyond that of any other similar concern; the
Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.
All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the
SINGER
seems to unite the good qualities of all, and is never found wanting.
THE SINGER
IS THE
OLDEST
SEWING MACHINE
IN THE MARKET,
All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.
It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.
N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.
J. J. FESSENDEN,
Agent for Portsmouth, and Vicinity,
No. 12 VAUGHAN ST.
Formerly at No. 2 Chestnut St.

FUR GOODS! FUR GOODS!
NEW STYLES FOR WINTER; now opening a large assortment of
CLOAKS, COLLARS, BOAS, MUFFS, &c., &c.,
At Very Low Prices.
N. K. WALKER & SON,
n9 No. 11 Congress Street.

PRICES REDUCED!
IN 1870, $30. IN 1871, $20!
MORRIS KICHLER,
No. 19 Market St., Portsmouth, N. H.
MERCHANT TAILOR,
—AND DEALER IN—
READY MADE CLOTHING!
AND EVERY VARIETY OF
Gentlemen's Furnishing Goods!
Has filled his store with the best selected stock the wholesale houses of New York and Boston can supply. He has the FINEST LOT OF CLOTHS ever offered in this city and the prices are low.
SCOTCH SUITS, real "Cheviots," are made to order for $20. These are of the same goods, of new patterns, which were sold last year for $30. He has now on hand ten different patterns of different colors.

Morning Chronicle.

Lady Wentworth.

The following poem by LONGFELLOW, will appear in the January number of the *Atlantic Monthly*:—

One hundred years ago, and something more,
In Queen Street, Portsmouth, at her tavern door,
Neat as a pin and blooming as a rose,
Stood Mistress Stavers in her furbelows,
Just as her cuckoo-clock was striking nine.
Above her head, resplendent on the sign,
The portrait of the Earl of Halifax,
The scarlet coat and periwig of fax,
Surveyed at leisure all her varied charms,
Her cap, her bodice, her white folded arms,
And half resolved, though he was past his prime,
And rather damaged by the lapse of time,
To fall down at her feet, and to declare
The passion that had driven him to despair,
For from his lofty station he had seen
Stavers, her husband, dressed in bottle-green,
Drive his now Flying Stage-coach, four-in-hand,
Down the long lane and out into the land,
And knew that he was far upon the way
To Ipswich and to Boston on the Bay!

Just then the meditations of the Earl
Were interrupted by a little girl,
Barefooted, ragged, with neglected hair,
Eyes full of laughter, neck and shoulders bare—
A thin slip of a girl, like a new moon,
Sure to be rounded into beauty soon;
A creature men would worship and adore,
Though now in mean habiliments she bore
A pail of water, dripping, through the street,
And bathing, as she went, her naked feet.

It was a pretty picture, full of grace,—
The slender form, the delicate, thin face;
The swaying motion, as she hurried by;
The shining feet, the laughter in her eye,
That o'er her face in ripples gleamed and glanced,
As in her pail the shining sunbeam danced;
And with uncommon feelings of delight
The Earl of Halifax beheld the sight.
Not so Dame Stavers, for he heard her say
These words, or thought he did, as plain as day:
"O, Martha Hilton! Fie! how dare you go
About the town half dressed, and looking so!"
At which the gypsey laughed and straight replied:
"Never mother how! look; I'll get shall ride
In my own chariot, ma'am." And on the child
The Earl of Halifax benignly smiled,
As with her heavy burden she passed on,
Looked back, then turned the corner and was gone.

What next upon that memorable day,
Drew his august attention, was a gay
And brilliant equipage, that flashed and spun,
The silver harness glittering in the sun,
Outriders with red jackets, lithe and lank,
Pounding the saddles as they rose and sank,
While all alone within the chariot sat
A portly person with three-cornered hat,
A crimson velvet coat, head high in air,
Gold headed cane, and nicely powdered hair,
And diamond buckles sparkling at his knees;
Dignified, stately, florid, much at ease,
Onward the pageant swept, and as it passed,
Fair Mistress Stavers courtesied low and fast;
For this was Governor Wentworth, driving down
To Little Harbor, just beyond the town,
Where his Great House, stood looking out to sea—
A goodly place, where it was good to be.

It was a pleasant mansion, and abode
Near and yet hidden from the great high road,
Sequestered among trees, a noble pile,
Baronial and colonial in its style;
Gables and dormer-windows everywhere,
And stacks of chimnies rising high in air—
Pandean pipes, on which all winds that blew
Made mournful music the whole winter through.
Within, unwonted splendors met the eye—
Panels and floors of oak, and tapestry;
Carved chimney pieces, where on brazen dogs
Revelled and roared the Christmas fire of logs;
Doors opening into darkness unawares,
Mysterious passages, and flights of stairs;
And on the walls, in heavy gilded frames,
The ancestral Wentworths with Old-Scriptnre names.

Such was the mansion where the great man dwelt,
A widower and childless, and he felt
The loneliness, the uncongenial gloom
That like a presence haunted every room;
For though not given to weakness, he could feel
The pain of wounds that ache because they heal.

The years came and the years went—seven in all—
And passed in cloud and sunshine o'er the Hall;
The dawns their splendor through its chambers shed,
The sunsets flushed its western windows red;
The snow was on its roof, the wind, the rain;
Its woodlands were in leaf and bare again;
Moons waxed and waned, the lilacs bloomed and died,
In the broad river ebbed and flowed the tide,
Ships went to sea, and ships came home from sea,
And the slow years sailed by and ceased to be.

And all these years had Martha Hilton served
In the great house, not wholly unobserved;
By day, by night, the silver cresent grew,
Though hidden by clouds, her light still shining through;
A maid of all work, whether coarse or fine,
A servant who made service seem divine!
Through her the rooms were made fair to look upon,
The mirrors glistened and the brasses shone,
The very knocker on the outer door,
If she but passed, was brighter than before.

And now the ceaseless turning of the mill
Of time that never for an hour stands still,
Ground out the Governor's sixtieth birthday
And performed his brown hair with silver gray.
The robin, the forerunner of the spring,
The blackbird with his jocund caroling,
The swallows building in the eaves,
The golden buttercups, the grass, the leaves,
The lilacs tossed in the winds of May—
All welcomed this majestic holiday!

He gave a splendid banquet, served on plate,
Such as became the Governor of the State,
Who represented England and the King,
And was magnificent in everything.
He had invited all his friends and peers—
The Pepperells, the Langdons and the Lears,
The Sparhawks, the Penhallows, and the rest,
For why repeat the name of every guest?
But I must mention one in bonds and gown,
The rector there, Reverend Arthur Brown
Of the Established Church; with smiling face
He sat beside the Governor and said grace;
And then the feast went on, as others do,
But ended as none other I o'er knew.

When they had drank the King, with many a cheer,
The Governor whispered in a servant's ear,
Who disappeared, and presently there stood
Within the room, in perfect womanhood,
A maiden, modest and yet self-possessed,
Youthful and beautiful, and simply dressed.
Can this be Martha Hilton? It must be!
Yes, Martha Hilton, and no other she!
Dowered with the beauty of her twenty years,
How lady-like, how queen-like she appears;
The pale, thin crescent of the days gone by
In Dian now in all her majesty!
Yet scarce a guest perceived that she was there,
Until the Governor, rising from his chair,
Played slightly with his ruffles, then looked down,
And said unto the Reverend Arthur Brown:
"This is my birthday, it shall likewise be
My wedding day; and you shall marry me!"

The listening guests were greatly mystified,
None more so than the rector, who replied:
"Marry you? Yes, that were a pleasant task,
Your Excellency; but to whom, I ask?"
The Governor answered: "To this lady here;"
And beckoned Martha Hilton to draw near.
She came and stood, all blushes, at his side.
The rector passed. The impatient Governor cried:
"This is the lady; do you hesitate?
Then I command you as Chief Magistrate!"
The rector read the service loud and clear:
"Dearly beloved, we are gathered here,"
And so on to the end. At his command,
On the fourth finger of her fair left hand
The Governor placed the ring; and that was all;
Martha was Lady Wentworth of the Hall.

NEW ADVERTISEMENTS.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants.

They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health or the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfeb16

HARVEY FISK. A. S. HATCH.
FISK & HATCH,
BANKERS
and Dealers in Government Securities,
No. 5 Nassau Street,
New York, Nov. 20, 1871.

The successful and rapid negotiation of nearly three-fourths of the FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are prepared to advance the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:

OFFICE CHESAPEAKE & OHIO RAIROAD COMPANY
54 William Street, New York.
NOVEMBER 18, 1871.

Messrs. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:

The Western Division of the Chesapeake and Ohio Railroad, comprising the 99 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the limited coal and other business that is awaiting its completion. The Eastern Division, comprising 277 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonry on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.

In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.

Very respectfully yours,
C. P. HUNTINGTON, *President.*

In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.

The scarcity of, and demand for, really

Desirable six per cent. Gold Bonds,

for solid and permanent investments, is evinced by the facts that

Five-Twenty Bonds of 1867 are selling at....115
Twenties of 1869 are selling at.....103
Chesapeake & Ohio Bonds are selling at..94

These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.

The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.

The reason why we think CENTRAL PACIFIC BONDS will in time advance to the price of Five-Twenties, is because no more can be issued, while the operation of their Sinking Fund will soon commence to decrease the amount.

The reason why CHESAPEAKE AND OHIO BONDS are cheaper than Five-Twenties, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.

The Chesapeake & Ohio Bonds are issued either coupon or registered—the denominations are as follows:

$100, which cost to day.....$94.13
$500 " " " 471.56
$1000, " " " 943.12

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

We buy and sell Government and Central Pacific Bonds, and receive them in exchange for Chesapeake and Ohio Bonds.

Accounts of banks, bankers and other corporations we *now allow interest at the rate of four per cent. per annum.*

FISK & HATCH.
Financial Agents

AYER'S HAIR VIGOR.
FOR RESTORING GRAY HAIR
TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them dispose it to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER's consummate skill has produced a handkerchief for these deformities, which has won gratitude for him from multitudes of men and women. HIS HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The command of a few bottles of this preparation, we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

The Chronicle.

TOO MUCH FIRE.—When a writer in a Southern religious paper proposes to send money to help Chicago, because the South will thus heap coals of fire on her head, we respectfully suggest that the unhappy giver is giving too much of a good thing. Fire is a good thing in its place. But Chicago has had enough of it. Therefore, to put fire on the head of Chicago is not necessary, even in the way of charity.

But to propose to send charity to a person or a community, in order to heap coals of fire on the head, is to miss the very spirit of the precept. The essence of charity is love. To love our enemies, that is, to cherish toward them a feeling of kindness and good-will, is Christ-like. But to do them good for the purpose of making them "feel bad," is just as wicked as to torment them in any other way. Yet we have before us a long column, in a religious newspaper, advocating the contribution of money to Chicago, on this principle, which strikes us to be about as poor Christianity as ever came in our way.

When a writer in a Northern newspaper reproaches Charleston, S. C., for the smallness of its contributions, he does a mean thing and utterly mistakes the essence of charity. Charleston, taxed to its utmost endurance by the necessity of raising large funds to help the poor, suffering under the ravages of yellow fever, out of the depths of its poverty and distress, nobly raised a handsome sum of money and sent it on to the relief of Chicago. The Master recognized such giving as more than all that came from those who had millions to spare; and instead of sneering at such a gift, had the Southern city sent but a hundred or fifty dollars, we would have said, "She hath done what she could; God bless her."—*N. Y. Observer.*

MARK TWAIN—THE LAUGH TURNED.—The many admirers of Mark Twain among our readers will be delighted to hear that he got into a very bad scrape at Syracuse the other day. One Jacob Gilgel, a gentleman of tonsorial proclivities, having read Mark's vicious article on the peculiar habits of barbers, swore vengence against the great humorist if he should ever get him within sweep of his razor-blade. Mark came to Syracuse to lecture; Jacob kept the best shop in the city; Mark dropped in to get shaved. The barber knew his customer and went at him vigorously, giving him such a dressing as Neptune gives green hands on crossing the line. It was a shave such as the old song describes the Irishman getting from the monkey who had assumed control of the barber-shop while his master was away to dinner. Mark escaped after an hour of torture, and will rather have his hair burnt off with a coal of fire like Dionysius the Sicilian tyrant, than let any one approach him with a razor again. He is beginning to regard with favor the higher civilization of the Sandwich Islands, where the ladies take two fish scales between finger and thumb and pluck out their lord and master's beard hair by hair whilst he takes his siesta in the sun.

—The Chicago Republican publishes sections of what it calls "a very bad pome" on the fire, and says that if any of its readers know the author, and will kill him, it will publish his obituary free.

—A small child in Illinois climbed upon a chair to wipe his face on a hanging towel. The chair slipped, and the child, catching in the towel, was hanged by the neck, and died.

—A lady, whose husband was suddenly killed by the falling of a railroad bridge with a train upon it, accidentally wept her entire sight away in two weeks from that day.

—Many ladies of New York city propose to give no wine to their callers on New Year's day, but instead hot beef tea and soup.

HORRIBLE.—I suffered with CATARRH thirty years, and was cured in six weeks by a simple remedy, and will send the receipt, postage free, to all afflicted. Address Rev. T. J. MEAD, Drawer 176, Syracuse, N. Y.

DAMAGED HANDKERCHIEFS, VERY CHEAP, at MASON'S POPULAR STORE. d4

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION. Established upward of 20 years. Prepared by

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! Increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. "Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

STEAM SAFES

—AGAIN—

TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.

AM. STEAM SAFE CO.,
COLE & LAMBERT, *Managers,*
300 Broadway, N. Y.

Gentlemen:—The Binghamton Planing Mill and Sash and Blind Factory," together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 7) made by you, and purchased one year ago from Messrs. Falge & Chafee, Agents, in this city, was in the Planing Mill, and went through the severest part of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-cases was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild. Very truly yours,

(Signed,) A. L. HARDING,
Late Proprietor Canal St. Planing Mill, Binghamton.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.'

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN TAGGART.,

The Daily Chronicle,

Portsmouth, N. H.

FRIDAY, DECEMBER 15, 1871.

Political.

The Republican U. S. Senators have already divided on a measure tending to show their positions in regard to supporting the administration or not. The friends of the administration favor the appointment of a committee of seven to investigate and report on all such measures as may be referred to them by the Senate. Moderate and prominent republicans of both houses regret that the breach has been thus early opened and is so rapidly widening. The interests of both factions in the Senate seem more decidedly and bitterly hostile than ever before, and the issue has been forced at this time without adequate cause or reason.

U. S. Attorney General Akerman is to be succeeded by Ex-Senator Williams of Oregon on the 1st of January.

THE RECOVERY of the Prince of Wales appears to be impossible. In case of his death a council of regency will be created, composed of the Duke of Cambridge, the Duke of Edinburgh, the Princess of Wales, and perhaps others. This is likely to take place immediately, and to be followed by a discussion upon the power of the present Parliament to continue its sessions, or whether it is necessary to go to the country as an extraordinary occasion.

THE KU-KLUX.—A Columbia, S. C., despatch states that the government witnesses against Logan, Foster and Mitchell, charged with conspiracy against the government, detailed the full secrets of the Ku-Klux of South Carolina, gave accounts of seven different rapes, with their concomitants of rapine, negro whipping and disgusting brutality.

A FITCHBURG CAT lay down in a fly-wheel recently, early in the morning, and was not discovered till the engine had been running three hours; a dog then detected her and gave the alarm. When the engine was stopped the cat was rescued uninjured, after making sixty revolutions a minute for three hours.

THE UNITED STATES and British commission began its session in Washington, Wednesday. In the case of John Holmes Hanna against the United States, number two, the commissioners decide that the United States cannot be held liable for injuries caused by the acts of rebels.

FEEDING STOCK.—A very good result may be expected from such years of scarcity as this—farmers will learn to feed judiciously. In years of plenty many are likely to practice cramming—giving all they will eat and more—very often as injurious as underfeeding. The overfeeding of animals is no more beneficial, or to be encouraged, than the overfeeding of ourselves. The same number of meals, in just the right quantities, of suitable, wholesome, nutritious food, is better than double that number. The practice of irregular feeding—one day at morning, noon and night, the next five or six times, the next at various times, is to be strongly condemned. Feed regularly as much as will make a good square meal, no more, and at three set hours, just as you eat yourself, or as near as practicable, not varying an hour or at most not over an hour, and this only under extraordinary circumstances. It will pay this winter if ever, to begin right, and keep right; and observe closely in order to get right if not so already. Regular feeding induces contentment. Cattle expect their meals at stated times, and will not look for it every time they hear you approach the barn. Give plenty of light, exercise, and pure water to drink, and these also at stated times, severe storms excepted.

Years like the present, especially, we advocate cutting of hay. It can be then more accurately and conveniently apportioned to each animal. It can be wet, and meal or other provender better and more easily mixed with it. It also can be better utilized. Coarse fodder, such as corn stalks, straw, and coarse swale or meadow hay if cut, wet and coated with a little meal, will be eaten readily, and give a good account of itself. When fed long, much of it is left and neither forms good bedding or good material for the compost heap. Time can well be afforded, prices considered, this year, to prepare such fodder for profitable use.

A very good and cheap way to cut fodder for feeding, and also a convenient way in such seasons as this, when it is important that we apportion to the best advantage, and a good one any year, is to take an empty hogshead with two heads, saw it in two in the middle, and thus obtain two good tubs of convenient height and size. Cut the hay or fodder, no matter how, so that it be fine, and put into one or both tubs, according to quantity and number of animals to feed. Wet (warm or boiling water preferred) and mix meal through the whole. Wetting causes it to adhere to the cut feed. Deal out porportionate to its constituent parts, that is, the more meal or shorts used, the less bulk an animal will require. A little experimenting, good judgment and observation, will soon enable you to feed just right.—*Cor. Maine Farmer.*

OLD TIME CHRONICLES, No. 43.

BY UNCLE JOSEPH.

The Hilton Family.—The first of the name in New Hampshire, and probably the first in America, were two brothers, Edward and William, who were of the first settlers of this State. They came in 1623, landed at Portsmouth, as it is called now, then a wilderness. A portion of the party went two or three miles south to what is now called Odiorne's Point, in Rye, and there made a stand. Before Rye was incorporated, in 1726, that was a part of Portsmouth. The Hiltons went northwest, seven miles, to the place now called Dover Neck, where they settled. The Hiltons in this section descended from Edward, the oldest of the two brothers, so far as we have an account of them. He was a man of much note among the early settlers. The first who came as preachers to the infant colony attempted to have control of civil affairs as well as religious. Hilton was a friend of order and of good influence, and by his efforts and those of others they were put under the protection and government of Massachusetts in 1641.

"On the 4th day of the 1st week of the tenth month, 1639," he obtained a grant of land in Exeter. Where it was we cannot say, but most likely it was in that part now South Newmarket. In 1652 he moved to Exeter, and the next year he obtained another grant of land of about 1200 acres. This embraced the site of the whole village of South Newmarket, (being then called Newfields,) and the extensive territory around it. On this he undoubtedly lived. He died in 1671, having been in the country 48 years. He was wealthy.

We have the names of four sons, Edward, William, Samuel and Charles. Possibly he had other children. Edward followed his father on the homestead. His wife was Ann Dudley, daughter (according to an account we have) of Rev. Samuel Dudley of Exeter, and grand-daughter of Gov. Thomas Dudley of Massachusetts. He died in 1699. His children were Winthrop, Dudley, Joseph, Jane, Ann, Mary and Sobriety.

Winthrop, the oldest of these children, was born about 1671, and near the time this first Edward (his grandfather) died. His name, Winthrop, was in honor of Gov. Winthrop of Massachusetts, the friend of his grandfather. As he came to manhood he possessed great influence. In person he was commanding, being tall, well formed and muscular; and he had an active, strong, enterprising mind. In the Indian troubles he was brave and feared no danger. He had a garrison on his farm at what is now South Newmarket Village. In 1703 he was appointed Captain of a Company of Militia. In January, 1704, he was appointed Major of a force against the eastern Indians, and went with three Companies, but without finding the enemy. The same year he went on an expedition against the Indians under the celebrated Col. Church. In this there was great success. He was in several other expeditions against the red-skins, so that in time they well knew his name and his valor. In 1706 he became Judge of the Court of Common Pleas, which office he held till his death; but he had more taste for military than civil office. He had in his last years a Colonel's commission. When nearly 40 years of age his life terminated, and his sun went down in blood. He was engaged in the mast-ing business, and on the 23d of June, 1710, at what is called the "Mast Way," in Epping, not far from the present location of the grounds of the Camp Meeting, the Indians in ambush killed him at the first fire. Two others were killed, several taken captives, and others fled. The Colonel was carried home and buried in his own field, near Lamprey river, less than a hundred rods south-east of South Newmarket Village. A plain slate stone of good size, with suitable inscription, shows where a brave and good man lies. Some twenty others of the Hiltons have been buried around him. The land is still owned by the Hilton family, as it has been for 218 years.

There are materials for a full genealogy of the Hilton family, and we have information that something is being done to prepare such a work. We will go no further than to state that the second Edward Hilton, son of the first settler, had a son Joseph, who had a son Theodore; and this last had a son, Col. Joseph Hilton, who settled in Deerfield, where his descendants still live. Another son of Theodore was Richard, who settled in that part of Shapleigh which is now Acton, Me. His son, Winthrop, followed him; and the sons of Winthrop, Nathaniel and Andrew, live there now. James, another son, lives in Middleton.

—The native Alaskans have entered into the manufacture of a liquor from sugar, so powerful that it kills in three weeks.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & County Gentleman for $4 per annum—in advance.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

BUSINESS NOTICES.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost *given away.* Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and vim of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is endorsed by any distilled or fermented liquor. 4wd10

We have often wondered whether there is a person in all New England, who does not know and appreciate the value of *Johnson's Anodyne Liniment* as a family medicine? It is adapted to most all purposes, and is the best pain killer that can be used.

Farmers and stock raisers have frequently told us that they have seen very good results from giving *Sheridan's Cavalry Condition Powders* to cows and swine before and after they drop their young. The powders put them in good condition, and give them strength to care and provide for the sucklings.

SPECIAL NOTICES.

Shocks to the System.

The first shock of winter tells tremendously upon enfeebled systems. Every one knows that in passing from a warm region to a cold one, or *vice versa*, the body requires as a protection against epidemics, an acclimating medicine. All travellers and voyagers admit this. It is equally necessary to acclimate the system in passing the confines of one season and entering upon another. Autumn is gone and winter is here. Prepare the frame and the constitution to meet the change by a course of HOSTETTER'S STOMACH BITTERS. This inestimable vegetable tonic increases the staminal strength of those who take it, and renders them proof to a great extent against the devitalizing power of cold and damp. These two agents are as prolific of disease as tropical heat, and animal vigor—such vigor as this healthful and pure tonic diffuses through the whole organization—is a repellant which they cannot master. A large proportion of the colds, catarrhs, and pulmonary complaints which prevail in winter, might be avoided, by strengthening and regulating the system in advance with this invigorant and alterative. Not that it is recommended as a specific for those complaints, but as a preventive of their causes. On the other hand, it is not only a preventive of, but a specific for the indigestion, intestinal irregularities, malarious fevers, bilious attacks, and nervous affection, superinduced by a chilly and damp atmosphere.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

The Best Sauce And Relish

Made in any part of the World

FOR FAMILY USE.

TO BE HAD OF ALL FIRST CLASS GROCERS

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

Ayer's Cathartic Pills,

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

LOCAL AFFAIRS.

New Advertisements to-day.

Custom Boot Work—James Sanborn.
Pressed Hay For Sale—B. F. Cate.

Laconics.

Two inches of snow, Wednesday night, brought poor sleighing.

Next year is Leap year, when the girls will take the boys out sleighing, pay all the bills, *et cetera*.

Trill-whistles are the latest nuisances about town; but in comparison with "devils' fiddles" are decidedly an improvement.

Col. Robert F. Gerrish has returned to the old homestead at Kittery, where he has settled cosily for the coming winter of his—content, we hope, being next thing to a son of York.

The tide of Thursday was the highest natural tide of the season, being level with the wharves. Had the wind blown from the east, the tide would have been higher and more destructive than that of November 15th.

The Boston papers say that the Grand Duke Alexis did not come to Portsmouth because of the illness of Commodore Pennock. We trust the report of the Commodore's illness is untrue, as such a reason for the Grand Duke's non-appearance would be far greater cause for regret than the non-appearance itself.

Brig Allston, from Bangor for Boston, which was driven ashore at Harding & Doane's during the gale of November 15th, came off on the 13th inst. Having grounded on the soft mud, a channel was dug around her and she floated during the high tide of Wednesday. The sum of $300 will, it is said, cover the expense of floating her.

Mr. James Sanborn, whose reputation as a boot maker who gives his customers perfect fits is widely extended, has established himself at Nos. 20 and 21 Daniel Street, and asks the continuance of custom from his old patrons through our advertising columns today. He "boots" well, as we know from personal experience, and we recommend tender-footed humanity to his kindly care.

Sagamore Engine Co., No. 2, gave another of their sociable and agreeable reunions on Wednesday evening, the 13th. A large party of the firemen and their lady friends, with the honorary members and invited guests of the company, including representatives of the city government, the navy, the national civil service and the press, indulged in dancing until 10 o'clock, when the tables were laid and an excellent chowder placed before the dancers, where it did not long remain. After the chowder had been duly discussed, several gentlemen were called up and made brief remarks; the hall was then cleared, and dancing was resumed and kept up until shortly after midnight, when the party dispersed. The company's motto is "We'll try;" and their trials at getting up appetizing chowders and thoroughly enjoyable social gatherings are as successful as their endeavors to win public approbation by their promptness and efficiency as firemen.

New Hampshire Items.

Good beef sells for five cents a pound by the quarter, and round hogs from 6 1-2 to seven cents a pound.

Snow is three feet deep in Coos county.

On the 9th, in Stark, Mr. Joseph Bornton of Bangor, Me., was killed by a fall of a tree. He leaves a family.

On the 9th, in Milford, Mrs. Levi Dunklee arose, went about her work, and called her husband to breakfast. On his coming to the table he found his wife seated, resting her head on one hand, dead.

DEATHS.

COL. JOHN MESERVE, for many years a resident of South Berwick, but lately of Rochester, fell dead of heart disease, last week. He left home in usual health in the morning, went into the house of a married daughter at Great Falls, said, "Well, I have come to see you but must go right back," fell forward into her arms and instantly expired. He was 86 years old, and a pensioner of the war of 1812.

MANCHESTER.—It is the cleanest victory the Republicans of that city have won for years, and is an earnest of a more brilliant victory next March, in which the whole State will join. Kindness to our afflicted Democratic friends, so manifestly pre-doomed to defeat, induces us to advise them to come down without waiting for the Republicans to fire.—*Monitor.*

—The body of a lady, which was place in a tomb at Duxbury forty years ago, has been found in a petrified state, and the robe and hair were in a remarkable condition of preservation.

—According to Meuni, a young French geologist, the globe is not destined to be consumed by fire, but to break in pieces from intense cold.

—Pennsylvania is paying her debts at the rate of $2,113,228.63 a year.

A MAN KICKS HIS OWN BRAINS OUT.—Our citizens are aware that the Mount Auburn Inclined Plane Railway is nearly completed, and that from the corner of Main and Mulberry streets it makes an ascent of two hundred and eighty feet to the summit of Mount Auburn. The stringers are already laid, partly on sills whose foundation is on a level with the sloping surface of the hill, and partly on trestles full thirty feet high. It is at the upper part of the inclined plane that the stringers rest upon trestles. The explanation is necessary to make plain what we are about to relate.

Yesterday afternoon at about 2 o'clock, Henry Wagner, ex-policeman, who lived at the corner of Walnut and Jane streets, was making the ascent of Mount Auburn by the way of this inclined plane, walking on the steep slope of a stringer. His dog accompanied him, walking before him. The ascent was made safely to within a few feet of the summit, where the stringers are laid on the highest trestles. Here the dog walked cautiously and slowly, too slowly to suit his master, who followed at his heels.

Mr. Wagner urged the dumb brute forward with words, but without success in making him go faster. At last, out of all patience, he made a kick at the dog, missed his aim, lost his balance, fell more than thirty feet to the ground, and lay there insensible and dying with his skull broken.

The dog seeing the condition of his master, and all forgetful of the blow that, had it not missed its aim, would have sent him below among the rocks, leaped down that perilous height, landed safely, took a position by his master's side, and sat guard over him, whining piteously as if instinctively conscious of the situation. With a loving fidelity the poor brute sat at his post, fiercely driving away every one who approached his dying master. The policemen who came to carry the body away had to fight the dog with clubs—a work which, out of admiration for his touching, forgiving faithfulness, they performed with reluctance, and as gently as circumstances would permit.

Mr. Wagner died at his residence, on Jane and Walnut streets, at 6 o'clock last evening. He was a cooper by trade, and plied his vocation at the time of his death.—*Cincinnati Gazette.*

—An old Mss. containing Indian tales, prepared by one Elan Crane, has the following: "Red Jacket (so well known as the brave chief of the Senecas,) once made a visit to Canandaigua, and not arriving until after dinner, the girl was ordered to make preparations for him. She, through carelessness or thinking it would do well enough for an Indian, placed on the table a dish of meat that had been visited by the flies. Red Jacket advanced to the table, and seeing the maggots busily engaged in the meat, took the dish and placed it on the sill of the door, stepped back, took his rifle, deliberately took aim and discharged its contents through the meat. The report of the gun alarmed all the house. They ran to inquire the cause. Red Jacket replied that he always killed his meat before he ate it.

RAILROAD SIGNALS.—One whistle of the locomotive means "Down brakes;" two whistles, "Off brakes;" three whistles, "Back up;" continued whistles, "Danger." A continued succession of short whistles is the cattle alarm. The conductor's signal, given by a sweeping parting of the hands on a level with the eyes, means "Go ahead." A downward motion with the hand, "Stop." A beckoning motion, "Back." A lantern raised and lowered vertically signals starting; swung at right angles or across the track, to stop; swung in a circle, to back. A red flag waved on the track is a signal of danger, hoisted at a station is a signal for stopping, stuck up by the roadside is a signal of danger on the track ahead, carried unfurled on an engine is a signal that another engine or train is on its way.

—A letter containing a $1000 check, sent from Hartford to Norwich, and not received by its owner, after causing the postal authorities some anxiety, turns out have been properly taken from the Norwich office by a young man living with the person to whom it was addressed, who put it in his overcoat pocket and exchanged his coat at a clothing store for a better fitting garment. The letter was discovered, the other day, by a man who purchased the aforesaid overcoat, and honestly sent it to its owner.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.

ROBERTS POPPING CORN!

25 FEET TRACE OF 1871 POPPING CORN

FOR SALE BY

LAFAYETTE LAIGHTON. 33

Morning Chronicle.

Interview with Alexis.

[Correspondence of the Commercial Advertiser.]

REVERE HOUSE, BOSTON, Dec. 8.

I am a single man. I haven't any pretty daughters. Nary one. I'm not in the social business. I'm not like General McDowell and General Meade. My offence is not *rank* like Othello's and many other Generals. I do not follow the fickle Goddess of Fashion—so to speak. I don't run to four-horse drays nor proscenium boxes.

Far different. I seek the bauble of fame. I should like to resemble Mr. Webster, or Mr. Irving, or Mr. Longfellow. Alas! *if* the mantle of the late D. Webster *would* only fall on my shoulders! I fear the marked characteristic of Mr. Clay, and Mr. Webster and General Washington is in *not* resembling any one now-a-days—scarcely. This is why I called into the Revere House with my neighbor-in-law Cyrus Perkins, to pay my respect to the royal Prince.

Mr. Cataczy was busy answering a friendly letter from Mr. Fish. So I told the Boston door-keeper, with a dignified air, to present my compliments and hand my card to the Grand Dupe.

The porter stood still and hesitatingly examined my clothes, from head to foot.

"Take it, young man," I said blandly, "take it to your Royal Master."

"Fifty cents, sur."

"Sir?"

"Two shillings."

"Take that card in instantly, young man, or I shall not be responsible for your early decease!" I said, with an earnest gesture.

"Half-a-dollar."

I *shook hands* with him—with the base hireling, and *then* he kindly presented my card to the Grand Dupe.

"Give us your hand, magnanimous American!" exclaimed the Grand Dupe, overcome with emotion. Then he held my hand, and asked:

"How is America getting along, Mr. Perkins?"

"It is mixed, your Highness," I replied. "Some of our citizens are too ambitious. For instance, General Butler—you know him, don't you, Alick?"

"Oh, yes, he was the General who, assisted by General Grant, subjugated the Southern States during the Revolution, wasn't he?"

"Yes, he's the one, but as I was saying, General Butler wants to run all New England and Congress too. Mrs. Woodhull wants to run all the women and part of the men; Brigham Young wants to be Saint, General, Member of Congress, and President of Utah; Mr. Sumner wants to run the Senate and State Department; Henry Ward Beecher wants to run some spiritualism, and all the theology; Mr. Fish wants to run Sumner, the Russian Minister, and the State Department too; Mr. Tweed wants to run New York City and the American Club; and General McDowell wants to run the army, the navy, and your Royal Highness too."

"You are right, Mr. Perkins," replied Alick earnestly, "and I think, as things stand, while it would be of no benefit to Siberia, still if you had a Siberia, as we have, it would be?—

"Alas! Alick, it would be a 'sweet boon.'"

"Exactly, Mr. Perkins. But your General McDowell reminds me of Napoleon I. His capture of Manassas was like Napoleon's advance from Moscow to Paris—precisely, Mr. Perkins."

"How do you like the American people, your Highness?" I asked, offering the Grand Dupe a cigar.

"*C'est grande, c'est magnifique,*" exclaimed the Grand Dupe, excitedly. "But you have one thing—what you d—n call him, one Committee to make me dance always with the old women. We have no such committees in Russia. If these five *Aspect*, what you call him, one-horse officials could know how we laugh at all their wives they would stop making speeches, and let me go and talk with the pretty girls."

"Alick!" I broke in, interrupting him, "say no more. Your head is level. You suit Eli Perkins. You've got good Yankee blood in you—you have! Yes, Alick, we are a great nation. We've good soldiers. Our Seventhers are bully boys. Our theologians are sound on the goose. General Grant is sound as a kus on the Ku-Klux. Our girls are the handsomest and the sauciest in the world, and our horses pass everything (going the other way) on the road. You have old ruins in Russia, but we build our houses very shabby, and we shall soon have ruins—splendid ruins—here too. You have the monument of Alexander II., but you have nothing *precisely* like Washington Monument. The world don't furnish another Congress like ours. Where else can you find a Congress where one man says a thing, another denies it — where no conclusion is reached, but where each man does and says just as he pleases, whether he wants to or not? Where is there a Russian—a Russian statesman—who pounds over his boot heels and wears the same white coat which he used to wear, now and forever—one and inseparable—like Mr. Greeley?

Where is the city in the world which has been sold within two hundred years for 27 pounds as New York was to Peter Minuet, and which has been sold over and over again since by Mr. Tweed and Mr. Sweeney, and still claims to own itself?

Where, your Highness, is the Democratic Legislature in Europe, which has had prize-fighters and ministers sitting in the same hall of state?

What nation can boast of being so free as to make laws against adultery and then permit men to have sixteen wives, or live together by the hundred, as at the Oneida Community? Blush with shame, O scion of the house of Romanoff, because you have not these things. Where in your old world despotism can a man shoot an author in a public printing office, and have six newspapers and twelve jurymen sustain him? Where do you see the glorious career of intemperance so beautifully exemplified? Where—"

"Nowhere, Mr. Perkins—nowhere!" interrupted the Grand Dupe as he fixed his mellow eyes upon me and wiped a silent tear of regret from his manly cheek.

"But, Alick, I must be gone," I continued. "Duty calls and I obey. A. Romanhoff, adieu!" and Cyrus and I went around to see Bunkum Mill Monument and the big organ.

"Come again and spend the day with me, illustrious and magnanimous American," said Alick, as we strode towards Court Street.

I said I would.

"Which is the way to Faneuil Hall?" I inquired of a little boy who stood still reading a Sabbath-school book.

"Right straight ahead, up Court Street, sir!"

We walked on. We kept walking. By and by we came to another boy reading a Sabbath-school book.

"Which way to Faneuil Hall, my good lad?" we inquired.

"Why, gosh blast it, I told you fifteen minutes ago!

Gracious! We'd been walking right round and round!"

The streets of Boston are crooked!

ELI PERKINS.

THE SUBSCRIBER having purchased the Interest of Mr. B. F. MUGRIDGE in the late firm of GRANT & MUGRIDGE, will continue the Meat and Provision Business at the old stand in the Brick Market. Thankful for past favors, would solicit a continuance of the same. JOHN H. GRANT.

Portsmouth, Oct. 23, 1871. o24

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scarfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

They are a Gentle Purgative as well as a Tonic, passessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawf6t6

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S compound still has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR somethings reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

WINTER CARE OF SHEEP.—Sheep are looking up. The tide has turned. But unless sheep are to be taken up as a permanent part of the farm stock and proper care and attention given to them, it would be better for the farmer to let them alone. Sheep properly cared for, are the most profitable and least troublesome farm stock; but if neglected and improperly managed, none so soon become out of condition and become diseased and die. Winter is the most trying time for them. "Coddling" is the most hurtful thing. With good feed a flock of sheep would do better to lie out of doors in the snow the whole winter, than to be kept in a close, warm stable. Running at the nose and lung disease will surely follow too close penning up. Unless the weather is stormy, or the ewes with lamb are near their time, they would be turned into a field every day. They should have fresh water (access to a spring is best) at least once every day. It is a mistake that sheep will thrive with snow for drink, and yet many flocks are permitted thus to quench their thirst every day through the winter. Clover hay is the best standard feed, with half a pint of oats, rye or buckwheat daily. Sheep do better with a little change in their feed occasionally. Salt, in which a fourth part of sulphur is mingled, should be placed where they can always have access to it. Corn-stalks may do as a coarse feed to pick amongst, but as a standard feed it does not seem palatable enough for them. They will live on it but do not thrive. Separate the flock into at least two portions. The lambs, and in-lamb ewes which may be weakly, should, at all events, be taken from the strong, hearty ewes, wethers and bucks, and extra care given to them. It is still better to keep the wethers and bucks by themselves, and thus make three divisions. Guard against dogs, which at this season are more than ever mischievous. If a dog is kept on the farm, let him be well acquainted with the flock and they with him. Above all things, be patient, quiet, attentive and exactly regular in feeding and watering, not overfeeding nor starting the flesh, but, having found the right way, persevere therein, and do not swerve one way or the other from it. One cannot neglect his sheep one day and make up by extra care the next.—*American Agriculturist.*

THE GUELPHS.—The learned in the remote antiquities are accustomed to say that Queen Victoria is decended from the hero Waden, of whom the Norsemen made a god, and who gave his somewhat ungracious name to our modern day Wednesday. An Italian adventurer, named Azon d'Este, engaged his sword in the service of the Emperor Conrad toward the close of the eleventh century, and founded the house of Hanover by marrying Cunegunda of Guelph, a very wealthy woman. He dropped his own name and was henceforth known as Guelph. Their son married the widow of the Earl of Kent, the brother of Edward the Confessor, and these found much favor in the eyes of Henry the Fourth, who took away Otho Saxony's Bavarlain possessions and gave them to the newly married pair.

Lucky marriage brought this enterprising family higher and higher, until one of the sons married a daughter of Henry the Second, King of England, who succeeded in getting her father to give her husband the countships of Brunswick and Lunenburg. These countships became duchies under Otho the the Fourteenth, and William of Guelph became a duke. These Guelphs fettered through a variety of marriages until they came to the seven sons of the great-grandfather of George the First, King of England. These sons, all dukes, were each entitled to a share of his possessions. But in order not to split up the family coronet, the brothers made a solemn compact that only one of them should make a legal marriage. This would make the autonomy of the house complete; and the compact was adhered to.

The sixth son was the one who contracted the legal marriage, and his eldest son married the grand-daughter of James the First, thus clearing the way for an alliance in future with the crown of Great Britain. The house of Hanover owes its existence on English soil to-day to judicious "match-making." This son secured the title of Duke of Hanover, and, as his father had done, prevailed on his brother to devote himself to celibacy. But a morganatic marriage, contracted with Eleonora d'Albrense, a French refugee from Louis Fourteenth's religious tyranny, has always been a thorn in the side of the Hanover dynasty. A daughter by this marriage became the wife of George the First, and every one remembers the story of the cruel manner in which she was treated, and how her old schoolfellow who tried to defend her when she had fled the cruelty of her husband was assassinated. On her deathbed she summoned her tyrant to answer for his crimes at the bar of God before a year passed. He went to find his judge within that year. The morganatic marriage did as much to embarrass the house of Hanover as the former artful alliance had done to exalt and enrich it. At the death of King William the Fourth the crown was separated from that of Great Britain, as a law prohibits women from ascending the Hanoverian throne.

BUCHU

(From Dispensatory of the United States.)

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION.
Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

594 Broadway, N. Y., and 104 South Tenth St., Philadelphia, Pa.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! Increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

STEAM SAFES
—AGAIN—
TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.
AM. STEAM SAFE CO.,
COLE & LAMBERT, *Managers,*
350 Broadway, N. Y.

Gentlemen:—"The Binghamton Planing Mill and Sash and Blind Factory," together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 7) made by you, and purchased one year ago from Messrs. Falge & Chaffee, Agents, in this city, was in the Planing Mill, and went through the severest part of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red hot and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild. Very truly yours,

(Signed.) A. L. HARDING,
Late Proprietor Canal St. Planing Mill, Binghamton.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART.,
Boston, Jan. 1 1871.—1 yr.

SATURDAY, DECEMBER 16, 1871.

Jury Trials.

The Cincinnati Merchants' Bulletin has given up all confidence in jury trials as at present conducted. It advises all who find themselves in court to avoid appealing to "twelve of their peers," for they won't get them, and continues:

How much better would it be to permit and encourage litigants and suspected parties to have their cause heard before, and submitted to the calm, unimpassioned judgment of a full bench, or even a single judge whose high standing, legal acumen, integrity and impartiality would be the guarantee of a just decision. In such a case, no bullying advocate could intimidate, no subtle attorney over-reach, no sophomoric legal fledgling confuse the mind of the arbiter, and in ninety-nine instances of a hundred equal and exact justice would be done, so far as the law and the evidence could be applied.

That it would be better for those litigants who have right on their side, and for "suspected parties" who are wrongfully accused, to have their causes submitted to the judgment of a full bench or even of a single judge, no one can doubt who has ever paid any attention to the practical working of the jury-trial system of the present day; but the abolition of the jury system would be disastrous to criminals, and as the Bulletin intimates, would go far to nullify the influence of "bullying advocates" and "subtle attorneys" in so managing the judicial tribunals as to make them little better than means for protecting criminals from the consequences of their crimes and for enabling might to triumph over right. That "the law" is intended for the protection of all who obey its commands may be true; yet in the light of the manner in which it is administered under the witness-bullying, jury-trial plan, a previously uninformed spectator would be more likely to imagine that it was intended for the special protection of law-breakers.

Let a person be accused of any crime, and he (or she) at once becomes something extremely sacred in the eye of the law, with an unusual amount of rights which all men are bound to respect. No "inducements" may be offered to secure a confession; no improper questions may be asked him in court, and no answers to any questions can be demanded, unless the suspected criminal chooses to give them. But any person who takes the stand as a witness against another, at once forfeits all claim to protection from the law; the most insulting questions may be and are asked; and should the witness be a woman of spotless reputation and gentle culture, the most infamous insinuations against her character may be and are conveyed in questions concerning her private life—questions which, no matter how they are answered, leave, (as they are intended to leave) a blemish on her good name which a life of unblemished virtue can never entirely remove, and a suspicion in the minds of the "twelve men in a box" which is none the less favorable to the criminal's cause for being unfounded and erroneous. The practice of assuming that witnesses have no rights is shown as only Wendell Phillips can do it, in that gentleman's lecture from which we recently made extracts on the subject. He asserts that in the courts of no other country but ours would such outrageous disregard of decency and honor be tolerated for a moment; and however that may be, we have heard counsel in a British court rebuked by the bench and compelled to apologize for putting a question far less offensive and insulting than we have known to be asked of respectable women on the witness stand in open court in this city, and which the "gentleman" of the bar was allowed to repeat and press home without a word of opposition from the bench,—and we believe New Hampshire courts and judges will compare favorably with those of any State in the Union.

We will add to Mr. Phillips' illustrations of the working of the witness-bullying practice in our courts, an incident which came under our own cognizance. A lady applied for a divorce, basing her claims on a course of drunkenness and ill-treatment on her husband's part, extending over many years. The preliminary steps were taken, and with the mass of evidence which she could present there was no question of her petition being granted; but two of her daughters, who had just arrived at early womanhood, had been notified to appear for the defence; and the wife and mother, happening to be in the court when a female witness whose reputation she knew to be spotless was being tortured and having her character blackened by the brutal and shameless (and unchecked) questioning of a "gentleman" of the bar, at once withdrew her suit, declaring that she would rather suffer all her life than have her daughters compelled to submit to such infamous treatment.

This witness-bullying is for the jury, not the bench; and it is successful in exact proportion as the witness is timid and of good reputation. The woman whose reputation is lost cares nothing for a lawyer's insinuations or open assertions that she is not an estimable character; it is the virtuous woman who becomes confused, embarrassed and terrified by the insults of the "legal gentlemen," and who while thus tortured hopelessly muddles a story which fair, gentlemanly questioning would perhaps have left perfectly clear and straightforward. But the end of the lawyer is gained and the presumed aim of the law is defeated—a witness is punished and a criminal is set free. With a bench of upright judges to decide on the evidence as well as the law, such practices, disgraceful alike to our boasted civilization and to manhood, would be much less frequent; the incentive to them would be gone. Intelligent magistrates would know the relative value of testimony given by a witness when cool as compared with that elicited under the agonies of a "gentlemanly" cross-examination, and would give to each its proper weight,—which juries of ignorant blockheads (and such juries are no rarity) are unable to do; and the insulting and bullying of witnesses being of no further use, would in a great measure cease.

Congress.]

Senate.—A bill was introduced on the 14th providing that there be annually receive into the service three hundred boys between the ages of fifteen and seventeen years of age, to serve as apprentices until they are twenty-one years old, at such pay as shall be fixed by the President, and at the end of that time be entitled to examination for promotion to the grade of seamen, said seamen however, not to be in addition to the whole number allowed by law.

House.—The apportionment bill was passed, after an all-day's discussion; it provides for a House of 283 members, all of whom in 1876 and the years following are to be elected on a uniform day in November. In the new apportionment, Massachusetts gains and Vermont and New Hampshire each lose a member, and by the bill no State will be entitled to admission and representation until it has the requisite number of voters to entitle it to a representative.

The new apportionment will be as follows:—Maine 5, New Hampshire 2, Vermont 2, Massachusetts 11, Rhode Island 2, Connecticut 4, New York 32, New Jersey 7, Pennsylvania 26, Delaware 1, Maryland 6, Virginia 9, North Carolina 8, South Carolina 5, Georgia 9, Alabama 7, Mississippi 6, Louisiana 5, Ohio 20, Kentucky 10, Tennessee 9, Indiana 12, Illinois 19, Missouri 13, Arkansas 4, Michigan 9, Florida 1, Texas 6, Iowa 9, Wisconsin 8, California 4, Minnesota 3, Oregon 1, Kansas 3, West Virginia 3, Nevada 1, Nebraska 1.

War With Spain.—A Washington Telegram says grave apprehensions are entertained in official circles that our government cannot longer honorably avoid serious complications with Spain, resulting from the breaking of the often repeated pledges of the Spanish government as to the policy to be pursued in Cuba. It is intimated by high officials that a crisis in our diplomatic relations with Spain has arrived, and there is a great change in the temper displayed by those who direct the Cuban policy in their communications to our government. A war between the countries is likely to ensue. A leading member of the Senate Foreign Relations Committee has expressed the opinion that war at the present time would be of great benefit to the United States, in the end resulting in this country obtaining possession of not only Cuba, but Saint Domingo and adjacent islands.

Political.

The Dover Enquirer says there is to be a new Democratic paper in that city with J. L. Foster as editor. Now, what's the use for Joshua to go to Dover? Dover is overwhelmingly Republican now. Why not go to upper Coos, where there is room for a larger Republican gain?

The New York Herald calls the platform of the New Hampshire Democracy "trimming and evasive," "flat" and "a flash in the pan." It makes no difference whether the Democrats of this State are "passives," "possums," or "pollywogs" — we've got them this time, sure; and the Herald should know it, without placing the responsibility of coming Democratic defeat with Democratic attempts at suicide.

The great questions of the day are—"What shall I purchase for a Christmas present?" and "I wonder what my Christmas present will be?"

New Subscribers who now pay in advance for the Daily Chronicle or N. H. Gazette for the year 1872, will receive either paper gratis until January. We will furnish the Daily Chronicle and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the New Hampshire Gazette and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the Gazette and Cultivator & Country Gentleman for $4 per annum—in advance.

Dr. R. V. Pierce, of Buffalo, N. Y., sole proprietor of Dr. Sage's Catarrh Remedy, whose name is printed on the wrapper of the genuine, has for over three years offered, through nearly every newspaper in the United States, a standing reward of $500 for a case of Catarrh in the head which he can not cure. That he has treated thousands of cases and had no claims presented for the reward, from any one who has made a thorough use of his means of cure, is strong and conclusive evidence that he possesses sure means of curing this loathsome disease. The Catarrh Remedy is sold by all druggists or sent by mail on receipt of sixty cents. 568

BUSINESS NOTICES.

Rare Chance.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost *given away.* Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

To Those who are Bowed Down by nervous Debility, and despair of ever recovering the vigor and vim of manhood we earnestly recommend Dr. Walker's California Vinegar Bitters. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

Persons who have become thoroughly chilled from any cause, may have their circulation at once restored by taking into the stomach a tea-spoonful of *Johnson's Anodyne Liniment* mixed in a little cold water, well-sweetened.

Every farmer who owns a good stock of horses, cattle and sheep, and intends to keep them through the winter, should get at once a good stock of *Sheridan's Cavalry Condition Powders.* One dollar's worth will save at least half a ton of hay.

Well Known—The American House, Boston. Messrs. Rice keep pace with the times, and supply every valuable improvement for the comfort and convenience of their guests.

SPECIAL NOTICES.

Shocks to the System.

The first shock of winter tells tremendously upon enfeebled systems. Every one knows that in passing from a warm region to a cold one, or *vice versa*, the body requires as a protection against epidemics, an acclimating medicine. All travellers and voyagers admit this. It is equally necessary to acclimate the system in passing the confines of one season and entering upon another. Autumn is gone and winter is here. Prepare the frame and the constitution to meet the change by a course of HOSTETTER'S STOMACH BITTERS. This inestimable vegetable tonic increases the staminal strength of those who take it, and renders them proof to a great extent against the devitalizing power of cold and damp. These two agents are as prolific of disease as tropical heat, and animal vigor—such vigor as this healthful and pure tonic diffuses through the whole organization—is a repellant which they cannot master. A large proportion of the colds, catarrhs, and pulmonary complaints which prevail in winter, might be avoided, by strengthening and regulating the system in advance with this invigorant and alterative. Not that it is recommended as a specific for those complaints, but as a preventive of their causes. On the other hand, it is not only a preventive of, but a specific for the indigestion, intestinal irregularities, malarious fevers, bilious attacks, and nervous affection, superinduced by a chilly and damp atmosphere.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces Immediately a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

td30 **Sold by Dealers Everywhere.**

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

Hon. Jacob H. Ela, Ex-M. C. from this district, has been appointed Fifth Auditor of the U. S. Treasury. We are glad to chronicle this appointment. Mr. Ela is a man of strict integrity, and will look after his department with the view of having it administered honestly and wisely.

The Prince of Wales is likely to recover.

—Recently two persons travelling on the road to Gotham in a light wagon were smoking cigars, from the fire of which some straw at the bottom ignited. The flames soon drove them from their seats, and while busy extinguishing the fire, a countryman who had been for sometime following them on horseback, alighted to assist them. "I have been watching the smoke for some time," said he. "Why, then, did you not give us notice?" asked the travellers. "Well," responded the rustic, "there are so many new-fangled notions nowadays, I thought you were going by steam."

Ballou's Monthly Magazine is well known, and has a host of readers in this vicinity. It has gained an immense circulation by its judicious catering to the public tastes. Every issue has fresh stories of travel and adventure by sea and land, a young people's department, and spirited illustrated sketches, while its extremely low price brings it within the reach of all. The publishers, Messrs Thomes & Talbot, whose card appears in our Boston list, also publish that excellent family paper, "The American Union," acknowledged to be one of the best in New England.

☞ The New Hampshire Gazette for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

Job and Card Printing.—We have made great additions to our Jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for Full Sheet Posters, Date Slips, Pamphlets, Sermons, Addresses, Auction Bills, Constitutions, By Laws, Programmes, Manobills, Circulars, Orders Dances, Blanks, Bill Heads, Receipts, Tickets, Business, Marriage, Address and Visiting Cards, Labels, Tags, and in fact Printing of Any Description, at Satisfactory Prices. Orders received by mail, express, or at the Chronicle Office will be *promptly filled.*

Special Meeting.

A special meeting of the Stockholders of the Eastern Railroad in New Hampshire will be held at the Passenger station of the Eastern Railroad, in Portsmouth, N. H., on

Tuesday, the 26th day of December, inst.,

at 11 o'clock in the forenoon, to see if the Stockholders will authorize the Directors to take a lease of the Wolfeborough Railroad, and to adopt such measures as they may deem expedient in relation to said Railroad, its lease, construction, or operation.

WILLIAM H. HACKETT, Clerk.

"He Did His Level Best."

A Boston & Maine Railroad "frog" is responsible for much. The train due in this city from Boston at 7 o'clock, P. M., of Thursday, was over two hours behind time, because a freight train at Somerville on the B. & M. Railroad chose to break a "frog" and thereby prevent the passage of the Eastern Railroad trains. The 4.45 train from Boston had Rev. E. E. Hale aboard, and how could he do "his level best" with an audience fifty odd miles away? At Somerville "confusion worse confounded;" at Portsmouth in the Universalist Church, seven hundred expectant individuals whiling away the time. "Frogs" should show more discrimination in the future!

An audience that had been bored by two successive lectures that were dull and lacking in interest would not desert their seats for an accident, when it was found that the lecturer was doing his "level best" to overcome the distance between him and his audience. A half hour elapsed after Alderman Marvin announced the delay of the train, when he again entered the church, escorting Alderman Annable to a front seat. Mr. Annable bears a striking resemblance to Rev. E. E. Hale and was at first mistaken for that gentleman, his advent being Hale-d with tumultuous applause, for which Mr. Marvin tendered the thanks of Mr. Annable. Of course a chuckle, a subdued titter and an increased volume of laughter followed, until every face in the church bore signs of extreme good nature.

This "waiting for the train" was better than listening to dull essays. Two of the finest looking men in the city were applauded as they arose to doff their overcoats, and faced the audience with a *nonchalance* that again brought the house down. And so time passed on. Alderman Marvin broke the ice, and eloquent and stirring half-minute speeches were made by Chief Engineer Moore, U. S. N., James P. Bartlett, Esq., and Ex-Alderman Jos. Hiller Foster. An impromptu praise meeting was organized and the audience joined in singing several well known hymns.

Suddenly at ten minutes after 9 o'clock, the lecturer strode up the aisle with hair dishevelled and evident intent to make up for lost time. Applause was liberally bestowed on his appearing, and he at once announced his arrival and plunged into the subject of his evening story-lecture just as the last pea-nut (shell and all) had been consumed by the bevy of professionals nearest the south-easterly entrance.

For seventy minutes that audience enjoyed the peculiar reading of the memoir of the ridiculous individual worth sixty odd thousand dollars, who married a lady with sixty odd thousand more—of their mutual endeavors to do just as other people bade them, of the gradual disappearance of their capital, and their final "settlement" in a poor-house. The lecturer's moral was plainly visible from the first, and the story was so pleasantly put that the audience did not regret remaining to hear it. Rev. E. E. Hale is a prolific writer, a hard worker and a speaker whose heart is in his work. He believes in doing good in the most cheerful manner and his droll conceit in sugar-coating advice to his hearers would make the dryest lucubration a feast. So it was that in spite of the broken "frog," the delay and the remembrance of what came before him, he succeeded in enforcing the moral on the minds of the jolly seven hundred that it is better to do one thing well, than many things by halves.

City Council.

IN BOARD OF MAYOR AND ALDERMEN, Thursday, Dec. 14:—Voted, That the Chief Engineer and the Mayor be authorized to buy one thousand feet of canvas hose.

The Committee on Fire Department to whom was referred the communication from the Chief Engineer, reported the following recommendations: 1st, That the city horses be kept harnessed and not allowed to be used in the treadmill or out of the compact part of the city, and that another pair of horses be bought for the joint use of the Street and Fire Department. 2d, That the watchmen be ordered to carry rattles and give the alarm when fire is cried until the bells are rung. 3d, That a suitable place be hired for the keeping of the Hook & Ladder truck. The report was accepted, and the subject of hiring a place for the Hook & Ladder truck referred to the Committee on Fire Department to report what suitable place can be procured and on what terms; and it was voted to instruct the watchmen as recommended. The Committee on Streets with Mayor added, were authorized to dispose of the two white horses owned by the city, and purchase two others for work on the streets and occasional use of the Fire Department.

The Committee to whom was referred the communication of the State Liquor Agent, reported the following resolution, which was passed: Resolved by the Mayor, Aldermen and Common Council, that it is not expedient to appoint any agent in this city for the sale of intoxicating liquors.

Mr. Eldredge's complaints of water-course through his land on Creek Road was received, and it was voted that a wooden conductor be placed, under the direction of the Committee on Streets.

Committee on Schools asked for further time in regard to bell and tower on Cabot Street School House, which was granted. Adjourned.

Coming Trouble.

Hon. Frank Jones, while in Lowell, Thursday, took out his watch to see about the train time, and was facetiously asked by Major M. Donovan to give it to him. He replied that he would if the Major would take him to Portsmouth in a wheel-barrow to the door of the Rockingham House. It was accepted on condition that if the Major failed he was to pay a dinner for fifty of his own friends in Lowell. The watch, valued at $475, was handed over to a party in trust and deposited in one of the city banks. The trip is to commence at 12 M. on Monday next. Mr. Jones says that if the Major is successful he will have a band of music ten miles out from Portsmouth to meet him. It was further arranged that all of the accompanying party should go on foot. Further preliminaries about the barrow were arranged. No time was fixed for its completion, but it is to be performed on consecutive days. The Lowell cornet band will escort them outside the city limits. Messrs. Jones and Donovan each weigh about 235 pounds.

Laconics.

Auction sale this day (Saturday) of wreck, lime, horses, carriages, sleighs, harnesses, etc., by M. T. Betton & Co., at the auction rooms on Congress Street. See adv't.

The friends of Sergeant Durling and wife gave them an old fashioned surprise party, at their residence in Kittery, on the 8th.

The young men of Kittery have organized a Debating Club, with Rev. A. W. Pottle for President, and Calvin L. Hayes, Secretary. They meet weekly for discussions on different topics.

The old stable, corner of Pleasant and Washington Sts., which has so long been a source of annoyance to the residents of that locality, is to be removed forthwith. Mr. Leonard Cotton, the owner, is to receive the sum of $50 for removing it, the subscription having been made by those residing in the immediate vicinity of the building, who were prompted to the effort by fear of a conflagration at sometime, which would endanger much valuable property. Every one will be ready to congratulate the Southenders in thus getting rid of a nuisance.

Sale at the auction store on State Street, by H. F. Wendell, this day, of piano, stoves, carpets, furniture, etc. See adv't.

Dr. Dean of Franklin Academy left property amounting to about $320,000, $5000 being willed to Miss Emma D. Senter, daughter of Mr. T. G. Senter, formerly a well known teacher of this city. Miss Senter is teacher of French at Franklin Academy.

Mrs. Mary A. Livermore will tell Lyceum goers what they must do with their daughters, next Thursday evening. Of course the daughters will attend, and the sons will be on hand to listen to ascertain where those daughters may be found when Mrs. Livermore has no further use for them.

One of our resident physicians reports that four days previous to Thanksgiving Day he had twenty-one patients ill, but that the four days' wind which blew from the Northwest, afterwards, brought such healing on its wings that on the following week all but two were entirely recovered.

—We want to give Gov. Weston four or five thousand majority, next March, and to do it, every Democrat must work.—*Local Democratic Organ.*

We should say so! Poll every Democratic vote in the State, William, and then Gov. Weston will not have four majority.

MARRIAGES.

In this city, Dec. 14, by Rev. C. M. Dinsmore, Mr. HARRY M. CLARK and Miss GEORGIE A. BURGOYNE, both of Portsmouth.

DEATHS.

In Newton, Mass., Dec. 12, Mrs. ELIZABETH GLAZEBROOK, of this city, widow of the late Charles Glazebrook, aged 76 years, 8 mos.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHING

IN THE MARKET,

All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.

ROBERTS POPPING CORN!

25 FEET TRACE OF 1871 POPPING CORN

FOR SALE BY

LAFAYETTE LAIGHTON, d9

Morning Chronicle.

COULD WE COPE WITH SPAIN AT SEA? This is a fair question, and one that implies no disrespect to our own naval administration, or lack of confidence in our own elasticity. But it is well to consider, before going into a fight, the size and weight of one's antagonist, and even if one is certain that he can eventually floor him, to be careful and ward off all blows intended to be damaging. We need a fleet at Havana to protect American citizens. Good. Suppose that hostilities should break out and we should need a fleet of observation along our own coast? And suppose that we should find it rather difficult to concentrate, were it necessary, the scanty naval force we are credited with?

The Spanish navy is admirably organized. The number of men inscribed on the naval conscription lists in 1870 was sixty-six thousand, all between eighteen and thirty years of age. The naval districts of Spain, i. e., the districts from which sailors are conscripted, are entirely among coast and seafaring populations. There were in active service in 1870, 7354 sailors and 5800 "marines," commanded by 1100 officers. The navy ready for action at the end of the last year consisted of seventy-three screw steamers, carrying 734 guns; twenty-four paddle steamers, carrying 127 guns, and thirteen sailing vessels, carrying 202 guns. Seven of the Spanish iron-clads are of the stuanchest English build. The "Victoria," the "Numancia," the "Arapiles," are very famous in European waters.

At about the same time that these facts concerning the Spanish navy were published, the Government of the United States announced that its naval force, "effective for immediate service," was 43 vessels, mounting 365 guns. The whole number of vessels was as follows: 46 iron-clads, 97 steamers, and 82 sailing vessels, in all mounting 1356 guns. But actually ready, only 365 guns. The forces at the immediate command of Spain certainly seem quite as formidable as those with which we should undertake to maintain the dignity of the United States.—*Boston Journal.*

LIGHT ON A DARK SUBJECT.—We print the following extract from an article in the Philadelphia Journal of Applied Chemistry in our columns, because it is as applicable to this locality as any other city:

The custom of paying for gas by the cubic foot, without regard to its illuminating power, is like buying all cloth at a uniform price per yard, without any question as to the fineness of the wool. No one would like to pay as much for shoddy as for cassimere, and yet shoddy gas is the principal article now furnished to consumers, while the price actually paid calls for the best gas that can be made. The city companies should be compelled to furnish a gas of a prescribed density and fixed candle-power. Some of the London companies pride themselves on keeping up the illuminating power of their gas to the maximum standard of fifteen candles, and in twenty-two English works the gas from the best coal ranges from twelve to fourteen candles, through burners consuming five cubic feet per hour. It is difficult to say what the average in New York may be, but from some observations made by ourselves with Bunsen's photometer, we are disposed to put it, in cold weather, at below ten candles. Besides the loss to the consumer in the amount of light afforded by a poor gas, there is another difference which tells in favor of the company. Assuming the specific gravity of the poor gas to be 5, and that of a rich gas 7.50, the former will pass thro' the burner much faster than the rich, and increase the bills of the consumer from 30 to 50 per cent., without any corresponding increase in the photometric power of the gas.

There ought to be a fixed standard, say sixteen candles, prescribed by law, and an inspector appointed to see that the companies comply with it, and in case of any breach of contract a heavy penalty should be imposed. It is not darkness that we want, but light, and for the sake of the thousands of poor sewing women and working men something should be done to save money and eyesight. Let quality, not quantity, govern in this matter." We have plenty of gas, but not enough light.

EDUCATION IN KENTUCKY.—In Kentucky, and probably in many of the Southern States, the qualification of the teacher depends in a great measure upon the character of his political opinions. Whatever may be his merits in other respects, if he is not "sound on the goose" in this matter, he is a schoolmaster who cannot be abroad for the purpose of teaching the young idea how to shoot, among the chivalry. The Woodford (Ky.) Democrat is responsible for the statement, that at a recent examination of an applicant for the position of teacher in one of the public schools of that place, the questions propounded by the "committee man" and the answers thereto, were after this fashion: "Where are you from, sir?" "From Virginia, sir." "Where were you during the war, sir?" "I was in the confederate army, sir; was wounded twice, and (unbuttoning his coat) am not ashamed to show them, sir." "All right, sir! all right! Mr. Commissioner, write him a certificate." Where the prime qualification for a man's ability to teach is of this character, it is no wonder that the South is the prey of carpet-baggers, or that in many of its counties scarcely more than one in five of its population can read and write.

NEW ADVERTISEMENTS.

AGENTS Wanted.—Agents make more money at work for us than at anything else. Business light and pleasant. Particulars free. G. STINSON & CO., *Fine Art Publishers*, Portland, Maine.

CHICAGO AND ITS DESTRUCTION. A full and complete history of Chicago, her past, present and future. With graphic scenes, incidents and full details of the disaster, by Geo. P. Upton and J. W. Sheahan, editors of the Chicago Tribune. With over 400 pages, and 50 illustrations. It is now ready for delivery.

THIRTY YEARS' EXPERIENCE IN THE TREATMENT OF CHRONIC AND SEXUAL DISEASES.

A Physiological View of Marriage.

The cheapest book ever published—containing nearly three hundred pages, and one hundred and thirty fine plates and engravings of the anatomy of the human organs in a state of health, Cause and disease, with a treatise on early errors, its deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by a report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of twenty-five cents,—in stamps or postal currency,—by addressing DR. LA CROIX, No. 31 Maiden Lane, Albany, N. Y. The author may be consulted upon any of the diseases upon which his book treats, either personally or by mail, and medicines sent to any part of the world.

HARVEY FISK. A. S. HATCH.

FISK & HATCH,
BANKERS
and Dealers in Government Securities,
No. 5 Nassau Street,
New York, Nov. 20, 1871.

The successful and rapid negotiation of nearly three-fourths of the **FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY** has induced us to commence the prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for Interest Certificates of the Bonds, as stated in the following letter of Mr. HUNTINGTON, President of the Company:

OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.

Messrs. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:

The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington on the Ohio River, and the Falls of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to receive coal and other business, that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order for traffic, and the work of renewing the masonary on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 31 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.

In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.

Very respectfully yours,
C. P. HUNTINGTON, *President.*

In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.

The scarcity of, and demand for, really

Desirable six per cent. Gold Bonds,

for solid and permanent investments, is evinced by the facts that

Five-Twenty Bonds of 1867 are selling at...115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds selling at..94

These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.

The reason why FIVE-TWENTY Bonds are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.

The reason why we think CENTRAL PACIFIC BONDS will in time advance to the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.

The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.

The **Chesapeake & Ohio Bonds** are issued either coupon or registered—the denominations are as follows:

$100, which cost to day.....$94.13
$500 " " " 471.56
$1000, " " " 943.12

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, and be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

We buy and sell Government and Central Pacific Bonds and receive them in exchange for Chesapeake and Ohio Bonds.

Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*

FISK & HATCH.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA
VINEGAR BITTERS,
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfeb16

PACIFIC MAIL STEAMSHIP CO.'S

THROUGH LINE TO CALIFORNIA, CHINA AND JAPAN,

Touching at Mexican Ports and carrying U. S. Mail

FARES GREATLY REDUCED.

One of the large and splendid Steamships of this line will leave Pier No. 42, North River, foot of Canal St., New York, at 12 o'clock M., on the 15th and 30th of every month, (except when those dates fall on Sunday, and then on the preceding Saturday,) for ASPINWALL, connecting via Panama Railway with one of the Company's Steamships from Panama for SAN FRANCISCO, touching at MANZANILLO.

All departures connect at PANAMA with Steamers for SOUTH PACIFIC and CENTRAL AMERICAN ports. Departure of 16th, touches at Kingston, Jamaica.

For Japan and China, Steamer leaves San Francisco first of every month, except when it falls on Sunday, then on the day preceding.

One Hundred Pounds of Baggage allowed each adult. Baggage masters accompany baggage through, and attend to ladies and children without male protectors. Baggage received on the dock the day before sailing, from steamboats, railroads and passengers who prefer to send down early. An experienced surgeon on board. Medicine and attendance free.

For freight or Passage Tickets or further information apply at the Company's ticket office, on the Wharf, foot of CANAL ST., NORTH RIVER, NEW YORK, to F. R. BABY, Agent; or to the Agents for New England, O. L. BARTLETT & CO., 16 Broad street, BOSTON,

49 1-2 Exchange St., Portland.

BOSTON'S PECULIARITIES.—A letter to the New York Tribune has the following spice:—

Alexis bowed beneath the roof of the ball which opened as a sort of menagerie for the exhibition of the dancing Bear. Actually, the social infallibilities of Boston were guilty of the bad taste of forming a breathless and immovable circle around the Duke while he went through the solitary quadrille of the moment with the happy seven selected by the committee. But what would you? The ridiculous refinements of the depraved, not to say effete, European courts we despise. Our manners are those of republican simplicity, and so long as we have the spirits of men, or cats, we will look at kings, be they dancing or not dancing. And Alexis was a goodly sight to gaze upon as he danced, as he danced. He is handsome as a young Apollo, with his tall, lithe figure, his pale, high-bred face, his crisp hair and whiskers so warmly, deeply brown, his celestial blue eyes. The specimens of royalty and nobility that wander to our shores are not always thus.

* * * * * *

Boston Infants on the scene came with cherubic noise; they are—I would they had not been—terrestrial girls and boys. Little dears! They sang to Alexis, and eke they waved small but violent cotton flags, which, with the background of great organs, formed a scene of unexampled gorgeousness and Cradle of Liberty-ness. Let no distinguished foreigner imagine that he can visit Boston and escape the harmonious troublings of her scholastic babies and of the Handel and Haydn Society. They are the only performers in the world who *never* have colds. Sometimes it is the Handel and Haydn; sometimes it is the Infants. Sometimes it is the Handel and Haydn *and* the Infants. Sometimes it is the Infants *and* the Handel and Haydn. In this case it was both. For at the Sunday night concert,

"When Thomas' band, it took its stand
So sweetly in the middle there,
And soft bassoons played heavenly chunes,
And violins did fiddle there."

the Handel and Haydn arose and shone. And really they did it very well; their perfect training, their contagious *elan*, were never more apparent. Even Rocco's ravishing harp-notes were not more precise and silver-clear than the chording echoes of Mendelssohn's delicious "Farewell to the Forest." All that could be seen of Music Hall that night was the ceiling and the pink cambric petticoats it had donned in honor of the Duke. The audience was like a swarm of bees, so thickly was it packed.—

"And as the Duke with princely air,
Reclaimin' on his cushion was,
All 'round about the royal chair
The starin' and the pushin' was."

The programme was long. Cataeazy grew uneasy, but the Prince didn't wince. He clapped in a kindly way, and once he coughed, whereat every ear was strained to catch the sacred sound. Ah, the beauteous belles of Boston, how they stared! They were all eye admiration. One pretty bit of enthusiasm beside me, after restraining her emotions for five minutes, exploded thus, *au serieux*; "How his mother must love him!" The young man John, behind me, observed to the landlady's daughter—in eyeglasses—"Rabther nice lookin' young feller, the Grand Duke, ain't he?" To whom the expressive She, "Oh, ain't he! He looks so clevah!" And to look "clevah" in Boston, don't you know, is something for which the gods and one's ancestors can never be sufficiently thanked. * * A certain lecturer of yours says that every pulsation of the—something—oh, heart and brain, I believe, of New England, is felt by you of New York. It is so, indeed? How much and what does big, bustling, virile, vivid New York take from Boston's solemn cleverness? Does it not take Colonel Fisk, my friends, and his men-servants, and his maid-servants, and his cattle, and the light of Tereweth with them? Seriously, for a city of radicals, Boston is very narrow. There is a *couleur locale* over everything. It is not in the least cosmopolitan. It is virtuous, it is charitable, it is—clever. It hath Gilmore, and the Pilgrim Fathers, and the Infant Band of Harmony, and Bunker Hill, and the Handel and Haydn, and a small group of as brilliant literary men as ever lived; and hath the lecture in linked sweetness indefinitely drawn out. Somebody says that every other man one meets in the street is a lecturer, and every other woman a poet or a political malcontent. It is a city of contradictions—self-sufficient, yet restless; brilliant intellectually, heavy socially; free and broad as the rushing winds to the limitless Heaven—narrow with the narrowness of the Puritan who changes his opinions, while his mental constitution he cannot change.

—A Scotch nobleman has the paths in his garden entirely paved with the inverted bottoms of bottles. Being well rolled and filled with gravel, they present the appearance of innumerable black, glittering rings, confusing to the eye, but making the best of walks.

—If you don't stop using tobacco the first thing you know you will have the amaurosis, angina pectoris, hypochondriasis and locomotorataxy.

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Disease, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION. Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

594 Broadway, N. Y., and 104 South Tenth St., Philadelphia, Pa.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give rest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The patient's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

STEAM SAFES

—AGAIN—

TRIUMPHANT!

BINGHAMTON, N. Y., Oct., 7th, 1871.
AM. STEAM SAFE CO.,
COLE & LAMBERT, *Managers*,
200 Broadway, N. Y.

Gentlemen:—"The Binghamton Planing Mill and Sash and Blind Factory," together with several other large buildings, were totally destroyed by fire last night. The Steam Safe (No. 7) made by you, and purchased one year ago from Messrs. Talpe & Chaffee, Agents, in this city, was in the planing Mill, and went through the severest part of the fire; it fell into the basement, top down. To-day it was cooled off with water from the hydrant, and when opened the contents were found to be in perfect condition; not even the varnish inside the book-case was injured. Our confidence in the Steam Safe, (and hundreds of other citizens who saw it at a red heat and were present at the opening,) is perfect after this severe test. I shall want another Steam Safe as soon as I rebuild. Very truly yours,
(Signed,) A. L. HARDING,
Late Proprietor Canal St. Planing Mill, Binghamton.

All Styles of Mercantile and House Safes ON HAND AND MADE TO ORDER

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and* plant than and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability as this, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART.

DEARBORN'S, Market St

The Daily Chronicle,

Portsmouth, N. H.

MONDAY, DECEMBER 18, 1871.

DEMOCRATIC CONSISTENCY.—In the House of Representatives, on the 13th, Mr. Hoar of Massachusetts, from the committee on education, reported a bill for the appointment by the President, with the advice of the Senate, of a commission of three, for two years, unless their duties are sooner accomplished, to investigate the subject of wages and hours of labor, the division of the joint profits of labor and capital between laborers and capitalists, and the social, educational and sanitary condition of the laboring classes of the United States, and show how the same are affected by existing laws regulating commerce, finance and currency,—the commissioners to receive a salary of $5000 each, and to report the result of their investigation to the President to be transmitted to Congress. The bill was opposed by Mr. Kerr, a Democratic member from Indiana, who moved to place it on the table. Several Republican members defended the bill in brief speeches, most of the Democrats showing themselves bitterly opposed to it. Mr. Storms, a Kentucky Democrat, finally opened the eyes of his friends by showing that the democracy must support this measure or acknowledge their entire record of pretended regard for the laboring man to be a sham, and most distinctly enunciated principles in defence of the people and of the masses against caste and capital.

WHAT IS TRUTH?—The Prohibitionists, in their Address to the People, make it a ground of complaint against the Republicans, that while they "secured last year the nomination of a gentlemen for Governor to whom Prohibitionists could not object, the leaders of the party, with a few honorable exceptions, coolly folded their hands and saw their candidate defeated—pleading a defect in public sentiment as the cause of the defeat."

It may suit the purpose of the authors of this address to put the defeat of Mr. Pike in this light—but what are the facts? It is true that he was "a candidate to whom Prohibitionists could not object"—but did they vote for him? The returns show that, "with a few honorable exceptions," they,—the men who run the Prohibitory Law as a political machine, we mean,—did no such thing. They had a candidate of their own in the Rev. A. G. Comings, who carried off just about the number of votes which Mr. Pike lacked of an election; and further than this, they had candidates for Representatives who received in some towns the votes which defeated the Republican candidates, whereby the Democracy were able to control the House of Representatives and deprive Mr. Pike of his election by the Legislature.

Such being the facts, and when, as the address of these Prohibitionists also admits, no one of the Republican candidates, circumstances considered, ever received a larger vote" than Mr. Pike did, is it not plain that they were chiefly responsible for his defeat—that, notwithstanding all the other drawbacks attending that election, they had it in their power to elect a good temperance man, an avowed prohibitionist, one to whom they could not object, but they refused—preferring to see one who was just his opposite in the Governor's chair?

We cannot believe that the true friends of Temperance in the State are prepared to repeat this folly, unless they wish to see all prohibitory liquor laws repealed and "free trade and equal rights," both to the rum-seller and the rum-drinker, inaugurated once more.

The Democratic party, who know that every vote cast for temperance candidates other than those nominated by the Republican party, is bringing grist to their own mill, are now, as they were last year, very desirous to see the thing go on. This fact alone ought to convince those engaged in the movement that it is calculated to advance anything but the cause of Temperance.—*Journal.*

WOMAN'S MARKSMANSHIP. — The Elizabeth (N. J.) Herald thus happily alludes to a remarkable peculiarity of the down-trodden sex:

Did you ever see a woman throw a stone at a hen? It is one of the most ludicrous scenes in every-day life. We recently observed the process—indeed, we paid more attention than the hen did, for she didn't mind it at all, and laid an egg the next day as if nothing had happened. In fact, that hen will now for the first time learn that she served in the capacity of a target. The predatory fowl had invaded the sacred precincts of the flower bed, and was industriously pecking and scratching for the nutritious seed or the early worm, blissfully unconscious of impending danger. The lady now appears upon the scene with a broom. This she drops, and picks up a rocky fragment of the Silurian age, seizing the projectile with the wrong hand. Then, with malice aforethought, she makes the further blunder of swinging her arm perpendicularly instead of horizontally—whereupon the stone flies into the air, describing an irregular, elliptical curve, and strikes the surface of the earth about as far from the hen as the thrower stood at the time and in a course due west from the same, the hen then bearing by compass N. N. E. by E. half east. At the second attempt the stone narrowly missed the head of the thrower herself, who seeing that any further attempts of the kind may be suicidal, does what she might have done at first—starts after the hen with an old familiar weapon. The moral of which is "stick to the broom-stick."

In common with the rest of mankind, we have often been amused at the inimitable awkwardness of women or girls who were grace itself in other movements, when they attempted to usurp man's special privilege of throwing stones; and one of the purest delights of our school-boy days we found in frequently teasing a little girl some four years older than ourself and with whom we were desperately in love, (she's married now and has a large family of children, and when we were introduced to her some years since she asked if she had not met us previously, as our name seemed quite familiar,) until her sweet spirit would turn to wrath and impel her to attempt punishing our impudence by throwing various missiles in regular girl-fashion, *i. e.*, in such a manner as to imperil everything near her except the mark aimed at; possibly one reason why we enjoyed the sport so much was because it was so safe. We also retain a vivid remembrance of the time when the lady teacher detected us thus annoying our little sweetheart, and punished us by sitting us on a bench at the back part of the schoolroom, between the two biggest girls in the school. Why we were thus punished we understood very well; but the reasons for the teacher boxing our ears and seating us on a high stool in the middle of the floor, with our back to the scholars and a most humiliating inscription pinned across our shoulders, later in the afternoon, we have never heard explained. Nor did we ever (until recently) hear any satisfactory explanation given for woman's supreme awkwardness in throwing a stone. We once questioned a medical man on the subject, and he said he supposed it was owing to her ridiculous dress; but the ladies of Tahiti, the Ladrone islands and the Fejees are equally as awkward as their civilized sisters, though their dress could not possibly interfere with any motion of the arm or body; nor would education account for it, for the first time a boy attempts to cast a stone at his neighbor, at a cat or a pane of glass, he swings his arm laterally, while a girl as invariably whirls her arm over her head in her first attempt at launching a missile, using the forearm and wrist as the principal projecting power, and not the shoulder and arm together. This was always a mystery to us, until we found what seems to be a satisfactory explanation in an essay on "Physical Indications of Longevity in Man," written by Dr. J. V. C. Smith of Boston and published by the American Popular Life Ins. Co. of New York. Dr. Smith says:—

A woman, of ordinary physical development, seems to have more breadth between the shoulders, examined in front, than she really has. Her shoulders are actually set farther back than the shoulder-joints of men. Posteriorly, the shoulders approximate nearer; but unless scrutinized carefully, that arrangement might escape the eye of any one not an artist. The collar-bones of women are longer than the same bones in men,—forcing the shoulders back, as it were, in order to furnish a wider space in front, for a very obvious reason. This fact makes it clear why it is that they cannot throw balls, or any thing with force and precision, although they can perform many other apparently much more difficult feats with ease and grace. When they attempt throwing, as men do, it invariably excites the laughter of spectators on account of their awkwardness, contrasted with their otherwise graceful movements. No training can overcome it, because the difficulty lies in the length and anatomical attachment of the clavicles.

THE FARMERS' STATE CONVENTION at Manchester, on Thursday last, was well attended. In the forenoon Colonel John M. Weare of Seabrook read an essay on neat stock, Dr. S. G. Pattee of Warner, one on wheat culture, and D. H. Goodell of Antrim read one on specialties in farming. All the essays were ably discussed. In the afternoon John Johnson, Esq., of Framingham, Mass., read an essay upon grasses. In the evening Dr. George B. Loring delivered a lecture on the "Advancement of Science and its Practical Application." Hon. H. R. Roberts of Rollinsford followed with an essay entitled "Will Farming Pay?" Among those who took part in the discussions were Dr. Loring, Leander Wetherell and Hon. J. S. Gould of New York. Among the Premiums awarded for articles exhibited was one of $15 to James W. Hoyt of Newington, for large corn, and one of $2 to Charles Hayes of this city, for barley.

—The Grand Duke Alexis has sent $5000 to New York for the relief of the poor. The donation was distributed as follows: $1000 to the society for the relief of destitute children of seamen, and $4000 to the society for improvement of the condition of the poor.

WILL THIS PROMOTE HARMONY IN THE PARTY?—The Rochester Courier says:—

Exeter politicians have long had the reputation of exerting a most demoralizing and corrupting influence upon Republican politics. It is there we find courts called upon to enforce payment for the work of corruption. It was there the convention of circle-swinging-Johnsonized politicians originated. It is there, also, that the better part of the Republican party are disgusted by the exhibition of taking one of these Johnsonizing Bread and Butter Renegades, who is now unblushingly demanding payment from another Exeter politician for services and expenses in securing "hireling delegates," and elevating him to a high position in the seat of Customs at Boston.

Cui Bono?

BUSINESS NOTICES.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost *given away.* Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and vim of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

Persons who have become thoroughly chilled from any cause, may have their circulation at once restored by taking into the stomach a tea-spoonful of *Johnson's Anodyne Liniment* mixed in a little cold water, well-sweetened.

Every farmer who owns a good stock of horses, cattle and sheep, and intends to keep them through the winter, should get at once a good stock of *Sheridan's Cavalry Condition Powders.* One dollar's worth will save at least half a ton of hay.

SPECIAL NOTICES.

Shocks to the System.

The first shock of winter tells tremendously upon enfeebled systems. Every one knows that in passing from a warm region to a cold one, or *vice versa*, the body requires as a protection against epidemics, an acclimating medicine. All travellers and voyagers admit this. It is equally necessary to acclimate the system in passing the confines of one season and entering upon another. Autumn is gone and winter is here. Prepare the frame and the constitution to meet the change by a course of HOSTETTER'S STOMACH BITTERS. This inestimable vegetable tonic increases the staminal strength of those who take it, and renders them proof to a great extent against the devitalizing power of cold and damp. These two agents are as prolific of disease as tropical heat, and animal vigor—such vigor as this healthful and pure tonic diffuses through the whole organization—is a repellant which they cannot master. A large proportion of the colds, catarrhs, and pulmonary complaints which prevail in winter, might be avoided, by strengthening and regulating the system in advance with this invigorant and alterative. Not that it is recommended as a specific for those complaints, but as a preventive of their causes. On the other hand, it is not only a preventive of, but a specific for the indigestion, intestinal irregularities, malarious fevers, bilious attacks, and nervous affection, superinduced by a chilly and damp atmosphere.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of served or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening fumishes a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

WILLIAM M. TWEED has been arrested and remains in charge of a sheriff. The Grand Jury found a bill against him charging him with committing felony. Tweed was occupying his private parlors in the Metropolitan Hotel and was taken by surprise. It is understood that these proceedings are based upon affidavits made by Keyser. He was committed to jail.

WILLIAM DOORAY, of Lynn, cut his wife's throat with a dirk, Saturday, and was shot and killed by City Marshal Barrett after a police officer had been stabbed seven or eight times.

WE ARE PLEASED TO LEARN that James Kendrick, Esq., formerly of the Concord Railroad, has accepted the Superintendency of the Old Colony Road.

—The house of Mr. Charles Davis, in Pittsfield, Mass., came near being burned a few nights since, by the explosion of a kerosene lamp.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a magnificent Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, BLANK BILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

New Stock—Nowell & Co.
Lost—Jet Ear-ring.

Howard Benev't Soc'y.

We take from the Journal the following statement of the work performed by the above society, and its present condition. At the annual meeting the following officers were elected:—

President, Ichabod Goodwin.
Secretary, Lewis W. Brewster.
Treasurer, John Stavers.
Directors, Horton D. Walker, William Day, Benj. Cheever, Samuel S. Green, John W. Fernald, Benj. Carter, Joseph D. Pillow, Joseph M. Edmonds, Wm. Hodge, John H. Broughton, Lyman D. Spalding, Rev. L. L. Harmon.
Auditors, Joseph Foster and John S. Rand.

The following are the Committees for dispensing charities:

For Dec.—Messrs. Goodwin, Day and Harmon.
" Jan. 1872—Hodge, Green and Cheever.
" Feb. " Walker, Stavers and Carter.
" Mch. " Fernald, Broughton and Spalding.
April to Dec., Pillow, Edmonds and Brewster.

To indicate the extent of the charities of this noble, unassuming, and entirely inexpensive institution we present a digest of the Treasurer's account for the past year:

Expenditures.		*Receipts.*	
Wood,	42.26	From old account,	144.70
Groceries&provis's	718.07	Collections,	267.75
Balance on hand,	127.12	Int. on investm'ts,	470.00
		Donations,	5.00
	$887.45		$887.45

The property belonging to the Society at the present time is as follows:

Estate on High street, left by the late Mrs. Bail, valued at	$3000
Legacy of the late Samuel Sheafe, Esq.	500
Proceeds of concerts, fairs, &c.	500
Legacy of the late Mrs. Mary Cutts,	3000
Legacy of the late Miss Elizabeth Walker,	500
	$7,500

The Portsmouth Howard Benevolent Society in its operations reaches and benefits a class of people who, were it not for its existence, would suffer from want. It carries comfort and relief to the poor, the feeble, the sick and the aged. It could do more for their relief if its means were more ample, or if they could be increased. The Directors of the Society again appeal to a generous public, to members and to the friends of the institution at home and abroad for aid in its behalf. The books for subscriptions and donations will be circulated and presented the present month to the members and others in the city. To the sons and daughters of Portsmouth away, from whom we have heretofore received donations, we again appeal in behalf of this noble charity. Any sums of money sent by mail or otherwise will be thankfully received and acknowledged by the treasurer. It will be perceived by our account that we have on hand but a small amount of money at the present time with which to purchase our supplies for the winter. We make this appeal in the words of the blessed Saviour—the poor ye have always with you, and when ye will ye may do them good.

Very respectfully,
JOHN STAVERS, Sec. F. H. B. Soc.

Laconics.

That elegant sleigh in the window of Terhune & Berry is to be given to one of the numerous customers who buy one dollar's worth of their goods previous to New Year's Day.

If one of the wheel-barrow betters does not back out of the wager made last week, Hon. Frank Jones will take a ride that bids fair to last a week, commencing at Lowell to-day. The distance from Lowell to Portsmouth is about 55 miles, and Major Donovan will be obliged to average nearly ten miles a day. We should not care to be either of the parties in the transaction.

The mails from Boston now arrive here on the first down train at 10 A. M., the postal car being detached from the Pullman train and run as of old. Mails for the east close at 9.45. This arrangement is very convenient for our citizens, and is more satisfactory to the people of all cities and towns between Boston and Portland.

An exchange says, patronize merchants and let travelling auctions go to the dogs. The merchants' profits go to build up the town, their improvements make labor, increase the value of all property, and their wares are all good, all worth your money. Did it ever occur to you, reader, that your merchant, regularly established in business, can afford to sell first-class goods cheaper than a crew running hither and thither, paying travelling expenses, license, etc., can?

The investigation into the cause of the late fire at the Catholic church will be continued before the Board of Engineers, this evening. Canon Walsh has been summoned to appear.

Washington Encampment, I. O. O. F., of Manchester, visited Mt. Sinai Encampment of this city, Friday evening, and the Manchester Union says they had a pleasant time.

Schooner Piscataqua is being fitted out by Mr. Christian Johnson, to carry a cargo of fish to the West Indies. She is owned by Johnson and others.

That Navy Yard nut, cracked last week, had no meat in it.

A Concord correspondent of the Great Falls Journal states that the "Ring" favor the nomination of Hon. Horton D. Walker for Governor. We do not know who the "Ring" are, but we understand that the wire pullers who brought about the nomination of Hon. Jas. Pike last year are favoring Hon. Samuel W. Haile of Keene, now. Mr. Walker is not and never was connected with any "Ring," and we know that he has repeatedly refused positively to engage in an active canvass for the nomination. If the people are left to do their own voting, we have no doubts of Mr. Walker's nomination, and if he is nominated it will be without his personal solicitation. His friends are by no means lukewarm, however.

Delegates Chosen.

At the Ward One Republican caucus, Friday evening, the following delegates were chosen to attend the various conventions:—

State—Wm. H. Y. Hackett, Geo. W. Pendexter, John Pender, John H. Hutchinson, Dan'l J. Vaughan, Joseph H. Emery, Isaiah Wilson, James W. Emery.

Councillor—John Hedgdon, Jas. A. Waterhouse, Haven L. Scott, Hiram C. Locke, Henry L. Garrett, Wm. C. Ham, Francis I. Wilson, Dan'l G. Raitt.

County—John A. Lamprey, Sam'l D. Foye, Wm. H. Jellerson, Wm. Conn, Wm. Kennedy, Wm. F. Batten, Jas. H. Thompson, Edw. P. Marden.

Senatorial—Chas. A. Shannon, Sam'l A. Spinney, John G. Tibbetts, Willis L. Hidden, Robert King, Frank B. Johnson, John P. Oliver, Wm. R. Martin.

At the same time and place, the Ward One Committee was chosen, as follows:—John Pender, Jas. A. Waterhouse, John H. Locke, John A. Lamprey, Dan'l J. Vaughan, Chas. A. Shannon, Willis L. Hidden, Wm. C. Ham, John Walsh, Sam'l A. Spinney, John Walton, John G. Tibbetts, Jos. H. Emery, Sam'l D. Foye, Jas. R. Morrison.

New Hampshire Items.

The sprightly little Tilden Enterprise, published by the ladies of Tilden Seminary, has reached its second volume. It is edited by the senior class of the Seminary and reflects great credit on the young ladies having it in charge. They will find their work a pastime and will doubtless look back upon the hours spent in editing it as among the most useful of their lives. It is a welcome visitant to our table and we wish it and its conductors success and ample satisfaction.

Mr. John H. Downing, a farmer of Great Falls, about 65 years old, on Thursday last dropped dead of heart disease while sitting upon a load of wood which he was carrying to market.

Seven hundred men are at work on the extension of the Boston and Maine Railroad from South Berwick to Portland.

Towns may exempt from taxation for a term not exceeding ten years, any establishment therein, or proposed to be erected or put in operation therein, and the capital used in operating the same, for the manufacture of fabrics of cotton, wool, wood, iron, or any other material; and such vote shall be a contract binding for the term specified therein.

THE NATIONAL ASYLUM.—The annual meeting of the board of managers of the National Asylum for Disabled Volunteer Soldiers was held at Washington last week. There were present President Grant, General Butler, General J. H. Martindale of New York, Ex-Gov. Fred Smyth of New Hampshire, Gen. Thomas O. Osborn of Illinois, Hon. Lewis C. Gunckle of Ohio, Surgeon General Wolcott of Wisconsin and Gen. John S. Cavender of Missouri.

Reports from the several asylums were of the most favorable and satisfactory character. The rolls show that over 4,000 disabled soldiers are now cared for by the national asylums—being at least 1,000 more than were supported last year. Of these, 1,700 are at the Central asylum, near Dayton, Ohio; 620 at the North Western asylum, near Milwaukee, Wisconsin; 525 at the Eastern asylum, near Augusta, Maine; 260 at the Southern asylum, near Hampton Virginia, and the remainder are aided by out-door relief.

These numbers are being increased at the rate of about 100 per week; it is apparent that the capacity of all the asylums will be taxed to their utmost during the present winter. But as the board has never yet refused a home to any disabled soldier, ample provision has been made that no one shall suffer in the future.

UNHEALTHY PRACTICE.—An eminent physician calls attention to a practice as unhealthy as it is unpleasant; and says it should be stopped, and that is, drying a child's linen before the fire. He says it should be dried in the sun and open air, as the weather permits. He says the mother thus not only avoids saturating the air of the room with the volatile and poisonous gases driven out of the linen, but the sun's rays have the power of cleansing and disinfecting which artificial heat has not, and will purify and preserve the linen.

—E. H. Derby of Boston gives it as his opinion that China and Japan will take from us 50,000 tons, or 111,000,000 pounds of butter and cheese per annum, whenever we shall be able to deliver it.

MARRIAGES.

In this city, Dec. 12, Rev. L. L. Harmon, Mr. BENNING MOORE, Jr., of Kittery, Me., and Mrs. ANNIE E. MCKENNEY of Portsmouth.—Dec. 14, CHAS. O. JOHNSON and Miss ANNIE JEMISON, both of Portsmouth.

BOSTON.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.
The Success of the Company is far beyond that of any other similar concern; the
Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.
All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the
SINGER
seems to unite the good qualities of all, and is never found wanting.
THE SINGER
IS THE
OLDEST
SEWING MACHINE
IN THE MARKET,
All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.
It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.
N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.
J. J. FESSENDEN,
Agent for Portsmouth, and Vicinity,
No. 12 VAUGHAN ST.

Morning Chronicle.

New Publications.

The December number of *The Radical* contains a paper of Francis Gerry Fairfield, entitled "The Old Dream of Humanity from the Standpoint of a New Dreamer;" one on "Marriage" by Moncure D. Conway, one on "Margaret Fuller Ossoli" by Anna C. Brackett; and several other essays and poems not inferior in vigor, thought and forcible style to those in any other periodical.

The January number of *The Nursery* is now ready. We do not know how this excellent periodical for youngest readers could be made more acceptable. It maintains its place as the best magazine of its kind. A subscription for it would be a jolly Christmas present to any child who loves pretty pictures and delightful stories.

The Galaxy for January has a portrait and sketch of "Archbishop Manning," the latter by Justin McCarthy; "The Red Gulf Stream," by Hayes, "Fifteen Years a Shakeress;" "My Life on the Plains," by Gen. G. A. Custer; "The Jews; What They are Coming To," by W. M. Risenblatt; "Milan and the Italian Lakes," and "Fire from Heaven," a well-told story, with the continuations of Miss Edwards' and Anthony Trollope's novels, and the customary miscellaneous reading, scientific deparment, etc. The Galaxy improves in quality, and bears all the promise of a continuance of the remarkable success it has had during the publication of its twelve past volumes.

The Star Spangled Banner takes its 100,000 readers by surprise in the issue for January, 1872, just received. It is enlarged to the size of the N.Y. Ledger, and appears in an entire new dress, elegant new heading, border, type, etc. It contains one-half more reading than formerly, and is greatly improved in every respect. This number contains four Stories, Poetry, Wit and Wisdom, Sketches, Knowledge in a Nut Shell, Money Maker's Mirror, Children's Department, Health Department, Farm and Farmer, Cook's Corner, Ladies' Boudoir, Pen and Scissors, Chip Basket, and the "Rogue's Corner," a special feature of this paper. One thousand swindlers, quacks and humbugs were named and exposed during 1871. The publishers of the "Banner" give a new and superb "Prang Chromo" and their large and readable paper a whole year for 75 cts. Copies can be had from any newsman, or by sending 6 cents to Star Spangled Banner, Hinsdale, N. H.

A "HORSY" ADVERTISEMENT.—The following advertisement of a "horse restaurant" keeper is published in a Nevada paper:—

"Live stock faster than anybody's, and all trained to respect woman's rights—also children's—yet warranted to get away from anything else on the road. Buggies, broughams, barouches, hacks, sulkies, road wagons, hearses and every kind of vehicles for slow or fast travel—with horses to match. Funeral turnouts cheerfully furnished, and guaranteed to make the proper impression. Bloated aristocrats from abroad taken on to any road, and warranted ahead of any stage or any other conveyance—for money. No complaint is ever heard from stock fed in this stable. More hilarity than was ever known in any other collection of dumb animals since the procession from Noah's landing. No hay ropes about this establishment—everything is turned loose; the key to the barley sacks hangs dangling within the reach of the humblest horse in the stable, and no pains are spared to make the guests of the establishment distinguish the difference between this and the desert waste."

RETROGRADING MONKEYWARDS.—It is worthy of note that while a malignant hatred of Chinese is fomented under cover of hostility to their immigration, our females have fallen in love with Chinese costumes and customs, in some respects, and accepted them as models. The pictures of Chinese ladies to which one has been accustomed for many years, bear a close resemblance to the American belle of to-day. The repulsive hump, the crippled feet, and mincing gait of our women, if they do not fortify the Darwinian theory of the origin of the species from monkeys, at least give the appearance of retrograding monkeywards. The dress, uncouth and deforming as it is, would not of itself deserve notice; but the high heels; distorting the limbs and crippling the feet, are an outrage on grace, on anatomy, on humanity, entitling the authors, could they be detected, to criminal responsibility. Women whose pedals are solidified might escape with only corns, but that a whole generation of little girls should have their toes jammed into the points of their boots, to do the work of heels, and that their legs should be thrown out of the natural balance, and the pliant bones bent into semi-circles, is a sacrifice to fashion that would disgrace a nation of Hottentots.—*Pacific Medical Journal.*

—The parents of James Grady, who was hanged last spring at Washington, have both died broken-hearted. His words are fulfilled: "This will kill my father and mother."

NEW ADVERTISEMENTS.

AGENTS Wanted.—Agents make more money at work for us than at anything else. Business light and permanent. Particulars free. G. STINSON & Co., *Fine Art Publishers*, Portland, Maine.

AVOID QUACKS.—A victim of early indiscretion, causing nervous debility, premature decay, etc., having tried in vain every advertised remedy, has discovered a simple means of self-cure, which he will send to his fellow-sufferers. Address J. H. REEVES, 78 Nassau St., N. Y.

THIRTY YEARS' EXPERIENCE
IN THE TREATMENT OF
CHRONIC AND SEXUAL DISEASES.
A Physiological View of Marriage.
The cheapest book ever published—containing nearly three hundred pages, and one hundred and thirty fine plates and engravings of the anatomy of the human organs in a state of health and disease, with a treatise on early errors, its deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by a report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of twenty-five cents, in stamps or postal currency, by addressing DR. LA CROIX, No. 3a Maiden Lane, Albany, N. Y. The author may be consulted upon any of the diseases upon which his book treats, either personally or by mail, and medicines sent to any part of the world.

HARVEY FISK. A. S. HATCH.
FISK & HATCH,
BANKERS
and Dealers in Government Securities,
No. 5 NASSAU Street.
New York, Nov. 20, 1871.
The successful and rapid negotiation of nearly three-fourths of the **FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY,** and the energetic prosecution of the work of construction and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:
OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.
Messrs. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:
The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonary on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.
In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.
Very respectfully yours,
C. P. HUNTINGTON, *President.*
In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.
The scarcity of, and demand for, really
Desirable six per cent. Gold Bonds,
for solid and permanent investments, is evinced by the facts that
Five-Twenty Bonds of 1867 are selling at...115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at..94
These bonds all pay both principal and interest in New York in U. S. gold coin, and are equally safe for investment.
The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.
The reason why we think CENTRAL PACIFIC BONDS will be time advance to the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.
The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.
The **Chesapeake & Ohio Bonds** are issued either coupon or registered—the denominations are as follows:
$100, which cost to day.....$94.13
$500 " " " 471.56
$1000, " " " 943.12
Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded by Express, Bonds or money will be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.
We buy and sell Government and Central Pacific Bonds and receive them in exchange for Chesapeake and Ohio Bonds.
Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*

Portsmouth, Oct. 23, 1871. o24

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!
THEY ARE NOT A VILE FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.
They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawf&w18
J. WALKER, Prop., R. H. McDONALD & CO. Druggists & General Agents, San Francisco, Cal., and 32 & 34 Commerce Street, New York.
☞ Sold by all Druggists and Dealers.

N. B.—All letters must contain one dollar or they will not be answered.
Office hours from 8 A. M. to 9 P. M.
Boston, April 11, 1871. eodawly

AYER'S
SARSAPARILLA,
FOR PURIFYING THE BLOOD.
A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cures of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges put the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

PACIFIC MAIL STEAMSHIP CO.'S
THROUGH LINE TO CALIFORNIA, CHINA AND JAPAN,
Touching at Mexican Ports and carrying U.S. Mail
FARES GREATLY REDUCED.
One of the large and splendid Steamships of this line will leave Pier No. 42, North River, foot of Canal St., New York, at 12 o'clock M., on the 15th and 30th of every month, (except when those dates fall on Sunday, and then on the preceding Saturday,) for ASPINWALL, connecting via Panama Railway with one of the Company's Steamships from Panama for SAN FRANCISCO, touching at MANZANILLO.
All departures connect at PANAMA with Steamers for SOUTH PACIFIC AND CENTRAL AMERICAN ports. Departure of 15th, touches at Kingston, Jamaica.
For Japan and China, Steamer leaves San Francisco first of every month, except when it falls on Sunday, then on the day preceding.
One Hundred Pounds of Baggage allowed each adult. Baggage masters accompany baggage through, and attend to ladies and children without male protectors. Baggage received on the dock the day before sailing, from steamboats, railroads and passengers who prefer to send down early. An experienced surgeon on board. Medicine and attendance free.
For freight or Passage Tickets or further information apply at the Company's ticket office, on the Wharf, FOOT OF CANAL ST., NORTH RIVER, NEW YORK, to F. R. BABY, Agent; or to the Agents for New England, G. L. BARTLETT & CO., 16 Broad street, BOSTON,
49 1-2 Exchange St., Portland.

COAL! COAL!
ROBERTS & CO. are prepared to sell COAL as Low as the Lowest, of Equo Quality, at PRAY'S WHARF, North End Market Street, Portsmouth. jel3dtiat

Portsmouth Daily Chronicle.

ESTABLISHED 1862. | MARSTON & FREEMAN, PROPRIETORS. | GEO. W. MARSTON, I. P. MILLER, EDITORS.

$6 per Year, in Advance. | PORTSMOUTH, N. H., TUESDAY, DECEMBER 19, 1871. | 3 Cts. Per Copy.

The Chronicle.

—A Kentucky State lunatic asylum patient made a nocturnal meal off his bed-blanket.

—It is said that the United States census embraces seventeen million women. Who wouldn't be a census?

—Trenton N. J., owns the largest circular saw in the world. It is twenty-two feet in circumference.

—A Sioux City paper tells of a woman there who "died, and was dead two hours, and recovered again."

—A free supply of water, it is said, would add a million dollars a month to the present gold yield in California.

—A witness in the New Bedford Superior Court, in describing a dispute between two parties, said that one of them finally *loudened up.*

—Over four thousand pensions were paid in New York last week, including General Dix and Thurlow Weed, who were privates in the war of 1812.

—Every news-dealer in Syracuse, N. Y., has been indicted by the grand jury and summoned before the court, for selling obscene pictorials and weeklies.

—An intelligent Alabama negro, being taken with the gripes, dosed himself with resin and alum, "de alum to draw the parts togedder and the resin to soder um." He recovered.

—The London Court Journal says: "The New York Tribune alludes to that brotherhood which we claim with the Mother Country. If the Tribune keeps on in that way our foreign 'relations' will soon be hopelessly involved."

—The English churches are praying for the recovery of the sick Prince, while most of them regard him as anything but a princely fellow, and would regret his advent to the throne, and will regard his peaceful removal as a beneficent dispensation of Providence. A little downright honesty would greatly improve the quality of ecclesiastical religion.—*Golden Age.*

—A married man of Glenbeulah, Wis., who had been away from his loving wife for some months working in another State, was lately taken dangerously sick. He sent for his wife to Glenbeulah to come at once and care for him. Now the wife's mother was sick, too, and she sent this despatch to her languishing husband: "Dear Tim, mother is sick; I can't leave her. Do the best you can. If you die, send your body home."

—Strange to say, the Chinese learn more immorality from contact with Christian sailors and traders than the missionaries can unteach, and when the religions are brought in contact theirs seems to them the better of the two. The most scholarly missionaries translate the best works of Chinese literature, and probably Confucius, Mencius, and Laotse have more admirers in England and America than Christ has in China. And this is a modern missionarying.—*Golden Age.*

CAPE COD GOING.—The Chatham Monitor, alluding to the breach made in Nauset beach by the recent gale says: During a period of fifty years the greatest part of the whole beach has been torn up and placed in a new location. Eventually the remaining part will be likewise removed and then the tide will begin to gnaw away. The prophecy of the renowned geologist will undoubtedly then begin to be fulfilled in earnest, and our entire cape will ultimately be submerged beneath the ocean.

—It appears that nothing in Boston interested the Grand Duke so much as the grand concert of the school children, and the visits which he subsequently made to the schools themselves. There was something distinctly American. He saw children from all classes of the community gathered in the same schools, and seated together in the same forms, with only such classification as their relative age and progress might require. He witnessed their readiness and their proficiency in their studies, their fine appearance of health, their bright cheerfulness, and their eager interest in their work, and he might well feel that in these schools is to be found the explanation of our institutions, and of the hapiness and contentment which prevail thoughout the country.

—Mr. Connolly has done his utmost to get the amount of his bail reduced by putting in an ingenious plea of innocence. He was the one white lamb in the whole flock of black sheep or wolves disguised in wool. But the plea does not seem to avail. The voice of the ex-Controller has a much stronger resemblance to the chorus of a whole menagerie, than to the blast of a lamb. True, his pockets are unfortunately empty, but his elegant mansion and valuable corner lots speak for themselves; and though the friends he has helped to enrich with plunder have forgotten him in his dungeon and disgrace, the public he has helped to plunder have not forgotten that once he was very poor, and now he is very rich, while between the poverty and the riches there is nothing but the City Treasury. Yet Mr. Connolly is undoubtedly the honestest rogue connected with the ring.—*Golden Age.*

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in the favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES—SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS,

IN ONE

OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With wofal measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

HELMBOLD'S GENUINE PREPARATIONS. Established upward of twenty years. Prepared by

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs,*

NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their application in a form to secure to them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.,

Boston, Jan. 1 1871.—1 yr.

The Daily Chronicle,

Portsmouth, N. H.

TUESDAY, DECEMBER 19, 1871.

THE KU-KLUX.—Despatches and letters from South Carolina show that the case against the Ku-Klux Klan is as strong as could be desired. Nearly all the correspondents intimate, and many of them say plainly, that Mr. Reverdy Johnson is heartily sick of the whole business and wishes he were well out of it. Some of the local lawyers for the defence, in withdrawing for their clients the plea of not guilty and pleading guilty, expressed their horror at the atrocity of some of the crimes confessed. The arts of the lawyers were exhausted in preventing a fair trial of the cases on their merits, and they only succeeded in limiting the trials to that part of the indictments charging the prisoners with conspiracy. Many of the criminals were willing to sacrifice themselves and go to the penitentiary in order to prevent the evidence from being given; but others, less generous, refused, and the trials are going on. Whatever way the cases turn,—though that does not seem to be doubtful,—the evidence of confession of horrid crimes by many of the prisoners is too strong to be refuted by any denials that can possibly be made.

AFFAIRS IN MEXICO continue to grow worse. The revolution is spreading and the revolutionists have got possession of several more States. President Juarez has opened Congress with a speech. The people are said to believe that in American intervention is the only salvation of the country. So one side says. Another account says the revolution in Mexico is probably a failure. Only two states have risen, and there is no popular excitement. Diaz is a fugitive through Caraca, pursued by Rocha and Alatonic. The country is only disturbed by robbers. There seems to be a discrepancy here.

THE CLAIMS against Great Britain, as they are stated by the American commissioners, may be classified as follows: First, the claims for direct losses growing out of the destruction of vessels and their cargoes by the insurgent cruisers. Second, the national expenditures in the pursuit of those cruisers. Third, the loss in the transfer of the American commercial marine. Fourth, the enhanced payments of insurance. Fifth, the prolongation of the war and the addition of a large sum to the cost of the war and the suppression of the rebellion.

MRS. GAINES has more than her share of trials, and is not likely to come out of them with increased respect for the lawyers nor increased revenue to pay them with. In her last suit she was non-suited, the New Orleans court deciding that she is not the legitimate daughter of Daniel Clark, and consequently revoking the will in which her claim was rested. The poor woman has had a hard struggle and deserves a better fate. But courting in any of its forms is uncertain business.

THE SOUTH CAROLINA FRAUDS.—A report was presented to the South Carolina house of representatives last Thursday by the committee of investigation, headed by C. C. Bowen, to the effect that the State had been defrauded by the over-issue of $6,314,000, and recommended the house to take the necessary steps to hold accountable those persons who violated the law and ruined the credit of the State.

CHICAGO.—Mayor Medill in his inaugural address says the number of buildings in Chicago destroyed by the late fire is over 20,000; the number of persons left homeless 125,000; and the loss over $150,000,000. The bonded debt of the city is $13,547,000, and its floating debt $686,707.

DISASTER AT SEA.—The French barque Costa Rica, from Havre for Buenos Ayres, was run into by an unknown vessel off the Isle of Wight and sunk, carrying down seventeen of her crew. The unknown vessel hurried off and made no attempt to render assistance.

VENNER, who murdered his wife in Lynn and was shot dead by the City Marshal while engaged in trying to butcher a police officer, was rum-crazed at the time. If a man chooses to drink rum it is solely his own private affair, with which the public have no concern.

TOO BAD.—Boss Tweed didn't go to jail as reported, bail being accepted for his appearance. It is re-affirmed that he is to be arrested on each of the twenty-one indictments found against him.

DUKE ALEXIS gave $1500 for the benefit of the Boston poor.

Correspondence.

BOSTON, Dec. 16.

The old year gathers his thin, worn robes about his aged extremities, but still the biting north wind causes him to tremble, for his lease of life is nearly out, and there is no renewal. The young blood with which he started a year agone now runs sluggish in his veins, his hands are palsied and his feet are crippled. In the great Book of Life his record is essentially written—there is no time to erase or amend. The fiends of the Fire, the Ocean and the Blast have made broad finger marks upon his record, — but the angel of Charity has covered them all with his ample cloak. Life has been proved of slender tenure, but Man has vindicated himself as something more than a selfish, money-getting machine.

The Grand Duke has been here and has gone. His long stay in Boston proved him not unmindful of the regard paid by all to his comfort. The demonstrations have mostly been unobtrusive and unobjectionable. The papers say: "Count Shouvaloff remains behind, confined to his bed by sickness." We trust he may not "Shouval-off his mortal coil."

Twenty years ago I rode on what is called the oldest railway in America, no locomotives being required — that from the Quincy quarries to the Neponset River for transportation of granite for shipping. A few years afterward I rode on what is probably the oldest street railroad for horse cars in the world—the Jackson Street Railroad in New Orleans, running in connection with the Carrollton Railroad. The great, cumbersome, two-story cars reminded me of the paragraph in history where Christopher Columbus is represented as setting forth from "the little port of Palos, in Spain, in three small vessels, with ninety men," for on the lower deck they were divided into three compartments, (for ladies, gentlemen and negroes,) and may be until this day for all I know, while on the hurricane deck tobacco, cigars and the airs of heaven equalized all into a perfect democracy.

Since then, and prior to that time, I have tested most of the railways of the country from the Grand Trunk to the San Antonio and Mexican Gulf, from the Lake Pontchartrain to the LaCrosse, but in these various wanderings I have ever reverted with feelings of pleasure to the little stretch of fifty miles of rail on which I took my first ride. The more I ride on the Eastern Railroad, the more I compare its general excellence with any other road I have seen, the more I am inclined to accord it the praise which is justly its due.

The past year has seen the steady lengthening of the double track eastward, the addition of new rolling stock in large quantities, the introduction of Pullman trains, and the through connection made with Bangor and St. John; but the management are most to be congratulated on their sagacity in retaining the services of that energetic Superintendent, Jere. Prescott, Esq., who with his added powers and long experience is fast placing the Eastern on a footing never before occupied by any American road of equal length. Your townsman, Mr. J. P. Somerby, continues to furnish new cars from the company's works at Salem; East Boston adds to the stud of iron horses, and the purchases of rolling stock from several of the best makers elsewhere are recorded.

The towns which years ago so strenuously opposed permission for a railroad within their limits are now keenly alive to their folly. The town of Lincoln, Mass., which made determined and energetic opposition to the line of the Fitchburg Railroad, gained *four* in population in half a century. Hampton Falls rejected the Eastern, but after 30 years desires to render local aid that it may have an iron way to aid itself. Wells combatted the Portland, Saco & Portsmouth Road,—but to-day the Boston & Maine is building an extension two miles nearer the coast, while the P. S. & P. contemplates a new line of rail through York and Kennebunk.

Success to them; the public demands and will patronize the best accommodations for travel. With its tried board of Directors, its capable Superintendent, its courteous conductors, and thoroughly trained corps of employees, the Eastern enters upon its new year with more promise than ever before.

We have a sort of chocolate paste in our streets, which by courtesy is termed snow. A few adventurous sleighs are drawn over its grimy surface, and brazen bells make a feeble attempt to be merry, but 'tis a wretched failure. The Holiday goods make a fine display in the shop windows and our streets are lively with shoppers from town and country. M.

SMALL POX is increasing in Brooklyn.

PARDONED.—Ex-Mayor Chahoon of Richmond, Va., and Gilbert H. Van Houten of New York, have been pardoned by the Governors of their respective States. Both were convicted of forgery.

THE KU-KLUX TRIALS in Georgia have resulted in the discharge of all the arrested parties except two.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a magnificent Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRON'CLE OFFICE will be *promptly filled.*

BUSINESS NOTICES.

RARE CHANCE.—Persons wanting Sewing Machines, Melodeons, Cabinet Organs, Pianos, &c., can save money by purchasing of E. A. Joy, No. 9 Pleasant St., Portsmouth, N. H. He is selling out a large stock of New Goods, warranted perfect, at one-half and three-fourths the usual prices, in order to make room for the "Domestic" Sewing Machines, the demand for which is sufficient to require his whole attention. You can pay by small monthly installments if desirable. Second-hand Goods almost *given away.* Don't delay, for he is determined that the entire stock shall be closed out as soon as possible.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and mien of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

Persons who have become thoroughly chilled from any cause, may have their circulation at once restored by taking into the stomach a tea-spoonful of *Johnson's Anodyne Liniment* mixed in a little cold water, well-sweetened.

Every farmer who owns a good stock of horses, cattle and sheep, and intends to keep them through the winter, should get at once a good stock of *Sheridan's Cavalry Condition Powders.* One dollar's worth will save at least half a ton of hay.

SPECIAL NOTICES.

Peril and Precaution.

This is a season that tries the frame and the constitution. If there be a weak spot in either, the chilling damps, the malarious fogs, the varieties of temperature that mark the commencement of the winter season are sure to find it out. There are few systems that have not a weak spot somewhere, and the wisest thing that any man or woman can do is to fortify it by a course of HOSTETTER'S STOMACH BITTERS, and thus [illegible] menaced the first thing to be done is to strengthen the ramparts. The same policy should be adopted with the human body, when its direst foe, malaria, is abroad. If the stomach is weak, this tonic will lend it vigor; if the bowels are morbidly sensitive, this alterative will regulate them; if the liver is inert, this wholesome stimulant will rouse it; if there is constipation, this aperient will cure it; if there is nervous debility this nervine will replace it with nervous vigor; if there is impurity in the blood, this depurent will neutralize it; if there is a cloud on the spirits, this exhilarant will dispel it. These are facts that have been demonstrated every day for the last twenty years. Can as much be said for any other medicine—or rather, can as much be *proved?* for anything may be said by the unscrupulous. Do not accept any of the local bitters sometimes recommended by dealers in lieu of the Standard Restorative.

HALFORD

LEICESTERSHIRE

TABLE SAUCE,

The Best Sauce And Relish

Made in any part of the World

FOR FAMILY USE.

TO BE HAD OF ALL FIRST CLASS GROCERS

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER — Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

td30 **Sold by Dealers Everywhere.**

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

STILL ALIVE AND PREPARED

—TO—

OFFER BARGAINS

—IN—

BOOTS & SHOES,

—AT—

25 Congress Street.

Having disposed of all our

OLD RUBBISH,

We have again Purchased an

LOCAL AFFAIRS.

New Advertisements to-day.

Dry Goods—O. H. Mendum.
Boots & Shoes—J. W. Wallace.
Sewing Machines—E. A. Joy.
Notice—School Committee.

Laconics.

Nowell & Co. announce a large stock of boots and shoes, of their own manufacture, for sale at manufacturers, wholesale prices for the next thirty days, at No. 24 Market Street. See advertisement.

Many trials of fresh incumbents in the Post-office would be needed before a more attentive and courteous official than the present efficient and deservedly popular Postmaster could be found; but sometimes he is asked to do things in his official capacity which he is compelled to refuse. From Dover he recently received the following request: "Mr. Peirce:—Will you please send all the mail matter in the Post-office at Portsmouth to this place?" Mr. Peirce never spares himself in endeavoring to accommodate the public, but as a compliance with this request would have so greatly inconvenienced the citizens of Portsmouth only a small portion of the mail matter in the office was sent to Dover.

A column in our issue of this morning is occupied with the advertisement of Wallace's One Price Store, No. 3 Congress Street. A large trade has been done at that stand for some years past, and the enterprising manager proposes to still further increase his business if offering first-class goods at reasonable prices, for cash, and having "one price only" for all comers, will do it. Persons in want of boots, shoes or rubbers, will do well to call at Wallace's, where they will find a large assortment of "underwear" to select from, and courteous attention whether they purchase or not.

Fred Burnham, Esq., of Newburyport, will give the third lecture in the course before the high school in Kittery, on Wednesday evening, Dec. 20th.

Chas. E. Shedd & Co. advertise a full line of boots, shoes and rubbers, all new and for sale cheap, at No. 25 Congress Street.

The iron steamer Clotilde, which was got off Wells Beach last June, after being seven months ashore, has been towed to Boston and will be repaired at the Atlantic Iron Works.

Aaron A. Sargent is the Republican successor to Senator Cole of California. He is a Massachusetts man, having been born at Newburyport in 1827, but emigrated to California in 1849, where he studied law and was admitted to the bar in 1854. He was elected representative to the 37th Congress, and afterward to the 41st Congress. He was re-elected at the September election, and, as Mr. Cole holds his seat till March 3, 1873, will be able to serve out his term in the House. Mr. Sargent learned the printer's trade in the Newburyport Herald office, with Frank W. Miller, Esq., of this city.

The Little Giant says that a boy about twelve years of age, named Waldo Chester, residing in Portsmouth, while visiting his relatives in Lynn fell down a flight of stairs, one night at their residence on Western Avenue, while in a state of somnambulancy, and broke his ancle.

The Universalist Society propose to plant an evergreen under the roof-tree of their Church, and invite the Sunday School and friends of the children to share in the distribution of the fruit, which will be ripe Christmas evening.

Be careful where you throw matches; be careful where you go with lamps and lanterns; be careful where you put your ashes; be careful about leaving a roaring fire in your stoves when you leave your shops, stores, or offices, or your house when you go to bed, nights; be careful to be thoughtful of starting the 'fire fiend' in such a way that you can attach blame to yourself or others in the hour of loss and suffering.

Mr. Foster Shores has been the recipient of a species of cat, supposed to have been sent from the Yo-Semite Valley. It was forwarded in a box and received in good condition with the exception of being a little stiff from its long confinement. It is on exhibition at No. 1 Congress Block, and can be seen with other attractions which Shores & Co. have to offer.

The wheelbarrow ride from Lowell to this city did not take place, Hon. F. Jones forfeiting his watch to Major Donovan rather than travel in that kind of a coach. The Major may possibly be able to advantageously dispose of his wheelbarrow in Manchester, as it is reported that the Public Forum proposes removing from that city to Dover.

The building No. 18 1-2 Daniel Street is receiving an addition and is to be occupied by the Co-operative Shoe Manufactory. This company has been started about one year and has proved itself a success. Some improvements which they have made are now introduced into larger factories. The reputation of their goods has so increased the demand, that it was necessary to import and extend the facilities for work. Success to them.

The train due in this city at 5.30 Monday, was detained 15 minutes at the Creek because the engineer could not see the signal lights near the depot. Who was to blame for keeping them waiting so long, we wonder? A messenger from the depot could have walked to the train in five minutes.

A Lowell dispatch of the 18th, to the Boston Journal, says that a large crowd assembled in front of Major Donovan's liquor saloon in Manchester on that day, to see the start which he didn't make with Mr. Jones in the one-wheeled carriage, and adds: "One thing is certain; the Major made a good revenue this morning from his sales to the thirsty."

Mr. J. G. Anthoine gives the first of his second series of assemblies this evening in Irving Hall. The former series was very successful, and the present one will be conducted on a similar plan,—an hour's instruction in fancy dancing each evening, to holders of course tickets, which will be sold at $3 each; single evening tickets, 50 cts. each. Four pieces of music will be present.

Republican Conventions.

STATE.—At Phenix Hall, Concord, Wednesday, January 3, 1872, at 11 A. M.

COUNTY. — *Rockingham* — At Town Hall, Exeter, Tuesday, January 9, 1872, at 11 A. M.

SENATORIAL.—*District No.* 1—At No. 2 Ward Room, Portsmouth, Wednesday, January 10, 1872, at 11 A. M.

COUNCILLOR. — *District No.* 1—At Town Hall, Newmarket, Thursday, January 11, 1872, at 10 A. M.

New Hampshire Items.

The Rublet Car Company, at Laconia, have just completed a contract for building seven hundred cars for the National or Green Line Company, and are just commencing on one to build five hundred for the Passumpsic Railroad.

A school-house in Rochester was burned on Wednesday night.

The full bench of the supreme judical court of New Hampshire met at Keene on the 12th, at half-past nine A. M., and got along so fast that by eleven they were bag in hand, ready to go home.

Political.

The bill repealing woman suffrage in Wyoming Territory, after passing the house, failed to pass the council (the upper house).

AS IT SHOULD BE.—The New Bedford papers report that the Revere Railroad slaughter, the Chicago fire and the daily reports in the papers of deaths from the explosion of petroleum oil, have made the candle trade better than it has been for years.

THE WOOL CROP of the United States for the year ending June 1, 1870, according to the census returns, amounted to 102,284,678 pounds, including 47,927,647 pounds from the northwestern States.

SAN DOMINGO.—A private letter from San Domingo says that the two years lease of the Bay of Samana having expired, the United States flag has been hauled down.

THE FISK-MANSFIELD CASE has been ended, it is said, by the payment of a round sum of money by the defendant to the plaintiff.

THE INTERNATIONALS paraded in New York on Sunday, to the number of 2000. There was no disturbance.

THE SICK PRINCE.—The condition of the Prince of Wales continues to be favorable to his recovery.

HON. WILLIAM H. SEWARD is said to be very low from paralysis, at his residence in Auburn, N. Y.

COLLECTOR ROBB, of Savannah, has been acquitted by the jury without their leaving the box.

THE DUMB ANIMALS FAIR closed in Boston on Saturday, having netted nearly $20,000.

NORTON, the New York custom house defaulter, has been arrested.

WIRT SIKES has captured Olive Logan "for better or worse."

—The following squib was perpetrated by the Daily Puritan, a little paper published at a church fair in Brooklyn:

"It is said that Wm. M. Tweed has no desire to enter the Kingdom of Heaven since he has read Rev. XIV: 2, and learned that there will be Harpers there."

—Garrett Davis' hobby seems to be a speechie payment.

NEW SUBSCRIBERS who now pay in advance for the DAILY CHRONICLE or N. H. GAZETTE for the year 1872, will receive either paper gratis until January. We will furnish the DAILY CHRONICLE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $9 per annum; and the NEW HAMPSHIRE GAZETTE and Harper's Weekly, Harper's Bazar, or Harper's Magazine, for $5—in advance. We will furnish the GAZETTE and Cultivator & Country Gentleman for $4 per annum—in advance.

NEW ADVERTISEMENTS.

SCHOOL COMMITTEE NOTICE.

ALL BILLS against the SCHOOL COMMITTEE are requested to be presented to either of the undersigned, on or before the 27th inst., as the school year closes the 31st.
LYMAN D. SPALDING, Chairman.
d19daw AUGUSTUS WALDEN, Secretary.

SEWING MACHINES
CHEAP AT LAST!
Having received a large number of Sewing Machines (including nearly all kinds) in
EXCHANGE FOR THE "DOMESTIC,"
I am prepared to offer them at very low prices. Many of them have not been in use more than a month, and are actually better than any one of the same make, because they have been run just enough to make them work easily. They accumulate so fast that I must dispose of them soon or be over-run with second-hand Sewing Machines. So now is your time to buy cheap, either for cash or by installments. I still continue my offer of
$10 REWARD!
to all who will exchange the
"DOMESTIC"
Sewing Machine for any other kind that has had about the same amount of usage.
E. A. JOY,
No. 9 PLEASANT ST., Portsmouth, N. H.
☞ A few more Agents can have Territory for the "Domestic." d19

FISHERMEN!
TWINES & NETTING,
MANUFACTURED BY
WM. E. HOOPER & SONS,
☞ Send for Price-List.] Baltimore, Md.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.
The Success of the Company is far beyond that of any other similar concern; the
Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.
All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are so we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the
SINGER
seems to unite the good qualities of all, and is never found wanting.
THE SINGER
IS THE
OLDEST
SEWING MACHING
IN THE MARKET,
All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.
It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.
N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.
J. J. FESSENDEN,
Agent for Portsmouth, and Vicinity,

Morning Chronicle.

New Publications.

Oliver Optic's Almanac for 1872, like all other publications bearing the imprint of Lee & Shepard, is creditable in more ways than one. Besides furnishing memoranda for convenient reference, it has a series of illustrations finely executed and stories for winter evenings. It should be in every family.

Die Modenwelt for December closes the year with an array of fashion engravings and descriptions, fancy work and directions, that need to be seen to be appreciated. S. T. Taylor, New York, publisher; $3 per annum.

Peters' Musical Monthly for January comes in a new dress. It is printed on thicker paper, and is superior to its predecessors. The selections are made with care, and few poor pieces appear among the hundreds that are given. Volume IX. commences with the January number. Price, 30 cent; $3 per year. The publisher offers six back numbers for $1. Address J. L. Peters, 599 Broadway, New-York.

ROSSEL.—The Paris Constitution has published some selections from the diary of Rossel which are extremely touching. Among the most interesting is a passage from his reflections on the 26th of November, but a day or two before his death:—

"Towards midnight I retired and the current of my thoughts changed at once. After all, I thought, how many mothers every day lose a beloved son, and cannot contend with death. The world is full of such sorrows. For myself, what better death could I desire? But again, how many things within me fight against death! I do well not to complain, but I feel that I have a right to complain. I have not lived enough. I need to work, to think, to act, to love—to love above all. My lungs were made to breathe a long time yet, and my heart to beat. It is not natural to die thus. My thoughts come so fast that I follow them with difficulty. I think how promptly those last hours came, and how each moment the perspective of the past and the future is changing. I am no more what I was yesterday. There are as it were entire pages which have been torn from the book of my memory. An air from Mozart runs in my head; what do those joyous notes here? Do I know and love that air? Already I have forgotten it and cannot recall it. How many sentiments, how many sensations have been thus effaced to reappear no more? But how many forms of anguish and grief have also disappeared; incorrigible faults into which I shall fall no more; bitter reflections that will beset me never again! Hail *mors liberatrix!* what you bring to me compensates for what you take away. And yet I thirst to live and to love. Midnight and three quarters past! I turn in my mind the elements of the grand problem—existence, myself, this organic development, the resultant of organs, the resultant of impressions, of affections, of movements. Where is the effect; where is the cause? I sleep while pondering upon it all."

A MURDERER ON ORATORY.—We have received from a good friend in Virginia the following further illustration of the extent to which the insensibility of criminals is carried:

While still a very young man, on account of uncommon ability and legal acquirements, Mr. Richard Coleman was made judge of one of the eastern circuits in Virginia in the year 18—. Having hitherto led the life of a student and scholar, he had no extended reputation except among his brethren, and as connected with the profession, and had never been in politics. Shortly after he went upon the bench a most cold-blooded and cruel murder was perpetrated in his district by a very notoriously bad man. The murderer was apprehended, tried, and convicted of murder in the first degree. Judge C. proceeded to pronounce the sentence, the first he had to, which he had prepared with great care, and, as he himself said, the best of which he was capable, and which he afterward in similar sentences was obliged to make the basis of them all. Such was the solemnity of the occasion and the fervid eloquence of the judge, that all who listened to the sentence passed were moved to tears—all except the prisoner at the bar, who was observed to be looking at the ceiling, and to pay no attention whatever, appearing wholly indifferent to what was going on. After he had been remanded to jail, one of the junior members of the bar having his curiosity excited, and Judge C. also wishing to know what effect his eloquence had had upon the criminal, went into the cell where the prisoner was and inquired of him how he felt when Judge C. was passing sentence on him. "What?" said the criminal, "what do you mean?" "I mean when the judge was telling you that you were to be hung and urging you to prepare for the awful doom that awaited you." "You mean when he was talking to me?" "Yes." "Oh! I never paid no 'tention to Dick Coleman; he ain't no public speaker nohow."—"*The Galaxy Club-Room,*" *in January Galaxy.*

—Our lynx-eyed assistants report this morning, that 1,743 people slipped down yesterday, on the perfidious sidewalks. Of these, 1,140 were men; 403 women, and 200 miscellaneous. The table shows that over 300 landed on their el. bows; the others sat down. Of the entire number, 1,743 of them swore; 131 audibly.—*Chicago Post.*

THIRTY YEARS' EXPERIENCE
IN THE TREATMENT OF
CHRONIC AND SEXUAL DISEASES.
A Physiological View of Marriage.

The cheapest book ever published—containing nearly three hundred pages, and one hundred and thirty fine plates and engravings of the anatomy of the human organs in a state of health and disease, with a treatise on early errors, its deplorable consequence upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by a report of cases treated. A truthful adviser to the married or those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of twenty-five cents,—in stamps or postal currency,—by addressing DR. LA CHOIX, No. 31 Maiden Lane, Albany, N. Y. The author may be consulted upon any of the diseases upon which his book treats, either personally or by mail, and medicines sent to any part of the world.

Portsmouth, Oct. 23, 1871. o24

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS,
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!
THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.
They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfab16

PACIFIC MAIL STEAMSHIP CO.'S

THROUGH LINE TO CALIFORNIA, CHINA AND JAPAN,

Touching at Mexican Ports and carrying U. S. Mail

FARES GREATLY REDUCED.

One of the large and splendid Steamships of this line will leave Pier No. 42, North River, foot of Canal St., New York, at 12 o'clock M., on the 15th and 30th of every month, (except when those dates fall on Sunday, and then on the preceding Saturday,) for ASPINWALL, connecting via Panama Railway with one of the Company's Steamships from Panama for SAN FRANCISCO, touching at MANZANILLO.

All departures connect at PANAMA with Steamers for CENTRAL PACIFIC and CENTRAL AMERICAN ports. Departure of 15th, touches at Kingston, Jamaica.

For Japan and China, Steamer leaves San Francisco first of every month, except when it falls on Sunday, then on the day preceding.

One Hundred Pounds of Baggage allowed each adult. Baggage masters accompany baggage through, and attend to ladies and children without male protectors. Baggage received on the dock the day before sailing, from steamboats, railroads and passengers who prefer to send down early. An experienced surgeon on board. Medicine and attendance free.

For freight or Passage Tickets or further information apply at the Company's ticket office, on the Wharf, FOOT OF CANAL ST., NORTH RIVER, NEW YORK, to F. R. BABY, Agent; or to the Agents for New England, C. L. BARTLETT & CO., 18 Broad street, BOSTON,

49 1-2 Exchange St., Portland.

THE SETTLER'S TALE.

"You don't believe it, then?" said the old settler, stroking his beard, and spreading the long crisp curls over his waistcoat, where they lay like a tangle of cocoa-fibre. He flicked away, too, now and then, the powdery cigar ash that had fallen as he smoked, as though he petted his manly adornment, or aimed strongly at wearing a patriarchal guise. "You don't believe it, then?" he said.

"Travellers see strange things," said a thin man sitting opposite to him; and he indulged in a low, sneering snicker, a despicable kind of cachination that would be insulting the hearty, mirthful, joy-begotten shake of sides and shoulders, and extending of facial muscles, to call a laugh.

"What is it?" I said; for I had at that moment entered the room.

"Why," snickered the thin man, "he wants to make me believe——"

"No, no, no!" chorussed several voices. "Let him tell it himself: second-hand stories are poor. Tell it out for the company, sir."

But the owner of the beard looked very dignified, and kept on smoking till he sat like a very Jupiter among his clouds. Then he referred to the ambrosia brought him by the white neck-clothed Ganymede of the hotel, set down his brandy and water, and looked very reticent.

"It's all true enough," said an Australian captain who sat near the thin man, and had evidently heard what had previously been said. "I've often seen them take flying leaps that looked tremendous, and such as I should have doubted if I had not seen; while, as to the tale our friend here has just told about kangaroos carrying their young in a pouch, and also about their being able to destroy a dog with a kick, why, they are facts that almost any national school-boy will endorse. I mean no insult to our sceptical friend here, but I'm afraid he studied politics more than natural history."

"Good things too," said the thin man viciously; and then he looked around him for the applause he did not get.

"You see," said the old captain, not taking any notice of the interruption, "there are some people like the sailor's mother—more ready to believe in Pharaoh's chariot wheel on the anchor flue than in flying fish. Australy's a curious place, I can tell you; and if you saw some of the bones of the great Moa, they would make you scratch your head, and think of the ostriches seven feet high as so many chickens."

"Ha, ha, ha; ha, ha!" laughed the thin man, in a perfect crescendo. "Go on, sir; don't be afraid. We'll listen, and then believe as much as we like." "And we've got animals there, gentlemen," said the old captain, "that swim about in the water with their flat webbed feet, and they've got a bill like a duck, and lay eggs."

"Go on, sir; go on, sir," laughed the thin man; and he bestowed the wink of wisdom upon all the company present.

"Yes, yes; I see! wink away," said the captain; "but I'm no romancer, gentlemen. I only said what I did to support my friend here. There are some who will not believe the truth when it's told them."

"Why don't you tell it?" said the thin man.

"I always do, sir," said the captain simply, and with some dignity. "As I said before, Australia's a place that would startle some people here with its ways. What would our friend over the way there say to five thousand sheep being boiled, or rather steamed down, in one day just for the sake of their tallow?"

"Ha, ha, ha!" laughed the thin man again. "Better still!" and then seeing that no one else laughed, he snorted, and looked defiant at every one in turn from out a pair of twinkling dark eyes, the more striking from being unshaded by lashes, while his eyebrows had evidently disappeared at the same season when his countenance had been seamed and pitted with the small-pox.

But few people noticed him, for it was evident that, after retiring in displeasure within himself for a few minutes, the owner of the beard was once more coming out. He smoked furiously for a few minutes longer in utter silence; till his cigar end was so short that it singed the great beard, when he threw it away, drew out a case, carefully selected another, rolled it upon his tongue, and then sat balancing it upon his finger.

"Our friend here is right, gentlemen," he said, "that there are some people who doubt almost everything you say; but, for my part, I think that the traveller who plays upon the credulity of his untravelled friends is a creature beneath contempt. I can vouch for the truth of all my seafaring friend here has said, for I have seen the things, and many more too, quite as wonderful; and I think that you, gentlemen, who sit from year's end to year's end in your shops, might acknowledge that men who make journeys four-and-twenty thousand miles long must, in the foreign parts they pass through, see some strange things. I don't want to inflict my stories upon anybody."

"Go on, sir; go on!" from two or three; but the thin man was totally un-

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

AVERILL CHEMICAL PAINTS,

in the City. Also Dealer in

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great skill and ability on his part induce me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.,

Boston, Jan. 1 1871.—1 yr.

The Daily Chronicle,

Portsmouth, N. H.

WEDNESDAY, DECEMBER 20, 1871.

Congress.

Senate.—On Monday, Dec. 18, a petition was received from the negroes of Rhode Island, stating that they were outraged and degraded, and asking the passage of a supplementary civil rights bill.

A resolution was offered directing the retrenchment committee to investigate the charges of fraud in the New York custom-house.

A motion to appoint Messrs. Buckingham, Pratt, Howe, Harlant, Stewart, Pool and Bayard a retrenchment committee gave rise to a debate, which resulted in the committee being appointed, another Democrat, Mr. Casserly of California, being added,—and the adoption of Mr. Trumbull's amendment in a modified form.

In the case of the contested election in Georgia the committee reported in favor of Mr. Norwood.

House.—Bills were introduced to punish officials for bribery and corruption, to make officers appointing and Congressmen recommending dishonest and incompetent officials responsible for their misconduct, legalizing polygamist marriages in Utah and dismissing prosecutions there for polygamy, to amend the articles of war, to repeal the bankruptcy act, to admit Utah as a state, to remove all political disabilities, and to enlarge the capitol grounds.

A bill introduced inaugurates a commission on the part of our government to open subscription books for two ocean telegraphs, one to China and Japan, and the other to Europe by the way of the Bermudas and Azores, the stock of the Atlantic company being fixed at $8,000,000 and of the Pacific at $12,000,000.

A resolution introduced by Mr. Hoar, was unanimously adopted, expressive of sympathy with "all efforts to establish self-government and republican institutions, with the families and friends of all who have lost their lives either in the field or on the scaffold in the cause of civil liberty."

Mr. Butler introduced a bill declaring women entitled to suffrage under the fourteenth amendment.

TAMMANY is not yet to be "let alone." Indictments have been found against several prominent persons whose names have not hitherto been prominently mentioned in connection with the frauds, and there is much excitement among all the attaches of the ring, none of them feeling secure from a felon's cell. The subject of the vouchers' theft has been under consideration by the grand jury some days, and new and astounding developments have been made. Haggerty and Baulch, now in the Tombs, were not the only culprits. Three notorious characters who have escaped, it is alleged, to Europe, appear connected with the theft, namely, John C. Heenan, ex-pugilist and Tammany sinecurist; William H. Cook, until recently employed in the department of public works, and Edward Dunphy, an Eighth Ward thief. These parties disappeared about twelve days ago. Warrants for their arrest have been sent to Europe to the same party who has a warrant for the arrest of Garvey. Peter B. Sweeney has left the city, it is believed to avoid arrest. An order of arrest for his brother, James M. Sweeney, has been out for over a week, but he is in Canada.

KU-KLUX. — In the South Carolina Ku-Klux trials the case of Hayes and Mitchell was closed by an elaborate argument by Reverdy Johnson, who expressed the utmost horror at the outrages to which the witnesses testified, but contended that the evidence had not shown the outrages to be the result of any conspiracy nor connected the accused with their commission. The jury, after thirty-eight minutes' consultation, returned a verdict of guilty on the second count, namely,—"conspiracy to injure Jim Williams for having voted in 1870."

EUROPE.—In the French assembly a resolution to restore to the Orleans princes all their rights was rejected. The apprentice boys of Londonderry, Ireland, attempted to parade on Monday, under the leadership of Mr. Johnstone, M. P., but were dispersed by a force of cavalry. Several were injured. The Prince of Wales is rapidly recovering, and is expected to be out in four weeks.

THE COMMISSIONERS for the arbitration of the Alabama claims held a formal meeting in Geneva, Dec. 18. Count Sclopis, the Italian member, was chosen president, and the commission adjourned until Jan. 15th.

New Publications.

The Phrenological Journal is spicy, vigorous, spirited and high-toned; its bulky January number has our warmest commendation. The following are among its articles: E. B. Washburne, our Minister to France; What Can I Do Best? Cheerful Giving; Expression, Its Anatomy and Philosophy; "Sol" Smith Russell, or some Studies in Facial Caricature; Only a head, or "Not a Cent in the World," a chapter of mishaps; "Taking Cold," or the Causes and Remedy of "Colds"; Intercommunication; Influence of Forests on Climate. Numerous illustrations are given. Price $3 a year. S. R. Wells, Publisher, New York.

The Lady's Friend for January is a splendidly embellished number, leading off with a spirited skating picture, "The Poet Goethe at Frankfurt." There is also a beautiful colored Fashion Plate, and choice wood engravings; with a profusion of fashion illustrations. The literary matter is excellent, the poems particularly good; Mrs. Henry Wood's new novel is called "Within the Maze; or, Lady Audrinian's Trial," and opens with a great deal of interest. Every department of the Lady's Friend is admirably filled. Price $2 a year. "The Lady's Friend" and the "Saturday Evening Post," $4. Published by Deacon & Peterson, Philadelphia.

The Children's Hour for January surpasses itself in pictorial and other attractions. Published by T. S. Arthur & Son, Philadelphia, at $1.25 a year. 5 copies are sent for $5. Liberal premiums are offered.

Arthur's Lady's Home Magazine for January opens the new year with a rich number. The illustrations and fashion engravings are unusually fine. A new story, from the German, "Sophie Mansfeld," is one of more than usual interest and power. Mrs. Horace Mann's paper on the relation of womans to the temperance cause, should be carefully read. Terms $2 a year, with a reduction to clubs. A great variety of premiums for subscribers. Published by T. S. Arthur & Son, Philadelphia, Pa.

Political.

Judge McKenney of Cincinnati has decided that the inmates of the Soldiers' Home have no right to vote in the county election.

A special grand jury has been ordered in Chicago to investigate the charges of bribery against members of the common council.

SPAIN.—A New York dispatch says Mr. Sickles has received secret orders to return to Washington immediately, for consultation on important State matters. It is generally believed at Madrid that Sickles was called home to confer upon Cuban matters. The sudden call precipitated his marriage, the pair starting for Washington immediately after the ceremony.

THE CIVIL SERVICE COMMISSION have called on the President in a body and submitted to him their full report with their accompanying scheme for the reform of the civil service. The document will be considered in Cabinet meeting and will probably be transmitted to Congress on Thursday.

IMPROBABLE.—An Havana letter published in New York contains the statement that the outrage for which a number of medical students were made to suffer death and imprisonment was never committed at all—that the grave of Castanon is in perfect order and has never been disturbed.

BOSTON had a $50,000 fire on Monday night. Chase & Co., confectioners, lost $40,000. Insured.

—Mr. J Currier, Jr. has commenced building a ship of 1300 tons at his yard. At the yard of Mr. Eben Manson a barque of 300 tons is in process of building, for persons in New York; at the yard of Charles H. & G. E. Currier, a three masted center-board schooner of 300 tons, for owners in Boston and Cape Cod; at the yard of Colby & Lunt, a schooner of 120 tons adapted for fishing, for sale.—*Newburyport Herald.*

—A minister asked a little boy who had been converted, "Does not the devil tell you that you are not a Christian?" "Yes, sometimes." "Well, what do you say to him?" "I tell him, "that whether I am or not, it is none of his business."

—By the overflowing of the Gunili River in British India three thousand houses were destroyed and ten thousand persons made homeless. The suffering was great.

—The Protestants of Quebec complain that their schools teach little but Catholic doctrines and superstitions, and long for the school system of the United States.

—"Miss or Mrs.?" is the title of Wilkie Collins' new story. It is the question which absorbs the attention of girls pretty constantly.

—The Chicago Silver Smelting Company's works were burned. Loss $40,000 to $50,000; no insurance.

—Permanent head quarters — The shoulders.

—It is easier for a man to be engaged than to be engaging.

—Fifty thousand of the Russian army have been granted furloughs.

—Fifty Chinamen at Omaha have struck on account of the cold weather.

—Tweed still sings the old song—"What are you going to do about it?"

—A good little Ohio boy husked corn enough last Fall to buy his mother a piano.

—Nearly three thousand children born out of wedlock annually in the New York record.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c. —and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS, DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

BUSINESS NOTICES.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and mien of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

The best article ever in use by families, recommended by all who have tried it, is the Halford Leicestershire Table Sauce. To be had of every good grocer.

Persons who have become thoroughly chilled from any cause, may have their circulation at once restored by taking into the stomach a tea-spoonful of *Johnson's Anodyne Liniment* mixed in a little cold water, well-sweetened.

Every farmer who owns a good stock of horses, cattle and sheep, and intends to keep them through the winter, should get at once a good stock of *Sheridan's Cavalry Condition Powders.* One dollar's worth will save at least half a ton of hay.

SPECIAL NOTICES.

Peril and Precaution.

This is a season that tries the frame and the constitution. If there be a weak spot in either, the chilling damps, the malarious fogs, the varieties of temperature that mark the commencement of the winter season are sure to find it out. There are few systems that have not a weak spot somewhere, and the wisest thing that any man or woman can do is to fortify it by a course of HOSTETTER'S STOMACH BITTERS, and thus keep the enemy at bay. In war, when a city is menaced the first thing to be done is to strengthen the ramparts. The same policy should be adopted with the human body, when its direst foe, malaria, is abroad. If the stomach is weak, this tonic will lend it vigor; if the bowels are morbidly sensitive, this alterative will regulate them; if the liver is inert, this wholesome stimulant will rouse it; if there is constipation, this aperient will cure it; if there is nervous debility this nervine will replace it with nervous vigor: if there is impurity in the blood, this depurent will neutralize it; if there is a cloud on the spirits, this exhilarant will dispel it. These are facts that have been demonstrated every day for the last twenty years. Can as much be said for any other medicine—or rather, can as much be *proved?* for anything may be said by the unscrupulous. Do not accept any of the local bitters sometimes recommended by dealers in lieu of the Standard Restorative.

HALFORD

LEICESTERSHIRE

TABLE SAUCE,

The Best Sauce And Relish

Made in any part of the World

FOR FAMILY USE.

TO BE HAD OF ALL FIRST CLASS GROCERS

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER — Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

d30 **Sold by Dealers Everywhere.**

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

—Edward Everett Hale, if not exactly a prophet, is certainly one of the Wise Men of the East. He has purchased an endowment insurance policy on his life, payable ten years hence, in order that he may be able to send his boys to college. Yet, strange to say, he has made no provision for sending his girls to college. Is it because he thinks that the latter are so much smarter than the former, that they will go while the boys must be sent? The oversight is certainly remarkable. Surely the author of a "Man without a Country," would not think of leaving a daughter without an education.—*Golden Age.*

—The Brooklyn aldermen have voted $10,000 for the use of the board of health against small-pox.

To the Hon. Judge of Probate for the County of Rockingham.

RESPECTFULLY REPRESENTS JOHN N. SLEEPER, of Plaistow, in said County, that at a Court of Probate holden at Exeter, in said County, on the ninth day of August, A. D. 1871, he was duly appointed Guardian of Melvin W. Arnold, Ida M. Arnold, Thomas M. Arnold, 2d, Cora E. Arnold, Eugene R. Arnold, Arthur B. Arnold, Lizzie M. Arnold, Charles W. Arnold and Alonzo E. Arnold, all of Hampstead, in said County of Rockingham, minor children of JOHN W. ARNOLD, late of said Hampstead, deceased, that by reason of the state of his business it will be inconvenient for him any longer to remain Guardian of said minors. He therefore resigns his said trust, and prays that he may be discharged therefrom.

JOHN N. SLEEPER,
Dated the 13th day of November, 1871.

Rockingham, ss.—Probate Court at Exeter, in said County, on the 13th day of Dec., A. D. 1871.

UPON the foregoing Petition it is *Ordered* that a hearing be had thereon at a Court of Probate, to be holden at Exeter, in said County, on the Wednesday next following the second Tuesday of January next, at ten o'clock A. M.; and that the Petitioner notify all persons concerned or interested therein to appear at said Court, and show cause, if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the New Hampshire Gazette, a newspaper printed at Portsmouth, in said County, the last publication whereof to be at least one week prior to said Court.

By order of the Judge.

Lyceum.

Laconics.

The Nautical Gazette says "the Marion, sloop-of-war, 329 tons, has been sent to Norfolk, preparatory to being towed to Portsmouth, N. H., to be rebuilt. It is expected that a pair of the gunboat engines now in store will be put into her."

Some of the enterprising citizens of Greenland have started a Lyceum Course, to consist of eight lectures, the first of which will be delivered on Friday evening, Dec. 22.

The 8th lecture in the Lyceum Course will be delivered at the Universalist Church on Thursday evening, Dec. 21, by Mrs. Mary A. Livermore; subject, "What shall we do with our daughters?" Doors open at 7 o'clock, lecture to commence at 8 o'clock. Tickets for the remainder of the Course 75 cents; evening tickets 35 cents. The subject, "What shall we do with our daughters?" treated as it will be by a woman and by one of the first minds of the age, will be no common literary treat, and the logic of facts will be clothed in eloquent words that will set at defiance the Bonder-berrian theory. The information offered will be for both sexes, but more particularly to strengthen the hopes and elevate the standard of women. Mrs. Livermore leaves New England on a lecturing tour in the Middle States and the West in the first week in January. She has spoken oftener this season before lyceums in New England than any woman ever spoke in one season.

Mr. E. A. Joy in another column announces a large assortment of sewing machines, cheap. These machines are not of the "cheap" kinds sold by pedlers and travelling agents, and which are dear at any price, but are of the most approved make, though they are to be sold as low as inferior machines are offered. The advantage of purchasing from a responsible man who is a "fixture" in the business and the city, over trading with transient persons of whom no man can say whence they come or whither they will go, is obvious; and Mr. Joy belongs in the list of the former.

On Tuesday, a small boy marched into our sanctum and displayed the shattered remains of a CHRONICLE, and informed us that it was Mr. —'s copy and had been properly tucked in between the slats of the door-blind. He further announced that he had detected the thief in the very act of pulling a paper from where it had just been placed, and proceeding to make a hearty breakfast of the same. The culprit was a goat—and a Democratic goat, at that; and though we should be happy to note an increased taste for literature in that party, as evidencing an advance in enlightenment and civilization, we hope this member of it will hereafter be content to feed on the dry husks issued by the Democratic press, or else pay its board bills if better provender is required.

The Republicans of Newcastle met on Monday evening and re-organized the Republican Club by the choice of Nathaniel P. Campbell for President, and Elias T. Holbrook and John E. Yeaton for Vice Presidents. Delegates to the various conventions were chosen, as follows: *State*, J. Mahlon Bickford, Nathaniel P. Campbell; *Councillor*, George W. Towle, James H. Baker; *Senatorial*, Charles E. Whitehouse, Charles E. Campbell; *County*, Leander Garland, John E. Yeaton.

At the "Singer" Sewing Machine agency, formerly located on Chestnut Street but now removed to No. 12 Vaughan Street, a large assortment of these favorite machines can be seen, and every attention received from Mr. Fessenden and his assistants. The long-continued popularity of the Singer machine is a guaranty of its great merit,—without which it would long ago have been driven from the market.

The night express train from Boston ran off the track between Newport and East Newport, Me., Tuesday morning, leaving only the Pullman car on the track No one injured.

We are informed that Surgeon Wm. S. King, U. S. N., attached to this station, was run into by a team on Tuesday, and severely injured.

Good sleighing in the streets.

The Methodist Sunday School and its friends will distribute Christmas presents on Saturday evening, in their church; a fine time is anticipated for the young folks.

We are informed that a man is around town, pretending to cure deafness "by the virtue of the seventh son,"—which virtue does not appear to be excessive nor very successful in curing deafness, if the practitioner referred to is a "seventh son" and the stories told of him are true. Look out for him, ye who are deaf—and credulous.

New Hampshire Items.

A post mortem examination of the body of Mr. William Whitney, whose tragic death near Denver, Colorado, was recently mentioned, and whose body was recently buried with Masonic honors at Loudon, is said to show beyond a doubt, from the position of the gun-shot wounds and bruises, that the deceased did not take his own life, when caught in a severe snow-storm, but that he was foully murdered.

The Concord Patriot says that on the 12th a lad was skating on a pond above Franklin and struck fire with his skate near a slight orifice in the ice, from which a steady flame arose. Afterward the ice was broken and a match applied in the presence of quite a party, the gas giving a large and steady flame for over a quarter of an hour.

Mr. Frederic Willard, of Deerfield, went to a well for water, Dec. 2; there was no curb to the well and Mr. Willard lost his balance, fell in and was drowned. His age was 52 years.

Daniel Lilloway, who escaped from a Newburyport constable last week, was recaptured on Monday, in Seabrook. He armed himself with a club and showed fight, but was easily overpowered.

The Concord members of the Editors, Publishers and Printer's Association of this State held a meeting Monday evening, to arrange for the general meeting of the Association this (Wednesday) evening. Messrs. McFarland of Concord and Wallace of Canaan will deliver addresses.

The citizens of Hillsborough and vicinity are moving in the matter of securing improved railroad facilities between that place and Boston.

Rev. S. H. McCollester formerly of Westbrook (Me.) Seminary, has been elected superintendent of schools at Nashua.

Good cows are selling in Grafton county for $12.50, as hay is $35 per ton, and none to be had at that price.

—Maurice Daley beat Cyrille Dion at billiards in New York, making the astonishing average of 125.

—A lazy philanthropist thinks the only reform for labor "is to abolish the thing altogether."

—The Athletic base-ball club is $6629.51 "out" on the last season's play.

SEWING MACHINES
CHEAP AT LAST!

Having received a large number of Sewing Machines (including nearly all kinds) in

EXCHANGE FOR THE "DOMESTIC,"

I am prepared to offer them at **very low prices.** Many of them have not been in use more than a month, and are actually better than new ones of the same make, because they have been run just enough to make them work easily. They accumulate so fast that I **must** dispose of them soon or be over-run with second-hand Sewing Machines. So now is your time to buy **cheap**, either for **cash** or by **installments.** I still continue my offer of

$10 REWARD!

to all who will exchange the

"DOMESTIC"

Sewing Machine for any other kind that has had about the same amount of usage.

E. A. JOY,
No. 9 PLEASANT ST.,
Portsmouth, N. H.

☞ A few more Agents can have Territory for the "Domestic." d19

FISHERMEN!

TWINES & NETTING,
MANUFACTURED BY
WM. E. HOOPER & SONS,
☞ Send for Price-List.] Baltimore, Md.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good [qualities of all, and is never found wanting.

THE SINGER
IS THE
OLDEST
SEWING MACHING
IN THE MARKET,

All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.

J. J. FESSENDEN,
Agent for Portsmouth, and Vicinity,
No. 12 VAUGHAN ST.

Morning Chronicle.

Concluded from first page.

abashed, and snorted before telling his neighbors, in an undertone, that you couldn't "do" him.

"I wasn't talking about wallabies, gentlemen, which are only a small kind of kangaroo, but of what we call out there, up the country, 'old men'—the great kangaroos that the settlers hunt—the curious leaping animals that Sir Joseph Banks brought home from his voyage with Captain Cook, and used to keep in his park at Revesby, in Lincolnshire; beasts that I dare say you might see yourselves in the Regent's Park Gardens in London, though I can't say I'm sure. At all events I've seen them often enough, and hunted them often, too."

The thin man snorted and winked again at everybody in turn, as much as to say, "Now it's coming."

"You must believe what I'm going to tell you, gentlemen, or you may be rude enough to doubt it if you like; I shan't complain; but it's as sure as my name's James Smith, a Yorkshireman born, and that I failed at sheep farming, but made ten thousand pounds at the diggings; and that's what one man in five hundred who were there managed to bring away for his share of the spoil."

The thin man winked again, but the thoughts of a sum of ten thousand golden pounds seemed to add so much weight to the respectability and veracity of the bearded man that had he felt disposed to enter into the borders not limited to veracity, he would now have found plenty of believers for anything he might choose to say.

The settler paused, ignited his cigar, and then waited to enjoy a few puffs, while the waiter of the old Southampton Hotel replenished several empty glasses.

"We were having a kangaroo hunt," continued he, "some years ago now, up at a place where I was. Kangaroos were not so scarce then as they've grown since, and perhaps if our friend here were to go over on purpose to have one, he might travel some hundreds of miles before he could enjoy that pleasure. Being a bit of a sporting man in a mild way, as I had dropped in at quarters and was fond of a bit of the field work, I got staying on day after day; for I happened then to have nothing to do, having been driven out of my holding by a drought that had starved three parts of my beasts and sheep, and a flood that had drowned the rest. So that I was on the wander, looking out for some fresh spot on which to locate myself, and naturally feeling rather low spirited; for, after working seven or eight years to get together a decent bit of stock, it seemed rather hard for the climate to turn dead against me, and to make me a ruined man."

"I should think! Stralia's a niceplace, sir," said the thin man, laughing.

"Very, if a man has his wits about him," said the settler coolly; "and what's more, it's a very hospitable place, as I found then, for I'd fallen into a good quarters, my host being from my own county, and having had many a good gallop with the same pack of hounds. So we talked over old times, and fished a bit, and shot a little, and I helped him take stock; and we compared notes about management, he being able to give me plenty of good hints, and I perhaps giving him two or three respectable little wrinkles.

The day before I left him we went out for a kangaroo hunt, for over night one of his men had come in to report tracks that he had seen near a water hole some few miles away.

Perhaps my friend here will think that I am throwing the hatchet when I say that this was all on my host's piece; for sheep farmers they think more of miles than they do of acres of land, and I have known gentlemen out there whose holding were such that you might ride twenty miles without getting to the last blazed tree.

The country about there was so woody and rocky that my host said we had better go on foot. So we did, taking with us a black fellow and one of his men—an old convict—who held two dogs in a leash, after the fashion of grey hounds for coursing, till we came to the spot—what they call out there a creek—a long water hole that depended on the wet season to supply it afresh after the long dry Australian summer.

It was a glorious morning in a glorious country. The sky was delightfully blue, while the atmosphere was so clear and transparent that you could see the very leaves distinctly upon the trees at an astonishing distance. Ah, gentlemen! if there is a beautiful country in this world it is Australia.

"Where drought and floods destroy the whole of a man's stock," sneered the thin man, as he whispered the words into the tumbler he raised to his lips.

"And where industrious, hard working men, may dig gold out of the soft earth by the creeks," said the settler, who had managed to hear every word.

"Good—good—good!" chorussed the company, so that any one but the thin man would have been crushed by the weight of that gold; but he only laughed, snorted and took refuge in clouds of tobacco smoke.

"Perhaps I'm boring you with my stories, gentlemen," said the settler, parting his beard.

"Go, on—no, no—go on, sir," came from all parts of the room, and he continued:—

"Well, gentlemen, we soon got into the hunting country, and were not long before we put up a kangaroo, when I felt almost ashamed to hunt it, for the poor beast set up on its hind legs and tail for a few moments, turning upon us its simple, doe-like face, as much as to say 'How can you be such brutes?' but it turned directly, gave a bound that startled me, and was off, flying over rock and bush in a most surprising manner. Then the dogs were slipped, and away we were scrambling among bushes and rocks, tripped up now and then, but making a rush over every bit of open ground to try and keep the dogs in sight; but as to my host and self, we were separated directly.

I was not much used to this sort of thing; but I soon warmed up to the chase, and, now getting a peep at the dogs, and now led by the shouting and barking, I managed to get up in pretty good time to where the black fellow was dancing about with delight, and the convict was coupling up the dogs, as they lay panting and lolling out their great red tongues, beside the kangaroo they had killed.

Long as I had been in the country it had never fallen to my lot before to be at the death of a kangaroo; and once more I could not help pitying the soft, mousey skinned animal, it looked so innocent, tame and simple. But, there! it does not do for men who hunt to be too sentimental, and besides, they may make a mistake in the character of their quarry; for, I've never seen the animal yet that was not, when driven to bay, a perfect savage, either from fear or natural courage.

'Where's the governor, sir?' said the man, as I came up.

I have not seen him since I tripped over a creeper that came down crash—bruised myself awfully. He did not stop when I went down. I thought that he would be on here.

'Help! help!' came a faint cry from the distance.

'Dat a gubuer!' exclaimed the black fellow, grinning as if it was the most humorous thing he had ever heard.

'Yes, that's him,' said the convict, changing color. 'He's among the blacks, and we've no guns.'

In a moment there floated before me visions of savages in their war paint their black bodies streaked with white to resemble skeletons, while boomerangs and spears seemed to come whistling through the air. But it was all imagination; for there was no sound to be heard, but once more the cry for help, when the dogs leaped up and howled.

'No black feller 'bout here,' said the gentleman in our company; when following his example, we set off at a run in the direction of the cries, the black fast outstripping us, though we kept him well in view till he disappeared behind some rocks, but only to turn back directly and to come running towards us, shouting, 'Ole man got him—ole man got him!'

We pressed on, panting heavily, and in a few moments were in full view of the strangest sight I ever saw in my life—one which seemed to paralyze the man with the dogs, for he stopped short holding tightly by the leash, in spite of the angry struggles of the animals and his master's anguished cry for help. There, some fifty yards in front, was a fierce struggle going on, apparently a vain one on the part of my host, who was tightly clasped round the waist by a tremendous great kangaroo, such as we settlers call an 'old man.'

"Right!" growled the sea captain, while the thin man's eyes twinkled maliciously.

"It was in a bushy part, and from the branch he held in his hand it was evident that my friend had been clinging with all his might to some tree or other, so as to hinder his enemy or else I'm afraid we should have come too late.

Dropping the branch, he now began kicking and struggling with the energy of despair, striking fiercely at the beast with his fists, and doing all that he could to get away; but there is no doubt that, if we had not come up, the next minute would have been his last, for, in spite of his struggles, the 'old man' kept on slowly, hop—hop—hop, nearer and nearer to a great water hole, and though a strong and hearty man, my friend seemed like a child in his enemy's grasp.

'Loose the dogs!' I shouted to the convict servant, but, utterly confused, he only held on tightly, letting the faithful beasts drag him along with them till, with one cut of his knife that he held ready to skin the dead kangaroo, the black severed the leathern thong, and, coupled as they were, the dogs dashed down upon the 'old man.'

Then came a fierce hurrying rush and a scramble—a frighful howl—and one dog turned over on its back, disabled by a kick, and then half-strangled by being dragged about by its companion, who had made good its hold upon the kangaroo's throat. The dog shook fiercely till, in its agony, the beast loosed its hold upon my friend, who fell down exhausted just upon the edge of the water hole, as the dogs and their enemy rolled down the bank into the deep water, which directly after was lashed into a muddy foam by the fierce struggle going on.

It would have gone hard with the poor dog if just then the leash had not given way, leaving him free from the weight of his fellow's carcase hung to his neck; and now in spite of the fierce tearing and kicking of the 'old man,' he held on tightly to the place in his throat where he had first fixed his steel strap jaws. By degrees they struggled into shallower water, and so exciting was the battle that my friend fogot his late peril, and sat up, panting, to see the end.

Suddenly, with one of his tremendous leaps, the kangaroo bounded right out, cleaning the bank, and alighting among some low scrub at the lower end. But the dog still held on; and, dodging about till he could get a chance, the black brought down his club with tremendous effect upon the 'old man's' head, when the poor brute quivered slightly and rolled over, dead; a huge fellow who had stood up over six feet high.

'That was a narrow escape,' I said, as I helped my friend to his legs, while the convict drew out of the water the carcase of the other dog.

'Yes,' he said, 'let's get back. I've had enough of it for one day. I feel quite sick and ill; if I had had a knife I could have got on; but unarmed I was helpless as a child.'

I had heard of such adventures before, but had never seen anything of the kind, so I said. 'What do you think the brute would have done?'

'Done!' echoed my friend. 'Drowned me as dead as that poor dog there. Poor brute! one of the best kangaroo dogs I ever had. An old beast!' he exclaimed, kicking the dead body of the kangaroo viciously, which was, after all, hardly to be wondered at. 'He came upon me all of a sudden—hop—hop—hop—and before I had recovered from my surprise, he had me tightly round the waist, and then began to hop away. I hardly know how I felt at first; but when the thought struck me that he was making for the water hole, the feeling was awful, and my struggles did hinder him a bit.'

'A good thing too,' I replied: 'Then we only came up just in time?'

'Only just,' said my friend; and he looked whiter than ever."

'Now, do you expect us to believe all that?' broke in the thin man, as he again winked at the company in general. But the settler was busy relighting his cigar, which had gone out during the narration, and he made no reply.

'I say, sir,' said the thin man again, 'do you expect us to believe that your old kangaroo would have hopped into the water, and drowned the squatter?'

"The gentlemen present can do as they please, sir," said the settler with dignity; 'and I have no doubt but you will do the same. I leave it entirely to my listeners' good sense, for the story is true."

THIRTY YEARS' EXPERIENCE IN THE TREATMENT OF CHRONIC AND SEXUAL DISEASES.

A Physiological View of Marriage.

The cheapest book ever published—containing nearly three hundred pages, and one hundred and thirty fine engravings, illustrating the anatomy of the human organs in a state of health and disease, with a treatise on early errors, its deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by a report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of twenty-five cents,—in stamps or postal currency,—by addressing DR. LA CROIX, No. 31 Maiden Lane, Albany, N. Y. The author may be consulted upon any of the diseases upon which his book treats, either personally or by mail, and medicines sent to any part of the world.

AYER'S

SARSAPARILLA,

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always aggravated too often by others. It purifies the blood, purges put the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

THE CLAIM OF SUPERIORITY

Is often made for

ARTICLES OF GENERAL USE,

But the claimants often find it easier to assert such superiority than to readily prove it by practical tests.

After a long and thorough test of

BOOTS AND SHOES

FASTENED WITH

CABLE SCREW WIRE,

These goods were pronounced by the patentee to be

THE BEST

In the market for Pliability, Durability, and Economy. This claim has received

Full Endorsement

From Manufacturers!
From Dealers!
From Consumers!

Testimonials as to the superiority of this mode of fastening, over either Sewed or Pegged work, have been published by scores in Boston dailies, from leading makers and dealers throughout the country.

Cable Screw Wire goods are peculiarly adapted for our inclement winters, on account of their Waterproof qualities.

Every grade, from the heaviest FISHING, HUNTING, DRIVING, or WALKING BOOT, to a DRESS BOOT or LADIES' SLIPPER, is best made with this most excellent of all fastening.

WARRANTED NOT TO RIP.

EVERY ONE BEARS THE PATENT STAMP.

Sold by all Leading Dealers.

PACIFIC MAIL STEAMSHIP CO.'S

THROUGH LINE TO CALIFORNIA, CHINA AND JAPAN,

Touching at Mexican Ports and carrying U. S. Mail

FARES GREATLY REDUCED.

One of the large and splendid Steamships of this line will leave Pier No. 42, North River, foot of Canal St., New York, at 12 o'clock M., on the 15th and 30th of every month, (except when those dates fall on Sunday, and then on the preceding Saturday,) for ASPINWALL, connecting via Panama Railway with one of the Company's Steamships from Panama for SAN FRANCISCO, touching at MANZANILLO.

All departures connect at PANAMA with Steamers for SOUTH PACIFIC and CENTRAL AMERICAN ports. Departure of 15th, touches at Kingston, Jamaica.

For Japan and China, Steamer leaves San Francisco first of every month, except when it falls on Sunday, then on the day preceding.

One Hundred Pounds of Baggage allowed each adult. Baggage masters accompany baggage through, and attend to ladies and children without male protectors. Baggage received on the dock the day before sailing, from steamboats, railroads and ferries, and forwarded to send down early. An experienced surgeon on board. Medicine and attendance free.

For freight or Passage Tickets or further information apply at the Company's office, on the Wharf, FOOT OF CANAL ST., NORTH RIVER-NEW YORK, to F. R. BABY, Agent; or to the Agents for New England, C. L. BARTLETT & CO., 16 Broad street, BOSTON,

The Chronicle.

UNDESIRABLE COLONISTS.—Three immigrants arrived in New York on Monday, from England, who confessed that they were ticket-of-leave men, and had been sent to this country from England. They had been sentenced to seven years' penal servitude, one for theft, another for house-breaking, and the third for attempted robbery with violence. They were discharged for good conduct while in prison and furnished with tickets-of-leave on their discharge. The governor of the prison gave each of them £6, which, by his advice, they expended in procuring passage to this country. The men were brought before Superintendent Kelso, who referred the matter to the board of police. In the meantime the men were furnished with food and locked up at police headquarters awaiting further developments. The board decided to send copies of the statements of the men to the Secretary of State and to Governor Hoffman. The British officials must have a queer idea of the eternal fitness of things when they consider it appropriate to ship thieves to New York.

WIRT SYKES was married to Olive Logan in New York, Dec. 19.

THE KING OF FOX KILLERS will send you a copy right Pamphlet, of full instructions in the secret art of poisoning Foxes, for only 50 cents. A sure thing. Write this address down—J. T. MOXLEY, Owosso, Mich.

CONSUMPTION, *Dropsy, Scrofula, and Venereal Taint* actually cured. Send address with stamp to DR. LANE, White Church, Kan. Indian remedies.

AVOID QUACKS.—A victim of early indiscretion, causing nervous debility, premature decay, etc., having tried in vain every advertised remedy, has discovered a simple means of self-cure, which he will send to his fellow-sufferers. Address J. H. REEVES, 78 Nassau St., N.Y.

RICHARDSON'S NEW METHOD
FOR THE PIANO-FORTE.
This well-proved Method has been 12 years before the public. Carefully prepared, and highly recommended at the outset, it has steadily increased in public favor, until, some years since, it fairly reached *the highest* position, and seems likely to retain it for a long time.
Annual Sale,.....25,000 Copies.
Commencing to take lessons, now-a-days, and purchasing a "Richardson's" are very apt to be contemporaneous events.
Price, $3.75. Sent, post-paid, for the retail price.

ARE YOU GOING TO PAINT?
—IF SO, USE THE—
AVERILL CHEMICAL PAINT.
It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.
I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.
I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the
AVERILL CHEMICAL PAINTS,
in the City. Also Dealer in

JURUBEBA.
IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical men of those countries with wonderful and efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the
LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.
Dr. Wells' Extract of Jurubeba
is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints
JURUBEBA
is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments. 4w n28

HARVEY FISK. A. S. HATCH.
FISK & HATCH,
BANKERS
and Dealers in Government Securities,
No. 5 Nassau Street,
New York, Nov. 20, 1871.
The successful and rapid negotiation of nearly *three-fourths* of the FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for future sales of the Bonds, as explained in the following letter of MR. HUNTINGTON, President of the Company:
OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.
MESSRS. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:
The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonary on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.
In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.
Very respectfully yours,
C. P. HUNTINGTON, *President.*
In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.
The scarcity of, and demand for, really
Desirable six per cent. Gold Bonds,
for solid and permanent investments, is evinced by the facts that
Five-Twenty Bonds of 1867 are selling at....115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at....94
These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.
The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.
The reason why we think CENTRAL PACIFIC BONDS will in time advance to the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.
The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must commence operations in 1880.
Either coupon or registered bonds can be had, and are as follows:

$100, which cost to day.....	$94.13
$500 " " "	471.56
$1000, " " "	943.13

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.
We buy and sell Government and Centrall Pacific Bonds, and receive them in exchange for Chesapeake and Ohio Bonds.
Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*
FISK & HATCH,
dec2 *Financial Agents*

AMERICAN & FOREIGN PATENTS.
R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of thirty years, continues to secure patents in the United States, and in those of Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Careful examinations made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters relating thereto. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
We do Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a patent and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.'
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.
"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

Portsmouth, N. H.

THURSDAY, DECEMBER 21, 1871.

The Farragut.

The dubious attitude of Spain, the condition of our Navy at the present time, the lack of sufficient power on the sea, the necessary steps to be taken for our own security, occupy to a great extent the minds of thinking men. If we are to engage in war with Spain, the Navy must do the fighting. With the paltry force of armed vessels ready for duty, Spain might at once precipitate war to our disadvantage. No one can predict how soon this may come to pass. Its possibility even should lead to preparation, and thorough preparation must include the building of ironclads for coast duty. Let the Secretary of the Navy call for the necessary appropriations, let Congress pass the bills promptly, let Chief Constructor Hanscom order their immediate construction. Among these leviathans of naval warfare, the most powerful should be named after that grand old admiral, whose name would inspire courage and acts of bravery, and bring renown and invincibility to its officers and crew. Let us build us a masterwork of durability, a formidable vessel whose mission shall be the protection of the country. Let it be named the Farragut.

Congress.

Senate.—On the 19th, the bill appropriating $4,000,000 for government buildings in Chicago was passed.

Mr. Stewart introduced a bill proposing a sixteenth amendment establishing free schools in each State and Territory, and prohibiting aid to sectarian schools, which went to the judiciary committee.

Mr. Sumner gave notice that he should propose an amendment to prohibit the President holding office more than one term.

The retrenchment committee were directed to inquire whether any minister of our government has used his official influence in the interest of any mining company. Mr. Pool was excused from serving upon the retrenchment committee.

The report of the civil service commission, accompanied by a message mittee were instructed to investigate the recent suspension of national banks.

The bill for the appointment of a labor commission was taken up, discussed and carried over.

A bill was passed appropriating $27,840 to supply deficiencies in the expenses of the Ku-Klux committee.

Political.

James M. Smith, Democrat, has been elected Governor of Georgia, to fill Ex-Gov. Bullock's unexpired term. The vote was very light, the Republicans taking no part.

In the South Carolina House of Representatives, C. C. Bowen stated that Gov. Scott admitted to him, in New York, that $22,000,000 of fraudulent bonds had been used within three days, and that State Treasurer Parker had declared that the legislature dared not act against the ring because of its own corruption. In order to obtain a two-thirds' vote for impeachment he would offer a resolution to postpone the vote until after the Christmas recess, and if the full House rejected the measure he would resort to the courts. He pledged himself to assist by testimony and all other means in his power to convict the governor and other guilty officials. It is rumored that the governor admits that his impeachment will result in conviction if it goes to the senate,—which is doubtful, if the senate is so corrupt as is reported.

The Charlestown Advertiser isn't at all pleased at "citizens' tickets" in municipal politics. It says: "Gaston, the Democratic candidate, received three-fifths of all the votes cast in Boston, Monday—the 'ring,' or 'ins,' controlling a large portion of the Republican vote for him. The sooner all parties in municipal contests in Massachusetts go back to straight party tickets the better. A 'reform' in this direction would be a real reform, as it would put an end to mongrel city governments, and make somebody responsible for municipal action. Citizens' nominations mean a ring, and the ring means misgovernment and 'steal' as the rule."

History repeats itself. The cry of the Democracy is, "How can we beat Grant?" Gen. R. E. Lee struggled in vain over the same conundrum a few years ago. And, strange to relate, it remains unsolved to this day.

Woman suffrage is an actuality, and not an aspiration, in Greeley, Colorado. The people of that settlement recently voted on a candidate for Postmaster, and ninety-eight ladies were on hand to cast their ballots. They wore their best clothes on the occasion, thus showing that ardent patriotism is not inconsistent with due attention to the little proprieties of life.

New Hampshire Items.

Rev. Osman Cleander Baker, D. D., Bishop in the Methodist Episcopal Church, died at Concord on the 20th, aged 59 years.

Hon. Chas. Campbell of Nashua has been renominated for Senator by the Republicans. May all other nominations be as good.

THE SPECIAL MESSAGE of the President on the subject of civil service reform will attract the eager attention of the whole country. The scheme of the commissioners proposes competitive examinations for filling vacancies in the lower grades, and promotions according to faithfulness of service; all assessments of public employes for political or other propeses being absolutely prohibited. The President announces that his scheme will take effect the first day of January next, without legislation of Congress; but he invites legislation to secure its greater efficacy and appropriations to continue the services of the existing commission. The Senate voted to print ten thousand and the House twenty thousand copies of the President's message and the report of the civil service commission, with accompanying documents. When the Secretary of the Senate had finished reading the message, Senator Trumbull expressed great satisfaction with its contents, and Senator Sumner remarked that what he had just heard from the President gave him great joy. The House referred the subject to its special committee on the civil service.

LYNCHING.—A man lurking about the building at Union City (Tenn.) where the express robbers are confined, shot dead one officer and wounded another who tried to arrest him. Subsequently he was captured and jailed under guard. Before morning thirty disguised men overpowered the guard, killed Levi Farrington, an express robber, and took the murderer away. The body of the latter was found hanging to a tree. His name was Toler, from Kentucky. He was connected with the express robbers, and was there to aid

THE WAY the officers of the National Guard of New York were treated by the naval officers, who did not invite any of them to the ball given by them to the Duke Alexis, has created quite a stir in the militia, and it is said that hereafter the navy is to be badly neglected whenever any crack regiments hold receptions.

THE LYNN TRAGEDY.—The Coroner's jury in the Lynn murder case returned a verdict "that Melinda Jones, otherwise called Melinda Vanner," came to her death from wounds inflicted with a large dirk-knife "by one William Vanner, with whom the said Melinda was living as his wife."

REPORTS FROM MEXICO are to the effect that instead of the revolution being practically at an end, anarchy continues, complications increase, the government must quickly succumb, and all is discord.

SMALL-POX is spreading in Jersey City, Hoboken, Newark and Trenton, and special hospitals for patients are being assigned in those places.

GEORGE ALFRED TOWNSEND writes viciously, as thus:

"The captain of our salvation hated Reid [Ed. N. Y. Tribune] and one of the objects of the administration has been to find a place to puncture Reid and make him realize that he is nobody. Administration! Every young man is somebody. He can live longer than you. He has less to fear, because his life being shorter, there is less human in it. He may be sensitive and prejudiced and vain and wrong; but he can discover his errors and correct them. You cannot! You do not know how to govern, because you do not know how to forget. The best way to surmount your ignorance is by magnanimity. The camel stoops for two reasons; first, to be useful; secondly, because he is not very handsome standing up. And if this Administration would sometimes stoop it would be more useful and more graceful.

The administration being Horace Porter, and the opposition being, to a great extent, Whitelaw Reid — both young men of about the same age—my object is to see a fair fight. General Grant and myself have no business to interfere. The General has no policy to enforce; he was the first President who said so, and has since proved it."

—It is proposed to abolish the lighthouse at New London while whale oil is being tried out on the wharves. Any captain twenty miles at sea can smell his way in.

—Mr. Moffat of Ohio tried to melt a bullet out of his gun. He succeeded. Aged sixty-two.

BUSINESS NOTICES.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and vien of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is endulcted by any distilled or fermented liquor. 4wd10

Persons who have become thoroughly chilled from any cause, may have their circulation at once restored by taking into the stomach a tea-spoonful of *Johnson's Anodyne Liniment* mixed in a little cold water, well-sweetened.

Every farmer who owns a good stock of horses, cattle and sheep, and intends to keep them through the winter, should get at once a good stock of *Sheridan's Cavalry Condition Powders.* One dollar's worth will save at least half a ton of hay.

SPECIAL NOTICES.

Peril and Precaution.

This is a season that tries the frame and the constitution. If there be a weak spot in either, the chilling damps, the malarious fogs, the varieties of temperature that mark the commencement of the winter season are sure to find it out. There are few systems that have not a weak spot somewhere, and the wisest thing that any man or woman can do is to fortify it by a course of HOSTETTER'S STOMACH BITTERS, and thus on the ramparts. The same policy should be adopted with the human body, when its direst foe, malaria, is abroad. If the stomach is weak, this tonic will lend it vigor; if the bowels are morbidly sensitive, this alterative will regulate them; if the liver is inert, this wholesome stimulant will rouse it; if there is constipation, this aperient will cure it; if there is nervous debility this nervine will replace it with nervous vigor; if there is impurity in the blood, this depurent will neutralize it; if there is a cloud on the spirits, this exhilarant will dispel it. These are facts that have been demonstrated every day for the last twenty years. Can as much be said for any other medicine—or rather, can as much be *proved?* for anything may be said by the unscrupulous. Do not accept any of the local bitters sometimes recommended by dealers in lieu of the Standard Restorative.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER — Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

td30 **Sold by Dealers Everywhere.**

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

MONUMENTS AND HEADSTONES.

THE BEST AND CHEAPEST place to buy, is at

PHILBRICK'S,

Pier Wharf, State Street.

LOCAL AFFAIRS.

Laconics.

The Republicans of Rye held a caucus on Tuesday evening, Dec. 19th, and choose the following delegates to attend the various conventions: *State*, Uri H. Jenness, Rufus W. Philbrick; *County*, Lewis E. Walker, Joseph J. Seavey; *Senatorial*, J. Jenness Rand, Charles A. Drake; *Councillor*, Freeman J. Locke, Joseph W. Berry.

The North Hampton Republicans have chosen Walker delegates to the State Convention,—Messrs James R. Leavitt and Simon Brown.

Brig Maria Wheeler, Wheeler, master, arrived here on the 20th from Fernandina, Fla., in nine days.

It is said that the Eastern Railroad Company, in consequence of many losses incurred during the past year, will not declare a dividend in January.

Capt. Moses R. Curtis of Newcastle has a genuine mine of lime. He purchased the wreck of Schooner Namshong and her cargo of 2500 bushels of lime, and is now selling slacked lime to all callers. He discharges 1000 bushels at a time, then battens down the hatches and lets the lime swell until the hold is full again, when he re-opens and commences retailing again. Frequent repetitions of this interesting performance have failed to reduce the amount of slacked lime and the captain thinks he can fight it out on that lime all winter if the vessel can stand it. His relatives are fondly anticipating liberal legacies in the future.

Two Rye young men were arrested on Wednesday for disturbing a religious meeting last Sunday while Rev. Mr. Dunn was preaching. They were released on promising to keep the peace hereafter.

Among the list of officers confirmed by the Senate we find the name of Alexander Murray, to be promoted to Commodore.

Services will be held at the North Church to-morrow evening, to commemorate the 251st anniversary of the landing of the Pilgrims. Rev. Carlos Martyn will deliver an address on "The men of Plymouth rock and their principles."

A rich feast is doubtless in store for the audience which will fill the Universalist church this evening to hear Mrs. Livermore lecture on "What shall we do with our daughters?" The subject is one of engrossing interest to parents, and the young men will be equally interested in finding out how the girls are to be disposed of.

If any doubts had previously existed as to the presence of Winter, they would now disappear—"the eagle" has arrived at his winter quarters on Pierce's Island.

Hon. Frank Jones is having a beautiful monument made at the marble works of Mr. John S. Treat, as a testimonial in memory of the late Daniel W. Marden, who for many years was his esteemed confidential clerk and valued friend. It is to be erected on the lot fronting that of Mr. James E. Dennett and near that of the lamented Col. Albert L. Jones, in Harmony Grove cemetery. This lot has a granite curb with round top, posts, steps, &c. The monument is to consist of a granite base, marble plinth, die cap, sub cap and shaft—bearing the appropriate inscription:

DANIEL W. MARDEN
Born Dec. 17, 1834.
Died March 28, 1870.
Born honest, lived honest, and died honest.

The monument and fittings are beautiful in design and are to be erected at a cost of $900.

SENATOR CRAGIN'S BILL TO SUPPRESS POLYGAMY.—The bill recently introduced by Senator Cragin, to aid the execution of the law against polygamy, and for other purposes, provides that citizens only of the United States shall be competent to serve as Grand or Petit Jurors, in the Territory of Utah. Provision is made for the appointment of Probate Judges by the Governor; and the Supreme Court is authorized to make rules and regulations as to mode and manner of taking and perfecting appeals from one Court to another, so that the just rights of the parties may be secured and preserved. The militia of the Territory is to be organized and disciplined in such manner and at such times as the Governor shall direct, and all the officers shall be appointed and commissioned by the Governor.

Marriages may be solemnized only by Justices of the Supreme Court, or by Justices of the Peace duly appointed and qualified in their proper townships or precincts, or by any priest or minister of the Gospel regularly ordained and settled or established as such in said Territory, or by any Bishop or Elder in the so-called Mormon Church, between parties competent to enter into the marriage contract. Marriage is declared a civil contract, and no marriage shall be contracted while either of the parties has a former wife or husband living in the United States or elsewhere, unless the marriage with such former wife or husband shall have been dissolved.

All persons being within the degrees of consanguinity within which marriages are herein prohibited to residents of the Territory and declared to be incestuous and void, who shall intermarry with each other, or who shall commit adultery or fornication with each other, shall be punished by imprisonment at hard labor in the Penitentiary of the Territory not more than fifteen years nor less than six months.

If any officer authorized to solemnize marriage shall knowingly and willfully solemnize a marriage between parties either of whom is disqualified to enter the marriage contract, he shall be deemed guilty of a misdemeanor, and, upon conviction thereof before a Court having competent jurisdiction, he shall pay a fine of not less than $100 nor more than $500, and stand committed until the fine shall be paid. And if any person shall presume to solemnize a marriage who is not authorized to do so, he shall be deemed guilty of a misdemeanor, and upon conviction thereof before any Court of competent jurisdiction shall be punished by a fine not exceeding $500 nor less than $100, or by imprisonment in the Penitentiary not exceeding six months nor less than one month, or by both such fine and imprisonment at the discretion of the Court.

The bill provides for the punishment of spiritual wife-sealing, and also for the punishment of any person who shall knowingly and willfully aid and assist in, or be present at, the ceremony of Mormonism known as sealing or spiritual marriage. And if any person shall publicly or privately counsel, advise or persuade any man or woman to commit the crime of polygamy, such person shall be deemed guilty of a misdemeanor, and upon conviction thereof, be fined in any sum not exceeding $500, or imprisoned at the discretion of the Court for a term not exceeding twelve months. None but male citizens of the United States, over twenty-one years of age, and not disqualified by conviction for some crime, shall be competent voters.

In prosecutions for polygamy, proof of cohabitation by the accused, as husband or wife, or the acknowledgment of the party accused of the existence of the marital relation of husband or wife, shall be sufficient to sustain the prosecution. The bill also proposes to suppress the so-called Legislature of Deseret.

WINTER MILLINERY. — There is no better place to procure winter millinery than at that of J. B. Cromack & Co., 26 Temple place. The stock is new, bright and fresh, as well as very inviting, and includes bonnets, hats, feathers, flowers, velvet ribbons, velveteens and much else, which the ladies are invited to examine. The prices will be found very reasonable. It is an excellent establishment at which to procure a fit-out.

The above is what the Boston Post says of J. B. Cromack & Co.'s establishment, a card of which may be found in our Boston list.

—An elderly gentleman was recently "confidenced" on a train running into Keokuk, by sharpers, who induced him to buy a draft (wortbless) on Buffalo for $157.40, he paying them two $100 bills, and they paying him $42.60 as change. The conductor on the train took the first opportunity to quietly suggest to the innocent old gentleman that he was afraid the draft was a fraud. "Well," was the bland response of the imperturbable greeny, "if it is any bigger fraud than my two one hundred dollar notes were, then I am not forty-three dollars ahead—which I think I am. I am not in the habit of dealing in counterfeit currency, but I always keep a little of that sort of stuff about me for the benefit of that sort of customers."

STORY ON STOREY.—Immediately after the fire in Chicago, Lydia Thompson sent a pair of her cast-off tights to Storey, editor of the Times, with the following note: "My Dear Wilber, Chicago's Storey is one of misfortune! As you can do a smaller thing than any other person I ever saw, I send this pair of tights for your use. If the material in them will not make you a full suit, you have grown wonderfully since last we met. Tearfully, your friend, Lydia Thompson." A Times reporter says Storey was not pleased even at this tight fit!

—A Peoria man was attacked and knocked down by a wild steer, which attempted to pin him to the ground. Luckily, the animal's horns passed between the man's body and arms. Possessing great muscular power the man seized the horns and with all his force twisted the steer's neck and threw him. He then jumped up and ran, but his flight was needless, as the steer was found dead the next morning just where he was thrown, his neck having been broken.

—There is much anxiety in Spain over the largely-increased immigration to the United States, and the press recommends remedial measures.

SEWING MACHINES
CHEAP AT LAST!
Having received a large number of Sewing Machines (including nearly all kinds) in
EXCHANGE FOR THE "DOMESTIC,"
I am prepared to offer them at very low prices. Many of these have not been in use more than a month, and are actually better than new ones of the same make, because they have been run just enough to make them work easily. They accumulate so fast that I must dispose of them soon or be over-run with second-hand Sewing Machines. So now is your time to buy cheap, either for cash or by installments. I still continue my offer of
$10 REWARD!
to all who will exchange the
"DOMESTIC"
Sewing Machine for any other kind that has had about the same amount of usage.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER
seems to unite the good qualities of all, and is never found wanting.

THE SINGER
IS THE
OLDEST
SEWING MACHINE
IN THE MARKET,

All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.

AYER'S
SARSAPARILLA,
FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cures of a class of complaints which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

Morning Chronicle.

Correspondence.

WASHINGTON, D. C., Dec. 17.

Editors Chronicle:—A Washington correspondent is expected to treat of Congress, certainly if that body is in session. This then may be called the long session of the 42d Congress in contradistinction to that commencing next December, which will be the short session, ending constitutionally in March; while this session is not limited to any time till March, 1873, except by a vote of the two Houses. With the session business commences, and some four hundred bills have already been introduced in the Senate; many of these, treating of the same subject matter, if passed will be consolidated into one. Sumner has his system of finance, Morton his theory, and Sherman, as chairman of that committee, is bound to consider and report upon them,—or after the principle of finance has been discussed, to report a bill embodying the views of his committee on the subject, to be considered in the Senate. The first day of the session must have convinced all that the financial question is regarded as of the greatest importance; and how to reach specie payments is one of the first subjects demanding the thought and action of the present Congress, and I venture the prediction that some legislation will be made in that direction. It is exceedingly provoking to an American, representing nearly forty millions of people, that he should be obliged to give a dollar of our currency for ninety cents of Canada money, a country with one-twelfth of the population, and not one-hundredth of the wealth. The conquerors of the Confederacy, the most powerful nation in the world, must bow to the Wall Street brokers! Let it be a short subjugation. Grant flanked these fellows once; Congress it is to be hoped will order a direct attack.

The past week in the Senate has been occupied in a fierce debate on the raising of a committee—an old committee, on Retrenchment. The hope of those in raising that committee was doubtless to find a place for Schurz as chairman. The custom is, however, to put on such chairmen as favor the administration, and Schurz in uniting with the Democracy to elect a governor has not the full confidence of the administration; hence Buckingham was made chairman.

The debate was enlarged, the question magnified beyond all precedent. The questions of the presidency, civil service, mistakes made in making appointments and removals, were debated. Ambition in various forms, so dormant in statesmen and yet often so open, was developed to listening galleries, and the discussion has been reported to a reading nation.

During a part of the debate, Blair and Voorhees were attentive listeners, sitting together, smiling in mute admiration of Trumbull's remarks, expecting before he closed to hear him bid adieu to the Republican party and seek their fond embraces, but seemed at the close to be glad that he didn't do it. I have seen Mr. Trumbull when more hopes and more fears hung on his vote than now. Once his vote would have turned Johnson from the White House, but it is now powerless against Grant. It is indeed difficult to see in the civil service reform so much talked about, any of the charms that theorists give it; to me it wants the inspiration of patriotism. That all appointment offices should come not from party, nor from localities, but from examination and promotion, somewhat as is done in the army and navy, is not popular outside of those who have lost influence with the appointing power. Such civil service, Morton tells us, would create an aristocracy of office-holders. They would be over the people the President, because neither he nor they could turn them out. Had that been in force in 1861, Mr. Lincoln would have been obliged to run the government by a disloyal host of clerks, and those rebel auditors who ran to Richmond then, would now be settling the accounts of Union officers and perhaps hunting up precedents in the acts of their life-aristocracy to suspend the payment of pensions to soldiers. Such a law if passed, would be repealed at the request of an opposition president, even if Mr. Trumbull should be their successful candidate.

New Hampshire is doomed to lose a Representative. We must hereafter put up with two. It will now require some 137,000 inhabitants for each representative, and while the House will be increased some 20 members, we lose one. Our Democratic Representatives in looking ahead are wondering who is to be dropped. Parker, on the Connecticut River, will of course have that section to himself, if the division is north and south, leaving Hibbard and Bell to fight over the nomination in the eastern portion. The one having the most Catholic friends will doubtless succeed in the nomination, and as they have a year more to devote themselves towards religion, it may be difficult to say which will get the most Catholic influence. It is understood that Mr. Bell stands better with the Catholics than the late Chairman of the Democratic Committee, Mr. Clark; still they await, tremblingly, March, '73. Tammany cannot help them any more, and the National Committee have not yet raised the needful, although it is thought Sam Randall will do something for them. They made bad use of their money last year, having through all their labor and money gained a Goodale and Cogswell,—secured two Sheriffs and a Governor.

Washington is dull, more so than usual, it is said. A Democratic reporter says that the Democrats came here expecting to find the Republican party divided and ready to dissolve,—that they expected the disruption would be such that enough would unite with them to make Grant uneasy,—but that they don't find a man willing to desert the Republican party. Hence their disgust, and the political quiet in that respect. Scalding don't amount to much; everybody expects it washing days, once a week,—and without some new thing in the political world "busts up" they have no hope to defeat Grant.

It has been a custom here to describe the dresses of belles and ladies at receptions and balls, but in the absense of such amusements, "what they wear" in church has become matter for the newspapers. I copy from this morning's Washington Chronicle, the following:—

"Mrs. Vice President Colfax, a maturity looking face, sings, "Praise God from whom all blessings flow" in a black velvet suit heavily mounted with puffings of satin and trimmed with rare and costly lace.

Mrs. Postmaster General Creswell listens to the man of God in a blue moire and white corduroy jacket, handsomely trimmed with black velvet.

Mrs. Judge Humphreys feels at home in a plain black silk, with trimmings of lace.

Mrs. Thomas L. Tullock heeds the good tidings in a lavender silk trimmed with ruchings and box plaitings of lavender satin.

Mrs. Rev. Dr. Newman takes her spiritual nourishment in a brown silk, heavily flounced and trimmed with point lace and wrappings of velvet.

Mrs. Col. D. C. Cox rivets her attention to the spiritual doctrine in a blue silk, edged with trimmings of point lace.

Many others are there equally and fastidiously attired.

The fashionable season will commence there immediately on the return of Congress in January. The President's receptions, as also those of Speaker Blaine, are "without cards of invitation," open to all the world, while others are more limited. The theatre is not well patronized; the spirits are making poor shows on worn-out platforms; Woman Suffrage is improving.

Yours, L.

NEW ADVERTISEMENTS.

THIRTY YEARS' EXPERIENCE
IN THE TREATMENT OF
CHRONIC AND SEXUAL DISEASES.

A Physiological View of Marriage.

The cheapest book ever published—containing nearly three hundred pages, and one hundred and thirty fine plates and engravings of the anatomy of the human system in a state of health and disease, with a treatise on early errors, its deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by a report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of twenty-five cents,—in stamps or postal currency,—by addressing DR. LA CROIX, No. 31 Maiden Lane, Albany, N. Y. The author may be consulted upon any of the diseases upon which his book treats, either personally or by mail, and medicines sent to any part of the world.

BOSTON.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!
THEY ARE NOT A VILE FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequaled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.
They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. lyrdawbblo
J. WALKER, Prop., R. H. McDONALD & CO. Druggists & General Agents, San Francisco, Cal., and 32 & 34 Commerce Street, New York.

Portsmouth Daily Chronicle.

ESTABLISHED 1853. | MARSTON & FREEMAN, PROPRIETORS. | GEO. W. MARSTON, I. P. MILLER, EDITORS.

$6 per Year, in Advance. | PORTSMOUTH, N. H., FRIDAY, DECEMBER 22, 1871. | 3 Cts. Per Copy.

The Chronicle.

LEAP YEAR.—Do you know, my dear buffers, what is leap year? It is your year of jubilee, wherein you may rest from your labor of courting and sit back, with your hands crossed on your lap, and wait for propositions from the fair sex. From time immemorial it has been the custom for the ladies to ask all leading questions one year in four. If any suffering angel has been pining for you in secret, you will be apt to find it out before you are much older. Concealment, which, like a worm in the bud, has been feeding on her damask cheek, will have to hunt up a new boarding house.

I trust that you realize the great importance and dignity of the situation you occupy, and that you will endeavor to sustain your well-earned reputation of being the noblest work of God. Let not your dignity degenerate into stiffness, and at the same time guard against levity. Avoid trifling with the feelings of the gentle beings who may desire to become overseers of your happiness. 'Do not encourage hopes that you know can never be realized.' Do not suffer a young lady to expend half her income in concert tickets, French candy and buggy rides, knowing at the time you receive those attentions that she is not a congenial spirit; that she drinks and falls in love with stock actors, and writes verses about the same. When you once make up your mind that she is not exactly the style of angel you would be willing to do marketing for, break the disastrous intelligence to her as gently and firmly as possible. Assure her that you feel extremely flattered by her preference, and that you shall always esteem her as a friend. If managed with skill there is no danger of the rejection being accompanied with the sacrifice of human life. I do not remember me of more than a dozen beauteous girls who died because I could not love them unless some other disease was complicated with their affections.

If, which is quite likely, you make up your mind that the suitoress is a proper being to sweeten your cares and coffee, to sooth your sorrows and rumple your shirt bosoms, let your hand rest in hers, and suffer your soft head to fall upon her womanly bosom (mind the breast pin) and murmur something about papa. She will then call you her dear little mouse, and other proprieties and improprieties will suggest themselves in their regular order.

Seeing that a bride's trousseau costs something less than $400, the writer suggests the following

TROUSSEAU FOR A BRIDEGROOM.

1 black cloth suit	$80 00
1 pocket handkerchief	30
2 shirts—plain bosom	5 00
1 night shirt—embroidered	4 00
2 paper collars	05
1 pair drawers—plain	1 75
1 pair drawers—ruffled	2 50
1 bottle whiskey	2 00
1 paper cloves	15
1 cake honey soap	25
1 cork screw	25
1 bottle cocktail bitters	1 50
1 ivory toothpick	25
1 Baxter's Saint's Rest	2 00
Total	$100 00

—The last jibe at H. G. reports that "in an agricultural essay on tobacco, he asserts that the fine cut will not ripen well unless the tin-foil is stripped from the growing bud early in the spring, and the plug ought to be knocked off the trees with clubs instead of being picked off with the hand."

—At an Indiana breakfast table a few days ago, a traveller from the east handed to one of his fellow-travellers a plate of sausages, whereupon the question was asked, "Is it safe?" The answer was: "This is a prolific hog country, and it is safe to eat sausages wherever hog is cheaper than dog."

—An ingenious Mississippi negro thought he would kill a sheep by holding it in front of an approaching locomotive. The animal escaped with a broken leg, but the ingenious individual was made the subject of a funeral oration.

POWER OF THE PRESS.—The people of South Seabrook have bought three hundred dollars' worth of wood this season, and the wood owners of Salisbury have contributed the fuel for warming Mr. Rand's church this winter.—*Newburyport Herald.*

—In a large proportion of the Boston marriages, last year, the brides were older than the grooms. This is only natural, says the Boston Times: Boston maids rarely get married until they are old enough to terrify innocent and nervous young men into it.

Hon. Alvah Crocker, of Fitchburg, Mass., is the Republican nominee for Congressman, to succeed Hon. William B. Washburn, elected Governor.

—An Iowa eagle made one fell swoop and pounced upon a young and tender pig. Contrary to all precedent, however, the porker proved recalcitrant, and slew the proud bird of freedom.

—A Kansas man sent for a clergyman to preach his wife's funeral sermon and incidentally to marry him, at the close of the discourse, to a young woman whom he had selected on the death of his spouse.

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

Describe symptoms in all communications.

JURUBEBA.
IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy in the POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the
LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.
Dr. Wells' Extract of Jurubeba
is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints
JURUBEBA
is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments. 4w n28

HARVEY FISK. A. S. HATCH.
FISK & HATCH,
BANKERS
and Dealers in Government Securities,
No. 5 Nassau Street,
New York, Nov. 20, 1871.
The successful and rapid negotiation of nearly three-fourths of the FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:
OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.
MESSRS. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:
The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonry on eleven of the 103 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.
In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further ordere.
Very respectfully yours,
C. P. HUNTINGTON, *President.*
In compliance with the foregoing instructions, the price of the Bonds, from this date, until farther orders, will be 94 and accrued interest.
The scarcity of, and demand for, really
Desirable six per cent. Gold Bonds,
for solid and permanent investments, is evinced by the facts that
Five-Twenty Bonds of 1867 are selling at.....115
Central Pacific Bonds are selling at.....105
Chesapeake & Ohio Bonds are selling at...94
These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.
The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.
The reason why we think CENTRAL PACIFIC BONDS will in time advance to the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.
The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.
The **Chesapeake & Ohio Bonds** are issued either coupon or registered—the denominations are as follows:

$100, which cost to day.....	$94.13
$500 " " "	471.56
$1000, " " "	943.12

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.
We buy and sell Government and Central Pacific Bonds, and receive them in exchange for Chesapeake and Ohio Bonds.
Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*
FISK & HATCH.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.
"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

The Daily Chronicle,

Portsmouth, N.H.

FRIDAY, DECEMBER 22, 1871.

Congress.

Senate.—On the 20th, a bill appropriating $250,000 for the Geneva commission and $62,000 for the mixed commission expenses at Washington, was passed.

The House amnesty bill was considered. Mr. Sumner thought it a good opportunity to do justice to the colored men, and offered as an amendment the supplementary civil rights bill. Mr. Hill of Georgia supported the bill, but believed Mr. Sumner's measure impractical. Mr. Wilson said that he would prefer to vote for the bill as it came from the House. He would vote for it, not as a matter of expediency, not as a means of quieting the Ku-Klux, not as a matter of justice to the South, but simply as a matter of mercy. He did not hate and never had hated the South or any section of the country, but the longer he lived the more the wickedness of the rebellion grew upon him. He was glad that Mr. Sumner had offered his amendment, because the attention of the Senate had been directed to it, and he hoped that it would soon be taken up and passed, but he preferred that it should not be tacked on to the pending bill. A vote on the bill was deferred.

House.—Mr. Upton of Ohio, from the select committee on civil service, was instructed to inquire into the expediency of the election of postmasters by the people.

The post route bill was passed.

A resolution declaring the regret of the House at the recent murder of the Havana students was referred to the committee on foreign affairs.

Mr. Hoar's labor-commission bill was passed, all the Republicans except Mr. Taffe of Nebraska voting for it, and some of the more enlightened Democrats. Mr. Hoar had a passage-at-arms with Mr. Biggs of Delaware. Mr. Biggs contended that the Democratic party had been "the natural protector of the working classes" for forty years, and Mr. Hoar inquired whether during all that time the gentleman had not advocated the policy of capital owning labor.

Mr. Biggs suggested that if Mr. Hoar had read the history of his own State he would find that boys and girls not fifteen years of age were kept at work in the factories of Massachusetts until the superintendents had to throw water in their faces to keep them awake. There was not an intelligent man in the country who believed that a man could obtain a livelihood for his wife and children by working only eight hours a day. If the gentleman wanted to regulate the relations of labor and capital he should go to his own State and set the example.

Mr. Hoar asked the gentleman from Delaware if the Massachusetts law, which forbade the employment of children in factories unless they had an opportunity to attend school, was better than not having any common school, and sending ignorant boys and girls to the pillory or whipping-post.

Mr. Biggs said the whipping-post was an institution which his State was proud of. It had only been established for felons, scoundrels, thieves and robbers, and it was said, to the great glory of the State, that a man was never brought back the second time after being properly whaled.

Mr. Hoar said that this was simply a demand for an investigation into the question whether the legislation of the general government did, in any respect, operate injuriously on laborers. Who would dare to refuse an investigation demanded by all the organizations of labor and refuse to have it made by the ablest, most competent and most impartial persons? On those two propositions he would rest the bill and call for a vote.

The bill as amended passed by a vote of 134 to 56, and provides "that there shall be appointed by the President, by and with the advice and consent of the Senate, a commission of three persons, of whom one shall be practically identified with the laboring interests of the country and who shall be elected from civil life solely with reference to their character and capacity for an honest, impartial investigation; who shall investigate the subject of wages and hours of labor and division of the joint profits of labor and capital between the laborer and capitalist, and the social, educational and sanitary condition of the laboring classes of the United States, and how the same are affected by the existing laws regulating commerce, finance and currency, provided that the said commissioners shall be appointed irrespective of political or partisan considerations and from civil life."

Political.

Judge Orr of South Carolina, in a charge to the grand jury of Pickens county, delivered a fortnight ago, frankly stated that, in his judgment, the suspension of the habeas corpus in several of the counties of that State was a necessity. The coppery press of the North will now proceed to call Judge Orr a "base radical liar," probably.

The democratic members of the Ku-Klux investigating committee appear to have lived most liberally at the public expense, the bills of Senator Blair amounting to about $1052 and those of Representative Beck to $1219, while those of the republican members averaged less than half these amounts.

The Springfield (Ill.) Register works itself into a towering passion over "an infernal and treasonable plot" it has discovered on the part of President Grant to "inaugurate a hellish riot," in Chicago, and in a paroxysm of passion calls on the militia of the State to "defend their homes from the ambitious tyrant at Washington!" A Republican paper exclaims, "*What* twaddle!" as well it may; but the bifalutin appeals and appalling discoveries of the Register are on a par with nine-tenths of the anti-Republican shrieks of the copperhead press, and of the innumerable mare's nests they are constantly exposing to excite the prejudices of their ignorant readers.

Georgia republicans state that the party, though not participating in the late election, is rapidly improving its situation and organization, and if left to its own control will be in excellent condition for the campaign next year. Ex-Governor Bullock was last heard from in Canada, but he will be brought back for trial for embezzlement of the public funds. The rejection of Foster Blodgett's claim to a seat in the United States Senate is represented as satisfactory to the republicans.

THE NEW APPORTIONMENT.—The apportionment bill passed by the House of Representatives increases the total number of representatives from 243 to 283. The following tables show the distribution of members in the present House, that of the members under the new apportionment, the gain or loss of each State, the gain or loss of the four sections into which the country is generally regarded as divided, and the percentage of membership belonging to each of these section:s—

New Hampshire Items.

The Dover Board of Education has decided to introduce drawing into all the public schools.

Three young Nimrods of Campton went hunting in the Lincoln woods on Saturday, Dec. 9th, and returned Monday morning with three fine bucks and a doe, which weighed 571 pounds, dressed. The doe only was shot, the bucks being caught by the horns while defending themselves from the hounds.

Mrs. Henry Aldrich of Sugar Hill, Lisbon, died very suddenly, Dec. 11. She had been sick for some time with lung fever, but had so far recovered as to be up around the house. At noon she partook quite heartily of pudding and milk, and died in consequence at three o'clock that afternoon.

On Tuesday, Dec. 19, as Mr. John Stevens, engineer in A. Nute's shoe factory, in Farmington, was polishing some of the machinery, he was caught in the shafting and instantly killed. Mr. Stevens was married, but leaves no children.

The Democrats of the Concord district have nominated Hon. Chas. T. Cram for re-election to the State Senate.

Two cows sold for $12.50 each in Ashland a few days ago. Hay is scarce and is reported to sell at $30 to $35 a ton.

Hereafter let no one object to lovers keeping late—or rather early—hours, for the recent fire in Bristol was discovered by a young man who had been out courting. The Franklin Fire Company made the young lady a present for keeping her beau up until 2 o'clock in the morning—the time the fire was discovered. This fire was the first one the Franklin boys have been called to for eighteen months.

JESSE R. GRANT, father of President Grant, was stricken with paralysis on the 20th. He fell to the floor at the Covington, Ky., post-office and remained insensible an hour. He was able to sit up and converse during the afternoon.

BUSINESS NOTICES.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and vim of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

Persons who have become thoroughly chilled from any cause, may have their circulation at once restored by taking into the stomach a tea-spoonful of *Johnson's Anodyne Liniment* mixed in a little cold water, well-sweetened.

Every farmer who owns a good stock of horses, cattle and sheep, and intends to keep them through the winter, should get at once a good stock of *Sheridan's Cavalry Condition Powders.* One dollar's worth will save at least half a ton of hay.

SPECIAL NOTICES.

Peril and Precaution.

This is a season that tries the frame and the constitution. If there be a weak spot in either, the chilling damps, the malarious fogs, the varieties of temperature that mark the commencement of the winter season are sure to find it out. There are few systems that have not a weak spot somewhere, and the wisest thing that any man or woman can do is to fortify it by a course of HOSTETTER'S STOMACH BITTERS, and thus keep the enemy at bay. In war, when a city is menaced the first thing to be done is to strengthen the ramparts. The same policy should be adopted with the human body, when its direst foe, malaria, is abroad. If the stomach is weak, this tonic will lend it vigor; if the bowels are morbidly sensitive, this alterative will regulate them; if the liver is inert, this wholesome stimulant will rouse it; if there is constipation, this aperient will cure it; if there is nervous debility this nervine will replace it with nervous vigor; if there is impurity in the blood, this depurent will neutralize it; if there is a cloud on the spirits, this exhilarant will dispel it. These are facts that have been demonstrated every day for the last twenty years. Can as much be said for any other medicine—or rather, can as much be *proved?* for anything may be said by the unscrupulous. Do not accept any of the local bitters sometimes recommended by dealers in lieu of the Standard Restorative.

HALFORD

LEICESTERSHIRE

TABLE SAUCE,

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every pair of shoe bears the Patent Stamp.

t630 **Sold by Dealers Everywhere.**

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

Republican Conventions.

STATE.—At Phenix Hall, Concord, Wednesday, January 3, 1872, at 11 A. M.

COUNTY.—*Rockingham*—At Town Hall, Exeter, Tuesday, January 9, 1872, at 11 A. M.

SENATORIAL.—*District No.* 1—At No. 2 Ward Room, Portsmouth, Wednesday, January 10, 1872, at 11 A. M.

COUNCILLOR.—*District No.* 1—At Town Hall, Newmarket, Thursday, January 11, 1872, at 10 A. M.

NEARLY ONE HUNDRED CHICKENS were put into a pie that was baked at Wallace's bakery in Bridgeport, Conn. The pie was presented to the fair of St. John's Church. It required four men to move it. It is the biggest chicken pie ever built and baked in the State.

NEW ADVERTISEMENTS.

LOCAL AFFAIRS.

Laconics.

Stillman B. Allen, Esq., formerly of Kittery, has entered the lecture field.

The Unitarian church is being tastefully decorated for the Christmas services.

The Dover Enquirer says Rollinsford has chosen Walker delegates to the Republican State Convention.

A severe cold "spell" commenced here, Wednesday. The mercury went to six degrees below zero, Thursday morning.

Rev. Carlos Martyn will deliver a lecture on the Pilgrim Fathers, at the North Church, this Friday evening at half past 7. The public are invited.

Mr. Elliot Chickering died at Concord on the 19th, at the age of 83. He was formerly engaged in the wood and lumber business at Grafton and Hooksett with Messrs. James W. Emery and Alfred W. Haven, of this city.

The Republicans of Greenland held their caucus on Monday evening, Dec. 11, and choose the following gentlemen to serve as delegates to the various conventions: *State*, J. Clement Weeks John E. Holmes; *Councillor*, Nathaniel Wiggin, Theodore Lowd; *Senatorial*, John P. Weeks, Moses Pearson; *County*, Daniel Berry, W. H. Brackett.

William R. Martin, Esq., of this city, Republican candidate for State Senator in this District, last March, positively declines a renomination, his business being such that he cannot afford to neglect it for the exciting canvass that will ensue. Messrs. Emmons B. Philbrick, of Rye, and Warren Brown, of Hampton Falls, are the prominent candidates for the nomination.

Samuel Adams, Esq., one of our most successful lumber merchants, commenced business just 30 years ago, in the same locality he now occupies. Among his experiences of those 30 years, are two adverse incidents in the shape of fires, by which considerable loss was sustained; but Mr. Adams kept on unflinchingly and has something to show for his attention to business.

The Republicans of North Hampton held their caucus, Dec. 8. The Republican Club was organized for the ensuing year by the choice of the following named officers:—*President*, E. H. Berry; *Vice Pres.*, Morris Cotton; *Executive Committee*, John Leavitt, Morris Cotton, Nathaniel Drake; *Sec. & Treas.*, John W. Warner. The following named gentlemen were chosen delegates to the several conventions: *State*, James R. Leavitt, Simon Brown; *Councillor*, E. H. Dalton, Orrin Leavitt; *Senatorial*, J. W. Warner, Samuel Rand; *County*, E. H. Berry, John Bachelder.

William T. Felch of Seabrook was on Thursday fined $3 and costs by Judge Page, for being drunk. He was also bound over in $800 to answer a charge of breaking into a house in Seabrook and threatening the occupant,—and went to jail in default. He is a fisherman and a rough customer, and his neighbors are anxious to have him taken care of.

Never saw people travel faster than during yesterday.

Work at the Navy Yard will be suspended to day should the mercury be down to zero with calm weather, or five degrees above zero with wind.

The sleighing in this vicinity was never better than at present.

It is said the bald-headed eagle at Peirce's Island has made an annual pilgrimage to his present winter quarters for twenty-five years past.

A noble deed by a noble lady is chronicled in our columns to-day. In these days of severe weather our comfortably clad citizens should not forget their duty to their fellow creatures. Miss Arabella Rice has been foremost in works of generous benevolence and we trust her example will be followed by others. "He that hath pity upon the poor lendeth unto the Lord."

New Books.

Lucia: Her Problem, a novel by Miss Amanda M. Douglas, is issued in neat style by Sheldon & Co. Miss Douglass' productions all contain a moral, and her creations of fiction are free from demoralizing influences, teaching the value of good acts. "With Fate Against Him" was issued but a few months ago and won warm praise from the press. Such novel reading tends to make the reader better and such a novel writer should be encouraged. J. H. Foster has these books for sale.

The New Year, a family almanac for 1872, published by the American Tract Society, may be found at Foster's Book Store.

Aunt Jo's Scrap Bag is a little book just issued by Roberts Brothers, being a collection of short stories by L. M. Alcott, author of "Little Women," "Little Men," and other works. Just the thing for a holiday present to the little folks. Miss Alcott has a winning style of writing that captivates old and young. For sale by J. H. Foster.

The Metaphors of St. Paul is issued by the American Tract Society, two volumes in one. The contents are adapted to the wants of the general reader as well as of the student and preacher. Dr. Howsen has vividly represented the local customs and national usages of the Greeks and Romans, their style of architecture and the contents of the gymnasian and stadium. A practical and earnest religious spirit pevrades the work.

Ought We To Visit Her, a novel by Mrs. Annie Edwards, has been issued in pamphlet form by Sheldon & Co. of New York. It has been interesting the readers of the *Galaxy* for many months and will find eager readers among those who have not yet become engrossed in the peculiar trials of Jane Theobold. For sale by J. H. Foster.

Harper's Magazine for January circulates 130,000 copies. Contents: The Legend of the Mistletoe, Holland and the Hollanders, A Stranger in the Pew, From a Barn to Drury Lane, The Danish West Indies, The Singer and the Song, A Visit to a Greenland Glacier, The Mysterious Case of My Friend Browne, A Good Investment, A Merry Christmas, A Cup of Coffee, The Snow Bird, Is Alaska a Paying Investment? The Poetry of the Zodiac, The Reverend Sampson's Christmas Gift, Quiet Life in some Danish Towns, Miserere, The Little Saints, The Growth of our Theories of the Weather, and The Winter Wedding. For sale by E. G. Adams, J. H. Foster and Wm. B. Lowd.

GOLD IN VERMONT.—There is considerable stir in Windsor county, Vt., owing to the discovery of gold upon an island in the White River, a quantity having been assayed and found to give the profitable yield of $1980 per ton. The soil is a black sand, in which the yellow grains of more or less fineness can be seen. The discoverer, an Englishman named Saltry, leased the island for a small sum, before making known his good luck, and is now selling rights to dig, the owner of the island himself paying $500 for one.

LETTERS from South America state that the earthquake at the town of Oran lasted nine hours, with forty different shocks. Streets were split open and every house tumbled into ruins. The inhabitants all fled to camps outside the town. Only one death occurred. The earthquake was felt throughout the Province of Jujuy, and a volcano burst forth, leading to the belief that there were further subterranean movements along the line of the Andes.

THE TRIALS of communist prisoners in Paris are progressing as fast as possible, and additional courts will be created. There have been tried 14,378 prisoners. Of these 2022 were convicted and sentenced, and the rest discharged.

ALEXIS was thrown off the track on the Grand Trunk Railroad near Brockville, on the 20th. Nobody hurt. The accident was caused by a broken rail.

MR. L. A. COOMBS, one of the proprietors of the Preble House at Portland, committed suicide by shooting himself. His age was forty-two.

New London had it 21 degrees below zero on the 21st.

A GOOD THING.—The testimony of leading dealers and horsemen, in Boston and elsewhere, fully endorses the anti-snow-ball pad of Mr. Wheeler, advertised to-day. Balling, slipping, and picking up stones or gravel with the hoof, are said to be impossible where it is used. Jas. Boyd & Sons, John B. Baker, John A. Brewster, Dan. Mace, &c., all give it high eulogiums.

PROGRESS OF THE WOMAN MOVEMENT.—The following appeared as an advertisement in a Honolulu paper. Mrs. K. is clearly at the head of a woman's rights movement in the Sandwich Islands:

"Know all people who see this, I, Mrs. Kappa, the married wife of Kolomaio, of Naalehu, Kau, Hawaii, do hereby forbid the foreigners living in Kau, from again shipping my husband, as I have ordered him to come back and live with me, in accordance with fundamental law of marriage. Marriage is a good thing for everybody. Respectfully, Mrs. Kappa.

A DANGEROUS EXPERIMENT.—A farmer near Auburn N. Y., has been arrested for taking up the rails of the Southern Central Railroad at a place where the road passes through his farm, thereby endangering the lives on a train, which was stopped just in time to prevent an accident. There has been an unsettled account pending for some time between him and the road, on the subject of damages to his farm. He says that he merely took up the rails in order to drive a heavy load more easily from one part of his farm to another. Auburn has been quite excited by the affair.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) now Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good [qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHING

IN THE MARKET,

All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.

J. J. FESSENDEN,

Agent for Portsmouth, and Vicinity,

AYER'S

SARSAPARILLA,

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the larking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With these departure health returns.

Morning Chronicle.

Correspondence.

RAYMOND, Dec. 20.

The Center Valley Club of Raymond performed the drama, "Ten Nights in a Barroom," in Deerfield two nights last week; the audiences were small. In the latter part of the same week they performed two evenings in Epping, where the audiences were better.

An enterprising trader in Raymond some days since evinced, in the judgment of some, a degree of abberation of mind sufficient to render it advisable to remove him to the Asylum for the Insane in Somerville, Mass. Good judges were confident that a few days' relaxation from business was all that was needed, and it was evident from his conversation at the depot before starting that in his judgment those in charge of him needed more attention than himself. Arriving at Somerville there was a screw loose somewhere, for which the gentleman was not responsible; and all came home the same night, since which all parties have been right.

In Nottingham there is but one religious meeting, the Freewill Baptist. This house of worship, built some 30 years ago, was designed to be central, but was on a poor, sandy plain with but two dwellings near. It has been removed to the central place of business and reconstructed, and it was dedicated on the 9th inst. The ministers of the denomination, if invited, did not attend, save Rev. A. L. Gerrish of Pittsfield, Me., a native of the place, gave the discourse. Two Congregational ministers were invited, one of whom was present and offered the prayer of dedication.

The Maine Central Institute at Pittsfield has had 260 students the past year. Only one was from New Hampshire, Miss Maria Parloa of Portsmouth, who was in the Normal Department, Class B.

The catalogue of Dartmouth College shows a total in all departments of 400 students; in the Medical Department 40, only one of whom is of Rockingham County, Bullard of Hampstead; Seniors, Cotton and Tuttle of Northwood, Dustin and Savage of Derry; Clark of Stratham; Goss of Rye; Sophomores, Dickey, Hubbard and Parsons of Derry; Freshmen, McGregor of Derry and Tilton of Exeter; Scientific students, Flanders and Morrill of Brentwood; Agricultural students, Eldridge of Kensington and Tucker of Plaistow. It will be seen that Derry is the banner town for students in college, having eight in the Academical Department. No town in the State of its population does so well. J.

THE VALUE OF A NEWSPAPER.—The following is the experience of a mechanic, concerning the benefits of a newspaper:

Ten years ago I lived in a town in Indiana. On returning home one night, for I am a carpenter by trade, I saw a little girl leave my door, and I asked my wife who she was. She said Mrs. Harris had sent her after their newspaper, which my wife had borrowed. As we sat down to tea, my wife said to me:

"I wish you would subscribe for the newspaper, it is so much comfort to me when you are away from home."

"I would like to do so," said I, "But you know I owe a payment on the house and lot. It will be all I can do to meet it it."

She replied:

"If you will take this paper, I will sew for the tailor to pay for it."

I subscribed for the paper; it came in due time to the shop. While resting one noon and looking over it, I saw an advertisement of the county commissioners to let out a bridge that was to be built.

I put in a bid for the bridge, and the job was awarded to me, on which I cleared three hundred dollars, which enabled me to pay for my house and lot easily, and for the newspaper. If I had not subscribed for the newspaper I would not have known anything about the contract, and could not have met my payment on my house and lot. A mechanic never loses anything by taking a newspaper.

—A Philadelphia reporter states that the afghan presented to the Grand Duke at a church fair in that city, "is the work of an old lady whom it took six years to finish." Our very much married contributor remarks that if he thought that afghan, or any other afghan, capable of finishing an old acquaintance (his mother-in-law, to wit) in six years, he would cheerfully barter all his worldly possessions for it.—*N. Y. World.*

—The more married men the fewer crimes there will be. Marriage renders a man more virtuous and more wise. An unmarried man is but half of a perfect being, and it requires the other half to make things right; and it cannot be expected that in this imperfect state he can keep the straight path of rectitude, any more than a boat with but one oar can keep a straight course. *Voltaire.*

—The reported illness of Hon. William H. Seward is entirely untrue. His health is as good as for years past.

NEW ADVERTISEMENTS.

AGENTS Wanted.—Agents make more money at work for us than at anything else. Business light and permanent. Particulars free. G. STINSON & CO., *Fine Art Publishers*, Portland, Maine.

A VOID QUACKS.—A victim of early indiscretion, causing nervous debility, premature decay, etc., having tried in vain every advertised remedy, has discovered a simple means of self-cure, which he will send to his fellow-sufferers. Address J. H. REEVES, 78 Nassau St., N. Y.

THIRTY YEARS' EXPERIENCE
IN THE TREATMENT OF
CHRONIC AND SEXUAL DISEASES.
A Physiological View of Marriage.

The cheapest book ever published—containing nearly three hundred pages, and one hundred and thirty fine plates and engravings of the anatomy of the human organs in a state of health and disease, with a treatise on early errors, its deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by a report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of twenty-five cents,—in stamps or postal currency,—by addressing DR. LA CROIX, No. 31 Maiden Lane, Albany, N. Y. The author may be consulted upon any of the diseases upon which his book treats, either personally or by mail, and medicines sent to any part of the world.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!
THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.
They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfeb16
J. WALKER, Prop., R. H. McDONALD & CO. Druggists & General Agents, San Francisco, Cal., and 32 & 34 Commerce Street, New York.

UNEQUALED TESTIMONIALS OF THE EFFICACY OF HELMBOLD'S EXTRACT BUCHU.

H. T. HELMBOLD'S

CONCENTRATED

FLUID EXTRACT

BUCHU.

THE

GREAT DIURETIC.

The Proprietor trusts that his Remedies, from the fact of being advertised, may not be classed as Patent Medicines.

BUCHU, in one form or other, has been used by every educated Physician for upward of

TWO HUNDRED YEARS.

H. T. HELMBOLD
CLAIMING A SUPERIOR
MODE OF EXTRACTING ITS
VIRTUES. THE EXPERIMENTS
WERE MADE WHILE ENGAGED IN
THE DRUG BUSINESS IN THE
CITY OF PHILADELPHIA,
TWENTY YEARS SINCE,
PROMPTED BY
ALARMING INCREASE OF DISEASES OF
THE BLADDER, KIDNEYS, GRAVEL, AND
URINARY ORGANS, EXISTING IN BOTH
SEXES. THESE DISEASES WERE JUSTLY
ATTRACTING AS
MUCH ATTENTION AS
DISEASES OF THE LIVER
OR ANY OTHER VITAL ORGAN OF
THE BODY. UPON THE SOUND AND
HEALTHY CONDITION OF THESE IMPORT-
ANT ORGANS THE HEALTHY AND HAR-
MONIOUS ACTION OF THE NERVOUS SYS-
TEM AND LIVER,
AND CONSEQUENTLY
THE HAPPINESS OF THE
ENTIRE HUMAN FAMILY, DE-
PENDS. THAT BUCHU SHOULD ACT UPON
BOTH LIVER AND KIDNEYS, TO
PREPARE IT SO THAT IT
WOULD RETAIN ITS
STRENGTH AND
ACTIVE PRINCIPLE,
WAS HIS AIM. IT MUST
NOT BE MADE, AS HOUSEKEEP-
ERS MAKE TEA, BY BOILING. IT IS A
DELICATE LEAF, AND ITS ACTIVE
PRINCIPLE WOULD BE DE-
STROYED BY SUCH A
PROCESS. IT
MUST BE
PREPARED IN VACUO, AND FROM
THE LONG
LEAF, FRESH AND CAREFULLY SELECTED.

THE SUPERIORITY OF MY MODE OF PREPARATION BEING ACKNOWLEDGED, I now ship even to the point where the leaves are gathered (CAPE OF GOOD HOPE) Thousands of Dollars of

MY FLUID EXTRACT

in excess of the cost of importation of the Leaves.

IN FACT, THE ARTICLE STANDS

PRE-EMINENT, AND HAS GAINED

A WORLD-WIDE FAME.

HELMBOLD'S EXTRACT BUCHU

HAS OURED EVERY CASE OF DIABETES IN WHICH IT HAS BEEN GIVEN, IRRITATION OF THE NECK OF THE BLADDER AND INFLAMMATION OF THE KIDNEYS, ULCERATION OF THE KIDNEYS AND BLADDER, RETENTION OF URINE, DISEASES OF THE PROSTRATE GLAND, STONE IN THE BLADDER, CALCULUS, GRAVEL, BRICK-DUST DEPOSIT, AND FOR ENFEEBLED AND DELICATE CONSTITUTIONS OF BOTH SEXES, ATTENDED WITH THE FOLLOWING SYMPTOMS:— INDISPOSITION TO EXERTION, LOSS OF POWER, LOSS OF MEMORY, DIFFICULTY OF BREATHING, WEAK NERVES, TREMBLING, HORROR OF DISEASES, WAKEFULNESS, DIMNESS OF VISION, PAIN IN THE BACK, HOT HANDS, FLUSHING OF THE BODY, DRYNESS OF THE SKIN, ERUPTION ON THE FACE, PALLID COUNTENANCE, UNIVERSAL LASSITUDE OF THE MUSCULAR SYSTEM, ETC.

Used by both sexes from the age of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bedwetting in Children.

IN AFFECTIONS PECULIAR TO FEMALES the EXTRACT BUCHU is unequalled by any other remedy, as in Chlorosis, or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Scirrhous state of the Uterus.

There is no better known Remedy for Bright's Disease of the Kidneys.

ALL OF

H. T. HELMBOLD'S

Preparation are Pharmaceutical.

HELMBOLD'S EXTRACT BUCHU

IS DIURETIC AND BLOOD PURIFYING, and cures all diseases arising from dissipation, impurities of the blood, etc.

THE EVIDENCE I PRODUCE IN REGARD TO THE EFFICACY OF MY

"FLUID EXTRACT BUCHU"

is not equalled by any Medicinal Preparation. Although having upward of Thirty Thousand Certificates, the few in to-day's issue should be carefully read.

TESTIMONY.

PERMANENT CURE OF GRAVEL OF TWENTY YEARS' STAND—STONE PASSED, AND TO BE SEEN.

BURNSIDE, Conn., Dec. 15, 1869.

DR. HELMBOLD:

Dear Sir:—It is with much pleasure that I write you upon facts respecting myself. I do not know hardly how to express myself. I have been for the last ten or twelve years the greatest sufferer that could be and live, but more sometimes than others. The complaint was the "Kidneys" and "Bladder." I have been sometimes from twelve to fourteen hours and wanted to make water every minute, but could not. Have consulted doctors both in Massachusetts and this State, and taken pills, I may say, by the quart; also tasted medicines; but found no relief from any, and got worse the last six months. I was so that I could scarcely get about. I could not rest night or day. It would soon have been "all up" with me if I had not seen your advertisement in *The Berkshire Courier*, headed "Kidneys." I read it through, and thought I would try it. I purchased a bottle; but, mind you, I had not much faith in it. Why should I, when I had been trying so many things and lost so much! Well, before I had taken the first bottle I felt bad; but I finished it and got another. By the time I took half of the second I still got worse (apparently.) When I walked it seemed as if my kidney was falling from its place, and I made up mind it was of no use trying any more. And all this time the "Buchu" was doing its work, but I did not know it; so I gave it up and went to Hartford, on Saturday, to one of the best doctors in the city. He said it was the neck of the bladder, and I should have to undergo an operation. He gave me medicine, and I went home quite downhearted. On Sunday I was unable to go to church. I had not taken of his medicine, but, on my return, continued using the "Buchu;" and in the afternoon I had a desire to make water, but could not. About one hour after this I tried again, with the same result; but the next time I took the vessel it was the same as turning a faucet and stopping it off again. It was so for three times, and the third time there was something came through the passage and struck against the side of the vessel. I examined it, and it is the ugliest stone or gravel you ever saw, covered over with little pieces which collected together. I looks like the color of a mud turtle, and is as hard as flint. So you see the "Buchu" was doing its work, although I was feeling so badly. I procured another bottle, thinking there might be some behind; but since that has passed, which is eight weeks ago last Sunday, I have been as well as ever I was in my life. I have the stone securely wrapped, and those who have seen it in this place are surprised. I cannot tell you all; but this is a true story of my case, and you are welcome to make such use of my name as you think proper. I am pretty well known in Berkshire; also in Connecticut. The advertisement saved me. Why not publish more? The Springfield Republican is a wide-spread paper. If any one wishes to see the wonder, they can do so. I could write all day, but I think I have said enough this time; so I remain your ever well-wisher, EDWARD L. ROWLEY,

Paper Maker, Burnside, Hartford Co., Conn.

ALL OF WHOM TREATED ME FOR THE DISEASE.

A CASE OF TWENTY YEARS' STANDING.

PHILADELPHIA, Pa., June 25th, 1867.

H. T. HELMBOLD, Druggist.

DEAR SIR: I have been a sufferer for upwards of twenty years with gravel, bladder, and kidney affections, during which time I have used various medical preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparation extensively advertised, I consulted my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter, unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs, and juniper-berries, it occurred to me and my physician as an excellent combination, and with his advice, after an examination of the matter, and consulting again with the druggist, I concluded to try it. I commenced to use it about eight months ago, at which time I was confined to my room.

From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks was able to walk out. I feel too much like writing to you a full statement of my case at the time; but thought my improvement might be only temporary, and therefore concluded to defer, and see if it would effect a perfect cure, knowing that it would be of greater value to you and more satisfactory to me.

I am now able to report that a cure is effected, after using the remedy for five months.

I HAVE NOT USED ANY NOW FOR THREE MONTHS, AND FEEL AS WELL IN ALL RESPECTS AS I EVER DID.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use on such occasions.

M. MCCORMICK.

Should any doubt Mr. McCormick's statement, he refers to the following gentleman:—

HON. WM. BIGLER, Ex-Governor of Pennsylvania.

HON. G. W. WOODWARD, Ex-Judge, Philadelphia.

HON. W. A. PORTER, Philadelphia.

HON. JOHN BIGLER, Ex-Governor of California.

HON. E. BANKS, Washington, D. C.

And many others, if necessary.

FROM THE PRINCIPAL PHYSICIAN SANITARY INFIRMARY OF THE STATE OF LOUISIANA.

PARISH LA FOURCHE, La., April 29, 1870.

H. T. HELMBOLD, Esq.:

Dear Sir:—I have in my practice used (in a majority of cases when diseases of the urinary organs existed) HELMBOLD'S EXTRACT OF BUCHU, and confidently say that I have never known it to be used without the greatest beneficial results. I have consulted patients after partaking of it, and they invariably confirm my statement. I am satisfied that the preparation is an established fact, convincingly proved by the practical test of long experience. Yours, respectfully,

JOHN D. C. GAZZO, M. D.

PERMANENT CURE OF DIABETES WITH FOUR BOTTLES.

HACKENSACK, Bergen Co., N. J., April 25, 1870.

DR. H. T. HELMBOLD:

Dear Sir:—I have been suffering for a long time from Diabetes, and had been under treatment for the same by (3) three of the most eminent physicians of this place—viz: Drs. Hasbrook, Hall, and Smith—without any apparent beneficial result. Having heard of your "Fluid Extract Buchu," I concluded to try it, although I had but little faith in its curative properties. I am happy to state that, after having taken four bottles of your "Buchu," I am entirely cured, and deem it but my duty to you and the community at large to inform you of the fact that I have been perfectly cured by your medicine, having been informed by the three physicians, above stated, that my disease was incurable.

Truly yours, JOHN H. WYGANT.

I respectfully refer to any citizen of Hackensack.

CITY AND COUNTY OF NEW YORK, ss.—John H. Wygant, being of the village of Hackensack, County of Bergen, State of New Jersey, being duly sworn, deposes and says that the foregoing is true to his knowledge.

(Signed.) JOHN A. WYGANT.

Sworn to before me this 27th day of April, 1870.

(Signed.) JOHN G. KEARNEY,

Com. of Deeds, New York City and County,

25 Chambers St., New York.

CURE OF BLADDER AND KIDNEY AFFECTION OF LONG STANDING—STONE PASSED AND TO BE SEEN.

WESTPORT, Conn., Sept. 5, 1869.

H. T. HELMBOLD, Esq.

DEAR SIR:—I commenced taking your "Extract of Buchu" about two weeks since for an affection of the kidneys. I have suffered by spells very much for a few days past. But yesterday relief came, through the effect of your "Buchu." A stone passed from my bladder about the size of a large pea, and now I feel pofectly well and entirely free from the pain that I have suffered with "so hard." I attribute my cure to your medicine entirely, and would recommend all persons similarly affected to try it. I have great faith in its curative powers.

Yours, truly, THOMAS J. BENNETT.

REFERS TO

REV. WM. COGSWELL, Westport, Conn.

J. L. G. CANNON, Druggist, Westport, Conn.

H. L. WHEELER, Esq., Westport, Conn.

BRADLEY HULL, Esq., Westport, Conn.

DR. WAKEMAN, Reading, Conn.

R. W. ROBINSON, Wholesale Druggist, N. Y. City.

And many others, if necessary.

CURE OF KIDNEY AND BLADDER AFFECTION OF A PATIENT SEVENTY-EIGHT YEARS OF AGE.

THANKS TO MR. HELMBOLD.

GIRARD, Penn., March 31, 1869.

EDITOR COSMOPOLITE:—I desire, as an unsolicited tribute to the merits of HELMBOLD'S BUCHU, and for the benefit of those similarly afflicted as myself, to say that, after consulting many eminent physicians, and trying nearly all the best advertised remedies, in the vain hope of finding relief from aggravated kidney and bladder diseases from which I have suffered excessively for many years, good fortune finally suggested to me HELMBOLD'S BUCHU, which I commenced using with little faith and no apparent beneficial result for about a month. At the expiration of that time, however, I thought I commenced to experience slight relief, which encouraged me to persevere in its use. Now, at the expiration of four months, although I am an infirm man, nearly 78 years of age, and consequently medicines cannot be expected to favorably affect me as they otherwise would, I have found such unspeakable relief and permanent benefit from Mr. Helmbold's valuable discovery, and I feel that I ought to publicly record the fact as an acknowledgment to him and a valuable suggestion to the public. Yours respectfully,

D. M. LAREN.

Mr. Laren refers to the following gentlemen:

COL. DAN RICE, Girard, Pa.

CHARLES STOWE, Esq., Girard, Pa., Editor Cosmopolite.

GEO. H. CUTLER, Girard, Pa., Attorney.

C. L. HINDS, Girard, Pa., Attorney.

CAPT. D. W. HUTCHINSON, Girard, Pa., Attorney.

DAVID OLIN, Girard, Pa., Merchant.

DAVID E. DAY, Girard, Pa., Merchant.

C. F. ROCKWELL, Girard, Pa., Merchant.

B. C. ELY, Girard, Pa., Druggist.

BED-WETTING IN CHILDREN.

NEW YORK STATE VOLUNTEER INSTITUTE.

CORNER OF FIFTH AVE. AND SEVENTY-SIXTH ST., CENTRAL PARK.

(A HOME AND SCHOOL FOR THE SONS OF DECEASED SOLDIERS.)

DR. H. T. HELMBOLD: Two bottles only of the package of your valuable Buchu presented to the Institute have been used by the children, and with perfect success. Thanking you on behalf of the children, and hoping others may be alike benefited. I am respectfully yours,

COL. YOUNG,

General Superintendent and Director.

JUNE 16, 1869.

GREAT SUFFERING.

ONE HUNDRED DOLLARS WOULD BE GIVEN FOR A BOTTLE, IF NECESSARY.

RAHWAY, N. J., Dec. 2, 1871.

H. T. HELMBOLD, Esq.

Dear Sir: I take great pleasure in sending you a certificate, in addition to the many you have received from suffering humanity. I can scarcely find language sufficiently strong to express my heart-felt gratification at the wonderful cure your Buchu has effected. For four years I have suffered beyond description. All my friends (with myself) came to the conclusion that my case was incurable. ACCIDENT placed your advertisement in my hands. I commenced taking your Buchu.

I followed the directions, and to my utter astonishment, before I'd taken seven bottles of your valuable medicine—(I would give ONE HUNDRED DOLLARS a bottle, if I could not get it at any other price)—am entirely cured. I most earnestly recommend it to all those suffering from disease. I told many persons to take your valuable medicine, and they are doing so with great success. Any information my fellow-sufferers may require will be freely given by the subscriber, at his residence, 73 Milton-ave, Rahway, New Jersey.

H. M. FREEMAN,

Councilman Third Ward, City of Rahway.

RAHWAY, N. J., Dec. 2, 1869.

We, the undersigned, are well acquainted with H. M. Freeman of Rahway, and know that he has been a long time suffering in the worst possible form, for the past four years, and he has been entirely cured by the use of Helmbold's Buchu.

J. W. SAVAGE, Ex-Mayor.

FRANK LA BAD, President of Council.

WM. RICHARDS, Clerk of Council.

PETER A. BANTA,

W. J. BROWN, Councilman.

J. S. S. MELLICK. Councilman.

LEWIS HOFF, Councilman.

B. STRYKER, Merchant.

CITY HALL, MAYOR'S OFFICE, RAHWAY, N. J., Dec. 5, 1869.

This will certify that I am personally acquainted with H. M. Freeman, and I am cognizant of the facts set forth in the above statement, and the several persons whose signatures are thereunto attached are all known to me.

JOHN F. WHITNEY, Mayor of Rahway, N. J.

UNITED STATES HOSPITAL.

SALISBURY, N. C., March 19, 1869.

H. T. HELMBOLD, Esq., Philadelphia, Penn.:

DEAR SIR: I wish you would send me one dozen of your Sarsaparilla Extract and a half-dozen of your Rose Wash.

Allow me to say that your preparations are very satisfactory, not only to the practitioner, but also to the patient; and I shall endeavor to bring them into universal use in this part of the country.

Please forward these medicines again, as before, C. O. D., per express.

I am, Sir, very respectfully yours, etc.,

M. F. A. HOFFMAN, Surgeon in Charge Hospital.

CERTIFICATE OF A DISTINGUISHED MID-WIFE.

PHILADELPHIA, Aug. 18, 1869.

MR. HELMBOLD:

SIR: I have used your EXTRACT BUCHU with many of my patients, and can speak of it in the highest terms in every case, and consider it a valuable remedy, and one that should be in the hands of every mid-wife.

Very truly yours, REBECCA STANTON, M.D.

CURE OF NERVOUS PROSTRATION AND DECLINE OF A YOUNG LADY.

H. T. HELMBOLD: I have given your EXTRACT BUCHU to my daughter, who has been unable to sleep, very nervous, loss of appetite, general debility, and rapidly falling into a decline—in fact, consumption was talked of. I was recommended to try your BUCHU by a highly respectable lady of this place, who had given it to her son with complete success. My daughter had been troubled for a long time. I put chased one bottle some eight weeks since, which lasted one week, and from which she received great benefit, and induced me to purchase one-half dozen bottles, as I tried many other remedies and my family physician to no avail. It is now more than two weeks since she has taken the last bottle, and I am happy to inform you of its complete success.

Very truly yours,

GEORGE M. MARSHALL,

GERMANTOWN, PENN., Feb. 12, 1869.

SPEEDY RELIEF FROM KIDNEY AFFECTION OCCASIONED BY ACCIDENT.

NEW YORK, Feb. 1, 1870.

DR. HELMBOLD:

Dear Sir: On the 23d of August I received severe internal and external injuries, occasioned by an accident on a Philadelphia Railroad car. On my arrival in New York I was attended by DR. WILSON of East Fifty-fifth St. and another physician, whose name I do not remember. After my wounds were dressed I suffered for three (3) days intense agony from internal injuries, which affected my kidneys. I can say that after taking but three doses of your EXTRACT BUCHU I feel greatly relieved. I used the balance of the bottle, and am happy to state that since that time I have experienced no farther difficulty.

Very truly yours, P. H. KEARNEY, No. 343 Third Ave.

Mr. Kearney respectfully refers to either of the following gentlemen:

HON. ROBT. B. ROOSEVELT, Esq., Editor of Citizen and Round Table.

B. F. CURTIS, Esq., No. 102 Greenwich St.

MORRIS PHILLIPS, Esq., Editor of Home Journal.

HON. M. CONNOLLY, Register of City.

Messrs. PETTENGILL & BATES, No. 37 Park Row.

HON. NELSON J. WATERBURY, New York.

HON. JAMES E. COULTER, New York.

And many others, if necessary.

GREAT CURE OF DIABETES OF A LADY.—FIFTY DOLLARS A BOTTLE.

NEW YORK, Feb. 6, 1869.

DEAR DR. HELMBOLD:

Dear Sir: For the past eight months I have been suffering from diabetes. I have consulted several of our leading physicians; but have failed to receive the slightest benefit from their costly medicines.

Four months ago I saw your advertisement in The Herald. I was persuaded by a friend who had been benefitted by your world-renowned Buchu, I purchased a bottle, took the contents, and was so relieved that I continued the use of it. The diabetes has entirely disappeared, after using it for three months. I would give $50 a bottle, if I could not get it at any other price.

I most earnestly recommend it to all those suffering from this disease.

Sincerely yours,

ANNA E. STOUGHTON, 123 West Twenty-seventh St.

FROM A PRACTITIONER OF TWENTY YEARS' EXPERIENCE.

MR. HELMBOLD,

Sir: I have prescribed your Buchu in affections of the Bladder and Kidneys, with a gratifying result. Truly yours,

EDWARD L. SHAW, M.D.

NEW YORK, April 12, 1865.

DISEASE OF THE BLADDER AND GOUT OF THE KIDNEY CURED.

H. T. HELMBOLD: I consider thy Compound Fluid Extract Buchu one of the best medicines for Diseases of the Kidneys and Bladder. One bottle relieved me of severe Gout of the Kidneys, and I was entirely cured by the use of six.

Respectfully, thy friend, S. M. JOHNSON.

BURLINGTON, N. J., May, 1853.

CURE OF A CASE OF GRAVEL OF NINE YEARS' STANDING.

PHILADELPHIA, GIRARD HOUSE, April 19, 1866.

DR. HELMBOLD:

Dear Sir: Having suffered with gravel for upwards of nine years, and not obtaining any relief from the various physicians in my section, I visited Philadelphia for the purpose of having an operation performed some ten or eleven weeks since; but, on my arrival, I saw your advertisement in the Ledger, and I determined to try it first, having a great aversion to the operation. I purchased three bottles, although at the time I had little faith in medicine in my case, but hoped it might relieve my suffering. I soon found my pain decrease, and felt much more comfortable. I then purchased one dozen bottles. I continued to use it, and at the expiration of four weeks I noticed a deposit in my chamber, and upon inspection I found this to be gritty, and then determined to examine more closely; and to my surprise I found this to be small particles, larger than a pin's head. I continued to use the medicine, and have collected a few of the same, which I inclose. I continued to pass them until within three weeks. My water previous to using it was feverish, and a sediment would form from it. Since that period it is much lighter, the pain has ceased, and I am able to inform you that it is now of a natural color, and I have no pain, or inflammation in any part of my body, and can walk, ride, or rest, without any inconvenience.

I shall leave for home to-morrow, and shall take a supply with me, as I intend using it for some time, although I feel well now, and can candidly say that it has effected a cure when all other remedies and medical skill failed.

Feeling grateful that I was so fortunate to find you to prepare such an excellent medicine, believe me, in the comprehensive sense of the word.

Your friend, J. S. SANDERSON.

(DR. KEYSER IS A PHYSICIAN OF OVER THIRTY YEARS' EXPERIENCE, AND GRADUATE OF THE JEFFERSON MEDICAL COLLEGE, AND OF THE UNIVERSITY OF MEDICINE AND SURGERY OF PHILADELPHIA.)

MR. H. T. HELMBOLD:

Dear Sir: In regard to the question asked me as to my opinion about Buchu, I would say I have seen and used every form of Buchu—the powdered leaves, the simple decoction, tincture fluid extracts—and I am not cognizant of any preparation of that plant at all to yours. Thirty years' experience ought, I think, to give me the right to judge of its merits, and, without prejudice or partiality, I give yours precedence over all others.

I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu, or any other proprietary compound, of whatever name.

Respectfully yours, etc.,

GEORGE B. KEYSER, M. D.,

140 Wood St., Pittsburgh, Penn.

August 11, 1865.

FROM A PROFESSOR OF SURGERY, SURGEON AND CLINICAL LECTURER TO THE ALMSHOUSE, INFIRMARY, ETC.

I have employed the medicines of Dr. Helmbold in numerous instances within the last three years, and have always found them extremely efficacious, especially in diseases of the Urinary Organs. I have no hesitation in pronouncing them of inestimable value, and recommend them to the confidence

June 26, 1867.

Beware of counterfeits and those cheap decoctions called Buchu.

None are genuine unless done up in steel engraved wrapper, with fac-simile of my Chemical Warehouse and signed

H. T. HELMBOLD.

The Daily Chronicle,

Portsmouth, N.H.

SATURDAY, DECEMBER 23, 1871.

The Vice Presidency.

If we are to re-elect President Grant we can see no reason for changing the Vice President. Especially do we remonstrate against the substitution of Horace Greeley for the true and tried Colfax. We have known of the sudden departure of Presidents from this terrestrial sphere, and should President Grant go quickly we want no such loquacious individual as Horace to step into his shoes. Just think of the man who hailed Jeff Davis succeeding a man of decision like Grant—and he the chief of New York "sore-heads" at that! We should judge that being a "sore-head" is the chief recommendation to office in some quarters, judging by recent developments, but when true men are cast aside for political babblers the people who are looking on have a word to say.

Then again imagine the conglomeration of "sweared words" that would sail out of the White House door were Horace to ascertain that one Senator or Representative of Republican tendencies should dare disagree with the agricultural policy of the would-be President. As a mercy to humanity in general and in order to prevent the exhibition of examples that would tend to degenerate American youth, we again protest!

Congress.

Senate.—Mr. Sumner introduced a bill on the 21st, amending the Constitution to make the President ineligible for reelection, the amendment not to take effect until after March 4, 1873. It went over.

A resolution asking for information relative to the lease of Samana Bay was adopted.

The House amnesty bill was discussed.

Mr. Morton's amendment, providing that the act shall not be construed to validate the election of anybody to office under the United States government who at the time of his election was ineligible to office was rejected, 29 to 28.

Mr. Sumner's amendment to the "supplementary civil rights bill" was rejected, 30 to 29.

Mr. Edmunds offered an amendment succeeding the Thirty-fifth, who participated in the rebellion, which was lost. Ayes 27; nays 31.

Mr. Pratt offered an amendment providing that the removal of disabilities does not give persons relieved any status in court they do not now possess, in asserting their claims against the United States. Yeas 25; nays 34.

Mr. Morton offered another amendment, excluding from the operation of the bill all who are, or have been within twelve months, members of the Ku-Klux Klan. Lost—yeas, 27; nays, 28.

Mr. Pratt offered an amendment excluding members of the Ku-Klux organization. Lost—yeas 27, nays 29.

Both Houses have adjourned to Jan. 8, 1872.

Political.

It is mentioned as one of the evidences of the degeneracy of the times that there is not a single Washburn in Congress.

Governor Campbell, of Wyoming, has thrown some interesting light on the motives which have induced the Legislature of that Territory to repeal the act granting suffrage to women. The real state of the case, according to the Governor, is that the female voters have shown a tendency to oppose liquor selling, to sustain school laws, and to insist upon the maintenance of law and order, as those things are understood in the Atlantic States.

The Mobile Register says:—"We could not reasonably expect to gain anything by the 'passive policy,' for once it was understood that we were willing to support a republican, every broken-down radical hack in the country would join in a race for the nomination. Honest and, consequently, modest men would be kicked from the track; and the demagogue whose legs had grown longest from most running in times past would win the race, and our election of him would be simply falling from the frying pan into the fire."

The Democratic papers are now either dumb on the passive policy, or else oppose it. Like the new departure, appearances indicate that it has completely miscarried. The Bourbons are inexorable. What next?

The latest folly south of Mason and Dixon's line is a regularly organized company for the publication of a series of school-books especially suited to Southern people, and embodying in all its virulence the genius of sectional prejudice.

A Louisana paper chronicles the departure of its Congressman for Washington, and adds rather unkindly that it is supposed he has gone to draw his mileage and per diem, as those are the only portions of Congressional duty he is capable of performing. It is likely that the Congressman will "interview" that editor on his return.

MARINE DISASTERS.—Schooner Ceres, of and from Dover, for Boston, was fallen in with at 11 o'clock, Thursday night, off Nauset, in a disabled condition, having had all her sails blown away in the late gales. Steamer Nereus, Capt. Bearse, towed her to Boston.

Schooner Annie G. Bowker, Capt. Howe, sailed from Bath, Me., on the 29th of November, with a cargo of salt, bound to Boston, and has not since been heard from. A fearful gale prevailed through the night and the next day after her departure, and it is supposed the vessel foundered at sea with all on board.

THE REMOVAL of M. Catacazy as Russian minister at Wasington is announced in the official newspaper in St. Petersburg. Personal difficulties which might prejudice the good relations existing between the two countries is given as the reason.

THE RESIDENCE of Judge Murdock, near Granville, Iowa, was burned recently. An old lady, aged over ninety years, was rescued from the building; but unobserved by any one, returned to save her money and perished in the flames.

HAZING ENDED.—Commodore Worden reports that the summary discharge of Cadets for barbarous treatment towards newly entered comrades has put an end to the custom of hazing, at the Naval Academy.

THE STEAMER DELAWARE, from Liverpool for Calcutta, was totally lost off Scilly Islands. All hands are supposed to have perished.

A TRANSPORT from Spain with one thousand soldiers, has arrived at Havana.

Mr. Charles S. Averill of Milford is appointed by the Governor and Council a Trustee of the State Normal School at Plymouth, in place of G. W. Simmonds of Franklin, resigned.

THE PORTSMOUTH, GREAT FALLS AND CONWAY RAILROAD.—During the past season the Great Falls and Conway Railroad has been extended forty miles from Union Village to Conway. The branch of which this is a part, leaves the main line at Brock's Crossing, sixty-seven miles from Boston, passing through the villages of Salmon Falls, Great Falls and Rochester to Union Village, ninety-three miles from Boston: thence the new parts extends through Wakefield, Ossipee, the county seat, Tamworth, Madison, to Conway. It is hinted that the Eastern Railroad will not halt at Conway, but prosecute the enterprise through the Pinkham Notch, past the Glen House, under the shadow of Mount Washington, to Gorham, on the Grand Trunk line, thus making a connection with Montreal more than thirty miles shorter than by way of Portland. This line will be suure to take a very large amount of travel, passing, as it does, through the most magnificent scenery of New England. With the Portland and Ogdensburg pushing ahead and the Montreal road extending its rails further and yet further on, the northern parts of our State will soon be as amply convenienced as the Southern counties. *Concord Patriot.*

—In his Washington correspondence Gath flows over the rim in this style: "Did you hear of that chap who attended the sale of a hotel recently at a town in Ohio? He hadn't a cent in his pocket, but he stood up and bid boldly, 'Twenty-eight thousand dollars.' It was knocked down to him, and when the question was asked, 'Who is the purchaser?' this audacious scamp replied, 'The Pennsylvania Railroad.' Of course he was not required to put up the money from an imperial buyer like that, whereby he was able, in the course of a couple of days, to sell to another party for thirty-five thousand dollars, and cleared the difference. The country is now full of scamps buying hotels for the Pennsylvania Railroad. * * * The heavy dew on the Ohio River having ceased to fall, Congress will be required this winter to vote an appropriation into the atmosphere, or pass a statute to tilt up the Gulf of Mexico. How can they expect navigation in the Ohio when they use it for drinking water in at least three cities? and at Cincinnati run a fountain with it? The Cincinnati fountain is something that you want to carry home and show to little Johnny. It is beautiful. The artist must have been reading Portia's description of the quality of Mercy; for the water 'falleth like the gentle dew from heaven upon the place beneath.' A pig is wanted somewhere in it, however, to make it perfectly consistent. The Common Council there might supply a model."

—Dr. Guthrie in a recent adress told a very suggestive story to this effect: A friend of his questioning a little boy, said: "When your father and mother forsake you, Johnny, do you know who will take you up?"

"Yes, sir," said he. "And who?" said the friend. "The police," was Johnny's answer.

NOVEL CURE FOR CONSUMPTION.—The Indianapolis Evening Journal publishes the following: "A young lady of this city, sick with disease of the lungs, was told that if she would get a young puppy and raise it, the dog would take the consumption off her hands and she would got well. She did so, and as the dog grew it was noticed that the animal acquired a hacking cough, while the young lady grew rapidly better. In the meantime, however she had become much attached to her canine benefactor, and did everything that could be done for him. It was of no use, consumption, the fell destroyer, had fastened upon poor Jack's vitals, and a few days since he passed in his checks. The young lady is in robust health, and firmly believes that the dog saved her life."

—Col. John Redman has a novel way of getting through toll-gates without paying toll. He gets off, picks his horse up and carries him through. There is no toll on footmen if they do carry 1,000 pounds on their back, you know. That's the kind of man John is. —*Chillicothe Gazette.*

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c., and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

BUSINESS NOTICES.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and mien of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

Persons who have become thoroughly chilled from any cause, may have their circulation at once restored by taking into the stomach a tea-spoonful of *Johnson's Anodyne Liniment* mixed in a little cold water, well-sweetened.

Every farmer who owns a good stock of horses, cattle and sheep, and intends to keep them through the winter, should get at once a good stock of *Sheridan's Cavalry Condition Powders.* One dollar's worth will save at least half a ton of hay.

SPECIAL NOTICES.

Peril and Precaution.

This is a season that tries the frame and the constitution. If there be a weak spot in either, the chilling damps that mark the commencement of the winter season are sure to find it out. There are few systems that have not a weak spot somewhere, and the wisest thing that any man or woman can do is to fortify it by a course of HOSTETTER'S STOMACH BITTERS, and thus keep the enemy at bay. In war, when a city is menaced the first thing to be done is to strengthen the ramparts. The same policy should be adopted with the human body, when its direst foe, malaria, is abroad. If the stomach is weak, this tonic will lend it vigor; if the bowels are morbidly sensitive, this alterative will regulate them; if the liver is inert, this wholesome stimulant will rouse it; if there is constipation, this aperient will cure it; if there is nervous debility, this nervine will replace it with nervous vigor: if there is impurity in the blood, this depurent will neutralize it; if there is a cloud on the spirits, this exhilarant will dispel it. These are facts that have been demonstrated every day for the last twenty years. Can as much be said for any other medicine—or rather, can as much be *proved?* for anything may be said by the unscrupulous. Do not accept any of the local bitters sometimes recommended by dealers in lieu of the Standard Restorative.

ON MARRIAGE.

Happy Relief for Young Men from the effects of Errors and Abuses in early life. Manhood restored. Nervous debility cured. Impediments to Marriage removed. New method of treatment. New and remarkable remedies. Books and Circulars sent free in sealed envelopes. Address, HOWARD ASSOCIATION, No. 2 South Ninth St., Philadelphia, Pa. d3m d23

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

td30 **Sold by Dealers Everywhere.**

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

Republican Conventions.

A DELEGATE CONVENTION, representing all the Republicans of New Hampshire, will be held at Phenix Hall, in Concord, on Wednesday, January 3, 1872, at 11 o'clock, A. M., to nominate candidates for Governor and Railroad Commissioner—each town and ward sending two delegates for each representative to which it is entitled in the Legislature.

All who sustain the present Republican National Administration in its successful efforts to enforce the laws at home and uphold the honor of the nation abroad, to lighten the burdens of taxation, and reduce the public debt, to retrench the expenditures of the government, and reform the civil service, to repress violence, to maintain the equal rights of all, and to promote the prosperities and happiness of the whole people, are invited to attend the primary meetings, and assist in the choice of delegates to the convention.

B. F. PRESCOTT, *Secretary.*
E. H. ROLLINS, *Chairman.*

The 8th Lyceum Lecture

Of the present Course was attended by a large audience, who quietly listened for more than two hours to what Mrs. Mary A. Livermore had to say of the future destiny of "our daughters." Mrs. Livermore's lecture was a talk by an earnest woman whose eloquence is born of her earnestness. Although she presents but one side of the important question, it must be said to the credit of the ladies that there is much truth in her statements and need of great change in the laws, many of which disgrace our statutes. Some of them indeed are unjust to men in their protection to women. She commenced by alluding to the opposition which formerly greeted the claims of Margaret Fuller, and the discouraging advice her friends gave for two years when she (Mrs. L.) desired to advocate publicly the cause of her own sex, until without counsel she had determined the present year to appeal to the public.

Women were everywhere progressive now—in Russia, Italy, Germany, and the United States. They had experienced the despotism of genuine slavery, and had been the subjects of admiration and adoration by the chivalry of the middle ages. Now is the fitting hour to plead for the daughters. The future of the adult woman is forecast. She cannot rise above her fate—but can aid her daughters. Mrs. L. had heard learned men advocate measures at agricultural meetings for the improvement of stock, fruits, vegetables, *etc.*, and thought a little more plain talk on the subject of raising a better race of men and women could not be immodest. The worst classes had hereditary taints which overcame the desire to be good and do good. She had visited prisons, penal and reformatory institutions, and seen that most of the inmates had been born through evil to do evil. They were overpowered by rampant desire to do other than right. Sins against nature would certainly return punishment tenfold—if not directly, then to children or grandchildren.

She contrasted the conduct of school boys and school girls—the former enjoying health, vigorous and active; the latter the victims of fashion, quiet and sedate, ready to be crammed in intellect and cast bankrupt in health from school. They are kept in-doors, where sun-light and air are shut out by closed blinds and windows, and are pinched at the shoulders, waist and feet, by succumbing to the fashions. Girls should not be compelled to submit to such treatment before arriving at the age of 30 years—and then they would be too sensible to do it. Let every woman decorate her exterior attractively, and don such ornaments as she could afford to wear, but never deform herself by wearing clothing too tight. A man wishing to marry, orders a few suits at the tailor's; a woman does a year's sewing, packs trunks with countless garments which are very often seen by many friends before her husband catches a glimpse of them. The bride sews herself and available friends almost to death, and then comes to her husband with shattered nerves, pale cheeks—and a wonderful supply of clothes.

She had a good word for "old maids," who have a place of duty in this world; but her laudations were only for those who are too masculine to become affectionate wives and mothers. Above all she pleaded earnestly for laws giving the mother equal rights with the father in the control of minor children. In happy and well regulated families, marriage was the consummation of the truest and most complete happiness—but in case the husband chooses to be a tyrant, no law protects the wife. The men of to-day were better than their laws; but when they die, the law abuses the widows. She spoke feelingly of the unjustness of the law which allows a childless wife but a life interest in one-third the husband's property—when in many cases the wife had actually earned and saved the greatest part, in her husband's name.

Some people had thought she was not in her proper "sphere," but ever since she was refused admission to Harvard when a girl, because she was not a boy, she had been endeavoring to find her "sphere." While she observed that men were making more money as cooks, at the laundry, as chamber-men on sleeping cars, as dress-makers and in various other branches of business, she was positive that Miss Burdett-Coutts, Harriett Hosmer, Vinnie Ream and others were equally at home as financiers and sculptors. There are six million listless women in the civilized world with nothing to do except to make tatting and embroidery, or go through the farce of making calls on people whom they care nothing at all for. Thrown upon the world for subsistence they could not get their own living—for even skilled female labor finds no ample market. The wretchedness of the life they must finally descend to God only knows. She urged men to admit girls to colleges that they may be capable of sustaining themselves. The true elevation of woman must come by proper effort on the part of women, aided by generous assistance in the shape of proper legislation by men. Then women would be no longer "the weaker sex," but every way equal in physical and mental condition to men.

Remember the Poor.

The treasurer of the Howard Benevolent Society desires to acknowledge the receipt of five dollars from Mr. John H. Miller of Boston, for the benefit of the poor; and five dollars from a resident of this city who is willing to contribute according to his means to relieve the deserving, but has no time to search out such personally. There are—at least we are determined to believe there are—in this city enough men and women whose circumstances are such that a moderate contribution for charitable purposes would not be missed and who would willingly make such contributions if assured that they would be well bestowed, to relieve every case of suffering in which the sufferers are worthy of assistance; and we would refer all such to the long course of usefulness of the Howard Benevolent Society, and to the lists of present and past officers and members of that organization, for a guaranty that every dollar entrusted to the society will find its way to a worthy object of charity. It should not be forgotten that cases frequently occur in which individuals and families suffer privation to a great degree, from poverty, yet shrink from making a public appeal for help and dread the poor-house more than the grave; and that such cases are discovered, investigated and relieved by the Howard Benevolent and kindred societies much more readily than by any Board of Overseers of the Poor, however efficient. "Let them go to the Almshouse if they are so poor," may be the sentiment expressed by persons who have a tight grip of their purse-strings and but very little soul; but we regard the pride which prompts its possessor to suffer rather than become a public pauper as commendable, and the contributions which keep such persons from becoming paupers as well used. The winter thus far has been very severe, and commenced earlier than usual; fuel, clothing and food will probably be needed in larger quantities than in past winters, to enable the poor to get through the cold season in comparative comfort, and a small gift may do great good. Remember the poor.

A Tough Hermit.

At a late hour on Friday, City Marshal Johnson was called upon to go to Martin's Woods at Sagamore Creek, to look after a man who was supposed to be insane, as he had slept in the woods during the intensely cold nights of Wednesday and Thursday. Proceeding to the spot designated, Mr. Johnson found the man lying on a blanket before a bright fire of brushwood, with his boots off, calmly enjoying his pipe as he watched the baking of a few potatoes. He was taken to the Station House, where he found a more comfortable shelter than he had enjoyed for two nights at least, and was treated to some good biscuit. He is a "hard-looking" customer, with four or five coats and several vests on, all ragged and dirty; long, unkempt hair, and the most effectually soiled hands we have seen for many a day,—but he seems more like a mere vagrant than a vicious criminal. He carried a leathern wallet for food, under his coats; and the worst carpet bag we ever saw, on a stout stick which is full of notches—probably a memorandum of some kind. He has a watch (not going) and chain; a ring and lot of papers, a few cents and three fish hooks very carefully wrapped up, were found in his pocket-book; and a bit of looking-glass not more than an inch square, a razor which he certainly has not recently used, and the handle and half the blade of a case knife were found in his pockets. He is a French Canadian, and says he came over the line to look for work several months ago, and left a wife behind. He is not very bright. Residents near Sagamore Creek say he has been around there for a week or more past, though he is not accused of doing anything worse than sleeping out of doors; but how he has managed to do that and not freeze to death we cannot understand.

Cames' Carriages.

Speaking of the enterprise of Portsmouth, the Commercial Bulletin says among other things:—

"G. B. & S. W. Came are carrying on a successful manufacturing business. They started three years ago, making 30 carriages the first year; during the last twelve months 225 carriages. Now they employ 60 men and during the next year expect to make 400 carriages and a large number of sleighs, the business of last year amounting to nearly $80,000. They keep seven forges constantly busy getting out iron work, and about 35 thousand feet of lumber are needed for a years supply. The many premiums they have received, including the recent award of a gold medal at the New Hampshire State Fair, sufficiently indicate its meritorious quality."

To the above we may add that the Messrs. Came have been obliged to increase their facilities for manufacturing carriages, owing to the large number of orders which are coming in from all quarters. To give our readers some idea of the amount of material used during a single year, we may mention as samples: 90,000 lbs. iron and steel equal to 45 tons, 2000 yards Broadcloth, exclusive of enamel cloth and under-linings, 700 Hides Leather. Also an amount of curled hair, cordings, tacks, etc., not to be easily computed in figures. And this exclusive of the large quantities of paints, oils and varnishes, only the best of which is used.

Each department is under a separate head, and visitors are at once struck with the systematic, easy and thorough way in which each man works at his trade.

The firm have just received large orders from O. E. Thompson, the well-known carriage dealer of Michigan, and are also in receipt of others from western parties. Their well filled Repository is a point of much interest to parties near and far who desire to examine and select by samples.

Many of the sleighs seen in our streets "skimming the snow" are from their factory, the firm making this one of their branches at this season of the year. The style and finish of these, as well as their carriages, are suited to the taste of the purchaser and the depth of the pocket-book.

Laconics.

The Young People's Christian Union have made arrangements for miscellaneous readings at the Temple, early in January, by Mrs. George Vandenhoff.

All persons are notified by the City Marshal that fast driving in the streets and coasting on the sidewalks must be stopped. Persons violating the law in these particulars will be promptly prosecuted without further notice.

"Old Probabilities" predicts snow, to-day.

The Portland, Saco and Portsmouth Railroad pay a dividend January 2.

It is a comforting assurance to hear a person say, "I buy your paper occasionally, and have the reading of it every day."

The days lengthen.

Dr. James A. Spalding of this city is in Europe.

The S. J. Court will resume business in this city on Wednesday.

The down east papers are in error in giving credit to the Lewiston police for the arrest of Henry Bartlett *alias* Henry Spalding and the recovery of the team he stole last week and brought to this city. The facts of the case are that City Marshal Johnson (who was in Boston on the day of Bartlett's arrival here) came home after the thief had left. Finding the horse and buggy here, Marshal Johnson telegraphed the Lewiston officers to come on and take possession, which they did. Then Mr. Johnson traced the thief to Salem and from there to Boston. Ascertaining that Bartlett had been arrested there for stealing a watch, he found further search unnecessary. Bartlett hails from Cape Cod.

Santa Claus will visit the Methodist church this evening.

Kearsarge S. F. E. Co., No. 3, will give their first annual ball on New Year's night, Jan. 1, in Congress Hall. Foreman Jas. A. Waterhouse will officiate as Floor Director, and the music will be by Harlow's Quadrille Band. The company are laying themselves out for a big time, and large delegations of visiting firemen and of prominent citizens of Portsmouth are expected to be present.

The Kittery debating society are to discuss "Woman Suffrage," next Wednesday evening.

Atlantic Engine Co., No. 6, will give their fourth annual ball at Irving Hall on Wednesday evening, Dec. 27. Floor Director, Foreman Jas. Ayres; Music, Turner's Quadrille Band. Firemen are requested to appear in uniform.

Rev. Charles E. Tucker of Biddeford is to preach at the Universalist Church, Sunday morning and evening, and not Rev. Dr. Thayer as has been incorrectly stated.

The Chief Accountantcy at the Navy Yard is a sinecure, and should be abolished—but if any one is to draw the pay, we think Mr. Chas. B. Gauffey's appointment will be acceptable to every one who does not want it himself. Mr. Gauffey is an "awful jolly nice" young man, and has our congratulations, with our hopes that he will be able to develope some government business over yonder.

The members of the G. A. R. of this city are to give a series of dramatic and musical entertainments at their Hall on Market Street during the winter—the first one to be given next week.

Portsmouth copperheads fear the nomination of Hon. Horton D. Walker for Governor, more than any other candidate named—so they hire a puppy to bark at his heels.

Mrs. John Rogers of Eliot, Me., was thrown from a sleigh on Market Square, Friday afternoon, and stunned. She was taken into Thacher's drug store, and soon recovered sufficiently to start for home, apparently none the worse except for a severe bruise on the head. The horse, a very spirited animal, was caught near where the lady was thrown out, and afterwards managed to throw out a man who undertook to drive him a short distance. We are informed that neither horse nor sleigh was injured.

Capt. E. G. Adams has laid in a large stock of Christmas gifts, attractive to old and young, and has a tempting array of sweet-meats. The new extract, Dew D'Andes, has such an exquisite aroma that it goes like hot cakes. Try it—and it will make you feel as if you were next door to the Garden of Eden.

The organization of a Greeley club in this city is reported, with Felix McClusky as presiding elder. As the meeting was a secret one, we have no list of officers, as yet.

Clippings.

The following items of local interest we take from the Journal:—

....Commodore Rodgers, Chief of the Naval Bureau of Yards and Docks, recommends the thorough repair of the floating dock at this Navy Yard, which has been in use nearly twenty years. He says that the importance of the Yard has been increased by the policy of the Navy Department in recognizing it not only as a valuable yard for ordinary purposes, but for salutary purposes also, and as a suitable place for the repair of vessels long exposed to the pernicious influence of the West India climate.

....The Portsmouth Committee of the Chicago relief fund have published their report. The summary is:—

Cash contributions for Chicago, Wisconsin and Michigan.	$24,318.39;
Value of clothing raised.	8,651.88
Total	$32,970.27.

It is ascertained that the contributions of our churches, Masonic, Odd Fellows and other bodies for special purposes, will increase the aggregate to forty thousand dollars.

....The Odd Fellows Lodges, and Associated Mechanics and Manufacturers, of this city are agitating the matter of conjointly erecting a fine building here, the upper stories to be used for the purposes of their organizations and offices, and the lower floor for stores. We hear that Committees of enquiry have been appointed. There is a prospect that building operations will be commenced early next season, if the general arrangements can be made satisfactory.

....The Unitarian Sabbath School, of this city have sent a large donation of Christmas presents to the Young Men's Christian Union of Boston, to be forwarded to the children at the burt districts in the West. Many a one will be made happy on Christmas day and evening through these kind gifts from their sympathizing friends. The Unitarian church here has done a large amount of work for the sufferers since the memorable fires.

....The Christmas services at St. John's church are as follows?—Sunday evening, (Christmas eve,) services at 7 o'clock. Monday (Christmas day, morning prayer in the Chapel on State Street at sunrise (1-2 past 7.) Litany and Holy Communion with a discourse in the Church at ten o'clock. Children's Festival, with a service in the Church on Thursday evening (Innocents' day,) at 6 o'clock.

....The Episcopal Sunday School also give their annual festival in the church Thursday eve Dec. 28th. Christmas trees are to be erected, and the school will give a brief exhibition during the intermission between the bestowal of gifts.

....The American Unitarian Association has acknowledged the sum of $350 from the church in this city, forwarded Dec. 7, the result of a recent contribution for denominational and charitable purposes.

....The Unitarian School hold a festival in their Chapel, omitting visits from St. Nicholas, having sent him to the relief of the Western sufferers. Tableaux, carols, &c. will occupy Tuesday eve.

....The Sabbath School connected with the Universalist church are to give their annual Christmas observances on Monday eve, when Christmas trees will dispense their stores.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.
The Success of the Company is far beyond that of any other similar concern; the
Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.
All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the
SINGER
seems to unite the good qualities of all, and is never found wanting.
THE SINGER
IS THE
OLDEST
SEWING MACHING
IN THE MARKET,
All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.
It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.
N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.

Morning Chronicle.

—The British Parliament is prorogued until Febuary 6.

—The social and political advancement in Japan is reported to be astonishing.

—In the Tichborne trial in London the plaintiff's case is closed, and further hearing is postponed to January 15.

—A married lady in Connecticut recently fell into a river and would have been drowned except that her cries attracted the the attention of her husband, who, mistaking her in the dark for another woman, worked like a beaver to get her out.

—It is said that the most thoroughly mixed obituary notice ever compiled was one in an English paper on Daniel Webster, in which he was alluded to as the "great lexicographer, statesman, the author of a spelling book and the broken-hearted brother of the murderer of Dr. Parkman."

—A Mrs McGuire and two infants, twins, were found on the morning of the 8th inst. frozen to death in a hovel near Bennington, Vt. The husband was away on a drunken spree, and the seven remaining children, the youngest ten months old, were huddled around the stove, which was destitute of fire.

—The right of a child to prosecute his parents for whipping him, and to recover damages in a court of law is in process of demonstration in Cincinnati. The complainant, who is an infant in the eyes of the law, seeks damages to the amount of $50,000 from his parents for the abuse and ill-treatment he has suffered at their hands since 1856, The boy's petition recounts how he was thrashed with an iron ramrod and with rubber whips; how he was dragged about the house and down two flights of stairs by the hair, and how, by way of encouraging penitential meditation, he was thrust into a closet, under a tank of hot water, and kept there for ten hours, in such a position that he was unable to stand up or sit down. The parents have refused an offer to compromise.

ROCKINGHAM COUNTY SIX PER CENT. BONDS.

BONDS of the County of Rockingham, payable in ten, fifteen, or twenty years from October 1, 1871, with coupons attached for the interest, at the rate of 6 per cent. per annum, payable semi-annually, may be had on application at the Rockingham National Bank.

CONSUMPTION, *Dropsy, Scrofula*, and *Venereal Taints* actually cured. Send address with stamp to DR. LANE, White Church, Kan. Indian remedies.

AVOID QUACKS.—A victim of early indiscretion, causing nervous debility, premature decay, etc., having tried in vain every advertised remedy, has discovered a simple means of self-cure, which he will send to his fellow-sufferers. Address J. H. REEVES, 78 Nassau St., N. Y.

THIRTY YEARS' EXPERIENCE
IN THE TREATMENT OF
CHRONIC AND SEXUAL DISEASES.
A Physiological View of Marriage.

The cheapest book ever published—containing nearly three hundred pages, and one hundred and thirty fine plates and engravings of the anatomy of the human organs in a state of health and disease, with a treatise on early errors, its deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by a report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of twenty-five cents,—in stamps or postal currency, by addressing DR. LA CROIX, No. 31 Maiden Lane, Albany, N. Y. The author may be consulted upon any of the diseases upon which his book treats, either personally or by mail, and medicines sent to any part of the world.

THE CLAIM OF SUPERIORITY

Is often made for

ARTICLES OF GENERAL USE,

But the claimants often find it easier to assert such superiority than to readily prove it by practical tests.

After a long and thorough test of

BOOTS AND SHOES

FASTENED WITH

CABLE SCREW WIRE,

These goods were pronounced by the patentee to be

THE BEST

In the market for Pliability, Durability, and Economy. This claim has received

Full Endorsement

From Manufacturers! From Dealers! From Consumers!

Testimonials as to the superiority of this mode of fastening, over either Sewed or Pegged work, have been published by scores in Boston dailies, from leading makers and dealers throughout the country.

Cable Screw Wire goods are peculiarly adapted for our inclement winters, on account of their Waterproof qualities.

Every grade, from the heaviest FISHING, HUNTING, DRIVING, or WALKING BOOT, to a DRESS BOOT or LADIES' SLIPPER, is best made with his most excellent of all fastening.

WARRANTED NOT TO RIP.

SHOEING HORSES.—The Charlier method of shoeing horses is receiving a good deal of attention. The following will give a good general idea of it:—

The portion of the hoof subjected to wear and tear being the lower or treading portion of the crust (that which comes in direct contact with the ground), Mr. Charlier's plan of acting is simply to protect this part from injurious friction, at the same time preserving in its integrity the natural form and structure, and consequently all the functions of the horse's foot. To this end the lower edge of the superficial crust (or wall) only is cut away, the portion removed being replaced by a metalic rim, necessarily more resisting than the natural wall of the foot, but precisely the same in form and thickness as the substance removed.

This metal edging or shoe lies imbedded in a groove, made by Charlier's drawing knife, an instrument constructed for the purpose by the inventor, something resembling the ordinary moulding-plane, and which any shoeing-smith can use. The shoe thus let, as it were, into the foot becomes a continuation of the natural hoof to the tip of the toe, but not extending beyond it; and in a normal shaped foot at once (or in a weakly foot after about three months' duration of this plan of shoeing, and consequently free growth of horn) lies level with the sole and frog, both of which are thus permitted to come in direct contact with the ground.

The frog is never pared, and, being left entire, soon becomes thick and flexible, and assist to support the body, forming with its spongy upper cushion a medium of elasticity to weaken shocks upon the tendons and the joints. Its structure, too, soon resembles India rubber, and it thus constitutes in the hinder part of the foot a natural elastic wedge which expands, and keeps wide open the heel. The frog also, when well developed, fulfils another office besides strengthening the bearing upon the ground, for it prevents the horse from slipping, acting like the pad under the foot of the camel, dog or cat. This last function is very advantageous in securing the safety of the rider, and is all important in the paved streets or towns, when turning sharply round a corner, or in travelling over ice. With Charlier's shoe the sole of the foot is never touched, and the horn being permitted to remain in its normal state grows freely, and is always healthy and strong, for from bearing upon the ground it becomes hard and thick, and able to resist contact with the sharpest stones. Thus is obtained that real cover for the foot so desirable—a good sound sole.

All artificial means to prevent the contract of the sole with the ground have turned out to be injurious, causing wasting, softening, and disease, more or less, of the sensitive portions of the foot. The frog and the sole, moreover, appear to be more abundantly secreted the more they are exposed to attrition, and like the skin of the hand of a blacksmith, or the foot of the beggar boy who has never worn a shoe, get to be incredibly resisting, and capable of being exposed to very hard and rough usage.

THE FLOWER TRADE OF NEW ENGLAND.—It is not generally known that very many of the flowers which are seen in the windows of New York florists are sent hither from Boston. At the time of the French fair, all the flowers used there came from the Hub, the supply being received every morning. It is now estimated that Boston receives, through its flower trade with New York alone, nearly $2,000,000 per annum. Certainly, after this, New England cannot be accused of being the bleak and desolate place it is generally reported to be.—*New York Express.*

A BAD COUNTRY FOR GAY DECEIVERS, Utah is not a healthy country for gay deceivers and if any man from the outside world, priding himself upon his conquests with women, wants to have his skill in this line tested, he will find a splendid opening among the fair maids of Zion. If somebody don't make it very tropical for him within the first three months, he must have been born under a lucky star. The would-be seducer in this country is a marked man, as the villain ought to be in every country. No sooner does he step into this city or any other Mormon settlement than the police are upon his track, watching every move with the stealth of bloodhounds. If he is once caught violating the chastity of a Mormon woman, or is known to have done so, there is no mercy for him; Mormon public opinion, which is the common law, thinking no more of killing a man under these circumstances than it does of killing a dog. In this respect Mormon vengeance is terrible. The marked victim is shot down or assassinated at sight, no cry of mercy ever escaping from his lips. His lifeless form lies mangled on the roadside until the authorities cart it away, pass a sort of inquest and consign it to the worms.—*San Francisco Chronicle.*

—The Supreme Court of Mass., having decided that suicide is not a crime, those who have committed it need not be afraid to return.

SEWING MACHINES

CHEAP AT LAST!

Having received a large number of Sewing Machines (including nearly all kinds) in

EXCHANGE FOR THE "DOMESTIC,"

I am prepared to offer them at very low prices. Many of them have not been in use more than a month, and are actually better than new ones of the same make, because they have been run just enough to make them work easily. They accumulate so fast that I must dispose of them soon or be over-run with second-hand Sewing Machines. So now is your time to buy cheap, either for cash or by installments. I still continue my offer of

$10 REWARD!

to all who will exchange the

"DOMESTIC"

Sewing Machine for any other kind that has had about the same amount of usage.

E. A. JOY,

No. 9 PLEASANT ST.,
Portsmouth, N. H.

☞ A few more Agents can have Territory for the "Domestic." d19

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. Dr. Ayer's consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

JURUBEBA.

IT IS NOT A PHYSIC—it is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

Dr. Wells' Extract of Jurubeba

is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments. 4w n28

GO TO MASON'S

AND SEE THE ELEPHANT.

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

BANKERS

and Dealers in Government Securities,

No. 5 Nassau Street,

New York, Nov. 20, 1871.

The successful and rapid negotiation of nearly three-fourths of the FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:

OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.

MESSRS. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:

The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonary on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.

In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.

Very respectfully yours,

C. P. HUNTINGTON, *President.*

In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.

The scarcity of, and demand for, really

Desirable six per cent. Gold Bonds,

for solid and permanent investments, is evinced by the facts that

Five-Twenty Bonds of 1867 are selling at...115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at..94

These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.

The reason why FIVE-TWENTY Bonds are so high is because no more can be issued, and the outstanding amount is being rapidly diminished by purchases by the Government from their surplus revenues.

The reason why we think CENTRAL PACIFIC BONDS will in time advance to the price of Five-Twenties, is because no more can be issued; while the operations of their Sinking Fund will soon commence to decrease the amount.

The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. *The Sinking Fund* of the Chesapeake and Ohio must go into effect within one year after the completion of the road.

The Chesapeake & Ohio Bonds are issued either coupon or registered—the denominations are as follows:

$100, which cost to day.....	$94.13
$500 " " "	471.56
$1000, " " "	943.13

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our risk, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

We buy and sell Government and Central Pacific Bonds and receive them in exchange for Chesapeake and Ohio Bonds.

Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*

FISK & HATCH.
dec2 *Financial Agents.*

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents and inventions, and legal and other advice rendered in all matters touching the same. Notice of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them as ample and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN TAGGART.

The Daily Chronicle,

Portsmouth, N. H.

MONDAY, DECEMBER 25, 1871.

Political.

Hon. Aaron A. Sargent was elected United States Senator by the joint convention of the California legislature, by a strict party vote, as follows: Sargent, (Repub.) 172; Wallace (democrat), 46.

The Manchester Republicans, in response to a public call in the Mirror, have organized a campaign club.

Kentucky has had for so long a time a Senator who has talked too much, that a change has been determined upon and the State will send to the Senate Hon. T. C. McCreary, who is the very opposite in loquaciousness of Garrett Davis, who retires.

New Hampshire Items.

The small-pox has again appeared in Manchester.

The shoe manufacturers of Dover have acceded to the demand of their workmen, and will give ten dollars a case for making.

The dwelling-house and barn belonging to James F. Marshall, of Kingston, were destroyed by fire on the 21st. In the barn were three cows, hay, etc.; nothing was saved except the furniture in the house.

The contract for the labor of the convicts in the State Prison is awarded to George T. Comins, the present contractor, who pays 95 cents for each man a day. The contract runs five years from the 1st of August next. There are now about 85 men in prison able to work.

John W. Allard, principal of the high school in Dover, has resigned, and the school is closed.

Mr. H. K. Fuller of Manchester has a hen which makes this cold weather tolerable by sleeping in partnership with a litter of very small grunters, whose mother doesn't attend to them.

The Nashua Common Council voted, on the 22d, a gratuity of $15,000 to the extension of the Wilton Railroad to Greenfield.

New Publications.

The January number of *Oliver Optic's Magazine* contains the first chapters of three new stories, by Oliver Optic, Elijah Kellogg and Mrs. E. D. Cheney, and a large variety of other matter, entertaining or instructive and sometimes both. The illustrations are numerous and attractive. For sale at the book stores.

January number of *Wood's Household Magazine* contains original articles by Virginia F. Townsend, J. T. Headley, Horace Greely, Gail Hamilton, James Parton, Thomas H. Beecher, Dr. W. W. Hall, and other popular writers. This magazine has three excellent recommendations. It inculcates temperance, it has first-class contributors, and it is cheap. Published by S. S. Wood & Co., Newburgh, N. Y.

Among the contents of the *New York Ledger* will be found original contributions from Alfred Tennyson, the poet laureate of England, Rev. James McCosh, D. D., L. L. D., President of Princeton College, Rev. John Hall, D. D., of New York, Rev. Henry Ward Beecher, Hon. Horace Greeley, Hon. John G. Saxe, and other very distinguished writers.

HAVANA LETTERS state that the Spanish accounts of recent engagements with the rebels affirm that the latter, as usual, were annihilated, while the Spanish loss was very insignificant. It was also reported that an American brig was fired into, overhauled and searched by a Spanish war steamer, but nothing contraband found. The Spanish portion of the inhabitants talk cheerfully of a war with the United States. The Diario is bellicose and defiant. Heavy reinforcements are continually arriving from Spain.

THE MERCHANTS of San Francisco have lost heavily by the delay in the delivery of the holiday goods from New York by rail in consequence of the snow, and some threaten suits against the railroad company.

THE SCHEME to impeach Governor Scott of South Carolina was defeated in the legislature, by the rejection of the resolving clause of the resolution, by a vote of 63 to 32.

A COMMITTEE of the French assembly has rejected the proposition to remove the seat of government to Paris.

—A Connecticut woman consoled her boy, who wept because she wouldn't let him go to the circus, by promising him leave to go down town and see his father have a tooth pulled.

—Game is very plentiful about Greeley, Col., the colonists having all they can do in keeping antelopes and jackrabbits from taking possession of the city.

AN UNREPORTED CONVERSATION.—During the Grand Duke Alexis' walks through the Bridgeport cartridge factory the other day, he pointed to several workingmen and inquired of Governor Jewell, "Are these men what you call the common people?" The Governor replied that they were a fair specimen of the working classes in this country. "But do you mean to say that these get into official position?" further asked the imperial scion. "Perhaps not any of these men," rejoined Governor Jewell; "but men of their class do; they are educated men, most of them—that is, they can all probably read and write, and most of them take and read the newspapers." "Do you know of any cases where such men have actually been elected to office?" again queried the curious Alexis. "O, certainly," the Governor said; "I myself worked in the shop as a tanner till I was twenty years of age;" and the announcement seemed to puzzle the Duke a good deal. Here was the Governor of a State, as well dressed and as well appearing as himself, who had actually worked in a shop, and this man was welcoming him in behalf of a hundred thousand voters; it was more of an enigma than the boy had ciphered on previously; but as he went through the country he ascertained, upon inquiring, that very many of the public men here have come direct from the workshop. In Massachusetts, Governor Claflin was a shoemaker, Senator Wilson was a cobbler also, and General Banks was a machinist.—*Hartford Courant.*

"WHAT CAN YOU MAKE OF IT?"—The following notice to guests is posted in a hotel at Lahore, Hindostan, kept by a native landlord: "Gentlemen who come in hotel not say anything about their meals they will be charged for, and if they should say beforehand that they are going out to breakfast or dinner, etc., and if they say that they not have anything to eat, they will not be charged or unless they bring it to the notice of the manager of the place, and should they want to say anything, they must order the manager for, and not any one else, and unless they bring it into the notice of the manager, they will be charged for the least things according to hotel rate, and no fuss will be allowed afterward about it. Should any gentleman take wall-lamp or candle-light from the public rooms, they must pay for it without any dispute its charges. Monthly gentlemen will have to pay my fixed rate with them at the time, and should absent a day in the month, they will not be allowed to deduct anything out of it, because I take from them less rate than my usual rate of monthly charges."

TO STEAM A TURKEY.—Rub pepper and salt inside the turkey, after it has been well dressed and washed; then fill the body with oysters; sew it up carefully; lay the turkey in a large dish, and set into a steamer, placed over boiling water; cover closely, and steam from two hours to two hours and a half—or until by running a fork into the breast you will find it is well done. Then take it up; strain the gravy which will be found in the dish; have an oyster sauce ready, prepared like stewed oysters, and pour this gravy, thickened with a little butter and flour, into the oyster sauce; let it just boil up, and whiten with a little boiled cream; pour this sauce over the steamed turkey, and send to the table hot. Of course, while the turkey is steaming, you will have the oysters all ready for the gravy from the dish, and the cream also boiled, that there may be as little delay as possible after the turkey is cooked.

"NO SWEARING."—Entering the office of a friend of ours in a neighboring State, some time ago, we were much pleased to see these two words posted up in a conspicuous place in his office. To our mind, they had a peculiar meaning, and a close observation of the workings of that office revealed the fact that this rule was fully carried out, and the result was a neat, orderly office, everything working in perfect system, and the work turned out on time, even when most hurried. Whether this is owing to the enforcement of this rule or not, we are unable to say; but certain it is that his business is successful and he is growing rich.—*Rowell's Newspaper Reporter.*

No doubt it is owing to that excellent rule. We know a man who never swore in his life, and to-day he is worth five millions; but he lies like the old boy.—*Boston Times.*

—There is a report that Joshua L. Foster is to start a Democratic paper at Dover. This will be bad news for the Democracy of this section, who cannot expect to spin a thread when Joshua is round. Should he locate within ten miles of Rochester the Democracy of this town might just as well consider their goose cooked. The Republicans have nothing to fear from him, as his musket is a kicker and only hurts his friends.—*Courier.*

CALIFORNIA has experienced a heavy fall of rain. The telegraph lines were down and the flood stopped the running of railroad trains. In San Jose, many houses were washed away. Pudah Creek, Sacramento, rose 29 feet in ten hours. The average rain that has fallen in the State is already greater than last year. At San Francisco the fall of rain since Sunday evening is 7 64-100 inches. The valley country is badly flooded and considerably damaged. Four men were drowned by the breaking of a dam belonging to the North Bloomfield Mining Company. In Nevada county much damage has been done.

—Nebraska courtships average three hours and a half in length.

BUSINESS NOTICES.

THE SECRET OF CAPTIVATION.—Features of Grecian mould, a well-turned neck and beautifully rounded arms, are no doubt very nice things to have, and ladies who possess these charms have reason to be thankful to Mother Nature; yet, after all, the most captivating of all womanly charms is a pure, fresh and brilliant complexion. This superlative fascination any lady may secure by using HAGAN'S MAGNOLIA BALM, the standard beautifying preparation of the present age. It differs from all ordinary cosmetics in three most essential particulars, inasmuch as it contains no injurious ingredients, does not contract or shrivel the skin as all the astringent blooms," "lotions" and "powders" eventually do, but produces a lasting loveliness by improving the health of the skin. Under its operation the texture of the epidermis becomes finer, and the surface soft as velvet and smooth as porcelain. Features cannot be changed, but complexion can, and it is quite certain that a lady with no other charms than a fresh and rosy complexion, will attract more admiration in company than her neighbor with a classic face but a sallow skin.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and mien of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

If your horse is lame, sore or galled, you should use *Johnson's Anodyne Liniment*; wash the part with castile soap and warm water, rub dry, with a clean cloth, then apply the Liniment, rub in well with the hand.

Have the readers of the Daily Chronicle ever used any of *Parsons's Purgative Pills?* If not, why not? They are the best family physic, besides being the greatest anti-billious remedy there is in this country.

SPECIAL NOTICES.

The Great Pictorial Annual.

Hostetter's United States Almanac for 1872, for distribution, *gratis*, throughout the United States, and all civilized countries of the Western Hemisphere, is now published and ready for delivery, in the English, German, French, Norwegian, Welsh, Swedish, Holland, Bohemian and Spanish languages, and all who wish to understand the true philosophy of health should read and ponder the valuable suggestions it contains. In addition to an admirable medical treatise on the causes, prevention and cure of a great variety of diseases, it embraces a large amount of information interesting to the merchant, the mechanic, the miner, the farmer, the planter, and professional man; and the calculations have been made for such meridians and latitudes as are most suitable for a correct and comprehensive NATIONAL CALENDAR.

The nature, uses, and extraordinary sanitary effects of HOSTETTER'S STOMACH BITTERS, the staple tonic and alterative of more than half the Christian world, are fully set forth in its pages, which are also interspersed with pictorial illustrations, valuable recipes for the household and farm, humorous anecdotes, and other instructive and amusing reading matter, original and selected. Among the Annuals to appear with the opening of the year, this will be one of the most useful, and *may be had for the asking.* The proprietors, Messrs. Hostetter & Smith, Pittsburgh, Pa., on receipt of a two cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood. The Bitters are sold in every city, town and village, and are extensively used throughout the entire civilized world.

ON MARRIAGE.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER.—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER.—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

TABLE SAUCE,

The Best Sauce And Relish

Made in any part of the World

FOR FAMILY USE.

TO BE HAD OF ALL FIRST CLASS GROCERS

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be kept after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

MY FRIEND, stop that terrible cough, and thus avoid a consumptive's grave, by using Dr. Pierce's Golden Medical Discovery. For curing all throat, bronchial and lung diseases it has never been equalled. Sold by druggists. 569.

[Reported for the Boston Journal.]

At market for the current week—Cattle 2278; Sheep and Lambs 8777; Swine 9800; number of Western Cattle 1317; Eastern Cattle 411; Northern Cattle and Working Oxen 450. Cattle left over from last week—.

Prices Beef Cattle—Extra $6 25 @ $ 6 75; first quality $5 75 @ $6 00; second quality $5 25 @ $5 50; third quality $4 50 @ $5 00; poorest grade of coarse Oxen, Bulls, &c., $3 25 @ $4 25 ₱ cwt, (the total weight of hides, tallow and dressed beef.)

Brighton Hides 9c @ 9¼ ₱ lb; Country Hides 8¼ @ 9c ₱ lb.

Brighton Tallow 6@6½c per lb; Country Tallow 5@5½c ₱ lb.

Sheep and Lamb Skins $1 50 @ 2 00 each; Calf Skins 18 @ 18c ₱ lb.

The Cattle from the West this week were better than has been brought from that section before this season, there being several hundred head suitable for the Christmas holidays, weighing from 1600 to 2000 lbs. each, and costing from 7c to 8c ₱ lb., live weight. The trade for common grades of Cattle has been dull, and prices not any better than those of last week. Most of the Maine Cattle were Working Oxen and Store.

Store Cattle—Yearlings $7 @ $12; two years olds $12 @ $28; three years olds $25 @ $45 ₱ head; those of a poorer grade at $7 @ $30 ₱ head.

Milch Cows—Extra $55 @ $90; ordinary $18 @ $50; Store Cows $16 @ 55 ₱ head. Prices of Milch Cows depend much upon the fancy of the purchaser.

Working Oxen—Extra $200 @ $240; ordinary $140 @ $190; poorer grades $35 @ 100 ₱ pair. Good supply in market.

Sheep and Lambs—We quote extra and select lots $3 50 @ $8 00; ordinary $1 75 @ $3 25 ₱ head, or from 4¼ @ 8½c ₱ lb.

Store Pigs—Wholesale 0 @ 0c ₱ lb; retail 0 @ 0c ₱ lb. Fat Hogs 5 @ 5½c; Columbia County Pigs 00 @ 00c ₱ lb.

NEW ADVERTISEMENTS.

LATHAM'S

Cathartic Extract.

NO FAMILY

CAN AFFORD TO BE WITHOUT THIS

Valuable Medicine.

It clears the Brain, relieves the Burdened System, cures the Constipation, Sick Headache, Biliousness, and all Humors and Impurities of the Blood. As a medicine for Children it has no equal.

SOLD BY DRUGGISTS THROUGHOUT THE WORLD.

Price,.....50 Cents.

EMPLOYMENT!—To energetic men and woman, we give employment that pays from $4 to $8 per day. Business strictly honorable, and adapted to every city, town, and village. Send for sample, and go to work at once. Address J. LATHAM & CO., 222 Washington St., Boston, Mass.

STAGNATION in the blood tends to produce nine-tenths of the diseases "flesh is heir to." This, however, is obviated, WITHOUT DEBILITATING the system, by administering LATHAM'S CATHARTIC EXTRACT.

Orders may be left at Chronicle Office.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. S. NORTON, only Agent for selling the

AVERILL CHEMICAL PAINTS,

in the City. Also Dealer in

LOCAL AFFAIRS.

A Christmas Song.

BY SAMUEL BURNHAM.

Shivering, sad,
Scantily clad,
And face so pale and so old;
With weary, worn feet,
Treading the street,
Windy, and wintry, and cold!
Something to wear!
Something to eat!
Poorest of fare
In hunger is sweet.

Blessed and holy the angelic strain
That sweetly descended on Bethlehem's plain.
Oh, wonderful story!
To God be the glory,
And peace and good will unto men!
And down the long ages,
By bards and by sages,
By priest and by people,
By pulpit and steeple,
By bell and by voice,
The nations rejoice;
'Tis peace and good-will unto men!
Shivering, sad,
Scantily clad,
She stands in the window's light;
She sees the joy of the merry throng,
She hears the music of Christmas song,
She sees the table all spread with food,
And then she wonders if God *is* good!
And weeps—for 'tis Christmas night;
"Come in, my child," said a cheerful voice;
"Come in, and help us all rejoice,
Within there is warmth and food for you;
Come in, and find God's promise true."
And she stood within the cheerful hall,
She heard the welcome to one and all,
And the tears were dried from her gladdening eyes,
While the stars looked down from the Christmas skies.

And so for the weary and worn of earth
Do the blessings come from the heavenly birth;
And still sounds forth the blessed strain,
As sweet as of old Bethlehem's plain,
The wonderful story,
"To God be the glory,
And peace and good-will unto men!"
"Come unto me, ye weary and faint.
Come unto me with every complaint,
The door is wide open; come, enter ye in;
Leave behind you all trouble, all care, and all sin;
Listen the Christmas song once and again:
Peace on the earth and good-will unto men."

—*Oliver Optic's Magazine.*

Laconics.

Merry Christmas!

No paper to-morrow.

The Court Street Christian Sabbath School are to have a Christmas tree, this evening, at the chapel.

The Portsmouth mills at South Berwick are now running on full time, giving employment to about 225 hands.

Rev. G. W. Bicknell, recently of this city, was installed pastor of the Portland India Street Universalist Church, Friday evening.

The streets wore a lively appearance, Saturday, especially in the evening, and dealers in Christmas merchandize report business very good indeed.

Drawing, painting in water colors, and the manufacture of wax flowers are taught by Mrs. Lamprey, at No. 23 Deer Street. See advertisement.

There was a large gang of men engaged by the Eastern Railroad on Sunday in taking down the old wooden bridge at the Creek and putting up an iron one.

The Republicans of the 2d and 3d Wards are to elect delegates to the various conventions, and Ward Committees for the ensuing year, to morrow (Tuesday) evening.

The Sabbath School of the Universalist Society is to have a Christmas Tree in the church this evening, from which will be dispensed lots of pretty things to both old and young.

The Republican ward committees have rented the rooms at the corner of Daniel Street, formerly occupied by J. P. Morse, Esq., for a Republican headquarters during the coming compaign.

Of all times in the year the Christmas time is that at which hearts and purse-strings should open widest in thoughts and deeds of charity. Those should give who never gave before, and those who are charitable always should at this season give more.

Don't forget at this happy season to buy a present for some poor boy or girl, some friend whose path in life is not so bright as yours. Some act of kindness, forgiveness or love, may make this Christmas tide a memorial time in your life; don't forget to do it.

There is a beautiful custom practiced in Sweden of hanging up in front of every house, at Christmas, a small sheaf of wheat for the winter provision of the birds, who would, without this supply, perish with cold and hunger amid the inclemencies of a Northern winter.

We learn that by an order from the Secretary of the Treasury, Aaron Young, Esq., retains his position in the Custom House as Weigher and Gauger. We are glad to chronicle this fact, being inclined to the belief that if removals are to take place the present is not the proper time.

The ninth of the Course of Lyceum entertainments is to come off on Thursday evening of next week, Jan. 4, being Readings by Prof. Moses T. Brown. In consequence of other engagements, Dr. John H. Wilcox will be unable to appear. The committee, however, announce a supplementary lecture by Wendell Phillips, to which season ticket holders are to be admitted gratis.

Christmas Decorations.

The Unitarian Church is beautifully decorated for the Christmas festivities. Over the organ is a shield, with a crown near the top, in the centre the word "Alleluiah," and underneath a cross. Suspended from this are festoons of evergreen. Over the key-board is a cross bearing a wreath of autumn leaves. The edges of the desk are tastefully bordered with box and white immortelles. On the front is an oval of green, on which is a monogram, "I. H. S." The communion table is similarly dressed with evergreen. Smilax hangs from the font, upon which rests a dove. The arches and tablets on the south side are neatly edged with evergreen, and bear the sentence, "Blessed is he that cometh in the name of the Lord." The windows are latticed with evergreen, an attractive and unique feature in the decorations. From the top hang festoons of spruce drawn into graceful baskets of evergreen, in which is mingled the brilliant wax berries of the Celatraceæ which hang on the gas fixtures placed in the alternate spaces between the windows. Over the windows are the sentences: "From glory to glory;" "The Lord is my shepherd;" "Abide with me;" "By faith ye stand;" "I say unto all watch;" "I am the Lord." Between the windows are the words, "Charity, Faith, Peace, Love, Hope, and Holiness," and under them are characteristic designs of anchors, crosses and monograms. In the south eastern corner is placed under the word "Peace," the Star of the East. The upper edge of the gallery is bordered with spruce; the front is festooned with the same and along the lower edge are designs similar to those on the sides. Over the centre door is a large cross, decorated with appropriate characters. The chandelier is also prettily trimmed with evergreen.

The Episcopal church is finely decorated. Over the tablets in the chancel is the inscription, "Hosanna, in the Highest;" under which are festoons and wreaths of evergreen. Under the wreath over the centre tablet is a beautiful cross of white flowers.

The several pillars forming the arch are very tastefully wreathed with green. The desks and font are trimmed with the same in festoons and wreaths, in which are mingled white immortelles. Over the arch of the chancel is suspended a large wreath, from which hang festoons of evergreen. From the centre of the ceiling, there fall four heavy festoons of spruce reaching to the corners of the gallery. A similar festoon is hung over the west gallery and choir seats. The organ is neatly decorated with evergreen. Upon the panels of the gallery is extended the sentence in German text, "This day is born unto us a Saviours which is Christ the Lord." The pillars supporting the gallery are wreathed with evergreen.

Messrs. Moses N. Jenkins and Nathiel M. Cate, superintended the decorating of the church.

HOW THE JEWS REGARD CHRIST.—Of Christ the Jews have no uniform opinion. The Radicals regard him very much as a good many Deists and Atheists have done before them—that is, they believe him either to have been a great reformer or a religious enthusiast; and the New Testament they suppose to have been written long after his death and to have been made up in part of material taken from the Old Testement, the maxim "love thy neighbor as thyself" being considered an illustration of this. In fact, whatever opinions they may have on this subject, they have formed by thinking for themselves over the writings of the great skeptics, just as many others have done who are not Jews; and this is the case as well with the most advanced of the Conservatives as no doubt also with many of the least advanced of the Orthodox.

Of the last, however, a very considerable majority have expended no thought whatever on the matter. Their notions about Christ are of the vaguest, and to some he is even veiled in mystery. What they know most clearly is his fate, and the persecution of themselves and their ancestors on account of it. They have a very peculiar name for him. It is not often they have occasion to allude to him; but when they do they call *to-lui* him—the hanged one.

He is rarely the subject of conversation among them; it would be a distasteful topic, and they would have no motive for bringing it up. There is, as I have said, no uniform sentiment entertained in regard to him; but one thing may nevertheless be safely asserted of the whole race: All expectations that they will ever come to regard him as anything but a man and a son of man is based on desire only.—"*The Jews: What They are Coming To,*" *in January Galaxy.*

—The meteoric career of Mr. George Francis Train is in danger of being quenched ignobly by his being put under guardianship as a lunatic.

—Minister Sickles has arrived in New York.

BIRTHS.

In this city, Dec. 22, to Mr. JOSEPH P. BERRY, a daughter.

Republican Conventions.

A DELEGATE CONVENTION, representing all the Republicans of New Hampshire, will be held at Phenix Hall, in Concord, on Wednesday, January 3, 1872, at 11 o'clock, A. M., to nominate candidates for Governor and Railroad Commissioner—each town and ward sending two delegates for each representative to which it is entitled in the Legislature.

All who sustain the present Republican National Administration in its successful efforts to enforce the laws at home and uphold the honor of the nation abroad, to lighten the burdens of taxation, and reduce the public debt, to retrench the expenditures of the government, and reform the civil service, to repress violence, to maintain the equal rights of all, and to promote the prosperities and happiness of the whole people, are invited to attend the primary meetings, and assist in the choice of delegates to the convention.

B. F. PRESCOTT, *Secretary.*
E. H. ROLLINS, *Chairman.*

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHING

IN THE MARKET,

All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.

J. J. FESSENDEN,

Agent for Portsmouth, and Vicinity,

Morning Chronicle.

[From "Rose's Bar" in Overland Monthly.]

"FOUR ACES."

Spindle was a new arrival. The camp with customary propriety, had dubbed him thus because he was so slim. On the same principle, his awkwardness soon gave him notoriety. Nor this only; like One-eyed Tom, Spindle had made one of the happiest hits of the day. Young, passionate, elated beyond degree with the splendor of its prospects, it was no surprise that he should court the favor of the pale faced gamblers, who were the aristocrats of the camp. It was no wonder that they should discover his weakness and determined to "salt" him. Play? No, no; Spindle did not play; he only came in to watch the game; it was tiresome sitting there in the tent alone. "Try it; double your stake on 'threes,' triple on a full," said a pleasant faced fellow, who was just raking in a hundred slugs or more. Spindle was inclined to listen. "Tell you what to do," said the gambler, continuing, "go me halves for an hour, and see how you come out." Spindle did so. At the end of the hour he had won a "stake" of several thousand dollars. Spindle was fascinated. "I will double this to-morrow night," said he mentally, as he left the gamblers' tent. He doubled it.

"This must be tripled," said Spindle, as he sought the tent again. Two nights afterward it was tripled. "Spindle means to break or to be broken," said the bystanders, one night, about a week after his original venture. "Look at the dust he is betting." He is, indeed, betting heavily. The rattlesnake has charmed him. Bet after bet, till the winnings of the week have left him; bet after bet, till his earnings are also gone—till the last "slug" is up, and he has but a single "eight" for it. Woe to him, for he wins! The tide is floating again, and Spindle is even. "Safe, safe," he remarks, betting a hundred "slugs" as a blind, on the strength of his confidence. One by one the cards go around to the players. Spindle does not look at his, but gathers them under his hand on the table. "I see your 'blind' and go you a hundred better." It was "Eagle-nose" who spoke—Eagle-nose, the lucky. Spindle looks at his cards. He has a first-class hand—four queens and a king; four aces only will beat him. Eagle-nose can have but three of those, for he saw one on the bottom of the pack, as the gambler laid the cards on the table; the gambler meant that he should see it. "I see your bet, and raise you a hundred better," replied Spindle. Eagle-nose is uncertain. He looks wistfully at the gold, furtively at his antagonist, and very carefully at the cards in his hand. "He waits, he weakens," said Spindle to himself. "I thought he was 'bluffing.'" Spindle does not see the smile on the face of the bystander at the back of the gambler, or he would think differently.

Rising from the rough stool on which he sits, Eagle-eye steps back in the tent and opens a strong wooden chest. Two bags of dust are taken from it, and the gambler staggers under the heavy load, as he brings it toward the table. Spindle sees a $10,000 mark on each of them. "Bet you them 'ore things," says Eagle-eye as he lays the two bags with the other gold. It is now Spindle's turn to hesitate. Can it be that he has the other ace? No, he will not think it; but what shall he do? He has not money enough on hand to "call" him. He does not wish to do this: it would be cowardly. "Ha!" says Spindle, "I have it now; I will bet my claim and the few thousand I have left against his pile, if it only be large enough." This to himself. Then to Eagle-nose, "What's your pile?" "There are five more bags in the chest," said the gambler quietly: "what do you do?" "Bet my claim against your pile," intensely excited. The bet was taken. Spindle threw his cards upon the table with a half-paralyzed motion, and a face whiter than the tent above him—four queens and a king. Eagle-nose filed his off, one by one—three aces, a king and an ace. Not a word was spoken by either. Spindle could not have spoken, and Eagle-eye had no reason for so doing. A few moments afterward the ruined miner staggered to the door of the tent, passed out into the moonlight, and the game goes on as ever.

Half an hour later Spindle sat in his tent alone. Before him was the picture of a fair, sweet face, that had won his love but a few years back. Nobody sees him weep while he watches the play of light in its eloquent eyes.

You could step in, and step heavily, too, without startling him. He is lost in reproachful thought, leading down to despair. All that he had hoped to do has vanished. Last night rich in gold; tonight, bankrupt. Why should he live. He could hear the roar of the Tuba as it tumbles over the cliff only a mile above him. He steps out into the open air; the cataract glimmers in the distance, and the sound of its waters soothes and fascinates him. Nobody will miss him; why should he hesitate? He moves toward it with eager bound and determined purpose. Up the rocky hill—up, up, till he stands on the edge of the precipice, far above the fall. He looks at the white tents in the distance; hate is blazoned on every one of them. He looks at the white spray, far, far below him, a hundred phantoms beseech him to come to them. A pause, for an instant only; a whispered something—was it for a prayer? A quick, terrible leap—then the same soft moonlight as before on the flower-clad hills around, on the white tents of the sleeping camp, and on the whiter face of the cataract.

—Mr. Mustard of Virginia lost all his strength by a fall from a horse.

NEW ADVERTISEMENTS.

AGENTS Wanted.—Agents make more money at work for us than at anything else. Business light and permanent. Particulars free. G. STINSON & CO., *Fine Art Publishers*, Portland, Maine.

THIRTY YEARS' EXPERIENCE
IN THE TREATMENT OF
CHRONIC AND SEXUAL DISEASES.
A Physiological View of Marriage.

The cheapest book ever published—containing nearly three hundred pages, and one hundred and thirty fine plates and engravings of the anatomy of the human organs in a state of health and disease, with a treatise on early errors, its deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by a report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of twenty-five cents,—in stamps or postal currency, —by addressing DR. LA CROIX, No. 31 Maiden Lane, Albany, N. Y. The author may be consulted upon any of the diseases upon which his book treats, either personally or by mail, and medicines sent to any port of the world.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!
THEY ARE NOT A VILE FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Bitters," "Appetisers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They Invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.
They are a Gentle Purgative as well as a Tonic, passessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawf6t6
J. WALKER, Prop., R. H. McDONALD & CO. Druggists & General Agents, San Francisco, Cal., and 32 & 34 Commerce Street, New York.

AYER'S
CHERRY PECTORAL
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.
The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have some peculiar virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

"IN THE STUMPS" IN CALIFORNIA.—A correspondent writes from the "Redwood" region of Sonoma County, in California;

You can see here what probably can be seen nowhere else in California, to wit, a town built in the stumps. After you come down below Green Valley, the prairie land along Russian River gradually disappears, and is replaced by belts of redwood, and finally the bottom altegether ceases, and the river winds down very crookedly between low redwood mountains to the ocean. Stumptown is about ten miles from the sea, and a funny looking town it is, with a little shanty and a mighty stump alternately—the latter nearly as large as the former, and about twice as numerous. The streets dodge about in a most accommodating manner, for the respect shown to the stumps by the engineers and graders is very conspicuous.

The problem of finding a given shanty by its street and number is more discouraging than a Chinese puzzle, and it is a very bad place for a man who is slightly "bulged" to attempt to navigate in after nightfall.

Most of the redwood trees are so enormous that they have to be cut off at a height of eight or ten feet from the ground. First, the woodman cuts niches in the tree about as high up as his head, and then constructs a scaffold on which to stand while chopping. A skillful chopper has two axes, one with which to cut through the bark, which is gritty, and would spoil his best axe, and another wherewith to fell the tree. It takes a very long pair of arms and a long-handled axe to reach across the "scarf," and happy is that woodman who is ambidextrous and can make a "scarf" as a saw-cut with either hand, for he is certain of the best wages, and he alone can cut down, without an assistant, the largest trees by swinging his axe first in his right hand, then in his left hand, and so reaching all the way across. After a half day or so the great monster begins to quiver a little, away up somewhere about the region of the sun, and at last he bows his head for the fall.

A few miles above Stumptown is a redwood clearing of a few acres, on which this year there was harvested a crop of wheat, and a curious looking place it was, with the enormous, fire-blackened stumps sticking up all over it like a burned village. These stumps must certainly occupy a fifth of the space, yet the owner gathered off it about thirty-five bushels per acre. But the best use to which these redwood lands can be put, is to let them grow up again in forests.

DEFINITION OF A DARLING.—Brick Pomeroy, as rough a case as ever sat in an editorial sanctum, was requested to give the definition of the word "darling," and replied as follows:

"If my definition will please any one, or settle a point in dispute, it is given cheerfully. A darling, as we should speak the word, would mean a very dear, good, heart loved girl or woman, who held the innermost place in our heart. She would be a woman loved above all else in the world; a woman we should defend before all mankind; a woman whose lips were those of truth and sacredness; whose happiness a man could live for; a woman a man would be proud of; a woman you could put your arm in gentleness around, draw to your heart, press a kiss to her forehead, and one on her lips, and as her head rested half on your shoulder, look deep into her eyes and whisper 'darling!' She would be a woman in whom we had all the confidence in the world; one a man would be proud to make happy, and who pride would be in her husband's success, happiness, reputation, her own good name, her person, her friendships, her house, and the purity of her heart. 'Darling' means everything, words unspoken, caresses ripening for love to feed on, tenderness unwritten, kind action waiting opportunity, hopes unexpressed, faith untold for want of suitable words; it is the flower which beautifies the tree that bears the most delicious fruit in season. The word is a volume. It means more than one can express; the clasping of the spirit hands, of love in heart—worship of the bud of the true and good; the word rainbow which spans the sky of hope and life, the bursting of the bud of the most beautiful flower which shed a perfume over the heads of those we love."

—The War department, in addition to its weather signal system, is about to establish an electric social system of storm signals in all the larger cities of the country, by which every married man who is on the magnetic belt can, by watching the signals on his chimney top or ridge board, tell just the moment when it will be safe for him to leave port (or champagne) for home. A black flag flying will signify "cross as a bear—typhoon approaching." A white flag — "everything is lovely; she is asleep." A red flag, with white centre —"look out for squalls; baby just spanked;" while a white flag, with red centre, indicates simply "cautionary" measures on the part of the "old man," who can go home under full sail, but should reef his boots and douse the binnacle lamp before going up stairs.—*Titusville Herald.*

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

HELMBOLD'S GENUINE PREPARATIONS. Established upward of twenty years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist, No. 594 Broadway, New York, and 104 South Tenth St., Philadelphia, Pa.

Sold by Druggists Everywhere.

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and, excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

Describe symptoms in all communications.

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

BANKERS

and Dealers in Government Securities,

No. 5 Nassau Street,

New York, Nov. 20, 1871.

The successful and rapid negotiation of nearly three-fourths of the **FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY,** and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:

OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 15, 1871.

MESSRS. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:

The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting its completion. The Eastern Division, comprising 237 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonry on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.

In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.

Very respectfully yours,

C. P. HUNTINGTON, *President.*

In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.

The scarcity of, and demand for, really

Desirable six per cent. Gold Bonds,

for solid and permanent investments, is evinced by the facts that

Five-Twenty Bonds of 1867 are selling at.....115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at..94

These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.

The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.

The reason why we think CENTRAL PACIFIC BONDS will be time advance to the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.

The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with Five-Twenty and the Central Pacific Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.

The **Chesapeake & Ohio Bonds** are issued either coupon or registered—the denominations are as follows:

$100, which cost to day.....$94.13
$500 " " " " 471.56
$1000, " " " " 943.12

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, if exchange, will be sent by return Express, charges paid.

We buy and sell Government and Central Pacific Bonds, and receive them in exchange for Chesapeake and Ohio Bonds.

Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*

FISK & HATCH.
dec2 *Financial Agents!*

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the rights of patentees of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.'

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

The Daily Chronicle,

Portsmouth, N. H.

WEDNESDAY, DECEMBER 27, 1871.

Correspondence.

SAN FRANCISCO, Dec. 8th.

Dear Chronicle:—Your spicy little paper makes its weekly visits to my Pacific home, and its welcome news gladdens my heart, and makes me feel my allegiance to the "Strawberry banks" of the old Piscataqua. Ah! that grand old river

"Like an azure vein from the heart of the main,
Passing with joy forever,
By verdurous isles, with dimpled smiles,
Floweth my native river,
Sing on, sweet as it flows along,
Hushed by the ice-king never;
For he strives in vain to clasp a chain
O'er thy fetterless heart, brave river!
Singing to me as full and free
As it sang to the dusky daughters,
When the light canoe, like a sea-bird flew
Over its peaceful waters."

Yes, its true of the Chronicle when it comes to me, some home-bird-song it sings to me, for I love that nativity and its memories cling like the moss that covers its rock-bound shores. Autumn is past, the gladsome rains have come to a dry and thirsty land, and all are in praise to the Dispenser for this timely visit of snow and rain. The snow wraps its mantle around the higher and more exposed altitudes, while the rains in all the valleys pour out of its golden horn of plenty such showers as fills every earthly heart with joy. Several companies of associated capitalists have commenced to dig and otherwise construct irrigating canals for the use of farmers in dry seasons. In this way our mountain rivers and lakes will be utilized and subserve a useful purpose, and enable the farmer to realize something for his toil. Our railway kings have determined to extend their lines through all the great farming districts, and thus enable the producer to find a ready market for his hay and grain. So far I believe they have built eight or nine hundred miles of railroad within the border of our own State,—pretty good for a beginning. There is talk of a large railroad bridge, to span the bay, so that all the eastern trains can come direct to San Francisco making this the terminal point. Our farming interests have suffered from the drought, but still our market is pretty well stocked with grain. It is thought we have over and above our own needs some 80,000 tons of wheat for shipment. We have sent away since July, 21 vessels, carrying 571,374 quintals of wheat, valued at $1,408,048. In the same time last year, 80 vessels with 2,284,197 quintals of wheat, valued at $4,265,496,—a great falling off, but we can't complain when we are so well supplied for home consumption. The present value of flour and grain in store, is worth at least $6,000,000; with plenty of rain this winter, California will make a good showing in 1872. Our steamship interests are in a favorable condition, and the leading company on this coast, the Pacific Mail steamship company have twenty steamers valued at $11,843,525. The assets are set down as amounting to $20,542,847. This is the only American company that bears our flag into foreign ports and when their new (five) iron propellers are placed in line they will bid defiance to foreign competition. There is another line, called the Webb steamship company, whose steamers ply between this port and Australia. The Hawaiian government has agreed to give this line a subsidy of $36,000 for the next eighteen months towards its support if they will continue to touch at Honolulu, and there is but little doubt they will comply.

A certificate of incorporation of the Central Polynesia Land and Commercial Company was filed with the County Clerk yesterday. The objects are the purchase and acquisition of lands on the Navigator Islands and the cultivation, sale, lease or otherwise disposing of the same, the formation of a coaling station for the United States, New Zealand and Australia Mail Line, in accordance with letters of agreement between W. H. Webb and J. B. M. Stewart, and the establishment of a central Polynesian depot, to be connected with the various groups of islands in the South Pacific.

Thus with our growing interest and trade with China, Japan and Australia we shall be enabled to send you the products of the eastern hemisphere, by steam conveyance to all the principal cities of the United States. We are striving to improve in every industry, what we want most is manufactories for wares and fabrics. When textile fabrics are woven here in all their variety, we shall then have full employment for our growing population. California lands as far as tried have proved that cotton can be raised here in abundance, and as we have many old southern cotton planters here, there is no reason why we should not have large crops of that staple. This is a land of plenty in every sense of the word, and with willing hands and the blessing of heaven, I trust we shall utilize its merits in the good time coming. Our new city and state officers are about to take the reins of government, and it is to be hoped that we shall have better times under Republican rule.

This is an age of advancement, for we are tending toward a unity of nations. The cable is bringing us colloquially together; commercially we now reciprocate with every civilized race on the globe. This proximity of nations will lead to the intellectual and moral improvement of the races, and then will come the era of equality, or universal brotherhood. I hope we shall live to see this polar circle, if not to know the mystery of the northern pole.

J. E. W. C.

A VESSEL flying a signal of distress was seen off Plum Island at daylight on the 24th. Three Newburyport pilots went to her and found the British schooner Marsville, Capt Williams, of St. John, with lumber. The vessel leaked badly, and had become unmanageable from being waterlogged, on the 20th, and during the time since the captain and crew had no fire and nothing to eat, and when rescued were nearly exhausted. Their sufferings from the cold have been terrible, and as they were conveyed to the house of the lightkeeper on Plum Island they presented a very sad sight. Their faces, hands and feet are dreadfully frozen, and it is feared some of them will have to submit to amputation.

A HEAVY GALE in the South West on the 23d, did great damage, sinking steamer Pil Allen at Memphis, blowing down unfinished houses at St. Louis, and extended to Illinois and Indiana.

THE BILL to authorize the Postmaster-General to issue one cent postal cards, will be one of the first subjects to be reported upon by the House Committee on Post-offices.

GENERAL SCHENCK has disposed of his interest in the Little Emma Mine enterprise and withdrawn from any connection with it.

BABIES.—We love little babies, and love everbody who does love babies. No man has music in his soul who don't love babies. Babies were made to be loved, especially girl babies when they grow up. A man isn't worth a chuck who hasn't a baby, and the same rule applies to women. A baby is a spring-day in winter, and a ray of sunshine in frigid winter, and if it is healthy and good natured, and you're sure it's yours, it is a bushel of sunshine, no matter how cold the weather. A man cannot be a hopeless case so long as he loves babies, one at a time. We love babies all over, no matter how dirty they are.

Babies were born to be dirty.

We love babies because they are babies and because their mothers were loveable and lovely women. Our love for babies is only bounded by the number of babies in the world. We always look for babies, we do, with anxiety and paternal affection; we do, indeed we do. We always have sorrowful feelings for mothers that have no babies and don't expect any.

Women always look down-hearted who have no babies, and men who have no babies always gamble and drink whiskey, and stay out nights trying to get music in their souls; but they can't come it. Babies are babies and nothing can take their places. Pianos play out, and good living plays out, and sweet tempers plays out, and beauty plays out unless there's a baby in the house. We've tried it; we know, and we say there's nothing like a baby.—*Exchange.*

—There seems to be a lull in the steamboat business at La Crosse just now. The Democrat says: "Any person wishing to trade a pair of Arctic overshoes or a pair of buckskin mittens for a steamboat can be accommodated by calling upon any of our steamboat men. Lots of men have got more steamboats than they know what to do with. one man recently offered to give a splendid sidewheel, double-deck, cylinder-escapement river palace for a second-class oyster stew, but the austere man could not see it. He could sell his oysters for money, but he couldn't give a steamboat away."

—Cataczay is not a fortunate man in the matter of meals. He had too much Fish at Washington, nothing but a cold shoulder at Long Branch, and has not yet got his dessert, although Secretary Fish's letter is a little tart.—*N. Y. Telegram.*

—In the recent marriage of Olive Logan, at New York, the promise of obedience was carfully omitted from the ceremony. The clergyman said that he had never married more than one woman who promised to obey, and she didn't.

—A proposition to light the streets of an Indiana "city" was opposed by the Common Council, on the ground that thieves would be enabled to see when they are watched, and consequently it would be impossible to catch them.

—They have a policeman in Springfield who captured a highwaymen and then refused a reward of $500 which had been offered by the city for his capture, remarking that he simply did his duty.

New Hampshire Items.

They have plenty of hay at Lancaster and thereabouts, for $15 a ton, which puts a quietus on the Ashland story of $35.

Certain benevolent persons are getting up a New Year's visit to the Strafford county farm, and will rejoice a hundred more or less with good things.

George W. Batchelder committed suicide at Laconia, Christmas, by taking laudanum. He lived about eight hours after taking half an ounce. He was 81 years old, and had no family.

New Publications.

The Christmas Locket, the holiday number of "Old and New," is complete in itself, and makes a book of excellent short stories, sketches and poems for railway travellers or for home reading.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

BUSINESS NOTICES.

THE SECRET OF CAPTIVATION.—Features of Grecian mould, a well-turned neck and beautifully rounded arms, are no doubt very nice things to have, and ladies who possess these charms have reason to be thankful to Mother Nature; yet, after all, the most captivating of all womanly charms is a pure, fresh and brilliant complexion. This superlative fascination any lady may secure by using HAGAN'S MAGNOLIA BALM, the standard beautifying preparation of the present age. It differs from all ordinary cosmetics in three most essential particulars, inasmuch as it contains no injurious ingredients, does not contract or shrivel the skin as all the astringent blooms," "lotions" and "powders" eventually do, but produces a lasting loveliness by improving the health of the skin. Under its operation the texture of the epidermis becomes finer, and the surface soft as velvet and smooth as porcelain. Features cannot be changed, but complexion can, and it is quite certain that a lady with no other charms than a fresh and rosy complexion, will attract more admiration in company than her neighbor with a classic face but a sallow skin.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and mien of manhood we earnestly recommend Dr. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

If your horse is lame, sore or galled, you should use *Johnson's Anodyne Liniment*; wash the part with castile soap and warm water, rub dry, with a clean cloth, then apply the Liniment, rub in well with the hand.

Have the readers of the Daily Chronicle ever used any of *Parson's Purgative Pills*? If not, why not? They are the best family physic, besides being the greatest anti-billious remedy there is in this country.

SPECIAL NOTICES.

The Great Pictorial Annual.

Hostetter's United States Almanac for 1872, for distribution, *gratis*, throughout the United States, and all civilized countries of the Western Hemisphere, is now published and ready for delivery, in the English, German, French, Norwegian, Welsh, Swedish, Holland, Bohemian and Spanish languages, and all who wish to understand the true philosophy of health should read and ponder the valuable suggestions it contains. In addition to an admirable medical treatise on the causes, prevention and cure of a great variety of diseases, it embraces a large amount of information interesting to the merchant, the mechanic, the miner, the farmer, the planter, and professional man; and the calculations have been made for such meridians and latitudes as are most suitable for a correct and comprehensive NATIONAL CALENDAR.

The nature, uses, and extraordinary sanitary effects of HOSTETTER'S STOMACH BITTERS, the staple tonic and alterative of more than half the Christian world, are fully set forth in its pages, which are also interspersed with pictorial illustrations, valuable recipes for the household and farm, humorous anecdotes, and other instructive and amusing reading matter, original and selected. Among the Annuals to appear with the opening of the year, this will be one of the most useful, and *may be had for the asking.* The proprietors, Messrs. Hostetter & Smith, Pittsburgh, Pa., on receipt of a two cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood. The Bitters are sold in every city, town and village, and are extensively used throughout the entire civilized world.

ON MARRIAGE.

Happy Relief for Young Men from the effects of Errors and Abuses in early life. Manhood restored. Nervous debility cured. Impediments to Marriage removed. New method of treatment. New and remarkable remedies. Books and Circulars sent free, in sealed envelopes. Address, HOWARD ASSOCIATION, No. 2 South Ninth St., Philadelphia, Pa. d3m d23

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

NEW ADVERTISEMENTS.

COMMISSIONER'S NOTICE.

THE SUBSCRIBER, having been appointed by the Judge of Probate for the County of Rockingham, Commissioner to examine and allow the claims of the creditors to the estate of JOHN CLOUGH, late of Plaistow, in said County, deceased, represented insolvent, and six months from the Thirteenth day of December, A. D. 1871, being allowed for that purpose, hereby gives notice that he will attend to the duties assigned him, at the office of W. H. HILLS, in Plaistow, in said County, on Monday, January 22d, 1872, and on Monday, June 10th, 1872, from one to five o'clock in the afternoon of each of said days. JAMES M. DAVIS, Commissioner.

Dated December 22d, 1871. d30o3t.

FORECLOSURE OF MORTGAGE.

BE IT KNOWN, that on the 29th day of June, 1871, I peaceably entered upon and took possession of a tract of land with the buildings thereon, situated in Derry, in the County of Rockingham, State of New Hampshire, containing about 120 acres, bounded as follows:—Northerly by the road leading from the dwelling house of Nathaniel Brown to Auburn, and by land formerly belonging to the Waddells; northwestly by land formerly of said Waddells; northwesterly by said road and by land of Joseph and James Adams and James Choate, and land formerly of Joseph Leach; and south-easterly by land purchased by said Josiah H. and William Adams of Samuel Clark.

Also, one other parcel of land, situated in said Derry, called the Philips lot, containing 40 acres, more or less, bounded northeasterly by the line between the towns of Chester and Derry, and Auburn and Derry; northwesterly by Nathaniel Brown's land; southwesterly by William D. Clark's land; southeasterly and southwesterly by land of heirs of David W. Dukey; southeasterly by said Brown's land, excepting and reserving out of this parcel so much thereof as was conveyed to said William Adams, in severalty, by John Crocker, by his deed dated September 29th, 1852, about 15 acres. Also, one other parcel of land, situated in said Derry, containing 26 acres, more or less, and bounded as follows, to wit:—northerly by Chester line; easterly by land of Nathaniel Brown; southwesterly by the highway above mentioned; and westerly by land formerly of the Waddell family. Conveyed to me in mortgage by Josiah H. Adams of said Derry, by his deed dated 21st day of September, 1869, Rockingham Registry, Lib. 390, Fol. 98, for conditions broken and for the purpose of foreclosing the right in equity of said Josiah H. Adams to redeem the same, and at the same time publicly declared the purpose and object of said entry and possession.

AYER'S
CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

Numismatics.

We recently spent an hour in looking over the large and interesting collection of ancient and modern coins and medals in the possession of James H. Jenness, Esq., of this city. The collection numbers over four thousand pieces of metal—gold, silver, bronze, copper and mixed—all conveniently arranged for inspection, on small frames. We noticed one coin over six hundred years old, several from three to four hundred years old, and a large number coined one or two hundred years ago. Mr. Jenness' collections of American cents and half and quarter dollars are complete, from the earliest dates of coinage down to the present day; he has also many specimens of the early provincial coins, struck before the United States became such; and of foreign coins and medals, and advertising and political "tokens," a large number. [Judging from the devices and mottoes on many of the political "tokens," we should imagine that slanders and venomous sneers were recognized as legitimate weapons of political warfare in the good old days, quite as much as at present.] The collection, giving each coin but the value represented on its face, is worth between $900 and $1000; but this of course is but a small part of the price it would bring, if sold, as many of the coins are very rare and much sought after for museums, and we doubt if there are many finer than this in private hands, in New England.

Communicated.

A Christmas Festival.

A large company of the friends of our respected and prospered fellow citizen, C. E. Myers, Esq., assembled by invitation at his cheerful home on Monday evening, to participate in one of the principal festivites of his early days; and if the capacity of the house had corresponded with the size of the hearts of the occupants, the number of guests would have been greatly increased. Having arrived early, we were admiring the well lighted and symmetrical proportions of the Christmas Tree and the appropriate mottoes, accompanied by the Christmas Carol admirably executed when the veritably old Santa Claus appeared, a real Walker when conveyances are so plenty; he had come on foot, attended by one of our honorables, whose ready wit aided in the distribution of the baskets of elegant presents both useful and ornamental; books that showed a fine literary taste, and jokes that brought the ready response, affording amusement for all, but better appreciated by those for whom intended. The happy faces of all proved what individual effort can do to brighten our lives. We could not but notice the change which half a score of years had made since we attended a similar gathering at the commodious mansion of Mr. and Mrs. Myers in the suburbs of the city. Several who were then active have passed away, but we cherish their memory. Our children, then in early childhood, move now in the current of life; and while we miss those who have gone out from us, others have come to take their places, whom we are glad to welcome.

H.

Laconics.

On Monday morning, about daybreak, a small party of lady singers rode through the principal streets of this city breaking the stillness of the early dawn with their charming Christmas carolling; and halted in front of the house of one of the adjuncts of the press and favored the inmates with several sweet songs. The quiet of the hour—together with the well rendered music and the reflection that it might be intended for *us*, produced a pleasant impression—one that we have not yet forgotten; and caused us to wish that the fair singers might never experience other than a merry Christmas throughout a long life, severally. Among the most pleasant features of the day on which we are wont to celebrate the nativity of Christ is that of heralding the dawn of Christmas morn with songs adapted to the event thus commemorated,—and for carolers for such an occasion send those to whom we have briefly alluded.

We hear of a young man in Kittery, who, upon being asked why the hair on the top of his head was so thin, exclaimed, "The girls pull it out, pulling me in at the windows."

During extremely cold weather the atmosphere is several degrees warmer near the sea than it is a mile or two back from it.

We are informed that Miss Lydia Main, a wealthy lady formerly residing in York, Me., but now of Boston, not long ago lost her pocket-book, containing $1000, on the "York Road." The pocket-book was found by Mr. Jeremiah Stackpole, and promptly returned to the owner, who tendered him $50 as a reward for his honesty; but Mr. Stackpole positively declined to accept any reward whatever. Miss Main, finding the sturdy mechanic quite impracticable, quietly handed the $50 to his better half for the benefit of his children. None of the parties to the transaction need be ashamed of it.

The ice men are beginning to gather their harvest earlier this season than usual.

Malicious boys adorned the coat of a gentleman on his way home from dining out, Christmas Day, with the placard, "Choice poultry inside."

Greenland's population is six hundred and ninety-five, or sixty-four less than it was in 1775.

The Pearl Street church will be rededicated next Friday evening.

At a special meeting of the stockholders of the Eastern Railroad, held here, Tuesday, it was voted to take a lease of the Wolfeboro' Railroad.

Republican Caucuses.

The Republicans of the 2d Ward chose the following delegates to the various conventions, Tuesday evening, unanimously, there being 120 votes cast for a ticket headed "For Governor, Horton D. Walker."

State Convention.—Frank W. Miller, John Sise, J. F. Hall, A. F. Howard, N. F. Mathes, J. P. Morse, J. H. Broughton, J. H. Flagg.

Councillor Convention.—William H. Hackett, Wm. R. Preston, D. H. Spinney, John Stokell, E. F. Brackett, D. W. Barnabee, A. K. Brown, D. L. Randall.

Senatorial.—Lewis G. Davis, Henry A. Yeaton, Wm. R. Boardman, Israel P. Miller, H. M. Messer, B. Norton, R. K. Oxford, S. L. Marston.

County.—M. Bufford, J. Dearborn, T. E. O. Marvin, C. H. Hayes, C. H. Joy, E. W. Brown, W. Freeman, P. S. Mizener.

Executive Committee.—Frank W. Miller, Eben F. Brackett, S. H. Goodall, C. H. Hayes, E. G. Pierce, jr., Wm. O. Sides, M. Bufford, Lewis G. Davis, E. W. Brown, Nathan F. Mathes, A. K. Brown, T. E. O. Marvin, Alfred F. Howard, Albert W. Rix, Daniel L. Randall, John H. Flagg.

The following are the delegates chosen in the 3d Ward.

State Convention.—Wm. H. Rollins, Samuel Adams, Daniel R. Neal, Wm. A. Vaughan, jr.

Councillor.—Gardner M. Goodrich, Chas. A. C. Gray, Wm. B. Randall, John A. Durgin.

Senatorial.—Jos. H Gardiner, Chas. W. Bailey, Chas. N. Osgood, John S. Rand.

County.—Job Woodsum, George M. Ayres, John E. Ham, John Nutter.

—"I have ever been your friend," roared G. F. Train to a colored audience of twenty-four at Memphis, one night last week. "What is the reason that so few of you are present here tonight, when I only charge you ten cents, and the other night I charged a dollar? Can any of you colored men tell me the reason of this?" A colored citizen: "Because you called us 'cocoanuts' in the newspapers." [Roars of laughter.] Train explained that this was a lie invented by his wicked partners, the sensational press.

—A servant girl living in a family in Portland, while employed about the kitchen stove recently, was suddenly seized with a fit of sneezing which was so long and violent that the shoulder blade was dislocated and the services of a surgeon were required.

—James Russell Lowell has invented what he calls a new beatitude, which is, "Blessed are they who have nothing to say and who cannot be persuaded to say it."

—A Pennsylvania jury found two men "not guilty" in spite of their plea of "guilty" The jury couldn't believe their word.

MARRIAGES.

In this city, Dec. 24, by Rev. C. P. Smith, Mr. GEORGE H. SEAVEY of Rye, and Miss S. ADELINE MOULTON of North Hampton.——Dec. 25, Mr. SAMUEL SAWYER of Portland, Me., and Miss MARY E. PREBLE of this city.

In Dover, Dec. 19, Mr. CHAS. W. FISHER of Providence, R. I., and Miss MARY S. LOTHROP of Dover.——Dec. 9, Mr. JOHN F. TRICKEY and Miss ELLA M. WALLINGFORD, both of Rochester.

DEATHS.

In Newmarket, Dec. 8, Mrs. MARY A. HALEY, aged 53 years.

At Gonic, Dec. 21, Dea. JONATHAN HAM, aged 74 years.

In Kittery, Dec. 25, JOHN GLOVER, only son of John Glover, aged about 1 year.

In Kittery, Dec. 25, Mrs. SARAH CUTTS METZ, aged 73 years. Previous to her death she remarked that she had tried to do what was right, and was satisfied. She died fully trusting in the God that Jesus loved. Although not connected with any Church organization, her benevolence was a distinctive feature in her character, and none will feel her loss more severely than those who have for many years been subjects of her charities. Funeral from her late residence on Wednesday, Dec. 27th, at 11 o'clock A.M. *Com.*

Republican Conventions.

A DELEGATE CONVENTION, representing all the Republicans of New Hampshire, will be held at Phenix Hall, in Concord, on Wednesday, January 3, 1872, at 11 o'clock, A. M., to nominate candidates for Governor and Railroad Commissioner—each town and ward sending two delegates for each representative to which it is entitled in the Legislature.

All who sustain the present Republican National Administration in its successful efforts to enforce the laws at home and uphold the honor of the nation abroad, to lighten the burdens of taxation, and reduce the public debt, to retrench the expenditures of the government, and reform the civil service, to repress violence, to maintain the equal rights of all, and to promote the prosperites and happiness of the whole people, are invited to attend the primary meetings, and assist in the choice of delegates to the convention.

B. F. PRESCOTT, *Secretary.*
E. H. ROLLINS, *Chairman.*

COUNTY. — *Rockingham* — At Town Hall, Exeter, Tuesday, January 9, 1872, at 11 A. M.

SENATORIAL.—*District No.* 1—At the Franklin House, Portsmouth, Wednesday, January 10, 1872, at 11 A. M.

COUNCILLOR. — *District No.* 1—At Town Hall, Newmarket, Thursday, January 11, 1872, at 10 A. M.

SEWING MACHINES
CHEAP AT LAST!
Having received a large number of Sewing Machines (including nearly all kinds) in
EXCHANGE FOR THE "DOMESTIC,"
I am prepared to offer them at very low prices. Many of them have not been in use more than a month, and are actually better than new ones of the same make, because they have been run just enough to make them work easily. They accumulate so fast that I must dispose of them soon or be over-run with second-hand Sewing Machines. So now is your time to buy cheap, either for cash or by installments. I still continue my offer of
$10 REWARD!
to all who will exchange the
"DOMESTIC"
Sewing Machine for any other kind that has had about the same amount of usage.
E. A. JOY,

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.
The Success of the Company is far beyond that of any other similar concern; the
Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.
All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the
SINGER
seems to unite the good qualities of all, and is never found wanting.
THE SINGER
IS THE
OLDEST
SEWING MACHINE
IN THE MARKET,
All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.
It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.
N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.
J. J. FESSENDEN,
Agent for Portsmouth, and Vicinity,
No. 12 VAUGHAN ST.

Morning Chronicle.

— "Nasby" has become one of those matter of fact people who are never happy except when they are tearing up an old tradition and showing a hero about as he would appear in his ridiculous and really incontrovertible nightcap. Thus, in his last letter, he presents Horace Greeley in his unnatural character of an agriculturist, and he imagines Ben. Butler discussing the great moral question of honesty in politics. In all gravity, is that fair? Is that the way to create history? And then, as to the Indian. Speaking in Albany, he—Nasby, not the Indian—said, "in truth the ideal Indian outshone George Washington, for George did not have a hatchet until he was nine years old, whereas the noble red man was born with the truth compelling instrument in his hand. As for Pocahontas, he failed to perceive her as worthy of fame, for almost any white girl would have taken her chances with a husband in view. Nothing manufactures courage like matrimony. He knew of a man who ran like a dog from Antietam, who yet when his wife died had courage enough to marry his mother-in-law. He became so infatuated with the novel pictured Indian that he desired to become one himself, but after one day's experience he renounced hunting the red deer in the grand old forest as being rather harder work than ploughing in the grand old fields. The aborigine, on the occasion of his first interview with the gentleman, did not appear picturesque even with the traditional paint, feathers and spotless buckskin. He had on a dirty shirt and an old pair of pantaloons, and on being addressed in poetic language, he replied 'Ugh! white man cussed fool; give Injun ten cents for rum?' and then chased the speaker half a mile with a butcher knife. Since then he had heard with profound equanimity of the slaughter of red men by our soldiers in the West."

"MR. WASHINGTON."—The following extract from the journal of a young lady in Virginia, who, in 1772, visited the Lees and Washingtons on the Potomac, gives a different idea of the father of his country from that which has been generally entertained: "I must tell you of our frolic after we went to our room. We took it into our heads to eat. Well, we had a large dish of bacon and beef; after that a bowl of sago cream; and after that an apple pie. While we were eating the apple pie in bed—God bless you! making a great noise—in came Mr. Washington, dressed in Hannah's short gown and petticoat, and seized and kissed me twenty times in spite of all the resistance I could make, and then Cousin Molly. Hannah soon followed, dressed in his coat. They joined us in eating the apple pie, and then went out. After this we took it into our heads to want to eat oysters. We got up, put on our wrappers, and went down into the cellar to get them. Do you think Mr. Washington did not follow us and scare us just to death? We went up, though, and ate our oysters. We slept in the old lady's room, too, and she sat laughing fit to kill herself, at us."

SPECIFIC FOR DIPTHERIA.—The Italian journals publish a letter from Dr. Giovanni Calligaris describing the remarkable success which has attended his treatment of diptheria with phenic acid. He relates the losses he formerly experienced among his patients when treating them with emollients, solvents and cauterization with hydrochloric acid, and observes that this cauterization can no more eradicate the morbid principle than tearing the leaves off a plant will destroy the root. He now simply uses a gargle of phenic acid and distilled water, with external applications of new flannel; the food and drink to be taken cold. After the adoption of this treatment, Dr. Calligari lost but one patient out of fifty-nine. He requested the Italian journals to publish this discovery. Phenic acid is the agent which is now being used in this country as a remedy for cancer, and seems likely to effect an immense saving of lives formerly hopelessly sacrificed by that disease.

A JOKE OF THE GRAND DUKE.—While Alexis was dining at the Massasoit House in Springfield, recently on his journey from New York to Boston, the neighboring halls and lobbies of the hotel were crowded with some of the fairest and most curious of the fair and curious sex of Springfield, peering through doors and cracks, and around corners, for a full observation of this "noblest Russian of them all;" and when the Grand Duke came to take his leave, and thank the landlord for the rare comforts and rich luxuries of that hostelry, he added, as the culmination of his praise, but with a slight twinkle in his eye—"and I certainly never saw a hotel where there were so very many very pretty chambermaids!"

—At the wedding between Hon. Eugene Hale, M. C., and Miss Minnie Chandler, daughter of Senator Chandler, which was celebrated at Washington, last week, the bride wore a dress imported expressly from Paris for the occasion. The material was white silk, of the choicest texture; the train was trimmed with two deep flounces of duchesse lace; above was white satin; and across the front breadth, folds of satin, edged with deep fringe. The veil was illusion, fastened with orange blossoms, and was worn over the face during the entire evening. The bride carried a handsome bouquet. Her jewels were pearls.

—When a Connecticut deacon nudged a somnolent worshiper with the contribution box, the sleepy individual awoke partially, smiled, murmured "I don't smoke," and dropped off again.

NEW ADVERTISEMENTS.

AGENTS Wanted.—Agents make more money at work for us than at anything else. Business light and permanent. Particulars free. G. STINSON & Co., *Fine Art Publishers*, Portland, Maine.

THIRTY YEARS' EXPERIENCE
IN THE TREATMENT OF
CHRONIC AND SEXUAL DISEASES.
A Physiological View of Marriage.
The cheapest book ever published—containing nearly three hundred pages, and one hundred and thirty fine plates and engravings of the anatomy of the human organs in a state of health and disease, with a treatise on early errors, its deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by a report of cases treated. A truthful advisor to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage in any address, on receipt of twenty-five cents, in stamps or postal currency, —by addressing DR. LA CROIX, No. 31 Malden Lane, Albany, N. Y. The author may be consulted upon any of the diseases upon which his book treats, either personally or by mail, and medicines sent to any part of the world.

THE CLAIM OF SUPERIORITY
Is often made for
ARTICLES OF GENERAL USE,
But the claimants often find it easier to assert such superiority than to readily prove it by practical tests.

After a long and thorough test of
BOOTS AND SHOES
FASTENED WITH
CABLE SCREW WIRE,
These goods were pronounced by the patentee to be
THE BEST
In the market for Pliability, Durability, and Economy. This claim has received
Full Endorsement
From Manufacturers!
From Dealers!
From Consumers!
Testimonials as to the superiority of this mode of fastening, over either Sewed or Pegged work, have been published by scores in Boston dailies, from leading makers and dealers throughout the country.
Cable Screw Wire goods are peculiarly adapted for our inclement winters, on account of their Waterproof qualities.
Every grade, from the heaviest FISHING, HUNTING, DRIVING, or WALKING BOOT, to a DRESS BOOT or LADIES' SLIPPER, is best made with his most excellent of all fastening.
WARRANTED NOT TO RIP.
EVERY ONE BEARS THE PATENT STAMP.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!
THEY ARE NOT A VILE FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.
They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfeb16
J. WALKER, Prop., R. H. McDONALD & CO. Druggists & General Agents, San Francisco, Cal., and 32 & 34 Commerce Street, New York.
☞ Sold by all Druggists and Dealers.

PACIFIC MAIL STEAMSHIP CO.'S
THROUGH LINE TO CALIFORNIA, CHINA AND JAPAN,
Touching at Mexican Ports and carrying U. S. Mail
FARES GREATLY REDUCED.
One of the large and splendid Steamships of this line will leave Pier No. 42, North River, foot of Canal St., New York, at 12 o'clock M., on the 16th and 30th of every month, (except when those dates fall on Sunday, and then on the preceding Saturday,) for ASPINWALL, connecting via Panama Railway with one of the Company's Steamships from Panama for SAN FRANCISCO, touching at MANZANILLO.
All departures connect at PANAMA with Steamers for SOUTH PACIFIC and CENTRAL AMERICAN ports. Departure of 15th, touches at Kingston, Jamaica.
For Japan and China, Steamer leaves San Francisco first of every month, except when it falls on Sunday, then on the day preceding.
One Hundred Pounds of Baggage allowed each adult. Baggage masters accompany baggage through, and attend to ladies and children without male protectors. Baggage received on the dock the day before sailing, from steamboats, railroads and passengers who prefer to send down early. An experienced surgeon on board. Medicine and attendance free.
For freight or Passage Tickets or further information apply at the Company's ticket office, on the Wharf, foot of CANAL ST., NORTH RIVER, NEW YORK, to F. R. BABY, Agent; or to the Agents for New England, C. L. BARTLETT & CO., 16 Broad street, BOSTON,
49 1-2 Exchange St., Portland.

The Chronicle.

A NIGHT ON VESUVIUS.—The Louisville Journal has a Naples correspondent who writes: I spent the night with some friends on the top of Vesuvius, freezing on one side and boiling on the other. We kept ourselves awake by the amusement of dodging the falling stones. About once in ten minutes the old mountain gave a shiver—then a burst like forty thousand muffled cannon, if ever there was such a thing. At each burst a cloud of black smoke in the shape of an inverted hay-stack, and thirteen times the size of the Galt House, was driven into the air, followed by a mass of living flame that lighted the country for leagues around.

Then look out for stones; millions of tons are thrown hundreds of feet high into the air, most of them falling back into the crater, but many, varying in size from a pigeon's egg to a tobacco hogshead, land outside, and you must dodge; generally easy enough, as they are of white heat and show as plain as a rocket star. They tumble down the steep cone, hissing and steaming in the snow—the big ones breaking into fragments and flying like a bursting shell. Now is the time—ten minutes' interval. We rush up to the very edge of the abyss and look down; for further particulars see "Dante's Inferno;" but you spoil your boots; I did. You singe your mustache; I did. And you wish you were safely out of it; I did.

You turn away sneezing as if you had accidentally ignited a box of locofocoes under your nose; for a moment all is dark; then the long, twinkling row of gas lamps in the streets of Naples seem to spring out of the ground under your feet, though miles away, then you see the lights in the little towns above the base of mountains, in all save one, and that one the largest. Pompeii—with its great old temple, magnificent theaters, close built streets, and vast arena, is dark; the grim skeletons lying in their ashen beds alone keep their vigil there; eyeless sockets need no light. No sight that ever I witnessed can equal a clear sunrise from Vesuvius.

No one can imagine its grandeur; but you must try to, for I dare not attempt a description. As we stood gazing down on the roofless houses of Pompeii, the sun lighting its gay colored wall Torre del Greco with its earthquake-walls—I said: "I am glad of it." Says one of the party, "It's awful shabby: don't think it pays." That young man was from Henry County, Ind. With a pretty general destruction of boots and clothing, and the aforesaid loss of one of the handsomest moustaches in Naples by your humble servant, we got done safely. Not so with another party who ascended from the Nola side. One of them had an arm broken by a falling stone; another a leg, in getting down.

—A Titusville teamster carelessly threw his cigar stump over his shoulder and set his load of benzine afire. He leaped from the team, and the horses, frightened by the explosions of the barrels, ran at the top of their speed along the road, leaving a trail of fire and making a sort of terrestrial comet. A fortunate collision with a stump relieved the horses of their dangerous load, and nothing but the wagon and benzine was lost.

—An Ohio officeholder is charged with being a relative of the President on two grounds: 1. The officeholder's first wife was a sister-in-law of the President's aunt on the mother's side. 2. The officeholder's sister married a brother of the President's brother's mother-in-law.

—A Connecticut contemporary says that Boston is undermined by the Germans. If any one should happen to fall down a flight of cellar stairs he has only to rise calmly and call for a glass of lager-beer to cover his accident completely. The beer will be forthcoming.

—A party of impecunious Fort Wagners dined sumptuously at a restaurant. Each insisted on paying the score, but finally it was agreed that the waiter should be blindfolded and that the man whom he caught first should settle. It was very "thin," but perfectly successful.

—The Connersville (Ind.) Times tells of an old rail-splitter in that county who put a quietus upon a young man who chaffed him about his bald head, in these words:—"Young man, when my head gets as soft as yours, I can raise hair to sell."

—Having satisfied themselves of their compatibility by a probationary partnership of four years' duration, an Indiana couple recently called on a justice of the peace and had the agreement made more binding.

—An Indianess, discovering that her marriage ceremony had been illegally performed, fourteen years ago, has commenced a suit against her husband for services rendered him as an employe during that period.

—A lady in Groveland, Mass., recently gave birth to a child, perfect in every respect above the abdomen, but below representing two boys and a girl, and having six legs.

—Blanqui hasn't spoken a word since he was imprisoned at Versailles.

BUCHU

(From Dispensatory of the United States.)

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION. Established upward of 20 years. Prepared by

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what it is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries as a wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

Dr. Wells' Extract of Jurubeba
is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all the vital forces, and invigorates and fortifies all weak and lymphatic temperaments. 4w n28

HARVEY FISK. A. S. HATCH.

FISK & HATCH,
BANKERS
and Dealers in Government Securities,
No. 5 Nassau Street,
New York, Nov. 20, 1871.

The successful and rapid negotiation of nearly three-fourths of the FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:

OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.

Messrs. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:

The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonary on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.

In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.

Very respectfully yours,
C. P. HUNTINGTON, *President.*

In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.

The scarcity of, and demand for, really

Desirable six per cent. Gold Bonds,

for solid and permanent investments, is evinced by the facts that

Five-Twenty Bonds of 1867 are selling at....115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at..94

These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.

The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.

The reason why we think CENTRAL PACIFIC BONDS will in time advance to the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.

The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.

The Chesapeake & Ohio Bonds are issued either coupon or registered—the denominations are as follows:

$100, which cost to day.....$94.13
$500 " " 471.56
$1000, " " " 943.12

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, and forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

We buy and sell Government and Central Pacific Bonds and receive them in exchange for Chesapeake and Ohio Bonds.

Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*

FISK & HATCH.
dec2 *Financial Agents.*

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting a dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All anxiety of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in nearly every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

Portsmouth, N. H.

THURSDAY, DECEMBER 28, 1871.

New Hampshire Items.

Exeter sends Messrs. Charles H. Bell, Nathaniel K. Leavitt, Gilman Marston, John G. Gilman, John H. Kimball and George W. Furnald to the Republican State Convention.

The seventh annual reunion of the Veterans' Union is to come off at Manchester, Jan. 16, 1872. Dinner, speeches, music and a ball are included in the exercises. Members intending to attend are requested to notify Maj. T. W. Challis, at Manchester.

The Pluistow brick makers, it is said, have engaged Mr. Cunningham of Nashua to make a railroad survey between the two places, and think their business will be benefitted by rail communication with the Worcester road. The line will run through Hudson, Pelham, Windham and Salem, a distance of sixteen or eighteen miles.

A dividend will be paid by the Portsmouth Company at South Berwick Jan. 1.

The Republicans of the 3d District have nominated William P. Nowell, of Manchester, for Councillor.

Samuel D. Lord, Esq., presided over the Republican Senatorial Convention for the 34 District. George Foster, of Bedford, was nominated for Senator.

Mr. Robnia Nutt, father of Commodore Nutt, of Manchester, butchered a hog, on the 23d of December, which was 16 months and 22 days old and weighed 1011 pounds.

The New Hampshire Insurance Company has declared a semi-annual dividend of 4 per cent.

The Amherst Cabinet says the contest for candidate for Governor is now considered to be narrowed down to Mr. Straw of Manchester and Mr. Walker of Portsmouth.

Newmarket sends Hon. Wm. B. Small, Joseph Taylor, John F. Chapman and David Murray to the State Convention.

Political.

Hon. Aaron A. Sargent, Senator elect from California, states that he is in close sympathy with the administration and is proud of its record.

REV. MR. ALGER remains at Somerville, Mass., and though he is somewhat improved, his condition is such as to preclude the hope that he will soon, if ever, be enabled to resume his ministerial duties.

AN UNUSUAL OPPORTUNITY to purchase French China Dinner Sets, of any number of pieces, is offered through our columns by Clark, Plympton & Co., of Boston. They have exclusive control of the goods of a large factory, and are offering great bargains in order to introduce the new styles of decoration.

HOW IT WORKS.—On Monday, Dec. 25, two men named Farwell and Lawrence, keepers of a rum-hole in East Arlington, Vt., shot five persons, two of whom are dead and another is expected to die. Farwell's little son is one of the dead, and a man who was taking no part in the row is the other.

THE ANNUAL MEETING of the New Hampshire State Agricultural Society was held at Dover on the 27th. The following officers were elected for the ensuing year:—*President*, Natt Head, of Hooksett; *Sec.*, Aaron Young, of Portsmouth; *Treas.*, George W. Riddle of Manchester; *Directors*, Warren F. Daniell, Franklin; Peter W. Jones, Amherst; James W. Cogswell, Gilmanton; Charles H. Hayes, Portsmouth; Nathaniel Hubbard, Tamworth; Noah W. Hardy, Nelson; John J. Hanson, Dover; Robert Elwell, Candia; S. S. Chick, Great Falls; N. R. Perkins, Jefferson.

EXPLOSION IN THE SUN.—According to the astronomers, there has been a big outbreak in the sun. An enormous protuberance, which the wonderful appliances of modern science soon ascertained to be composed of hydrogen gas, was suddenly projected from its body, and floated at the height of some 15,000 miles above the cromosphere, although still connected with it by three or four bright vertical columns. About half an hour afterward the whole of this was blown into shreds by some inconceivable rush from beneath, and in ten minutes the space above the solar surface was filled with flying *debris* to the height of more than 200,000 miles.

—At the Christmas festival of negroes at a church in Florence, Ky., on Sunday night, a white man named Henry Snyder, who was half-drunk, insulted the females. Peter Ryder remonstrated, which so irritated Snyder that he shot him in the head and then shot three other negroes.

[From the Boston Traveller.]

A MAGNIFICENT STORE.

JORDAN, MARSH & CO., 242 TO 250 WASHINGTON STREET, BOSTON. — A glance at the very attractive windows of this establishment is indicative in a measure of the wealth of the contents within, but 'tis not till one enters the capacious store that he has the faintest conception of the rich, varied and captivating goods of all kinds which are displayed to tempt the eyes as well as the purses of purchasers. Dress is an essential necessity, and though in many instances it may partake of the nature of a luxury, yet it is one of those luxuries that cannot be well dispensed with. "Costly thy habit as thy purse can buy," is the advice of Polonious to Laertes, and it is good wholesome advice and applicable to all. To dress within one's means denotes the true lady and gentleman; to exceed one's means in dress betrays the mere pretender. The establishment of Messrs. Jordan, Marsh & Co. is so gigantic and contains such a colossal stock of goods of all fabrics and at all prices, that they are enabled to furnish dress materials and entire outfits suited to all classes of the community, at prices which certainly must strike the purchaser on the score of their reasonableness.

In taking a hurried glance at their enormous stock of goods, what perhaps first strikes the visitor is their rich and varied assortment of dress fabrics, and of these perhaps the *Silks* claim the preference. A black silk dress is never out of fashion, and what is much more to the point, it can be worn with perfect propriety on any and all occasions. We find here black silks in all varieties, of American manufacture, and from the best French and Italian establishments, ranging in price from $1 to $7 per yard; and worthy of close attention are those which have been marked down from $4 50 and $5 to $3.50 and $4 per yard. Of plain colored silks, for day and evening wear, there are all the new shades, and of all varieties of texture; while there are very handsome fancy silks in black and white stripes, and a large lot of black silks with colored stripes at $1.50 per yard, which are really bargains. Among other styles of silks we are much pleased with the "Dolly Varden Foulards," which are new and very stylish and attractive. There is further on hand a large job lot of foulards, of a multiplicity of patterns, selling at $1 per yard. Velvet for cloakings and trimmings, and velveteens and plushes are to be found in great variety, and in color of all the known hues. Of other goods for dress materials we may notice full lines of "drap national," "drap de France," "French cashmeres," "French merinoes," "Irish and Lyons poplins," "satines," "wool and silk velours," "plaid serges, poplins and velours," and "cashmere robes," all very reasonable and all extremely fashionable.

In the *Shawl Department* we find a most extensive and expensive stock of goods on hand, the different varieties ranging in price from $10 to $2500 each, and suited to the wants of all classes of customers. Fashion and wealth will go into ecstasies over the superb "India filled and open centre," and the "India striped, long and square" shawls, which sell, according to quality, from $100 to the highest price above named. They are most delicate in texture and rich in design, and they must be genuine, you know, for why? Has not each one of them the name of the camel that furnished the hair from which they are made, woven into it? More for comfort, but yet extremely showy and captivating, are the "Imitation India, long and squares;" the "French cashmere, long and squares;" the "Paisley, long and square," dark coloring; the "ottoman Reversible;" the "Roman Stripes;" the German Worsted;" the "Scotch Plaids;" the "Domestic Stripes and Plaids;" and the "Mourning Shawls;" and these range in price from $10 to $150. In this department also can be found a complete line of gentlemen's travelling shawls and English sleigh and carriage robes, etc.

Rich and varied is the stock of *Mourning Dress Goods*, and it embraces all grades of Alpacca, Mohair, Brilliantine, Cashmere, Merino, Drap d'ete, Australian Crape, Barathea, Henrietta, Cloth, English and French Bombazines, Parametta, Cretonne, Tamise, Empress, Nun Cloth, Biarritz, plain and diagonal Satine, 3-4 and 6-4 all wool De Laine, Epengline, Irish and Lyons Poplin and Courtauld's English Crape.

In the *Cloth Department* we find an unprecedented assortment of all styles suitable for cloaking, and sacques for ladies and children, and of all colors. Thus we have black and colored "Beavers" of all grades, and including the famous make of John Peter Schoeller; broad cloths; tricots, diagonals, coatings and meltons, colored chinchilla in great variety, and suitable for all ages, and admirable also in making fancy caps for children; waterproofs of the best English and American manufacture; and a remarkably fine stock of Astrachan and seal skins, are well worthy the consideration of buyers.

The *Cloak and Suit Department* is most extensive, and cloaks and full suits, of all known material and at all prices, for ladies, misses and children, can at all times be found here. Of Suits the establishment offers the largest and best selected assortment ever opened in this market, of American, English, French and German manufacture, consisting of black and colored silks, plain striped, and plain serges, colored and black alpacca, poplin and plain woolen goods, and at prices astonishing for their lowness. These suits range in price from $7 to $500 dollars each, and all are noticeable for the tasteful and exquisite manner in which they are trimmed and made up. Look at those very becoming and richly braided and embroidered sacks, breakfast jackets, and Garibaldi waists; how neat and natty do they make the wearer appear, and how much do they enhance the charms of "the human form divine." Where is the man with a heart so unsusceptible as not to "fall over head and ears in love" at first sight, with a delicate maiden enveloped in smiles, and an embroidered cashmere or cloth sack, or a breakfast jacket, or even a Garibaldi waist? We confess, old fogies as we are, that our blood courses most wantonly through our veins at the bare thought of such "a phantom of delight."

Here, too, we have opera cloaks and capes in endless variety; white muslin and tarletan dresses; and overskirts and polonaise of novel design in plain white, trimmed most bewitchingly in lace and colors; velvet garments, very *distingue*, for ladies, misses and children; morning robes in poplin, and striped and figured and plain colored cashmeres, handsomely embroidered; cloaks, sacks, and polonaises, in velvet, cashmere, cloth and velveteen, most elegantly embroidered and elaborately trimmed with lace, fur, and bugle gimps. Mark that rich assortment of fur goods, in sable, Astrachan, sealskin and ermine, are now converted into jaunty sacques, with muffs, collars and ties to match. How elegant are they in appearance, and how finely and faithfully are they made. One of these sacques and accompaniments is the ambition of most every young lady; therefore, let indulgent papas, and above all, enthusiastic lovers, who intend making a holiday present, bear the fact in mind. In articles for children's wear this department is well furnished, and we call the attention of "parents and guardians" to the neat gray and white Astrachan, squirrel and chinchilla sets, including sacks, caps, muffs and ties.

The *Millinery Department* claims the universal attention of every lady who enters the establishment, and "loves of bonnets" are almost "as plenty as blackberries." The various styles are new and rich, and they are all becomingly and elegantly trimmed. Here we find sumptuous specimens of Paris millinery, as well as gorgeous specimens of the manufacture of Messrs. Jordan, Marsh & Co. There are to be found here rare shades of millinery and trimming silk velvets; French, English and American felt goods; ostrich tips, long plumes, pompons, and aigrettes; and a superb assortment of delicate and fine French flowers, imported expressly by the house. In short, nothing to complete a first-class millinery establishment, is here wanting.

Of *Laces and Embroideries*, the stock is in every way of the first class. "You promised me a tawdry lace, and a pair of sweet gloves," says Mopsa in Shakespeare's "Winter's Tale;" but there is nothing tawdry about the laces to be found here, for they are selected with exquisite taste from the best manufactories of the old world. In this department we find black thread, and Malta laces; black guipure, and thread bertha; black thread barbes, and coiffures; white Valenciennes, thread, blond, and applique; real point, Duchesse, and barbes in thread; Hamburg edgings just imported, and very much under price; lace collars and sets, and embroidered sets suitable for the holiday trade; plain linen collars and cuffs; lace trimmed handkerchiefs; point and applique lace, and embroidered, hemstitched and initial handkerchiefs, at all prices; applique and crotcheted tidies; and plaiting and ruffings without number; white silk illusion for bridal veils; fleece lined pique and tarletans of all colors for evening dresses.

Of *Ribbons* there is a most attractive stock, and a full assortment of black and colored gros grain from one and one-half to twelve inches; black and colored boiled, and Scotch plaid ribbons of all widths; all the numbers in black velvet, and a full assortment of colored velvet ribbons; there has just been received an extremely attractive variety of Roman and French scarfs for from $4 50 to $16, and Roman ties, as well as ladies' hemmed ties of crepe de chine, frosted silk, twilled silk, of the latest styles from London and Paris; and in connection wit these there is a large line of gentlemen's and youths' ties, comprising the freshest novelties, and which make charming Christmas and New Year's gifts.

The *Hosiery and Glove Department* is full and the goods of a superior quality. In the stock there are silk under-shirts; English merino undershirts and drawers of the best manufacture, for ladies, gentlemen and children; ribbed woolen shirts and drawers, extra heavy, for gentlemen; silk, merino, cotton, Balbragan and fleece lined hose for ladies; fancy hose for children, and a full line of gentlemen's hosiery; woolen gloves of the best English, French and American make; kid gloves, imported direct from the most famed Paris houses, and all of the first quality; dog-skin gloves, fur-lined gloves, and gloves for driving, etc; in this department also, there is an excellent lot of silk umbrellas, with solid ivory handles, and what more agreeable article can there be for a holiday present!

In the *Ladies' Underwear Department* we have all the latest novelties in French and American night-robes, chemises, etc., of cotton and linen fabrics, plain, trimmed and embroidered; there are skirts of every conceivable kind, among them the "Olmstead Panier Skirts," with hoops, panniers and hair-cloth skirts, to suit all tastes; all the best makes of felt skirts, embossed and seamless goods in every variety. In infants' needs there is every necessary for a complete outfit, while special attention is paid to the robes, embroidered shawls, skirts and hoods. If you want to gladden the heart of a young mother, at Christmas time, how better can you do so, than by presenting her with a complete outfit for "the babe that slumbers upon her breast?" In corsets, all the latest styles in French and German, both plain and embroidered, for ladies and misses wear.

The *Housekeeping Department* is complete, and in it can be procured every necessity for the household, such as blankets, quilts, comforters, pillow shams, lace curtains, piano covers, table cloths, napkins, d'oylies, towels, flannels, shirtings, and in fine every thing of which one can conceive the slightest necessity.

We have thus given a hasty glance at the enormous stock in this well conducted establishment. Undoubtedly our readers know what it is as well as we do ourselves. In closing we will say, however, that while especial attention has been paid in all the departments at the present time, to the requirements of the holiday trade, yet it in no way interferes with the steady and general run of the business of the concern and all is conducted with the same facility, the same regularity and the same close attention to the wants, the comfort and the interests of the purchaser, as on the most ordinary occasion.

BUSINESS NOTICES.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and vim of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

The Halford Leicestershire Table Sauce for family use, in pints and half pints, for sale by every first-class grocer.

If your horse is lame, sore or galled, you should use *Johnson's Anodyne Liniment*; wash the part with castile soap and warm water, rub dry, with a clean cloth, then apply the Liniment, rub in well with the hand.

Have the readers of the Daily Chronicle ever used any of *Parson's Purgative Pills*? If not, why not? They are the best family physic, besides being the greatest anti-billious remedy there is in this country.

SPECIAL NOTICES.

The Great Pictorial Annual.

Hostetter's United States Almanac for 1872, for distribution, *gratis*, throughout the United States, and all civilized countries of the Western Hemisphere, is now published and ready for delivery, in the English, German, French, Norwegian, Welsh, Swedish, Holland, Bohemian and Spanish languages, and all who wish to understand the true philosophy of health should read and ponder the valuable suggestions it contains. In addition to an admirable medical treatise on the causes, prevention and cure of a great variety of diseases, it embraces a large amount of information interesting to the merchant, the mechanic, the miner, the farmer, the planter, and professional man; and the calculations have been made for such meridians and latitudes as are most suitable for a correct and comprehensive NATIONAL CALENDAR.

The nature, uses, and extraordinary sanitary effects of HOSTETTER'S STOMACH BITTERS, the staple tonic and alterative of more than half the Christian world, are fully set forth in its pages, which are also interspersed with pictorial illustrations, valuable recipes for the household and farm, humorous anecdotes, and other instructive and amusing reading matter, original and selected. Among the Annuals to appear with the opening of the year, this will be one of the most useful, and *may be had for the asking*. The proprietors, Messrs. Hostetter & Smith, Pittsburgh, Pa., on receipt of a two cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood. The Bitters are sold in every city, town and village, and are extensively used throughout the entire civilized world.

BETTER AND CHEAPER.

THAN ANY OTHER

Boots or Shoes;

THOSE FASTENED WITH

CABLE SCREW WIRE.

BETTER — Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

A MILLION IN THE FIELD!

Yes, a million of men, to say nothing of the ladies, know by experience that

Cristadoro's Excelsior Hair Dye

produces shades of color that seem to have been brought out by nature herself. They know, too, that it is free from all injurious matter, because they have used it for years, and thus tested it by a process more certain than even chemical analysis itself. In fact, the daily experience of multitudes of both sexes, confirms the declaration of the first analytical chemist in America, that the Excelsior dye contains "nothing deleterious to health." A good dressing should be used after the dying, and the best is

CRISTADORO'S HAIR PRESERVATIVE.

—The engineer, fireman and one brakeman of a passenger train on the Burlington, Cedar Rapids and Minn. Railroad were killed on the 23d by the giving way of a bridge near Rockford, Iowa.

—The New York Bar Association is busy preparing a good report on corruption in the courts, which will be good reading for the legislature.

—Dr. William C. Dewitt, the oldest physician in Ulster county, N. Y., fell dead at a patient's bed-side near Saugerties on the 26th.

—Jacob Barker of Philadelphia, well-known in financial circles throughout the United States, died on the 26th, aged 93.

LOCAL AFFAIRS.

New Advertisements to-day.

French China—Clark, Plympton & Co.
Fakir of Vishnu.
G. A. R. Entertainment.
House To Let.

Gone Home.

We chronicle to-day the decease of Mrs. RUTH ODIORNE, of this city, at the advanced age of 92 years and 3 months. Mrs. Odiorne was born in Newcastle, Sept. 23, 1779, and was a remarkable woman, being actively engaged in daily duties up to the commencement of her last sickness, which was the only serious illness she ever experienced. Until within a month she was able to do her own housework, and was a living example of industry, being unwilling to pass a single moment in idleness. The retention of all her faculties to such an age seems almost wonderful. She was a constant reader of the Bible, which she took great comfort in, and could quote from it literally and correctly when referring to any passage which would serve as an illustration in conversation. She could read, sew and thread her needle without the use of glasses. Even at the last, her physical strength remained until she became weakened and feeble from lack of nourishment, every attempt for more than two weeks to administer food being of no avail as her digestive powers were exhausted. Mrs. Odiorne has had 118 lineal descendants—13 children, (8 now living,) 49 grandchildren and 56 great-grand-children. There were but two older persons in this city at the time of her decease,—the mother of Jonathan M. Tredick, Esq., and the mother of Mrs. Jeremiah D. Goodrich.

Laconics.

The Fakir of Vishnu, who was here a year ago, advertises to appear at the Temple again, Dec. 30, and to remain five nights. The "Marionette Family" are still with him. See adv't.

The Boston Advertiser says Hon. Horton D. Walker's chances for the Republican nomination for governor of New Hampshire are very encouraging.

Mr. Charles Carle, an old and well-known stage driver for many years between Portland and this city, died on the 24th, at Portland, aged 82 years.

Storer Encampment, G. A. R., give the first of their series of dramatic entertainments this evening, at their Hall, No. 38 Market Street, on which occasion they will persecute a Dutchman, endeavor to engage male "help" for the kitchen, &c. See advertisement.

Those who have forgotten to make Christmas presents will have excellent opportunity to make up for their neglect on New Year's day.

The John L. Hall Burlesque and Comedy Company are coming soon, so their live agent, Chas. A. Wing, says—and we are heartily glad to announce it. There is a dearth of amusements of that kind here and the public want a first class entertainment. The receptions accorded the Halls in times past are sufficient guarantee for the future, and when they sit themselves down in this city for a brief campaign we anticipate a rousing benefit for players and hearers. Wing yourself hitherward with all possible haste, Charles, and be confident of good results, pecuniarily.

Mr. Thos. J. Coburn formerly, of this city died at Centralville, Mass., on the 27th, of paralysis, with which he had been troubled since July last. Mr. Coburn was formerly proprietor of the Rockingham House in this city years ago. He was proprietor of the Stone House Hotel and also of the Merrimac House in Lowell. He was 67 years of age, and leaves a wife and three children.

The Christmas festival of the Sunday School children of St. John's Parish, will be held in the church this (Thursday) evening, commencing at 6 o'clock.

Judge Page has held Mr. A. M. Peck in the sum of $2000 to appear before the S. J. Court at Exeter in April, on the charge of stealing 22 barrels of liquor from Mr. Jos. S. Grant of this city.

Ellen Carroll was a trifle too much of a Christmas "carol," and has gone to the House of Correction for 30 days. Rum did it.

The S. J. Court reassembled in this city on Wednesday. The case of Simes & Farley *vs.* Healey & Hickey is on trial. Plaintiffs sue for the value of tea sold defendants. Healey denies being a partner with Hickey.

The Universalist Sabbath School have presented a beautiful chromo to James M. Carr, Esq., the esteemed Superintendent of the School.

—A little girl in Ithaca, just before she died, exclaimed: "Papa, take hold of my hand and help me across." Her father had died two months before.

—The jolly fellows of Valence, France, who follow the cheerful business of pall-bearing, have struck for higher wages.

Correspondence.

KITTERY, ME., Dec. 27.

The various churches in Kittery were decorated for the Christmas festival, and Christmas trees, presents and social amusements were the order of the day, as elsewhere. The second Christian society had their gathering on Saturday evening, and the Universalist and M. E. Churches had theirs on Monday evening.

At the Universalist entertainment, the Christmas trees, exercises by the Sabbath School, singing by the choir, and by the Misses Pettigrew of this town and Miss Loey Locke of your city, made the occasion mostenjoyable. "Silver Clouds," a quartet led by Miss Eva Pettigrew, was very fine. The singing of Miss Locke was worthy of special note, "Departed Days" being admirably rendered; and the Misses Pettigrew—as usual when they appear before an audience—gladdened all hearts, "Christmas Morning" drawing forth abundant evidences of satisfaction. Among the many presents distributed was a beautiful silver sugar bowl and spoon holder, to Mr. Samuel A. James, the chorister. The recipient was taken completely by surprise and through a friend expressed his thanks to the donors for the beautiful token of their regard.

The M. E. Church was well filled and the exercise not unlike those of the other churches, of a very interesting character.

Rev. Wm. A. Drew, of Augusta, Me., will deliver his popular lecture, "The Pilgrim Fathers," at the Universalist Church next Saturday evening, Dec. 30th. Rev. James DeNormandie will open the P. P. Course of lectures at the same place, on Tuesday evening, Jan. 2; subject, "Divine Law in Trade;" to be followed by Ex-Gov. Israel Washburn of Portland, Rev. H. C. Leonard of Boston, Prof. Shipman of Tufts College, Rev. Geo. W. Bicknell of Portland Rev. A. A. Miner and Stillman B. Allen, Esq., of Boston.

THE BOSTON NINE FOR 1872.—The Boston base ball club have issued their season tickets for 1872, two hundred in number. The price of tickets admitting a single person has been fixed at $10, and for tickets admitting a gentleman and ladies the price is $15. They can be had on application to any director, or at the club rooms, 18 Boylston street. F. Rogers, left-fielder of the Star club of New York, has been engaged by the Boston club, and one other player is to be secured. The regular nine will be probably as follows: McVey, catcher, Spaulding, pitcher; Gould, first base; Barnes, second base; G. Wright, short stop; Schafer, third base; Leonard, left field; H. Wright, centre field; and F. Rogers, right field. This is a very strong batting as well as fielding nine. One or two of the positions may be changed should Captain Wright find on practising the men that it is desirable. The directors are endeavoring to engage a Boston man as the eleventh player. A junior offshoot of the Boston club is being organized, to be known as the "Red Stocking Juniors," and they will be under the immediate instruction of George Wright.

—Mrs. Sturdevant, wife of the superintendent of the Nashville institute for the blind, was killed on Sunday night by the explosion of a coal-oil lamp.

MARRIAGES.

In North Hampton, Dec. 20, by Rev. T. V. Haines, Mr. NEWELL W. HEALEY of Hampton Falls, and Miss ELLEN L. FRENCH, daughter of John F. French, Esq., of North Hampton.

In Deerfield, Dec. 24, by Rev. Jacob Chapman, Mr. JOHN S. OSGOOD and Miss MATTIE E. FRENCH, both of Deerfield.—Dec. 23, by Rev. H. O. Walker, Dr. IRA M. LANG of New York, and Miss CLARA F. CURRIER, daughter of Ephraim Currier, Esq., of Deerfield.

DEATHS.

In this city, Dec. 27, Mrs. RUTH ODIORNE, aged 92 years, 3 months, 4 days.

Like a sheaf of wheat, ripe unto maturity, she was gathered by the Reaper, taken home after a life crowded with industry and good works—to meet the loved ones gone before, who in her younger days were her joy and delight. There is something peculiarly beautiful in the death of those who have lived the allotted time and become objects of veneration. Though great sorrow is brought to many hearts, though we would the chalice could have been kept back from unwilling lips yet a while longer, there is consolation in the thought that dutiful children did their utmost to render aid, that relatives and friends without number were eager to administer to the wants of their loved counsellor, that the slightest wish was gratified and no duty remained unperformed. A life so perfect in its simplicity, so pure in its every action, could not be denied the blessings which follow such an example of heavenly trust. Cheerful in the midst of suffering, uncomplaining and patient, the crown of thorns seemed but another victory which glorified and spiritualized the soul until Death found no unwilling victim, but rather a marvel of peace and resignation—and life departed almost imperceptibly, and heavenly harpers with tuneful accord welcomed a soul at the eternal gates while yet watchful attendants silently waited for the inevitable change. May He who has called her hence reunite us all in the Father's house where there are many mansions, and where "there shall be no more death, neither sorrow, nor crying, neither shall there be any more pain." G.

—Twelve houses in Salina, Kansas, were burned on the 23d.

—The two years lease of Samana Bay having expired, the American flag has been hauled down at that station.

—A hen pecked husband, who had married his wife because she was handsome, declared that "a thing of beauty is a jaw forever."

—Virginia is not a wholesome state, as Gov. Walker has discovered. He went there to get rid of the catarrh, and caught the governorship, which goes hard with him.

Republican Conventions.

STATE.—At Phenix Hall, Concord, Wednesday, Jan. 3, 1872, at 11 A. M.

COUNTY.—*Rockingham*—At Town Hall, Exeter, Tuesday, January 9, 1872, at 11 A. M.

AYER'S
CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the
Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the
SINGER
seems to unite the good qualities of all, and is never found wanting.

THE SINGER
IS THE
OLDEST
SEWING MACHINE
IN THE MARKET,

All others being copied from its first model. It does two-thirds of the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.

J. J. FESSENDEN,
Agent for Portsmouth, and Vicinity,
No. 12 VAUGHAN ST.
Formerly at No. 2 Chestnut St.

AYER'S HAIR VIGOR
FOR RESTORING GRAY HAIR
TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; and in most cases disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. HIS HAIR VIGOR sometimes reproduced lost hair, and always restores it to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

Morning Chronicle.

ONE OF NASBY'S YARNS.—I will tell you about an epitaph that I once published. I was sitting in my office one afternoon when there came in an old lady with a red nose, black gloves, and a large umbrella. She looked at me and sighed, and then advanced to the counter. Says she: "Do you publish death notices, sir?" and she heaved another sigh at me. Says I: "We do—ten cents a line," and I hove. Says she: "Will you print poetry to the end of it?" I replied that if necessary we do add an auction notice. And then she took a piece of paper out of her pocket, and adjusting her venerable spectacles, read this in a sort of diseased hurdygurdy tone:

"Fare the well, thou loved and lost one,
Small George Skinner, fare the well.
God he gave thee, God he took the,
Up in heaven with him to dwell."

Our school marm rit that, sir."

—A Louisville dog is a "medium."

—Ten-cent lectures are popular in Iowa.

—Paris has fifty-seven newspapers.

—Irreverent Connecticut youths smoke in church.

—The New York World calls Congress the "Cave of the Winds."

—Canada is the healthiest country in which the British soldier serves.

—The New York Liberal Club is not liberal enough to admit ladies to membership.

—A Wisconsin judge was compelled to sentence his brother to confinement in the State Prison.

—Kaiser Bill has piously ordered the Sunday military parade to be held hereafter on Wednesday.

—An Indiana woman committed suicide because her husband persisted in attending a spelling school.

—The Louisville Courier-Journal observes that although American heirs to immense English estates are constantly turning up, the immense estates never do.

—The New York Express thinks some of our strong banks might resume specie payments without an act of congress, especially with the gold premium down to 8 1-2.

—A Mr. Colcord having threatened to institute a $50,000 libel suit against the St. Louis Democrat because that paper had expressed the opinion that he was worth five dollars to any political party, this retraction is offerred in mitigation of damages: "Mr. Colcord is not worth five dollars to any political party: he is not worth a d—ollar."

—The birth of "a pair of triplets" being announced by the Detroit Free Press, the Louisville Courier-Journal observes, "that it is rarely seldom that you find triplets who are ingenious enough to be born in pairs without leaving an odd baby somewhere in the neighborhood." The Free Press must acknowledge that such cases are not frequent frequently.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

AVERILL CHEMICAL PAINTS,

in the City. Also Dealer in

C. L. WHEELER, 3 Custom-house St., Boston.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it whenever it is obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawf&b16

FISHERMEN!

TWINES & NETTING,

MANUFACTURED BY

WM. E. HOOPER & SONS,

Send for Price-List.] **Baltimore, Md.**

Portsmouth Daily Chronicle.

ESTABLISHED 1862. | MARSTON & FREEMAN, PROPRIETORS. | GEO. W. MARSTON, I. P. MILLER, EDITORS.

$6 per Year, in Advance. | PORTSMOUTH, N. H., FRIDAY, DECEMBER 29, 1871. | 3 Cts. Per Copy.

The Chronicle.

A FAST START.—A week or two ago a man named Stonington, living at Montreal, went with his family to Toronto to pay a visit to his sister. The gentleman had for some weeks been thinking of removing to Toronto and going into business, and had accumulated about seventy-six hundred dollars from sales of real estate. Thinking he might want to use the money he took it to Toronto with him—nearly all of it, or all except two hundred and forty dollars, being in greenbacks and bank bills, and nearly all the bills of large denominations. The money was deposited in a bank for several days, when, having about concluded a business arrangement, it was taken out, and Wednesday afternoon it was placed in a china closet for a few hours. Stonington has a son Frank, fifteen years old, and at 3 o'clock he asked permission to go to the depot and see an acquaintance off.

An hour afterward the father came to the house for his money, and behold! it was gone. His boy having been seen in the vicinity of the closet, and being rather a "fast" youth, it was at once suspected that he had stolen it. The father rushed to the depot, found a boy who had seen his son take the train with two other boys, and he telegraphed ahead for some officer to stop the boys. In writting the despatch he described Frank's dress, but failed to state that he was a boy instead of a man, and so when the train was searched by the officer the three lads escaped his attention. The boys got off at London, purchased each a new overcoat and hat, as well as a lot of confectionery and notions, and finally concluded to remain all night. According to their own statement, they had set out to see the world, and they squandered ten or fifteen dollars in knocking around London that night, or until the express train came along. Getting a little frightened at seeing an officer eye them sharply, they changed their programme about staying all night, and went to Windsor, arriving at Detroit in the morning.

As for the father, he took the next train for Toronto, but got off at a small station on false information, made another delay, and reached Windsor at 9 1-2 o'clock in the morning, two hours behind the boys. Starting up the street, the first faces he saw were those of the three boys, each smoking a cigar, and being on the way to take the ferry. They were so dumb with amazement that none of the trio could utter a word for some time. They were taken to a hotel, a room was secured, and then there was a scene to which outsiders were not admitted. The money had been divided as to bulk, and each pocket was filled, while one of the boys had three or four hundred dollars in his boot-legs. About one hundred and fifty dollars of the money had been used up, but the lads calculated on "slinging the stamps" when they reached Detroit. Frank was the oldest, while one of the lads was only twelve years of age. They were taken back, and relationship will of course prevent any legal steps in the matter.

SUMNER AS PRESIDENT.—Major Muldoon goes in very strongly for such a slice of the passive policy as would place Charles Sumner in the Presidential chair, with some dyed-in-the-wool Democrat as Vice President; and he reckons up the pleasant consequences as follows:

"And with Sumner in the White House, does it require the mental sagacity of the gobbling Conkling to foresee the result?

He would gather about him the pundits of Oriental Asia and pork and beans Massachusetts, and begin to swell.

He would have Nubians in the White House, on his coach box, and on toast, and the swelling would continue.

His servants would speak nothing more vulgar than Hebrew, and he would converse only in Sanscrit, and sleep only in the advance sheets of works on international law, with the swelling raging still.

He would have a constitutional amendment for every disease which flesh is heir to, including measles and Congressional gin, and the swelling as fiercely as ever.

He would convene Congress, and ask to have the national capital moved to Boston, and located on the Common, and that measure would rather aggravate the swelling.

He would ask for legislation that would tend directly to establish our Government on the hard basis of Chas. Sumner. And such a course would not stop the swelling probably.

And at about this time, say in four weeks after his inaugration, he would burst.

Then there would be a first-class funeral—Charles would make a good funeral—and the Vice-President, and the world would try to get on without him, but it would be hard.

—At a Sabbath school concert in a crowded and popular church, the pastor, who prided himselves on the quickness and cleverness of his little ones, said, "Boys, when I heard your beautiful song to-night, I had to work hard to keep my feet still; now what do you think was the trouble with them?" "Chillblainth!" shouted a little chap of six years.

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION.
Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

594 Broadway, N. Y., and 104 South Tenth St., Philadelphia, Pa.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of timeness; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, PATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

BANKERS

and Dealers in Government Securities,

No. 5 Nassau Street,

New York, Nov. 20, 1871.

The successful and rapid negotiation of nearly three-fourths of the FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, and the energetic prosecution of the work of extension and preparation of the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:

OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.

MESSRS. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R.Co.:
Gentlemen:

The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonary on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that track-laying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.

In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.

Very respectfully yours,

C. P. HUNTINGTON, *President.*

In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.

The scarcity of, and demand for, really

Desirable six per cent. Gold Bonds,

for solid and permanent investments, is evinced by the facts that

Five-Twenty Bonds of 1867 are selling at....115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at..94

These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.

The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.

The reason why we think CENTRAL PACIFIC BONDS will in time advance to the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.

The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with FIVE-TWENTY and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.

The **Chesapeake & Ohio Bonds** are issued either coupon or registered—the denominations are as follows:

$100, which cost to day.....$94.13
$500 " " " 471.56
$1000, " " " 943.12

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

We buy and sell Government and Central Pacific Bonds and receive them in exchange for Chesapeake and Ohio Bonds.

Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*

FISK & HATCH.
dec2 *Financial Agents*

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. Dr. AYER's consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER's HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

PREPARED BY

Mr. Walker's vote by counties was as follows:—Coos 1, Grafton 1, Sullivan 7, Strafford 8, Merrimac 9, Hillsborough 15, Cheshire 22, Rockingham 36.

Political.

Words of wisdom come from Texas. Flake's Bulletin, a Galveston paper, remarking the fact that in States largely Republican the Democracy favor the passive policy, whilst in States that are Democratic the reverse course is maintained, says: "The moral of all this is plain enough. If the Democratic party is still to be reactionary and revolutionary where its triumph is assured, and if it promises to do well only when it is too weak to do anything, the public safety will be furthered by keeping it on probation for a long time to come."

The Ogden City (Utah) Mormon band on Monday serenaded Senator Sargent of California, while on his way to Washington, D. C. He made a speech denouncing polygamy and received cheers.

THE MULTIPLICATION OF MACHINERY increases yearly, while the fertility of American inventive genius seems to increase in a larger ratio than the needs of production. Hence the inventor often finds that his contrivance for saving labor, power, or time has been anticipated. The patent solicitor of today, has a vast field to investigate to enable him to justly decide on the feasibility of a patent for his client. An experience of years can only familiarize him with the more than six score thousand patents already granted; to say nothing of re-issues, conflicting foreign patents, and other obstacles in the path of the candidate for letters patent. The solicitor should also possess the faculty of distinguishing and presenting the salient points of an invention, when drawing the claims for application, otherwise his client may not only lose much time and money in procuring his claim, but may eventually fail in securing that which is justly his due. Among the most successful solicitors in this country is R. H. Eddy, Esq., of Boston, whose experience of more than thirty years has not only given him all requisite experience, but has made him widely and most favorably known with inventors throughout New England for promptness, energy, and success. He has given much time to the obtaining of patents for Trade Marks, with marked success in this method of securing the designer or manufacturer in his right against imitation. If we are not mistaken, he is the pioneer in this business in America.

ACCIDENT ON THE ERIE.—When a coal train was within three-quarters of a mile of Lackawaxen, on the Honesdale branch of the Erie Railway, one of the rocks on the side of the road, weighing many hundreds of tons, tumbled down and lodged on the railroad track a few feet ahead of the approaching train, which was running pretty fast. The engineer, D. E. Wood, and the fireman, John Schultz, were thrown from the engine, the latter being thrown on his head and instantly killed, while the engineer was only slightly injured. The locomotive was completely wrecked, the centre of the train thrown high into the air, forming for an instant a huge pyramid, then fifteen of the cars went crashing down an embankment forty feet to the river.

AN INJUNCTION against the Boston & Maine Railroad has been applied for to restrain them from issuing new stock at par to the stockholders, instead of selling the same at auction as provided by the general laws of Massachusetts.

FIRE destroyed the new building of the Harvard Sugar Refinery at East Cambridge, on the 27th. Loss $75,000.

—James H. Hackett, the veteran actor, died in New York on the 28th, aged 72 years.

New Hampshire Items.

A man named Keith, from Nova Scotia, was instantly killed at Salmon Falls, Dec. 25th, while walking on the railroad track. His age was about 35 years.

The Dover Enquirer says Hon. John P. Hale has so far recovered from his recent accident as to be able to be out again.

The Republicans of Hampton have chosen the following delegates; *State*, John J. Leavitt, A. J. Leavitt; *Senatorial*, Morris Hobbs, John C. Marston; *Councilor*, William G. Cole, Thos. J. Towle; *County*, John J. Leavitt, Emmons B. Blake.

Mr. Wm. Rowell of Lancaster, 96 years old, died on the 27th from injuries caused by falling down stairs.

New Publications.

The elegant and almost unrivalled pictorial illustrations which have so long been a brilliant feature of *Every Saturday* will cease with the present year. What its readers lose in this will be fully made up in the increased variety and greater excellence of the reading matter of this deservedly popular favorite.

Gleason's Monthly Companion is received from the publisher. The Magazine is dated for January, 1872, and is beautifully illustrated with engravings. It is a moral miscellaneous Family Magazine. The subscription price is placed at $1 a year. Address the publisher, F. Gleason, No. 42 Summer St., Boston, Mass.

THE DEMOCRATS in the Legislature of Virginia are throwing off the "conservative" so long worn with a bad grace, and assuming their old proscriptive armor. They have already ousted from office all of the (original) Republicans who joined the movement except Senator Lewis and Governor Walker. The latter, by his fierce distribe against President Grant, has earned a respite, but no doubt his official head will be severed at the earliest possible moment, for the F. F. V.'s, like their Bourbon prototypes, never work, never learn, never forget and never forgive. They have now undisputed sway in the State Government.

—A Wheeling young woman took the small-pox from a letter mailed at Pittsburg.

—The Richmond Whig mourns because Virginia has two emigrants to one immigrant.

—New Orleans claims that pig whose ears are set so far back that he cannot hear himself squeal.

—Wild geese are so plenty in Oregon that farmers hire boys to frighten them off their wheat fields.

—The New York Historical society decides that the proper way to pronounce Nashua is Nashuway.

—A jovial Frenchman in Iowa sang the Marseillaise while murdering an objectionable relative.

—There are further reports of snow slides, attended with loss of life, in the mining canons of Utah.

—A verdant Virginian mistook pepper sauce for champagne until he swallowed a copious draught.

—"The Dying Prince Hat" is among the latest and funniest conceits of the Cincinnati hat manufacturers.

—Our Western civilization is gradually overshadowing all nations. Japan has just seen its first base ball match.

—Rev. Robert J. Breckenridge died at his home in Danville, Kentucky, after a protracted illness, on the 27th.

—The Brooklyn aldermen have appropriated $10,000 for use against the small-pox. The disease, however, is slightly decreasing.

—"Has Tweed run away?" is the question in New York. He can't be heard from. So it don't make much difference, whether he is Tweed all dumb, or Tweed all de-parted.

—"That blessed baby" of Thomas Davey of Lowell, who is ninety years old, is the thirty-fourth one he has owned in his lifetime. Thomas is enjoying his third matrimonial experience.

—A Pittsfield, Mass., woman makes a regular assessment of $25 upon each of the liquor dealers in that town who sell the ardent to her husband, and they "come down" rather than stand a prosecution.

—Two persons were dangerously stabbed and two dangerously shot, five accidentally shot, and nine boys severely injured by an explosion of gun-powder, two of them dangerously, in New Orleans during Christmas day and night.

—A Cairo, Egypt, letter of Dec. 1, mentions a report current there that Sir Samuel Baker and 700 of his men, who were exploring Central Africa and the head waters of the river Nile, have died of starvation. One report states that the men mutinied and shot Baker. Another report states that only Baker and his wife are left of the expedition.

—An interesting nursemaid of Grass Valley amused the children by lowering a little six-year old girl to the bottom of a dry well some sixty feet deep. The little one played around the bottom, and was hauled up in safety, and, being delighted with her exploit, informed her parents, who forthwith directed the nursemaid "to let well alone."

—The physicians to the Emperor of China receive pay only for the time when their imperial master enjoy good health.

—Mrs. Annie Buckley, a Cairo woman, has achieved an infant which starts with twenty-one pounds of substance.

—"Never mind the obituary, judge," said a culprit when the court became pathetic in pronouncing the sentence. "Let's fix the time for the funeral."

BUSINESS NOTICES.

THE SECRET OF CAPTIVATION.—Features of Grecian mould, a well-turned neck and beautifully rounded arms, are no doubt very nice things to have, and ladies who possess these charms have reason to be thankful to Mother Nature; yet, after all, the most captivating of all womanly charms is a pure, fresh and brilliant complexion. This superlative fascination any lady may secure by using HAGAN'S MAGNOLIA BALM, the standard beautifying preparation of the present age. It differs from all ordinary cosmetics in three most essential particulars, inasmuch as it contains no injurious ingredients, does not contract or shrivel the skin as all the astringent blooms," "lotions" and "powders" eventually do, but produces a lasting loveliness by improving the health of the skin. Under its operation the texture of the epidermis becomes finer, and the surface soft as velvet and smooth as porcelain. Features cannot be changed, but complexion can, and it is quite certain that a lady with no other charms than a fresh and rosy complexion, will attract more admiration in company than her neighbor with a classic face but a sallow skin.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and mien of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

If your horse is lame, sore or galled, you should use *Johnson's Anodyne Liniment*; wash the part with castile soap and warm water, rub dry, with a clean cloth, then apply the Liniment, rub in well with the hand.

Have the readers of the Daily Chronicle ever used any of *Parson's Purgative Pills*? If not, why not? They are the best family physic, besides being the greatest anti-billious remedy there is in this country.

SPECIAL NOTICES.

The Great Pictorial Annual.

Hostetter's United States Almanac for 1872, for distribution, *gratis*, throughout the United States, and all civilized countries of the Western Hemisphere, is now published and ready for delivery, in the English, German, French, Norwegian, Welsh, Swedish, Holland, Bohemian and Spanish languages, and all who wish to understand the true philosophy of health should read and ponder the valuable suggestions it contains. In addition to an admirable medical treatise on the causes, prevention and cure of a great variety of diseases, it embraces a large amount of information interesting to the merchant, the mechanic, the miner, the farmer, the planter, and professional man; and the calculations have been made for such meridians and latitudes as are most suitable for a correct and comprehensive NATIONAL CALENDAR.

The nature, uses, and extraordinary sanitary effects of HOSTETTER'S STOMACH BITTERS, the staple tonic and alterative of more than half the Christian world, are fully set forth in its pages, which are also interspersed with pictorial illustrations, valuable recipes for the household and farm, humorous anecdotes, and other instructive and amusing reading matter, original and selected. Among the Annuals to appear with the opening of the year, this will be one of the most useful, and *may be had for the asking*. The proprietors, Messrs. Hostetter & Smith, Pittsburgh, Pa., on receipt of a two cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood. The Bitters are sold in every city, town and village, and are extensively used throughout the entire civilized world.

FACING THE BAYONET!

When soldiers face the bayonet they take the chance of life or death; but when private citizens, deceived by the pretences of unscrupulous dealers, apply POISON TO THEIR HEADS to change the color of their hair, they have no idea of the terrible risks they run. The first analytical chemists have endorsed *one hair dye* as "free from everything deleterious to health," viz:

Cristadoro's Excelsior Hair Dye.

Let the wise and prudent stick to that. It imparts shades of color that are perfectly life-like, and is in all respects the very best.

REMEMBER, THE SWORD

is not more dangerous than the lead compounds in the market, and that the EXCELSIOR DYE *contains no lead*. As a dressing after dyeing, use

CRISTADORO'S HAIR PRESERVATIVE.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 16 BOND STREET, N.Y.

—Says an Irishman of Chicago: "Shoor, there are no people at all in the most densely populated districts, and the sidewalks is in the middle of the street."

—It is suggested that coal dealers hereafter put up the price of coal when the weather is moderate, and reduce it when the mercury falls. In this way they would make quite as much money and not pinch the poor.

AMONG OUR BOSTON CARDS, in this issue, our readers will notice one of Edward W. Collins & Co., fashionable tailors, on Temple Place. With every facility for furnishing the latest and choicest goods, Messrs. C. & Co. have the advantage of long experience in the best class of trade as regards style and fit of garments. Mr. J. Pierpont Collins, for seven years doing a large business on Washington Street, is now with this house, where he will be happy to see old friends and patrons, and to assure them that the high reputation for perfection gained by "Collins' Pantaloons" in years past will be strictly maintained. Customers from this locality will find courteous treatment from two worthy sons of old Portsmouth.

NEW ADVERTISEMENTS.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs,* No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON, After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

A Record.

At a meeting of the Delegates elect from the city of Portsmouth to the Republican State Convention, the following expression of their feelings was unanimously adopted, and ordered to be published:—

Dec. 27, 1871.

We, the delegates elect to the State Convention from the city of Portsmouth, have the pleasure of presenting the name of our townsman, HON. HORTON D. WALKER, as a candidate for Governor of this State.

Mr. Walker is a native of New Hampshire, having been born in Chesterfield, and has resided for many years in Portsmouth. He served three years as Mayor of this city, some time ago, and has just been re-elected to that office by a very large majority; he has been for eight sessions a member of the House of Representatives of this State, and two years a member of the Executive Council; for about fifteen years he has been Chairman of the Board of Trustees of the State Reform School, in which Board his unpaid services were highly appreciated; his name was prominently before the last State Convention, where he received the highest number of votes next to the successful candidate. His long experience in public life, his business habits, his well known ability and his irreproachable character, combine to make him the most prominent as well as desirable candidate for the highest office in the State.

Laconics.

The S. J. Court has adjourned.

The Concord Monitor thinks that the Republicans can elect E. A. Straw, Horton D. Walker or Samuel W. Hale to the Governship.

An alarm of fire, Thursday evening, brought out all the engines inside of one minute. The alarm was caused by a burning chimney on Brewster Street.

The Sunday School Christmas festival of St. John's church was held Thursday evening, in the church, and about 250 gifts were distributed. The exercises consisted of singing and other services. The Christmas tree was a mammoth one and was handsomely ornamented with gifts and burning tapers.

The city post-office clerks in New York have issued cards of invitation to every holder of a post-office box to make them a present. A beggarly device which merits a card of dismissal. The post office clerks in Portsmouth deserve presents, but haven't the assurance to ask for them. Remember 'em, box holders!

Keatsarge S. F. E. Co., No. 3, give their first annual ball on Monday evening next, Jan. 1, 1872, in Congress Hall. Neither pains nor expense are being spared by the company to make the ball a success in every particular. The arrangements made warrant a good time for all who may attend, and the number of tickets already taken guarantees a full floor. Harlow's band furnishes the music.

Atlantic Engine Co., No. 6, gave their fourth annual Ball on Wednesday evening, Dec. 27, in Irving Hall. The attendance was very large, and included officers and members of the other fire companies, members of the Board of Engineers and City Government, and other invited guests; the hall would have been well filled had its capacity been twice as great,—as it was, the many dancers had but little room and lookers-on none at all. But no one complained at being accidentally bumped or squeezed, and dancing was kept up with spirit until after 11 o'clock, when the company and their guests adjourned to the hall (Ward One ward room) over the engine house and partook of an abundant and varied supper, including an excellent clam chowder prepared by Messrs. Stephen D. Scriggins and Moses R. Hall. Dancing was resumed shortly before 1 o'clock, the crowd being apparently undiminished; and 3 o'clock struck before the company separated, having enjoyed a very pleasant night's entertainment.

Correspondence.

RAYMOND, Dec. 27.

Mr. Samuel Eaton of Danville, who died lately at the age of 74, left a legacy of one thousand dollars to the Freewill Baptist Home Mission Society.

The Advocate of Peace states that Rev. G. W. Thompson, of Stratham, has devised a legacy of ten thousand dollars to the American Peace Society.

New Hampton Institute has had 303 students the past year. From Rockingham County, Messrs. Bradley, Hunt and Collins, and Misses Bradley and Collins of Danville; Richardson of Hampstead; F. B. Sawyer, J. H. Sawyer, Haynes and Currier of Deerfield; Robinson, Smith, Miss B. E. Philbrick and Miss N. A. Smith of Candia.

Dec. 19, the Sabbath School of the Congregational Society in Raymond had a festival with their friends, the proceeds of which are to be appropriated towards purchasing an organ for their vestry. Considerable commotion came of it. The band having to pay for their oysters and other refreshments, abruptly left. Promenading was suppressed, and this gave dissatisfaction to some.

Dec. 10, Mr. G. E. Eaton of Candia killed a hog 12 months old which weighed 630 pounds.

Benjamin Poor, Esq., of Raymond, has given a chandelier to the Congregational Society for the use of the church. A meeting was held, Christmas evening, and the ceremony of presentation was gone through with.

A box of clothing, estimated at $30 in value, has been contributed by citizens of Raymond for the sufferers in Chicago.

J. F.

BALTIMORE, MD., Dec. 25.

Christmas is *the* holiday in Baltimore, Thanksgiving, New Year and Fourth of July are Yankee institutions, and consequently considered of no account by the pure-blooded aristocracy of Maryland, and the vast importation (since the war) of scions of the first families of Virginia. On Christmas every one who keeps house is expected to keep it open, and to have a table set out, loaded down with things to eat and drink, for the accommodation of everybody who may feel disposed to call; "egg nogg" and "apple toddy" are the principal beverages, but any particular individual who may entertain serious objections to partaking of concoctions which he may imagine might interfere with the workings of his internal arrangements, can indulge in "rye whiskey straight," and if some of it that is set out don't send the partaker thereof straight to bed with about as bad a headache as is made in these days of "benzine" drinking fluids, then he may take it for granted that he is "copper lined." But it is astonishing, the amount of egg nogg that is made and consumed here on Christmas day. Eggs rise from 20 to 30 cts. per dozen the week before Christmas, and the milkmen only can tell how much water it takes to supply the increased demand for milk. "Calling" commences early in the morning and is of course confined to the members of the male persuasion, those of the opposite sex being supposed to stay at home to deal out the eatables and drinkables and entertain the callers. It may be imagined, that when a party of men have many calls to make, that towards the last the steps seem crooked and slippery. By nightfall the callers, as well as the entertainers, are sleepy enough to go to bed; so that Christmas night is generally very quiet throughout the city.

The stores are full of articles for Christmas presents, and as everybody who can, is expected to give a present to everybody else, the storekeepers do a thriving business for a couple of weeks.

Some folks here think that it is the duty of some other folks to give them a valuable present at Christmas, whether they have ever done anything to entitle them to it or not. Servants, in particular, not only expect something very nice, but make application for what they want weeks before the day comes, so that they can have it ready to use at that time. Ladies from Virginia, who came here after the war and boast of their "blood," make the acquaintance of some plebian family who have got property, and unblushingly tell them what they want (and it is something valuable) for a Christmas present, in return for the consideration of such pure-blooded F. F. V.'s condescending to associate with such low-bred and ignorant people whose only redeeming quality is their money.

R.

MARRIAGES.

In this city, Dec. 25., by Rev. W. H. Alden, Mr. JOSIAH H. MORRISON and Miss MARY S. HILTON.

Made to Order, Repaired or Cleansed.

At short notice, and on reasonable terms.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. It does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.

Morning Chronicle.

A COBRA IN LOVE WITH A WOMAN.—A very extraordinary and astonishing incident was lately reported to have occurred a few miles from Beypore, the particulars of which are as follows:

"A native female, of a very attractive appearance, of the carpenter caste, while sweeping the yards of her house, heard a hissing noise behind her. As she turned to see what it was, she found to her terror a large cobra advancing toward her. Before she had time to call any one to her assistance, or even to go from the place, the serpent darted at her like lightning, and coiled around one of her legs, and in the twinkle of an eye darted higher and higher until it brought its open hood in contact with her face, there moving it to and fro like a screen. In this pitable and frightful position she had to remain nearly one or two days without being able to lie or sleep. None but females could approach her with milk and plantains, when the cobra turned its head to one side, and gave her ample time to nourish herself; but on any man stepping into the compound, the cobra would hiss fearfully, and tighten its hold round her body in such a manner as to make her feel breathless. Many were the conjurors who came to relieve her from the frightful condition, but none succeeded in removing the huge serpent from her person, till latterly a Nair was brought from the interior, who, after performing certain charms and spells, succeeded in disentangling the poor woman of her venomous lover. The snake quietly crept back into the bush whence it came, and the woman is now doing well. The above wonderful occurrence is now a general talk among the natives of the place.

CHEAP PLEASURE.—Do you ever study the cheapness of some pleasure? Do you know how little it takes to make a multitude happy? There are two or three boys passing along—give them each a chestnut, and how smiling they look; they will not be cross for some time. A poor widow lives in the neighborhood who is the mother of half-a-dozen children—send them a half peck of sweet apples, and they will be happy. A child has lost his arrow—the world to him—and he mourns sadly; help him to find it or make another, and how quickly will the sunshine play over his sober face. A boy has as much as he can do to pile up a load of wood; assist him a few moments, or speak a kind word to him and he forgets his toil and works away without minding it. Your apprentice has broken a mug, or slightly injured a piece of work. Say "You scoundrel!" and he feels miserable: but remark, "I am sorry," and he will try and do better. You employ a man; pay him cheerfully and speak a pleasant word to him, and he leaves your house with a contented heart, to light up his own hearth with smiles and gladness. As you pass along the street you meet a familiar face; say "good morning," as though you felt happy, and it will work admirably in the heart of your neighbor. Pleasure is cheap. Who will not bestow it liberally? We can make the wretched happy, the discontented cheerful, the afflicted resigned, at an exceedingly cheap rate. Who will refuse to do it?

SPECTACLES TO READ.—A dealer advertised eye-glasses, by the aid of which a person could easily read the finest print. A well dressed man called at the counter one day, to be fitted to a pair of spectacles. As he remarked that he had never worn any, some were handed him that magnified very little. He looked hard through them upon the book set before him, but declared he could make out nothing. Another pair of stronger power were saddled upon his nose, but as unsuccessfully as before. Further trials were made, until at length the almost discouraged dealer passed to him a pair which magnified more than all the rest of his stock. The customer quite as impatient as the merchant at having to try so many, put on the last pair and glowered through them at the printed page with all his might.

"Can you read that printing, now?" inquired the dealer, pretty certain that he had hit it right this time, at any rate.

"Sure not a bit," was the reply.

"Can you read at all?" asked the merchant, unable to conceal his vexation any longer.

"Rade at all, is it!" cried the customer; "there's not a single word among them that I can identify the features av."

"I say do you know how to read?" exclaimed the dealer impatiently.

"Out wid ye!" shouted the Irishman, throwing down the spectacles in a huff. "If I could rade, what wud I be afther wanting yer dirty glasses for?"

—The character of Dickens does not improve under the treatment of Forster, his executor and biographer, who says the great novelist had a deep and secret shame because he had once held a mean situation as a sealer of blacking bottles in his youth. The idea is ultra-snobbish.

—There is much embarrassment in Salt Lake City, owing to detention of freight trains. Some descriptions of merchandise are wholly exhausted. The weather is very bad.

—All the trains on the Central Pacific east of Sacramento, and on the California, Oregon and Visalia branches, are running on time. The damage to the road by the storm was slight.

—Hydrophobia has carried off a Chicago policeman who lovingly fondled a little dog two years ago.

—Darwin is championed by an Indiana oak who has chills and fever like any human.

NEW ADVERTISEMENTS.

AVOID QUACKS.—A victim of early indiscretion, causing nervous debility, premature decay, etc., having tried in vain every advertised remedy, has discovered a simple means of self-cure, which he will send to his fellow-sufferers. Address J. H. REEVES, 78 Nassau St., N. Y.

THIRTY YEARS' EXPERIENCE
IN THE TREATMENT OF
CHRONIC AND SEXUAL DISEASES.
A Physiological View of Marriage.

The cheapest book ever published—containing nearly three hundred pages, and one hundred and thirty fine plates and engravings of the anatomy of the human organs in a state of health and disease, with a treatise on early errors, its deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by a report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of twenty-five cents,—in stamps or postal currency,—by addressing DR. LA CROIX, No. 41 Maiden Lane, Albany, N. Y. The author may be consulted upon any of the diseases upon which his book treats, either personally or by mail, and medicines sent to any part of the world.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his Office, Nos. 7 and 9 Rollinstone Street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made. Dr. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar or they will not be answered.

Office hours from 9 A. M. to 9 P. M.

Boston, April 11, 1871. codawly

THE AMERICAN WASHER!
Price, $5.50.
The American Washer Saves Money, Time, and Drudgery.
The Fatiguing Washing Day no Longer Dreaded, but Economy, Efficiency, and Clean Clothing, Sure.

In calling public attention to this little machine, a few of the invaluable qualities, (not possessed by any other washing machine yet invented,) are here enumerated.

It is the smallest, most compact, most portable, most simple in construction, most easily operated. A child ten years old, with an hour's practice, can thoroughly comprehend and effectually use it. There is no adjusting, no screws to loosen or delay in adapting! It is always ready for use! It is a perfect little wonder! It is a miniature giant, doing more work and of a better quality, than the most elaborate and costly. One half of the labor is fully saved by its use, and the clothes will last one-half longer than by the old plan of the rub board. It will wash the largest blankets. Three shirts at a time, washing thoroughly! In a word, the ablution of any fabric, from a Quilt to a Lace Curtain or Cambric Handkerchief within the capacity of a tub, is with this LITTLE GEM! It can be fastened to any tub and taken off at will.

No matter how deep rooted a prejudice may exist against Washing Machines, the moment this little machine is seen to perform its wonders, all doubts of its cleansing efficacy and utility are banished, and the doubter and detracter at once become the fast friends of the machine.

We have testimonials without end, setting forth the various advantages over all others, and from hundreds who have thrown aside the unwieldy, useless machines, which have signally failed to accomplish the object proposed in prominent and loud sounding advertisements.

It is as perfect for washing as a wringer is for wringing. The price, another paramount object in most to purchasers, has been placed so low that it is within the reach of every housekeeper, and there is no article of domestic economy that will repay the small investment so much.

$5.50,

All that is asked for this GREAT LABOR SAVER, is a fair trial. We guarantee each machine to do its work perfectly.

THOMES & TALBOT, Publishers,
63 Congress St., Boston.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS,
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!
THEY ARE NOT A VILE FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, *free from all Alcoholic Stimulants.*
They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.
They are a Gentle Purgative as well as a Tonic, passessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

AYER'S
CHERRY PECTORAL
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.
The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely precaution. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

PACIFIC MAIL STEAMSHIP CO.'S
THROUGH LINE TO CALIFORNIA, CHINA AND JAPAN,
Touching at Mexican Ports and carrying U. S. Mail
FARES GREATLY REDUCED.

One of the large and splendid Steamships of this line will leave Pier No. 42, North River, foot of Canal St., New York, at 12 o'clock M., on the 15th and 30th of every month, (except when those dates fall on Sunday, and then on the preceding Saturday,) for ASPINWALL, connecting via Panama Railway with one of the Company's Steamships from Panama for SAN FRANCISCO, touching at MANZANILLO.

All departures connect at PANAMA with Steamers for SOUTH PACIFIC and CENTRAL AMERICAN ports. Departure of 15th, touches at Kingston, Jamaica.

For Japan and China, Steamer leaves San Francisco first of every month, except when it falls on Sunday, then on the day preceding.

One Hundred Pounds of Baggage allowed each adult. Baggage masters accompany baggage through, and attend to ladies and children without male protectors. Baggage received on the dock the day before sailing, from steamboats, railroads and passengers who prefer to send down carly. An experienced surgeon on board. Medicine and attendance free.

For freight or Passage Tickets or further information apply at the Company's ticket office, on the Wharf, FOOT OF CANAL ST., NORTH RIVER-NEW YORK, to F. R. BABY, Agent; or to the Agents for New England, C. L. BARTLETT & CO., 16 Broad street, BOSTON,

From the Albany Journal.

De Profundis.

[The young gentleman signing himself "Jackson Jefferson," and writing from Amsterdam, New York, who sends us the lines which appear below, has no occasion to embark in the flattering unction business because we print his effusion. Mr. Longfellow's lyric on which his "poem" presumably is patterned, is so peculiarly good for high, in a Parnassian as well as an Alpine sense, that those who follow in Excelsior's footsteps can only hope to accomplish a feeble "walk-around" on the lowlands as their best attempt to reproduce his champion climbing. That being the case, it was scarcely wise in Mr. Jefferson to make the venture given below. The building of parodies is perhaps never worthy the energies of an immortal soul—certainly not at a time like the present when laborers are scarce in Chicago at $3 per day and found. Having thus thrown what we regard as a becoming damper on the following verses, we cheerfully accord to them the praise of voicing a current topic in a lucid and readable manner, and of reflecting a clearness of vision in things Presidential at once creditable to the author and a source of becoming pride to his town of Amsterdam.]

Shades of despair were falling fast,
As through our native land there passed,
A "jury" dressed not over-nice,
Whose banner bore the strange device,
Anything to be agrant!

Its brow was sad; its eyes below
Wept like Niobe's in her woe,
And like despair's straw catching rung
The accents of that quersome tongue,
Anything to be agrant!

Throughout the land it saw content
Wrought by the Hero-President;
Below, the dread Salt River shone,
And from its lips escaped a groan,
Anything to be agrant!

"Try not the Pass-ive," old ones croon,
"'Taint worth a wornout picayune,
The Saline torrent is deep and wide"—
And loud that desperate voice replied,
Anything to be agrant!

"O, stay," Columbia said, "and rest,
Quit politics—go farm the West"—
A tear stood in its bloodshot eye,
But still I jammed with a sigh,
Anything to be agrant!

"Beware George Wilkes and his weak branch,
Beware the ballot's avalanche!"
Thus spake the people from good-will;
A voice replied far down the hill,
Anything to be agrant!

On election day when the Union buses
Itself to re-elect Ulysses,
And deals the job with votes to spare,
A voice yells through the Autumn air,
Anything to be agrant!

A corpse deep buried in the ground,
The 'Lectoral College fellows found,
Still grasping in its unchurned hand
That platform hard to under-stand,
Anything to be agrant!

There 'neath the river cold and salted,
Lifeless and carrion-food it halted,
And freemen hear as they rejoice,
A cry wrung from a passive voice,
Anything to be agrant!

DID COLUMBUS DO A BAD THING?—The Hartford Courant hardly knows whether Columbus did a good thing or not in discovering this country, and moralizes thus:

"The Indians never thanked him, for one party. The Africans had small ground to be grateful for the market he opened for them. Here are two continents that had no use for him. He led Spain into a dance of great expectations which ended in her gorgeous ruin. He introduced tobacco into Europe, and laid the foundation for more tracts and nervous diseases than the Romans had in a thousand years. He introduced the potato into Ireland, indirectly, and that caused such a rapid increase of population that the great famine was the result, and an enormous emigration to New York—hence Tweed and Hall and the constituency of the Ring. Columbus is really responsible for New York."—This reminds us of Artemus Ward's remark, that it would have been money in Christopher Columbus's pocket if he'd stayed at home and put his funds into a circus.

—Oliver Elmore, the "hermit of Winhall River," Vermont, died from the effects of exposure last week at the foot of Stratton mountain, where he has lived for thirty years in a hole dug in a hill, with no companion save his dogs and hens. When a young man he resided in Connecticut and was driven to this strange life by the death of a woman whom he loved and was to marry. He had many wealthy and influential relatives in that State—among them a member of Congress—who had often tried to induce him to abandon his singular habits, but without avail.

—Captain Burton, the African traveller, has boned a collection of skulls from Palmyra, and will exhibit them in England. He also has the skeleton of a man eleven feet high.

—A Connecticut paper says that a lawyer hung out his shingle in the town of Bethel, in that State, but left after a year, having had only one case—that was inflammatory rheumatism.

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrk of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and improprieties in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold, Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

BANKERS
and Dealers in Government Securities,
No. 5 Nassau Street.

New York, Nov. 20, 1871.

The successful and rapid negotiation of nearly three-fourths of the FIFTEEN MILLION LOAN OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, and the energetic prosecution of the work of extension and preparation for the road for an extensive mineral, agricultural, and through traffic, have placed the financial affairs and resources of the Company upon such a basis, that we are directed to advance the price for future sales of the Bonds, as explained in the following letter of Mr. HUNTINGTON, President of the Company:

OFFICE CHESAPEAKE & OHIO RAILROAD COMPANY
54 William Street, New York,
NOVEMBER 18, 1871.

MESSRS. FISK & HATCH,
Bankers and Financial Agents C. & O. R.R. Co.:
Gentlemen:
The Western Division of the Chesapeake and Ohio Railroad, comprising the 95 miles between Huntington, on the Ohio River, and the mouth of New River (above the Falls of Kanawha), is now substantially completed, and will, in a few days, be ready to do the immense coal and other business that is awaiting its completion. The Eastern Division, comprising 227 miles, between White Sulphur Springs and Richmond, is now in complete order and successful operation. The grading and masonry on eleven of the 102 miles, between the mouth of New River and White Sulphur Springs, is complete, and the work on the remaining 91 miles is so far advanced that tracklaying will be commenced on this portion of the road in May next, and continued without interruption until the whole line is completed.

In view of these facts, you are hereby directed to make no further sales of the Bonds of said Company at a less price than 94 and accrued interest, at which price you will continue to sell until further orders.

Very respectfully yours,
C. P. HUNTINGTON, *President.*

In compliance with the foregoing instructions, the price of the Bonds, from this date, until further orders, will be 94 and accrued interest.

The scarcity of, and demand for, really

Desirable six per cent. Gold Bonds,

for solid and permanent investments, is evinced by the facts that

Five-Twenty Bonds of 1867 are selling at...115
Central Pacific Bonds are selling at.....103
Chesapeake & Ohio Bonds are selling at..94

These bonds all pay both principal and interest in New York City, in U. S. gold coin, and are equally safe for investment.

The reason why FIVE-TWENTY BONDS are so high is because no more can be issued, and the outstanding amount is being rapidly decreased by purchases by the Government from their surplus revenues.

The reason why we think CENTRAL PACIFIC BONDS will be time advance to the price of Five-Twenties, is because no more can be issued; while the operation of their Sinking Fund will soon commence to decrease the amount.

The reason why CHESAPEAKE AND OHIO BONDS are selling so low, comparatively, while equally safe, is because the Company are selling Bonds to complete the road. They will all be sold in a short time, and in a few months the road will be finished, when we have no doubt the same result will follow as with the FIVE-TWENTIES and CENTRAL PACIFIC Bonds. The Sinking Fund of the Chesapeake and Ohio must go into effect within one year after the completion of the road.

The **Chesapeake & Ohio Bonds** are issued either coupon or registered—the denominations are as follows:

$100, which cost to day.....$94.13
$500 " " " 471.50
$1000, " " " 943.12

Orders for Chesapeake and Ohio Bonds, may be sent through any National Bank or Banker; or accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange, will be sent by return Express, charges paid.

We buy and sell Government and Central Pacific Bonds, and receive them in exchange for Chesapeake and Ohio Bonds.

Accounts of banks, bankers and others received, *on which we allow interest at the rate of four per cent. per annum.*

FISK & HATCH.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
NO. 76 STATE ST., OPPOSITE KIDBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Examinations made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in form to secure for them as early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of greatness of ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

The Daily Chronicle,

Portsmouth, N. H.

SATURDAY, DECEMBER 30, 1871.

New Hampshire Items.

Mumps is the particular vanity now prevailing in Rochester.

On the 15th, in Tamworth, the barn of Mr. A. P. Cooley, with several tons of hay, was accidentally burned.

On the 21st, in Fitzwilliam, Mr. Joseph Ferrein walked barefoot two miles with the thermometer not less than twelve degrees below zero.

The Exeter delegates have been instructed to favor Hon. Charles H. Bell as Republican candidate for Governor. The Keene Sentinel nominates Hon. Samuel W. Hale of that place.

A young man named Luke W. Balch has finally been detected in stealing from his employer, Mr. H. C. Merrill of Manchester. On a salary of twelve dollars a week he had laid up $3000 out of Mr. M. in two years, besides supporting a wife. The Attorney General picked up the matter after Mr. Merrill had concluded to let it slide, having obtained his money.

A Barnstead dog which was boxed up and sent to Lowell, Mass., found its way back on foot, and no money in its pocket.

Seabrook sends the following delegates to the various conventions:—*State*—John N. Brown, A. A. Lock; *Councillor*—Rob't Collins, John H. Weare; *Senatorial*—Emery Brown, Chas. H. Sanborn; *County*—David F. Boyd, J. H. Weare.

THE STATE CONVENTION.—The Republican State Convention which will be held at Concord on Wednesday next, promises to be an unusually large and harmonious gathering. So far as we can judge it will be the main purpose of the delegates to organize victory. To that end but one question will be asked outside of Manchester, Portsmouth and Keene, the homes of the most prominent candidates for the gubernational nomination, and that question will be, Who is the best and strongest man? We confess that it is a pretty hard question to answer notwithstanding the light shed upon it by the newspapers and politicians of Manchester, Portsmouth and Keene. It is plain enough that Mr. Straw, Mr. Walker or Mr. Hale would make an excellent governor, and we doubt not that one can be elected about as easily as another. The choice seems to be pretty much narrowed down to Mr. Straw and Mr. Walker, and as either would be the right man in the right place as candidate for governor, the convention stands in no danger of making a mistaken nomination. So far as a candidate is concerned, the convention will have no serious obstacle to overcome. With the utmost serenity and confidence it can leave that question to the arbitration of the ballot.—*Nashua Telegraph.*

—The Republican State Convention which is to meet at Concord on Wednesday next will be of more than ordinary importance and interest. A new candidate is to be presented for Governor, and as the Republicans have made up their minds to carry the State this Spring against all opposition, it becomes them to adopt as their candidate their very stongest and most popular man. The prominent men mentioned in this connection are all of unexceptionable character and men of sterling integrity and ability, so that as regards capacity, excellent reputation and personal qualifications for the higher position, the Convention can hardly make a mistake in nominating whoever may be its choice. What the Convention should do, is to select one, who, other qualifications being equally acceptable, will bring the greatest strength to the ticket. Let us do this, and supplement this action with a brief, clearly expressed, progressive platform, and then let the various delegations from all parts of the State go home and work together harmoniously and heartily for majorities. The result of such action would be the utter extinction of the dry bones of Democracy.—*Dover Enquirer.*

—In the matter of the next Republican candidate for Governor no one of several gentlemen adapted to the position, and whose name is before the people, has gone into the field as a runner or drummer in his own behalf. This is certainly the case with the two most conspicuous candidates, Mr. Walker, of Portsmouth, and Mr. Straw, of Manchester; and it therefore will come to pass this year, as last, that our candidate for chief magistrate will be a gentleman who elbowed no one, and crowded no one in reaching the head of the ticket.—*Coos Republican.*

—The Republicans of New Hampshire seem to be indisposed to select their candidate for Governor from among those who have been plotting and planning for the honor.—*Boston Times.*

DR. CALEB SANBORN, the well known Thomsonian physician of South Berwick, died on the 27th, from, as supposed, cancer in the stomach. He had practiced in South Berwick for over thirty years. Deceased was about sixty years of age, and leaves a wife and a large family of children.

THE WORKMEN at the Philadelphia Navy Yard are complaining that they do not have their share of the Navy work.

A GOOD ONE.—William A. Cromwell, Esq., of South Berwick, Me., sends the following to the Biddeford Journal. There are indications that the "Ring" which has ruled York county by main force and stupidity, is coming to grief. Says Cromwell:—

The preliminary campaign for the selection of Legislative and State officers for the ensuing political year presents the anomaly of a trafficing "Ring," with headquarters alternating between Augusta, Portland and Saco, who are attempting to foist from their own ranks, upon the Legislature and the State, a coterie of officers for the several places in view, embracing not only the Speaker and Clerk of the House, President of the Senate, and Secretary of the State, but a Representative to Congress from the first District at the next Convention.

As I feel disinclined to embarrass these gentlemen in their patriotic and charitable purpose to relieve the people in the one instance, and the Legislature in the other, of the trouble of selecting honest men for the offices, and feeling desirous that they may reap and enjoy the commensurate reward for their industry which the people not only of this Congressional district but of the State will hereafter give them, will you permit me to state through your columns, that I am no longer to be considered by my friends as a candidate for the clerkship of the House of Representatives, nor indeed for any other office at the present time, if ever.

THE FOLLOWING LETTER concerning the selection of a Republican candidate for Governor, we take from the Journal:—

Mr. Editor:—As some articles have appeared in several Boston papers since the delegates to represent this city in the State Convention next week were chosen, giving the impression that most, if not all, of those delegates were in favor of nominating a Manchester man as the Republican candidate for Governor, I deem it proper that it should be known that those articles did not convey the truth to the readers of those papers. None of the delegates were selected in reference to any particular candidate for the office in question. All are unpledged, and will go in the main for some man who has not sought the office as they greatly prefer that the office should seek the man than that the man should have sought the office. Office seeking is getting unpopular in the capital of the Granite State.

The last four men who have been elected Governor of this State were citizens of this Congressional District; two of them of Concord, and two of Manchester. Railroads and other corporations have had much to do in securing men to fill the office of Governor of late years, and the people are opposed to tolerating too much corporation influence in State politics. But it is said Manchester will give a decided Republican majority, if a Manchester man shall be the nominee, and if a Manchester man is not to be the candidate, then no Republican majority must be expected in that city. Does *office* have more influence than *principle* in that city?

Mr. HALE, of Keene, is named by many well informed men as a suitable and proper man for Governor, and he will have many friends in the Convention next week, as will also one of the citizens of your own city; and neither of these gentlemen is considered an office seeker. The U. S. District Attorney and the U. S. Marshal for this State, and three of the six Judges of the Supreme Court, reside in this city, and of course in this Congressional District, and I think it is but fair and proper that the candidate for Governor shall be selected next Wednesday from either the First or Third Congressional District. Merrimack County will favor such movement strongly. MERRIMACK.

CONCORD, Dec. 26.

Club Organizations.

HAMPSTEAD.—*President*, Caleb Moulton; *Vice President*, N. C. Smith; *Secretary*, John C. Little; *Treasurer*, Amos Buck; *Executive Committee*, J. W. Garland, W. H. Davis, E. S. Tabor, J. W. Marble, Charles George, Horace Adams, C. W. Williams and H. B. Carter; *Delegates to the State Convention*, Daniel H. Emerson and P. H. Shannon.

BRENTWOOD.—*President*, John W. Dudley; *Vice Presidents*, Joseph B. T. Graves, Geo. D. Bartlett; *Secretary*, Arthur W. Dudley; *Executive Committee*, Leroy S. Smith, Wm. H. Veasey, Jonathan W. Robinson, Chas. C. S. Stevens; *Delegates to State Convention*, Frederic Robinson, George K. Russell; *Councillor*, John W. Dudley, Joseph B. T. Graves; *Senatorial*, Jonathan W. Robinson, Wm. H. Veasey; *County*, D. Frank Fellows, John S. Stevens.

DANVILLE.—*President*, Elisha Quimby; *Vice President*, Bailey Sargent; *Secretary*, G. M. Anderson; *Treasurer*, A. P. Quimby; *Executive Committee*, John Elkins, Nelson Eastman, Levi Hoyt, Oliver Hunt, John F. Currier; *Delegates to State Convention*, John Elkins, A. E. Colby. *Councillor*, Bailey Sargent, I. Dimond.

SENSIBLE TALK.—P. T. Barnum, long a temperance worker, writes to the Bridgeport Standard discountenancing the movement of temperance men for a separate policy party, considering it inexpedient and impolitic. He regards it as a movement very likely to result in "setting back the temperance reform ten years at the very least." He further says to his co-workers in the cause: "Let us continue most faithfully to enlighten public opinion in regard to this gigantic curse of our country; but do not let us cut our throats by attempting a political side issue this time."

OLIVE LOGAN had two engagements to fulfil on the same day, recently. One was to be married to Wirt Sykes, and the other to deliver a lecture at Warwick, N. Y., in the evening: Olive did both—and possibly threw in a curtain lecture to Wirt.

GEN. BUTLER delivered a speech at Provincetown, Mass., Dec. 23d, on the Treaty of Washington, especially the fishery clause. The meeting was large and enthusiastic.

THE SOUTH CAROLINA KU-KLUX are getting punished, in a measure. Those who pleaded guilty have received the following sentences; John W. Mitchell, five years' imprisonment and a fine of $1000; Sherard Childers, William Montgomery, Evan Murphy, Hezekiah Paster, P. H. Mitchell, Sylvanus Shearer, Hugh Shearer, William Shearer and James Shearer, each] eighteen months' imprisonment and a fine of $100; Dr. T. B. Whitesides, one year's imprisonment and a fine of $100; John S. Mills, three months' imprisonment and a fine of $20.

BASE BALL. — Dave Birdsall is retained in the Boston nine.

BUSINESS NOTICES.

TO THOSE WHO ARE BOWED DOWN by nervous Debility, and despair of ever recovering the vigor and mien of manhood we earnestly recommend DR. WALKER'S CALIFORNIA VINEGAR BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their broken-down systems, and hope will spring up in their hearts. No case of Dyspepsia, Biliousness, Intermittent Fever, Rheumatism, Gout or Kidney Disease, can resist this unequalled vegetable tonic, which is undiluted by any distilled or fermented liquor. 4wd10

"There was a frog who lived in a spring,
He caught such a cold that he could not sing."

Poor, unfortunate, Batrachian! In what a sad plight he must have been. And yet his misfortune was one that often befalls singers. Many a once tuneful voice among those who belong to the "genus homo" is utterly spoiled by "cold in the head," or on the lungs, or both combined. For the above mentioned "croaker" we are not aware than any remedy was ever devised; but we rejoice to know that all human singers may keep their heads clear and their throats in tune by a timely use of Dr. Sage's Catarrh Remedy, and Dr. Peirce's Golden Medical Discovery, both of which are sold by druggists. 570.

If your horse is lame, sore or galled, you should use *Johnson's Anodyne Liniment*; wash the part with castile soap and warm water, rub dry, with a clean cloth, then apply the Liniment, rub in well with the hand.

Have the readers of the Daily Chronicle ever used any of *Parson's Purgative Pills*? If not, why not? They are the best family physic, besides being the greatest anti-billious remedy there is in this country.

SPECIAL NOTICES.

The Great Pictorial Annual.

Hostetter's United States Almanac for 1872, for distribution, *gratis*, throughout the United States, and all civilized countries of the Western Hemisphere, is now published and ready for delivery, in the English, German, French, Norwegian, Welsh, Swedish, Holland, Bohemian and Spanish languages, and all who wish to understand the true philosophy of health should read and ponder the valuable suggestions it contains. In addition to an admirable medical treatise on the causes, prevention and cure of a great variety of diseases, it embraces a large amount of information interesting to the merchant, the mechanic, the miner, the farmer, the planter, and professional man; and the calculations have been made for such meridians and latitudes as are most suitable for a correct and comprehensive NATIONAL CALENDAR.

The nature, uses, and extraordinary sanitary effects of HOSTETTER'S STOMACH BITTERS, the staple tonic and alterative of more than half the Christian world, are fully set forth in its pages, which are also interspersed with pictorial illustrations, valuable recipes for the household and farm, humorous anecdotes, and other instructive and amusing reading matter, original and selected. Among the Annuals to appear with the opening of the year, this will be one of the most useful, and *may be had for the asking*. The proprietors, Messrs. Hostetter & Smith, Pittsburgh, Pa., on receipt of a two cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood. The Bitters are sold in every city, town and village, and are extensively used throughout the entire civilized world.

FACING THE BAYONET!

When soldiers face the bayonet they take the chance of life or death; but when private citizens, deceived by the pretences of unscrupulous dealers, apply POISON TO THEIR HEADS to change the color of their hair, they have no idea of the terrible risks they run. The first analytical chemists have endorsed *one hair dye* as "free from everything deleterious to health," viz:

Cristadoro's Excelsior Hair Dye.

Let the wise and prudent stick to that. It imparts shades of color that are perfectly life-like, and is in all respects the very best.

REMEMBER, THE SWORD

is not more dangerous than the lead compounds in the market, and that the EXCELSIOR DYE *contains no lead*. As a dressing after dyeing, use

CRISTADORO'S HAIR PRESERVATIVE.

LOCAL AFFAIRS.

City Council.

On Thursday evening, the board of Mayor and Alderman adopted the plan for grading Lincoln Avenue as drawn by Mr. A. M. Hoyt.

Aldermen Marvin and Annable were appointed to audit the city accounts.

The bill for reorganizing the Fire Department was referred to the next City Council.

Ordered that the printing of the city accounts be let out to the lowest bidder.

The use of the Ward Room of the 2d Ward was granted the Catholics for Sundays.

The committee on school houses reported that a bell and belfry at the Cabot Street School House would cost $500.

County Officers.

It is a matter of considerable importance to all citizens of Rockingham County, and especially of Portsmouth, (so long as we support our City Almshouse, and pay so large a portion of the expenses of the County House too,) that good men be selected for County officers, especially the Commissioners. It would seem that this city, paying about two-fifths of the County tax, should never be without a representative among the Commissioners; and it need not be, if its claims are properly presented at the Convention. And an item of secondary importance, but worthy of consideration, is the fact that Commissioners resident in the lower or middle section of the County can visit the Courts, sessions of the Commissioners or the County House, at far less cost for time and travel than if residing in the upper towns,—the difference being several hundred dollars in a year. Portsmouth tax-payers and traders are entitled to more consideration from the County Commissioners, than they have often received; and we ask our city delegation to the Convention to agree upon a suitable candidate, and stick to him.

Laconics.

Owing to causes over which we have no control, we shall issue the CHRONICLE no more this year.

It is reported that Mr. Wm. M. Thayer is desirous to become a Custom House Inspector.

The Steamer Enterprise is running as a freight boat between Boston and Gloucester during this winter season. She is paying very well.

The fourth lecture of the High School course, at Kittery, will be given next Monday evening, by Mr. Calvin Hayes of Kittery. Subject; Army Reminiscences.

Mr. Henry K. Leaver of Concord, formerly a clerk in the machine shop at the Navy Yard, is promoted to Chief Clerk of the 1st Auditor's Office at Washington.

Rev. W. H. Alden will commence his second series of lectures on "Scenes and Society in the Holy Land," on Sunday evening, Dec. 31, in the Middle St. Baptist Church. Services to commence at 7 o'clock.

Services in St. John's Church will be held to-morrow, (Sunday,) as usual at 10 1-4 o'clock A. M. and 2 3-4 o'clock P. M. The contrary announcement in the Portsmouth Journal was an unintentional error.

The "special dispatch" which the Collector's custom house organ says was sent from this city to the Boston papers, in regard to a "wild man," was sent from San Francisco! Too bad to spoil such a nice yarn, isn't it?

The "Happy New Year" for 1872, published by Mr. Frank W. Robinson of this city, is one of the best edited amateur papers we have seen, and as a specimen of fine printing will bear comparison with the best work of more widely-known offices. Mr. Robinson's natural taste for the business enables him to readily do what most others can accomplish only after years of instruction and experiment, viz: plan and execute a very handsome "job" of printing; and the make-up, register and press work of the little 8-page annual now before us are all perfect.

....Since the disastrous fire at Gosport which robbed the inhabitants of the luxuries and in too many cases comforts, of life, that little "isle of the sea" has gradually become crippled in growth for the want of money. There are but nine families left, and the debt is $5534.31. Truly, theirs is a case which deserves substantial sympathy.

....Early risers now get a good view of Venus as she rises in the firmament as the Morning Star. Her beauty and splendor, however, are seen by but few except policeman out on duty.

....The customary watch-meeting of the Methodist Church will be held at their church as usual. Services appropriate to the old and the new year will be given.

....The Eastern Railroad have two first class cars. Nos 60. and 90. nearly finished at the Taunton car works. They promise to excel anything yet on this road.

....Rev. Dr. Peabody is to preach the annual sermon before the Massachusetts Legislature on election day.

WHERE, oh, where is the Statesman Political Manual for this year?

Correspondence.

SEABROOK, Dec. 28.

The neighborhood about the depot in Seabrook, known as the Farm Lane, has always been rather famous for rows and tumults; but recently, since the groceries near the depot have taken to selling cider by the glass and otherwise, the disturbances have been more frequent than ever. The proximity of the town lockup, and a policeman being proprietor of one of the groceries alluded to, should be some sort of a guarantee against riot and drunkenness; but if a man deals out riot and row by the glass he cannot be expected to display much enterprise in quelling disorder and tumult.

On the 23d of December, Hiram Gove, otherwise known as "Tooney," Lewis Dow and George Felch commenced to celebrate Christmas in a manner very objectionable to the residents, — knocking people down and smashing property pretty much as they (or the rum in them) pleased. Warrants have been issued for their arrest, but they have cleared out to avoid receiving their just deserts. George Felch is a younger brother of Wm. Thomas Felch, who figured before the Portsmouth police court recently and is now awaiting trial before a higher tribunal; and it will be a glad day for many of their neighbors when the pair are properly taken care of.

The Christmas evening festival at South Seabrook was very successful, over five hundred persons being present, including some two hundred children and youth. The Atlantic Cornet Band furnished music for the occasion. Santa Claus in costume appeared at 8 o'clock, was received with shouts by the children and "Hail to the Chief" by the band, and at once proceeded to distribute the gifts,—among others a handsome silver cake-basket, a present from the band to Mr. E. A. Chaplin of Georgetown, Mass., who has been their teacher since their organization two years ago; a set of silver teaspoons to Mrs. Lowell B. Dow, who has gratuitously lodged the teacher, and a beautiful dress pattern to Mrs. Martha Eaton, who has rendered great assistance in forwarding this and other social gatherings. But the children were most pleased with the distribution of two hundred bags of candy, made and filled by some Newburyport friends. About twenty visitors were present from Newburyport, and expressed themselves much pleased with the entertainment. The receipts at the door were $50. Policemen Brown, Bickman and Eaton maintained good order, although liquor was freely dealt out in the house next the vestry, for the purpose of inciting trouble. Q.

A FREE FIGHT.—On Saturday evening, Abel Eaton and Abel Souther of South Seabrook, while returning home from this city, were saluted with some opprobrious sounds while passing the parade ground at East Salisbury. They turned to avenge the supposed insult, and chancing to see George Lord, a clerk with Mr. Samuel Chapin, just coming out of the store, they pitched into him. He was getting the better of them, when George Bragg, a former resident of South Seabrook, came to the rescue of his old companions, and the three handled Mr. Lord somewhat severely. The assaulting party were promptly arrested by Constable Pillsbury and taken to the Salisbury lock-up. On Monday morning they were taken before trial Justice Cate, when Bragg was fined $24 and costs and put under $200 bonds to keep the peace for six months. Eaton was fined $22 and costs; and Souther $14 and costs.—*Newburyport Herald.*

THE INDEPENDENT GAZETTE is a neatly printed weekly just issued at Lancaster by Emerson, Hartshorn & Co. It is to be "devoted to local, political, and general information, miscellany, agriculture and correspondence," and bears evidence of being ably and carefully conducted and edited.

—A horrible case of neglect occurred in Hartford last week, a friendless man who had fallen down a staircase, while intoxicated, and received dangerous injuries, being left to die in an old building without care. He lingered three days so neglected that the cats fed on his wounds, and finally died on Friday. His injuries were not fatal and only demanded good care.

—The inquest on the body of Mrs. Klanner, killed with a hatchet by her daughter-in-law, Mrs. Wisert, in Louisville, Ky., last Saturday, revealed the probability that the murderess was deranged on the subject of crime from reading flash literature.

—William Stone of Holland, Connecticut, had his wrist nearly sawn off by a circular saw at Union on Friday, and soon died of the wound.

DEATHS.

☞ The Funeral of the late Mrs. RUTH ODIORNE will take place from the residence of Mr. William D. Fernald, No. 14 Deer Street, Saturday, at 11 o'clock, A. M.

In this city, Dec. 29, Mrs. HATTIE E. BELL, wife of Mr. Meshech H. Bell, aged 25 years. Maine papers please copy.

☞ Funeral at M. E. Church, on Sunday afternoon, at half-past two o'clock.

Republican Conventions.

SEWING MACHINES

CHEAP AT LAST!

Having received a large number of Sewing Machines (including nearly all kinds) in

EXCHANGE FOR THE "DOMESTIC,"

I am prepared to offer them at very low prices. Many of them have not been in use more than a month, and are actually better than new case of the same make, because they have been run just enough to make them work easily. They accumulate so fast that I must dispose of them soon or be over-run with second-hand Sewing Machines. So now is your time to buy cheap, either for cash or by instalments. I still continue my offer of

$10 REWARD!

to all who will exchange the

"DOMESTIC"

Sewing Machine for any other kind that has had about the same amount of usage.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1st of January next, will have a consideration allowed them.

Morning Chronicle.

DANGER SIGNALS FOR MARINERS.—Mr. Theodore F. Townsend, observer in charge of the signal office at Cape May City, N. J., has submitted to the central office in Washington a plan by which ships at sea, within sight of land from ten miles south of Cape Henlopen to New York city, may be warned of approaching danger from his office by the use of General Myer's system of signals, which are to be repeated from light-houses and life-saving stations along the coast. It has been submitted to the Treasury department by the chief signal-officer with a few practical suggestions, and will probably be adopted. An extended use of Mr. Townsend's plan will enable shipping off the coast of the United States to take advantage of the predictions of the signal corps, which now amount to almost absolute certainties.

SENATOR SPRAGUE'S ENCOUNTER WITH A BUFFALO.—Senator Sprague visited Kansas a few weeks ago, and, like all visitors, wanted to see the buffalo on his native heath. Accordingly, Benjamin Akers, Esq., of this city, got up a party, and with the Senator, went out to the buffalo country. A few miles from Fort Wallace they found the bisons in thousands, and the hunters "went in." Mr. Akers singled out an old patriarch of the herd, chased him a few miles, and after a few successful shots, brought him down. After his own game was secure, he commenced looking around for the rest of the party. The Senator had also singled out an old bull, had driven him apart from the rest of the herd, and was in a little ravine about two miles distant from Akers, but in plain view. The buffalo had been wounded, and showed fight. The Senator would pursue him for a short distance, but would then be compelled to turn his horse's head in the other direction, and get out of the way of the maddened animal; once, in wheeling suddenly, his horse fell and the bull was right upon him in an instant. Akers says this was one of the closest calls he ever saw—so close, indeed, as to leave no doubt in his mind that there would very soon be a necessity for a special Senatorial election in Rhode Island, "to fill vacancy;" but in the nick of time the valiant Senator regained his seat in the saddle and was off like the wind, his horse being stimulated by a sharp "punch" from the bull's horn. It seems that Mr. Sprague had pursued the animal closely, fired several shots upon him, wounding him severely, but not fatally, and that his ammunition had then given out; Mr. Akers, comprehending the situation, came to his assistence and reinforced him with a few rounds, when the bull was promptly brought down. The Senator brought in with him the head of the animal, and is having it "cured" to take home, as a trophy of his skill and prowess as a buffalo hunter.—*Leavenworth (Ka.) Times.*

—Electricity has achieved a new triumph. Already employed to restore vigor and nimbleness to gouty limbs, the recent discoveries of Dr. Bernier, a French physician, show electricity to be an efficient remedy for the evil effects of excessive drinking on the human nose. The doctor maintains that by application of an electric current to noses even of the most Bacchic hue, the flesh may be made "to come again as the flesh of a little child," and supports his assertion by a case performed on a female patient of his own, a woman of high rank. "Knights of the Burning Lamps," who have still some regard for personal appearance, will appreciate Dr. Bernier's discovery, as it promises them immunity from the dreaded outward testimony to their pet vice. There is one danger, however, in the discovery, namely—its tendency, if confirmed, to encourage the growth of secret intemperance.

APPROPRIATE EXPLANATION.—A certain professor of legerdemain and ventriloquism, about commencing his performance at Hannibal, Mo., bethought him that this town was far away from the centres of civilization, and that it would be well to precede his exhibition with a few graceful words of explanation and warning, to promote application and to prevent any possible fright on the part of the ladies. "Ladies and gentlemen," said he, "you must not be frightened at what you hear, nor imagine that it is done by means of spirits. You'll hear a voice sometimes up atop of the chimbly, and sometimes down in the seller, but don't be skeered; the sounds ain't up thar, nor down thar. I make 'em all myself away deep down (suiting the action to the word) in my innards, and that's the reason they're called guttural sounds." This explanation was received with great enthusiasm.

—Chicago had one of her newsboys up on Monday, under the morality ordinance, and the plucky little *gamin* made his own defence to the magistrate as follows: "You'un is mighty hard on we'uns. We's got to grub our hash, sellin' papers, and how you'uns s'pose we's going to keep moral when one ed'tur let's a 'oman lick him and calls another ed'tur a liar, while the rest on em sits roun' an' says, 'St 'boy, sick 'em!' Daufino how to do it." They let him pass.—*Chicago Post.*

—Charles R. Burroughs was found dead by a sheriff, who went to serve an attachment on him, sitting in two chairs in his house in Patterson, N. J. He committed suicide by poison on the 10th of December, the body remaining frozen stiff till found in his room on the 17th.

THIRTY YEARS' EXPERIENCE
IN THE TREATMENT OF
CHRONIC AND SEXUAL DISEASES.
A Physiological View of Marriage.
The cheapest book ever published—containing nearly three hundred pages, and one hundred and thirty fine plates and engravings of the anatomy of the human organs in a state of health and disease, with a treatise on early errors, its deplorable consequences upon the mind and body, with the author's method of treatment—the only rational and successful mode of cure, as shown by a report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of twenty-five cents, in stamps or postal currency, by addressing DR. LA CROIX, No. 31 Maiden Lane, Albany, N. Y. The author may be consulted upon any of the diseases upon which his book treats, either personally or by mail, and medicines sent to any part of the world.

IMPORTANT TO THE AFFLICTED.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott Street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving a description of your complaint.
To Females in Delicate Health:
Dr. Dow, since 1845, having confined his whole attention to a peculiar practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
GREATER CURE in all cases at no charge made.
DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
N. B.—All letters must contain one dollar or they will not be answered.
Office hours from 8 A.M. to 9 P.M.
Boston, April 11, 1871. eodawly

THE AMERICAN WASHER!
Price, $5.50.
The American Washer Saves Money, Time, and Drudgery.
The Fatigue of Washing Day no Longer Dreaded, but Economy, Efficiency, and Clean Clothing, Sure.
In calling public attention to this little machine, a few of the invaluable qualities (not possessed by any other washing machine yet invented,) are here enumerated.
It is the smallest, most compact, most portable, most simple in construction, most easily operated. A child ten years old, with a few hours' practice, can thoroughly comprehend and effectually use it. There is no adjusting, no screws to annoy, no delay in adapting! It is always ready for use! It is a perfect little wonder! It is a miniature giant, doing more work and of a better quality, than the most elaborate and costly. One half of the labor is fully saved by its use, and the clothes will last one-half longer than by the old system of the rub board. It will wash the largest blanket. Three shirts at a time, washing thoroughly! In a word, the ablution of any fabric, from a Shirt to a Lace Curtain or Cambric handkerchief, are equally within the capacity of this LITTLE GEM! It can be fastened to any tub and taken off at will.
No matter how deep rooted a prejudice may exist against Washing Machines, the moment this little machine is seen in operation, all doubts of its cleansing efficacy and utility are banished, and the doubter and detractor at once become the fast friends of the machine.
We have testimonials without end, setting forth its numerous advantages over all others, and from hundreds who have thrown aside the unwieldy, unclean machines, we have signally failed to accomplish the object promised in prominent and loud sounding advertisements.
It is no perfect for washing as a wringer is for wringing. The price, another paramount inducement to purchasers, has been placed so low that it will place it within the reach of every housekeeper, and there is no article of domestic economy that will repay the small investment so soon.
$5.50,
All that is asked for this GREAT LABOR SAVER, is a fair trial. We guarantee each machine to do its work perfectly.
A. H. FRANCISCUS & CO.,
513 Market St., Phila., Pa.,
SOLE AGENT FOR THE UNITED STATES.

THE CLAIM OF SUPERIORITY
Is often made for
ARTICLES OF GENERAL USE,
But the claimants often find it easier to assert such superiority than to readily prove it by practical tests.

After a long and thorough test of
BOOTS AND SHOES
FASTENED WITH
CABLE SCREW WIRE,
These goods were pronounced by the patentee to be
THE BEST
In the market for Pliability, Durability, and Economy. This claim has received
Full Endorsement
From Manufacturers! From Dealers! From Consumers!
Testimonials as to the superiority of this mode of fastening, over either Sewed or Pegged work, have been published by scores in Boston dailies, from leading makers and dealers throughout the country.
Cable Screw Wire goods are peculiarly adapted for our inclement winters, on account of their Waterproof qualities.
Every grade, from the heaviest FISHING, HUNTING, DRIVING, or WALKING BOOT, to a DRESS BOOT or LADIES' SLIPPER, is best made with his most excellent of all fastening.

63 Congress St., Boston.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS,
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!
THEY ARE NOT A VILE FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetisers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying out all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.
They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfw8w
J. WALKER, Prop., R. H. McDONALD & CO. Druggists & General Agents, San Francisco, Cal., and 32 & 34 Commerce Street, New York.

Ayer's Cathartic Pills,
For all the purposes of a Family Physic,
CURING
Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Billiousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,
Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.
